Chapter 451 Mystic Realm (1)

Under Lin Yuyan's watchful gaze, Lin Shiyun asked Jiang Beiran as she ate her porridge, "I wanted to ask you yesterday. How did you find me?"

After taking a sip of porridge, Ranran described how she found Lin Shiyun's location.

"To think that all of you can guess it..." Lin Shiyun nodded with emotion.

Putting the empty bowl aside, Jiang Beiran took out a waist token and handed it to Lin Shiyun. "This is yours, right?"

"Yes!" Lin Shiyun nodded in surprise. "Did you find this on them?"

"Yes." Jiang Beiran nodded.

Taking the token, Lin Shiyun heaved a sigh of relief and said, "Thank you so much." After saying that, he suddenly sighed. "It's also my fault for being careless and being snatched away by them. Otherwise, I wouldn't be in such a sorry state."

Jiang Beiran knew that she was referring to the voice transmission function of the waist token. If she had the chance to shake them, these itinerant cultivators would have been turned into ashes long ago.

"Here, and yours." Jiang Beiran tossed another token to Lin Yuyan.

Lin Yuyan caught it and said embarrassedly, "Thank you, Senior Brother."

It was quite embarrassing for his aunt and niece to have their waist tokens snatched away at the same time.

"Oh, and mine." Jiang Beiran returned the Lin Family waist token that Lin Yuyan had given him earlier.

Lin Shiyun was stunned. She was about to say that Lin Yuyan had given the Lin family's token to an outsider, but after thinking about it, she must have done it to save her, so she swallowed her words.

"Senior brother, why don't you keep this? Anyway..."

"No need, take it back." Jiang Beiran refused decisively.

Although this waist token was very convenient, from Lin Shiyun's shocked expression just now, this waist token should be very important to the Lin family. Keeping it with him would definitely be troublesome.

Lin Yuyan opened her mouth in disappointment. She wanted to talk about the benefits of this waist token and promote it, but when she saw her senior brother's eyes that could not be rejected, she still reached out and took the waist token back.

Lin Shiyun naturally understood what was going on.

'So you're not my niece-in-law...This silly girl is actually in unrequited love?

Lin Shiyun originally thought that as the eldest daughter of the Lin family, Lin Yuyan was extremely beautiful. If she fell in love with any man, wouldn't she be able to make that man give up everything with just a flick of her finger?

At the thought of this, Lin Shiyun couldn't help but glance at Jiang Beiran, who was standing in front of her. She then recalled the strange words he had said yesterday...

'It's just that this man is a little strange...Ordinary methods should not be able to subdue him.'

After returning the token to its rightful owner, Jiang Beiran looked at the other two and said,""Is there anything you haven't done in the Qi Kingdom?"

“No.” Lin Yuyan immediately shook her head.”

As Lin Shiyun spoke, she suddenly raised her head and gazed at the distant Five Mile Ravine. She sighed,””There have been two strange phenomena in this Five Mile Ravine, and I saw the second heavenly water with my own eyes. There’s really no reason why we can’t find any secret realms.”

“Perhaps there’s a fated person waiting here.”

Jiang Beiran looked up at the restless Little Seven and smiled.””Why? Do you want to go in and try?”

Little Seven scratched her head and replied,”I don’t dare to hide it from Brother Wang. Little Brother...” I do want to try.”

” Since you want to go,” Jiang Beiran said,” then let’s go to Wuli Ravine to take a look.””

Little Seven knelt down before Jiang Beiran on the spot, but then remembered that Brother Wang didn’t like this, so she changed to kneeling on one knee.” Brother Wang, you’ve given me a new lease of life. I, Han Dacheng, hereby swear that I will serve you as my Lord, never leave the Emperor’s side, and never disobey the imperial edict. With this oath, I swear my loyalty!””

“Get up. Just keep these words in your heart.”

“Yes, sir!” Little Seven pounded her chest hard and slowly stood up.

“Let’s go and take a look at that Five Mile Ravine.”

Jiang Beiran stood up and walked forward.

Because the Five Mile Ravine had been fenced by those pegasus freelance martial artists, it was empty inside.

“The scenery here is not bad.” Walking in the Five Mile Ravine, Jiang Beiran was admiring the fallen leaves and the lake. Just as he was about to get into a poetic mood, he saw Little Seven suddenly stop in her tracks and look around as if she was looking for something.

‘It can’t be...’

The corners of Jiang Beiran’s mouth twitched as he said, “Little Seven, what’s wrong?”

Hearing Brother Wang’s call, Little Seven struggled to raise her head to look over.

Jiang Beiran could not help but frown when they met eyes.

Little Seven’s eyes were spinning wildly in her eye sockets, and they were spinning faster and faster as if they would fly out at any moment.

“Big Brother Wang...I’m so uncomfortable. Save...” Little Seven, who felt the world spinning, stretched out her hand, but before she could finish asking for help, she suddenly disappeared.

“Hu ~”

A gentle breeze blew past, and Jiang Beiran and the Lin family’s aunt and niece were both stunned.

In the next second, Lin Shiyun’s emotions suddenly collapsed.

“How is that possible? How could this be? He... He had actually broken into the mystic realm?”

Lin Shiyun had been searching for the secret realm for decades, but every time she returned, she was disappointed. Now that she saw an ordinary person enter the secret realm in front of her, she felt that the heavens were too unfair.

'This...' Jiang Beiran looked up at the sky speechlessly, lamenting that the Heavenly Dao was indeed ridiculous.

Of course, he did not believe that he would encounter any mystic realm. With the degree of "care" that the Heavenly Dao had given him, it would be good enough if it did not directly strike him with lightning. He drank so much.

Chapter 452 Mystic Realm (2)

Hence, the reason why he wanted to enter the Five Mile Ravine was mainly to bring Little Seven in to take a look. After all, this kid seemed to have a protagonist's fate. He might really encounter some good fortune.

However, he only thought about it and felt that the possibility was not too high.

However, the reality was...

'The protagonist's Life Providence is really f * cking awesome...'

