

Wizard 947

Chapter 947: Golden Snake Maximum, Change on the Panel! (5)

The next day.

Levi regrouped and tried the Ouroboros Gate that he was looking forward to the most.

After reciting the incantation, there was no reaction.

"Not enough spell power?"

Levi tried many times.

He realized that there was still no movement from the Wizard Tool.

He had no choice but to leave.

The function of this teleportation portal at the core should be a very profound fifth-circle spell. With his current cultivation level, even if he had a Wizard Tool, he would not be able to bear the consumption of its spell power.

...

Holy Brilliance Calendar Year 1134, Month of Beginning.

The 103rd year of the Great Expedition.

Levi returned to the mortal world.

Dusk Island.

Dusk Holy Temple.

Levi did not use the Teatime Round Table to hold the 32nd round table meeting of the Twilight Knights.

After a hundred years, all the knights had gathered in the human world!

In the hall.

In front of the round table, this time, everyone was no longer having a meeting with their consciousness projections.

Blood Knight, Black Knight, Saint Ape Knight, Golden Lion Knight, Ash Knight, Divine Light Knight, Goddess Knight, Silver Dragon Knight, Dark Moon Knight!

"The nine official members of the Twilight Knights are all here!" The vice commander, Blood Knight, said excitedly.

Levi looked at the round table that was already half full and felt a little emotional.

It had been 113 years since the establishment of the Twilight Knights, and they had been a secret organization for a hundred years!

Thinking back, this organization was only an idea between him and Emperor Mu. The Blood Knight was also completely tricked into joining by Levi.

He was now a Level 4 expert.

In addition, six Level 2 experts and three Level 1 experts were not considered top-notch in this world, but they were definitely not weak.

"Everyone already knows the Saint Ape Knight and the Goddess Knight, so I won't introduce them anymore.

"Everyone, with the Dark Wave Revival, elemental power gradually returned to the human world and the various plane convergences arrived.

"As far as I know, many wizard organizations in the Wizard World have already begun to send vanguard troops to settle in the human world!

"If we want to get a share of the profits in the future era, the Twilight Knights naturally can't fall behind!

"I came back this time to lead everyone, the Church, the wizards, and those old secret organizations to seize our benefits in this era that has been turned upside down!

"Before that, everyone, hurry up and increase your strength. For example, Blood Knight and Black Knight are already at the peak of the Bloodthirst Knight. If you take another step forward, you will reach the Blood Source realm. You have to hurry up.

"Goddess, Silver Dragon, Dark Moon Knight, strive to break through the Bloodthirst Realm as soon as possible and master the Blood Qi Wings technique. Otherwise, how can you ride a horse in such a big world?"

"Lastly, the Extreme Path Plan you mentioned has always been the direction I want to work towards.

"I've already placed the follow-up knowledge of the bloodline runes in the holy temple. While everyone is cultivating, make the best use of your time to decipher the profundity of the bloodline runes and create the innate brand that belongs to us knights, thereby giving birth to true transcendent power!"

"This is really exciting. I already have a premonition that the era of knights is coming!" Emperor Mu rubbed his palms together excitedly.

After the meeting ended, all the members immediately began to get busy in an orderly manner.

Cultivation, research, tempering... Everyone had their own things to do. It was incomparably fulfilling!

Levi returned to the Ancient Saint plane and began a short seclusion.

Three months later, in the Emperor's Hall.

Levi was like a snake or a dragon, sweating profusely as he completed the last round of the Golden Snake Breathing Technique.

Following the notification on the proficiency panel, he stopped.

Levi—

Golden Snake Breathing Technique: Level 14 (Maximum, Evolvable/Advanceable), Special Effects: Transformation Scales (level 2), Dragon's Intimidation, Golden Snake Playing with Water.

...

"Is the peak of the Second Transformation of the Blood Source the limit of my Golden Snake Breathing Technique?" Levi pondered.

However, he had already expected this day. Therefore, the corresponding raw material, the breathing technique, was already on the path of cultivation.

However, it would still take a lot of time to practice it. After all, there were too many breakthrough points needed to break the limit now.

He also wanted to take this opportunity to mutate the Golden Snake Breathing Technique a second time to make it more perfect.

Levi noticed that two more options had suddenly appeared on the other side of the restriction.

One was Evolvable, and the other was Advanceable.

He could click on these two options.

"Looks like the panel has been secretly updated again."

With a thought, he clicked on it.

Then, information began to appear in his mind.

Upon seeing this, Levi was stunned for a moment before he became excited.

"The conditions for breaking the limit this time are different from before. As expected, as my realm and knowledge reserves increase, the panel is becoming more and more intelligent."
