

Wizard 934

Chapter 934: Branding! Bloodline and the Path to Limit! (2)

Time flew like an arrow.

In the blink of an eye, another year passed.

This year, another third-circle wizard left the cold pond. He had failed to break through. Although his life was fine, it was basically impossible for him to advance to the fourth-circle again.

A fourth-circle wizard named Salman went to Borl's secret room. It was said that he came from a big force in the Endless Sea, and that was the Ocean Abyss Alliance.

The Arctic Wizard happily accepted the money. He came to the window and looked at the fourth secret room in surprise.

"That third-circle wizard called Levi has been here for almost two years... With his cultivation base, he shouldn't be able to hold on any longer. Even a third-circle body-refining wizard would be in extreme danger if he stayed here for a year."

However, the fact that the array did not alert them meant that Levi was not dead yet. Therefore, he would abide by the contract and would not interfere with Levi.

Those who could cultivate until now all had some special aspects.

Year 1133 of the Holy Brilliance Calendar.

The first day of the Month of Beginning.

The 102nd year of the Great Expedition.

Today was supposed to be the day of the 31st round table meeting of the Twilight Knights.

However, due to Levi's seclusion, the 29th and 30th meetings were not held as usual.

In the Dusk Holy Temple in the human world.

The Blood Knight and the Black Knight held an unofficial knight meeting.

"Recently, more and more wizards have appeared in the human world... The boundary between the Wizard World and the human world is constantly being broken." The Blood Knight said solemnly.

"Some time ago, a third-circle wizard tried to break through the array of the Dusk Holy Temple. Blood Knight and I joined forces, but we were still easily defeated by him... Fortunately, with the formation left behind by the commander, we finally managed to complete the counterattack." The Black Knight said helplessly.

"Other than the Blood Qi Wings, we knights need more methods to fight against wizards of the same level. We can't rely on our commander. We need to learn how to develop ourselves!" said the Divine Light Knight.

"That's right. Wizards have many different ways of using spells. Our methods are too simple," said Dinos, who was also a first-circle wizard.

Then, he continued, "The [Primary Understanding of Bloodline Runes] that the commander left behind gave me a lot of inspiration."

"Since wizards can rely on their spiritual force and spell power to research spell runes, we knights also have Bloodline Seeds and blood qi. Why can't we imitate the wizard and create our own bloodline runes?"

"Wizards build spell models on the consciousness and spiritual level, so we can build talent models on the material and physical level."

"We walk the Bloodline Path. The existence behind the bloodlines in our bodies, other than the most basic attributes such as strength and speed, also has powerful spell-like abilities that are unpredictable!"

"In fact, many wizards' spells are created by referring to the spell-like abilities of transcendent creatures."

"For example, spells like Mountain Giant's Wrath were also known as Bionic Spells."

"So theoretically, we can completely master these abilities."

"Previously, when I was chatting with the commander, he said that he had once envisioned a path: to rely on the bloodline runes to construct a [Talent Brand] or [Divine Power Seed] that matched the characteristics of the breathing technique."

"Each brand is a spell model that requires specific bloodline runes to construct according to a specific structure."

"With the Bloodline Seed as the premise and core of activation, one can use the power of his bloodline power, which is also his blood qi, to operate this brand."

"Then, we'll combine the two and completely unleash the advantages of our bloodline."

"Thus, we can also use the power of nature such as Earth, Fire, Wind, Water, Lightning, and Ice."

"In fact, because our spellcasting comes from our bloodline talent, our spellcasting speed in the early stages may be faster than that of a wizard."

"This should have been a spell-like ability hidden deep in our bloodline, but we knights didn't dig it out. Bloodlines are a huge treasure trove, and our development of bloodlines is too shallow and low-level!"

"We will never be able to compete with wizards of the same level if we are only limited to the development of basic attributes such as speed and strength."

"No matter how strong you are, we can't beat a wizard at all. What was the use when we get fooled by a wizard's spells?"

"Even the leader needed to use the path of the wizard to make up for this flaw, let alone us?"

"Of course, there are also drawbacks to our talent brand. It's limited by our bloodline. This can't be changed. After all, our bloodline is the foundation of our transcendent system."

"Right, in the Endless Sea, there is a special transcendent group called [Miracle Wizards]. This is a similar example! If there's a chance in the future, we can hunt them and capture them for research! To create a spellcaster system that belongs to us knights. The commander called it... [Branded Knight]!" Dinos said seriously.

"Branded Knight... That sounds good... However, this is only a theory. If you want to put it into practice, it might take a long time and the hard work and research of countless generations of knights." Hogg said, somewhat confused.

"Then let's start with us! Everyone, the wizard civilization was not so powerful from the beginning. Before Sauron, no wizard had ever thought that a mortal body could be compared to the gods... The reason why I gave up on the path of the wizard and chose the path of the knight was because I realized that exploring the unknown gave me more passion and a sense of accomplishment! Moreover, we have the commander behind us!"