Lin Yuyan looked around and asked her aunt, Is this how we enter the secret realm?

This question made Lin Shiyun feel even more wronged.

How would I know what it's like to enter a mystic realm? I've never entered it before. However, other than being sucked into a mystic realm, can you find any other reason to explain that kid's sudden disappearance...

Lin Shiyun was halfway through her sentence when she suddenly froze.

Because Little Seven, who had just disappeared, suddenly appeared in front of him again.

Ugh!

Little Seven, who had just appeared, immediately lay on the ground and retched.

Jiang Beiran didn't go up to comfort her, but used his spirit to probe her.

'Big...A great mystic cultivator?

Jiang Beiran was simply confused. Little Seven, who was just an ordinary person a moment ago, had become a great mystic cultivator in a breath's time!?

Although this was a little weaker than the rumors that said that as long as one entered the mystic realm, they could directly advance to the mystic sect and Mystique Venerable Rank, it was definitely a miracle that an ordinary person could instantly become a cultivator.

As a witness to a miracle, Jiang Beiran was stunned for a while to show his respect. Then, he stepped forward and pressed a few acupuncture points on Little Seven's back.

Are you feeling better? Jiang Beiran asked after the acupuncture.

After stopping the retching, Xiao Qi seemed to be in a daze. She lay on the ground for a while before she raised her head.

King...Brother Wang? Seven shouted in surprise.

Jiang Beiran suddenly had some guesses when he saw Little Seven's expression as if she had just seen a lost relative.

'Just...Just now? Little Seven rubbed her temples and looked at Lin Shiyun, then at Lin Yuyan, and finally at Five Mile Ravine.

I...

Little Seven seemed to have fallen into some kind of chaos again. For a moment, she didn't know what to say.

Did you stay in that mystic realm for a long time, but when you came out, you found that we were still the same as when you first entered the mystic realm?

Chapter 453 Foodie (1)

“Brother Wang! Little Seven will never forget your great kindness. When you come to the Qi Country again, as long as you say the word, attack...”

“Alright, you know I don’t like this nonsense.”

In front of the city gate, Little Seven was sending off Brother Wang with tears in her eyes.

Lin Yuyan was very efficient. In just a day, she had Little Seven enter the Earth Heaven Sect, a sect under the Lin Family. If Little Seven didn’t reject him, Lin Yuyan would have let him enter the middle management.

Wiping away her tears, Little Seven cupped her hands towards Brother Wang and said, “Little Seven will always be your lackey!”

“Okay, let’s go back. I should go too.”

Jiang Beiran turned around and left.

Small seven then deeply bowed, until Jiang Beiran’s back completely disappeared also did not straighten up.

For him, the past few days had been like a dream. In such a short period of time, he had jumped from a small gang member to a disciple of the Earth Heaven Sect. Moreover, he had the huge background of being recommended by the eldest daughter of the Lin family.

Such a huge change was simply not enough to describe it as a carp leaping over the dragon gate.

In addition, he was also very clear that everything he had now was given to him by Big Brother Wang. No matter what he became in the future, he absolutely could not forget this!

..

“Go to the east, then then.”

Jiang Beiran suddenly turned around and said as they walked on the wasteland.

Lin Shiyun, who was following behind him, couldn't help but shout, “Why did you change the route again? You'll go further and further away like this.”

Jiang Beiran turned to look at her. “My team only has obedience. I don't want to repeat myself.”

“Heh, my bad temper!”

Although Lin Shiyun was very grateful to Jiang Beiran for saving her life, she had grown up in a big family since she was young and had never been treated like this. She immediately felt like throwing a tantrum.

Seeing that Lin Shiyun was about to take out her waist token, Jiang Beiran glared at her and said, “You think... What are you doing?”

Lin Shiyun's entire body tensed up at the mere glance. She had only intended to pretend to use the token to call for help, but she had not expected Jiang Beiran to have such a huge reaction.

Lin Shiyun felt waves of spiritual pressure assaulting her, and her palm that was holding the waist token was covered in sweat.

She was very sure that if she took another step forward, this young man in front of her would kill her without hesitation, just like how he killed the 14 Mystic Kings that day.

Lin Shiyun, who was completely suppressed, turned her eyes to look at Lin Yuyan, only to find that her niece had no intention of speaking up for her. She just stood there obediently.

It wasn't that Lin Yuyan didn't care about her aunt, but she knew that if she spoke up for her aunt when her senior brother was setting the rules, not only would she not be able to help her aunt, but it would also have the opposite effect.

Realizing that she couldn't count on her niece, Lin Shiyun could only say in a trembling voice, ""I... I was just joking."

"Since you want to follow me now, please abide by my rules. Otherwise, next time, I won't just intimidate you."

After saying that, Jiang Beiran released his spiritual pressure and continued walking forward.

"Phew... Phew..."

The moment the spiritual pressure was released, Lin Shiyun collapsed on the ground and panted heavily. Her back was completely wet.

"Auntie, are you alright?" Lin Yuyan handed over a piece of brocade to Lin Shiyun.

Lin Shiyun took the handkerchief and glared at Lin Yuyan, ""You little girl, you still know that I'm your aunt. You actually left me in the lurch just now."

"It's not that I'm not going to save you, but I know Senior Brother better than you do. If I had spoken up for you just now, the outcome would have been even worse."

"Is he really the Warming?"

Lin Shiyun wanted to say something, but when she recalled the fear she felt just now, she swallowed her words.

Lin Yuyan knew what her aunt wanted to say and patted her shoulder.”” Don’t worry, auntie. As long as you’re obedient, senior brother is actually a very good person.”

“Good, my ass!”

Lin Shiyun cursed in her heart as she looked at Jiang Beiran, who was still walking forward, with lingering fear. She had a feeling that he would hear her words.

“Come, Auntie, let me help you up.”

After being helped up by Lin Yuyan, the two of them slowly caught up with Jiang Beiran.

At the same time, Lin Shiyun was also deeply aware of her current situation.

