

World 1421

Chapter 1421: Borrowing a Sword (7K)_2

When they saw Chen Mobai, realization dawned on their faces.

Ah, it was him. No wonder!

Facing everyone's gaze, Chen Mobai remained composed and followed Wen Ren Xuwei to the lake within the island where the Great Chun Tree was located, which was also the site of Pei Qingshuang's Core Formation.

The Great Chun Tree absorbed the essence of Di Yuan Star and the spiritual essences from beyond the skies. Through a special method, it could release Spiritual Energy almost equivalent to the Sixth Rank.

In the entire Immortal Gate, which is the Five Peaks Immortal Mountains where the two Huashen Ancestors reside, only here was the Spiritual Energy more abundant.

Hearing that Pei Qingshuang was using near Sixth Rank Spiritual Energy for her Core Formation, Chen Mobai couldn't help but sigh that his decades of struggle still didn't compare to the second-generation disciples of the Immortal Gate.

On a branch of the Great Chun Tree facing north, a gorgeous flower blossomed. The charming Peach Blossom Sage stood there, seemingly even more beautiful and taller than Pei Qingshuang, waiting for him.

After flying up with Wen Ren Xuwei, Chen Mobai first greeted the Peach Blossom Sage.

"Please have a seat. This time, Cui's successful Core Formation owes much to your Pearls. Without them, she might have needed another decade or more of hard work."

The Peach Blossom Sage nodded lightly, and as her sleeve, light as a feather, waved, a set of guest furniture appeared out of thin air on the flower pedestal.

Everyone immediately took a seat, and Wen Ren Xuewei naturally took out her own tea set and tea leaves, beginning her exquisite tea ceremony.

“This visit mainly serves to bring Qing Nu back and, coincidentally, to congratulate Elder Sister Pei on her Core Formation.”

As he spoke, Chen Mobai took out a box he had prepared earlier containing three Water Spirit Pearls, perfect for helping Pei Qingshuang strengthen her realm after her Core Formation.

“It’s far too precious.”

Pei Qingshuang examined the gift and shook her head slightly, pushing it back.

She needed the Water Spirit Pearl to communicate with the Qing Shuang Sword for her Core Formation, but now that the Core Formation was accomplished, accepting such an expensive gift seemed excessive to her.

“There’s no need for formality between you and me. If Elder Sister Pei hadn’t received me at the Mountain and Sea Academy back then, I might not have been able to obtain the Purple Electric Sword.”

If Pei Qingshuang refused the gift, it would be awkward for Chen Mobai to continue, so he pushed his congratulatory gift towards her again.

“With your exceptional talent, Brother Chen, even without me, you would have been destined to become the master of the Purple Electric Sword.”

Pei Qingshuang knew all too well Chen Mobai’s talent in Sword Dao, a talent even she couldn’t match and truly the Qualification of Deification.

“Cui, since Chen Council Member is offering, you should accept it.”

Just as Pei Qingshuang was about to refuse again, the Peach Blossom Sage seemingly detected something and spoke directly.

“This... well, then, thank you very much.”

With her mother speaking up, Pei Qingshuang had no choice but to accept.

At this moment, Wen Ren Xuewei had finished brewing the first pot of tea and gently reminded Chen Mobai, as she offered the tea to Peach Blossom Sage, that he had been promoted to a member of the Rotating Committee of Kaiyuan Hall since last year’s conference.

“Is that so? I’ve been busy supporting Cui’s Core Formation this past year and haven’t paid attention to such matters.”

Upon hearing this, the Peach Blossom Sage appeared enlightened and then changed her address to Councilor Chen, who promptly denied deserving the honor.

“It’s sufficient for the Sage to call me ‘Little Chen’. This visit is mainly for two other matters that I wish to seek the assistance of the Sage and Elder Sister Pei.”

Before the Nascent Soul Superior, Chen Mobai dared not presume and quickly stated his real purpose for coming after seeing Pei Qingshuang accept the three pearls.

Firstly, he wished to have the Peach Blossom Sage help him refine some Appearance-fixing Pearls. He had quite a number of female cultivator friends in his Immortal Gate and Tianhe Realm, and he hoped they would remain beautiful and unmarred by the passage of time.

The Peach Blossom Sage instantly agreed to this request, as for her, refining Appearance-fixing Pearls was not difficult.

Chen Mobai then brought up the second matter.

“It’s like this: after cultivating the Guidance Book, I used the Inner Observation ability and spent some time on the Purple Green Demon Refining Heavenly Book. It wasn’t long before I completely understood its mysteries and learned how to use the Purple and Green Double Swords to draw and refine the energy of the Nine Heavens Pure Spirit Purple Brilliance.”

Upon hearing this, all four women present turned their attention to him.

Among the Immortal Gate, the resources that could aid in Nascent Soul Formation were rare, and the Nine Heavens Pure Spirit Purple Brilliance was one of them. Furthermore, because only Qing Shi and Qing Jing sages had successfully cultivated it, the success rate to date was one hundred percent.

“You haven’t cultivated the Zi Hua Sword Manual, and your current Cultivation Level might fall short, perhaps you won’t be able to control the Purple Qinghagara!”

Clearly, the Peach Blossom Sage also knew the workings of the Nine Heavens Pure Spirit Purple Brilliance, her beautiful eyes glanced at Chen Mobai, her brows slightly furrowed as she spoke.

“The key to refining the Nine Heavens Pure Spirit Purple Brilliance lies in the Purple and Green Double Swords. Although I haven’t cultivated the Zi Hua Sword Manual, I have achieved Clear Heart of Sword with the Purple Electric Sword, and as long as the Purple Electric Sword aids me with all its might, this will not be a problem.”

Chen Mobai had already used Inner Observation to thoroughly analyze the Zi Hua Sword Manual and even reviewed the decrypted Purple Green Demon Refining Heavenly Book from the Nature Studies Academy. He had a clear understanding of the process of drawing and refining the Nine Heavens Pure Spirit Purple Brilliance with the Purple and Green Double Swords.

The reason that cultivation of the Zi Hua Sword Manual was specified was because having such a cultivator assisting meant the Purple Electric Sword would be under less stress during this process, possibly only needing to exert fifty to sixty percent effort to comfortably absorb the energy.

Chapter 1422: Borrowing a Sword (7K)_3

However, in reality, as long as Chen Mobai provides enough Spiritual Power, even if not as adept as the cultivators of the Zi Hua Sword Manual, the Purple Lightning Sword would still be of use to him; it’s just

that it cannot be lazy, needing to expend nearly eighty to ninety percent of its power, and go all out in order to draw in the Nine Heavens Pure Spirit Purple Brilliance Energy.

Once the Peach Blossom Sage heard Chen Mobai speak of Clear Heart of Sword, she immediately understood.

The Purple Lightning Sword was willing to give its all for this awe-inspiring Sword Cultivation Genius, which indeed, could be accomplished.

But her daughter could not do it!

“Cui has just completed Core Formation, and although she can now listen to the true nature of the Qing Shuang Sword, reaching a Clear Heart of Sword, I’m afraid, still requires a period of cultivation and integration.”

The Peach Blossom Sage’s words added glory to her own daughter; according to Pei Qingshuang’s own estimates, it might not be until reaching the realm of Perfect Core Formation with the Qingxiao Sword Canon that she could possibly achieve this.

“Sorry, I’ve been holding you back.”

Pei Qingshuang spoke somewhat sheepishly; when Chen Mobai first received the acceptance of the Purple Lightning Sword, she was extremely delighted.

At that time, she believed she would certainly achieve Core Formation decades before Chen Mobai, and then with the latter’s Qualification of Deification, this gap of decades would surely be bridged before the Nascent Soul Formation milestone, allowing both of them as Perfect Core Formation cultivators, to ideally join swords and draw in and refine the Nine Heavens Pure Spirit Purple Brilliance Energy.

