

World 1811

Chapter 1811: Little Yellow Dragon Girl, Tai Sui Child

In the great river of Yun Meng Ze.

Zhou Shengqing flew in mid-air, his expression calm as he raised his right hand. In an instant, a complex talisman emerged in the void.

As the talisman formed and activated, the surrounding nature's spiritual energy began to converge, transforming into a clear and bright divine light that enveloped him.

“Roar—”

From the water, a black peculiar fish with two heads surged forth, covered in solid scales and wielding a Water Divider Fork, attacking Zhou Shengqing in mid-air.

Its body was like a small mountain, emitting a foul-smelling black cold breath from its mouth, akin to a monstrous creature stirring up giant waves, its momentum astonishing.

However, Zhou Shengqing merely waved his hand gently, and the green light around him transformed into a lush, crystalline green leaf, blocking the dual-headed fish demon before him.

Subsequently, the clear brilliant divine light condensed into a sword, accompanied by a swipe from his sword finger, splitting the fish demon in two, its blood spilling onto the river.

Roar!

Amidst the roaring, another Third Rank Monster with overwhelming demonic energy burst from the water, but Zhou Shengqing's eyes shifted, and the Sacred Tree Divine Light around him had already condensed into a massive cyan palm print descending from the sky, directly pressing the monster back into the depths of the water.

With a muffled sound of breaking bones and flesh along with a wail, a wave of blood suddenly surged to the surface.

After the two leading Third Rank Monsters perished, the thousands of Cloud Dream Marsh Monsters they led scattered like startled birds and beasts, fleeing in all directions from the water.

After extracting the inner cores of the two Third Rank creatures, Zhou Shengqing finally cast the Heavenly Wood God Needle.

In an instant, the Sacred Tree Divine Light around him condensed into a myriad of light needles, like a torrential downpour, falling upon the Cloud Dream Marsh Monsters below.

Sizzle, sizzle, sizzle!

One by one, the beasts were pierced through the heart. Swimming a short distance in the water, they lost all vitality, floating to the surface.

However, some beasts managed to escape this calamity.

Zhou Shengqing couldn't be bothered to pursue them further. He stepped onto the largest treasure ship of the Sun family on the water.

"Thank you, Master of Divine Wood, for assisting us in East Wu to quell the demon disaster."

Sun Huanglong, along with the Golden Core Cultivators of East Wu, surrounded him gratefully, expressing their thanks to Zhou Shengqing.

After Chen Mobai slew the Poisonous Dragon Ancestor and seized the Yellow Dragon Cave Mansion, naturally, he wanted to clean out Yun Meng Ze.

Say no more, all those Third Rank monsters had to be killed.

However, because the Immortal Gate had some issues at that time, Chen Mobai needed to return briefly, so he entrusted this small matter to Zhou Shengqing to handle.

Initially, Zhou Shengqing was reluctant, after all, those beasts that emerged from the Yellow Dragon Cave Mansion mainly wreaked havoc in East Wu's Cloud Dream Marsh territory. In his view, it would be best for the cultivator families in East Wu to suffer against these beasts mutually, and then willingly surrender to their Five Elements Sect.

But after Chen Mobai explained the next set of plans to him, Zhou Shengqing suddenly realized that only in a peaceful environment could the Five Elements Sect develop more vigorously.

“For thousands of years, Eastern Wilderness and East Wu have always been separated by a river, allies to each other. When I was young, I even met Grandfather Huangwu, addressing him as Martial Uncle. Now that I have the ability, I must lend a hand.”

After saying this to Sun Huanglong and others, Zhou Shengqing pointed out the few monsters that escaped the Heavenly Wood God Needle, letting the East Wu cultivator alliance deal with them.

“Having Master of Divine Wood personally handle it is truly a favor we're unworthy of. These are pooled from our several families, please accept them.”

Sun Huanglong had two Golden Core Cultivators beside him go after the monsters, then took a Storage Bag, offering it to Zhou Shengqing with a respectful expression, which the latter accepted without hesitation.

“This is my Message Talisman. If you encounter any more unmanageable monsters, simply notify me.”

After accepting the gift, Zhou Shengqing's countenance was even more amiable, and he even handed Sun Huanglong a talisman to contact him.

