### Chapter 1471: Distribution of Core Formation Spiritual Medicine\_2

“So that’s how it is, congratulations, Senior Sister!”

After hearing this, Chen Mobai couldn’t help but realize, such a significant matter in life indeed required one to come in person to be reassured.

The driver, Hua Zijing, heard this too and showed a face full of envy.

What Foundation Establishment Practitioners in the Immortal Sect most wanted to hear was the news that their queue was successful and they received the notification for exchange.

“75 years of service before I got this opportunity; I hope to succeed in one try!”

After Hong Mengkui spoke, Bian Jingchun no longer kept it a secret. She was a bit scared of failing her Gold Core Formation, hence she did not dare to tell Chen Mobai, the dazzling junior brother, about this matter.

This is what many Foundation Establishment Practitioners in the Immortal Sect are like; even if they exchange for the Gold Core Spiritual Material, they keep it a secret. Apart from avoiding envy from others, they also do not want to invite ridicule from others in case of failure.

Next, they also started talking about other Foundation Establishment Practitioners from the Dance Tool Dao Academy who had exchanged for the Golden Liquid Jade Pill.

The Golden Liquid Jade Pill is refined by the Immortal Sect once every ten years, with ten pills forming each batch.

The Five Elements Golden Core Pill is refined based on circumstances within the ten-year gap of the Golden Liquid Jade Pill. Officially, it depends on the number of Foundation Establishment Practitioners queuing up and their Five Elements Cultivation Method to determine which attribute to refine, but in reality, it is decided after consultation among those higher-ups.

These elixirs could be issued all at once upon completion or saved for some special individuals until they reach the required years of service before being made available. But they will definitely all be exchanged before the next batch is refined.

With a ten-year cycle, the Four Great Daoist Sects can each get an opportunity for the Golden Liquid Jade Pill or the Five Elements Golden Core Pill. For example, if the Dance Tool Dao Academy chooses the Golden Liquid Jade Pill this year, then the next cycle they can only select the Five Elements Golden Core Pill.

The remaining sixteen pills are then divided among the various departments of The Three Great Halls!

However, most of the directors of the various departments of The Three Great Halls primarily come from the Four Great Daoist Sects, so practically the dividing of spoils is still a power struggle among the four lineages' influences.

The Weapon Dancing Sect and Jumang are weaker, so they get two fewer pills; Kungpeng and Patching Heaven are stronger, so they get two more pills.

This one Golden Liquid Jade Pill for Bian Jingchun was a guaranteed slot from the Dance Tool Dao Academy, which counts toward Hong Mengkui's influence.

Even so, it came after sixty years of service, followed by another fifteen years of waiting.

Because in front of her, there were quite a few practitioners of complete Foundation Establishment from the Dance Tool Dao Academy with greater influence than her.

For example Sun Daoji and Chi Shicheng, who had come to support her, both serve in the Wangwu Cave Heaven and are considered Wang Shuye's men. With his assistance, their place in the queue is undoubtedly ahead of Bian Jingchun.

Unfortunately, Sun Daoji failed his Gold Core Formation, but because he exchanged early, there might still be a chance for him. However, it likely won't be the Golden Liquid Jade Pill, but instead the lower-rated Five Elements Golden Core Pill.

As for Chi Shicheng, he was lucky and succeeded in his Gold Core Formation.

He's a researcher and isn't well-suited for governmental positions so he's only nominally associated with Kaiyuan Hall, but the Weapon Dancing Sect still managed to secure the latest academic title for him in the prestigious Immortal Science Academy.

In the future, if Hua Zijing or Zhuang Jialan wish to exchange for the Golden Liquid Jade Pill, Chen Mobai can allocate one slot using the Sky-Mending Group and then use the guaranteed share from the Weapon Dancing Sect.

Now he is the principal agent of the Weapon Dancing Sect in The Three Great Halls; while he's taking on responsibilities, this is also one of his rightful powers.

But the slots for Nascent Soul Spiritual Material for the next ten years have actually already been set.

Because the Weapon Dancing Sect must also divide its own spoils internally.

For example, this one pill for Bian Jingchun was secured by Hong Mengkui with his influence, which actually put her in the queue after her sixty years of service.

This year's pill was given to her, and the Five Elements Golden Core Pill for the next ten years was given to a former chief named Wei Yunling.

As for the batch of Golden Liquid Jade Pills ten years later, the Weapon Dancing Sect originally had no slots, but after some exchange of interests, they secured one for Zhongli Tianyu.

Chen Mobai calculated; ten years later Zhongli Tianyu would only be at 58 years of service, lacking two years.

But at that time, the finance department of the Immortal Sect would store that Golden Liquid Jade Pill for two years, waiting until Zhongli Tianyu reaches his sixty years of service before it's available for him to exchange.

After all, besides their Weapon Dancing Sect, Zhongli Tianyu also has the backing of the Zhongli Family.

Apart from the Immortal Sect, forces like the Four Great Daoist Sects have the qualifications and ability to refine the Five Elements Golden Core Pill, which might be internally consumed or potentially become part of an exchange of interests, benefiting their various factories and units.

In other words, theoretically, the number of Golden Elixir Spiritual Medicines the Immortal Sect can exchange each year is only two or three.

Because of this, the competition for Golden Elixir medicines is extremely fierce.

“Here’s to wishing Senior Sister a successful pill formation and to help me share the burden of our lineage in Wangwu Cave Heaven at that time.”

Chen Mobai said with a smile to Bian Jingchun, who nodded her head with a lack of confidence.

For an Immortal Sect Disciple, Gold Core Formation is truly a step between heaven and hell.

Even for someone with direct lineage from the Daoist Academy like Bian Jingchun, if she fails this Gold Core Formation, it will be hard for her to have another chance to enter the core circle.

That’s why Chen Mobai’s Enlightenment Path Gold Core is seen by everyone in the Weapon Dancing Sect as the future!

With such talent, he is almost certainly assured Nascent Soul Formation!

Only the quantity of Nascent Soul Cultivators determines the core of each allocation of Golden Elixir medicines.

Chen Mobai asked Hua Zijing to first drive Hong Mengkui to the Artifact Refiner Association, then take Bian Jingchun to Xianwu Hall, and finally, drop him off at the Hall of Orthodox Law.

## Chapter 1472: Distribution of Core Formation Spiritual Medicine\_3

Narcissus, the venerable senior, was still away. After Chen Mobai and the tired-looking Gongsun Jielu concluded their holiday leave, a brief exchange followed.

The main topic was the roster for the distribution of the Golden Liquid Jade Return Pills!

This time, the Hall of Orthodox Law received two Golden Liquid Jade Return Pills!

Both the Military Department and the Department of Law Enforcement were allocated one each.

Among them, the one for the Department of Law Enforcement could be applied for by the Sky-Mending Group, but if the application was successful, then for the following decade the Department of Law Enforcement would have the priority to choose first.

Chen Mobai expressed that he needed to think it over and did not immediately respond to Gongsun Jielu.

After returning to the Sky-Mending Group, Chen Mobai found that Lin Yin had personally brought him a cup of tea.

Ever since Zhuang Jialan arrived, serving tea had been her task!

Upon receiving the tea, Chen Mobai understood the reason why.

It seemed Lin Yin had already worked for over sixty years; she must be waiting for this Golden Liquid Jade Return Pill. Otherwise, she wouldn't have remained in the Sky-Mending Group after Lan Haitian had left.

“Chief of the Group, I heard that this year's batch of Golden Liquid Jade Return Pills has been refined...”

Sure enough, just as Chen Mobai had taken a sip, Lin Yin had already started to gently nudge him.

“Oh, they’ve been refined? I’ve just come out of a meditative breakthrough and haven’t had the time to learn about these matters. Let me make a couple of calls to inquire.”

