

Wizard 968

Chapter 968: Gargamel, Fourth Talent! (6)

It could imprint the sealed person on the page and turn it into a “guide”. The sealed person did not exist in a secondary space like Alice’s ring but in the Wizard Tool itself!

In other words, even in other planes, these sealed transcendent creatures could still be summoned, similar to the Soul Artifact, Book of Ten Thousand Spirits, mentioned by the Immortal Banyan Dragon!

It was said that the Gargamel’s Divine Soul Artifact was a thick book of fairy tales.

In this “fairytale book”, all kinds of powerful transcendent creatures were sealed, such as werewolves, vampires, evil spirits, evil dragons, and even evil witches.

All of them had once been defeated by the Gargamel!

He used this method to turn these defeated opponents into his slaves.

With this book, the Gargamel had become an army by himself. It had left a great reputation in the various planes it had traveled to.

"With this book, my trip to the Dark Ancient Tower will be even more secure... Unfortunately, the person who holds it is a fifth-circle senior wizard. Otherwise, I might have gone to do something."

Levi shook his head, abandoned his greed and distracting thoughts and cultivated peacefully.

...

The year 1137 of the Holy Brilliance Calendar, the Month of Beginning.

Year 106 of the Great Expedition.

There were only two years left before the Star Gathering.

The 35th round table meeting of the Twilight Knights.

"Commander, I've successfully joined a low-level wizard organization in the Earth Realm. Now, I'll be looking for ingredients to advance my magic potion, and I'll be preparing to advance to a first-circle wizard here," said the Black Knight.

"Sure. I've never been to the Earth Realm before. Take this opportunity to gather more information here. It's better to be prepared." Levi said, "In addition, I have a list of materials that can only be found in the Earth Realm. Take note of it and help me look for them when you're not cultivating."

"Alright, Commander. I'll keep an eye out!" The Black Knight said seriously.

The commander's matter was the top priority for the Twilight Knights!

These members knew that they were weak and could not provide much help to Levi on his path forward.

Therefore, they were all very conscious of doing all kinds of logistics work well, so that Levi could wander outside without any worries!

"Commander, I'm about to reach the peak of level 2. Next, I want to go to the Earth Realm with Elsa to obtain my own leveling materials. At the same time, I can also support the Black Knight," said Emperor Mu.

"Go. Just don't cause trouble outside."

"The Divine Light Knight and I are still far away from the peak of level 2. The two of us will guard the temple and wait for your triumphant return!" Dinos looked at Denise and smiled.

"There seems to be a situation... Ahem, don't worry, I won't disturb both of you. I plan to go to the Forsaken Land of the Gods first to gather information for the knights." The Blood Knight smiled and said with a gossipy expression.

Levi's heart skipped a beat. Emperor Mu and Dinos were indeed master and disciple. They were both very good at seducing girls...

After the meeting, Levi continued to cultivate in the Nether Capital, waiting for the start of the Star Gathering.

On this day, Levi arrived at the Starfire Wizard Academy.

The academy was filled with familiar faces.

Huffman from the pharmaceutical department, Xavier from the weapon-making department, and Newt from the identification department.

Levi felt as if he had returned home.

Hence, they found some free time to get together and get to know each other.

After the gathering, Levi went to find Wizard Newt.

"You have a friend who wants to appraise a fourth-circle Wizard Tool?" Newt didn't know whether to laugh or cry as he looked at Levi.

"That's right, I have too many friends..." said Levi.

"Give it to me." Newt laughed.

Levi handed the Wizard Tool he had obtained from the Cave Wizard to Newt.

"Rank 5 precious material, refined from dark metal... Unfortunately, it was wasted by this crude refining method. What a waste of a heavenly treasure." Newt looked regretful.

"Can you appraise it?"

"No problem."

"How much is the appraisal fee?"

"There's no need, we know each other."

"That won't do. We have to settle this clearly."

"Give me 50,000 Aether Stones."

"Alright, thank you for your hard work. By the way, where's the Rose Witch? I haven't seen her for a long time." Levi asked casually.

"Sir Levi, come with me," said Newt, his face downcast.

In a secret room under the Starfire Wizard Academy.

Levi saw a glass pillar that seemed to be carved out of ice crystals and was emitting cold air.

The pillar was filled with a mysterious blue liquid.

The Rose Witch closed her eyes tightly, her brows furrowed, and her chest rose and fell, proving that she was still alive.

"In order not to be pulled into the Nightmare World, Rose hasn't slept for a long time. She hasn't meditated either. She's relying on potions to survive. Her cultivation has also stopped, and she's almost on the verge of collapse."

"I had no choice but to shamelessly look for Sparrow, who helped me find Principal Garcia."

"After hearing this, the principal sighed at how terrifying the Nightmare World was, but he had no solution."

"He could only use a device he had once obtained and an array to temporarily freeze Rose and let her enter a half-asleep state. This way, she could avoid being pulled into the Nightmare World, but at the same time, she would lose consciousness and become a vegetable."

"If not for the principal, Rose might not have been able to hold on any longer."

"The principal said that if we wanted to completely solve this problem, we had to enter the Nightmare World and wipe out the root cause. Otherwise, any method would only treat the symptoms but not the root cause."

"The principal speculated that the culprit was not weaker than him from the methods he had displayed. He told me to be mentally prepared to lose Rose."

"I had thought of asking the principal, but I didn't have any price that was enough to convince him. The principal had also said that even if he thought of a way to enter the Nightmare World where danger lurked everywhere, it would be no different from finding a needle in a haystack to find the culprit. It is almost impossible."

"I don't have any other way. I just hope that when Lord Flower Witch returns, she is able to come up with a solution." Newt looked pained.

Watching his beloved being pulled into the nightmare by that damn Man-Faced Spider, without any resistance, how hopeless was this feeling?

Levi was silent.

He had a way to find the Man-Faced Spider directly... The problem was that he couldn't beat the Man-Faced Spider.

Even Garcia had said that the Man-Faced Spider was very powerful. He was only a fourth-circle wizard, so it would be a waste of effort to enter.

"Everything will get better. Let's wait for Flower Witch to return." Levi patted Newt's shoulder and comforted him.

"Thank you, Sir Levi." Tears welled up in Newt's eyes as he brought Levi away.

Only the Rose Witch was left in the container, soaking in the liquid alone.

After returning to the Nether Capital and witnessing Rose's tragic fate, Levi's thirst for power grew even more. He would never allow such a helpless situation to happen to him!

...

The year 1139 of the Holy Brilliance Calendar, the Month of Germinal.

In Nether Capital, Levi opened his eyes, looking excited.

In his mind, there was a vivid picture of a purple Thunder Dragon on the Divine Ring Tower.

"Thunder Dragon Flash!"