However, in the eyes of the East Wu cultivator families, without the protection of the Poisonous Dragon Ancestor, those Third Rank monsters were merely lambs awaiting slaughter.

Thus, in the following days, even without Zhou Shengqing taking action, Sun Huanglong led the East Wu alliance to surround and kill the remaining Third Rank monsters one by one.

Yet, Yun Meng Ze was so vast that two Third Rank monsters managed to hide and escape the pursuit of the East Wu alliance.

In response to this, Chen Mobai instructed Nu Jiang and others to search within Yun Meng Ze in the Eastern Wilderness Frontier.

Sure enough, they were indeed found.

Mo Douguang led Ning Leshan to personally take action, slaying these two Third Rank monsters.

Henceforth, only monsters below Third Rank remained in Yun Meng Ze.

After finishing his meeting at the Immortal Gate, Chen Mobai, with the Yellow Dragon on his mind, immediately returned.

At this time, the natural formation of the Yellow Dragon Cave Mansion had also been deciphered by the Formless Puppet he left behind, creating a path for free access.

Chen Mobai immediately informed Zhou Shengqing to return, and then, along with Qing Nu, the three of them entered together.

“Junior Brother, in the days of old, Ancestor Yi Yuan rode a dragon and ascended. In the future, you may also ride this small Yellow Dragon across East Continent, emulating the feat...” Zhou Shengqing looked at the Third Rank Yellow Dragon bound by chains in the most potent Spirit Vein of the Yellow Dragon Cave Mansion, and after a moment of surprise, laughed heartily as he spoke to Chen Mobai.

“Senior Brother is jesting. Let’s think about how to deal with this little Yellow Dragon instead.”

Chen Mobai shook his head. According to the ways of the Tianhe Realm, post-Divinity Transformation is when one must ascend to the Spiritual Void Immortal Realm. But since he was, after all, someone from the Immortal Gate, he feared being recognized as from a Different World by the great abilities above after ascending, so without clear circumstances, he definitely wouldn't ascend in his true body.

Chapter 1812: Little Yellow Dragon Girl, Tai Sui Child_2

"The Yellow Dragon is an Innate True Spirit Bloodline, equivalent to the Demon Race Royal Court. If Dao Morale Sect finds out, they'll likely come to seek and imprison it to extract the True Spirit's Blood..."

Zhou Shengqing also spoke with a furrowed brow. If possible, he naturally wanted to recover this little Yellow Dragon. After all, with its True Spirit Bloodline, given enough time and Spiritual Energy, it could easily ascend to Rank-4 or even Rank-5.

But the Holy Lands of East Continent prioritize the perpetuation of Divinity Transformation and take the Communicating Holy Spirit Pill very seriously.

Dao Morale Sect had previously imprisoned several Innate True Spirits. However, after tens of thousands of years of extraction, even True Spirits couldn't withstand it and already perished.

In the current age, True Spirits are rare, and the existing ones have all joined various Demon Race Royal Courts. As a result, Dao Morale Sect can only attempt to refine the Communicating Holy Spirit Pill by seeking those in the Ruins, unbacked by any royal courts.

If the Five Elements Sect has news of a little Yellow Dragon spread to East Land, even the Nine Heavens Morality Sect would undoubtedly side with Dao Morale Sect, demanding them to hand it over.

If Chen Mobai were truly the Yi Yuan Taoist Child, he might truly achieve a contract for the Communicating Holy Spirit Pill by offering the little Yellow Dragon.

But unfortunately, he's an impostor.

Without the Yi Yuan Dao Palace background, he's unqualified to negotiate conditions with Dao Morale Sect.

"Then we should nurture it first; I'll address it once I transform into divinity."

Chen Mobai pondered and made this decision.

Roar!

As he said this, the Yellow Dragon, having been observing them, seemed to understand and suddenly roared, as if wanting to say something.

"Junior Brother, why don't you make a contract with it first to ensure the Yellow Dragon joins our Five Elements Sect?"

Seeing this, Zhou Shengqing promptly spoke.

Chen Mobai considered it and then began performing a blood contract and Divine Consciousness Contract.

