Chapter 930: Advancing to the Fourth-Circle! (4)

At the end of the meeting, Levi said, "I'll be traveling for a period of time. During my absence, the Knights and holy temple will depend on you. Don't cause trouble, but don't be afraid. If there are enemies that you can't deal with, you can come to the Ancient Dragon Empire to ask the Ancient Saint of the Senior State Assembly for help. With them around, even if the Church comes to find trouble, they won't be able to gain anything!"

"Alright, commander! Don't worry, our Knights can handle the storms alone now," the Blood Knight said.

The other members were also full of confidence. Other than the Silver Dragon Knight and the Dark Moon Knight, the veteran members were all at the Bloodthirst Realm. In the human world, they were still high-level combatants.

Levi nodded and ended the meeting.

In the following days, he focused on forging his second exclusive divine weapon.

He had learned his lesson this time.

He recalled that every time the Bloodline Dharma Body condensed, the power of the Scarlet Dragon would form the cloak of the Dharma Body.

Therefore, he wanted to try forging a cloak this time.

He relied on his peak forging skills to continuously temper this Blood Demon Meteorite Iron.

A month later, the cloak had begun to take shape.

To increase the ductility and toughness of the Blood Demon Meteorite Iron, Levi added some other rare materials.

During the forging process, he kept using Scarlet Power to nourish it.

In the end, a scarlet cloak appeared in the flames.

"Finally, it's done."

Levi took out the cloak with his large hand. Although it was made of special ores, this cloak was very elegant, like a ribbon.

He dripped his blood on the scarlet cloak, and the Scarlet Dragon Seed in his body immediately reacted.

Immediately after, the scarlet cloak disappeared in front of him and appeared in his body.

A cloak floated on the back of the Scarlet Dragon. It fluttered even though there was no wind and looked very handsome.

Levi willed, and blood-colored smoke swept out from his back. When the smoke faded, a scarlet cloak suddenly appeared.

Similar to the Crimson Dragon Slash, there was a Scarlet Dragon totem formed by scarlet runes under the cloak.

Beneath the Scarlet Dragon was a flashy silver chariot.

It was the Chariot Rune that Levi had solidified during forging.

He felt that it might be more suitable to solidify the Chariot Rune on a speed-type divine weapon.

Levi snapped his fingers and the Scarlet Dragon seed opened its eyes. Scarlet Power flowed into the cloak.

Swoosh!

The ground where Levi was cracked open.

In the next moment.

He had already appeared 10,000 feet above the Ancient Saint Plane.

"Let's test the maximum speed of this cloak."

Levi looked in the direction of the southern sea.

His cape fluttered in the wind! Levi seemed to have become the wind, merging with the vast world!

This time, he flew at full speed.

They set off in the morning and arrived at the distant southern sea in the afternoon.

He stood high in the sky, his emotions surging.

"Traveling the North Sea in the morning and the south in the evening... My flying speed in a normal state is twice as fast as before I lost my divine weapon."

With the power of the Scarlet Dragon, Levi's speed had already surpassed the speed of all Third-Circle Wizards. With this cloak, his traveling speed was already faster than many Fourth-Circle Wizards.

If he used Scarlet Escape, his speed would triple again.

It was also very difficult for a fifth-circle wizard to catch up to him.

"After mastering the Lightning Faction's fourth-circle innate spell, the combination of the two can be said to be perfect! This is simply a necessary divine skill to escape after snatching treasures and opportunities!"

Of course, speed was only one aspect. The cloak enhanced Levi's speed in all aspects. His combat agility, reaction speed, and so on were much stronger than without a divine weapon.

Finally, the cape could also be used for defense. It could only be said that this was not its forte.

However, with the powerful material of the Blood Demon Meteorite Iron, it was not a problem to resist ordinary fourth-circle spells.

"The first divine weapon, Crimson Dragon Slash. This second divine weapon shall be called... Crimson Shadow."

Levi opened the proficiency panel.

Levi—

Scarlet Dragon Breathing Technique: Level 14 (3,467,900/600,000). Special Effects: Scarlet Poison Body (level 2), Scarlet Contract (3/3), Thousand Faces, Boiling Blood, Scarlet Escape; exclusive weapon: Scarlet Shadow (Level 1: 1/1,000).

"The next step is to let the Scarlet Shadow nurture and grow in my body."

Levi stared at his reflection in the sea.

He had short hair, a strong body, and round arms. Coupled with the scarlet cloak fluttering behind him, he looked handsome!

"Lord Cang, this stallion, does all these things all day long. He's been having fun every night and doesn't cultivate well. Sooner or later, he'll be left behind by Feather King and Wing King..." Levi glanced at Lord Cang, who was enjoying himself in the palace, and left.

The day.

Levi opened Alice's ring in the forest around his palace.

Red Sand Ape, Crimson Fire Dragon Lizard, Dragon Finch, Silver Frost Ice Ape, Iron-Winged Griffin, and other first- and second-circle transcendent creatures were released by him.

They looked at Levi and felt a wider world. They were at a loss.

"You're free. As long as you're in this forest, no one can hurt you. If I find a partner for you in the future, you can continue your bloodline."

Levi got the Ancient Saints to open up a protected area here.

Releasing some transcendent creatures could save Alice's ring space.

"Moreover, if you enter the Dark Ancient Tower in the future, you won't be able to enter the transcendent creature space."

In fact, it was not just the Dark Ancient Tower. As long as they left Nora's plane, Alice Space, which was a small world that relied on Nora, could not be opened.
