

## **Wizard 891**

Chapter 891: Sudden Wealth, Undying Bird Fruit! (6)

In the past, Levi could sense that there was a dark tide in the Wizard World. There were rumors of meteors falling into the Endless Sea every once in a while.

Then, whether it was the key to the Dark Ancient Tower or not, it would always attract a group of wizards, including fourth-circle, fifth-circle, and even primordial soul wizards.

Whether it was the dark wizards or the righteous wizards, the progress of the war began to slow down.

The higher-ups of both sides began to send more people to the vast outer sea region and inner sea region of the Endless Sea to search for the Dark Ancient Tower.

The two sides began to place the competition track in the Dark Ancient Tower.

Only the small fries at the bottom who did not know about the Dark Ancient Tower were still fighting in full swing and wasting their energy.

These giant organizations often had special astrology skills that could more accurately locate the whereabouts of the key.

Therefore, Levi had no intention of snatching the key from these people.

Firstly, he didn't have much desire for the things inside the Dark Divine Tower. He had a panel and was still young. He was about to advance to the fourth-circle. By then, his lifespan of 700 years, in addition to his path of knights, might be more than 700 years.

He still had more than 500 years to advance to the fifth-circle. After the fifth-circle, he would have 1,000 years of lifespan. To him, he had a high chance of breaking through to the primordial soul realm if he cultivated normally. It was just that he was a little slow.

He also learned from Triss that the Dark Ancient Tower could only be entered by experts above the Grand Wizard level.

This meant that primordial soul experts could also enter. The Dark Ancient Tower was already filled with danger, and with these primordial soul experts, Levi had already expected that there would be endless bloodshed in the future Wizard World because of the Dark Ancient Tower.

However, according to Triss, under normal circumstances, after the primordial soul wizards entered the Dark Ancient Tower, they would not stop at the bottom level at all.

This was because, to them, the items on the first five levels of the Dark Ancient Tower were not worth their time and energy. They would directly rely on their powerful strength to enter the sixth level and above in the shortest time to seize the initiative.

It was said that that was the battlefield of primordial soul wizards.

So far, according to the historical records of the major organizations, the highest record of the primordial soul wizard was that he had entered the ninth level and obtained a Radiant Sun Truth Oddity and mythical sacred medicines.

The Undying Bird Fruit.

It was said that directly consuming those sacred medicines could extend one's lifespan by a full 1,000 years. One had to know that the lifespan of an eighth-circle primordial soul wizard was also 3,000 years.

If the sacred medicines were to be refined by a ninth-circle pharmacist into a potion called Water of Samsara...

After a wizard consumed it, after their lifespan was exhausted and they died, their soul could preserve all the memories of their previous life. The return of their true soul from the Underworld was equivalent to defying the heavens and living a second life. It was also the kind of reincarnation where they could choose their birth.

As for the tenth level, no one had entered it since ancient times. Those who had the strength to step into the tenth level had to be at the level of a Grand Wizard.

The problem was that Grand Wizards were not qualified to step into the Dark Ancient Tower at all.

The outside world was in turmoil for the Dark Ancient Tower, while Levi was quietly cultivating in the Nether Capital.

"Let's go. It's best if we all go to the Dark Ancient Tower to fight and kill. Wouldn't it be wonderful to leave me alone in the Wizard World? However, Madam Triss said that she would fight for a spot for me... If I fight for it, should I go or not?"

Levi did not have the chance to enter now. If he did, he felt that he might not be able to resist the temptation.

In the blink of an eye, another year passed.

Year 1120 of the Holy Brilliance Calendar, the first day of the Month of Beginning. Levi was about to hold a meeting when he suddenly felt something strange in Alice's ring.

When his spiritual force entered the lake, he found that the lake water began to churn. A scaled behemoth emerged from the lake water, emitting an extremely powerful aura.

"Gustav, you're already at the third-circle. It's not easy for transcendent creatures to advance. There is hope for my secret medicine once more."