The Yellow Dragon appeared to want to resist, but given its mere Rank-3 level and years of having its Essence Blood extracted, it was already weak and unable to resist.

In no time, Chen Mobai successfully established a contract with the Yellow Dragon.

With the Divine Consciousness Contract, communication was somewhat simpler.

Roar!

Within Chen Mobai's Sea of Knowledge at the Purple Mansion, the voice of the little Yellow Dragon echoed, and after translation, a vague meaning emerged.

[Release... me... give you... benefits...]

[The entire Yellow Dragon Cave Mansion is already in my hands; what benefits could you offer?] Chen Mobai responded curiously.

The little Yellow Dragon lifted its dragon head, then extended its tongue to lick a stalactite hanging from the rock ceiling.

Chen Mobai perceived the Spirit Vein Spiritual Qi of the entire Yellow Dragon Cave Mansion suddenly flowing into the stalactite, followed by extremely pure and vast Water Spirit Qi mixing, forming a drop of clear azure Spiritual Liquid.

Qing Nu immediately took out a Spirit Sealing Tube and preserved the drop of Spiritual Liquid.

"Is this... Azure Fall Cold Water!?"

Zhou Shengqing, seeing this, hesitantly spoke.

"Indeed, the Yellow Dragon Cave Mansion was originally a near Rank-6 Spirit Vein, primarily Earth Vein Spiritual Qi with attached Water Pulse Spirit Qi. Thousands of years ago, the Ascendant Yellow Dragon used this to refine the Azure Fall Cold Water—a method with this heavenly Spiritual Water capable of washing the True Spirit Bloodline, condensing the Divine Soul, and aiding cultivators in developing the Sea of Knowledge at the Purple Mansion, enhancing Divine Sense."

"However, later the Yellow Dragon had a confrontation with the Yi Yuan Founder, depleting much of the Earth Vein Spiritual Qi during their battle. The aftermath transformed the original Yunmeng River into Yun Meng Ze, greatly diminishing the Earth Vein Spiritual Qi, while Water Pulse Spirit Qi assumed dominance, forming the current Yellow Dragon Cave Mansion."

"This little Yellow Dragon was but an egg when the Yi Yuan Founder ascended, nurtured beneath this Azure Fall Cold Water. Unfortunately, as the Earth Vein Spiritual Qi of the Yellow Dragon Cave Mansion weakened, the time to refine Azure Fall Cold Water significantly increased, causing the egg to take a long time to accumulate sufficient power, hatch, and come into being."

"But its luck was poor. Upon emerging, it encountered the Poison Dragon Patriarch, who beguiled it with a few words, leading to the cave opening. Subsequently, it was occupied by force, imprisoned until today."

"After the Poison Dragon Patriarch occupied the Yellow Dragon Cave Mansion, it continuously extracted its bloodline and mixed the Azure Fall Cold Water, Water Element essence, and Dew of Heaven and Earth, enhancing not only to Fourth Rank Peak, but even cultivating a True Spirit Bloodline. If not for fortuitously encountering it upon birth today, it might have wreaked havoc along both shores in the future."

After establishing a contract with the little Yellow Dragon, Chen Mobai understood from its mind the origin and development of the Poison Dragon Patriarch's achievements.

Upon hearing this, Zhou Shengqing felt a great sense of relief.

"Fortunately, Junior Brother, you turned back..."

If the Poison Dragon Patriarch were alive and swallowed this little Yellow Dragon with its True Spirit Bloodline, it might really evolve into a Rank-5 True Spirit. By then, even if True Monarch from the Holy Lands of East Land came to deal with it, Five Elements Sect would certainly be eliminated before that.

"Just fate!"

To this, Chen Mobai simply remarked.

Then he extracted the Sea-settling Sword.

With the clanging sound, the chains binding the Rank-5 Yellow Dragon were severed.

Having gained freedom, the little Yellow Dragon, wide-eyed in disbelief, cautiously extended its forepaw, crawling over the line it had never crossed until now. It gazed at the sky with excitement and let out a long cry.

Chapter 1813: Little Yellow Dragon Girl, Tai Sui Child_3

The massive sound wave erupted, resembling a dragon's roar imbued with true spirit, causing Qing Nu to feel somewhat dizzy in her divine sense.