Although Lin Yin had been diligent in her duties throughout the few years of his leadership of the Sky-Mending Group, she had served under different leaders for the several decades prior.

If he were to help Lin Yin apply for it now, then in ten years, the Sky-Mending Group would not have a share of any newly refined Golden Liquid Jade Return Pills.

In that case, if he wanted to secure Golden Liquid Jade Return Pills for Hua Zijing and Zhuang Jialan, he would have to exchange even more benefits from the Weapon Dancing Sect.

That’s why he didn’t give an immediate answer.

“Then, Chief of the Group, please proceed with your work!”

With a somewhat anxious expression, Lin Yin closed the door and left.

Chen Mobai too was somewhat troubled!

If possible, he certainly wanted to help Lin Yin, but even as the head of the Weapon Dancing Sect, he felt the frustration of not having enough Gold Core Spiritual Material to meet everyone’s need.

Yet, if he didn’t help Lin Yin with the exchange, he would feel somewhat guilty.

After pacing back and forth in his office for a while, Chen Mobai finally had an idea. He took out his phone and called Lan Haitian.

Lin Yin had been working for him for several decades, so it would be unreasonable for him, as the new leader, to face such a conundrum!

Lan Haitian picked up the phone quickly, and after Chen Mobai explained the situation, he pondered for a moment, then nodded with a bit of a wry smile.

He agreed that this year Chen Mobai could use the Sky-Mending Group's share to secure a Golden Liquid Jade Return Pill for Lin Yin. After ten years, he would use his influence at Xianwu Hall to return the pill to the Sky-Mending Group.

Though the agreement was made only verbally, at their level such promises were the most binding.

"Consider this a favor I owe you!"

After speaking, Lan Haitian sincerely thanked Chen Mobai.

After all, if it were him, he definitely wouldn't go out of his way to help a predecessor's confidant apply for a Golden Liquid Jade Return Pill.

"Forget about it. I owe you quite a few favors too, and Lin Yin has been meticulous in her duties. She helped a lot when I first took over the Sky-Mending Group, which made my transition smooth..."

After finishing the conversation with Lan Haitian and putting the phone down, Chen Mobai opened the door of his office and stepped out.

Outside, the employees of the Sky-Mending Group looked up at him from their desks.

"Jialan, help me draft an application document!"

Chen Mobai waved his hand and instructed Zhuang Jialan, who was closest to the office door.

“Yes, Chief of the Group. May I ask what kind of application document?”

Zhuang Jialan nodded in response and asked immediately.

“For the Department of Law Enforcement, regarding our Sky-Mending Group’s share of the Golden Liquid Jade Return Pill for this year!”

As soon as Chen Mobai said this, everyone gasped in surprise, turning their gazes toward Lin Yin, who trembled slightly not far away.

“Understood, Chief of the Group. Whose name should I write as the applicant?”

Even Zhuang Jialan, upon hearing this, couldn’t help but tremble slightly with excitement.

This was the Golden Liquid Jade Return Pill!

The dream of her lifetime!

“Write Lin Yin as the applicant.”

When Chen Mobai finally spoke the decision aloud, Lin Yin let out a long sigh of relief and looked gratefully at the handsome young man standing by the door.

“Thank you, Chief of the Group!”

Lin Yin rose to her feet to express her gratitude to Chen Mobai.

“This is the well-deserved result of your many years of hard work. Once Jialan finishes the draft, take a look. If there are no issues, sign it, and then bring it to me to stamp!”

Chen Mobai spoke with a gentle smile, then softly closed his office door.

After just three minutes, there was a knock at the door.

Lin Yin, holding the application document in her hands, walked in and handed it over to Chen Mobai!

Chen Mobai carefully reviewed it, then signed his name where the leader's signature was required, and stamped it with the seal representing the chief of the group.

Before long, Hua Zijing walked in, and Chen Mobai handed over the sealed application document to her.

"Zijing, please make a trip and deliver this application to the Department of Law Enforcement."

"Yes, Chief of the Group!"

Hua Zijing, having witnessed the decision on the allocation of the Golden Liquid Jade Return Pill within the Sky-Mending Group made so decisively by Chen Mobai, couldn't help but feel excited.

She sensed a bright future for herself from this decision!

Chapter 1473: Distribution of Core Formation Spiritual Medicine\_4

"Lin Yin, you should come along too. You seem distracted; I think you won't be able to focus on work until this matter is sorted out!"

Chen Mobai noticed Lin Yin standing nearby and couldn't help but tease him with a chuckle. Lin Yin slightly lowered his head in embarrassment but still went out with Hua Zijing!

After dealing with this matter, Chen Mobai received quite a few calls.

All from the Weapon Dancing Sect. By now, almost everyone had heard about the successful refinement of the Golden Liquid Jade Pill and wanted him, the person in charge, to secure a pill for them.

Chen Mobai felt like a principal of a prestigious school at the start of term!

He took two calls, then decided to silence his phone!

The distribution for this round and the next had already been arranged by Wang Shuye before, and Chen Mobai certainly wouldn't want to embarrass him.

Besides Hua Zijing and Zhuang Jialan, Chen Mobai had many other good friends.

He took the initiative to call Ming Yuhua and Yunyang Bing.

"Don't worry about it. I've got my spot locked in by the factory here, brother. I got it through my own talent, not by any connections!"

Ming Yuhua felt moved when he saw Chen Mobai's call concerning his Golden Elixir Spiritual Medicine. He replied in a tone just like when they were in the Daoist Academy.

This, in turn, made Chen Mobai laugh heartily, something he hadn't done for a long while.

The higher the position, the more precious he found such pure friendship to be.

Ming Yuhua's workplace, the First Military Factory, was led by a Golden Core Member from the Repairing Heaven Institute. The factory's status was akin to that of the Sky-Mending Group, specializing in cutting-edge weaponry; every employee had a classified identity.

Of course, for Chen Mobai, none of these confidential matters were off-limits.

The fact that Ming Yuhua could secure a spot for the Golden Liquid Jade Pill there demonstrated his highly acknowledged talent in Artifact Refining.

Truly worthy of being his good friend!

After talking with Ming Yuhua for a while, Chen Mobai then called Yunyang Bing.

“Thanks. My Sky-Net Management Bureau also has a spot for Golden Elixir Spiritual Medicine, although a few people could compete with me for it. With your help, I should be set!”

Yunyang Bing was very grateful after hearing this.

The Sky-Net Management Bureau held an even higher status than the Sky-Mending Group, being one of the most crucial core departments of the Immortal Gate.

Hence, the personnel inside were the most complex, with experts in Formation from the Four Great Daoist Sects, Ten Great Academies, Bai Er Shi Fu, and many more gathered there.

Yunyang Bing, although exceedingly gifted in Formation, found the competition challenging due to the relatively weak influence of the Weapon Dancing Sect in this area.

“Leave it to me, but after your sixty years of service, you might have to wait an extra ten or five years!”

Chen Mobai was always earnest and sincere with his friends.

“Thanks a lot. I’ll treat you to a meal when I return to Wangwu Cave Heaven!”

The Sky-Net Management Bureau was scattered across the Di Yuan Star’s Spirit Vein hubs, and it was rare for someone like Yunyang Bing to return to the Imperial City for a report. Currently situated in Qingcheng Grotto Heaven, he was carrying out his duties and mapping out the landscape’s vein network to further refine his knowledge of Formations!

“It’s a deal then. I’ll definitely pick an expensive place when the time comes!”

Chen Mobai laughed heartily and ended the call.

He then called his brother-in-arms, Wang Xingyu.

“My dear brother, you really are like my own flesh and blood!”

After hearing this, Wang Xingyu was moved to tears, expressing that having Chen Mobai as a friend was the greatest honor of his life.

Because he practiced Fire Attribute Techniques, he did not pursue the Golden Liquid Jade Pill.

