

## **Wizard 937**

Chapter 937: Branding! Bloodline and the Path to Limit! (5)

"Let's go. The Arctic Wizard might return at any time. Hold on tight!" The two of them immediately went deep into the cold pond.

Before long, they had already appeared in the cold pond.

"It's so cold. Hurry up and draw the water!" One of them urged as they were in charge of keeping watch.

The other person immediately chanted an incantation and injected his spell power.

The crystal wine cup floated up, its mouth facing downwards as it spun continuously. A powerful suction force came from it.

In the next moment, the water in the cold pool began to roll back, and the dense frost elemental power in it surged toward the wine cup!

Before this, many wizards had tried to use their storage spaces to store the cold pond water.

However, they discovered that the water that was taken away would lose its elemental power.

However, this magical wine cup seemed to be able to solve this problem. It was obvious that the Ice Phoenix had been plotting for a long time and had come prepared!

Soon, the cold pond water decreased by a lot.

The wizards cultivating in the secret room on the shore all realized that something was wrong.

One by one, they came out cursing.

"What's going on?"

"Who are you? Where's the City Lord?"

"This seems to be the dark wizard from the White Ice Forest... Run!"

The wizards were in a mess.

"Get lost! Otherwise, you will die here!" said the fourth-circle wizard who was on guard.

He didn't want to cause any more trouble. He just wanted to get the water and leave as soon as possible.

Those wizards retreated one after another. They were all low-level wizards and did not dare to disobey the will of a fourth-circle wizard!

At the bottom of the cold pond.

Inside the ice sculpture, Levi opened his eyes in extreme displeasure.

"Just one more drop! D\*mn it, who would want to cause trouble at this critical moment?! Forget it, a drop could be condensed anywhere. It was better to solve the problem at hand first... Guillermo, prepare for battle!"

With a thought, all the ice crystals on Levi's body shattered.

The bones in his body cracked and his heart beat more and more violently, like thunder.

Crimson Dragon Slash let out a clanging sword cry. Clearly, it had been dormant for too long, and could not help but want to fight!

Levi opened the door of the secret room, and the door of the secret room next to him opened as well.

A tall, white-robed elder with white hair and beard walked out with a long staff in his hand.

"You two, either die or get lost!" The wizard who was on the lookout berated from the sky. Under normal circumstances, he would not have such an attitude towards experts of the same realm.

But now it was different. The Ice Phoenix was in the city. Other than the Ice Wizard, he had nothing to fear!

In this region, fifth-circle wizards were invincible!

"I just paid ten years of rent, and you want me to get lost? Are Ice Realm youths so rude?"

The white-robed old man shouted in a vigorous voice. He rolled up his sleeves, and blue runes flickered on his thick arms like scales.

"A body-refining wizard?" The man heaved a sigh of relief. The combat strength of a body-refining wizard was generally weaker than that of a spell wizard, so he was even less flustered.

"Me too. Although I only have two years of rent left, I can't just give up!"

Levi let out a breath of hot air, and flames came out of his nostrils.

The blood-red cloak on his back fluttered in the wind, and the Crimson Dragon Slash in his hand was eager to give it a try!

He had wanted to try out the power of his fourth-circle innate spell, but the [transition period] was still not over, even though he was only 1 drop away! Levi did not dare to try, afraid that his previous efforts would go to waste.

His arm was covered in golden scales and was wrapped in red flames.

"Another body-refining wizard?"

The White Ice Forest wizard was also shocked.

It was rare to see a body-refining wizard.

Today, two of them had appeared in this small cold pond. It seemed that they were both fourth-circle.

"You're also a body-refining wizard. I didn't think that young people nowadays would actually walk this path. How about we each take one and fight our way out?"

The white-robed old man smiled with a pinkish face. He did not panic at all. It seemed that he was very confident in his strength.

"That's what I was thinking."

Levi's expression remained the same, but the corners of his mouth curled up. With a flash of his cloak, he disappeared from where he was. In the next moment, a huge icicle pierced through the secret chamber and shattered the secret room!

On the other side, the white-robed old man let out a long roar. His robe took off and he completely revealed his body!

A blue-scaled giant that looked like a member of the Sea Clan appeared and smashed the icicle into pieces with a punch!

...

"Have you seen Commander?"

"No, I haven't."

Emperor Mu and Elsa looked anxiously at the wizard who left the cold pond.

"Is he in seclusion?"

"Let's go in and take a look!"

Just as the two of them were about to enter.

Suddenly, the ground trembled.

Emperor Mu and Elsa felt that something was wrong and retreated.

In the next moment, the entire City Lord's estate collapsed, and a thousand-meter-long crack appeared.

Flames spread from the depths of the crack, and the high temperature soared into the sky, melting the snow!

This was accompanied by a loud laugh.

A blue-scaled giant leaped high into the air. In front of him, the wizard who had spoken rudely fled as if he had seen a ghost.

At the same time, another wizard holding a wine cup also directly consumed his original spiritual force and flew out of the ground with a pale face.

"Lord Ferlin, save us!"

The two fourth-circle wizards shouted at the same time.

At this moment, the Ice Phoenix was barefooted, stepping on the unwilling faces of the three brothers. It was obvious that she had won the battle.

She raised her head.

High up in the sky, a red and black sword qi streaked across the sky, tearing apart the white world of ice and snow!

Wherever the sword qi swept, the entire Snow Capital was split into two.

The fourth-circle wizard in front of him was holding a wine cup in his hand. He was trying his best to use his spell power to support the last protective force field.

However, in front of the invincible sword qi, it was like paper, shattering soundlessly! A black shadow flashed past and snatched the wine cup and spoils of war that had fallen to the ground. It quickly returned to the red figure's side.

The remaining power of the sword qi was still present as it arrived in front of the Ice Phoenix.

Blue ice wings suddenly grew out of her back and wrapped around her in an instant!

The sword qi dissipated, and she retracted her ice wings with a gloomy expression.

A blue flame-like ice crystal feather appeared in her hand.

She lowered her head to look, her eyes filled with shock.

The Frost Flame Ice Bird's feathers cracked.