[Quiet!]

Chen Mobai immediately issued a command to the little Yellow Dragon through the contract, and the latter immediately restrained itself.

Bound for over a thousand years, the little Yellow Dragon had long lost the arrogance a true spirit should possess.

After crawling out, it nodded at Chen Mobai.

Upon establishing the contract, it already understood that the person in front of it was its master.

Although it was merely exchanging chains for a contract, being able to leave this cage was a significant improvement for it.

It was a true spirit, with a long lifespan, and might find an opportunity to break free from the contract in the future, just like how the Poisonous Dragon Elder was slain by the person in front of it this time.

"To avoid being discovered in the future, your range of activity can only be within the core valley of this cave dwelling."

Chen Mobai said to the little Yellow Dragon, who, though dissatisfied, nodded in agreement.

"But if you reach Rank-4 transformation in the future, I can let you leave this cave dwelling, even roam various places on the East Continent."

Chen Mobai pondered for a moment, then offered the little Yellow Dragon a glimmer of hope.

[What is... transformation...]

However, the little Yellow Dragon, like a blank slate, was ignorant of many fundamental terms in the Immortal Cultivation World.

Chen Mobai briefly explained that it meant becoming like him.

Soon, the little Yellow Dragon shimmered with spiritual light, and its originally elongated dragon body began to shrink. Finally, after a burst of dazzling light, it transformed into a little girl with a pale face and two small dragon horns atop her head.

"Junior Brother, some innate true spirits are naturally capable of mastering transformation techniques,"

Zhou Shengqing said quickly when he saw the slight surprise in Chen Mobai and Qing Nu's eyes.

Back when the Primordial Ancestral Master was at the Yi Yuan Dao Palace, he encountered visitors from the Demon Race Royal Court. The royal members with true spirit bloodlines were also like this; although not yet at Rank-4, they could transform into human forms.

This matter was even recounted as a curious anecdote to a few disciples like Zhou Shengqing.

"Unexpectedly, it is a little Dragon Girl!"

Chen Mobai's astonishment was mainly for this reason.

"Junior Brother, there's one more thing. The true spirit Yellow Dragon is the Dragon of the Earth and naturally controls the Earth's elemental energy and terrestrial axis. Therefore, those cultivating earth attribute techniques, if able to establish a contract with it, could achieve twice the results with half the effort on their cultivation path,"

"I heard from my Master that the reason the Yi Yuan Ancestral Master specifically wanted to subdue this Yellow Dragon before his ascendance might be due to this, since the Primordial Dao Fruit is fundamentally based on earth elemental energy!"

"Even though you don't have the Heavenly Earth Spirit Root, having cultivated Primordial True Qi, you can give it a try."

Zhou Shengqing mentioned another matter that the Primordial Ancestral Master once brought up. Given the deity transformation peak strength of the Yi Yuan Ancestral Master back then, ascending by dragon-riding surely wouldn't be just for show, hence the speculation has persisted in the Eastern Emperor Court.

Upon hearing this, Chen Mobai nodded slightly.

However, for him, the greatest advantage of Yellow Dragon's blood would be in the future cultivation of the Six Dragons Imperial Heaven Scripture.

It's known that the Human Emperor of the Eastern Emperor Court back then possessed the only true spirit blood of the dragon kind, which was the Yellow Dragon.

At least at this point, Chen Mobai is already on the same starting line as the Human Emperor.

Moreover, there's the Multicolored Python Blood painstakingly cultivated by the Poisonous Dragon Elder.

Plus, the obtained True Spirit Transformation Method could possibly be used to guide the Devouring Heaven Serpent towards an Azure Dragon transformation.

Additionally, if Chen Mobai remembered correctly, Bian Jingchun cultivated the Dragon Transformation Scripture Technique, which evolved into the White Dragon Aspect. This suggests she must have spirit beasts of the White Dragon bloodline.

If Chen Mobai finds it cumbersome to cultivate using the Dragon Transformation Scripture, he could directly obtain a drop of essence blood from Bian Jingchun, though it's unknown if she would be willing.