Although Jiang Beiran had been rather polite to her previously, he was actually keeping her under house arrest. She was not here as a ” guest “, but to ” go to jail “. If she didn’t perform well, she might even be beheaded.

“Gulp...”

Lin Shiyun gulped. She had initially thought that Jiang Beiran was just a weirdo, but now, she felt that he was even more like a lunatic.

A lunatic who killed without batting an eyelid...

Understanding her situation, Lin Yun Yun became more cautious and convinced herself.

“He saved my life, he saved my life, he saved my life...”

Seeing that Lin Shiyun did not dare to interrupt, Jiang Beiran was also very satisfied. Although he did not intend to ruin his relationship with Lin Shiyun because of the Two Elements Secret Feather and the Emperor Venomous Worm, the premise was that Lin Shiyun had to listen to him obediently.

After all, Jiang Beiran didn't know how long he would have to carry this "burden" of Lin Shiyun. If he kept causing trouble, it would be too troublesome.

At 10:00, Jiang Beiran, who had already used ten options, set up camp and began to prepare dinner.

After making arrangements for Little Seven, he didn't plan to stay in the Qi Country any longer. Just like what he had thought before, he didn't want to walk on a tightrope every day. It was too easy to fail.

Chapter 454 Foodie

The current Qi Kingdom was obviously not a suitable place for him to "develop".

"Gulp..."

Lin Shiyun, who was sitting by the fire, couldn't help but twitch her nose and swallow her saliva.

'Fragrance...It smells so good.

Lin Shiyun had been traveling around the country, and she didn't lack money, so she had eaten all kinds of delicacies and local specialties. She considered herself a gourmet.

However, the aroma of Jiang Beiran's cooking still aroused her appetite, because she knew that it must be delicious just by smelling it.

"Gululu..."

Lin Shiyun blushed and hugged her stomach, cursing her stomach for being so disappointing. She had been so good to it, but at the critical moment, she had embarrassed her.

Lin Yuyan, who was standing at the side, smiled.” Senior Brother’s food is the best in the world. It’s not embarrassing to be greedy.””

“Is it really that delicious?” Lin Shiyun asked quietly.

“Of course.” Lin Yuyan said confidently.

She turned around and looked at Jiang Beiran who was cutting pork belly not far away. Lin Shiyun focused her gaze and observed him carefully.

As the saying goes, a long illness makes a doctor, and a long meal makes a chef. After eating so much, Lin Shiyun was also very careful when it came to cooking. When she ate delicious food, she would specially go to the kitchen to take a look or directly invite the chef back to her home.

At this moment, Jiang Beiran was pouring a spoonful of vegetable oil into the pot. There were some green granules in the golden yellow color, and it was unknown what kind of ingredients he had added.

As soon as the oil entered the pot, it was immediately burned by the fire until it gave off a faint smoke, causing the greasy smell of the oil to completely dissipate. Immediately after, the thick fragrance of the vegetable oil immediately drifted into Lin Shiyun’s nose along with the white smoke.

‘Smells good! It smells so good!

Lin Shiyun was sure that the vegetable oil was very special. Otherwise, there would be no way it would emit such a fragrance that she had never smelled before.

When she opened her eyes again, Lin Shiyun realized that Jiang Beiran had already turned down the fire. She picked up the pot and shook it sideways, then neatly hung a circle of oil on the pot’s wall.

“What’s that?”

She watched as Jiang Beiran picked up a jar and poured some sauce into the pot. However, Lin Shiyun had never seen the sauce before. It did not look like the spicy sauce of Panliu City or the sesame sauce of Zuo Ning Prefecture.

However, just from the slightly astringent smell of the fermented tofu after the sauce was put into the pot, Lin Shiyun knew that it was absolutely delicious!

Lin Shiyun couldn't help but swallow her saliva again. She couldn't help but stand up and lean over.

Although she was still a little afraid of Jiang Beiran, she could not care less about the delicious food in front of her.

Pretending to walk casually to Jiang Beiran's side, Lin Shiyun saw that he didn't chase her away, so she plucked up her courage and asked, "Young hero, what sauce did you pour in just now?"

Jiang Beiran turned to look at her and replied casually, "Bean paste."

"Bean paste?"

Lin Shiyun curiously went over to take a look. "Is there such a sauce?"

"I made it myself."

Jiang Beiran said as he poured some bean paste into the pot.

As she got closer, Lin Shiyun realized that the bean paste wasn't like other sauces that would explode as soon as they were added to the oil. It was just slightly trembling and silently emitting its own fragrance.

At this moment, Jiang Beiran pushed the hot oil slightly with the shovel. As soon as the hot oil came into contact with the watercress, the alluring fragrance instantly exploded. Lin Yuyan felt as if she had eaten a few mouthfuls of meat just by taking two breaths of the fragrance. She could not help but move her cheeks.

"You like cooking?" Jiang Beiran asked with a smile.

Since he wanted to build a good relationship with Lin Shiyun, Jiang Beiran had given her a good beating in the afternoon, so he naturally had to give her a sweet date now.

As expected, Jiang Beiran's initiative to strike up a conversation with her made Lin Shiyun temporarily put away her fear of him. She nodded and said, "I don't really like to cook, I just like to eat."

Hearing Lin Shiyun admit that she was a foodie, Jiang Beiran naturally wouldn't let go of this opportunity. He stir-fried the bean paste and said, "Stir-frying this bean paste is a skill. If it's tender, it won't cover the fishy smell of the meat. If it's overcooked, it won't work either."

"Then what should we do?" Lin Shiyun asked cooperatively.

"Add some seasonings to share some of the heat and increase the fragrance."

As Jiang Beiran spoke, he picked up a handful of minced garlic and asked for setsuko's advice and sprinkled them into the pot. In an instant, the three colors of red, white, and green were sandwiched together, looking very pleasing.

"Do you like spicy food?" Jiang Beiran asked.

"I love it, I love it." Lin Shiyun nodded repeatedly.

