Chapter 903: Death of the Black-Eyed Crow! (6)

The third step was to refine the corpse in the powerful underground fire for a year, allowing the poisonous corpse to absorb enough fire elemental power and combine it with the poison to mutate the poison fire ability. At the same time, the Poison Fire Corpse Demon's body would also be tempered to become stronger.

This way, the Poison Fire Corpse Demon's body would be refined.

The last step was to summon a powerful spirit-type undead creature from hell and sign a contract to let it enter the Poison Fire Corpse Demon and become its "artifact spirit".

This Poison Fire Corpse Demon required a huge amount of resources and complicated craftsmanship. It would take ten years to refine it, so it was considered completed.

Black-Eyed Crow could already imagine its powerful might.

This was simply a work of art!

"With this corpse demon, I can also fight those old fellows in the top five of the Dark List!"

Black-Eyed Crow was filled with anticipation.

At the same time, Levi had already used the invisibility runes to infiltrate the Black Fire Island.

His current spiritual force was 200 points. He needed 600 points, which meant that it required a Fifth-Circle Wizard to completely see through his disguise.

The miscellaneous disciples of the Black Fire Island, including Black-Eyed Crow himself, had not discovered Levi for the time being.

"He really treats my territory as his own..." Levi's heart turned cold.

Black-Eyed Crow was hiding in the wizard tower, protected by a complicated array. Levi could not sneak in and assassinate him.

He rose and arrived above the Black Fire Island.

His opponent was Black-Eyed Crow, ranked among the top ten of the Dark List. He was a senior fourth-circle wizard, and his spiritual force might be twice that of Levi's. He had also mastered two fourth-circle innate spells, two third-circle innate spells, and other unknown trump cards.

Hence, Levi went all out as soon as he came up.

In the sky, the Flame Dragon's true form appeared. The flames illuminated the clouds.

Nine Swords Asura condensed.

Golden Snake, Sky Dragon, Scarlet Dragon, Nightmare Dragon, Death Ember Dragon!

All of Levi's breathing techniques were activated at this moment!

Giant Dragon Warrior, Nightmare Walker, Bloodline Dharma Body!

It was daytime, but night had enveloped this area of the Black Fire Island alone.

The other low-level wizards were puzzled.

Black-Eyed Crow in the wizard tower sensed that there was an enemy in the sky. His expression changed and it put away the Poison Fire Corpse Demon.

"Enemy attack!"

Then, he hurriedly launched the protection of the wizard tower, and the grand array on the entire Black Fire Island began to light up.

The well-trained wizards began to fight.

"Destruction!"

Levi fell from the sky and dived down rapidly, turning his body into a meteor that burned the surrounding air.

On the Crimson Dragon Slash, the pitch-black Destruction Sword Qi slashed out with an unstoppable momentum!

This was Levi's strongest attack!

Boom!

Under this sword, the protective array of the Black Fire Island was the first to shatter.

The wizards who were in charge of the array spat out blood in disbelief.

Immediately after, cracks began to appear on the surface of the Black-Eyed Crow's wizard tower. Finally, with a bang, the wizard tower cracked.

Black-Eyed Crow flew out in a sorry state. He clearly did not expect the enemy's attack to break its impregnable defense.

The Metal Voodoo appeared on Levi's body. Tyrant III, the Ground-Drilling Earthworm, the Wind Thunder Winged Dragon, the Crimson Netherworld Sparrow, Blood Clan Clair, and the other subordinates had already charged into the enemy camp.

"Kill them all. Leave no one alive!"

Levi said coldly.

Black-Eyed Crow had already arrived in the sky to confront him.

"Who are you? Do you know who I am?" Black-Eyed Crow's voice was cold and filled with killing intent.

"You're Black-Eyed Crow."

"That's right. You know who I am, yet you still dare to court death!"

"I'm going to kill you!"

Levi pointed his finger and the Fire Dragon Tribulation charged towards Black-Eyed Crow.

"Black Fire Wall!"

Black-Eyed Crow was indeed a fourth-circle senior wizard. With a wave of his hand, he cast a fourth-circle innate spell, and a black wall of fire blocked the Fire Dragon Tribulation.

Boom!

The black flames fused with the scarlet flames and exploded.

Black-Eyed Crow did not know who his attacker was, but judging from his spiritual force fluctuation, it was only at the Perfection third-circle.

With such a cultivation, he dared to have designs on him. He definitely had something to rely on. Therefore, he did not dare to underestimate his enemy at all.

The fourth-circle protective force field shone brightly. The black energy was like a hurricane, squeezing everything around it.

Levi's body was blown away and he stabilized himself in midair.

Black-Eyed Crow was indeed worthy of being ranked in the top ten of the Dark List. He was much stronger than the Master of Flames.

"But that's not enough."

Levi stepped out to sea. The waves rolled up behind him.

The Crimson Dragon Slash streaked across the sea and lit up a white line of smoke between the sea and the sky.

The whistling Destruction Sword Qi stacked on top of each other!

Black-Eyed Crow felt as if he was facing a great enemy. In his mind, the model of another fourth-circle innate spell was circulating crazily, and vast spell power surged in.

Boom!

Talent: Fire Crow Dance!

In the void behind him, black fire crows appeared out of thin air and grew in the wind. Each of them had a wingspan of more than three meters, and there were more than a hundred of them.

Every attack was enough to make the expressions of ordinary Third-Circle Wizards change drastically.

In the sky above the Black Fire Island, the air had already been roasted until it distorted.

Boom!

The fire crows swept over.

Under the dense attacks, Levi had no room to dodge.

Black mushroom clouds appeared in midair.

"You overestimate yourself."

As Black-Eyed Crow sneered, the second batch of fire crows had already formed.

This was the power of a Fourth-Circle Wizard. Even if that person temporarily had the power to rival a Fourth-Circle Wizard, he was still just a clown in front of him.

"This body is not bad. I can't destroy it. After I prepare enough resources, I can use it to refine a second Poison Fire Corpse Demon."
