

## **Wizard 971**

Chapter 971: Primordial Soul Wizard Form, Hundred Flowers and Thousand Trees! (3)

"In the culture of the Panda Empire, the [Multidimensional Plane] is called the "Greater World". The vast universe, the world is like the number of sands in the Ganges River. Sauron stands high enough and sees far enough. He is indeed not comparable to an ordinary Legendary Wizard. He is worthy of being the ancestor of wizards!"

While traveling, Elena took out the red wine gourd and started to study the Energy Sect's magic.

She originally wanted to find the resources to build a wizard tower through plane travel.

However, with her strength, she could only wander around the plane near Nora.

After walking around, these planes of all sizes had almost been plundered by the wizards.

Only the plane where the Panda Empire was located had very few traces of wizards, but there were not many materials that could be used.

For Elena, the most difficult part of building a primordial soul wizard Divine Tower was collecting high-level construction materials.

She deeply felt the difficulty of the path after reaching the primordial soul realm.

Of course, she could just make do with what many primordial soul wizards were doing now and build a simple Divine Tower.

The problem was that her personality was one that pursued perfection. She would rather have quality than quantity. If she wanted to do something, she had to do it better.

"Let's go into the Dark Ancient Tower. The Dark Ancient Tower is not like those small planes that are often plundered by wizards. The ancient tower only opens once every ten thousand years. There should be a lot of resources inside."

Elena's consciousness entered her mind.

In her sea of consciousness, a small white pagoda with six floors was slowly spinning.

Compared to Levi's small pagoda, this Divine Ring Tower was almost as solid as the real thing.

There were nine pictures on the walls of the Divine Tower.

Each painting represented a fresh flower.

This was the magic of the nine Ocean Factions that Elena had mastered, and she had given it the image of nine flowers.

Like Levi, she was a perfectionist.

Therefore, during the third, fourth, and fifth-circle, she had mastered three innate spells for each circle. She was an extremely rare “Nine Talent Wizard”!

Of course, this was her trump card.

So far, no one knew except for her.

Relying on her insane nine talents, she encountered a level seven [Black Beast] in the Land of Darkness when she was traveling in the plane, but she still retreated safely.

In the Divine Tower, a blue little person who looked exactly like Hundred Flowers was meditating. This was her soul.

The soul was a combination of spiritual force, soul, and spell power. It was the core of a high-level wizard after the sixth-circle!

High-level wizards could live without a physical body, but they could never lose their primordial souls!

As long as the primordial soul did not die, the wizard would not be destroyed!

A fiery Vermilion Bird was circling the little blue person.

"According to the inheritance of the Spirits Energy Sect, the Energy Sect is divided into five major realms:

Acquired Sense Qi, Innate Conviction Qi, Heaven-Man Connection, Shattering Void, and Limitless Primordial Chaos!

From the description, these five realms corresponded to:

Apprentice wizard, low-level wizard, mid-level wizard, high-level wizard, grand wizard!

Back then, the Origin Holy Emperor was Limitless Primordial Chaos. His true strength was slightly stronger than a Grand Wizard, but not as strong as a Legendary Wizard.

The previous Spirits Energy Sect, Chen, was at the peak of Heaven-Man Connection.

The current Holy Emperor was the same. His strength was equivalent to a peak fifth-circle wizard.

After all these years of cultivation, I've reached the Innate Conviction Qi realm. I'm already a top-notch expert in the entire Panda Empire.

Therefore, the Energy Sect was not something that only the people of the Panda Empire could cultivate. According to the inheritance, one only needed a heart that could perceive qi."

"This "heart" could be the "heart of spirit" that is as hot as fire, the "heart of clear spring" that is as kind as water, the "heart of Cangshan" that is virtuous, or the "heart of flowing clouds" that is ever-changing."

"In short, in theory, all living beings could cultivate if they wanted to."

"In terms of Machinery Heart, I'm a Water Element Child, but in terms of sensing qi, I have the heart of strong spirit. That's why I was selected by the inheritance of the Spirits Energy Sect. As a successor, the method of the Energy Sect is really magical. This is completely different from the path system of wizard."

As a primordial soul witch, the Hundred Flowers Witch had a lifespan of 2,000 years. She was only 300 years old, so she had time to study these methods.

It was always good to have another method.

Elena's right hand reached behind her white robe and stroked her smooth back.

There was a tattoo of a red firebird flying high in the sky. In the Panda civilization, it was called the Vermilion Bird!

It looked like an immortal bird, but it was not an immortal bird. It was a creature that did not exist in the multi-dimensional plane, but a fictional image of the Spirits Qi.

"The Spirits Qi is the essence of the Fire Energy Sect. If I use the spirit wine brewed by the Panda people to assist with my cultivation, my progress will be faster. I have the formula for the spirit wine. After returning to Nora, I can modify it."

Elena looked at Nora and gradually disappeared into the silent darkness.

...

The year 1139 of the Holy Brilliance Calendar, Month of Flowers.

There were still seven days left before the Star Gathering.

In the Nether Capital.

Wizards came to the port one by one and took their own airships or used spells to fly in the direction of Sea Capital.

In Levi's mansion.

Algerta was busy taking care of the flowers and plants in the wizard tower.

"Algerta, is Sir Levi here?" Anya walked over with a beaming face.

"Yes, Master is in seclusion," said Algerta.

"Oh, I see. Is your master participating in the Star Gathering?"
