

Wizard 986

Chapter 986: An Era Ends

Levi arrived at the entrance of the Ancient Saint plane.

"I've cultivated and am about to attain the fourth-circle array. Next, I'll attack the array with all my might and advance as soon as possible. Then, I'll upgrade the array protecting the entrance." He mulled.

After thinking for a while, Levi released the Poison Fire Corpse Demon.

"Guillermo, you will guard the King of Fire's array for a period of time."

"Yes, Master."

Although Bo Gang's strength had improved, he was only at the peak of the third-circle and could not keep up with Levi's improvement.

However, it was a Mountain Giant, and its Machinery Heart talent was not inferior to that of dual-element wizards with earth elements. With Levi's help, it would not be a problem for it to reach fourth-circle.

Leaving the Poison Fire Corpse Demon here was also to reduce Bo Gang's pressure.

In fact, Phoenix was the most suitable candidate to oversee the King of Fire's array.

However, this kid had his own thoughts and wasn't absolutely reliable.

Levi couldn't let the fire elementals fly away.

"It's a pity that I didn't manage to buy a fourth-circle Spirit Binding Ring this time. I can only wait for the Scarlet Dragon to advance."

He sighed to himself and returned to the Emperor's Palace to start training his array skill.

...

A year passed just like that.

While Levi was in seclusion, the Ancient Dragon Empire was still operating in an orderly manner.

Levi had Excalibur, which allowed him to control the important figures of the empire.

The remaining people at the bottom were naturally not worth mentioning. Levi had to admire Sauron's methods.

The rapid development over the years.

The empire was thriving.

The Psionic Academy and the Ancient Saint Daoist Sanctum, the two cradles of the transcendent system, constantly sent talents to the upper echelons of the dynasty.

Over the years, thanks to the stability of the empire, the war had ceased.

New experts of the Ancient Saints were born.

It was once a twenty-member Senior State Assembly.

Now, there were already 23 people.

Of course, there was also an Ancient Saint who was about to die and passed away quietly. The entire country was in mourning!

After the mourning ceremony, the remains of the Ancient Saint were sent to the most sacred Emperor's Palace.

As the most loyal subject of the Emperor, it would be granted the ability of immortality by the Emperor and become the eternal Angel of Death by the Emperor's side!

The three kings, whose strength had already touched the ceiling of the Ancient Saint realm, still had not broken through the critical bottleneck. It was extremely difficult to become a fifth-grade existence.

At the end of the year 1141 of the Holy Brilliance Calendar.

It was the 110th year of the Great Expedition.

A sad rumor began to spread rapidly in the Wizard World.

"Deep Blue Sage Luther has fallen!"

A legendary had fallen!

In the wizard civilization, it had rarely happened since the end of the ancient era.

With the power of a Legendary Wizard comparable to that of a God, there were very few things or people in the Multidimensional Plane who could pose a threat to them.

In the end, the Grand Council Chairman, Edmund, officially announced,

"Due to an unknown force, the Deep Blue Sage Sky City vanished ten years ago, and now the Sky City has been completely destroyed and has disappeared. The Deep Blue Sage has also died unexpectedly. The cause of the accident is still under further investigation!"

For a time, the entire Wizard World was in an uproar.

Even the beginning of the Great Expedition or the outbreak of the war between the dark and righteous wizards was not as shocking as the fall of a Legendary Wizard.

"But he is a Legendary Wizard! An existence that killed an Evil God on the Great Expedition battlefield!"

"I can't believe that Deep Blue Sage would suddenly die. This must be a conspiracy by some people, trying to shake the confidence of our Ocean School of Thought! Just wait, the Deep Blue Sage will return one day!"

"The four traditional factions of Earth, Fire, Wind, and Water are all made up of two Legendary Wizards... If Deep Blue Sage has fallen, this situation will change. The subsequent series of effects will not be good for the Endless Sea."

"If you ask me, Luther must have defected to the Abyss. In the end, he was killed by the Abyss Lords. He asked for it..."

Some people were happy, some were sad, but in general, more wizards were sad.

Although Legendary Wizards were few in number, they were the nuclear weapons of the wizard civilization. It was because of them that other civilizations were so afraid of wizards.

Losing a Legendary Wizard was a great loss.

On the distant battlefield of the Five Sector Expedition.

In a devastated plane, a cold witch in a white wizard robe stood on the top of the Sky City, which was covered in scars.