According to his own plan, success in Core Formation in one attempt was unlikely, so he prepared for a protracted struggle.

His plan was to exchange for a Fire Elemental Gold Core Pill from the Daoist Academy immediately after accumulating 60 years of service, using this opportunity to explore various experiences of Core Formation.

After the first Core Formation attempt failed, he planned to enter public service and take the civil service examination to join the Immortal Gate, and then wait another 60 years to exchange for a Fire Elemental Gold Core Pill from the Immortal Gate, pinning all hopes on the second attempt.

However, even with his uncle Wang Xin Fu being the second-in-command of the Weapon Dancing Sect at Kaiyuan Hall, this plan would be very difficult to realize!

But with Chen Mobai, it was different!

The combined influence of the two made the plan almost a certainty!

“When it’s time for you to make arrangements, just give me a call!”

After saying this to Wang Xingyu, Chen Mobai glanced at the other Metaphysical Class members but ultimately decided not to make any more calls.

The resources of the Immortal Gate are limited, and what he could do was to take care of just a few people close to him.

Moreover, even so, it had to be done within the confines of the rules.

However, if in the future, the Metaphysical Class members needed just a little help to secure a spot for Golden Elixir Spiritual Medicine and they approached him, Chen Mobai would still be willing to help.

But to make promises now would be a bit too premature!

After making three calls, Chen Mobai thought of Meng Huang and Yan Bingxuan.

Among them, Meng Huang’s artistic troupe was supported by all the Nascent Soul Superiors of the entire Immortal Gate; she probably wouldn’t need his help, right?

Though he thought so, Chen Mobai still made a call to Meng Huang!

“Hello!”

Speaking of which, since he took Qing Nu to the Tianhe Realm, Chen Mobai had not contacted Meng Huang for a long time, and she did not dare to call him proactively.

She only dared to send greeting messages on holidays as a friend, hoping he would remember her.

So when Chen Mobai took the initiative to call her this time, Meng Huang’s voice was trembling slightly.

“It’s been a long time, are you free tonight?”

Since he had made contact, Chen Mobai thought it was better to speak face to face about such matters, so he directly asked her out.

“Yes, yes, I’ll be free these next few days!”

Meng Huang immediately replied. Chen Mobai nodded and then said he would visit her to rest later in the evening.

After making the call, Chen Mobai finally called Yan Bingxuan, the one he cared about the most.

Checking the time, it was almost the end of the workday.

“Let’s have dinner together!”

Chen Mobai straightforwardly invited Yan Bingxuan for dinner, and she naturally agreed.

Since arriving at Wangwu Cave Heaven, Yan Bingxuan mainly established herself in this largest city of the Immortal Gate, and even with Chen Mobai’s backing, it was not an easy task.

Moreover, she wanted to prove her worth to Chen Mobai and be useful to him, only making calls when she really couldn’t resolve issues on her own.

Chen Mobai left his office, informed Zhuang Jialan, and left work early!

He found a restaurant with a beautiful environment and, smiling, presented a gift box to Yan Bingxuan, who was already waiting for him.

“What is this?”

Yan Bingxuan curiously accepted the gift. Chen Mobai asked her to open it, revealing a Water Spirit Pearl she had long possessed!

Chapter 1474: The Union of Differences is Complete

As long as they are female, the words “eternal youth” hold a magical power for them, capable of making them lose their reason.

Yan Bingxuan always paid attention to her appearance and posture in front of Chen Mobai, but when she heard about the Appearance-fixing Pearl, she too lost her composure.

“Is this for me?”

After a long time, she slightly embarrassedly put down the Appearance-fixing Pearl she was holding.

“Who else could I give it to if not you?”

Chen Mobai said with a smile.

After hearing this, Yan Bingxuan’s lips slightly pursed, her eyes gentle, she directly condensed water into a rope, threaded the Appearance-fixing Pearl, and hung it around her snow-white neck.

Chen Mobai watched as the azure Appearance-fixing Pearl slid over Yan Bingxuan’s snow-white skin and dropped into her neckline, his gaze lingering slightly on her subtly covered curves with a hint of regret.

Yan Bingxuan had developed a bad habit of using spells to cover her impressive bust whenever she went out.

This was something Chen Mobai, who had once witnessed that exaggerated curve, deeply regretted.

But he couldn't really comment on it.

"The best effect comes from refining the bead into your body; it can then constantly nourish your skin and bodily flesh to maintain youthfulness, but you need to infuse it with Water Spirit Qi periodically."

Chen Mobai offered guidance on refining the bead to Yan Bingxuan, holding the Refining Treasure Golden Light in hand, he could analyze the most suitable refining method for each Appearance-fixing Pearl.

When he gifted it to Shi Wanyu previously, since she was a Qi Practitioner, refining the Appearance-fixing Pearl was a bit difficult, ultimately he had to teach her hands-on.

In demonstrating the refining process for Shi Wanyu, Chen Mobai also refined an Appearance-fixing Pearl into his own body.

Although he wasn't as obsessed with eternal youth as females, having abundant resources nonetheless.

This way, he will forever remain youthful!

The Spirit Root Attributes of Yan Bingxuan matched well with the Appearance-fixing Pearl, and since she was already a Cultivator at the Ninth Layer of Foundation Establishment, she refined it very quickly with Chen Mobai's guidance.

Soon, Chen Mobai saw a group of azure Spiritual Light illuminate from beneath her soft and delicate white sweater. It looked like pure flowing water, slowly seeping into the skin of her chest until it vanished from view.

Yan Bingxuan opened her eyes, her bright eyes showing a hint of subtle joy.

Seeing her successfully refine the pearl, Chen Mobai asked the waiter to start serving dishes.

Soon, the dishes were served, and Chen Mobai also opened a bottle of wine brewed by Zhuo Ming, which tasted slightly sweet with not much of a kick. Based on her personal tasting experience, he found that frequent consumption could enhance the complexion of female cultivators.

Yan Bingxuan took a gentle sip and couldn't help but be pleasantly surprised, endlessly praising the new wine.

"Thank you for your gift, I really like it!"

After dinner, the two walked along a small street and unknowingly arrived at the junction where they had to part ways. Yan Bingxuan turned her head and thanked Chen Mobai.

Her long hair cascaded over her rounded shoulders, smooth and lustrous. Wearing a simple white sweater added a touch of gentleness and freshness to her.

Her typically aloof face, when in Chen Mobai's company, always showed unprecedented softness and warmth.

Chen Mobai exchanged looks with her, the softness in those eyes almost making him unable to resist canceling his plans with Meng Huang.

"As long as you like it, I should go now, I have to work late tonight!"

Chen Mobai suppressed the strong emotions surging in his heart and bid her farewell gently.

"Okay, goodbye then!"

Yan Bingxuan spoke softly to bid farewell, then turned and walked towards her apartment.

Watching her gracefully retreating figure, Chen Mobai suddenly realized that he had forgotten about the main purpose of their meeting.

He was primarily supposed to discuss with her how to obtain the Gold Core Spiritual Material today.

Well, her resources were already well-prepared anyway.

Chen Mobai thought about the Ice Marrow Pure Jade and Water Mist Ice Crystal in his Storage Bag, deciding to have Hua Zijing go to the Portal Management Bureau again tomorrow to help him buy a Void Blind Box.

Because the effect of the Water Element Golden Core Pill that Yan Bingxuan took was similar to the Golden Liquid Jade Pill, arranging it on the side of the Immortal Gate would be easier, and Yan Qiongzhi would definitely help.

If that doesn't work, he'll wait until Qing Nu completes the refinement of the Five Elements Golden Core Pill recipe and refine a batch of Water Element Golden Core Pills for her.

The next morning.

Chen Mobai took his jacket from Meng Huang and put it on.

