

Wizard 892

Chapter 892: Perfection! (1)

Inside Alice's ring.

Gustav, who had already advanced to the third-circle, was very pleased with himself.

He roared at the sky, his voice sweeping through the air.

The Wind Thunder Winged Dragon and the Crimson Netherworld Sparrow circled in the sky and watched.

The two of them were third-circle pets that Levi often used in battle.

Gustav's appearance as a newly promoted third-circle made them feel a sense of danger in the workplace.

Especially the Wind Thunder Winged Dragon. He had been with Levi for decades, but he had always been at the peak of the third-circle and could not improve.

Although Levi often extracted their bloodline essence, their food was sufficient. He often refined potions specially used by transcendent creatures to promote growth and make up for the deficiency of blood essence.

Levi had always thought that the reason why these guys could not advance was not because he was squeezing them dry and harvesting them, but because they did not work hard enough!

If you want to live a sweet life, how can you slack off?

"Did you see that? Gustav has already reached the third-circle. This is the pet that Master needs the most. You guys had better learn from Gustav..." Levi said.

Gustav came to Levi's side.

"Master, after I advanced to the third-circle, I seem to have awakened some inherited memories. I need some time to digest them."

Its voice sounded in Levi's mind.

"No problem. Before you digest it, let me take your blood for a test. This will also be beneficial to your growth. I can also monitor your health level at all times," Levi said.

"Yes, Master."

Levi immediately took out a large vat specially used for blood storage and used the Crimson Dragon Slash to make an incision on Gustav's body before starting to extract his blood.

"Master, draw more. I can still hold on," Gustav said.

"No need. Three vats are enough. Have a good rest." Levi stroked Gustav's head and fed him some high-quality sea beast meat.

Gustav was second only to Leviathan.

Leviathan had reached the second-circle, but Levi guessed that Leviathan would be at the fifth-circle by the time Levi reached the third-circle.

Leviathan was now a man-made fountain in Alice's ring, responsible for spraying water. Levi only rubbed some powder from his horn for his pharmacy.

"Speaking of which, it's been 80 years since I subdued Gustav in 1043. From a rookie who had just entered the second-circle, I'm about to reach the fourth-circle.

"As for Gustav, he was already at the peak of the second-circle when he was captured back then. Now, he's only at the third-circle in 80 years. It'll probably be very difficult for him to reach the fourth-circle in the future unless he has a huge opportunity."

Among Levi's current transcendent creatures, the Ground-Drilling Earthworm was the only fourth-circle one.

The third-circle ones were the Flame-Blood Earthly Dragon Beast, Gustav, the Wind Thunder Winged Dragon, and the Crimson Netherworld Sparrow.

There were many first-circle and second-circle ones, but other than the Nightmare Crown Lizard, the others were not very useful to Levi.

However, these transcendent creatures were more or less Levi's contributors, so he had been raising them.

Sometimes, when he found an opposite-sex species, he would even arrange a partner for them.

"When my Weapon Refinement skill cultivates to the fifth-circle, I should be able to rely on my ability to repair Alice's ring. At that time, the space will expand further, and it will be more suitable for them to grow inside."

Levi's consciousness left Alice's ring.

"My spiritual force is already at 190 points. I'm only 10 points away from Perfection. Then, I'll use liquefaction and advance to the fourth-circle. I'll prepare to obtain the succubus breastmilk.

"If I can capture a succubus alive and bring her back, as long as I can gather all the other ingredients in the future, I can continuously refine fourth-circle potions. This way, I won't have any money. Other than finding dark wizards, selling breakthrough potions is also a way."

Although it was profitable to rob the dark wizards, there were always risks. Besides, Levi was familiar with the dark wizards in the outer sea region. He was about to harvest all of them.

Thinking of this, Levi closed the array of the wizard tower.

In the secret room, he released the Mind Flayer.

As soon as the Mind Flayer appeared, it half-knelt in front of Levi with its tentacles lowered. This was a sign of its submission.

"Do you have any way to ask Miraya out?" Levi asked.

"Master, you want to attack Miraya? She definitely has Sorrett's tracking mark on her, and she has been locked up by Sorrett. She's a tool for Sorrett to satisfy his desires... It's very difficult for me to ask her out," said the Mind Flayer.

"In other words, if we want to capture Miraya, we have to get past Sorrett?" Levi pondered.

"So far, that's what it looks like."

Levi pondered. Sorrett was already a Fifth-Circle Wizard. Among the fifth-circle wizards, he should be one of the top ones.

Even if Levi had killed a few fourth-circle cultivators, he would not be so arrogant as to clash head-on with an expert like Sorrett.

Relying on Sorrett's powerful strength, the Thunder Dragon Family had become the overlord of Area 7 in the inner sea region over the years.

Not only was his elemental talent not bad, but he also had the Second Talent Thunder Heart. He was born for the Lightning Faction.

"Let's wait for a while. If I can buy a breakthrough potion from the Witch's Family or Nether Capital, I won't refine it myself."

Although it was a pity, Levi could not think of a way to break out of this situation for the time being.

Today was the 18th round table meeting. Levi started the meeting and pulled in the knights from all over the world. The Blood Knight and the others sat in front of the round table.

"Blood Knight, how's the situation in the human world? Tell me about the Dusk Holy Temple and the Forsaken Land of the God," Levi asked.