But who knew this idea was upside down from the start.

She underestimated Chen Mobai's Qualification of Deification; when it came to the hurdle of Core Formation, he simply waded through on talent, leaving her decades behind until she finally achieved Core Formation.

And now, Chen Mobai was almost at the Core Formation Late Stage, increasing the gap between them even more.

"It's not really a big deal, Cui. Now that you have achieved Core Formation, the inherited talent and Divine Skills will begin to awaken gradually. One day you will eventually catch up to Little Chen, and then both of you can join swords. It's not too late."

The Peach Blossom Sage said, already conceding that the Purple Qinghagara could not be accomplished now.

Upon hearing her words, Chen Mobai took another careful look at Pei Qingshuang and found that after Core Formation, she seemed to have grown taller, making her already slender figure even more graceful. He estimated that she was almost as tall as him.

Moreover, what used to be a more heroic face, after Core Formation, began to soften; the features remained the same, yet now they looked symmetrical and perfect.

It was as if she had blossomed.

Was this the influence of paternal genes or maternal genes?

Who exactly was Pei Qingshuang's father?

A flurry of questions flashed through Chen Mobai's mind, but he did not forget the real purpose of his visit.

"That's the situation. I intend to borrow Senior Sister Pei's Qing Shuang Sword to see if I can also achieve a Clear Heart of Sword with it. This way, I alone could join the two swords, and execute the Purple Qinghagara."

Upon his declaration, Wen Ren Xuewei elegantly paused her tea art, opened her mouth wide, and looked up at him.

The other three ladies had the same expression, all in utter shock.

“You, want to achieve a Clear Heart of Sword with the Qing Shuang Sword too?”

The Peach Blossom Sage doubted if she heard correctly.

Within the Immortal Gate, no matter how dazzling a Sword Cultivation Genius, there has never been a case of achieving a Clear Heart of Sword with two powerful Sword Artifacts.

After all, the Way of the Sword Cultivation also stresses purity and singularity.

One person, one sword, loyal and true!

Chen Mobai had already achieved a Clear Heart of Sword with the Purple Lightning Sword; would the latter be willing to share him, its nearly perfect master, with the Qing Shuang Sword?

That would be like a man who has taken a wife and then wants to marry another.

Even if the second wife is a close sister to the first!

It would be absolutely impossible!

“I plan to try it out. If I can do it, I might be able to shorten the time it takes to condense Pure Yang True Qi and anticipate reaching Perfect Core Formation within a hundred years.”

Chen Mobai spoke the truth; generally speaking, only with Perfect Core Formation can one begin to refine Spiritual Power into higher-level True Qi.

However, Nine Heavens Pure Spirit Purple Brilliance Energy can shorten this process; it hovers above the Ninth Layer of Heavenly Firmament, almost Innate pure and unsullied energy of the Two-yi Qi, that can be transformed into any postnatal True Qi, and also benefits the nurturing and cultivation of the Nascent Soul.

Chen Mobai even felt that the Nine Heavens Pure Spirit Purple Brilliance Energy would be effective for enhancing Primordial True Qi.

For this reason, he thickened his face to come and borrow the sword.

“This...”

As the Peach Blossom Sage was about to voice her refusal, Pei Qingshuang thought that she had just completed Core Formation and would need quite some time to consolidate her realm; lending the sword was not out of the question.

“I will ask the Qing Shuang Sword about this matter. If it has no objections, I can lend it.”

As soon as Pei Qingshuang said this, the Peach Blossom Sage’s frown deepened, but after thinking about Chen Mobai’s frightening talent, she knew that the young man before her would surely be a peer in the future; thus, she swallowed her words of objection.

Moreover, the Dance Instruments and Jumang lineages had thousands of years of friendship, and Ancestor Baiguang was still alive; even considering the two sects’ history, it could be seen as an investment in the future.

After all, success was improbable. When Chen Mobai fails to communicate with the Qing Shuang Sword, he will naturally return it.

In the Immortal Gate, Chen Mobai was a person of status and fame; there was no fear he would not return it.

Also, the Qing Shuang Sword Spirit is very proud; even after hundreds of years of daily companionship with Pei Qingshuang, it had barely let down its guard. The Peach Blossom Sage did not believe it would want to leave its daughter of a hundred years to reside in the hands of a strange man for several years.

Chapter 1423: Borrowing a Sword (7K)_4

Upon thinking of this, the Peach Blossom Sage calmed down and passed the empty teacup in her hand to Wen Ren Xuewei, asking her to pour another cup.

“The Qing Shuang Sword mentioned that it wanted to communicate with the Purple Electric Sword...”

At this moment, Pei Qingshuang had finished communicating with her Sword Artifact, and with a flick of her finger, the sword at her waist was already unsheathed and flying into mid-air.

Upon seeing this, Chen Mobai also smiled lightly and, with a thought, his domain opened up, and the Purple Electric Sword, wrapped in intense Spiritual Light, emerged from within.

[Go and communicate with the Qing Shuang Sword. You know the treatment on my side; as long as it's willing to come over and absorb the Nine Heavens Pure Spirit Purple Brilliance Energy with you, I am willing to give out a Top-grade Spirit Stone for each strand. If there's an emergency situation that requires it to act, I'm willing to add more Spirit Stones, starting with one Top-grade Spirit Stone!]

Chen Mobai reached out to support the Purple Electric Sword, which was about to leap out and catch up with the Qing Shuang Sword, and mentioned the rough treatment his side offered.

[Master, your Spiritual Power doesn't match us two, and if we were to condense the Nine Heavens Pure Spirit Purple Brilliance Energy, even if Little Qing and I fully cooperate, we might not succeed.]

The Purple Electric Sword first told the truth, as the last time they both condensed Nine Heavens Pure Spirit Purple Brilliance Energy was in the hands of the Nascent Soul Superiors Qing Shi and Qing Jing.

Now, it's changed to Chen Mobai, a cultivator of the Pure Yang Scroll, and they don't know if they can succeed.

[For every condensation of Nine Heavens Pure Spirit Purple Brilliance Energy, I will offer two Top-grade Spirit Stones, one for each of you swords!]

[This...]

The Purple Electric Sword was quite moved by Chen Mobai's increase in payment.

[If you two succeed in condensing it, in addition to the two Top-grade Spirit Stones, I will privately provide you with an extra Top-grade Spirit Stone.]

Hearing this, the Purple Electric Sword was completely unable to resist.

In this case, if it and the Qing Shuang Sword jointly condensed a strand of Nine Heavens Pure Spirit Purple Brilliance Energy, it would receive two Top-grade Spirit Stones, while Qing Shuang Sword would only get one.

It was the first time it ever encountered such an offer through its Clear Heart of Sword experience.

This differential treatment made the naive sword feel it had completely surpassed the Qing Shuang Sword.

[Master, rest assured, leave it to me!]

The Purple Electric Sword shot out from Chen Mobai's hand with a swish, shining like a splendid bolt of lightning, which caused all four women to glance sideways.

They felt this was a sign of an extremely tacit understanding between a Sword Artifact and its master.

[The Qing Shuang Sword should refuse, right?]

Peach Blossom Sage thought to herself, and as the Purple and Green Double Swords communicated, Chen Mobai also took out a small bag of Water Spirit Pearls.

These were what he wanted the Peach Blossom Sage to help refine into Appearance-fixing Pearls.

“Little Chen, what exactly did you open in the Void Blind Box that got you such high-quality pearls? Even in the Sea Territory, these are rare.”

As the Peach Blossom Sage spoke, she gently opened the bag and trembled slightly when she saw the quantity inside.

