

Wizard 926

Chapter 926: Successful Potion Concoction! (6)

After Triss said that, she picked up a grape and placed it between her red lips and white teeth.

The Snake Witch was at a loss for words. Then, she sneered and said, "Anyway, this is a rule set by the First Witch. If you have any objections, you can go to the First Witch. You can't tell me..."

Triss laughed in her heart. The First Witch had long perished, so how was she going to find her?

She ignored the woman and looked at the Witch expectantly.

"Triss, what you said makes sense... But I won't give Levi one of these 20 spots. Firstly, he might not even be able to enter the fourth-circle. Secondly, I can trust Anya. He's your son. I can't trust a foreign kid, and neither can the other witches.

"As for body-refining witches... Do you think I won't learn my lesson? For the Dark Ancient Tower, I have secretly trained several body-refining witches. This time, I will definitely give the male wizards of the Ocean Abyss Alliance a big surprise," the Witch said with a smile.

Triss was disappointed, but she said with a calm expression, "I understand."

She had agreed to fight for a spot for Levi. Now, it seemed that she had overestimated these stubborn old fogeys.

Being able to make someone like Levi an external wizard was already their bottom line.

After returning home and taking off her clothes, Triss, who was comfortably soaking in the medicinal bath, placed her jade-white arms on the edge of the bathtub and casually propped her legs up. Every time she finished a meeting with these stubborn old fogeys, her mood wouldn't be too good. She needed a bath to relieve herself.

There were all kinds of expensive medicinal herbs in this medicinal bath. Meditating in it was very beneficial. It could also calm one's mind and relieve the pressure of research. This was also why she always liked to wear a sleeping robe.

"Isn't that old woman Selene the one who hooked up with the Letney Family's Molten Gold Wizard King? Look at how smug she is, causing me to go back on my word in front of a junior in the future and lose face!

"Anya's transition period is almost over, and he is about to become a true Fourth-Circle Wizard. With Levi's talent, he is about to reach the fourth-circle. This long journey should be in preparation for advancing to the fourth-circle.

"The little guy might still be collecting potion ingredients bitterly now. Forget it, when he returns from his long journey, I'll give him some additional... compensation."

In the human world.

The Ancient Saint plane.

The Poison Fire Corpse Demon refined the Blood Demon Meteorite Iron for Levi without any complaints.

Miraya and Algerta, on the other hand, were chatting about some serious topics on the bed.

"What? You actually dreamed of Master? You even did such a thing? And it's your seventh dream today? And it took so long every time? You... How dare you?!" Algerta's face was filled with shock as her worldview collapsed.

"What's wrong? Haven't you dreamt of it? Master seems to be a dragon descendant. You might not know this, but many female succubus in the Abyss yearn for a wild pleasure with a dragon. This way, there's a chance to combine them to give birth to a powerful dragon descendant demon... It's said that there are a few demon lords from the pure-blooded Dragon Clan in the harem of the succubus queen." Miraya touched the white wolf girl's face and smiled meaningfully. Her words were explicit.

"No... I'm always cleaning up the house in my dreams because Master keeps moving," Algerta thought for a moment and said seriously as she touched her wolf's ears.

Just as the two women were chatting, hearty laughter came from Levi's Pharmacy room.

Levi stood up from the Pharmacy crucible, sweating profusely, and exhaled.

At the bottom of the crucible, there was a pill that was as translucent as a purple grape, emitting a strange milky fragrance.

"It's done. It's not easy. There's no possibility of failure in this advancement!"