"I'm going to work now, don't worry about the Golden Elixir Spiritual Medicine; when you've accumulated enough work experience, I'll use the influence of the Weapon Dancing Sect to help you. If all else fails, I'll use a guaranteed spot to secure one for you."

Last night, Chen Mobai hadn't forgotten about the main matter, because after everything, Meng Huang had also lain on his chest and subtly reminded him.

Since she couldn't compete with Jiang Yuyuan, the Liquid Gold Jade Return Pill of the next ten years had already been internally promised to Jiang Yuyuan by the Literature and Art Group.

What saddened her even more was that she and Jiang Yuyuan came from the same Weapon Lineage, and if Jiang Yuyuan got it, due to the rotation among the Four Great Daoist Academies, she would have to wait another round at least.

If she wanted to exchange it as soon as she hit sixty years of service, she'd have to settle for the slightly inferior Five Elements Golden Core Pill.

Chen Mobai knew of Meng Huang's capabilities; without sufficient resources, forming a Gold Core would essentially be impossible for her.

He always safeguards his close ones!

Knowing this, he reassured Meng Huang.

He would definitely help her acquire the Golden Elixir Spiritual Medicine as quickly as possible, ensuring she would have a second chance even if she failed the first time.

Chapter 1475: The Union of Differences Completed\_2

"Hmm, will you come again tonight?"

Upon hearing this, Meng Huang nodded with a gentle and enchanting look in her eyes as she asked.

"It depends, we'll talk about it tonight!"

Chen Mobai could not make a promise, considering his current position carried many responsibilities and unexpected matters might arise.

"Alright, I'm free these days. But after half a month, I'll need to go on a tour with the performance troupe."

Meng Huang casually donned a thin nightgown, her affection brimming as she saw Chen Mobai out of the bedroom.

"Hmm, take care and don't tire yourself out."

Chen Mobai extricated his right hand, which had been gently trapped between her soft embrace, and after bidding farewell, he vanished directly from the living room through the use of the Underworld Array.

Back in the Sky-Mending Group's office, Chen Mobai sipped the freshly brewed tea Zhuang Jialan had just brought in, his mind still savoring last night's memories.

The tender Yan Bingxuan, the empathetic Meng Huang, both provided him incredible physical and mental comfort and relaxation.

However, Chen Mobai only indulged in the recollection for a moment.

After finishing a cup of tea, he recalled "The Union of Differences" etched in his mind.

This Divine Transformation Technique, which he had seen and memorized back in the Dance Tool Dao Academy's library, was available for free to students, while outsiders would need to spend hundreds of millions of points to download it through official channels.

At the Foundation Establishment stage, he pondered over "The Union of Differences" and couldn't even see the doorway!

Now, having achieved Core Formation, he could finally comprehend a bit of it.

However, if he wanted to understand it thoroughly and start cultivating it, it would probably take at least a decade or two.

Chen Mobai was not one to waste time like this.

He promptly switched the mantra that used to be connected with the Longevity Sword Intent to "The Union of Differences."

Then, he brewed a small cup of the little remaining Enlightenment Tea.

Apart from these two personal efforts, Chen Mobai did not forget to seek advice from Hong Mengkui.

Asking when in doubt is a very good quality to have.

“The Union of Differences” is a technique for artifact cultivation. As long as the co-participating artifact is well chosen, it is the fastest method to break through realms in the Immortal Gate.

It is precisely because the achievement of the Divine Transformation Technique depends on the “artifact” that it can be a specific Magic Artifact, Heaven and Earth Spiritual Roots, a particular Spiritual Land, or even a planet – it all depends on fate.

However, passed down from the Daoist Academy, ninety-nine percent of “The Union of Differences” cultivation experiences are with Magic Artifacts!

Because a Magic Artifact is also a minor accomplishment in cultivation, if it happens to be a cultivator’s lifebound artifact and coincidentally matches their own cultivation technique, then it is incredibly suitable for co-participation!

If a Magic Artifact and a cultivator are perfectly in sync, then the cultivation breakthrough will naturally be as swift as cleaving bamboo.

For example, Master Chengxuan, while studying at the academy, found a Rank-4 Soulful Mirror at the Treasure Trove that almost perfectly matched his Spirit Root Attributes. With “The Union of Differences,” he cultivated smoothly to the Nascent Soul Realm without any obstacles.

But as a result, his cultivation became shackled by the Soulful Mirror.

Following the Nascent Soul, his pace of cultivation began to slow significantly.

Even though “The Union of Differences” allows for a change in the co-participating artifact, having cultivated in unison for a long time up to the Nascent Soul Realm, Master Chengxuan’s Essence, Qi, and Spirit had already been assimilated by the Soulful Mirror, almost becoming another Artifact Spirit.

Therefore, if Master Chengxuan wants to break through to the Spirit Transformation Stage, apart from finding his own path, he also needs to upgrade the Soulful Mirror to Rank-5.

If he does not want to carry this burden, then he needs to discard his previous foundations completely.

However, on the Immortal Gate side, being able to cultivate to the Nascent Soul Realm is extremely challenging, and Master Chengxuan does not confidently believe in reconstructing himself from scratch.

But if he could overcome this obstacle, then after the co-participation artifact and cultivator both break through, the capabilities of “The Union of Differences” cultivators are almost the best among their peers at the same realm.

After understanding “The Union of Differences,” the first thing Chen Mobai thought of was his own Turtle Treasure!

This mysterious treasure, capable of taking him through two realms and even deeply connected to the origin of the Void, had once even alerted him to the possibility of absorbing and refining the Portal, indicating that its grade is certainly not low.

At the very least, it would not be lower than the Portal!

With that in mind, could he consider using the Turtle Treasure as his co-participant?

Excited by this thought, Chen Mobai felt thrilled!

That day, as Meng Huang left with the performance troupe for a tour outside Wangwu Cave Heaven, he also received the answers he had been seeking from Hong Mengkui about his doubts concerning “The Union of Differences.”

Hence, after instructing Hua Zijing and the other women to take care of the Sky-Mending Group, he entered the highest Spiritual Energy level Cultivation Room within the Sky-Mending Group for seclusion.

With a gentle wave of his hand in front of his chest, the Turtle Shell, the body of the Turtle Treasure, had already descended into his right hand.

Refining Treasure Golden Light touched upon it, only to reveal common information about a turtle shell.

Through this, Chen Mobai knew that the level of the Turtle Treasure must be incredibly high.

At the very least Sixth Rank, or possibly even above...

He took a deep breath, silently recited the Mantra of “The Union of Differences” he had just mastered, and then, with his Divine Sense leaving his body following the co-participation method, like a soft rain without sound, sprinkled it over the Turtle Shell.

The Divine Sense like strands of rain connected at various points to the Turtle Treasure, almost as if silver strands of light were extending from Chen Mobai’s third eye, swiftly enveloping the Turtle Treasure in a silvery cocoon, followed by a mental command wanting to drag the Turtle Treasure into his Sea of Knowledge at the Purple Mansion.

Chapter 1476: The Union of Differences Achieved – Part 3

I had thought it would be difficult, but with a “swoosh!”

Turtle Treasure really was like an ordinary turtle shell, showing no resistance, and was integrated by Chen Mobai through the Mutual Induction Knowledge Sharing Technique, absorbed from his brow into the Sea of Knowledge at the Purple Mansion!

“Eh!”

The smoothness of the process left Chen Mobai quite astonished.

He employed the mantra of “The Union of Differences” again, and afterwards, Turtle Treasure disappeared from the Sea of Knowledge at the Purple Mansion and appeared in the palm of his hand.

This indicated that the Mutual Induction truly succeeded!

This should have been a joyous occasion, but...

Why did Turtle Treasure show no reaction at all?

Chen Mobai utilized various mantras from “The Union of Differences”, such as extracting essence to nourish oneself, but there was no response!

