

Wizard 999

Chapter 999: Dharma Idol—Crimson Emperor Burns the Sky! (1)

Crimson Emperor Dragon.

Flame Dragon of World Annihilation, incarnation of strength!

This was Levi's most powerful breathing technique.

There was no other!

Levi's current defense could be said to have reached the limit of the current stage.

Without the advancement of the Golden Snake Breathing Technique, it was already difficult to advance an inch.

At most, he would master a fourth-circle protective force field.

With a powerful defense, it would be useless if he couldn't kill the enemy.

Levi recalled the battle between him and the ice-level witch.

The other party was also considered ordinary among fifth-circles.

However, his strongest attack had only barely broken through a layer of the other party's force field.

If he did not increase his attack power,

If he relied on stacked armor, it would be impossible for him to cross a major realm and kill Madam Ghost.

The most important thing for Levi was to increase his strength.

Thus, all these years, he had focused on cultivating the Crimson Emperor Dragon breathing technique.

The Crimson Emperor Dragon was not far from the Perfection realm.

After obtaining the Flame-Blood Rampage Dragon, a fourth-circle mixed-blood Dragon Clan, he soon stepped into the level 14 Perfection realm.

Furthermore, unlike the Golden Snake, the Crimson Emperor Dragon was at level 14 Perfection.

There was no maximum, but he broke through to level 15.

Levi based his previous observations.

This situation meant that the Crimson Emperor Dragon's potential was too high and could still be unearthed.

For the time being, he did not need potions to stimulate his advancement.

After all, the four strength breathing techniques that formed the Crimson Emperor Dragon:

Red Lotus, King Kong, Dragon Demon, Black Whale.

They were all top breathing techniques!

These elites formed the Crimson Emperor Dragon.

One could imagine the level of the Crimson Emperor Dragon!

If he hadn't cultivated these four breathing techniques with all his might back then, there probably wouldn't be the Crimson Emperor Dragon today.

Levi's intuition told him that even if he advanced from level 15 to level 10, the Crimson Emperor Dragon did not even need to break through the limit.

Along the way, the Crimson Emperor Dragon's advancement was smooth sailing.

At this moment, in Levi's body.

At the heart, beside the golden divine palace.

Another even more majestic and gorgeous red palace appeared.

On it was written "Crimson Emperor Divine Palace"!

"This Golden Snake Divine Palace is not even half the height of the Crimson Emperor's divine palace... Could this be caused by the difference in breathing techniques?"

Levi looked at the two palaces and muttered to himself.

His consciousness entered the Crimson Emperor's divine palace.

The layout here was somewhat different from the Golden Snake divine palace.

In the center of the divine palace, there was a golden pillar that reached to the heavens. Golden Snakes coiled around it.

In the Crimson Emperor's divine palace was a tall lava throne.

A Crimson Emperor Dragon was lying on it elegantly.

"Now that the Golden Snake and the Crimson Emperor Dragon have a house... the other breathing techniques should be unsatisfactory."

He left the cultivation chamber.

Levi arrived at the back mountain of the Emperor's Palace.

He felt a power that was completely different from the Second Transformation of the Blood Source.

The warm current surged and flowed endlessly in his body.

He willed it.

Crimson blood qi surged out of his body.

These blood qi circulated around his body.

In the end, it transformed into the phantom of a burly and thick crimson dragon.

It was the appearance of the Crimson Emperor Dragon Seed.

The extreme of strength, the Crimson Emperor Dragon!

The head of the Red Emperor Dragon was like a sculpture, filled with golden aesthetic power.

The golden eyes scanned the surroundings indifferently.

Thick flames spewed out of his nostrils.

Including its tail, the Crimson Emperor Dragon was probably fifty to sixty meters long.

Its wingspan was close to a hundred meters.

Levi was at the heart of the Crimson Emperor Dragon and was protected by the Dharma Idol phantom.

"Blood Lady, Guillermo, Phoenix, Miraya, come at me together. Attack with all your might and don't hold back. Don't worry about hurting me!"

Levi ordered.

All four of them were Fourth-Circle Wizards.

"Master, we won't stand on ceremony then," Miraya said with a smile.

Phoenix was overjoyed. "You said to go all out. Don't blame me for being ruthless next... If I accidentally kill you, won't I be free? Hehe, Flame Avenger Anvada is coming back!"

If Phoenix was like Guillermo, he would often be Levi's sparring partner.

It would not have such naive thoughts.

The Poison Fire Corpse Demon's black poison fire swept out.

The blood-armored corpse demon slashed with the Moonlight Greatsword.

Miraya's purple whip, which was emitting a strange fragrance, exploded.

Phoenix exerted all his strength. Endless flames gathered behind him and turned into flaming feather blades!

Levi stood in the Crimson Emperor Dragon Dharma Idol with a calm expression.

These level 4 attacks all landed on the Crimson Emperor Dragon.

Succubuses were not good at frontal attacks.

She did not break through the defense of the Crimson Emperor Dragon Dharma Idol at all.

Not only that, but the flames rolled back along her whip.

She couldn't help but retreat with a soft cry.

Blood Lady's attack broke through his defense.

However, under such a terrifying Flame Dharma Idol, the scarlet armor on her body actually began to slowly melt.

She had no choice but to quickly evacuate Levi's surroundings.

The most powerful was the Poison Fire Corpse Demon.

It had high fire elemental resistance and wasn't afraid of the Crimson Emperor Dragon's flames.

After the claws tore apart the Dharma Idol, Guillermo stopped and did not continue attacking.

He would spar with the leaders and stop when necessary.

This was the way of the world. How could the smart Mind Flayer not understand?

This was a principle that even a fool knew!

Phoenix, the only bird, was attacking Levi seriously!

Its attack was indeed powerful, leaving the Crimson Emperor Dragon Dharma Idol in a state of devastation.

Phoenix could not help but feel pleased.

He thought to himself, "Are the three of you noobs worthy of being mentioned in the same breath as me?"

In the next moment.

The crimson dragon roared at the sky.

The Crimson Emperor Dragon leaped up from Levi's body. In an instant, it flapped its wings and soared into the sky!