Seeing this, Jiang Beiran grabbed a handful of millet chili and morning pepper and sprinkled them into the pot. In an instant, a slightly choking but extremely spicy smell entered Lin Shiyun's nose.

"Cough cough!"

Lin Shiyun, who was choking and coughing, couldn't bear to hold her breath. The fragrance was too strong.

“Gulp...”

Lin Shiyun, who was sitting by the fire, couldn't help but twitch her nose and swallow her saliva.

‘Fragrance...It smells so good.

Chapter 455 Heavenly Cycle Treading Formation (1)

"This is delicious, this is delicious, and this is also delicious!"

At the small table, Lin Shiyun was sweeping the delicacies on the table, occasionally looking up at her niece who was smiling at her.

'This vinegar jar is too easy to flip over...'

Although she was a Mystic King, Lin Shiyun was still a little afraid of her little niece. After all, the murderous aura she emitted could even make her feel suffocated.

'Let's see how Second Brother is going to end this...Heh.

"Diced Chili Fish Head, try it."

Seeing another plate of half-green and half-red delicacies being served on the table, Lin Shiyun, who thought she was full, began to salivate again.

Swallowing a mouthful of saliva, Lin Shiyun asked as she tasted it,""Are these all the cuisines of your country?"

"No." Jiang Beiran shook his head.

"Where is that?" Lin Shiyun continued to ask.

"As long as you like it." Jiang Beiran returned to the stove after he finished speaking.

Lin Shiyun, who was already used to Jiang Beiran's mysterious behavior, could only shake her head and continue to eat her food.

..

After learning that Lin Shiyun was a foodie, Jiang Beiran easily "subdued" the young lady of the Lin family with eight different cuisines in the following month. At the same time, he finally left the Qi Kingdom.

'It's really not easy...'

Jiang Beiran couldn't help but sigh as he left the border of the Qi Country.

Normally, he would have been able to leave the Qi Empire in half a day, but because he kept triggering the options, he could only walk and stop. In the end, he used an entire month to get out.

Jiang Beiran had to cross a mountain range to reach the nearest Zhou Country.

Once they were out of the Qi Kingdom's borders, Jiang Beiran no longer needed to walk on foot. He used the Cirrus to blow out an auspicious cloud and sat on it with the two girls.

Lin Shiyun finally understood what it meant to not ask what she shouldn't ask. Although she was confused by Jiang Beiran's decision to walk away despite being able to fly, she still didn't ask anything.

"Rumble..."

Just as Jiang Beiran was wondering why the system was so quiet today, a violent vibration came from below.

"Earthquake?"

Lin Shiyun also heard the vibration and looked down. She found that the towering mountains were shaking violently.

Just as Jiang Beiran was about to take a look at the situation outside, four system options suddenly popped up.

[Option 1: Continue flying forward. [Completion Reward: Yanluo Immortal Book (Heaven Grade Low-Grade)]]

[Option 2: Return to the Qi Kingdom. [Completion Reward: Dragon Dance Thunder Tornado (Earth Grade Mid-Rank)]

[Option 3: Hide in the mountains. [Completion Reward: Scattered Night Scripture (Earth Grade Low-Rank)]

[Option 4: Quickly hide underground and set up an array to hide. Random basic attribute point +1]

“F * ck!”

Jiang Beiran almost cursed out loud. The Heaven Grade Inferior Choice had come so suddenly, but judging from the words ‘swiftly’ in the fourth choice, there was no time to analyze what had happened.

After choosing the fourth option, Jiang Beiran controlled the auspicious cloud to land on the ground and called the aunt and niece, who were still in a strange state, down.

He took out three Earth Escape Talismans from his Cosmos Ring and tossed two of them to the two girls. Jiang Beiran grabbed one of them and said, “Follow me.”

After saying that, he stuck the [Earth Evasion Talisman] on his forehead and went underground.

Lin Yuyan didn’t hesitate at all. She stuck the Earth Escape Talisman on her forehead and followed her senior brother underground.

Although Lin Shiyun was dumbfounded, she still accepted the reality and chased after the two of them with the [Earth Escape Talisman].

When they reached the depths of the ground, Jiang Beiran felt that it was about time. He stopped diving and threw a punch with his right hand.

With a loud boom, Jiang Beiran punched a hole in the ground.

After instructing the two girls to jump into the hole, Jiang Beiran took out all kinds of talismans and talismans and began to set up the formation.

'Five Elements Sand, Tiger Claw Flower, Iron Bone Dragon Orchid, Blood Cloud Dew, Star Luo Lotus, Dark Star Silk, Supreme Rock, Green Thunder Milk...'

Jiang Beiran counted the high-quality talismans one by one. After confirming that there were no mistakes, he waved his hand and sent them to their designated positions.

"Rumble..."

At this moment, the ground shook even more violently. At the same time, a visible surge of Celestial Chi was surging up from the ground.

"It's the descent of the spirit vein!" Lin Shiyun exclaimed."

Jiang Beiran, who was setting up the formation, suddenly understood what was going on.

Seeing her aunt's frightened expression, Lin Yuyan asked,""Aunt, what is the descent of the spirit vein?"

"It means that a brand new spirit vein has awakened, and it's very likely that it's right under our feet. This will definitely attract the top experts of the six dynasties to come and fight for it. It's over, it's over, it's over. If those Sovereigns fight, even the aftermath will turn us into ashes. Yan 'er, quickly inform your father. Go back quickly! No, it won't work either..."

"Don't panic. It's very safe here." Jiang Beiran said as he placed the Spirit Gathering Flag beside the array core.

Even though she still had no idea what Jiang Beiran's cultivation base was, Lin Shiyun felt a great sense of security after hearing his words. It was as if she was really fine now.

However, when she thought about what might happen later, Lin Shiyun couldn't help but remind him,""The birth of a new spiritual vein will attract the strongest old monsters on this continent. They..."

Chapter 456 Heavenly Cycle Treading Formation (2)

"I know." Jiang Beiran nodded calmly.