He employed the Spiritual Rhinoceros Technique, which allows a cultivator to see various information and experiences of the integrated object; if the grade of the integrated object isn’t high, one might even directly trace back to its origin and see the scene of its birth.

But Chen Mobai only saw the turtle shell in his hand.

He then employed the Reciprocal Nourishment Technique, which allows a cultivator to boost integration by sacrificing their own Elemental Energy, although this process involves significant loss. However, as the energies of both parties increasingly converge, this loss can be reduced to almost zero.

Unfortunately, whatever Chen Mobai infused, Turtle Treasure rejected the same amount, seemingly unimpressed by his Essence, Qi, and Spirit.

After employing various techniques from “The Union of Differences”, Turtle Treasure remained just Turtle Treasure!

Chen Mobai, looking at the unfathomable turtle shell in his hand, felt quite irritated!

What had he integrated with, exactly?

Left with no choice, he had to dissolve the integration with Turtle Treasure.

Fortunately, unlike the Spiritual Artifact Cultivation Method, “The Union of Differences” allows changing of the integrated object anytime if unsatisfied.

However, the longer the integration and the more invested, the greater the damage to one’s foundation upon switching.

Chen Mobai’s integration with the turtle shell lasted less than half a day, and after changing, he felt nothing at all!

He reconsidered the Magical Artifacts he possessed!

Beyond this turtle shell, naturally, the most powerful were the Purple and Green Double Swords, both already Fourth Grade Superior, merely needing the right opportunity to achieve spiritual maturity and ascend to Rank-5!

Even if Chen Mobai was willing, both swords would probably willingly become his co-integration partners!

But Chen Mobai would certainly not do such a thing!

After all, the Qing Shuang Sword was borrowed and must be returned in the future!

Moreover, his path is essentially the Pure Yang Scroll, and he could never switch to the Purple Hua and Qing Xiao Sword Manuals!

Beyond the Purple and Green Double Swords, Chen Mobai considered the assets of the Five Elements Sect in the Eastern Wilderness!

Possible targets included the Great Dao Tree within the Divine Tree Secret Realm and the Five Elements Spirit Tree within the Yiyuan Secret Realm!

The Great Dao Tree, mysteriously connected to the Heavenly Sovereign, might have once been of Fifth-order Level!

Whereas the Five Elements Spirit Tree is confirmed to have fallen from Rank-5, integrating it would likely lead to the great success of his Primordial Dao Fruit!

But these two Spirit Plants are also challenging to approach!

The Five Elements Spirit Tree is located in Hunyuan Immortal City; he certainly couldn't go in person to meet Zhou Ye, a ticking time bomb!

If the Great Dao Tree really relates to Heavenly Sovereign, integrating it would be like throwing oneself into the tiger's den!

Beyond these two Spirit Plants, there are the Talent Tree and Magic Treasure Tree!

These are confirmed to be Fourth Stage Pinnacle Everlife Woods, but both have been modified by the Longevity Sect, and it's unclear whether there are any underlying issues!

It's not possible to co-integrate with the Everlife Wood from his own arena at Giant Tree Ridge!

Chen Mobai thought about this and shook his head directly!

His cultivation isn't based on the Qing Emperor's Longevity Scripture!

After dismissing this idea, Chen Mobai was left with only one choice!

He took out the Haotian Mirror, which had just been upgraded to Rank-4!

Rank-4 is equivalent to Nascent Soul. By integrating it, he could extract its Pure Yang True Intent, subtly influencing his suitability for the cultivation of the Pure Yang Scroll, and later on, it might even increase the cultivation speed of his Pure Yang Daoist Body!

At this moment, Chen Mobai recalled the words of Hong Mengkui.

If only he had the Primordial Yang Sword in hand!

This Rank-5 Flying Sword would be the most suitable for his integration.

Unfortunately, his current Cultivation Realm is too low. If he had a Nascent Soul, he could compete for the position of Head of Immortal Affairs and then take control of Little Red Sky.

Beyond the Primordial Yang Sword, there is also the Primordial Yang Set left by the Yuanyang Ancestor, which would also be highly suitable.

But that is nominally in the hands of Pure Yang Academy, and he knows very well that Nangong Xuanyu would never agree to give it to him, the head of the Dance Tool Dao Academy!

With no other options, Chen Mobai could only integrate with the Haotian Mirror for now!

This was originally his Lifespan Artifact, and the integration process, like with Turtle Treasure, was smooth, devoid of any resistance.

But applying various techniques from “The Union of Differences” on the Haotian Mirror, the experience was completely different from that with Turtle Treasure!

While extracting the essence of integration, Chen Mobai felt intense heat surge out of the Sea of Knowledge at the Purple Mansion, infiltrating and merging into his Essence, Qi, and Spirit throughout his body.

During this process, Chen Mobai felt his Fire Spirit Body seemed to be activated to the utmost, absorbing the Pure Yang True Intent, and evolving towards the acquired Pure Yang Body.

However, during this process, Chen Mobai also began to notice his constitution slowly changing.

This is one of the drawbacks of co-integration.

From now on, Chen Mobai could only steadfastly hold onto the Pure Yang Scroll, moving forward unswervingly. If he later finds this Great Tao impassable and wishes to change, he can only forsake his foundation, even going so far as to dissolve and rebuild from scratch!

Yet for this, Chen Mobai had absolutely no hesitation!

Chapter 1477: The Union of Differences Cultivation Complete\_4

After graduating from high school, he had already set his sights on the Pure Yang Scroll!

Only through this Divinity Transformation Technique that relies on resources could he ascend to the peak of the Immortal Gate.

If the Pure Yang Scroll could not lead him to Divinity Transformation, then no other Divine Transformation Technique possibly could!

Chen Mobai had never doubted this belief and perspective of his own.

After going through the process of Mutual Induction Knowledge Sharing Technique, Chen Mobai also began to use the Spiritual Rhinoceros Technique; it was at this moment when he truly understood what it felt like for Zhuo Ming to communicate with Spirit Plants through the All Things Spiritual Communication.

He saw all the scenes and experiences of the Haotian Mirror in Yin Qingmei's hands; and this was just the beginning, there were even longer scrolls to come regarding the experiences with this Magic Artifact!

Chen Mobai immediately entered into the state of Inner Observation, which allowed him to cast aside all miscellaneous thoughts, and then he began analyzing all the information he had seen through the Spiritual Rhinoceros Technique.

From advancement through the Heavenly Tribulation to Chen Mobai taking action to transform the Six Yang Divine Fire Mirror into the Haotian Mirror, he continued to go upstream into a vast expanse of dark imagery!

This was the time when the Six Yang Divine Fire Mirror was sealed within the Device Nurturing Sphere!

With a thought, Chen Mobai understood.

Then, he quickly fast-forwarded through this section of the scroll, eventually seeing an old Golden Core Master clad in a Dancing Device Red and Black Robe, sighing as he sealed the Six Yang Divine Fire Mirror into the Treasure Trove!

This must be the previous owner of the Six Yang Divine Fire Mirror.

Before passing away in meditation as his lifespan neared its end, he personally sent this Lifespan Artifact back to the Daoist Academy, hoping it could find a better owner.

He succeeded!

Because Chen Mobai acquired it!

As the final section of the scroll unfolded, Chen Mobai continued to reverse time with the Spiritual Rhinoceros Technique, observing the former owner of the Six Yang Divine Fire Mirror laboriously accumulating various precious Rank-3 materials in the Immortal Gate, preparing the plans, the refining process, and finally the forming of the mirror.

After seeing all this, the effect of the Spiritual Rhinoceros Technique gradually dissipated!

This was the entire history of the Haotian Mirror!

After exiting the state of Inner Observation, Chen Mobai's emotions began to fluctuate violently, and it took him a good half day to completely stabilize.

