

## **Wizard 941**

Chapter 941: Dragon and Whale, Battle Phoenix! (4)

A staggering figure came out from inside. It was the Ice Phoenix.

"D\*mn it!"

The Ice Phoenix was so angry that she stomped her feet in the air. Her chest was heaving up and down, and her expression was ugly.

She was a fifth-circle wizard, yet she was fooled by two fourth-circle wizards.

Without a fifth-circle Wizard Tool, she was at a disadvantage in a fight.

Moreover, the white-robed elder seemed to be at the peak of the fourth-circle body-refining realm. He was considered a first-rate expert just below the fifth-circle.

The other one was also a body-refining wizard dragon descendant. He was definitely a pure-blooded Dragon Clan and his strength was not something that ordinary fourth-circle wizards could compare to.

Thinking of this, the Ice Phoenix felt a little better.

'It's definitely not that I'm weak as a fifth-circle wizard, it's because both that old man and the young man are too strong!

"However, that wine cup was actually snatched away! It wasn't easy for me to find the item to store the Eye of the Ice Emperor!"

The Ice Phoenix wanted to curse.

She had thought that the operation was going to be a success, and the Arctic Wizard had yet to arrive. She had not expected such a turn of events.

"The Realm of Ice is only this big. I will catch you sooner or later!"

The Ice Phoenix calmed down and left quickly with the Hades Three Brothers.

Withered Valley.

The Arctic Wizard began to return home with an ugly expression.

He had already snatched the key on this trip, but something unexpected happened. A primordial soul wizard appeared and took his key away. He handed it over in humiliation, saved his life, and returned home in a dejected manner.

Several days later.

"Ice Phoenix destroyed my city!"

The furious roar of the Arctic Wizard came from the skies above the city.

Then, he scanned the city with his spiritual force and found that only a small portion of the Eye of the Ice Emperor was left. The spring water was nowhere to be found! Originally, the spring's eye was about to dry up. Now that more than half of it had been taken away, it was simply adding insult to injury!

"Not only did you destroy my city... You even stole my spring water. You've gone overboard!"

In fact, the Arctic Wizard had already made plans for his home to be stolen. Anyway, if he got the key to the Dark Ancient Tower, it was not a big deal to give up on this place.

The problem was that he didn't get the key, and now his home was destroyed...

He and the Ice Phoenix were old enemies, so he could tell at a glance that these bad things were basically done by the Ice Phoenix.

Although there were also traces of battles between other wizards, it must have been caused by the wizards who were cultivating here fighting with the Ice Phoenix in order to survive.

In short, it was all the Ice Phoenix's fault!

"I can't take it anymore. There's no need to endure this anymore!"

The Arctic Wizard quickly headed towards the White Ice Forest.

A few days later, the battle between the fifth-circle wizards took place in this area. The sky was dark, and the sun and moon were dark.

Rumor had it that the Ice Phoenix was no match for the Arctic Wizard. She escaped with the undying abilities of her spiritual beast, the Frost Flame Ice Bird. After killing the righteous wizards at the teleportation gate, she ran to the vast Endless Sea next door and disappeared!

...

In the Endless Sea.

Nether Capital.

After a few years, Levi returned to his mansion.

He immediately activated the array and began his seclusion.

In this way, a month passed.

It was only after the side effects of using Scarlet Escape had all dissipated that Levi walked out of his seclusion.

A month ago, after leaving the Snow Capital, Levi, who was worried that the fifth-circle wizard would take revenge on him, had rushed back to the Endless Sea through the teleportation portal. He then came to the Nether Capital, where he could return to the Witch's Family at any time.

Even if that fifth-circle wizard chased after him, he was not afraid.

He stood at the window of the wizard tower and looked out at the vast sea and sky. The white clouds were leisurely, and he felt refreshed.

During the month of seclusion, he had completely passed the transition period.

Now, in Levi's mind.

There was a white Divine Ring Tower.

When he was a third-circle wizard, the Divine Ring Tower only had three floors.

Now that his spiritual force had completely liquefied, his Divine Ring Tower had four levels!

Not only that, the Divine Ring Tower was much more solid than before.

In the Divine Ring Tower, there were 210 drops of spiritual force stars, which were shining brightly.

Each drop of these spiritual force stars represented a fourth-circle unit of spiritual force, which also represented a total of 50 points of spell power.

In other words, Levi's current spell power was 10500 points!

He felt the abundant spiritual force and spell power in his mind. It would be a lie if he wasn't excited.

For wizards, advancement was always the top priority.

After reaching the fourth-circle realm, the quality of his spiritual force had improved significantly.

It was the same 1-point unit, but the meaning behind it and the power it could unleash was completely different from when it was in the third-circle realm.

"Year 1013 of the Holy Brilliance Calendar, I received the Deep Sea Meditation Art from Tuten and embarked on the path of a wizard. Time has passed, and it's already Year 1133. From an apprentice wizard to a fourth-circle wizard, it took a total of 120 years. A fourth-circle wizard's lifespan is about 700 years old, and I'm only 143 years old. Levi, your future is promising..."

At this moment, Levi realized that he was different from ordinary wizards with his proficiency panel.

Although he started late, he relied on the interface to keep snowballing. He chased after them again and again, overtaking them at the corners.

Even the Children of the Elements of the major factions, who had started cultivating from a young age and had the best resources to support themselves, were few and far between in attaining the fourth-circle realm before 150 years old!

This was the interface, the eternal god!

What Children of the Elements, what special talents, and hot shots were all merely floating clouds in front of the interface!

"Next, I'll set a small goal. I'll reach the primordial soul realm within 200 years!"

The high-spirited Levi left Nether Capital and found a random direction, arriving at the uninhabited sea.