There were twenty in total!

“I got a scoop, but in the Immortal Gate these are quite precious, so to avoid trouble after outsiders find out, I’ve claimed that only a few were found.”

Chen Mobai’s status was different now, he could protect these items, and with the Peach Blossom Sage and Pei Qingshuang benefiting from the pearls as well, he brought out so many in front of them.

However, the main reason was that there were quite a few close female cultivators around him, and he also planned to use these Appearance-fixing Pearls to make a breakthrough for the Five Elements Commerce Association in the East Land, so he took out twenty at once.

“Fortunately, the refinement of Appearance-fixing Pearls can be done together in the Medicine Pool, otherwise I might not have been willing to help you with so many.”

This time, the Peach Blossom Sage also calmed down, after all, being a Nascent Soul Superior, these twenty pearls, although precious, were just worth several billion Good Deed Points to her.

It had been hundreds of years since such a precious deal had been encountered, thus the initial shock.

“Thank you, Superior, for being willing to help. Once the Appearance-fixing Pearls are refined, each of you, Superior, Elder Sister Pei, and Senior Wenren will take one. This is also a small token of my appreciation.”

Chen Mobai’s words caught Ren Xuewei, who was making tea, by surprise.

She didn’t expect that there was a share for her as well.

The same was true for Pei Qingshuang. She once had one, but she used it to communicate with the Qing Shuang Sword; even though she could still recharge it, no one would think they have had too much of such a thing.

“Little Chen, you are such a sensible child. For Cheng Xuan to have you as its successor, truly is a fortune of three lifetimes!”

Peach Blossom Sage listened and couldn’t help but smile.

Apart from the three pearls as compensation, Chen Mobai had previously given four pearls to Pei Qingshuang, which amounted to seven hundred million Good Deed Points. Even if she were asked to refine a Rank-5 Elixir of Spiritual Water, that would be the price.

However, the most important thing was that the pearls provided by Chen Mobai had successfully helped Pei Qingshuang in her Core Formation.

Given this favor, even if she offered her help for free, she would do it.

And just at this moment, two streaks of Sword Light, one purple and one green, descended from the sky. After circling around Chen Mobai and emitting clear chirps, they floated beside him, one to the left and one to the right.

Seeing this scene, Pei Qingshuang felt an inexplicable sense of loss in her heart.

Indeed, was it because her talent in Sword Dao was not enough? Given Chen Mobai's qualification for Divinity Transformation, even the proud Qing Shuang Sword was willing to submit.

"It seems that the Qing Shuang Sword has agreed. Elder Sister Pei, do you need to communicate with it again to confirm?"

Chen Mobai witnessed the scene and communicated with the Purple Electric Sword with his Heart and Mind. He knew it had successfully won the sword over and felt somewhat embarrassed as he spoke to Pei Qingshuang.

"No need. In the next few years, I hope Chen Junior will take good care of it!"

As she spoke, Pei Qingshuang took off the scabbard from her waist and handed it to Chen Mobai reluctantly.

She had custom-made it specifically for the Qing Shuang Sword, using branches shed by the Peach Blossom Sage, which were Rank-4 Spirit Wood.

After taking it, Chen Mobai kept expressing his thanks to Pei Qingshuang.

Then, he first sent the Purple Electric Sword back to his Golden Core Domain, then with one hand holding Pei Qingshuang's scabbard, he reached for the Qing Shuang Sword on his left side.

As all four women watched with widened eyes in disbelief, the always proud Qing Shuang Sword struggled for a moment before allowing Chen Mobai to grasp it.

With a clanging sound, the Fourth Grade Superior Sword Artifact was inserted back into its scabbard by Chen Mobai, following the path of the Purple Electric Sword into Chen Mobai's Domain.

Pei Qingshuang saw the Sword Artifact leave without even saying goodbye to her, and felt even more dejected.

She felt that she might not be suitable for the Qing Shuang Sword and wondered if she had held back this powerful Sword Artifact during the hundred years it had been in her possession.

While she was lost in her thoughts, Chen Mobai, having achieved his purpose, already bid them farewell.

“Are you in such a hurry? Why not wait until the Appearance-fixing Pearls are finished?”

At this time, Peach Blossom Sage had already accepted Chen Mobai’s astonishing talent in Sword Dao, and her tone was warmer than at the beginning.

“I have a lot of duties to attend to, and since I hold several positions in Wangwu Cave Heaven, chaos would ensue if I am away for too long.”

Chen Mobai gave an excuse, when in reality he only needed to take care of the Sky-Mending Group’s affairs. The Weapon Dancing Sect in Wangwu Cave Heaven was full of astute individuals who could manage everything without him.

Moreover, with Lin Yin in the Sky-Mending Group, there was even less need for him to be busy.

Qing Nu heard this and her face lit up with joy. She had been packed and ready to leave with Chen Mobai for some time.

Chapter 1424: Lin Daoming Defects (7K)

Although Chen Mobai bid farewell, under warm insistence, he stayed for one more night.

After all, Qing Nu needed time to study the original copy of the Lasting Spring Cultivation.

The next morning, Wen Ren Xuewei personally accompanied him and Qing Nu to the train station.

Inside the compartment, Chen Mobai looked at the six tubes of Water of Ten Thousand Transformations in his hand and couldn’t help but reveal a satisfied smile.

Originally he had exchanged for five tubes, but at the last moment, Peach Blossom Sage gifted one more. Chen Mobai declined twice but eventually accepted it.

After all, for him, a member of the Five Elements Sect, this item was extremely beneficial.

Speaking of nothing else, just the Immortal Peach Tree.

Although he had already consumed its fruit, the Rank-4 Immortal Peach Fruit was useless to him, but it could be given to other Golden Core Cultivators within his sect, or even be used as goods for trade through the Five Elements Commerce Association outside the Eastern Wilderness in exchange for elixirs useful for cultivators in the late stage of Core Formation.

After safely storing the Water of Ten Thousand Transformations, Chen Mobai and Qing Nu began to enjoy the scenery outside the window.

Although Qing Nu did not understand his fondness for the leisurely pace of trains, to her, simply being with him was all that mattered.

“Lasting Spring Cultivation is indeed profound and vast; I’m sure I can’t cultivate it.”

Their conversation naturally shifted to this famous Divinity Transformation Technique of the Immortal Gate.

Besides studying the original Lasting Spring Cultivation scripture, Qing Nu also brought a photocopied copy. Chen Mobai took it and couldn’t help but admire Wen Ren Xuewei’s extraordinary talent and determination.

Indeed, she was the true bearer of the Qualification of Deification in this era of the Immortal Gate, only overshadowed and suppressed by the dazzling presence of him.

Apart from the entry requirement of possessing a Three-Element Heavenly Spiritual Root for Lasting Spring Cultivation, the subsequent cultivation process also tested one’s patience immensely.

As it required constant interaction with the Great Chun Tree, and since this top-grade Spirit Plant of the Immortal Gate was of a very high grade, to Wen Ren Xuewei's consciousness, it was like an ant. Although the pact of the Lasting Spring Cultivation prevented her from being crushed, the feeling of a mayfly shaking a tree constantly assaulted her, and if her spirit wasn't resolute, she could get lost amidst the vast, starry sea-like mighty force of the Great Chun Tree.

As long as Wen Ren Xuewei's realm didn't surpass that of the Great Chun Tree, she would continue to face this assault.

After lamenting the arduous path of the Lasting Spring Cultivation, Chen Mobai felt it was better for Qing Nu to focus on cultivation techniques related to her Water Attribute.

"You joined the Sky-Mending Group earlier; after ten years, I'll see if I can apply for a Golden Liquid Jade Pill for you in advance."