From the moment Lin Shiyun shouted out the words " Spirit Vein Descending ", and adding on the Heaven Grade options, Jiang Beiran had pretty much guessed what was going to happen.

Spirit veins were the foundation of a country. The more spirit veins a country had, the more powerful it would be able to nurture. This was especially true for the Five Elements Spirit Vein, which was an existence that all sects would fight for with all their might.

Therefore, when a new spirit vein awakened, it would inevitably be accompanied by a bloody storm.

Seeing Jiang Beiran so calm, Lin Shiyun's sense of security was strengthened. At the same time, she was once again curious about Jiang Beiran's identity.

'Even though he knows that he's going to face those top-notch experts, he's still so calm. Who exactly is he...'

Just as Lin Shiyun was staring at Jiang Beiran, deep in thought, Lin Yuyan suddenly appeared in her line of sight.

" No matter who he is, he's your niece's son-in-law."

Looking at Lin Yuyan's increasingly bright smile, Lin Shiyun took a step back,"" I know, I know. I already said I won't fight with you. I was just curious.'

"I'm just reminding auntie, hehe." Lin Yuyan turned around and started admiring her senior brother's heroic bearing.

Taking out the Wishful Fortune Pot, Jiang Beiran pulled out a stick and chanted,""Ruyi, Ruyi, as I wish..."

A golden light flashed and a Canopy Ruler appeared in Jiang Beiran's hand.

If talismans and talismans were the skeleton of a formation, then magic tools were the flesh and blood of the formation. It was just that magic tools were extremely difficult to obtain and were too extravagant to be used as consumables. That was why Jiang Beiran rarely used them when setting up formations.

Now that he was going to face those top-notch old monsters, Jiang BeiRan naturally could not hold back any longer. Apart from conjuring four spiritual artifacts from the Wishful Lottery Pot, he took out another five from his Cosmos Ring.

'As expected, I can't ask for too much at once.'

Sensing the obvious dimming of the Celestial Chi around the Wishful Fortune Slips, Jiang Beiran understood that although it was very useful, if he overused it, its effects would be greatly reduced in the future.

He put away the Wishful Fortune Pot.

Jiang Beiran used the Big Dipper Steps, closed his eyes, and began to chant the incantation with his hands.

"Nuo Nuo Yi Ye, there is no time to choose."

"Follow where the fight points, and come out with the gods."

"The world is turned upside down, and all nine paths are blocked."

"What the heart desires, I obtain."

"Hu..."

After letting out a long sigh, Jiang Beiran opened his eyes abruptly and muttered,”

“Fan Tianying, Kan Yi, go!”

As soon as he finished speaking, the Canopy Ruler shook and flew southwest.

“Tianchong, Dui Qi, go!”

In the air, Nuo Mian swayed and flew toward the northeast.

“Tianrui, Gen Eight, go!”

The Bell Blade in the air buzzed and flew toward the northwest.

..

When all nine magic tools had returned to their original positions, Jiang Beiran started chanting again.

“The Celestial Thearch has ordered Si Ming to go first.”

“If the city is not finished, it will be closed with a golden pass.”

“No one dares to do anything evil.”

After the recitation, the nine magic tools burst out with a burst of light at the same time, drawing a Nine Stars as a Gang Diagram.

“Heavenly Cycle Treading Formation, complete!”

Chapter 457 The War (1)

The difficulty level of the Three Great Arrays was much higher than Jiang Beiran's.

It took him five days to be able to operate two formations on the same formation core, and this third major formation took him half a month to set up.

What was even more ridiculous was that the system still did not pop up an option, which meant that there was still danger above.

'Are these Mystic Venerables and Profound Sages practicing Taiji Fist up there?'

Later, through Lin Yuyan, Jiang Beiran learned from Lin Shiyun how the Six Nations had dealt with the awakening of the spirit vein.

Courtesy before violence.

When the top experts of the six states gathered at the new spirit vein, they did not start fighting immediately. Instead, they sat down and had a good talk. In any case, everyone was usually busy in seclusion, so it was not a bad opportunity to catch up.

As for the content of the discussion, it was different every time.

In the beginning, these old monsters would start fighting at the slightest disagreement. However, the commotion caused by the battle between Profound Sages and Profound Venerables was too great. There were even cases where the spirit veins were destroyed. Moreover, every Profound Sage and Profound Venerate was a treasure of the country. If they died or were seriously injured, it would be a huge loss.

Therefore, in order to prevent this from happening, the Six Nations had come up with many more civilized methods.

The first was to auction it. If any country could meet the requirements of the other five countries, then this spirit vein would belong to that country.

However, most of the time, the Six Nations would always ask for an exorbitant price. Therefore, if they did not gamble on the Five Elements Spirit Vein, it was easy to suffer losses. In recent times, very few countries were willing to be the sucker.

The second was the martial arts tournament. Of course, the participants would not be old monsters like Mystique Venerable Rank and Mystique Sage Rank. Instead, they would be the Mystical Grandmaster Rank powerhouses selected by the various countries.

Firstly, the commotion caused by the Mystic Sect was not as ridiculous as that of Mystique Venerable One and Mystique Sage. Secondly, although losing a Mystic Sect was a little painful, it was far less painful than the pain caused by Mystique Venerable One and Mystique Sage.

However, after fighting a few times, this path was no longer feasible. First of all, since it was to fight for the spirit vein, they would definitely send the strongest mysterious sect in the country to fight. However, the strongest mysterious sect was usually a reserve Mystique Venerable One, and their value was also very high.

In addition, this martial arts competition was for the sake of fighting for the country's treasure, the spirit vein. Therefore, there was no gentle rule like stopping when you reached the point.

The loss of a mysterious sect that was almost certain to advance to Mystique Venerable Rank was also unacceptable to the six dynasties.

Therefore, the rules could only be changed again. The participants of the martial arts tournament were changed from Xuanzong to cultivators under the age of two or five.

In this way, it basically became a battle between genius Mystic Kings. Although it was a pity for a genius of this level to die, it was much easier to accept compared to those half-step venerable mystic sects.

