

Wizard 889

Chapter 889: Sudden Wealth, Undying Bird Fruit! (4)

The other party was only at the third-circle. How could he block it?

Levi breathed a sigh of relief when he sensed that the group was already far away.

"The spoils of war from the fourth-circle are all mine!"

Flame Dragon's true form!

Crimson Dragon Slash!

Boom!

Around Levi's golden armor, scarlet flames soared into the sky, forming a wall of fire.

It collided with the black wall of fire, causing a shocking explosion.

His figure shot over as Sword Qi wrapped around the Crimson Dragon Slash.

Boom!

The grayish-white sword energy tore through the flames.

The Master of Flames was shocked.

The flames around him formed a spinning shield.

There was a thud.

The fourth-circle defensive field shattered.

The third-circle Wizard Tool that he used for self-defense was also sent flying, and cracks had already begun to spread.

He had barely survived.

However, he realized that Levi was overjoyed.

After that strike just now, his Destruction Sword Qi had actually leveled up.

Levi—

Destruction Sword Qi: Level 8 (1/100,000), Special Effect: Power of Destruction (level 2)

"What a pleasant surprise."

Levi swung his sword again.

As strength surged into the Crimson Dragon Slash, the grayish-white sword qi turned black.

Black Sword Qi as black as ink surged. When this sword slashed out, the world changed color. A hole was torn in the clouds, and they were illuminated by the Sword Qi into dark clouds.

A sword strike descended at the darkest moment!

Four black suns appeared around the Master of Flames.

Four black pillars of light converged and headed toward Levi.

Boom!

The level 8 Destruction Sword Qi collided with Master of Flames' strongest spell.

The shockwaves caused by this rare shocking battle in the outer sea region kept spreading into the distance.

Under the sword aura, the Master of Flames' defense was like paper and instantly shattered.

His shattered body fell from midair. There was fear and unwillingness in his eyes.

"So fourth-circle cultivators are also this weak..."

After devouring the Master of Flames' fourth-circle soul, Leon returned to the immortal house to rest.

Levi did not waste the corpse and converted it into a gold coin.

Now, he already had three gold coins. They came from the Blood Flame Demon Wizard, Barzan, and Master of Flames.

"I gave Owens so many copper coins, silver coins, and crystals some time ago. It's time for him to advance to the fourth stage of the Gray Swordsman. If he can't advance even with this, I'll just find someone else to contract. The strongest person in Windmill Village..." Levi put away the gold coins.

Only when Owens reached the fourth stage could he truly show the value of the gold coins.

After killing Claur, Levi rushed to Hot Wind Harbor as fast as he could.

This was the lair of the Master of Flames.

Now that the boss was dead, only some of his subordinates were still here, but not many.

However, no matter how small a mosquito's meat was, it was still meat.

"Kill them all."

The Metal Voodoo clone appeared and transformed into a golden light as it killed below.

Screams rose and fell.

Before long, the Metal Voodoo flew over with a pile of storage bags tied up.

"These are all mine."

Levi counted the spoils of war in the storage bags on the spot.

Including Claur, it was a total of 500,000 Aether Stones.

"Not bad. To be able to have so much cash in this outer sea region, that's enough. I'll find a place to deal with those trash Wizard Tools and those materials. The actual harvest should be seven to eight hundred thousand."

This did not include the spoils of war from the dark wizards in the Giant Tree Secret Realm.

Actually, the Master of Flames was richer than this, but he had already hired the Black-Eyed Crow to kill Riemann.

"However, after this wave, there aren't many dark wizards in the Outer Circle Area that I can deal with... The only one I know is the Black-Eyed Crow, one of the top ten powerhouses on the Black List. There are too many dark wizard powerhouses in the Inner Circle Area. For the time being, I can't afford to provoke them."

Levi left the place in satisfaction.

The next day.

He chased after the wizard airship with a pale face.

"You're back?"

The Rose Witch said in surprise.

"Yeah, it took a lot of work to get rid of the enemy." Returning to the airship, Levi drank a bottle of potion and breathed a sigh of relief.

"A Fourth-Circle Wizard is really powerful. Just a little bit more... and I might not have been able to come back," he said with lingering fear.

Anya was shocked to see Levi return.

To be able to return safely after facing a Fourth-Circle Wizard directly, such courage indeed required the corresponding strength.

"Team leader, I will go into seclusion after returning to Nether Capital. You guys can split the spoils of war." Anya was motivated by Levi and decided to go into seclusion. His spiritual force liquefaction allowed him to break through to the fourth-circle!

There was no doubt that Levi had contributed more to this operation than the few of them combined. He was too embarrassed to divide the spoils of war.

What's more, Levi had risked his life to save them. Such a righteous team leader was worth giving up the spoils of war for.

"Go into seclusion. I'll put your share in your mailbox. Remember to take it. It's decided," Levi said unquestionably.

Although Anya was mysterious, Levi could tell that he had a powerful background. Since he was so tactful, Levi would not be stingy.

But Levi would never have guessed that this reticent Anya could be the child of Ms. Triss's cheerful stunner.

Warmth flowed through his heart. Anya looked at Levi and realized that his mother... was a good judge of character.

The rest of the journey was smooth.

A month later, they returned to Nether Capital.

However, Triss was currently busy at the Pharmacist Association, so the Lush Forest Witch did not see her.

But she had already arranged for someone to pick up Levi and the others.

The members of the Lush Forest Tower were brought to a small island near Nether Capital. This was the property under Triss.
