Chapter 900: Death of the Black-Eyed Crow! (3)

Victor gritted his teeth in hatred when he thought of the demonic spirit that had betrayed him.

"Alright... I understand." The Mind Flayer took the heavy feather solemnly and slowly retreated into the shadows, secretly delighted.

In midair, the Pink Light airship was moving quickly.

A month later, Levi returned to Area 5 of the inner sea region.

Along the way, they basically did not encounter any dark wizards. It was very smooth.

When he passed by Riptide City, Levi originally wanted to revisit the old place. However, when he remembered his identity as a dead person, he decided to forget it.

He flew straight towards the Hundred-Eyed Demon Territory.

Suddenly, he frowned and the airship stopped in midair.

A yellowed letter appeared in his hand, and a quill wrote automatically on it.

This was a communication tool that Levi had spent a lot of money to buy after he became rich. This way, it was easier for him and his subordinates to exchange information across the Endless Sea.

This kind of prop could only send a short message. It was different from a video conference tool like the Teatime Round Table.

Be it the communication distance or the transmission efficiency, they were far inferior.

The message read: Three years later, Sorrett and the demons would besiege Riptide City.

"This... I'm already planning to return to the human world."

Levi muttered to himself.

"Forget it. I'll meet Guillermo first and get the details."

Seven days later.

Levi sat cross-legged alone on an island near Riptide City.

In front, the Mind Flayer appeared. After he arrived, he knelt in front of Levi.

"Master, there's a turning point," the Mind Flayer said excitedly.

"What's going on? Is Sorrett going to attack Riptide City again?" Levi asked.

"That's right. This will be a huge operation. Sorrett, Victor, and most of the demons at the Demon Banquet, including the succubus Miraya, will also take action... When the time comes, it will be chaotic," said the Mind Flayer.

"Looks like Sorrett is very confident this time," Levi thought.

"Victor even asked me to be a spy. He wanted me to infiltrate the Blue Dragon Lady's inner circle in Riptide City. On the day of the attack, I will give the Blue Dragon Lady a fatal blow."

"You? Even ten of you wouldn't be a match for Blue Dragon Lady..."

"It's naturally impossible for me, but Victor gave me a treasure. It's his origin feather." The Mind Flayer carefully took out a black feather that emitted a terrifying demonic aura.

Levi took a look and felt a little uncomfortable.

"Victor is so strong."

"Of course. At his peak, he was a level 8 demon king," said the Mind Flayer.

"Then follow their plan. However, on the day of the attack, don't stab the feather at the Blue Dragon Lady. I want you to find an opportunity to stab Sorrett in the back... It's best if you can kill him. If you can't, it'll also make it easier for me to snatch the succubus," Levi said.

"I understand. I will adapt to the situation." The Mind Flayer nodded.

Levi was very confident in the intelligence and abilities of the Mind Flayer.

Levi would not have dared to do this to any other contract than the Scarlet Contract.

That would be playing with fire.

After the master and servant discussed the plan, the Mind Flayer left while Levi headed for Riptide City. He didn't know which unlucky person would be possessed next.

"I won't be returning to Riptide City now. Even if I go, I won't be able to help the Mind Flayer... Should I return to the Nether Capital? It seems too far. There's no need. Besides, I've just bid farewell to Celia and the others, dyeing the atmosphere of farewell... It's a little strange to go back.

"Forget it, I'll just find a random place to stay for three years. Whether I succeed or not, I'll stay for these three years.

"If the plan fails, I will give up and use the Deepwater Potion to break through in peace.

"If the plan succeeds, I can have a succubus and endless succubus milk.

"By the way, my Scarlet Contract is already full. I have to leave a spot for the succubus."

Levi had contracted the Sea Clan Baron Baghdad, the Blood Clan Clair, and the Mind Flayer Guillermo.

The latter two were rather special. One was a Blood Clan member who was not afraid of death, and the other was a dangerous and cunning Mind Flayer. Other than the Scarlet Contract, the other contracts might not be able to suppress them.

"I might as well cancel the Sea Clan Baron's contract and exchange it for Excalibur's oath.

"As for my cultivation place for the next three years... I'll return to my hometown.

"Someone has been occupying my house for decades. It's time for him to pay the rent... I'll use his life to repay it."

After making up his mind, Levi flew towards Area 9 of the outer sea region.

The Ancient Saint plane.

In this small plane, the Ancient Dragon Empire was flourishing.

Under the governance of the Senior State Assembly, at the very least, the situation of the city-states had ended.

After the establishment of the Psionic Academy, some Lizardmen who already had good psionic talent gave up the traditional Ancient Saint Dharmic Formulation and switched to mysterious psionic power.

Before the birth of the Psionic Academy, there were already some scattered Lizardmen Spell Casters who were comparable to wizards.

After the establishment of the Psionic Academy, these Spell Casters had received systematic training and their strength had improved significantly.

Some Lizardmen who were comparable to first-circle and even Second-Circle Wizards had already been born.

It could be imagined that in the future, in this small Ancient Dragon Empire, other than the original Ancient Saint Dharmic Formulation, a new spiritual energy transcendent path would gradually rise.

This was enough to make up for the flaws of the Ancient Saint Dharmic Formation.

In some primitive forests of the Ancient Dragon Empire, the knights of the Dusk Holy Temple were training there.
