Chapter 973: Primordial Soul Wizard Form, Hundred Flowers and Thousand Trees! (5)

There were two main purposes for him to participate in the gathering: the elemental metals and the fifth-circle breakthrough potion.

Other than that, if there were any useful knowledge inheritances, he could also consider it.

As for the potion materials, he did not need them.

This grand gathering would last for a total of seven days.

The first six days were free time for everyone to trade and set up stalls.

On the seventh day, the biggest auction house in the Sea Capital would hold the “Star Auction”, which was held once every century. That was the highlight.

After all, most wizards would definitely try to sell something valuable at an auction.

"Four million Aether Stones. I should be able to buy some good things this time."

Levi casually walked around the stalls, trying to pick up the leftovers. After a whole day, he gave up.

There were too many people attending the gathering, so there was no chance to pick up the leftovers.

Moreover, most wizards knew what was good for them, so they didn't sell it at a low price.

He spent about 200,000 Aether Stones to purchase a batch of low-level spell models that he did not have. There were all kinds of schools to enrich his knowledge base so that it would be convenient for him to fuse innate spells in the future.

"We agreed not to spend it recklessly, but in the end, I still couldn't help but spend 200,000 Aether Stones... Why can't I control my hands?"

Levi found a hotel in the city and stayed there.

He didn't participate in the following free and easy gatherings. Instead, he quietly waited for the auction to begin.

In the Sea Capital, Anya was strolling around the streets with interest. Suddenly, there was a commotion in the crowd.

"What a beautiful witch..."

"And there's two of them."

"The one in blue seems to be the City Lord of Riptide City, Blue Dragon Lady. As for the one in red... I'm not too sure."

Anya looked in the direction of the voices.

He saw a fiery red magic airship docked at the port of Sea Capital.

Two witches, one blue and one red, walked over confidently.

These two were the Blue Dragon Lady and the Red Dragon Queen.

The Blue Dragon Lady was cold and otherworldly, while the Red Dragon Queen was passionate.

Anya retracted his gaze, thinking that this auction was really lively.

"Anya... You're here too." At this moment, a slightly surprised voice sounded.

A young and beautiful black-haired witch walked over barefoot.

"Sierra?"

Phantom Witch Sierra was a well-known fourth-circle witch in the Witch's Family. She was also a child of the Water Element Child and had outstanding talent. She was chosen to participate in the exploration of the Dark Ancient Tower.

Just like Anya, she also had three talents. Moreover, she had two more fourth-ring talents than Anya.

"I thought you wouldn't come here as a second-generation primordial soul wizard," Sierra said with a smile. Her teacher was a primordial soul wizard, so she knew about the relationship between Anya and Triss.

"I came with a friend to join in the fun."

"Levi?"

"How do you know?"

"It seems like you don't have any friends in the Witch's Family other than Levi, the external wizard, right?"

“ ... ”

"I heard that Levi is a fourth-circle wizard who cultivates both body refinement and spells. I wonder where he is. Can you introduce him to me?" Sierra was very interested in this kid who had caught Triss's eye.

"I don't know either. We separated after entering the city. Let's wait until after the Star Gathering."

"Then why don't you accompany me for a walk?" Sierra smiled sweetly. She was as beautiful as the Blue Dragon Lady.

"Mm... alright." Anya thought for a moment and said.

In the next few days, wizards arrived one after another.

Furthermore, the wizards who came later were stronger.

Levi was quietly cultivating in the hotel.

Suddenly, a dragon's roar came from the port.

He stood up and looked out of the window.

A black flying dragon with a wingspan of a hundred meters circled above the port and slowly landed. The wizards all avoided it.

Levi's eyes narrowed.

"Shadow Winged Dragon... Fifth-circle mixed-blood dragons used to appear. How could there be such a thing in the Endless Sea?"

The bloodline of the Shadow Winged Dragon came from an extremely unpopular pure-blooded dragon species, the Ender Dragon, also known as the Dark Dragon.

It was said that this kind of dragon had only appeared in the legendary [Shadow plane].

Only a person from the Dragon School of Thought like Levi had heard of such a dragon race.

"From the looks of it, this Shadow Winged Dragon should be at the peak of the fourth-circle beast. It hasn't reached the fifth-circle beast yet... Moreover, it is a female dragon. It's a pity that it has an owner. Otherwise, she could have been captured by Raja to be his wife. Although it is not of the Wind and Thunder attribute, it is a Winged Dragon... We should be able to get a pair."

In addition, the Shadow Winged Dragon was a rare Shadow Dragon. Shadow was also a type of negative energy, and it belonged to the same category as the blood of the Scarlet Dragon.

Levi closed his eyes and continued to cultivate. Tomorrow was the auction that he had been looking forward to for a long time. He could already vaguely sense that powerful auras had arrived at the Sea Capital, including the owner of the Shadow Winged Dragon. It was obvious that he was also a fifth-circle wizard.

At the port, a young male wizard in a black robe touched the head of the Shadow Winged Dragon.

"You may go back."

The next moment, the Shadow Winged Dragon turned into a black light and disappeared from the wizard's hand.

"Lord Shadow Wolf, I've already booked a private room for the auction for you. Please follow me!" A fourth-circle wizard revealed a flattering smile.

"Bring me there," the young wizard said calmly.

He was the head of the Shadow Circle's branch, a powerful fifth-circle senior wizard, and a part-time fifth-circle pharmacist. He had a high status in the Endless Sea.