As they spoke, the topic shifted to Qing Nu forming her core.

The Sky-Mending Group, as a department directly under the Righteous Law Hall Master within the Immortal Gate, has the power for the head to designate scholars within the group to exchange for Golden Liquid Jade Pills after fulfilling a sixty-year work period.

As Chen Mobai's direct follower and best friend in the Sky-Mending Group, she was definitely on the list.

"Thank you!"

Qing Nu responded sweetly after hearing this.

Half a day later, the train stopped at a place named Southfield City.

According to the timetable, they had a half-hour stop here.

Seeing there was still time, Chen Mobai decided to take Qing Nu for a walk.

This place was renowned for Nantian Jade, which, when infused with Spiritual Power, could emit a chime-like sound beneficial for cultivators in cultivating their Divine Sense.

Around the station, there were many shops selling such jade.

However, the high-grade Nantian Jade Ore had long been taken over by the Immortal Gate, leaving only Rank-1 and Rank-2 jades for public trading.

Eagerly, Qing Nu began selecting among them, besides the carved jade pieces, many shops even offered blocks of jade ore, all priced expensively.

Many passengers who disembarked were using their Divine Sense to inspect the jade ores.

But since Nantian Jade naturally absorbs Divine Sense, many cultivators were just looking and didn't plan to gamble on the stones. Most, like Qing Nu, were simply choosing finished jade pieces.

With his Void Spirit Eye activated, Chen Mobai walked past all the shops, having looked through all the jade ores.

He found a few pieces of decent quality, considered top-grade within Rank-1, and some even had variations that reached Rank-2 internally.

Regardless of the cultivator's realm, picking up bargains was always naturally interesting.

Chen Mobai approached a block of jade ore with the highest internal quality, inquired about the price, and directly paid 130,000 Good Deed Points to purchase it.

The shopkeeper asked if he needed help cutting it open, but Chen Mobai shook his head.

Since the jade ore was only about the size of two fists, it was easy to carry; Chen Mobai had the shop pack it in a bag and carried it away directly.

Displaying his Gold Core True Person's identity in public, revealing his Domain, wasn't his style.

Meanwhile, when he was purchasing the jade ore, Qing Nu also selected a beautiful Jade Bracelet in the shop and put it on her snow-white wrist.

Under the sunlight, the simple Jade Bracelet emitted a faint green glow; each movement of Qing Nu's left hand caused the bracelet to produce a delicate, pleasing sound.

Qing Nu obviously loved it, but glancing at the price tag of 88,000, she felt it was a bit expensive and reluctantly took it off.

Seeing this, Chen Mobai was about to ask the owner to pack up the bracelet as well when he suddenly frowned and turned his attention to a corner of the shop's surveillance monitor.

Unnoticed before, amidst the screens' static, an image of Yan Xinji's back suddenly appeared.

Chapter 1425: Lin Daoming's Defection (7K)_2

Chen Mobai noticed Qing Nu was still selecting other jade pieces and silently approached the monitor. But at that moment, the surveillance footage suddenly returned to normal.

[Your actions are a bit slow, aren't they?]

Just then, an electronic voice suddenly came to Chen Mobai's ears. He looked up at a jade puppet beside the monitor.

With the Void Spirit Eye opened, he saw the extremely exquisite and complex structure inside the jade puppet.

This turned out to be a Puppet too.

Chen Mobai thought for a moment and did not confront Yan Xinji outright, but instead said,

“Qing Nu is by my side, I will protect her.”

As he spoke, he waved his hand and set up a sound-proof Restriction to avoid being overheard by others in the store.

[I admit that you might become the strongest Cultivator of the Immortal Gate in the future, but what can you use to protect her from Lin Daoming right now?]

The electronic voice of Yan Xinji’s Puppet was transmitted directly to Chen Mobai’s ears, audible only to him.

“Is this not the Immortal Gate! Would Lin Daoming dare to make a move here?”

Chen Mobai had always held the Rules and Laws of the Immortal Gate in awe, and after learning about the Fruit of Dao’s Rule, he felt this even more strongly.

Not to mention that Lin Daoming had already retired. Even if he was still the Head of Immortal Affairs, he would not dare violate the rules laid down by generations of Immortal Gates’ Divinity Transformations.

[Today Lin Daoming is returning from his hometown Jinting Mountain to Wangwu Cave Heaven. He will have a layover in Southfield City and take the same train as you.]

But at this moment, Yan Xinji said something that made Chen Mobai’s pupils dilate in shock.

“That’s quite a coincidence?”

[Take the Big Transfer Talisman with you. It's not too late to send Qing Nu away now. If you get on the same train as him, do you think you can protect Qing Nu from the hands of that Nascent Soul Cultivator?]

Yan Xinji's words left Chen Mobai in silence.

Although he was full of confidence in the Immortal Gate rules here, he certainly did not want to gamble with Qing Nu's safety.

He always liked to eliminate dangers ahead of time.

But to send Qing Nu away...

With this thought, Chen Mobai took out a shimmering silver Talisman from his Domain. It was the very Big Transfer Talisman that Yan Xinji had told him about.

However, he didn't trust Yan Xinji very much, and coupled with his belief that he could protect Qing Nu within the Immortal Gate, he had been holding onto it all this time.

[I'll wait outside the Heavenly Curtain of Di Yuan Star. This is your last chance to send Qing Nu away from Lin Daoming's clutches.]

After saying this, the jade Puppet suddenly dimmed.

With the Void Spirit Eye, Chen Mobai observed that this happened because the Spiritual Energy stored inside was exhausted. However, just to be safe, he extended a hand towards the jade Puppet and infused it with Pure Yang Spiritual Power, completely destroying all the Puppet structures inside.

"Help me take a look, which of these bracelets looks good?"

Right after doing all this, Qing Nu, with a string of Jade Bracelets on her wrist, waved at Chen Mobai, lifting her left hand—showing him the bracelets clinking melodiously, making her even more delicate and charming.

“Why not the one from before?”

Chen Mobai pointed to the Emerald Green Jade Bracelet Qing Nu had first set her eyes on in the store, which had an asking price of eighty-eight thousand, then called over the shop owner and pointed at it to indicate packaging it as well.

“That’s too expensive...”

“Don’t worry about it; consider it a reward for helping me close the deal for the Water of Ten Thousand Transformations.”

Chen Mobai smiled and paid with Good Deed Points. Seeing this, although Qing Nu still protested verbally, her face and eyes were filled with laughter, and she radiated happiness as if she were a blooming Fresh Flower.

After that, Chen Mobai went to a few other stores and purchased all the best-quality Jade Ore.

“It’s about time; the train is about to leave.”

Qing Nu looked at the time, which was five minutes away, and reminded Chen Mobai.

“I want to stay here for a night today and open up these purchased Jade Ores.”

But Chen Mobai suddenly said so, and although Qing Nu looked puzzled, she had no objections. After all, nothing else mattered as long as she was with Chen Mobai.

In a secluded area, Chen Mobai waved his hand and sent all the purchased Jade Ores into his Domain.

Afterward, he and Qing Nu took a taxi and headed into the city.

Meanwhile, Lin Daoming was at the train station, changing to the private train carriage originally intended for Chen Mobai and Qing Nu.

And when the train departed, Lin Daoming's brow suddenly furrowed.

He took out a Jade Cloud Dragon statue and asked it curiously.

"What's wrong?"

"That damn brat, so cautious. If you don't drink the toast, you end up drinking a penalty. Forcing me to act personally!"

The voice of Yan Xinji emerged electronically from the Jade Cloud Dragon.

Then, under the bewildered gaze of Lin Daoming, the Jade Cloud Dragon gleamed with a pure, rich Spiritual Light and in an instant flew out the window, heading towards Southfield City.

