Chapter 917: Help Me Cultivate! (3)

"I'm late. Are you alright?" On the other side, the red-haired witch rushed over and asked with concern.

"I'm fine."

"City Lord, this is?" The Sea Serpent Grand Duke looked at the female wizard who was a dragon descendant. She was flirtatious and had a perfect figure. He was tempted.

This person looked much hotter than the Blue Dragon Lady, and her personality was more passionate and open. She might be easier to pursue.

The red-haired witch seemed to have read the Sea Serpent Grand Duke's mind. She did not get angry. Instead, she put on an ambiguous smile and said playfully, "I'm the Red Dragon Queen Alexandra, a... close friend of the Blue Dragon Lady."

"Alright, Alexandra, let's go back. It's time for Sorrett and the Thunder Dragon Family to pay the price," Blue Dragon Lady said.

The Red Dragon Queen nodded and held onto the Blue Dragon Lady's slender waist. She even deliberately turned around to look at the Sea Serpent Grand Duke with a smile.

Then, the two women quickly left, leaving the Sea Serpent Grand Duke alone.

"No... No!"

As the Sea Serpent Grand Duke watched the two ladies leave, he felt a little bleak.

To pursue the Blue Dragon Lady, he had waited in the Dragon Tea Party for decades and refused to leave a small place like Riptide City.

However, reality gave him a head-on blow.

Was a snake in the sea not worthy of a dragon from the Nine Heavens?

The Blood Flying Dragons flew in the sky and finally arrived at an uninhabited island.

The flying dragons collided and finally gathered into Levi's figure.

"You don't say, it's quite useful... It's just that it consumes too much energy."

The power of the Scarlet Dragon in Levi's body was completely depleted.

His face was pale, and he was as thin as a bag of bones. He looked especially terrifying.

The potions to restore his stamina were consumed crazily. Because of his powerful knight body, other wizards could only drink one bottle, but he needed dozens or even hundreds of times more.

After drinking the potions, his body began to become full and smooth again, as if it had been a long drought.

"I'm a little better, but I still feel a little deficient. I need a long time to make up for it... This is the price of using the Blood Flying Dragon.

"However, now is not the time to rest. I must check if there are any tracking marks in the succubus's body first. Otherwise, I will be found by Sorrett sooner or later.

"Although the Mind Flayer had dealt a fatal blow to Sorrett, it seemed that he had withstood it.

"With his trump card, it will be very difficult for Blue Dragon Lady to kill him."

Levi released the succubus from Alice's ring.

"Master... you're so burly." Miraya's face was purple with a hint of red, and the redness spread to her entire body.

"Cut the crap. Did Sorrett plant a tracking mark on you?" Levi asked with a frown.

"I have the brand he planted in my body..." Miraya whispered with a red face.

"Don't resist from now on. Let me examine your body," Levi said seriously.

"Oh... okay."

Levi turned into a blood fog and entered the succubus' body.

Levi, who was in the form of blood fog particles, carefully examined the succubus' body.

He would not let go of any place!

Finally, he discovered a purple Thunder Dragon mark that bared its fangs and brandished its claws on the succubus' heart.

"As expected... Fortunately, I checked."

"Ah... It hurts. Master, what are you doing in my body?" The succubus suddenly cried out in pain with a pained expression.

"Bear with it..." Levi's heavy voice sounded in the succubus' mind. This Thunder Dragon mark was left behind by a Fifth-Circle Wizard. Levi had to be careful to remove it, and it required a lot of stamina and spiritual force.

Half a day later, a purple illusory Thunder Dragon flew out of the succubus' chest. As soon as it appeared, it was about to fly into the distance.

There was no doubt that this guy was going to fly to Sorrett's place and give him a message.

"Argh!"

Leon, who had been waiting for a long time, swallowed the illusory Thunder Dragon in one gulp.

"Master, this isn't filling at all. I'm so hungry," Leon said pitifully.

"Enter the Greenfield Immortal House first. I'll give you food when it's safe." Levi put Leon away.

Leon was really useful.

He was the nemesis of Death Fall and was good at fighting. Apart from that, he was also an expert at devouring all kinds of tracking marks. He was a necessary item for killing, arson, and counter-reconnaissance.

A long time ago, when Levi killed Rex, he relied on the Saint Scorpions to devour the tracking mark after his death. Leon, on the other hand, perfectly inherited the abilities of the Saint Scorpions and strengthened them.

If it wasn't for Leon, the enemies Levi made were enough to give him a headache since he killed and robbed so many people.

"Let's go."

Levi put Miraya back into Alice's ring.

He directly activated the Hermit Rune and disappeared again.

Soon, Levi returned to the Lava Sea.

After using Perception, the spatial vortex was still there. The Earth Dragon Barrier and the Heavy Water Barrier surrounded it.

He quickly stepped into it and disappeared.

This time, he would directly do something in the human world and go to the Frost Realm.

He would bid farewell to the Endless Sea for the time being.

Levi had nothing to do with the chaos in the sea.

When Levi destroyed the Thunder Dragon Mark in the succubus' body,

Far away in the Thunder Dragon Family's base in Area 7 of the outer sea region.

A bolt of lightning struck the ground. After the dust that was filled with purple electric arcs dissipated,

Sorrett appeared here with a pale face and gloomy eyes. He reviewed the matter in his heart. "The mark I planted in Miraya's body is gone? Elsie must have done this. That fifth-circle dragon descendant witch who suddenly appeared is also one of Elsie's people. And Victor abandoned me and ran away alone. This damn demon cannot be trusted indeed!"
