

Wizard 979

Chapter 979: Golden Dragon Heavenly Shield!

"Oh right, what do you plan to call yourself this time?" Deep Blue Sage asked.

"Lucy, the Fish of the North Sea!"

A golden coin suddenly appeared in Lucy's hand. She looked down at the coin, and the elegant smile on the coin was eternal.

Lucy looked at the lady who looked exactly like her and revealed the same smile.

She looked out of the window of the wizard tower. The black beast had been killed by the wizards, and its body had shattered into pieces.

She opened the window and breathed in the fresh air.

"Thank you, Lord Sauron!"

...

The 109th year of the Great Expedition.

Year 1140 of the Holy Brilliance Calendar, the first day of the Month of Beginning.

On this day, Levi was 150 years old.

After the 38th official meeting of the Twilight Knights, he went to the wizard tower alone to do the final casting work.

After Phoenix had smelted for more than half a year, the Ripple Meteorite Metal and Tremor Metal had already turned into two pools of squirming liquid.

"Thank you for your hard work."

Levi asked Phoenix to leave.

"Fake thanks, hmph! This was just a sugar-coated bomb... Phoenix, you must not forget the fire of revenge that burned in the depths of your memories! And your real name, Flame Avenger Anvada!"

Phoenix left happily and found a place to quietly digest the divine fire in its body. "Soon. I'll be able to return to level 5 in a hundred years!"

Phoenix was looking forward to it.

Three days later.

In the alchemy secret room.

In front of Levi, a circular shield with a diameter of about one meter was spinning in the flame furnace.

The shield looked very exquisite. There were two colors on it, water blue and earth yellow, blending with each other.

"It's like the Taichi Yin-Yang fish case in my previous life..." Levi muttered. He did not do this on purpose.

He had only fused the water elemental metal and the earth elemental metal together to forge the shield, and it had automatically become this pattern.

Based on his knowledge of Weapon Refinement at the peak of third-circle, Levi added some supplementary materials to make the shield even tougher.

In the end, a dual-colored shield that emitted golden legendary light appeared in the raging flames.

As soon as the shield appeared, something happened to Levi's body.

In the Golden Snake Divine Palace, the giant golden snake coiled around the pillar of the divine palace began to spin excitedly, letting out a dragon's roar.

Then, the shield in front of Levi turned into a golden light and disappeared in front of him.

When he reappeared, he was already in Golden Snake Divine Palace.

The shield automatically revolved around the Golden Snake, protecting it.

The Golden Snake's mouth was spitting out the power of the Golden Snake, constantly nourishing the shield.

Levi willed it.

A shield appeared in his hand.

At this moment, a Golden Snake with its head and tail connected to each other was encircling the surface of the shield.

Under the unification of the Golden Snake, the water elemental metal and the earth elemental metal perfectly fused to form this shield.

"The third divine weapon has been formed. Let's call it... Golden Dragon Heavenly Shield!"

Levi-

[Golden Snake Breathing Technique (Third Transformation of the Blood Source): Level 15 (50,000/700,000). Special Effects: Transformation Scales (Level 3), Dragon's Intimidation, Golden Snake Playing with Water. Bloodline Dharma Idol: Golden Snake Dance. Exclusive Weapon: Golden Dragon Heavenly Shield.]

...

Levi went to the training room and reinforced it with a magic array.

With a wave of his hand, the Golden Dragon Heavenly Shield appeared from his body and gradually grew larger. The feeling of being connected by blood was so intimate.

Then, the golden shield turned into a phantom and spun around Levi.

"Come on, Guillermo, Phoenix, focus on one point and attack me."

Guillermo rode on the body of the Poison Fire Corpse Demon and shot his Shadow Thorn over.

Phoenix also spat out a thin line of fire. The temperature was so high that it seemed to distort space.

Boom!

The two level 4 attacks were deflected by the golden light around Levi, and the rebound force poured out.

The Poison Fire Corpse Demon was directly sent flying against the wall. The array shattered, and the wizard tower almost collapsed.

Phoenix was still fine. To it, the reflected attacks from the line of fire could not hurt it.

Levi was pleasantly surprised.

"Other than defense, it can also reflect a portion of the attack. Interesting. This should be the characteristics of the Tremor Metal and the Ripple Meteorite Metal. It has been activated by the Golden Dragon Heavenly Shield."

"Let me see, how many layers of armor have I stacked? Golden Snake Dharma Idol, Golden Dragon Heavenly Shield, Earth Dragon Barrier, Heavy Water Barrier, Metal Voodoo, Frost Wood Body, Golden

Snake Scale... I stacked 7 layers of armor! In the future, when I learn a fourth-circle protective force field, I'll be at the eighth layer of stacked armor! That's a full sense of security!"

Levi caressed the Golden Dragon Heavenly Shield and put it back into his body.

"If I were to encounter that woman in the Realm of Ice again, I definitely wouldn't be in such a sorry state like before!"

There shouldn't be any wizard who would spend as much effort as Levi to stack seven or eight layers of armor. If other wizards knew about this, they might give Levi the nickname "Turtle Wizard".

Inside Levi's body.

The Crimson Emperor Dragon was hugging [Crimson Dragon Slash], the Scarlet Dragon was draped in [Scarlet Shadow], and the Golden Snake was surrounded by [Golden Dragon Heavenly Shield].

"Three of the six divine equipment have been gathered..."

Levi had a premonition that if he could gather all six dimension divine weapons and push all of his breathing techniques, other than the Nightmare Dragon, to the Third Transformation of the Blood Source realm!

Then, if he did not boast that he was invincible under the primordial soul realm, he would be easily struck by lightning... At the very least, even if he were to meet a genuine fifth-circle wizard, with his cultivation as a fourth-circle wizard, he could completely arm-wrestle with the other party! He might even... win the battle!

"Now that the divine weapon is complete, it's time to leave the Nether Capital. The Star Auction last year is a signal that the Endless Sea will be in chaos again... Time to go back to the human world to take refuge."