Lin Daoming was rather surprised. Having known Yan Xinji for many years, it was the first time he saw him lose his composure like this.

Having retired for more than half a year, Lin Daoming had sorted out all his affairs on the side of Immortal Gate and tied up all loose ends in his hometown Jinting Mountain. Following the itinerary arranged by Yan Xinji, he was planning to disembark in the city of Dawo after Southfield City.

Chapter 1426: Lin Daoming's Defection (7K)_3

Yan Xinji left a Big Transfer Talisman there, which Lin Daoming could take and leave Immortal Gate directly.

However, Lin Daoming did not anticipate that his journey would become part of Yan Xinji's plan to scheme against Chen Mobai and Qing Nu.

But what Yan Xinji hadn't expected was that even under the imminent threat of Nascent Soul Cultivators, Chen Mobai still did not lose his composure.

Not only did he not follow Yan Xinji's plan to send Qing Nu to him with the Big Transfer Talisman, he even gave up the train and planned to avoid Lin Daoming.

After this exposure, Yan Xinji knew that such good opportunities would probably not come by again in the future.

After all, once Lin Daoming left Immortal Gate, he wouldn't be able to scare Chen Mobai with this tiger's skin anymore.

And if that were the case, Chen Mobai would be even more fearless, surely believing he had the capability and power to protect Qing Nu, and would never send her into his own hands.

This was Yan Xinji's last chance to take Qing Nu away.

Seeing Chen Mobai not fall for the trick, Yan Xinji could not care about anything else and directly activated the powerful Puppet he had left in Lin Daoming's possession to force his hand.

"I have something to do. You go directly to Dawo City and wait for me. I will surely arrive by the time the train stops."

Yan Xinji's words still lingered in Lin Daoming's ears while the Jade Cloud Dragon soared into the sky, speeding away with a concealed trail.

"Something's not right!"

Lin Daoming, after hearing this, furrowed his brows slightly.

He had managed the Xianwu Hall for nearly five hundred years and had gone through all kinds of overt and covert strife, quickly realizing there was a problem from Yan Xinji's lack of composure.

After pondering for a while, his figure flashed with a silver glow and he too disappeared within the cabin.

...

In Southfield City, after Chen Mobai and Qing Nu got off the train and were about to find a hotel to stay at, the wind suddenly picked up, and clouds started forming in the sky, from which a gigantic claw emerged and reached for Qing Nu.

Chen Mobai's eyes shone brightly, and his expression changed dramatically, but his natural combat instincts allowed him to bring out his strongest abilities in a flash.

Amidst the opening of the void, the Purple Electric Sword thundered like lightning, bursting forth with dazzling purple brilliance to collide with the descending dragon claw.

"Yan Xinji, how bold of you to take action in Immortal Gate territory!"

Before Chen Mobai could speak, an exasperated voice had already risen from afar, followed by a surge of golden yellow True Qi shining up in the distant sky. It blocked the Jade Dragon's claw while also enveloping the Purple Lightning Sword.

This heavy True Qi caused Chen Mobai to feel an overwhelming strength he couldn't contend with for the first time!

The Fourth Grade Superior Purple Electric Sword, engulfed in the golden yellow True Qi, was like it had sunk into a quagmire, struggling violently but unable to break free.

"Lin Daoming!"

Instantly, Chen Mobai's mind recognized who was taking action. Only this former Head of Immortal Affairs, a Great Cultivator at Nascent Soul Complete, could suppress him in an instant.

However, doubts quickly came to him.

Wasn't Lin Daoming the greatest enemy?

Why would he take action to help him?

But soon, Chen Mobai realized he must have been deceived by Yan Xinji.

Fortunately, he was cautious; otherwise, if he had really sent Qing Nu to Yan Xinji, he might have regretted it for a lifetime like Kong Feichen did.

At that moment, Chen Mobai understood that Yan Xinji must have been the one behind Kong Feichen being lured away from Immortal Gate with Yang Jing. Such despicable tactics were exactly the same.

[Thank goodness I'm not as brainless as Kong Feichen!]

As Chen Mobai thought this, he saw the people of Southfield City with their phones, capturing the fantastical scene in the sky.

A Jade White Dragon, half-concealed in the clouds, barely visible, and a majestic figure enveloped in golden radiance.

"I am a Cultivator from the Department of Law Enforcement, the one in the sky is a wanted criminal by Immortal Gate. Everyone find somewhere to hide!"

Seeing their fearless actions, Chen Mobai immediately spoke out, telling them the seriousness of the situation.

His words caused many to change color and quickly disperse.

But there were also some young people who, showing looks of amazement, got even more excited.

Chen Mobai couldn't care about them anymore and took out his phone to launch a highest-level distress signal from the Sky-Mending Group.

"This girl has your Fetal Transformation Essence from the past. If you want to undergo the Divinity Transformation, you must take her away!"

It was at this moment that Yan Xinji also explained to Lin Daoming the origins of Qing Nu. Originally determined not to let Yan Xinji start trouble within Immortal Gate territory, Lin Daoming's face changed abruptly at the mention of Fetal Transformation Essence!

"Weren't you the one who said the experimentation failed, and that no Immortal Sprout could withstand the Fetal Transformation Essence!?"

"I hid some truth; she is the only successful one!"

Yan Xinji was somewhat anxious as well. Taking action within Immortal Gate's territory, particularly against Chen Mobai, who is almost the core candidate for Qualification of Deification, if he didn't resolve this within minutes, it would likely lead to complications.

So seeing Lin Daoming unwilling to step aside, he had no choice but to reveal the true situation.

"How much have you actually kept from me, you bastard!"

Lin Daoming's face was filled with anger, but at this moment, Yan Xinji pointed towards the direction of the Five Peaks Immortal Mountains!

If the Huashen Ancestor became aware of this situation, he would be able to perform Great Void Transference and directly come here.

Chapter 1427: Lin Daoming's Defection (7K)_4

Lin Daoming knew very well that Chen Mobai's identity was significant enough to potentially prompt Ancestor Baiguang to take action himself.

"How do we make our escape after seizing the Immortal Sprout?"

Lin Daoming raised the most crucial question, to which Yan Xinji responded by spitting out a talisman. Lin Daoming caught it and saw that it was precisely the Big Transfer Talisman he was supposed to retrieve from Dawo City.

In that instant, the trust between them completely shattered.

But Lin Daoming also knew that it was already too late to turn back.

After being expelled from the Heaven-Repairing Lineage by Leading Star Ancestor atop Gathering-Immortals Peak, if he wanted to achieve Divinity Transformation, the only way was to leave the Immortal Gate.

And the Fetal Transformation Essence was precisely the foundation he had risked to posture himself for his Divinity Transformation.

If not for that, why would he, the dignified Head of Immortal Affairs, instruct Yan Xinji to conduct such an experiment?

"Act quickly, and then we leave immediately!"

Lin Daoming released the Earth True Qi that had been blocking Yan Xinji but still didn't relinquish control over the Purple Electric Sword.

Chen Mobai saw in the sky above that Yan Xinji's dragon claw suddenly broke through the golden murky True Qi, and his heart sank, knowing he was brought to the most perilous juncture of life and death.

“Qing Women, do you trust me?”

He suddenly asked Qing Women behind him.

“In the Immortal Gate, I only trust you!”

Qing Women’s resolute reply brought a satisfied smile to Chen Mobai’s mouth.

“Don’t resist whatever I do next!”

After saying this, Chen Mobai took out the Qing Shuang Sword and, after coming to an agreement on a price, he borrowed the power of the Fourth Grade Superior Sword Artifact to confront Yan Xinji’s Jade Cloud Dragon Puppet.