However, rules were only followed when everyone's strength was about the same. If they encountered a country's expert who suddenly became overconfident and disdained to sit down and negotiate with the other five countries, it would occasionally happen that they would directly start fighting.

However, Jiang Beiran was deep underground and had isolated himself from the rest of the world, so he was unable to detect what was happening above.

Senior Brother, it's time to eat."

"You guys eat first." Jiang Beiran, who was thinking about how to use the Hidden Mysterious Armaments, answered.

"Yes." Lin Yuyan nodded and retreated.

Returning to the table, Lin Yuyan looked at her aunt and said,""Let's eat first."

Lin Yuyan sighed in disappointment. Ever since they had come to the underground, Jiang Beiran had not cooked a single meal. This was too cruel for her, who had just been tempted.

Helplessly sitting at the dining table, Lin Shiyun picked up her chopsticks and whispered,""I wonder how long I will have to hide..."

"When Shixiong feels that it is safe, we can naturally leave safely." Lin Yuyan said calmly.

She turned her head to look at Jiang Beiran, who was meditating and thinking. Although Lin Shiyun had a belly full of questions, she did not have the courage to ask them.

'Sigh...I can only wait.

Five days later, Jiang Beiran connected a string of Five Accumulations Secret Silk to thirteen talisman treasures and chanted.

"My Qi is awe-inspiring, and I am leisurely circling the area."

"Six Ding lead the way, Shan Fu Lai Ge."

For a moment, the thirteen talismans that were connected in series began to spin in a circle, gradually forming a “black hole”.

‘Heavenly Eye Formation...Finally.

It was rare for Jiang Beiran to feel physically and mentally exhausted. He let out a long sigh of relief, feeling that it had been a long time since he had studied something so seriously.

[Mission completed. Reward: Luck +1]

Jiang Beiran’s heart dropped as he looked at the system prompt that finally popped up.

‘I’m only satisfied with three formations...This option is too good.

While Jiang Beiran was complaining, Lin Shiyun, who had also seen the “black hole”, walked over and looked at it curiously. Her eyes would occasionally glance at Jiang Beiran, expressing her curiosity with her actions and expressions.

However, she was quickly dragged away by Lin Yuyan with a smile.

After a short rest, he stood in front of the black hole and chanted.

“You can stay in the rosy clouds and soar to Ziwei.”

“There is nothing in the world that I don’t know.”

The Heavenly Eye Array was a scouting-type array. After it was set up, it could observe any corner within a radius of a thousand miles.

In Jiang Beiran's mind, since the first two layers of the formation had both concealment and defense, the only thing that was missing was information to anticipate the enemy's advance.

Chapter 458 War (2)

Now, it seemed that he was right.

After chanting, images gradually appeared in the black hole.

'F * ck...It's a blockbuster.

On the screen, a group of exaggerated experts were fighting fiercely in the air. One palm would create a tidal wave, while the other would shatter the space with a punch.

The battle was so exciting that it was much better than those big movies that had hundreds of millions of investment.

"Celestial Master Ye actually took action personally!?" At this moment, Lin Shiyun suddenly shouted when she saw the mirror image in the distance.

"Celestial Master Ye?"

Jiang Beiran thought for a moment and remembered that he should be the commander of the Qi Kingdom's Nanming Army, Heavenly Master Ye Peifeng.

Walking around Lin Yuyan, who was emitting a murderous aura, Lin Shiyun looked at the image in the mirror and said,""This... Is this the situation above us?"

"Yes." Jiang Beiran nodded.

"These old monsters actually took action personally?"

Lin Shiyun was shocked, because she knew that the previous few times when the spirit vein was discovered, it was decided through martial arts competitions. These top experts had not personally fought for a long time.

At this moment, two middle-aged men in cloaks exchanged a punch. For a moment, the weather changed, and bolts of lightning rained down on them.

“It’s Shenluo Mi Yangrong and Nine Planet King Xuanzhe! These two old monsters actually came out of seclusion!”

Jiang Beiran did not question Lin Shiyun as she listed out the names of the experts one by one. After all, he could guess that these people must be the top experts of the Six Nations.

‘These old monsters...It couldn’t have been a month, right?’

Jiang Beiran had never seen a battle between Mystique Venerable Ones and above, but it was a little too ridiculous for him to fight for half a month.

Therefore, Jiang Beiran was more inclined to believe that the fight had broken out because the negotiations had just broken down.

“Senior Brother ~”

Just as Jiang Beiran was observing the earth-shattering battle between these old monsters, Lin Yuyan’s voice suddenly rang out from behind him.

Jiang Beiran turned around when he sensed that something was wrong with the voice. He saw Lin Yuyan staring at him with a silly smile. Her gaze was completely off.

“What’s the situation?”

Jiang Beiran frowned, feeling that things were not as simple as they seemed.

In the next second, the murderous aura on Lin Yuyan's body exploded. A purple aura filled the entire underground space.

"What happened?" Jiang Beiran asked Lin Shiyun.

"I... I don't know either." Lin Shiyun was also a little confused. Although Lin Yuyan had indeed clarified the ownership of her senior brother to her, this kind of situation happened often on a daily basis. It was completely impossible.

"Boom!"

Just as she was thinking, Lin Yun suddenly felt an even stronger evil aura assaulting her, making her head buzz.

"Senior Brother, come with Yan 'er. Let's find a place with no one to live together."

Lin Yuyan reached out to grab Jiang Beiran as she spoke.

Looking at Lin Yuyan's right hand, which was wrapped in purple mist, Jiang Beiran's eyes turned sharp and he shouted, "Retreat!"

Lin Yuyan's body trembled when she heard that. She stopped moving forward slowly. However, this pause only lasted for a moment before she continued walking forward.

'Has my body and mind been controlled...

The difficulty level of the Three Great Arrays was much higher than Jiang Beiran's.

It took him five days to be able to operate two formations on the same formation core, and this third major formation took him half a month to set up.