Afterward, he once again used the Reciprocal Nourishment Technique recorded in "The Union of Differences".

This technique is also what Chen Mobai considers the most powerful in "The Union of Differences"!

After performing it, the conditions needed for the Haotian Mirror to continue to level up began to emerge clearly in his mind.

Due to the original material limitations of the mirror body, the actual possibility of further improvement was as difficult as reaching Heaven.

After all, when refining the Six Yang Divine Fire Mirror, the best material used was Rank-3, and it even contained a bit of Rank-2.

If it weren't for Chen Mobai using the Rank-4 mirror frame of the Everlife Wood and Yin Qingmei's relentless cultivation giving it spirituality, the Haotian Mirror would probably have shattered facing the Heavenly Tribulation!

An Artifact Spirit can absorb suitable energy to improve its own material quality and consequently level up its grade.

For example, the Purple Electric Sword, it requires Spirit Stones because it wants to upgrade its material to Rank-5.

The Spiritual Energy within Spirit Stones is attributeless and can be refined by any Artifact Spirit.

That is why to nurture Fourth and Fifth Rank Magic Artifacts in the Immortal Gate, Spirit Stones are also used for sealing!

However, if Chen Mobai wanted to wait for the Artifact Spirit of the Haotian Mirror to absorb energy and complete the upgrade and transition, it could take hundreds of years.

With that amount of time, he estimates he could have already achieved Nascent Soul Formation!

Chen Mobai continued the Reciprocal Nourishment Technique, and soon, the process of how to step by step replace the low-level materials inside the Haotian Mirror emerged in his mind.

This is akin to performing surgery on the magic artifact, methodically replacing piece by piece, eventually switching all the Rank-2 and Rank-3 materials for higher ranked ones. In doing so, without the Haotian Mirror realizing it, its body is being swapped for a stronger one!

According to Chen Mobai's thinking, it is definitely necessary to replace them with Rank-4 materials!

There is definitely no way to do this at the Immortal Gate, and it might be difficult to find them in the Eastern Wilderness, but there must be some in the entire East Continent!

It just so happens that under the leadership of Yue Zutao, Five Elements Commerce Association has gone to the East Land. After Chen Mobai comes out of seclusion, he plans to write a letter to Yue Zutao to look out for the Rank-4 materials needed for the enhancement of the Haotian Mirror.

Whether they can be obtained is not the concern for now; it's enough to just find out about them.

Chen Mobai just thought of this when he sensed a weak emotion coming from the Haotian Mirror, and he immediately stopped practicing "The Union of Differences".

After all, it had just reached Rank-4 and could not withstand him drawing essence for such a long period of time to replenish and refine itself!

Afterwards, out of curiosity, Chen Mobai performed the Reciprocal Nourishment Technique, and then he deeply regretted it!

Because as soon as he started, the Haotian Mirror began to joyfully absorb his Pure Yang Spiritual Power. In just a few breaths, half of his Dantian Qi Sea was depleted.

Chen Mobai immediately stopped and opened the Small Void to replenish his energy, thereby avoiding damaging his origins!

It is indeed enormously draining for Rank-3 Spiritual Power to supplement Rank-4!

Chen Mobai felt that only about half of the Pure Yang Spiritual Power absorbed by the Haotian Mirror was converted.

After finishing the practice of various techniques on “The Union of Differences”, Chen Mobai took out a Return to True Elixir and consumed it.

However, because he was in the cultivation room of the Sky-Mending Group, he did not dare to fully absorb Spiritual Energy, as the Return to True Elixir would help absorb Spiritual Energy at a rate dozens of times higher than usual.

Chen Mobai flicked his fingers, activating the ten Top-grade Spirit Stones that had been arranged around him!

These Spirit Stones just formed a Spirit Gathering Array!

He even took out the Red Misty Cloud Silk to conceal the activity!

Even so, he still drew most of the Rank-4 Spiritual Energy provided by the cultivation room, causing the leader of the fifth group to be astonished.

Just a casual practice session could absorb and refine so much Spiritual Energy—worthy indeed of someone with the Qualification of Deification!

It is unknown how much time passed until Chen Mobai slowly opened his eyes!

He hung the Crown of Heaven and Earth's Inner Observation over the Pure Yang Scroll!

Soon, the progress of 9% at Golden Core Eighth Layer appeared in his mind.

A single Return to True Elixir could now only provide a progress of 9%, much less than when he first began taking it.

Although he had already anticipated this, he couldn't help but sigh when he actually saw it.

It seems that after refining the third batch of Return to True Elixirs, there was no need for him to continue taking them. He could just put them up for sale in the Spirit Treasure Pavilion or give them to the Five Elements Commerce Association as merchandise to enter the East Land.

But Chen Mobai didn't feel dejected about this. After all, in the world of the Immortal Gate, there weren't many elixirs like the Return to True Elixir that could enhance Spiritual Power in the late stage of Core Formation.

Since Qing Nu was already in the Eastern Wilderness, he'd let her do the hard work of selecting a new elixir suitable for the Pure Yang Scroll that could quickly bring him to Golden Core Perfection.

With the Five Elements Sect's current dominance over the Eastern Wilderness, collecting Rank-3 elixir ingredients was almost no issue. Even if some of the main ingredients were precious and not available in the Eastern Wilderness, there could be ways to exchange them from neighboring territories.

Having thought this over, Chen Mobai didn't continue to remain in seclusion and take Return to True Elixirs. He checked the time, gathered up the empty shells of the Top-grade Spirit Stones and the Red Misty Cloud Silk—making sure to leave no trace behind—and then he activated the door and walked out!

“Head of the group, you've come out of seclusion!”

Outside the door, the leader of the fifth group greeted him respectfully.

Chapter 1478: Arrival of the Nascent Soul

Cultivating “The Union of Differences” in seclusion took up one and a half months.

Time flew by, and it's almost the end of the year again.

After emerging from his retreat, the first thing Chen Mobai did was to approve Lin Yin's long leave. According to her plan, she intended to wait until the end of this year's business and then take next year's leave to prepare for Core Formation.

However, Chen Mobai understood her state of mind very well, probably preoccupied with thoughts of Core Formation.

Even if she was still part of the Sky-Mending Group, her heart was surely no longer in it.

Thus, he readily granted Lin Yin a long leave. Her deputy position in the Sky-Mending Group would be reserved for her, but her duties would temporarily be handed over to Hua Zijing and Zhuang Jialan to manage.

To outsiders, Chen Mobai seemed to be setting up his allies for promotion.

If it were not for the fact that Hua Zijing and Zhuang Jialan had joined the Sky-Mending Group just over a year ago and were relatively junior, Chen Mobai might have taken advantage of this opportunity to transfer Lin Yin's deputy leadership to one of them.

And indeed, this was Chen Mobai's very intention!

Yet this was also in part Lan Haitian's wish.

He had secured his footing in the Xianwu Hall, but lacked trustworthy personnel, thus was keen to transfer Lin Yin, one of his own, over.

For this very reason, Lan Haitian had allowed Chen Mobai to secure a Golden Liquid Jade Pill for Lin Yin, an act of utilizing his own connections to aid his competent subordinate.

But it was a win-win situation. After all, Lin Yin had followed Lan Haitian for decades. Even though her collaboration with Chen Mobai had been very pleasant, she was not truly one of his own. Chen Mobai would certainly wonder, when the crunch comes, how Lin Yin would choose between himself and Lan Haitian, her former leader!

Rather than face such uncertainty, it was better to address this issue at its root.

Just as well, Chen Mobai had recently transferred Hua Zijing and Zhuang Jialan, the direct disciples of the Weapon Dancing Sect, into the Sky-Mending Group, and Lin Yin had done her utmost to transfer all responsibilities and authority she could to them.

