

Wizard 896

Chapter 896: Perfection! (5)

Levi analyzed in his heart and left the Witch's Family.

In any case, there was still some time before his spiritual force reached Perfection. He still had a chance.

He left Nether Capital to visit Ms. Marlene and the others.

On the way back, he saw the two Fifth-Circle Wizards fighting for the key from afar.

Vaguely, some fourth-circle and Third-Circle Wizards were hiding nearby, risking their lives to pick up scraps.

"In the Wizard World now, resources are obtained through competition..."

Levi had underestimated the allure of the Dark Ancient Tower to ordinary wizards.

"Now, we've really completely regressed to the ancient era. The order of the congress only exists in name... There's no longer a so-called division between dark wizards and white wizards. There's no restriction. Anyone can turn from a righteous wizard to a dark wizard with a thought... That's right. Even if there's order, how many of those so-called righteous wizards are righteous in the darkness where light can't reach?"

For example, Levi himself wandered around all kinds of gray areas. He knew very well that many of the things he did could not be exposed.

On the way back, Levi felt that a wizard was following him.

"Nowadays, even Third-Circle Wizards are starting to have designs on me... It seems that I'm still too low-key in Nether Capital. They all think that I'm a pushover."

Levi quickly flew into the distance.

Not long after, a strange wizard with skin as green as tree bark appeared here.

"Hey, you're quite alert. But can you run?"

Fifteen minutes later.

Levi returned to Nether Capital with a good expression.

He quickly returned to the wizard tower and closed the array and restrictions.

He took out a storage item and a cyan wizard's corpse.

"He's just a third-circle body-refining wizard. He wants to rob me just because he's proficient in concealing his aura..."

This person only had seventy to eighty thousand Aether Stones in his storage space and was very poor.

The magic tool was only a Second-Circle Wizard Tool. Levi usually did not notice such a character.

"However, this Tree Spirit Body Tempering Technique is not a bad body tempering technique... It's a body tempering technique of the Life Faction. It's different from the previous bloodline transformation wizards. There's no need to transplant transcendent creature organs."

Levi kept this technique for future cultivation and fused it with his Metal Voodoo Body.

"This body-refining wizard's body is not bad to use as a shell for Mind Flayer."

Levi released the Mind Flayer.

As soon as the Mind Flayer appeared, he took a liking to this corpse.

"Master... can I stay in it?" the Mind Flayer asked.

"This is for you," Levi said.

"Thank you." The Mind Flayer's entire body turned illusory before transforming into a beam of light that fused into its body.

As the cyan corpse trembled, it did not take long for the corpse to stand up like a zombie.

"This body is much better than my previous one." The Mind Flayer's pleasantly surprised voice sounded.

After a series of changes, the corpse turned into a young man.

Levi used Perception and realized that the Mind Flayer's hidden ability was not an exaggeration.

Once this guy took over the body, he could not find any difference between him and an ordinary wizard.

Unless he took the initiative to expose himself, it would probably be very difficult for even a Fifth-Circle Wizard to discover anything strange.

This was also the reason why the Mind Flayer was so notorious in the Multidimensional Plane.

Many wizards suspected that the higher-ups of the Wizard Council had long been controlled by some powerful Mind Flayer.

In the past, Levi had treated these rumors as conspiracy theories that had no foundation.

After personally witnessing the Mind Flayer's abilities, Levi felt that this might be true...

After giving the Mind Flayer a body, Levi dismissed him.

The Mind Flayer had an important mission, which was to participate in the Demon Banquet and obtain information about the succubus and Sorrett for Levi.

He did not need the Mind Flayer to fight for him. Mind Flayers were not good at fighting. Instead, he wanted him to go deep into the enemy's territory to spy on them.

Levi continued to cultivate in the Nether Capital.

Although Nether Capital was relatively chaotic now, there was no need to go to other cities and start over.

Moreover, if anything happened, he could return to the Witch's Family. This place was still very safe.

On this day.

While Levi was cultivating, he relied on the Death Ember Power to enter the Ashen World.

The sky filled with ashes appeared in front of him again.

"It's been a long time."

He remembered that the last time he entered Lion King City, he had appeared in a specious Lion King City.

This time, what appeared in front of him was the same dilapidated and dead Nether Capital.

"All the places in Nora's plane are mapped in the Ashen World..." Levi was puzzled. "What does the Ashen World have to do with Nora's plane? Is it the Inner World? If it's the Inner World, and the Nightmare World has invaded the Inner World, then the next step is to invade the real Nora World..."

Levi walked out of the wizard tower with many questions. In the Nether Capital, he could feel powerful bonfires burning in some mansions.

Those were the reflections of the powerful vitality of Intermediate Wizards in this world. Some of the bonfires were obviously from Fifth-Circle Wizards. In front of their powerful flames, even Third-Circle Wizards seemed miniscule.

Levi was not in the same dimension as them, so these wizards could not sense Levi.

In the center of Nether Capital, there was a 1,000-foot-tall wizard tower. Levi remembered that it was the residence of Nether Capital's City Lord.
