

## **Wizard 938**

Chapter 938: Dragon and Whale, Battle Phoenix! (1)

Snow Capital.

What they saw was devastation.

A deep ravine ran through the street. The ravine was charred black, emitting scorching heat.

High in the sky.

Levi held the Crimson Dragon Slash in his hand, his cloak fluttering in the wind. His ordinary robe had long been torn apart in the battle, revealing the armor formed by the Metal Voodoo to protect his privacy.

Levi looked at the fifth-circle wizard in front of him and was ready to use the Scarlet Escape to escape with Emperor Mu and Elsa.

The Poison Fire Corpse Demon stood behind Levi, silently guarding him. It was holding the spoils of war from the fourth-circle wizard and a crystal wine cup. This wine cup could not be stored in the storage space, so it was very magical.

On the other side, the white-robed elder who had transformed into a blue-scaled giant was no longer as relaxed as before.

He looked at the fifth-circle wizard with a serious expression. In his hand was another wizard's storage bag.

The two of them had a tacit understanding and each of them would get one storage bag.

When he was at the bottom of the cold pond, Levi had also witnessed the strength of his neighbor.

They were both body-refining wizards, but Barzan was nothing compared to Levi's cold pond neighbor.

Judging from the spiritual force fluctuations he emitted, he should have already reached the fourth-circle's Perfection level. Other than refining his body, he had also mastered many powerful spells.

Moreover, Levi had never seen him before, but he also felt like he had seen him before.

Of course, the white-robed elder was even more shocked.

"Are the youngsters nowadays so fierce?"

Judging from Levi's spiritual force fluctuations, he should have just reached the fourth-circle realm. His spiritual force was still unstable, and there was a high chance that he had not completely passed the [transition period].

However, judging from Levi's performance, it was a little exaggerated. Even a veteran fourth-circle elder like the white-robed old man felt pressured.

Upon closer inspection, the scales on Levi's body were different from his own. He was transformed from the runes of a body-refining spell, and he needed spell power and spiritual force to activate them.

And it seemed to be real. Not only that, but he also emitted the aura of the Dragon Clan!

Having traveled extensively, he knew that this was a dragon descendant.

However, this young wizard was a little different from ordinary dragon descendants. He must have also cultivated some powerful body tempering techniques. It was difficult for a pure dragon descendant to reach this level.

Other than that, the other party was the same as him, also cultivating the path of spells!

"Compared to a dragon descendant body-refining wizard, a mixed-blood Sea Clan body-refining wizard like me is still inferior..." He sighed inwardly.

He came from the Endless Sea's Ocean Abyss Alliance. Because he was working in the Star Tower, he came with them when they were helping the Realm of Ice.

His spiritual force cultivation had reached the Perfection level here. In order to temper his physique, he had come all the way to Snow Capital.

He planned to use the ultra-low temperature environment of the Eye of the Ice Emperor to aid in his cultivation.

He rented it for ten years.

Who would have thought that something would happen after just a year?

After being forced out of seclusion, he and his neighbor, Levi, hit it off and directly fought out from underground. The old and the young worked well together.

It was already chaotic outside the city, and there was still a fifth-circle wizard eyeing them like a tiger watching its prey.

On the other side, Emperor Mu and Elsa had already hidden outside the city. They looked at the red figure in the sky.

"Is that the Commander?" Elsa asked in disbelief.

"Yes."

"He... What kind of breathing technique is this?"

"I don't know either. Given his cultivation level, the breathing technique he cultivates is already beyond our imagination."

"The commander had once borrowed a breathing technique from us. I suspect that he is no longer limited to his bloodline. He has long mastered all the breathing techniques and is above ordinary knights," said Emperor Mu.

"What? How is that possible?" Elsa was shocked.

"Nothing is impossible. Other than the commander, have you seen any other knight who could tear a city apart with a single sword strike?" Emperor Mu smiled bitterly.

"Perhaps this is the wizard ability of the commander..." Elsa couldn't imagine that a knight could do what their commander did.

They had seen with their own eyes that the fourth-circle wizard was being pursued by their commander and was even annihilated by his powerful sword.

How was this a sword skill? This was clearly a spell!

Although Emperor Mu had broken through the shackles of legendary rank and entered the Bloodthirst Realm, he could only bully an ordinary second-circle wizard. It was still difficult for him to deal with the Iceberg Giant Ape.

The difference between them could be imagined.

The wizards of Snow Capital all rushed out of the city.

When immortals fought, mortals would suffer.

Although fourth-circle and fifth-circle powerhouses were not gods, most low-level wizards would be injured or killed by the shockwaves of their battle.

Now, the fourth-circle array had been completely torn apart by the Ice Phoenix.

Hades Three Brothers had already been trampled under her feet and expressed their submission.

This was also the reason why the Ice Phoenix had spared their lives.

She also needed a fourth-circle wizard to expand her influence.

Especially since the two fourth-circle wizards had just died.

Thinking of this, her expression turned cold.

"You are the wizard who cultivates in the Eye of the Ice Emperor, right? You should never have killed my people. You all know that I, Ice Phoenix Ferlin, am the most protective of my people!"

The aura of the Ice Phoenix's fifth-circle power erupted.

From the looks of it, she would definitely not let Levi and the others leave.

Levi felt the Ice Phoenix's spiritual force and his heart skipped a beat.

"This Ice Phoenix seems to have just entered the fifth-circle realm. She's much weaker than the Blue Dragon Lady or Sorrett. Even the Sea Serpent Grand Duke is better than her in terms of spiritual force.
