Chapter 981: Ambushed

Star Sea.

In an uninhabited sea.

Three figures surrounded Levi's pink airship.

They were like lions hunting on the African prairie, and they seemed to have been dormant for a long time.

In the end, the airship slowly came to a stop. Levi appeared with a slightly puzzled expression. He put away the airship and asked calmly, "Is there anything I can help you with?"

In the past half a year in the Nether Capital, he didn't perceive any danger or hostility.

However, after leaving the city, that feeling lingered.

His intuition told him that this group of people had planned this. They definitely did not suddenly want to rob him.

However, how did they hide from his Danger Perception?

This was the question in Levi's mind.

"My Danger Perception is essentially similar to a certain innate divination ability... If there were powerful wizards who knew anti-divination and anti-prediction interference spells casting spells, then I might not be able to detect them. After all, Danger Perception is not omnipotent..."

"Or rather, the realm of my Nightmare Dragon Breathing Technique is too low, and the other party's anti-interference ability is very likely at the primordial soul realm. Otherwise, the investigation of the Star Tower wouldn't have been hindered everywhere!"

The more he thought about it, the more Levi felt that the auction incident this time was definitely not as simple as the dark wizards causing trouble.

Vaguely, there was a pair of big hands behind the scenes, standing on the clouds, manipulating everything and covering the Endless Sea with fog.

This was a level that he absolutely could not reach at the moment.

Therefore, all he could do was stay away from the whirlpool of conflict!

One word:

Run!

This was not the time to think too much.

These three wizards were all fourth-circle wizards and one of them had spiritual force fluctuations that far surpassed Levi.

Compared to the black crows from before, he was even more powerful. It was obvious that he was a senior fourth-circle wizard.

It was obvious that they had been professionally trained. Like assassins, they didn't waste any time and directly threw three fourth-circle spells at him.

These spells included innate spells, ordinary spells, and various schools.

For a moment, Levi found it hard to guess the power behind this.

The Golden Dragon Heavenly Shield flew out, and some of the spells were reflected back while the rest were blocked by the shield.

After such a violent attack, Levi stood there unscathed. His expression was cold, and he suddenly revealed a perverted smile.

"I'm already leaving, but you still have to deliver food to me. Then it would be impolite of me to refuse!"

A White Robe Wizard was stunned. He transmitted a message to his two teammates, "This is not a Wizard Tool, but it has an incredible ability. It should be some other treasure. This person is not simple. The two of you, don't try to hold back anymore. Hurry up and complete the mission and return."

In an instant, more concentrated and more violent attacks came at Levi.

The Golden Dragon Heavenly Shield had just reached level 1. After blocking a wave of attacks, it returned to Levi's body.

However, as the Golden Snake Dharma Idol appeared, a majestic giant snake appeared in the sky.

Levi raised his hand and unleashed a Fire Dragon Tribulation!

The terrifying fourth-circle spell instantly shot down.

One of the fourth-circle wizard's force fields was broken. If it were not for the protection of the Wizard Tool, he would have been severely injured if not killed.

"What a powerful spell... This person is actually a dual cultivator of body refinement and spell!" One of the wizards was shocked.

"Quick, use your fourth-circle Wizard Tool and kill this person quickly. Don't give him a chance to react!" said the White robe Wizard.

In an instant, a white bone spear appeared behind him.

Runes circulated on the spear, emitting a sharp aura that seemed to be able to pierce through everything!

At the same time, the other two fourth-circle wizards also took out their own Wizard Tools.

A white bone ball and a white bone greatsword!

"Which faction is this?"

Levi analyzed in his heart as he fought the enemy.

These three kinds of Wizard Tools were obviously standardized, and they were all refined from the bones of some powerful transcendent creatures.

Its power did not seem to be comparable to the high-quality elemental metal... However, the technique used was indeed a fourth-circle Wizard Tool. This move should be coming from an expert!

In an instant, the three Wizard Tools attacked him!

Bang!

Levi's fist landed on the flying ball.

The other two Wizard Tools crashed into his Golden Snake Dharma Idol, causing it to tremble.

"Explode!"

Levi shouted.

His fist was shining with a golden light as if it was made of gold!

Crack!

The surface of this white bone ball... Cracks actually appeared.

"What? Shattering a Wizard Tool with his bare hands? Although this Wizard Tool was casually crafted by its master and the materials used were ordinary, it is definitely a fourth-circle Wizard Tool!"

"Even if he is a fourth-circle body-refining wizard, he wouldn't be able to smash my Wizard Tool with a single punch, right?"

"Everyone, this person is strange, use your killer move to protect me, if we still can't deal with him, then we will retreat!"

"I'm worried that the target might ask his companions in the city for help. Perhaps the law-enforcement officers are already on their way," said the White Robe Wizard.

They had always been quick to attack, only attacking wizards of the same level. Every time, they would end the battle in a short time.

This time, they have encountered a tough opponent!

"Roger that. The two of us will hold him back. You can use that thing... There are really quite a number of monster-level existences among this batch of bidders."

The other two wizards quickly controlled their Wizard Tools and did not face Levi's fist head-on. Instead, they attacked him from all sorts of tricky angles.

However, they sadly discovered that...

The guy in front of them had an insane defense.

It was not easy to break the Golden Snake's defensive field, but a long yellow snake defensive spell suddenly appeared.
