

## **Wizard 936**

Chapter 936: Branding! Bloodline and the Path to Limit! (4)

In the sky above the city, there were three wizards leading a wizard legion of over a hundred people.

"The Snowy Owl Legion is the City Lord's strongest army. Only second-circle wizards are qualified to join it!" Emperor Mu was shocked when he saw this scene.

"To be able to mobilize the Snowy Owl Legion, it seems that the enemy's background is not minor," said Elsa.

"Now that array sealed the city, we can't leave. Let's act according to the situation in the city."

In the sky, in front of the Snowy Owl Legion, there were three fourth-circle wizards with different shapes and powerful auras. They were the Hades Three Brothers.

Outside the array, there was also a group of wizards in ice-blue robes standing in the air.

"It's the wizards from the White Ice Forest..."

The eldest of the three brothers, Hades Frost Witch Gurtz, had an ugly expression on his face.

The city lord had left three months ago. Logically speaking, he should have returned by now. However, he had not returned for a long time. Instead, the dark wizards came knocking on their door.

The White Ice Forest was the closest dark wizard organization to the Snow Capital, and there was also a fifth-circle wizard in charge.

That person was the arch-enemy of the city lord for the past hundred years, Ice Phoenix Ferlin.

She used to be a righteous wizard, but now he joined the Winter Tower's rebel army.

The Ice Phoenix had sent people to attack the Snow Capital many times, but they had never succeeded.

The three brothers thought that she had given up.

"Hahahaha! Where's that old fart, Arctic? Quickly get him to come out. You mobs are not my match!"

As soon as she finished speaking, a loud and clear phoenix cry broke through the clouds and cracked the rocks!

A huge, snow-white bird with a wingspan of a hundred meters descended from the sky with a long tail of white flames.

The giant bird's head was surprisingly a woman's head. It was very strange.

As a white light exploded, the array rumbled and trembled.

Then, a pretty witch with long and narrow eyes appeared. She was naked and only her vital parts were covered with white feathers. There were also long tail feathers behind her buttocks.

Ferlin was a fifth-circle powerhouse from the School of Spiritualism. The reason why she was called the Ice Phoenix was because her Psychic Beast was a five-ringed transcendent creature, the [Frost Flame Ice Bird].

It was said that this giant bird had a connection with the Mythical Creature, the Undying Bird. Although it was of the frost attribute, it had mastered a strange flame of heaven and earth, the [Netherworld Cold Flame]!

Three months ago, the Ice Phoenix had learned from a spy that the Arctic Wizard left Snow Capital. However, she was worried that the Arctic Wizard would try to trick her and set up a trap to ambush her.

Thus, she had waited for three months to confirm that the Arctic Wizard had truly left before leading the White Ice Forest wizards to attack Snow Capital.

She had been coveting the old thing's cold pond for a long time. If her Ice Phoenix could absorb the power of the cold pond, it could stabilize its fifth-circle realm and even awaken new abilities. From then on, the Arctic Wizard would no longer be her match!

The Hades Three Brothers were anxious. Although they could barely fight against a fifth-circle wizard if they joined forces, the other party had come prepared. There were also two fourth-circle wizards under their command.

They had already sent out a message, hoping that the city lord would think of a way to rush over to save the situation.

Seeing that both sides were at daggers drawn, Emperor Mu and Elsa quickly rushed to the City Lord's estate.

At this rate, the Snow Capital was probably going to be lost!

"It seems that old fart Arctic is indeed not here. Let's take this opportunity to snatch the water from the cold pond. When he comes back, we'll fight if we can win, and run if we can't."

Outside the array, the Ice Phoenix was calculating in her heart.

She had already fused with her spiritual beast, and with a wave of her hand, she could also use the spiritual beast's innate spell.

"Cold Flame Ice King Spear!"

Ice-blue flames appeared in her hand and condensed into a spear! Break!

Boom!

And it was followed by the attack of a fifth-circle wizard!

The fourth-circle defensive array was on the verge of collapse.

The three brothers guarded the array. At the same time, three powerful fourth-circle innate spells appeared from three directions. They gathered together and attacked the Ice Phoenix!

"I've long heard that the three of you have cultivated the same group attack spell and that you can compete with a fifth-circle wizard together. Today, I'll have a good taste of it!"

She waved her spear and tore apart the three brothers' attacks.

The three brothers' expressions changed. This was the might of a fifth-circle wizard!

Even though Ice Phoenix had just entered the fifth-circle realm and was considered the most ordinary among the fifth-circle wizards, she still gave them huge pressure.

Ice Phoenix handed a crystal wine cup to the two fourth-circle wizards beside her.

"The two of you, take this Wizard Tool and go to that old fart's cold pond. Collect all the water from the cold pond for me!"

At the same time, the incantation's information surged into their minds.

The two of them received the order and their protective force fields lit up. They directly rushed into the broken gap in the array and headed straight for the City Lord's estate!

On the other side, at the entrance of the cold pond.

Emperor Mu and Elsa were stopped by a third-circle guard.

"You are not allowed to trespass into the forbidden area of the cold pond!"

"The fifth-circle wizards outside are already charging in. Why aren't you running away? Besides, I have a friend inside. I have to call him!" Mu Di said in a low voice.

"Get lost!" The guard said coldly.

Emperor Mu, who was burning with anxiety and wanted to barge in, was stopped by Elsa.

"Are we a match for him if we join forces?"

"No."

"Calm down. There's no point in forcing your way in... Let's hide for now. Snow Capital is in such a mess right now, and we won't be able to defend this entrance. We'll take advantage of the chaos to enter," said Elsa.

Emperor Mu thought for a moment and quickly left with Elsa.

Not long after, two aggressive figures descended.

"Die!"

Before the guards could stop them, two fourth-circle spells had already landed on the ground one after another.