This puppet was clearly only at the Third Rank Peak, so he had the strength to fight it.

But after just one clash with it, an anxious Lin Daoming could not wait any longer and directly joined the fray!

The golden murky True Qi descended, binding the Qing Shuang Sword once again!

The formidable power of a Nascent Soul Complete cultivator directly suppressed two of the most powerful Fourth Rank swords!

“Hand over Qing Women to me, and I will ensure he doesn’t attack you!”

Lin Daoming’s words echoed in Chen Mobai’s ears, and it seemed Yan Xinji had heard them too; he said nothing in opposition and even nodded.

“My target is just Qing Women. I’ll give you three seconds to think it over. If you wish to die, I’ve no choice but to get tough. The Double Saints of the Immortal Gate can’t intimidate us from the Antiquity Daoist System.”

As Yan Xinji spoke, the Jade Cloud Dragon Puppet once again extended a claw, reaching out to grab Qing Women behind Chen Mobai.

“Ah, both seniors, please stop. I hope to personally escort Qing Women for part of the way!”

Following Lin Daoming’s entrance, Chen Mobai seemed to have truly despaired, letting the Purple Electric Sword and Qing Shuang Sword give up resistance with a bitter smile.

He then stretched his hand out to take out the Big Transfer Talisman he had long since secured!

Seeing this, Yan Xinji paused.

His refined Big Transfer Talisman could only be used by one person. Originally, he planned to use the Big Transfer Talisman within the Jade Cloud Dragon Puppet to take Qing Women and leave Lin Daoming to face the wrath from the Immortal Gate’s side.

But if Chen Mobai was willing to use another Big Transfer Talisman to send Qing Women away, then he could also take Lin Daoming, thereby strengthening the Ascension Sect’s might while weakening the Immortal Gate, staying true to his word as well.

“You have five seconds to say your goodbyes!”

Yan Xinji spoke coldly, with Lin Daoming also releasing the golden murky True Qi, allowing the Purple Green Double Swords to fly back to Chen Mobai’s side.

As a Nascent Soul Complete cultivator, Lin Daoming was confident he could control the situation.

“Qing Women, for the next half of our lives, I will spend it with you!”

Chen Mobai spoke to Qing Women and then lifted the Big Transfer Talisman in his hand.

As the dense Power of Void erupted, Chen Mobai reached out and grasped the hand of Qing Women.

“Kid, are you also looking to join our Ascension Sect?”

Seeing this scene, Yan Xinji thought that Chen Mobai and Qing Nu had such a deep affection for each other that he couldn't bear to see her leave the Immortal Gate alone. However, when he refined his Big Transfer Talisman, due to the lack of materials, it could only teleport one person.

“Give the talisman to her, you kid do not meet the requirements for our Ascension Sect to recruit new members!”

Yan Xinji's words made Lin Daoming glance sideways.

Not even someone with Qualification of Deification meets the requirements?

Since when did the Ascension Sect have such high standards!

After hearing this, Chen Mobai didn't say much and handed the Big Transfer Talisman in his hand to Qing Nu.

At this moment, the silver-white light had already become so dazzlingly bright that it enveloped both Chen Mobai and Qing Nu.

Subsequently, the two disappeared from their original spot!

Seeing this, Yan Xinji was thoroughly confused!

How could this be?

Could it be that the talisman was overachieved when it was refined?

It actually managed to teleport two people away directly!

“Not good, Heavenly Star is casting light this way, someone is coming!”

And just at this moment, Lin Daoming’s expression drastically changed, as he looked up beyond the sky, where in the daylight sky, a dazzling star suddenly twinkled.

He who was familiar with all things in the Immortal Gate naturally knew what this signified!

It meant someone was locating their position, and once the location was locked, they could use the Great Void Transference Technique to instantly teleport here.

Within the Immortal Gate, aside from the Dual Sages of the Immortal Gate, there was only the Kaiyuan Hall Master, Qi Yuheng, who could perform the Great Void Transference.

Whoever was coming, they couldn’t handle it.

“Let’s go quickly!”

Hearing this, Yan Xinji dared not dawdle any longer, immediately activating the Big Transfer Talisman he held, and once again transformed into a jade statue, flying into Lin Daoming’s hands along with the talisman.

Amidst the flickering silver light, Lin Daoming instantly vanished into the skies above Southfield City!

And just seven minutes later, the void suddenly distorted, and a tall-nosed, cold-eyed, rugged-faced young man stepped out.

His skin was smooth as jade, and he wore a pair of exquisite Jade Pendants on his ears. With a light wave of his long fingers, the door of void behind him immediately closed, and he slowly descended to the spot where Chen Mobai and Qing Nu had vanished.

His eyes sparkled with a faint light, as if possessing a strange power that penetrated illusions and the past.

A moment later, he took flight again, arriving at the place in mid-air where Lin Daoming had left using the Big Transfer Talisman.

“Unexpectedly, in the end, you still fell into the ways of the Side Sect, it’s a huge disappointment to me!”

The youth was the Kaiyuan Hall Master, Qi Yuheng, known as the first Nascent Soul of the Immortal Gate.

He seemed to have used some technique, and had actually witnessed the scene that occurred here a quarter of an hour ago.

The departure of Chen Mobai and Qing Nu did not concern him.

However, Lin Daoming’s defection was truly disappointing to Qi Yuheng, who had co-existed with him for hundreds of years.

And at this moment, the City Lord of Southfield City arrived at the incident site, leading the public officials of various departments of the Immortal Gate.

Seeing Qi Yuheng, all their expressions changed dramatically, and they hastened to get out of their carriages to greet him.

“Look for Commissioner Chen from the Kaiyuan Hall, he was attacked by the cultists of the Ascension Sect; he might have used a Big Transfer Talisman, or possibly the Void Walking Technique to escape. We need to see him alive or find his body if he’s dead!”

After Qi Yuheng spoke these words, the law enforcement bureau on Southfield City’s side immediately began to take urgent action.

Chen Mobai was still the deputy head of the Department of Law Enforcement, their immediate superior!

Chapter 1428: I Stand Irreconcilably Opposed to the Ascension Sect At the moment Lin Daoming made his move, Qing Nu was confused, but deep down, she was in despair.

Because this was a top Nascent Soul Cultivator from the Immortal Sect, they had absolutely no means of resistance.

But the image of Chen Mobai standing in front of her, not retreating a single step, prompted a last flicker of comfort to surge within her despair.

At that time, she had already made up her mind to die together with him!

And when the silver light enveloped them both, Qing Nu held tightly onto Chen Mobai’s outstretched hand, refusing to let go.

This was her only tie within the Immortal Sect, as well as the mental support that had sustained her for decades.

Fortunately, when the silver light faded, the sensation of their clasped hands did not disappear.

“We’ve arrived!”

Chen Mobai’s gentle voice entered her ears.

Qing Nu slowly opened her eyes, yet her hands remained tightly clasped.

Then, a towering Divine Tree that shaded the sky and pierced the clouds came into her view.

As a student of the Jumang Academy, she was certain that this was a Fourth Order Spirit Plant she had never seen before.

And around this Divine Tree, there were countless Spirit Plants, all Rank-1, lush and thriving.

“Where is this? Yu Wood City?”

Qing Nu thought that only in a place like Yu Wood City could Chen Mobai set a coordinate for a technique similar to Void Teleportation.

“This is a Minor Realm that I’ve named Divine Wood Realm. However, the power that possesses this realm calls it the Divine Tree Secret Realm!”

Chen Mobai tried to explain using terms from the Immortal Sect.

The term “Minor Realm” was something Qing Nu had told him before when he needed Enlightenment Tea from the serene Minor Realm of the Jumang Academy.

“Isn’t there a Minor Realm called Divine Wood or Divine Tree within the Immortal Sect?”

