Chapter 956: Level 15! The Rise of Knights! (4)

At the same time.

The Ancient Saint plane.

Levi, who was cultivating in the Emperor's Palace, suddenly opened his eyes.

He looked puzzled and said in a low voice,

"What's going on? Why do I feel like unruly people are trying to harm me again? Could it be Sorrett? He's holding a grudge because I snatched his woman... That shouldn't be the case. He's currently being hunted down by the entire country and can't even take care of himself. How can he have the time to care about me?"

"Other than Sorrett, I don't think I've offended anyone, right?"

"After all, the people I offended were all killed by me..."

"Who cares? In any case, I definitely didn't offend a primordial soul wizard. As long as it's not a primordial soul wizard, with my current strength, it's not a problem for me to escape."

Retracting his thoughts, Levi looked inside himself.

All the advancement ingredients from before had been refined and absorbed by the blood qi.

Then, the transcendent characteristics of these transcendent materials gathered around the Golden Snake Seed.

"I'll be able to advance successfully soon."

In the next few days.

He began to carefully observe the changes in the Golden Snake Seed.

The Golden Snake first swallowed the characteristics of the bloodline essence. Its body began to thicken and lengthen.

The illusory Golden Snake Seed vaguely began to have a solid texture.

Could it be that the Golden Snake Seed will completely materialize in the end? Levi pondered.

Then, the Golden Snake swallowed the characteristics of the level 3 mixed-blood dragon clan's soul crystal. Slowly, a layer of golden mist began to surround it.

Following that, the Golden Snake swallowed the characteristics of the fourth-grade dragon scales. At this moment, Levi felt that the circle of scales on the Golden Snake's body had become even more real.

At the same time, he felt that the defense of the golden snake scales on his body had increased again.

In the end, the other transcendent material characteristics were all swallowed by the Golden Snake.

Gradually, Levi understood.

"My evolution is actually the evolution of the Golden Snake Seed. It's together..."

Three days later.

Laughter came from the depths of the Emperor's Palace.

In Levi's secret room, endless golden blood qi surged and coiled around him before turning into a golden illusory Golden Snake.

This Golden Snake was identical to the Golden Snake Seed in Levi's body.

It seemed to come alive, hovering around Levi.

Its golden eyes emitted endless majesty, and its strong and slender snake body was coiled around Levi. Its golden wings were spread open, and it was more than 100 feet tall. On its forehead it resembled a snake or a dragon, there was a spiral horn that emitted a destructive aura. The candle in its mouth emitted a warm holy light that illuminated all directions!

The Golden Snake coiled up and almost filled Levi's small secret room. If it was completely opened, it would probably be hundreds of feet long.

Levi came to the training ground. The Golden Snake constantly circled him and meandered upwards.

"Miraya, Guillermo, come and attack me!"

Levi said lightly.

A succubus with an explosive figure that made one's blood boil arrived with demonic steps.

"Master... what is this huge thing?" Miraya covered her mouth and exclaimed.

The Mind Flayer, who looked like the Poison Fire Corpse Demon, was also shocked.

The tall and sturdy golden-armored knight was surrounded by a cold and oppressive golden snake. A man and a snake looked over with two pairs of golden eyes.

"Snake, what a huge snake!" Algerta exclaimed from afar.

On the other side, Levi had already gotten Tyrant III, Mind Flayer, and the others to attack him.

He stood where he was without using any protective force field or defensive spells.

In the next moment, the terrifying Level 4 poison fire of the Poison Fire Corpse Demon shot towards Levi.

The flames swept across and burned everything!

Levi's expression remained the same.

As the flames approached his body, the Golden Snake phantom wrapped around him and quickly spun.

Crack! Crack! Crack!

All the poison fire was repelled. Flames splattered everywhere, and under the high temperature, the Earth cracked.

After the black smoke.

Levi stood there unharmed.

The golden snake phantom faded a little, but it did not dissipate.

Then, everyone else's attacks came at him.

Physical attacks, spell attacks, everything.

Levi stood where he was the entire time.

The golden snake was like a loyal guard, blocking all the attacks!

"Is this the Third Transformation of the Blood Source?"

Levi gently tapped the Golden Snake's glabella with his finger. The much fainter Golden Snake phantom quickly swam away from his body and rushed into the sky, disappearing.

"This defense is not inferior to my second talent, Earth Dragon Barrier. Most fourth-circle spells can be blocked.

"And this is the change brought about by the Third Transformation of the Blood Source."

Levi dismissed the exhausted succubus and the others.

He stood alone on the training ground, feeling as lonely as snow.

"The path of knights is not weak... On the contrary, the path of knights is very strong, but the path of knights is a late-stage profession that accumulates a lot of experience.

The blood qi of a knight was too thin in the early stages. Even I could only use my blood qi to do some simple things before stepping into the Third Transformation of the Blood Source.

"However, after the Third Transformation of the Blood Source, the blood qi became abundant and began to undergo a qualitative change."

At this moment, in Levi's body.

An illusory golden palace appeared at his heart.

The hall was decorated with carved beams and golden brilliance. It was like a temple.

In the hall.

A majestic Two-Winged Golden Snake coiled around the white jade pillar.

In the middle of the hall, there was a golden plaque.

There were golden words on the plaque.

"Golden Snake Divine Palace!"

The Golden Snake Divine Palace was a new change after Levi's level 15 Golden Snake Breathing Technique.

After the advancement, a dream-like golden palace appeared where the Golden Snake Seed was originally.

Then, the Golden Snake Seed moved into the palace.

This reminded Levi of the “Divine Ring Tower” in his mind, which had spiritual force.

"Wizards nurture the Divine Tower in their minds as a place for wizards to cultivate. It's similar to the Purple Mansion where immortals lived in my previous life."

"As for knights, they establish a 'divine palace' in their own bodies. A divine palace is similar to a knight's 'castle'. It's the cultivation place of knights!

"In my previous life, there was an ancient saying that there were 36,000 Gods in the human body. There was a God living in each of the acupoints. The ancients were right about me."

Levi used the path of knights to prove that there was indeed a different world inside his body. There was a "God" living inside.

This God was not a "True God" like the gods of the astral world.

It was the manifestation of Levi's bloodline and will.

In terms of the Golden Snake Breathing Technique, this God was the Golden Snake. Similarly, he was Levi himself!

"With the Bloodline Seed as the guide and the vast blood qi as the foundation, I will summon the golden phantom to protect myself.

To a certain extent, the move just now was similar to inviting a God or an Immortal. However, this Immortal did not ask for help from others. It was all up to him!

This new Knight ability after the Third Transformation of the Blood Source could be called Bloodline Dharma Idol!

A Bloodline Dharma Idol was similar to a Bloodline Dharma Body, but it was different.

Dharmakayas had to be cultivated with spiritual force to be born. Moreover, the appearance of the Dharmakaya was determined by the heart and was random.

Except for Levi, most knights would not be able to make it.

As for the Bloodline Dharma Idol, it could be born completely by relying on knight methods. The appearance of the Dharma Idol was the appearance of the Bloodline Seed!

So far, Levi had developed an automatic protective function similar to a wizard's "defensive field" for Dharma Idol!

"In this way, in terms of survival, after the Third Transformation of the Blood Source, knights... are no weaker than wizards!"