Her figure was faint, but standing there, she seemed to be the center of the world.

A picture appeared on her fingertips. It was the scene where the parliament announced Luther's death.

"Civilization needs to be accelerated. Otherwise, Luther's sacrifice will be meaningless..."

...

Emperor's Palace.

Inside the secret room.

In front of Levi was a large crucible.

Inside the cauldron were all kinds of medicinal herbs, poisons, some metal substances, and many rare materials. They were fused into a pot of medicine.

Amongst them, a dead Lizardman's corpse was floating up and down, still emitting a powerful aura.

This was the Ancient Saint who had fallen, and Levi was bestowing him with "immortality"... In other words, they were made into corpse demons.

However, this time, he was not making a Poison Fire Corpse Demon. Instead, he was making a new species based on the knowledge he had gained from the Book of Corpse Demons and the characteristics of the Ancient Saint.

He chanted an incantation and threw in the level 3 Blood Artifact, the Blood Imprisonment Awl, which he had eliminated earlier. Next, he threw in the Blood Feather Bow and the Moonlight Greatsword.

In the end, he poured the blood of the Blood Clan into it, and the potion turned scarlet!

"With my current knowledge of Weapon Refinement, it's not a problem for me to refine these three Blood Artifacts into a part of this corpse demon and strengthen its methods... Now, we just have to wait. This corpse demon is refined from the body of a powerful Ancient Saint, and I've even improved it. It'll definitely be even stronger than the Poison Fire Demonic Corpse from before. At that time, we'll have another trump card in the Dark Ancient Tower."

While waiting for the corpse demon to complete the skill, Levi continued to cultivate his array skill.

Several days later, when he was resting, the messenger brought back the news of the Endless Sea.

As he was in the Ancient Saint plane, Levi did not forget to read the newspapers and learn about the world.

"What? Deep Blue Sage has fallen?"

Levi was shocked.

The fall of a Legendary Wizard was a big deal.

"The structure of the congress has changed. The twelve magnates have become eleven magnates. One move will affect the whole. Next, the Wizard World, the dark and righteous war, the Endless Sea... Perhaps everything will have to change. I don't know if it's good or bad."

[Big news! The Dark Wizard Emperor and the other Evil Gods were forced to retreat and withdraw from the plane federation. The Five Sector Expedition is temporarily over. The four Legendary Wizards will return one after another in the next ten years!]

"It's finally over. Unfortunately, Deep Blue Sage will not be able to return..."

After all, Levi had grown up in the Endless Sea. Among these Legendary Wizards, the one he cared about the most was the Deep Blue Sage.

"But the end of this expedition is too strange. Why did the Evil Gods suddenly retreat as if they had discussed it? Did someone steal their home?"

Puzzled, Levi continued reading the newspaper.

A piece of medium-sized news came into view.

[Blue Dragon Lady has resigned from the position of the City Lord of Riptide City and left the Endless Sea. Her whereabouts are unknown.]

"Blue Dragon Lady actually quit... I heard from Anya that she and another mysterious red-haired witch appeared in the Sea Capital and participated in the auction. They should have bought something. Could it be that even a powerhouse like her has been targeted by the mastermind?"

[Shadow Circle's branch head, Shadow Wolf Matthias, was ambushed by a mysterious powerhouse in Gold Capital recently. He escaped with serious injuries. Matthias strongly doubts the security of the Star Tower and requests that the mastermind be arrested as soon as possible!]

"Even an expert like Shadow Wolf was attacked, and it was in the city! Who is directing and planning all of this..."

Levi was very glad that he had returned to the human world and had a foothold in the human world.

Following the fall of a Legendary Wizard, the Great Expedition mysteriously ended, and the opening of the Dark Ancient Tower, a series of major events occurred.

The old era was about to pass, but the new era had yet to arrive...

In this ever-changing era, all Levi could do was gain as much experience as possible.

In the blink of an eye, he had cultivated for two years!

The year 1143 of the Holy Brilliance Calendar, Month of Harvest.

At the entrance of the Ancient Saint plane, Levi stood there and snapped his fingers.

In an instant, seven rays of light shot into the sky and disappeared.

At the same time, the entire island disappeared.

At this moment, Levi had a gratified look on his face as he was in a world of seven colors.

"Earth, fire, wind, water, ice, lightning, metal! After leveling up, it is no longer appropriate to call him Glory of the Four Kings. This array that I created myself will be called... Hell of the Seven Kings."
