

## **Wizard 946**

Chapter 946: Golden Snake Maximum, Change on the Panel! (4)

This Book of Ten Thousand Spirits could only serve as a foil.

Besides, this thing sounded like a typical dark wizard's Wizard Tool.

Levi was also not the kind of heinous devil who would destroy cities and kill people without any hesitation.

"Senior, this Soul Artifact is too vicious," Levi could not help but say.

"What's there to be afraid of? You just have to see the person you use this Soul Artifact on become an evil spirit."

"..."

It made so much sense that Levi was speechless.

This Immortal Banyan Dragon was also a ruthless character.

"Senior, I can only say that I'll give it a try. With my ability, there's a high chance that I won't be able to get it back," Levi said after some thought.

"When you get the Holy Grail, I'll naturally give you the Soul Artifact. If you don't get it back, then forget it," the Immortal Banyan Dragon said.

"I'll do my best."

"Remember, what happened today is a secret between the two of us, kid."

"Understood!"

...

He left the Magic Tree.

Levi returned home.

"Idrasala doesn't seem to know what the Holy Grail is... When I meet it, if I can directly subdue it, why would I give it to her? Although that Soul Artifact is good, it's too far away for me."

Levi already had a plan in mind.

Ezreal didn't say that he had to get the Holy Grail. She just wanted Levi to give it a try and didn't have much hope.

"Mobius, Erlnis, Otharos, do the three of you think that person just now is a descendant of Diuxis?" he suddenly asked.

"It's been too long. The Immortal Banyan Dragons are extremely rare. It looks like it's possible," Mobius said.

Levi was no longer conflicted.

With his strength, it was still unknown if he could reach the fifth level.

A month later.

While Levi was cultivating at home, Celia suddenly sent him a message, saying that Madam Triss had something to tell him.

"The appraisal should be done."

Levi was a little excited.

A Fifth-Circle Wizard Tool was something that many Fifth-Circle Wizards did not have.

It was the strongest Wizard Tool below Soul Artifacts!

He came to Triss's residence.

As expected, Triss looked at Levi with a smile.

"Your luck isn't bad. This fifth-circle Wizard Tool is indeed worthy of being a family's inherited Wizard Tool. There are three types of fifth-circle spells solidified on it, more than twenty third-circle spells, fourth-circle spells, and many low-level spells.

"Needless to say, let's just talk about these three most important fifth-circle spells.

"They are the World Burning Flame Snake, World Ring Shield, and Ouroboros Gate.

"Needless to say, the first one is the most important attack method of this Wizard Tool. It condenses a powerful fifth-circle fire snake to track and attack the enemy. I reckon that ordinary Fifth-Circle Wizards would not dare to resist it head-on. Those below the fifth-circle who do not have any trump cards will definitely die if they touch it.

"Of course, the consumption of spell power is also very large. With your current spell power, you can only use it once at most before it is sucked dry.

"The second is a fifth-circle protective spell. It is average and has a passable defense.

"The third is where the essence of the Wizard Tool lies, and it is also the core that can be called top-grade.

"Activating the Ouroboros Gate, a short-distance teleportation portal will appear out of thin air in front of you. It can teleport you to any place in sight!

"Of course, it won't exceed 1,000 miles. Moreover, after using it, there will be a seven-day gap.

"At the same time, there might be no way to teleport in certain spaces.

"There are also some special spatial spells that might restrict your teleportation.

"However, generally speaking, spatial spells are knowledge that only primordial soul wizards are involved in. One just has to not provoke primordial soul wizards.

"There are many other small functions. For example, there is a fourth-circle spell called Snake Speaker that can summon nearby snake creatures to fight for you.

"I won't go into detail. Go read the instructions yourself.

"Oh right, this Wizard Tool is called the Fire Ouroboros."

Levi solemnly took the instructions and Wizard Tool from Madam Triss, his eyes filled with gratitude.

"Thank you, Madam!"

"Don't say anymore. I didn't get you the qualification to enter the Dark Ancient Tower. As a primordial soul wizard, I'm very embarrassed..."

Triss sighed.

"..."

Levi left Triss excitedly.

"Anya, oh Anya, I've already prepared two fifth-circle Wizard Tools for you. When are you going to advance to the fifth-circle?" Triss muttered to herself as she watched Levi leave.

If Levi heard this, he would probably vomit blood on the spot and curse in his heart.

"What a filthy rich woman!"

...

Three days later.

Levi quietly found a remote place.

He tested the power of the Fire Ouroboros.

After exhausting all of his spell power at once, a three-hundred-meter-long flaming snake suddenly flew out, boiling the sea in front of him and exploding. It was a rather spectacular scene.

In comparison, his Fire Dragon Tribulation was much inferior.

Of course, after he advanced to the fifth-circle, the power of the Fire Dragon Tribulation would definitely not be inferior to the World Burning Flame Snake.

"Oh my god, 320 Cas. It's a miracle that I survived back then." Levi felt a lingering fear.

After his spell power was fully restored, he tried the World Ring Shield again, and his spiritual force was sucked dry again.

Then, a huge shield formed by an unbreakable fire snake danced around him. No matter how the succubus, Poison Fire Corpse Demon, and the others attacked, it did not move.

Not only that, but the fire damage reflected by the fire shield almost burned the Poison Fire Corpse Demon.

"Too strong! What a pity. If we had this in the Realm of Ice, Salman and I might have been able to seriously injure the fifth-circle witch when we were caught off guard."