Qing Nu looked around with some puzzlement at the flourishing Red-sun Spirit Trees and the Talent Tree not far away, wondering if there was a hidden realm within the Immortal Sect that she was unaware of, accessible and known only to core Immortal Sect disciples like Chen Mobai?

“Indeed, there isn’t one in the Immortal Sect because we’re no longer in the Immortal Sect now.”

Chen Mobai's casual remark made Qing Nu fail to realize the gravity of the situation. With a slight frown, she thought of a possibility.

"Could this be a Minor Realm inherited from the Antiquity Daoist System?"

On the Di Yuan Star, apart from the Minor Realms left by the Huashen Ancestors of the Immortal Sect, there were others from Antiquity Daoist System, such as the renowned Purple Cloud Palace.

"It's not. We are no longer on Di Yuan Star. This is a Different World!"

Chen Mobai's words finally made Qing Nu snap to realization, her eyes widening in disbelief as she looked at the handsome young man before her.

"A Different World!?"

Every Immortal Sect Disciple, from a young age, is taught about founding wars and world founding. As a disciple of the Sky-Mending Group, Qing Nu naturally heard about the disturbances in the Portal and that it could make contact with a new different world in about fifty years.

"Indeed, this is a Different World with respect to the Immortal Sect."

Chen Mobai's statement left Qing Nu momentarily stunned, considering the unfamiliar Spirit Plants around her, she came across another possibility.

"Did The Three Great Halls use the Portal to send powerful Golden Core Masters like you ahead of time to gather intelligence on the different world? Will you be punished by The Three Great Halls for bringing me here?"

Chen Mobai shook his head and smiled, walking with Qing Nu to the Talent Tree.

"There's a secret I've never told you—I am a Void Spirit Body!"

Qing Nu was shocked to hear this, but her expression quickly turned into one of realization.

If it wasn't for the Void Spirit Body, how could Chen Mobai easily found a Golden Core Domain during his Foundation Establishment.

Only with a Void Spirit Body could cultivating Void Walking at the Golden Core Realm become reasonable for Chen Mobai.

"My Void Spirit Body is very powerful, but it wasn't until I turned eighteen that it fully awakened. And after awakening, I could freely traverse between the Immortal Sect and this Different World."

"These years, I have joined a Sect in this Different World, using its resources to improve my cultivation level, while also observing everything about this world."

"I couldn't stand by when Yan Xinji and Lin Daoming attacked you, so I brought you to this Different World without your consent, for which I am very sorry!"

Chen Mobai's words rendered Qing Nu completely speechless.

Although she knew that Chen Mobai's rapid cultivation progress must have had its secret, she had never imagined it to be like this.

A Void Spirit Body capable of freely navigating between Di Yuan Star and a Different World was an unprecedentedly powerful body within the Immortal Sect.

Perhaps even more potent than a Pure Yang Body!

Indeed, he was the most talented individual in the history of the Immortal Sect!

"Can we, still go back?"

Finally regaining composure from her overwhelming shock, Qing Nu voiced her most pressing concern.

“I’m afraid we can’t go back now. According to Yan Xinji, you are harboring Fetal Transformation Essence, which even the Huashen Ancestors covet...”

Chen Mobai shook his head and began revealing all the truths he knew about the Immortal Sprout cultivation plan.

When Qing Nu found out that she was cultivated from the genes of Yan Xinji’s deceased daughter and was also a furnace for the filtration and transformation of Fetal Transformation Essence, her hands couldn’t help but clench into fists.

Chapter 1429: I Stand Irreconcilably Opposed to the Ascension Sect _2

“Little Dust and Little Scenery, aren’t they also furnaces!”

Yan Xinji said to Chen Mobai, while Qing Nu, Kong Feichen, Yang Jing had merged with the Fetal Transformation Essence, the former’s words, now for Chen Mobai, carried no trustworthiness at all.

But one thing was certain, no matter what!

That was within Qing Nu’s body, there must certainly be Fetal Transformation Essence; otherwise, Yan Xinji wouldn’t have gone through so much trouble.

Even in the end, Lin Daoming couldn’t resist the temptation, and chose to betray the Immortal Gate, attacking Chen Mobai and Qing Nu.

“Since the two of them are still alive up to now, then they should not have the Fetal Transformation Essence. For now, you can set your mind at rest.”

Chen Mobai comforted her in this way, yet he felt that back in Red Sandstone City, why the Ascension Sect had gone through great efforts to take Kong Feichen and Yang Jing away—even Yan Xinji exposed himself to take action personally, is probably because these two have Fetal Transformation Essence in their bodies.

But of course, facing Qing Nu, he definitely couldn't say so.

He only hoped that Kong Feichen and Yang Jing could last until the day he achieved Nascent Soul Formation and took charge of the Three Great Halls of the Immortal Gate.

Only then would Chen Mobai have a chance to save them.

"Are we going to live in this different world from now on?"

For Qing Nu, as long as she was with Chen Mobai, she could live anywhere. Although they can't return to the Immortal Gate now, it's actually even better for her.

Because she finally saw the real him and learned of the stunning Void Spirit Body hidden beneath his Qualification of Deification!

And it was at this moment that she felt the barrier between the two of them had vanished.

Here, they could finally be openly together!

"Mhm, as I've said, the latter half of your life will be spent with me."

Chen Mobai nodded gently, and hearing these words, Qing Nu couldn't contain herself any longer and threw herself into his arms.

Feeling the soft and boneless body pressed tightly against him, Chen Mobai's body trembled slightly, his hands somewhat unsure of what to do, but in the end, he lifted his right hand and gently embraced Qing Nu.

After Qing Nu's emotions stabilized, Chen Mobai began to tell her everything about the Divine Tree Secret Realm.

“At the Immortal Gate, I still have parents, friends, teachers and juniors, etc., so I will have to go back later to check in, and explain your disappearance.”

“Don’t worry, as long as I have handled the matters at the Immortal Gate, I will immediately come back to be with you.”

“This Divine Tree Secret Realm is a legacy site left by an ancient great teaching, housing three Divine Trees. There’s an issue with the Great Dao Tree, so I won’t take you there—here with the Talent Tree, as well as the other Magic Treasure Tree which you haven’t visited, it’s a good opportunity to try and see what treasures can be opened.”

With these words, Chen Mobai patted Qing Nu’s smooth back within his embrace and pointed to the Talent Tree right before their eyes.

Last time, his Earth Spirit Root broke through to 80 points, so he came here to claim a Grand Spell of the Longevity Sect.

That’s why, when he used the Turtle Treasure to teleport with Qing Nu, they arrived here.

After hearing Chen Mobai’s explanation, Qing Nu was filled with curiosity about the Talent Tree.

“With your Heavenly Water Spirit Root, you’ll certainly be able to enter the inheritance space of the Longevity Sect, where there are Five Great Immortal Sutras and Twenty-Four Great Dao Techniques. You just need to take a blue or black figurative Technique, as I’ve already acquired the rest over the years.”

During the conversation, Chen Mobai took out a Jade Slip from his Storage Bag, on which the Water Immortal Scripture – “Black Emperor Abyssal Scripture” – was engraved!

Qing Nu received it and swept it with her Divine Sense, her expression shocked once again.

It was a Cultivation Technique that could be practiced up to the Spirit Transformation Stage.

Although the Divine Transformation Technique of the Immortal Gate could be downloaded with points, this Black Emperor Abyssal Scripture was not available within the Immortal Gate. It was a pure Water Attribute Divine Transformation Technique.

If she grew up practicing in the Immortal Gate, then relying on her Heavenly Water Spirit Root, even if she could practice up to the Nascent Soul Realm, she would then need to switch to practicing the Liu Yu Scripture or the Jade Purity Scripture if she wished to undergo Divinity Transformation.

