

## **Wizard 985**

### Chapter 985: Finding More Talents

"Commander, I... I'm twenty-seven this year. I'll be twenty-eight after the Month of the Furnace." The young knight was a little curious. He didn't know why his commander was asking him this.

"Good, that's good. Come find me at the Extreme Path Palace tonight. I'll teach you the cultivation method of a wizard." Levi patted Andrew's shoulder, his voice filled with vicissitudes of life.

Andrew couldn't understand the situation.

He was just an ordinary grand knight, and in the current Dusk Holy Temple, he was unremarkable.

The breathing technique that he cultivated was not the one that had given birth to a legendary knight. It was just an excellent breathing technique that had been passed down from his ancestors.

What did he do to be able to catch the commander's eye?!

Could it be that the earthen yellow light just now showed that his talent for the wizard path was quite good?

He suppressed his excitement and said happily, "Alright, Commander!"

"Continue your study. If you need help, you can go to the various Palace Masters." Levi turned around and left, leaving behind a dumbstruck Andrew.

"Not only did I talk to the commander, he even patted me on the shoulder to encourage me. He even asked me to look for him at night..."

...

Extreme Path Palace.

Levi closed his eyes and pondered.

"Andrew left during the Month of the Furnace in the Year 1112 of the Holy Brilliance Calendar. It has been exactly 28 years since then... This is most likely just a coincidence. After all, there are as many people called Andrew in the seven kingdoms as there were people called Wang Gang in his previous life. There are several people called Andrew in the holy temple alone, but... I'll just take it that Andrew has reincarnated from the underworld... Although you are no longer the Andrew from before."

"The Child of the Earth Element must cultivate the path of a wizard. Otherwise, he would have wasted his talent. With my current strength, he could grow quickly with some support in secret. Even if he couldn't compare to the Children of the Elements in those large organizations, he wouldn't be too far off."

"However, they must not give up on Andrew's path as a knight. He is a research-type talent, and the holy temple needs people like him."

"Knights and wizards are both very ancient professions. However, wizards are getting stronger and stronger today, while knights are stagnant. Other than the shackles of knights' bloodline, there is another reason."

"Since ancient times, knights lacked the ability to research. It did not mean that they had to study knowledge like wizards and pursue the truth, but at least they should start from the bloodline level."

"They were trapped in the human world, blinded by the ignorance of the Church. Together with the cycle of dynasties and the rise and fall of families, they were trapped in an endless cycle and could not extricate themselves."

"Perhaps the legendary Seven Knights of the Sky that the Church of Holy Light used to deceive the world was reasonable. The saints passed on the most important wisdom to the wizard, and as for the other six knights... Saints didn't give them any intelligence at all. At least give them a few points! At least give some as a token of appreciation!"

While he was thinking, there was a knock on the door.

Levi waved his hand, and the door opened automatically.

"Commander."

Andrew stood there with a nervous expression and hope in his eyes.

"You have extraordinary talent as a wizard. Today, I will teach you three methods."

"The first is called the 'Earth Meditation Art'. This is the most basic meditation technique suitable for you as a Child of the Earth Element. The content inside is enough for you to cultivate and become a third-circle wizard. You can also exchange for the rest of the content in the knowledge holy temple in the future."

"Second, it's called the 'Earth School of Thought's Complete Foundational Spells'. Some spells correspond to Meditation Art inside. You should also cultivate them well."

"The third is the 'Introduction to Bloodline Dharma Body'. It's a technique that combines a knight's blood qi and a wizard's spiritual force. It can greatly enhance your strength. With your aptitude, it shouldn't be difficult to comprehend it."

"Other than that, there's also a Potion Recipe. Your breathing technique is only of excellent quality. It'll be very difficult for you to break through to legendary quality."

"When your strength reaches the peak of a grand knight, you can look for the potion materials on it and advance to Legendary."

"There is no free lunch in this world. I will teach you the method, and you will be responsible for establishing the six systems of Branded Knights with the Blood Knight. If you successfully advance to Legendary, you can even become an official member of the Twilight Knights."

"Finally, don't mention the matter of me teaching you the technique to anyone else. I'm not your master!"

After Andrew heard Levi speak, he said in a serious manner, "Commander, I understand. I'll definitely abide by it. I've sworn an oath to Excalibur!"

"Okay, you may leave."

Andrew left, leaving Levi alone in the hall.

"With his talent, he might already be at the first-circle, but the Black Knight isn't even at the first-circle... All these years, I have neglected one point. Although I wanted to establish a knight organization, if there were talented wizards or good wizard seedlings, I had to collect them. Otherwise, it would be a waste."

"Those members who cultivate the path of knight and wizard will be the future research talents of the holy temple. They will make full use of the research ability of wizards to make up for the shortcomings of knights and let the development of knights go on a fast track. That is the right path!"

The next day.

Levi called over the official members of the Dusk Holy Temple, with Denise as the core, and told them to secretly search for two types of talents based on their background in the kingdom.

The first type was wizards who were extremely talented, such as dual-elemental affinity and Children of the Elements.

The other type was those who had both knight and wizard talents.

These two types of people were more useful to Levi at the moment, and they were worth nurturing.

After he was done with the matters of the holy temple...