Once Lin Yin received the Golden Liquid Jade Pill through the Sky-Mending Group, regardless of whether her Core Formation was successful or not, Lan Haitian would arrange for her to be moved to the Xianwu Hall.

Following her departure, the vacant position left behind had Chen Mobai contemplating whether Hua Zijing or Zhuang Jialan would be a better fit for the role.

However, Chen Mobai was quite thankful to Lan Haitian for this arrangement. If Lan Haitian hadn't kept Lin Yin behind, Chen Mobai wouldn't have been able to take over the Sky-Mending Group so smoothly.

One could only say that the two individuals, belonging to different factions, worked together with great understanding.

Sometimes, Lan Haitian felt this to be incredible, as he had joined the Sky-Mending Group straight after graduation. Under the arrangement of the Righteous Law Hall Master, he integrated with various departments, spending a hundred years to hone his political acumen and abilities.

Yet Chen Mobai, without official experience, had managed affairs smoothly after assuming leadership of the Weapon Lineage, dealing with various powers confidently and methodically.

After Wang Shuye, the former head, departed from the highest echelons, the Weapon Lineage did not fall into disarray. Instead, under Chen Mobai's leadership, it continued to prosper.

This man was not only a cultivation prodigy but also a natural-born sage in emotional intelligence and worldly affairs!

Three years after Chen Mobai took over the Weapon Lineage, the other three lineages of the Immortal Gate gave him such an assessment.

After obtaining the leave permit, Lin Yin, delighted, handed over her work to Hua Zijing and Zhuang Jialan, then hurriedly packed her bags to return to her hometown.

Many in Immortal Gate hold the belief of returning to one's roots, thinking that a part of their body and soul belongs to their native land, where the chances of breakthrough success are higher.

After seeing off Lin Yin, Chen Mobai called Hua Zijing and Zhuang Jialan into his office, where the three of them held a small internal meeting.

“Lin Yin’s Core Formation retreat may take several years. By the time results emerge, both of your qualifications will be more or less sufficient. She will then be transferred to the Xianwu Hall by Lan Haitian, and her deputy leader position will be up for grabs—who among you two wants it?”

Chen Mobai got straight to the point.

“Senior sister is more capable and has a better temperament than me; let her take the position.”

Just as Hua Zijing hesitated, Zhuang Jialan had already declined with a smile.

“Alright, then that’s settled. Zijing will take over as deputy leader, and Jialan, you will continue as my secretary.”

Upon hearing this, Hua Zijing felt as though she had gotten the short end of the stick, but at that moment, all she could do was nod and express her gratitude to Zhuang Jialan.

“From now on, Zijing, start taking over the work Lin Yin left behind. I trust your abilities; be bold in your actions, knowing that I have your back!”

This declaration from Chen Mobai made Hua Zijing’s expression turn solemn.

Compared to being a secretary, the position of deputy leader was undeniably more challenging, yet it also meant that the next Golden Liquid Jade Pill from the Sky-Mending Group would be hers.

For that reason, she wouldn’t decline the opportunity.

Having taken care of this matter, Chen Mobai made a phone call to Lan Haitian to update him, and the latter expressed his gratitude.

Sky-Mending Group Rank-2.

Within the highest-level workshop, Chen Mobai placed a thumb-sized piece of Rank-3 Purple Gold atop the surface of the Haotian Mirror, employing the ascension technique from “The Union of Differences” to replace the existing Rank-2 Red Copper within the mirror body.

As time passed, a drop of red copper liquid seeped out from the back of the mirror.

Chapter 1479: Arrival of the Nascent Soul\_2

Meanwhile, the surface of the mirror, which had been melted by the Great Sun Fire, was shimmering with the luster of purple gold that had seeped in a bit.

As the purple gold infiltrated and the red copper exuded in the process, Chen Mobai was also sensing the joy emanating from the Haotian Mirror.

It was as if a lesion within a patient’s body had been drawn out and then injected with even more powerful elemental energy, making the spiritual nature of this Co-participation Legal Device seem to have gotten stronger.

When the Six Yang Divine Fire Mirror was originally refined, due to the lack of sufficient Rank-3 purple gold, some Rank-2 red copper was used as a substitute. After learning of this through his Spiritual Rhinoceros Technique, Chen Mobai immediately reserved the piece of purple gold through his privileges on the Immortal Gate Network.

Beyond that, he also leveraged his connections to issue a list of Rank-4 materials needed for updating the Haotian Mirror.

Aside from his own Dance Tool Dao Academy and the friendly Jumang Academy, he also sent a copy to the Repairing Heaven Institute, and even to Lan Haitian.

The idea was simply to ensure that interested parties within the Immortal Gate were aware of it.

Because Rank-4 materials were extremely precious within the Immortal Gate, but these powers did have some stock, and with Chen Mobai’s identity, he was qualified to exchange one or two kinds.

However, the Four Great Daoist Sects would certainly not exchange such information with each other.

In this way, when Chen Mobai's Haotian Mirror later takes advantage of Tianhe Realm's materials to update and greatly enhance its spiritual nature and grade, they would only suspect that Chen Mobai obtained the Rank-4 materials from other forces to enhance it through "The Union of Differences."

But Chen Mobai still used his connections to reserve a piece of Rank-4 Vermilion Fire Jade from the Dance Tool Dao Academy and Rank-4 Golden Dewdrop from Jumang Academy, and he also applied to the Forestry Administration for a section of Rank-4 Spirit Wood.

Only by mixing truth with falsehood can one earn trust!

Seven days later, Chen Mobai completed the first enhancement of the Haotian Mirror!

The purple gold on the surface had completely melted and infiltrated the body of the mirror, while a ball of red copper the size of a dumpling was condensing like flowing water at his fingertips.

However, after this process was completed, Chen Mobai felt that the Co-participation with the Haotian Mirror was a bit awkward.

But this was not his fault; it was obviously because, after the update, the Artifact Spirit was still not quite used to its more powerful mirror body, and in time, this awkwardness would disappear.

Afterwards, Chen Mobai then cast the "Big Sun Qian Yang Divine Fire Shield" he had envisioned following the mirror's level up!

Pure Yang Fire and Great Sun Fire refined with the Dan Fire of Pure Yang Spiritual Power could ascend to become one of the Immortal Gate's six treasured flames—the Great Sun Qianyang Fire.

Chen Mobai already felt pressured for time in advancing his realm and would definitely not indulge in such a time-consuming task.

But the predecessor of the Haotian Mirror, the Six Yang Divine Fire Mirror, had “Pure Yang Fire.” As a Magic Artifact of the Chidi Puzhao Jing, the Haotian Mirror itself could condense “Great Sun Fire.” Moreover, after Co-participation with Chen Mobai, it could draw Pure Yang Spiritual Power from his Dantian Qi Sea, as long as its master let it.

Under Chen Mobai’s guidance, the Artifact Spirit of the Haotian Mirror surprisingly cultivated the first strands of “Great Sun Qianyang Fire.”

This Great Sun Qianyang Fire combined with another spell, the Mysterious Yang Divine Light, formed the offensive and defensive “Big Sun Qian Yang Divine Fire Shield”!

Chen Mobai tested it and found that when the “Big Sun Qian Yang Divine Fire Shield” enveloped his body, any spell or artifact that wasn’t of Rank-4 strength would turn to ashes upon impact.

Having the Haotian Mirror master the “Great Sun Qianyang Fire” was as if Chen Mobai himself had mastered it.

He also compared the Golden Flame developed from the Red Flame Sword Jue with this “Great Sun Qianyang Fire.” Although the approaches of both were similar, the power of Golden Flame, even at its peak refinement, equaled that of the Extreme Sun Slash of Rank-4, while the “Great Sun Qianyang Fire” could continuously level up along with the rise of Pure Yang Spiritual Power.