Moreover, whether it be the Liu Yu Scripture or Jade Purity Scripture, none could perfectly match with her. She could only extract their essences and see if she could pave her own Path of God Transformation.

But with this Black Emperor Abyssal Scripture, everything was different!

Her Heavenly Water Spirit Root was a perfect fit for this Water Immortal Scripture from the Longevity Sect. She could rely on it and cultivate straight to the Spirit Transformation Stage.

“Thank you!”

After Qing Nu finished reading, she didn't stand on ceremony with Chen Mobai and happily accepted this Black Emperor Abyssal Scripture.

With this, she has the hope to keep up with Chen Mobai's cultivation progress for the next thousands of years.

She was already looking forward to spending an eternity in this different world with Chen Mobai—till the sky grows old and the seas run dry.

“Later on, when you see the pictorial representations of these inheritances, you just need to grasp onto them...”

At this moment, Chen Mobai began instructing her on how to acquire Grand Spells from the Talent Tree.

With him, a seasoned guide, pointing the way, Qing Nu naturally encountered no problems.

Even so, when she came out of the inheritance space, her face was full of astonishment, for her it was a novel experience.

“I obtained a Technique called ‘Water Droplet Sword’!”

Qing Nu shared the Grand Spell inheritance she received.

This Technique was an attacking art based on the “Abyss True Water” condensed from the practice of the Black Emperor Abyssal Scripture.

It involved condensing the vast and immeasurable Abyss True Water into a single droplet, falling like a sword, capable of penetrating the most solid and powerful defenses and Restrictions.

Chapter 1430: I Stand Irreconcilably Opposed to the Ascension Sect _3

The most powerful aspect is that the might of this technique is unlimited!

As long as the refined Abyss True Water is sufficient, one can endlessly enhance the power of the Water Droplet Sword!

“Good, the customs here in the Tianhe Realm are fierce; you need such grand offensive spells to improve your ability in magic duels.”

After hearing this, Chen Mobai couldn’t help but nod, acknowledging that Qing Nu was very fortunate.

He had been looting in the Talent Tree for so long and obtained four water attribute grand spells: Water Escape, Azure Water Sky Net, As You Wish Water Mist, and Water Mirror Reflection.

Among them, Water Escape is an escape skill, which allows passage and teleportation anywhere in the world where there is water once mastered.

And the other three grand spells, like the Water Droplet Sword, require Abyss True Water as the source to cast.

“Azure Water Sky Net” is a defensive technique, able to change form with a thought, dubbed the most gentle defense of the Longevity Sect.

“As You Wish Water Mist” is a misty technique, where any Divine Sense that falls into it cannot find itself; even Art of Spiritual Eyes, if one’s cultivation level is not sufficient, would become dizzy and disoriented, with a small area covering the whole body, up to millions of ell covering a whole continent.

It is said that the territories where the Longevity Sect used to be would be covered by As You Wish Water Mist, preventing outsiders from spying on the true body of the Heavenly Sovereign!

And “Water Mirror Reflection” is an amazing technique that allows one to observe distant places!

At its peak, the Abyss True Water shines like a full moon, reflecting all things in the world from thousands of miles away, using the ubiquitous water vapor in the void, vividly portraying every detail!

Chen Mobai originally thought he’d keep these grand spells to himself for a lifetime; now that he could let Qing Nu cultivate them, he felt like he had made a profit.

“Then I need to find a way to form my Gold Core as soon as possible. It’s just a pity that since I’ve left the Immortal Gate, I can’t obtain the Golden Liquid Jade Pill or the Water Primordial Golden Core Pill anymore!”

As Qing Nu spoke, she felt the happy worries of fortunate troubles.

To refine the complete Abyss True Water, only those in the Golden Core Realm can do it; with her current state of Foundation Establishment Completion, at most, she can refine Spiritual Energy containing some characteristics of the Abyss True Water.

“Don’t worry about this matter. My Five Elements Sect has already united the Eastern Wilderness and can collect the ingredients to refine Golden Liquid Jade Pills.”

Bringing Qing Nu to the Tianhe Realm also relieved Chen Mobai from worrying about the Alchemist problem in the future.

Her Alchemy was systematically studied at the Immortal Gate, a true talent who fully received the true transmission.

Just waiting for her Core Formation, she would probably be able to easily refine Rank-4 Elixirs.

In this way, in the future, if materials for Infant Binding Three Spirits Medicine could be collected, she could also make an attempt.

“I suppose there are no alchemy facilities like those in Immortal Gate here. When you go back, you can try to purchase some old ones and send them here. When it comes to Alchemy, you can leave it to me. Once I have transformed the Cultivation Techniques, I’ll leverage my Heavenly Spiritual Root foundation to form my Gold Core first, and then I will use Elixirs to supplement the Nascent Soul Formation.”

Speaking of Alchemy, confidence appeared on Qing Nu’s face.

In the past, it was precisely because of her excellent Alchemy skills that she caught Chen Mobai’s eye.

And to demonstrate her value, she had already decided that once she completed practicing the Black Emperor Abyssal Scripture, she would begin Core Formation.

“There’s no rush for that; focus on converting the Cultivation Techniques first. I have also collected some Water Attribute Gold Core Spiritual Material over the years. When you form your Gold Core, I guarantee it won’t be inferior to the Golden Liquid Jade Pills!”

Chen Mobai would certainly not allow Qing Nu to use her own Heavenly Spiritual Root foundation when forming her Gold Core; he still had a Water Spirit Fruit and Ice Marrow Pure Jade and Water Mist Ice

Crystals obtained from Kong Lingling. Although the latter two were mainly most useful for Ice Spirit Root Cultivators, they also had half the effect for those practicing Water Attribute Cultivation Techniques.

However, according to his thinking, with Qing Nu's talent and profound foundation, she probably only needs to consume one Water Spirit Fruit.

But as that had already been promised to Luo Yixuan before, and although the latter is most likely able to successfully form her Gold Core without it, it's better to wait until after Luo Yixuan forms her Gold Core just to be cautious.

"Okay, I'll listen to you!"

Qing Nu now had absolute trust in Chen Mobai, nodding obediently to every word he said.

Chen Mobai then took her to the Magic Treasure Tree.

Her talent was judged to be at the Saintess level of the Longevity Sect.

So this time, she was very lucky and a pool of Abyss True Water came out of a blue-black fruit!

For Qing Nu, this was incredibly timely.

All she needed was to refine this water, and she could use those water attribute grand spells even in the Foundation Building Realm.

Watching Qing Nu somewhat flustered, Chen Mobai took out a set of Spirit Sealing Tubes from his own Domain to help her collect that pool of Abyss True Water.

"This is a storage bag I've used before; take it and use it for now."

After explaining the function of the storage bag, Qing Nu was amazed.

She hadn't expected this Different World to be so resource-rich!

"Basically, all the Spiritual Energy from the ley lines of the Divine Tree Secret Realm is suppressed by the three Divine Trees, and I have a wooden house near a Golden Sun Spirit Tree; go there for secluded Cultivation. In the storage bag, I've put a thousand intermediate-grade Spirit Stones; don't be frugal with your daily cultivation, increase your Cultivation Speed and fully transform your Cultivation Techniques into the Black Emperor Abyssal Scripture."

Chen Mobai's words caused Qing Nu, who took over the storage bag, to tremble slightly in her hands.

A thousand intermediate-grade Spirit Stones?

This was... too extravagant!

Even though Chen Mobai had told her that Spirit Stones were not valuable in the Tianhe Realm, the thrifty habits formed from a young age at the Immortal Gate still made it somewhat difficult for her to use them.
