

Wizard 964

Chapter 964: Gargamel, Fourth Talent! (2)

"I've already prepared the formula for the fourth-circle meditation supplementary potion before I broke through. I've collected quite a number of materials in the Ancient Saint plane over the years, and I've asked Celia to help me collect the remaining parts... I only need to go and collect the goods then I can start refining."

"I'm already a fourth-circle wizard, but I'm only in the third-circle realm for the Three Arts of Wizardry, arrays, and weapon refinement... The invasion of the Cave Wizard proved the power of the array. The path of arrays is a magic treasure that could defeat the strong and defeat the enemy. It has to be taken seriously."

"Before I enter the Ancient Dark Tower, I have to upgrade my arrays to the fourth-circle realm."

"In this way, the protective arrays of the Ancient Saint plane and the Dusk Holy Temple could be upgraded to the fourth-circle level, and their safety would be greatly improved. With the power of a large-scale array, it would not be easy for a fifth-circle wizard to break through a fourth-circle array."

"If it was a fourth-circle chain formation like the [Glory of the Four Kings], its power would be even more shocking. If a fifth-circle wizard fell into it and did not pay attention, he might even die."

"Furthermore, I can refine a set of portable fourth-circle arrays in the Dark Ancient Tower as my trump card."

"It's the same for Weapon Refinement. Before entering the Dark Ancient Tower, I can become a fourth-circle weapon craftsman and create a fourth-circle alchemical creature, Skywalker. In the ancient tower, I'll have another powerful helper."

Levi finished sorting out the direction and plans for the future.

Over the years, he had also obtained some array blueprints from the magic mirror and the spoils of war from other wizards.

The next step was to collect the materials and begin cultivating the path of arrays.

In terms of refining blueprints, there was a book called Flamel's Alchemy Workshop, so he naturally did not lack the knowledge for it.

With more than three million Aether Stones, Levi would not have to worry about money for a long time.

In the blink of an eye, three months had passed.

In the human world.

Dusk Island.

Inside the Blood Palace.

The Blood Knight wearing the copper armor suddenly opened his eyes. A bright light flashed in his eyes. His entire aura was much stronger than before.

He stretched out his palm, and a surging green blood qi surged out.

"Is this the Blood Source realm? What a powerful feeling!"

He walked out of the hall, and the blood qi behind him turned into green wings that soared into the sky!

He was holding a rusty blood-colored greatsword!

Boom!

The Golden Cross Slash that he had cultivated to perfection slashed out!

The Revolving Force of the cross broke through the air, crushing the white clouds and returning to calmness.

"So strong. No wonder the difference between us and the commander is so great. After the Blood Source, is the beginning of the knight's transformation and becoming stronger. The power of the bloodline in one's body is continuously traced back to its ancestor. With each transformation, one will

be closer to the original ancestor... This is only my first transformation, and I've already undergone such a huge transformation. Commander has already undergone countless transformations. The difference between us is like a chasm!"

The Blood Knight sighed inwardly.

"Although a knight should always maintain a humble attitude, I have to admire myself... I'm really good at reading people!"

Before Levi became a legendary knight, the Blood Knight knew that this young knight had the potential to become a legend!

The development after that was pretty much what he had imagined, but he still underestimated the commander's potential and talent.

Legendary level was the end for other knights, but it was only the beginning of the commander!

It was only because of the Blood Knight's humble personality. If it were other Secondary Blood Clan members, they would have fought with Levi the first time they met.

If he did that, he would miss the opportunity to befriend Levi and break through the shackles of the Legendary Knight level.

The current Blood Knight had a secondary Blood Clan bloodline, so the increase in his strength was already very small.

Only the perverted self-healing ability of the Blood Clan was still useful.

If he hadn't broken through to the Blood Source realm, he would not have had many years left to live if he had only relied on the lifespan of the Secondary Blood Clan bloodline.

"The first transformation is only the beginning. At this stage, my realm can barely match that of a third-circle wizard, but my true strength is inferior."

"After that, I would be able to use the second transformation of my bloodline and create a Bloodline Divine Weapon. By then, even if I am not as powerful as a senior third-circle wizard, I would still be able to rely on the suppression of a small realm to fight against a third-circle ordinary wizard."

"According to the commander, after the Third Transformation of the Blood Source, a high-level version of the wizard's protective force field, the "Bloodline Dharma Idol", could be born. It could not only protect the body but also have other wonderful uses."

"At this level, with a suitable Bloodline Divine Weapon, a knight can fight with a fourth-circle wizard of the same level. If I can cultivate my Talent Brand and enrich my skills, my true combat strength will definitely not be inferior to a wizard."

Under the efforts of the commander, the Blood Knight suddenly realized that the knights who were only assigned to the mysterious wizard as coolies and guards in the legendary travels had unknowingly become comparable to the wizards.

Before the Blood Knight met the commander, he did not even dare to dream that he could be compared to the high and mighty wizard.

This was simply a fantasy!

"The beautiful future that the commander has envisioned is slowly being realized. This is what the commander is like, a man of his word!"

While the Blood Knight was daydreaming, a figure flew into the sky.

"Congratulations to the Blood Knight for stepping into the Blood Source realm."

The Divine Light Knight congratulated him sincerely.

"Thank you, Denise. I also have some insights regarding the breakthrough of the Blood Source. I will record them down and place them in the Holy Temple's knowledge for everyone to use."

The other official members who had stayed behind in the Dusk Holy Temple also came to congratulate him.
