

## Wizard 978

### Chapter 978: Legendary Wizard Deep Blue Sage

Suddenly, a blue light descended from the sky and sank into the fish's forehead. The fish began to grow and expand, just like the evolution of marine creatures. It grew four limbs and a head. Finally, it turned into a blue-haired girl. The toddler girl grew and became a youth. The youth grew and became a naked woman with an otherworldly aura and a little lost.

The woman stood up from the bath. Her eyes turned from confused to deep and then filled with wisdom.

Then, she suddenly laughed heartily, and her body emitted an aura comparable to that of a primordial soul.

"So this is how the mother nest's will locked onto me. Hahaha, it's worth it. At least I found a way to break free from the lockdown!"

As soon as she finished speaking, a slightly ancient voice sounded from the Deep Blue Sage crystal ball.

"Is that you? Master?"

"It's First Generation... I didn't expect you to still be able to operate it." The woman smiled.

"It's been almost ten thousand years... Master, you're back! Ever since you left the ninth floor of Dark Ancient Tower, I've automatically entered a deep sleep. I know that you must have developed an even more advanced Deep Blue Sage outside, but I think I can still be of use."

"Many thanks. Has anything happened in the past ten thousand years?"

"No, but how did you enter Dark Ancient Tower? It seems like there are still twenty years before the next opening... If you could live until now, you would be a legendary already. Legendary Wizard would not be able to enter," asked the crystal ball. If it had an expression, it would be full of question marks written all over its face.

"It's indeed not time yet. I did reach the legendary realm once, but I'm no longer in the legendary realm now. I encountered a powerful existence in the Land of Darkness and was locked on by it. I had no choice but to commit su\*cide with the Witchcraft Quintessence that Sauron passed down. My body and primordial soul were scattered."

"However, if I committed su\*cide with the [Witchcraft Quintessence], my true soul would return to the Underworld and receive special care from the existences in the Underworld."

"After all, Sauron had already spoken to them."

"Every legendary can bring all the memories and knowledge of their previous life and reincarnate once. I finally understand how powerful Sauron is. Without this forbidden spell, the wizard civilization could not have developed so quickly!"

"What? You used to be a legendary, but you're not a legendary anymore? Wouldn't you have to start all over again? My goodness, just thinking about it makes my scalp go numb. Attaining is so difficult, why bother..."

"This isn't my first time reincarnating, so you don't have to worry. Ten thousand years ago, after the Dark Ancient Tower opened, I reached the ninth floor as a primordial soul and obtained the sacred medicine [Undying Bird Fruit] and the sun-level treasure [Fish of the North Sea]."

"I placed you here to guard the [Fish of the North Sea] because I did a divination. I might return here after 10,000 years, but with my ability, I have no way of knowing the exact situation."

"Not long after I obtained the Undying Bird Fruit in my first life, I successfully advanced to become a Grand Wizard. However, I didn't have much time left, so I refined it into [Water of Samsara] and reincarnated."

"Under the guidance of an Underworld existence who claimed to be Sauron's good friend, I was born into a Children of Chaos male fetus... I've also been a man for once. This is really a wonderful experience." The woman smiled bitterly.

She continued, "That boy was a Children of Chaos. He was born into a small wizard family. From the beginning, he was not favored and was sent to the mortal gathering place. However, they did not know that although the boy is a Son of Chaos, he has a lucky body that I still can't understand. He also has all the memories and knowledge of a ninth-circle Grand Wizard hidden in the depths of his soul."

"He cultivated faster than the other talented disciples of his family. When he was 200 years old, he was already a fourth-circle wizard. He was hunted down and fell into the bottomless abyss. However, he obtained a radiant sun-level Truth Oddity in a secret realm, which completely made up for his lack of talent, and obtained the rare second talent, [Son of the Sea]."

"In this life, I directly cultivated and attained the legendary realm and developed the seventh generation of Deep Blue Sage. Unfortunately, along with my Quintessence, it also dissipated."

"Before I died, I vaguely felt the existence of the Dark Ancient Tower. I used the power of the Demiplane and used you as a beacon to try to teleport those veteran wizards from the Demiplane in."

"I originally thought that I would fail. After all, even the Gods were unable to forcefully enter the Dark Ancient Tower. However, to my surprise, I succeeded... The Dark Ancient Tower seemed to have a will of its own and accepted us. The veteran wizards successfully entered, and I also successfully sent my true soul into this incarnation that was refined from a Truth Oddity."

"For me in this life, there is nothing more suitable than an incarnation refined from a radiant sun-level Truth Oddity."

"It won't be difficult for me to become a Legendary Wizard again after accumulating knowledge from two lifetimes. I had also gained a lot after fighting with that existence for so long."

"In this life, I even have the confidence to take a step forward and step into... Above Legendary!"

"After I use the resources on the ninth floor to recover some of my strength, I will bring you and these veteran wizards out of the ninth floor after the Dark Ancient Tower opens. Let's... Go home!"

The lady smiled brightly.

The appearance of this life was completely based on her first life.

"It's too exciting... I didn't expect that in the ten thousand years I've been asleep, you've already lived two lives and experienced so many interesting things. Master, this time, let me continue with you. Let us start anew and embark on a new journey!" First Generation Deep Blue Sage said happily.