Chen Mobai even tried, through Inner Observation, to see if the “Great Sun Qianyang Fire” could replace the Golden Flame and execute the Extreme Sun Slash!

And indeed, it was feasible!

By that time, the power of the Extreme Sun Slash could break through the fourth-grade lower class and even potentially reach Rank-5!

On the aspect of Fire Attribute talent, Chen Mobai already dared to claim he was first in the Immortal Gate, without even needing Enlightenment Tea, simply through his own understanding, he had quickly created a rough version of the New Extreme Sun Slash!

Next, he would continuously deduce and evolve this rough creation into a theoretically perfect spell!

Upon checking the progress of decoding the Longevity Sword Intent, Chen Mobai found it was less than ideal, so he turned his Inner Observation to refining the New Extreme Sun Slash.

In the following days, he revised the draft six times, and having confirmed the correct direction, he continued refining it with Inner Observation and absorbed the Haotian Mirror into his body, ready to emerge from seclusion.

Outside the workshop, upon receiving the news, the leader of the second group, Jiang Rengang, personally welcomed Chen Mobai, his direct superior.

Chen Mobai had a chat with him to understand what had happened in their team during his seclusion and found that everything was as usual, which greatly pleased him.

Before long, Hua Zijing and Zhuang Jialan also arrived.

The two women followed Chen Mobai to his office to report two matters that required the attention of him, the overall team leader: one was to urge the Department of Law Enforcement to promptly reimburse the Sky-Mending Group's invoices and bonuses for the year, and the other was to report this year's work status of the Sky-Mending Group to the Righteous Law Hall Master.

The first matter was very straightforward; Chen Mobai didn't even need to get involved personally. He made a call to Wen Lianshan from his office, who assured that before the year-end holidays, the Good Deed Points would be credited to the Sky-Mending Group's account.

As for the second matter, there was no avoiding it; he had to personally report to the leadership.

Chapter 1480: Arrival of the Nascent Soul\_3

It was a rare occasion today that Chen Mobai was actually in the office of the Righteous Law Hall Master and saw the esteemed Narcissus.

Unfortunately, as soon as he entered, Narcissus couldn't help but wrinkle his nose, seemingly a bit uncomfortable.

"What spell have you cultivated? It has a strong fire scent."

"Ah?"

After hearing this, Chen Mobai looked confused, but he soon understood what Narcissus meant.

"I've just completed the cultivation of 'Great Sun Qianyang Fire', it might be because of this!"

Upon hearing Chen Mobai's words, Gongsun Jielu who stood by was shocked and glanced at him.

The Six Great Precious Flames of the Immortal Gate are well-known, each capable of being cultivated to Rank-5, and once mastered, possess the power of Rank-4.

Although Chen Mobai's exceptional talent was already known, it was unexpected that amidst his distractions with work in the Sky-Mending Group, he could progress so swiftly. In the Golden Core Realm, he managed to master the signature "Great Sun Qianyang Fire" of the Pure Yang Scroll!

Truly worthy of being a soon-to-be-immortal with the potential for Divinity Transformation!

"Next time before you visit me, refrain from cultivating such powerful Fire Attributes Techniques, as I am extremely sensitive to this scent!"

At Narcissus's words, Chen Mobai naturally nodded in agreement.

Thanks to this, after Chen Mobai finished reporting, Narcissus waved his hand indicating he could leave, thus concluding this matter.

After returning to the Sky-Mending Group, Chen Mobai instructed Hua Zijing and Zhuang Jialan, then took some time off for himself.

Of course, before leaving, he did not forget to say goodbye to Yan Bingxuan.

He even asked Yan Bingxuan if she would like to return to Red Sandstone City, but her parents had already passed away and seeing that the Mysterious Frost Company was not yet stable in Wangwu Cave Heaven, she decided to stay and strive for her career.

In regret, Chen Mobai could only bid her farewell.

Meng Huang was arranged for many New Year's performances, and she was still outside.

Thus, after saying a few words to some friends, Chen Mobai returned to Red Sandstone City.

That day.

He spent the New Year at home enjoying lively conversations with his increasingly aged parents, and Shi Wanyu and her daughter were also there, making the family joyously celebrate the New Year together.

"Son, I have no regrets in this life!"

As the family of five sat on the sofa watching the New Year's Eve show on TV, Tang Panchui holding her granddaughter's hand, suddenly said with a loving face.

"Mom..."

Just as Chen Mobai was about to say something, Xiao Hei was already holding Tang Panchui's aged hand, pointing at a major star appearing on TV, her favorite predecessor from the Dance Tool Dao Academy.

"Grandma look, there's Senior Sister Meng..."

All Chen Mobai could do was shake his head and then continue to pour tea into Chen Xinglan's empty cup.

After enjoying this Spring Festival, Chen Mobai told his family that he had made further breakthroughs in his cultivation level and went to the top of Danxia Mountain for seclusion.

Mount Tianpeng.

Qing Nu was handling various herbs, while Chen Mobai was refining this year's Five Elements Essence.

At Flying Dragon Pool presided over by Zhou Wangshen, two previous true transmissions of the Five Elements Sect had good luck and succeeded in Foundation Establishment by taking elixirs.

A Foundation Establishment Practitioner can provide ten portions of Five Elements Essence annually, but as they were Earth Vein and Water Vein foundations, just the Gold Element Essence and Water Attribute Essence increased by ten portions.

For Chen Mobai, who needed a balance of Five Elements, this had no significance.

However, this matter also gave him hope for the grand completion of Primordial True Qi.

"Foundation Establishment Trithings, huh? This alchemy recipe is easy to improve, but right now it's mainly about helping you refine Lingyuan Pill to quickly reach Perfect Core Formation."

After hearing Chen Mobai's thoughts, Qing Nu put down the herbs she was handling and spoke.

Lingyuan Pill is another kind of elixir from the Immortal Gate that enhances Spiritual Power in late-stage Golden Core cultivators, and even aids those in Perfect Core Formation to accelerate the condensation of Spiritual Power into True Qi.

Qing Nu has been busy with this lately; Chen Mobai even shared half of his remaining Enlightenment Tea with her.

“The Lingyuan Pill is crucial; you need to refine it yourself. But the production of Foundation Establishment Trithings can be assisted by our sect’s Alchemy Department. Once you complete the improvement of the recipe, I’ll send them to learn from you.”

Although alchemists like Zeng Woyou and Yan Jinye were less experienced compared to Qing Nu, focusing on one or two specific types of elixir refinements, they could still be competent pure alchemists.

“That works. Besides, there are still three main ingredients for the Lingyuan Pill that need substitutes. I’ll take this time to train the alchemists from your sect!”

Qing Nu always supported Chen Mobai and nodded in agreement. She then penned down the recipe for Foundation Establishment Trithings and started brewing a cup of Enlightenment Tea, beginning to improve the recipe using local herbs from the Tianhe Realm.

After refining the Five Elements Essence, Chen Mobai felt the nearly complete second surge of Primordial True Qi and couldn’t help but smile gently. Then, he wielded the Purple and Green Double Swords to fly into the sky, condensing a strand of Nine Heavens Pure Spirit Purple Brilliance Energy.

Just as he was preparing to spend the last few days of the spring holiday with Qing Nu, his first disciple Liu Wenbo found him.

“Master, a letter from the Dongwu Sun Family!”

Upon hearing this, Chen Mobai’s expression turned solemn.

Could it be that Sun Huangji succeeded in Nascent Soul Formation and came to show off his power?

With this thought in mind, Chen Mobai took the letter and opened it, only to have his brows relax.

The sender was Sun Huangling, now the head of the Sun family. She heard that Chen Mobai had an Earthline Demonic Beast's inner core and wanted to acquire it for use as a main ingredient in refining an alchemy recipe.