What was even more ridiculous was that the system still did not pop up an option, which meant that there was still danger above.

While Jiang Beiran was complaining, Lin Shiyun, who had also seen the “black hole”, walked over and looked at it curiously. Her eyes would occasionally glance at Jiang Beiran, expressing her curiosity with her actions and expressions.

Chapter 459 Unexpectedly (1)

“It’s wood spiritual energy.”

Jiang Beiran said as he pressed his hand on Lin Yuyan’s forehead.

Lin Shiyun immediately reacted after hearing this and immediately activated her mind technique to sense.

“It really is wood spiritual energy, such pure wood spiritual energy!”

Lin Shiyun felt a sense of vitality, and her expression was one of enjoyment.

Although he had learned that the newly awakened Spiritual Pulse was the Five Elements Spiritual Pulse, Jiang Beiran knew that this was not the reason why those old monsters had fought with each other.

This was because it was impossible to know whether the awakened spirit meridian was an ordinary spirit meridian or a five-element spirit meridian at the beginning. It would only be possible after ten days.

Therefore, both the auction and the martial arts competition had to be completed within ten days to decide which country the spirit vein belonged to.

Previously, Jiang Beiran had used the Treading Heavenly Cycle Formation to completely isolate himself from the outside world, so he hadn't noticed it.

However, when he was setting up the third Heavenly Eye Array, he had no choice but to borrow the spiritual veins outside, which allowed the wood spiritual energy to pour into his cave.

"Oh no!"

Lin Shiyun, who was still enjoying the nourishment of the wood spiritual energy, suddenly widened her eyes.

"If it was just an ordinary spirit vein, then these old monsters might have stopped. But now that they've discovered a wood spirit vein, I'm afraid they won't rest until one of them dies." Lin Shiyun looked at Jiang Beiran with a trembling face. "Young... Young hero, will we really not be discovered?"

Ignoring Lin Shiyun's question, Jiang Beiran turned around and took out another five talisman treasures from his Cosmos Ring.

Now that he knew what caused Lin Yuyan to suddenly go berserk, it was much easier to solve it.

After the time it took for an incense stick to burn, Jiang Beiran had found a new spot in the cave that would prevent the Wood Spiritual Qi from entering and threw Lin Yuyan inside.

As expected, Lin Yuyan woke up very quickly after isolating the wood spiritual energy and asked her senior brother what had happened just now.

“The demonic beast in your body almost broke the seal. I helped you suppress it. From now on, you can only stay in the area I drew.”

Lin Yuyan looked down and quickly saw the line drawn by her senior brother.

“Got it, Senior Brother.” Lin Yuyan agreed readily.

After dealing with Lin Yuyan, Jiang Beiran began to think about the problems at hand.

Firstly, it was a matter of safety. Now that this group of old Profound Sage-level monsters knew that the new spiritual vein was a wood spiritual vein, they would probably not hold back in a fight. Although he was hiding in an extremely deep place underground and protected by three great formations, existences like Profound Sages were completely unknown to him. He could not predict how much destructive power they would unleash when they fought.

However, it was useless for him to worry about this problem now. This three-layered array formation was already the strongest array formation he could set up so far. If he still could not stop those old monsters, then he could only not.

Therefore, what he needed to think about now was the second problem. Now, he was sitting on a wood spiritual vein. This was a resource that even the six top-tier countries would fight for with all their might. If he wasted it like this, it would be a waste of natural resources.

The second was to find a way to store some of it. This was a once-in-a-lifetime opportunity. When this spirit vein was included in a country in the future and a powerful sect was established, he would never be able to come in and absorb such pure wood spiritual energy again.

However, Jiang Beiran was having a hard time finding a way to store the Wood Spiritual Qi. The best way to store Spiritual Qi was naturally to use Spiritual Stones.

However, most of the Spiritual Stones that Jiang Beiran had brought with him were low-grade and middle-grade Spiritual Stones. Using Spiritual Stones of this grade to store Wood Spiritual Qi would definitely affect the quality of the Wood Spiritual Qi, which was no different from wasting it.

After thinking for a moment, Jiang Beiran looked at Lin Shiyun and said, ""Do you have spirit stones with you? The higher the rank, the better."

Lin Shiyun was stunned at first, but she quickly realized what Jiang Beiran wanted to do.

"You know the method of channeling?!" Lin Shiyun said in surprise.

"Yes." Jiang Beiran nodded.

"You really are...You're so versatile."

After recovering from her shock, Lin Shiyun took out several cloth bags from her Cosmos Ring and handed them to Jiang Beiran. ""I only have these with me. Do you think it's enough?"

Taking the jade bag from Lin Shiyun, Jiang Beiran opened it and felt something flash in his eyes.

This was because the spirit stones in the jade bag were all earth grade spirit stones with twelve faces.

'Rich lady, I...'

Closing his eyes, Jiang Beiran tossed the thought out of his mind. He did a rough calculation and realized that Lin Shiyun had brought a total of 58 Earth rank spirit stones. Jiang Beiran was sure that this was enough to buy a sect.

“Anything else?”

Although carrying around sixty Earth rank spirit stones was already beyond Jiang Beiran’s knowledge, it was the time to have as many as possible.

“Yes.” Lin Shiyun stared at Jiang Beiran for a while with a hesitant expression.

“After we get out, we’ll split these spirit stones 30 – 70.”

“Give me 70%? I’m sorry. Although these spirit stones are all mine, if it weren’t for you...”

As Lin Shiyun spoke, she realized that Jiang Beiran was staring at her like she was looking at an idiot.

“Hey! You’re not planning to only give me three, are you?” Lin Shiyun was shocked.

“That’s right.”

“You... This is robbery!”

“First of all, without me, you wouldn’t have the chance to stay so close to the wood spiritual vein. Second, you can use this opportunity to convert your spiritual energy into wood spiritual energy. Third, 30% of the spiritual stones will be converted into wood spiritual energy.”

