

## Wizard 945

Chapter 945: Golden Snake Maximum, Change on the Panel! (3)

Levi was silent. It seemed that the pure-blooded Dragon Clan could sense the Dragon Clan bloodline in his body.

"You don't have to panic. As the guardian of the Witch's Family, I definitely won't do anything to you. Besides, that won't do me any good. I called you here because I want to make a deal with you," she said.

"What kind of deal?" Levi asked, not directly refusing.

He was only a Fourth-Circle Wizard. If even Triss addressed this Immortal Banyan Dragon as a senior, she was probably an old dragon lady in the seventh-circle or even eighth-circle.

"I want you to enter the Dark Ancient Tower and retrieve a treasure. That treasure is on the fifth floor of the Dark Ancient Tower. Someone from the Witch's Family has seen it before. It's a treasure that looks like the Holy Grail."

Hearing this, Levi's heart stirred.

Holy Grail... He was 90% confident that she was referring to the Holy Grail of Immortality!

It was the fourth treasure forged by the body of the Forest King, the Immortal Banyan Dragon, Diuxis.

This Holy Grail of Immortality was actually in the Dark Ancient Tower.

No wonder Levi couldn't find it even after turning the entire Ancient Saint plane upside down.

"Senior, I'm not qualified to enter the Dark Ancient Tower... Besides, with my strength, how can I defeat those Fifth-Circle Wizards and primordial soul wizards? This treasure must be important to you. It's not that I don't want to help you, but I'm powerless," Levi said helplessly.

"You now have the qualifications to enter the Dark Ancient Tower," Idrasala said calmly.

Then, a gorgeous flower wrapped around a small pagoda and appeared in this magical space.

Then, the small pagoda entered Levi's body and disappeared. It did not emit the light that attracted other wizards.

"Senior, this is..."

"To me, it's not difficult to obtain a key. This key is not within the quota of the Witch's Family, and it's not convenient for the Witch's Family to know about this. This is a secret between the two of us, little guy," Idrasala explained.

Levi was shocked. As expected of a pure-blooded Dragon Clan, they were so powerful!

He now had two slots to enter the Dark Tower.

Other than himself, he could also bring someone in.

Life was full of surprises.

"From the description of a certain wizard who entered the Dark Ancient Tower, I suspect that the Holy Grail was forged from the flesh of the Immortal Banyan Dragon. Many wizards who entered previously, including primordial soul wizards, tried to take it away, but they failed. Some dragon-descendant wizards even tried, but they could not take it away. I suspect that... only dragon-descendant wizards with the bloodline of the Immortal Banyan Dragon can take it away."

"But although I'm a dragon descendant, I'm not an Immortal Banyan Dragon's dragon descendant."

His breathing techniques did not include the Immortal Banyan Dragon breathing technique.

"I know you're not, so I'm just asking you to give it a try. There's no harm in giving it a try," Idrasala said. She had a feeling that Levi's special bloodline might succeed.

"Actually, there is a more suitable candidate than you. The Flower Witch has a very faint Immortal Banyan Dragon bloodline in her body. Unfortunately, she went on a plane trip, so I couldn't contact her."

Levi was a little surprised.

"The Flower Knight is definitely not a dragon descendant. The Immortal Banyan Dragon bloodline in her body should come from a breathing technique... So that's how it is. No wonder it's called a Hundred Flowers."

The Immortal Banyan Dragon was of the Earth attribute, so it was called the "Forest King" in the legends of the Ancient Saint plane. Its ability was similar to some spells of the Life School of Thought, and it could promote the growth of all things.

After some thought, Levi finally said, "Senior, I can give it a try, but what's the price of the deal?"

In Levi's heart, the Holy Grail of Immortality was already his.

Even if he took it, it would be his. How could he give it to Idrasala?

"A Soul Artifact."

Idrasala said.

Then, a stream of light appeared in front of Levi.

An ordinary-looking ancient book appeared in front of Levi.

"This is the Book of Ten Thousand Spirits. It's a sixth-circle Soul Artifact I obtained after killing a dark wizard from the School of Death.

Although it was only a sixth-circle Soul Artifact, the Book of Ten Thousand Spirits was also famous in the School of Death.

The dark wizard who created it was called the Soul Drawing Demon Wizard. He took a different approach and gave up on the traditional summoning method. He relied on the corresponding black magic to condense thousands of evil spirits into Soul Artifacts. He even raised a primordial soul-level evil spirit refined by the primordial soul of a seventh-circle wizard.

With this Soul Artifact, ordinary primordial soul wizards were no match for it at all.

Furthermore, the advancement of this Soul Artifact was even simpler than other Soul Artifacts.

He only needed to continuously refine more and stronger evil spirits to advance.

"In theory, as long as you are strong enough and condense more evil spirits, this Book of Ten Thousand Spirits has a chance to transform into 100,000, 1,000,000, 10,000,000, or even the Book of Million Spirits. With a thought, billions of evil spirits will open the way and the human world will become purgatory. It won't be a problem."

Idrasala's voice was seductive.

Levi's heart was burning with passion. Then, he calmed down.

Soul Artifacts were excellent, but fifth-circle Wizard Tool was nothing compared to them.

However, the problem was that treasures at the level of the Holy Grail of Immortality, like the Truth Magic Mirror and the Teatime Round Table, were beyond the level of Wizard Tools. They were special treasures refined by Sauron.

Their functions were definitely stronger than the so-called Soul Artifacts.

Besides, without the cultivation of a primordial soul wizard, there was no way to use a Soul Artifact.

Moreover, after Levi advanced to a primordial soul, he would definitely refine his own Natal Soul Artifact.
