Chapter 888: Sudden Wealth, Undying Bird Fruit! (3)

However, Levi could not be bothered with other people's family matters. He only needed to carry out orders.

The culprit who burned Mr. Tim alive was Master of Flames, who was hunted down by Riemann 90 years ago. He was a senior third-circle wizard at that time. Nearly a hundred years later, he had already stepped into the fourth-circle realm and came to seek revenge.

"Where is the Master of Flames now?" Levi asked casually.

"He's still in Hot Wind Harbor. I don't recommend you to look for him. You might have some trump cards, but he's a genuine Fourth-Circle Wizard. He's been preparing for this revenge for a hundred years," she said.

"Levi, don't go. Are you going to avenge Mr. Tim?" Marlene's expression changed.

"Teacher, it's not that. I'm just asking." Levi smiled.

"I'll let Master of Flames jump around for a few more days. When I return to the human world, I'll go and take him in," he thought to himself.

This time, he was still focused on the mission, so he would not be unrestrained.

After leaving the secret realm, the airship sailed quickly.

Inside the pink airship, Levi suddenly felt his hair stand on end.

With a thought, he roughly knew what was going on.

"Rose, you guys drive the airship with all your might from now on," Levi suddenly said.

"What's wrong?" Rose asked.

"I suspect the enemy has caught up."

"What? Why don't I feel it? Regardless of whether it's true or not, we can't leave you here alone," Rose said.

"Don't worry," Levi said. "Don't you know my personality? Would I do something I'm not sure of?"

On the sea behind the airship, an angry figure burned with angry flames.

"Lola! Bitch!"

The Master of Flames learned from the soul token that the Third-Circle Wizards he sent out had all been killed, so he knew that someone had come to save the Lush Forest Witch.

In his anxiety, he hurriedly chased after them. During this time, he even used a precious teleportation scroll.

How could people be so unlucky?

Claur's anger burned his heart. He no longer cared if the enemy was too strong.

In any case, if he did not kill Lola, he felt that he would not be able to calm down in his meditation in the future.

If he let this bitch escape this time, he would not have a chance in the future.

To advance to the fourth-circle and take revenge, he had already spent a hundred years of hard work and luck.

In the air ahead.

Levi's figure appeared. He stood in the void and watched as the airship gradually disappeared into the distance. He watched as Master of Flames rushed over.

On the airship, Rose, who was persuaded by Levi, continued to move forward.

"Rose? Are we going to let him handle this alone? From the terrifying aura fluctuations, he might be a Fourth-Circle Wizard." Lily could not bear to see him like this.

"Yes, I don't think it's appropriate either. Let the Lush Forest Witch lead the team forward. The four of us will go and help the team leader." Violet's expression was solemn.

It was too cruel for Levi to face a Fourth-Circle Wizard alone!

From the Lush Forest Witch, they knew that the Master of Flames was a true fourth-circle who had already passed the transition period. He was a powerful existence with all his spiritual force liquefaction. He was different from those who were still in the transition period.

Moreover, after the other party joined the Black Sun, the original ordinary Burning Faction spells were transformed into their unique black fire spells with the help of the Black Sun Steeple. Compared to ordinary Burning Faction wizards, they were even more vicious.

Anya was silent, and there was a faint fighting spirit burning in his heart. "Is he so crazy? A third-circle realm cultivator fighting against a fourth-circle cultivator at his peak. Even I wouldn't dare to do this... He deliberately pretended to be casual because he didn't want us to worry. I didn't expect him to be so self-aware."

Anya knew that even if he was a prodigy, there was no doubt a third-circle would be nervous when facing a fourth-circle.

After middle-level, there was a difference between each circle. The difference needed many powerful trump cards to narrow it.

Levi's actions led Anya to evaluate him more and more.

It took a lot of courage to do something you knew you couldn't do!

Levi's figure could no longer be seen.

"You guys retreat first. I'll go help the team leader." The taciturn man made up his mind and suddenly said.

"What? You don't want to live anymore?" Lily couldn't help but ask.

"It's settled then. I, Anya, don't like to owe people favors, not to mention a favor at the cost of my life." He looked determined and wanted to leave the airship, but was stopped by the Lush Forest Witch.

"I'll go. I have something to do with this. You young people have a bright future ahead of you..."

"Stop. Our main mission is to escort you back. If you go, our mission will fail." Rose suddenly said loudly.  
"I'm the deputy team leader. I'll go."

She thought to herself that since she was going to die in the Nightmare World sooner or later, she might as well be free here and avoid being tortured to death by that terrifying nightmare.

Boom!

Just as everyone was arguing...

There was a violent fluctuation in the distance. Although the fluctuation was very weak when they arrived, it was still captured by the mental strength of these Third-Circle Wizards.

On the sea behind, the Master of Flames looked at Levi, who had blocked his fourth-circle spell, with a ferocious expression.

"Kid, you might be able to block it once, but I don't believe you can block it a second time!"

Do you think that by sacrificing yourself, you can exchange for the gratitude of those you protect?  
You're thinking too much!

"Since you want to be a hero, die."

The black wall of fire formed by third-circle innate spells around the Master of Flames swept towards Levi.

After entering the fourth-circle, the power of his third-circle innate spell was not inferior to that of a fourth-circle spell. Therefore, including the fourth-circle spell that he had already mastered, he actually had four fourth-circles.
