

Wizard 924

Chapter 924: Successful Potion Concoction! (4)

This was an extremely exhausting thing for a succubus.

This was equivalent to a highly concentrated succubus' pleasure energy. It was similar to a wizard condensing their origin spiritual force and giving it to others.

Therefore, under normal circumstances, no succubus would take out the Crimson Water when it was produced. This would consume their bodies.

Fortunately, Levi had the Scarlet Contract. Otherwise, he might not have been able to obtain it.

Therefore, his dream of relying on the succubus to refine breakthrough potions in bulk was shattered.

Thinking about it, it made sense. The Creator was fair. Such heaven-defying things must be rare.

Otherwise, the formula for the Succubus Potion would not be so unorthodox.

Other than Crimson Water, the other main ingredients of the Succubus Potion were the Fallen Root, Bone Corrosion Flower, and Whispering Fruit...

These things were also extremely unorthodox. Levi had relied on the Ancient Saint plane and the two resource bases of the Witch's Family to gather them all. It had also taken 20 years and less than 200,000 Aether Stones.

Therefore, Levi felt that it was not expensive to sell the Succubus Potion for a million yuan.

His current pharmaceutical skills were already at the peak of the third-circle. What restricted his improvement was the wizard realm.

"I previously obtained the formula for the Epiphyllum Potion. According to the Lush Forest Witch, it is not recommended for a wizard to consume this potion more than three times. Otherwise, it might affect their future cultivation.

"I've taken it twice before, and I still have one more chance... Moreover, my spiritual force has already exceeded the upper limit of a Third-Circle Wizard. Although it hasn't liquefaction yet, it's a true fourth-circle spiritual force level!

"If I can't succeed in refining it even with this, I can only go to the Witch's Family and ask the pharmacists there to refine it for me."

Under normal circumstances, a breakthrough potion of average quality, such as the third-circle Deepwater Potion, would not exceed the level of a wizard.

However, the Eye Devil's Gaze potion, the Succubus Potion, and the Lake Fairy Potion that Levi had obtained were all top-notch breakthrough potions. The quality of the potions was usually one realm higher than that of wizards.

Levi was a Third-Circle Wizard, and the Succubus Potion was a fourth-circle.

Under such circumstances, under normal circumstances, one could only find others to refine or buy potions.

Levi had always been worried about the risks of other people's potions, so he tried his best to do it himself.

However, from the looks of it, since he could not take the Epiphyllum Potion in the future, he had to build a good relationship with some pharmacists from the Witch's Family in advance. This way, he could hire them when he refined potions in the future.

"Madam Triss will be fine, but she's the vice president of the pharmacist association. I might not be able to invite her..."

Before refining the Succubus Potion, Levi first tried to refine the fourth-circle health potion and adjusted his condition to the peak. At the same time, he estimated the success rate of the Succubus Potion.

Without taking the Epiphyllum Potion, he was pleasantly surprised to discover that with his current 210 points of mental strength, he could completely refine a simple fourth-circle potion like the health potion.

From the looks of it, relying on the Truth Oddity to raise the upper limit of one's mental strength could be used to refine potions above one's level.

"Alright, hurry up and refine the Succubus Potion. If I can't succeed twice, I'll leave behind a set of materials... I'll thicken my skin and find Madam Triss and ask her to refine it for me."

Levi took the Epiphyllum Potion in one go. He felt that his spiritual power had increased from the original 210 points. There were even ripples circulating on the surface of the Gas magic ring, as if it was about to liquefaction.

"Let's begin!"

At the same time.

Star Sea.

At the Witch's Family.

Lady Idrasala, the Immortal Banyan Dragon, lazily coiled around the magic tree. After a long sleep, she would occasionally open her eyes and watch those short-lived wizards busying themselves.

After the war between the dark and righteous wizards was temporarily put out, the primordial soul wizards of the Witch's Family returned to the headquarters one after another.

Today, this generation of witches was going to hold a meeting to discuss the future of the Dark Ancient Tower. This kind of banquet that happened once every ten thousand years was an important way for a large organization like the Witch's Family to consolidate its status in the Endless Sea.

Numerous primordial soul witches with powerful auras and different styles came to Idrasala.

"The witches are waiting for you."

The Immortal Banyan Dragon opened her mouth. Flowers and vines grew in her mouth and throat.

"Alright, Lady Idrasala."

The primordial soul witches nodded politely.

Some of them were young and coquettish, wearing gorgeous colorful dresses. Some of them looked like old grannies, leaning on magic wands and looking old. Some of them were dressed strangely, like old witches in fairy tales.

Among them, even the youngest primordial soul witch was at least 400 years old.

Madam Triss dressed professionally and walked in with her chest puffed out.

"Triss, I heard that there's a male wizard in the Witch's Family. He's a dragon descendant?" Lady Idrasala's voice surfaced in Triss's mind. This voice sounded young, but it revealed a sense of vicissitudes that was unfathomable.

"Yes. Are you interested in the little one?"

"No, I just felt an inexplicably familiar aura when I was sleeping. By the way... As you know, once I fall asleep, I can't be bothered to wake up," the Immortal Banyan Dragon said.
