Chapter 970: Primordial Soul Wizard Form, Hundred Flowers and Thousand Trees! (2)

Other than the improvement of his spiritual force, during the past three years, Levi's Metal Voodoo had also been continuously growing stronger.

Levi could feel that his body-refining talent was pretty good. Otherwise, he would not have progressed so quickly just by relying on the proficiency panel.

The location of this Star Gathering was in Sea Capital.

This was also one of the Twelve Wizard Cities, and the actual controller behind it should be the [Ocean Abyss Alliance].

"I can't earn more money anyway... I might as well just cultivate until the start of the gathering."

In the past few years, apart from the occasional underhanded acts and entrapment of law enforcement, Levi had also earned a lot of money through the Three Arts of Wizardry.

However, because he had to quickly cultivate the arrays and alchemy skills at this stage, there were also other miscellaneous potions to consume.

He invested the money he earned.

This formed a delicate balance.

The money he earned from the Three Arts of Wizardry was just enough for him to quickly use his experience points to buy materials and achieve sustainable development.

As for the extra accumulation of capital, it would depend on the dark wizards.

...

Panda Empire.

Four Symbols City.

In the backyard of the Imperial Palace.

In the quiet bamboo forest garden.

A man and a woman were sitting on the ground, playing chess.

The man was a bearman who looked rather old and had a hunched body. He wore a crown on his head and looked aged, but he had the aura of a king.

This was none other than the current Holy Emperor, Zhou.

At the same time, he was also the current Clear Spring Sect's sect master, the Water Energy Sect.

Opposite the Holy Emperor was a beautiful, valiant woman with long golden hair tied up. She carried an exaggerated greatsword on her back and calmly played chess. It was the Flower Knight Elena.

In the end, it was the Holy Emperor who had won.

"I lost again..." Elena smiled.

"You've only just started playing the past few years, but your level has already caught up to me. You've made me lose face..." The Holy Emperor smiled bitterly.

Elena smiled but didn't say anything.

"The first Holy Emperor probably didn't expect that a wizard would be the one to inherit the Spirits Energy Sect's Energy Sect's inheritance after ten million years." The Holy Emperor sighed.

"I'm also quite surprised. The inheritance here is too casual. I just wanted to open it and take a look. In the end, it inexplicably became a Fire Energy Sect..." Elena smiled helplessly.

"..."

The chess game was over.

Elena imitated the etiquette and tone of the bearman and cupped her fists. She said, "I came out for a trip. Although I didn't achieve my goal, I have gained a lot. Thank you for your hospitality, Holy Emperor. When you reach the realm of 'Shattering Void', you are welcome to the Nora plane. I will be your host!"

"Thank you! After all these years of exchanging experiences with you, I already have some ideas about the Shattering Void realm. Perhaps it won't be long before I can reach your realm," said the Holy Emperor.

"By the way, the meteors that fell into the Panda Empire a few days ago should be the keys to the Dark Ancient Tower. With the Holy Emperor's strength, you might be able to obtain some opportunities and change the decline of the Energy Sect!" said Hundred Flowers.

"The opportunity to enter the Dark Ancient Tower is so precious. Lord Hundred Flowers, aren't you going to take one with you?"

"There's no need. I've already snatched the inheritance of the Spirits Energy Sect from you. It would be impolite to take this key away. Moreover, it's not convenient for me to bring this thing along when I travel between planes. With my strength, it shouldn't be difficult for me to find a key in the Nora plane."

"Thank you, Lord Elena. I hope you can bring the Spirits Energy Sect to greater heights! And once again regain the might of the Holy Emperor! You are also welcome to come to the Panda plane in the future!"

"Goodbye."

A shadow of a giant banyan that was thousands of meters tall appeared behind Elena.

The huge banyan trees were like a forest of trees, and their branches were covered with thousands of flowers. They were all beautiful and colorful.

Primordial Soul Wizard Form, Hundred Flowers and Thousand Trees!

This giant creature was like the legendary World Tree. The Flower Witch was like a goddess. She chanted an incantation, and vast power flowed into the tree!

"Open!"

Countless flowers and leaves flowed down from the giant tree, forming a door of light in front of Hundred Flowers.

"Another long journey to the Land of Darkness... I hope I can reach Nora as soon as possible. Before I enter the Dark Ancient Tower, I have to investigate the cause of White Narcissus' death."

Elena waved her hand and said goodbye to the Holy Emperor. The countless petals around her formed a protective force field, protecting him as she stepped through the light door.

As soon as she stepped into the Land of Darkness, the world spun, and countless spots of light flickered in front of Hundred Flowers.

Among these light spots, there were planes that were closer to Hundred Flowers. There was a huge light spot that was particularly eye-catching. It was not far from Hundred Flowers, and it would take a primordial soul witch like her about twenty years to fly in the air.

Elena looked back and saw that the plane where the Panda Empire was located had disappeared.

"The entire plane has been hidden in the Land of Darkness. If I didn't enter this place by chance, it would be very difficult to discover this place under normal circumstances... Although the Panda plane was only a medium-sized plane, only a Legendary Wizard could hide the coordinates of an entire plane. Without a doubt, it was Sauron who did it. He wanted to protect this place from being disturbed."

"From what we know from the current Holy Emperor, among the 18 fellows of Sauron, the first-generation Origin Holy Emperor of the Panda Empire was one of them. The Origin Holy Emperor was only a ninth-circle Grand Wizard in the standard of wizards. To be able to obtain Sauron's recognition, this [Energy Sect Technique] must have its own uniqueness."

"Sauron did not seem to be satisfied with the transcendent path of being a wizard. He had been exploring and looking for new paths. The 18 fellows should represent 18 different paths."