Chapter 460 I Never Had Thought Of It (2)

Hearing Jiang Beiran’s convincing words, Lin Shiyun hesitated for a moment before saying, “Alright, no matter what, you’ve already saved me twice. This time, I’ll repay you.”

“Oh? If he wanted to include it in the repayment, then he would split it by 90%.”

“Hey!” Lin Shiyun couldn’t help but shout,

“What’s wrong? I think my price is very fair.”

“I... I...”

Lin Shiyun, who felt that she didn’t have the right to negotiate with Jiang Beiran, finally sighed and said, “Alright, then I won’t consider it a repayment. I’ll split it 30 – 70.”

“Deal. Do you have more spirit stones?”

“Wait a moment...”

Lin Shiyun ran to a corner and only returned to Jiang Beiran’s side after a while. She stretched out her hand and said, “Let’s make this clear first. We must each take one of these two spirit stones. Otherwise, I won’t be able to explain it when I go back.”

‘Twenty...Heaven grade spirit stone?’

Jiang Beiran almost lost control of his expression when he saw Lin Shiyun take out two high-tier spirit stones.

‘As expected of a family that sells war...This is too rich.’

Whether it was from Lin Yuyan’s description or Lin Shiyun’s cultivation, although she was the sect master’s biological sister, she was definitely not a core member. At most, she was a spoiled little sister in the family.

However, this spoiled little sister actually carried two heaven grade spirit stones with her.

‘Sour...’

Jiang Beiran sighed in his heart. He took the two Heaven Grade spirit stones and said, ""Deal."

Seeing Jiang Beiran sitting down cross-legged after receiving the spiritual stones, Lin Shiyun was still worried that they might get caught up in the fight between the immortals. However, she did not have the courage to ask Jiang Beiran again, so she could only sit down cross-legged as well and absorb more Wood Spiritual Qi first.

Half a year later...

'F * ck me...Are these old monsters done...'

Looking at the image reflected by the Heavenly Eye, the continuous mountain range above had been completely flattened. There was not a single blade of grass within a thousand miles. Only a dozen Profound Sages were still pouring their Profound Qi to their heart's content.

Jiang Beiran had never imagined that the battle between Profound Sages could be measured in years. It was as if they did not need to rely on the Spiritual Qi in the world at all. They could produce large amounts of Celestial Chi on their own.

In addition, perhaps because they had injured the spirit vein like they had done in the past, they had been fighting in the air, not allowing their attacks to reach the ground. That was why Jiang Beiran had been hiding until now.

Even though he had been "locked up" for half a year, Jiang Beiran had reaped a huge harvest.

First of all, his body had completely transformed into a wood spiritual qi physique. This was a real wood spiritual qi. In the future, even if he absorbed ordinary spiritual qi, it would instantly be converted into wood spiritual qi when it entered his body.

Secondly, he had used the wood spiritual energy from the two Heaven grade and 58 Earth grade spirit stones. The amount of wood spiritual energy contained in them was enough to transform the physique of a few more cultivators.

After the Spiritual Stones were filled, Jiang Beiran took out all the Heavenly Materials and Earthly Treasures he had brought with him to help them absorb the Wood Spiritual Qi so as not to waste the Wood Spiritual Qi that was still coming out every day.

Among them, many heavenly and earthly treasures had completed their advancement or transformation after absorbing the wood spiritual energy, becoming even more precious materials.

In addition, Lin Yuyan and Lin Shiyun had also attained the Wood Spirit Qi Body. Although their Lin Family was not short of money and had a high status in the Qi Country, they could not buy a national treasure like the Five Elements Spirit Vein with money.

Therefore, Lin Shiyun was very excited after converting it into wood spiritual energy. Although she had traveled all over the world and had not found any secret realm, this experience was almost the same as finding a secret realm. It could be considered a kind of compensation.

“It’s really ridiculous to be able to fight for half a year...”

Jiang Beiran sighed in his heart and began to prepare to carry out his plan.

As he was worried about wasting the Wood Spiritual Qi, Jiang Beiran had been thinking about what he should do to prevent wasting the hard-earned Wood Spiritual Qi when they had successfully converted all the Spiritual Stones into Wood Spiritual Qi.

As a result, Plan A, B, C, D, Xu, Ji, Geng was born.

Among these plans, other than A, B, C, and D, which Jiang Beiran thought were possible targets, Xu Jigeng had planned them out purely for the sake of taking precautions.

However, he had never expected that these Profound Sages would actually be able to fight for half a year. This led to the implementation of Lian Geng’s plan.

All of Jiang Beiran's plans prior to Plan Geng had been to plan how he would release all of the Heavenly Materials and Earthly Treasures in his possession to absorb the Wood Spiritual Qi. Plan Geng, on the other hand, was to carry out the plan only if he still could not get out after he had taken out all of the Heavenly Materials and Earthly Treasures to absorb the Wood Spiritual Qi.

'I really didn't expect to have the chance to implement it...'

Taking out all the low and middle-tier spirit stones from his Cosmos Ring, Jiang Beiran began to think seriously.

His idea was very simple. He wanted to use the spirit stones on hand to make a "tank" to store wood spiritual energy.

However, the idea was simple, but the difficulty of implementing it was ridiculously difficult.

Looking at the image reflected by the Heavenly Eye, the continuous mountain range above had been completely flattened. There was not a single blade of grass within a thousand miles. Only a dozen Profound Sages were still pouring their Profound Qi to their heart's content.

In addition, perhaps because they had injured the spirit vein like they had done in the past, they had been fighting in the air, not allowing their attacks to reach the ground. That was why Jiang Beiran had been hiding until now.

Turning off the Heavenly Eye Formation, Jiang Beiran shook his head. He turned around and squatted down to protect the Dayan Secret Flower that he had just planted.

Even though he had been "locked up" for half a year, Jiang Beiran had reaped a huge harvest.

First of all, his body had completely transformed into a wood spiritual qi physique. This was a real wood spiritual qi. In the future, even if he absorbed ordinary spiritual qi, it would instantly be converted into wood spiritual qi when it entered his body.
