

Wizard 939

Chapter 939: Dragon and Whale, Battle Phoenix! (2)

"However, even if she had just entered, her spiritual force should be around 500 to 600 points. I only have around 200 points. The gap between us is too huge. Moreover, my [transition period] had not ended yet. I would have some reservations when I use my wizard methods."

"It's too difficult to fight against a fifth-circle wizard with just knight techniques and a Poison Fire Corpse Demon. My sword just now was enough to kill a fourth-circle wizard, but it didn't break her defense."

The fifth-circle wizard was very strong, but Levi did not panic too much.

After all, he now had the Scarlet Escape. The Scarlet Escape had been automatically nurtured to level 2, and its speed was a little faster than level 1.

With the addition of Scarlet Escape, escaping should not be a problem.

However, in the current situation, if he ran directly, he might be found by the fifth-circle wizard and would be defeated.

He transmitted his voice to the white-robed elder and said, "Sir, if the two of us work together, we should be able to escape from a fifth-circle wizard. It shouldn't be a problem."

"That's what I was thinking," said the white-robed elder.

The Ice Phoenix waved her hand, and a long river of cold flames swept through the sky along with the phoenix's cry.

The fifth-circle wizard of the School of Spiritualism could already fuse with a spiritual beast and gradually use the spiritual beast's innate ability as her own innate spell.

This cold flame was the spiritual beast's most basic ability. Its entire ability relied on this cold flame.

The Ice Phoenix took the lead and charged towards Levi.

This was because Levi was holding the item she cared about the most.

The crystal wine cup filled with the spring water of the cold pond!

"Give me the wine cup!"

The Icy Flame River came crashing down!

In the next moment, the white-robed elder waved his staff forward.

This staff could be used as a melee weapon, but it could also be used to cast long-range spells!

The fourth-circle wizard who had just escaped was smashed to death by the staff.

A sea-blue city wall appeared between heaven and earth.

Fourth-circle spell, Sea Sky Veil!

Cold flames swept out, freezing the sea and sky curtain, and the curtain began to gradually collapse.

"Thank you, sir!" Levi sent mentally.

With the help of his scarlet cloak, he quickly arrived beside Emperor Mu and Elsa.

"Don't resist. I'll pull you into the space of transcendent creatures. Prepare to evacuate!"

The next moment, Emperor Mu and Elsa disappeared.

Looking at the Ice Phoenix, Levi's fighting spirit burned. While the white-robed old man was holding down the enemy, he turned into a red light with the support of the scarlet shadow!

"Destruction!"

Levi's sword qi slashed toward the Ice Phoenix!

The sword qi, which had been unstoppable all this while, stagnated in front of the force field formed by the cold flames around the Ice Phoenix's body and finally dissipated.

The Ice Phoenix sneered and threw a cold flame at Levi.

Levi's Crimson Emperor Dragon gathered in his mouth and suddenly spat out.

The scarlet flames and the ice-blue flames collided, dyeing the sky in two colors. Then, the scarlet flames retreated and were swallowed by the blue flames!

Levi took the opportunity to dodge the cold flames, his expression solemn.

"The fifth-circle protective force field... My normal sword qi can't break it at all. As expected, the difference in strength is too great."

As Levi analyzed the situation, the white-robed old man's voice entered his mind.

"Sir, you only need to restrain that woman for a short while. I will use my strongest method to trap that woman for a bit, and then we will use our own abilities to escape! If there is a chance in the future, you can go to the Ocean Abyss Alliance and look for Salman to exchange our body refining techniques!"

"Salman Archer?"

"Yes, how did you know?"

"We'll talk about it in the future!"

Levi's scarlet shadow suddenly accelerated, and under the cover of the white-robed old man's spell, he rushed towards the Ice Phoenix.

As he flew, dragon horns began to emerge on his forehead. His anger almost materialized and shot into the clouds.

Right now, Levi could freely enter the Furious Dragon Lord form!

On his arm, the power runes were shining like stars! On the cloak, the Chariot Rune accelerated!

The Nightmare Dragon's power surged, and in an instant, the entire Snow Capital fell into darkness!

It was dark!

Everyone was shocked. What kind of terrifying spell was this?

Everything was now ready!

All of Levi's breathing techniques started to circulate wildly.

A 30-foot-tall Bloodline Dharma Body with three heads and six arms condensed behind him!

Asura's avatar had a ferocious look on its face. Its six arms held the Crimson Dragon Slash at the same time, and the scarlet cloak behind it soared hundreds of feet into the sky!

Salman knew that Levi was going to use his true killer move. He held his magic staff and chanted something.

Fifth-circle spell, Whale Soaring the Sky!

An illusory blue whale that was hundreds of meters long suddenly appeared!

The giant whale broke through the river of cold flames and went against the current, splitting the cold flames.

Boom!

The giant whale crashed into the Ice Phoenix's protective force field, shattering the Frost Flame Shield.

The Ice Phoenix's expression changed slightly. Ice crystal feathers appeared around her body and gathered in front of it.

She was sent flying and spat out blood. Her face was pale and she was in disbelief.

"A fifth-circle Wizard Tool? Which faction are you from?"

This white-robed elder was obviously from the Ocean Faction.

Among the forces in the Realm of Ice, the number of wizards in the Ocean Faction could be counted on one hand, let alone those with fifth-circle Wizard Tools.

After all, even she did not have a fifth-circle Wizard Tool, and neither did Arctic, that old man!

Salman's face was pale, and beads of sweat appeared on his forehead. It was obvious that he had consumed a lot of energy to use a fifth-circle Wizard Tool.

However, he was much stronger than the Black-Eyed Crow, so he would not be squeezed dry in an instant.

His fifth-circle Wizard Tool was called:

Furious Whale Staff!