Once the thinking process was opened, Chen Mobai instantly felt that obtaining the six types of true spirit dragon blood for the Six Dragons Imperial Heaven Scripture didn't seem difficult.

After all, quite a few people in the Immortal Gate are cultivating the Dragon Transformation Scripture Technique.

Bian Jingchun represents the White Dragon Aspect, and upon further investigation, there would likely be Red Dragon Aspect, Black Dragon Aspect, and others.

However, it's somewhat challenging to obtain cultivator essence blood from the Immortal Gate, even for Chen Mobai as a Nascent Soul Superior, unless the other party consents willingly.

Nevertheless, Chen Mobai could always use the blood of spirit beasts from the Immortal Gate to cultivate with the Dragon Transformation Scripture Technique.

At that moment, the little Dragon Girl suddenly approached, her face showing slight pain as she pointed to her back.

Chen Mobai was first surprised, then suddenly remembered something, and went immediately to her back.

The ebony tube that the Poisonous Dragon Elder used to extract her Yellow Dragon essence blood hadn't disappeared due to her transformation; it remained embedded in her back.

Chen Mobai called Qing Nu over to take a look. In addition to being an Alchemist, she also attended medical courses at Jumang Academy, with a minor in veterinary medicine.

"This little Yellow Dragon is quite pitiful,"

Qing Nu observed, then used her spiritual power to protect the meridians around the wound before signaling Chen Mobai to pull it out.

A stifled, painful dragon roar sounded, but under the suppression by Chen Mobai, the little Yellow Dragon, despite struggling due to excruciating pain, could only scratch out a few claw marks on the ground with its claws.

Chapter 1814: Little Yellow Dragon Girl, Tai Sui Child_4

After pulling out the tube, Chen Mobai immediately transferred the nearly full golden essence blood inside into a Spirit Sealing Tube. Ignoring the expectant gaze of the little Yellow Dragon Maiden, he directly tucked it into his bag.

“Alright, but its essence is severely depleted, and it might take a long time to recuperate,”

Qing Nu helped the little Yellow Dragon Maiden reconnect several heart veins that had been severed by the removal of the tube. Observing the patches of golden dragon scales appearing at its wound, with the granulation tissue squirming, yet unable to heal completely due to the weak essence, she voiced her diagnosis.

Witnessing this scene, Zhou Shengqing couldn't help but sigh.

Such a powerful Innate True Spirit, and now it cannot even heal such a minor injury. It's evident how weak this little Yellow Dragon Maiden has become.

“Then might as well let it follow you. If in the future it can be nurtured back to health, it wouldn't be impossible to accept it into our Five Elements Sect,”

Chen Mobai said to Qing Nu, thinking of transferring his contract to her, just as Tai Sui was given to Zhuo Ming.

After all, this Yellow Dragon Cave Mansion was originally promised as a betrothal gift for Qing Nu, allowing her to take care of the little Yellow Dragon Maiden, heal its wounds and nurture its body, and

perhaps teach it Dao and Virtue. Maybe in the future, when he and Qing Nu have to ascend due to their high cultivation, it could become the guardian deity of the Five Elements Sect.

“I don’t know if it’s willing,”

Qing Nu had no objections, as nurturing a True Spirit is only something the Kunpeng Daoist Institute’s Long Wei Ancestor had done in the Immortal Gate.

Besides, in the Eastern Wilderness, apart from managing the Danxia Pavilion, she indeed did not have much to do.

Raising a small Yellow Dragon seemed quite interesting.

“It is willing,”

Chen Mobai answered directly on behalf of the little Yellow Dragon Maiden, who opened its mouth, then closed it again.

“Do these two dragon horns transform?”

Seeing the little Yellow Dragon Maiden had no objections, Qing Nu happily took its hand, then pointed at its conspicuous dragon horns.

The little Yellow Dragon Maiden nodded, and under the gaze of the three, the two dragon horns slowly retracted.

Chen Mobai then drew a talisman to conceal True Spirit aura, placed it into a Storage Bag, and handed it to the little Yellow Dragon Maiden.

“These Rank-4 talismans of mine can last for a year once activated. Don’t forget to use them, and just tell me when you’ve used them up,”

Upon hearing Chen Mobai's words, the little Yellow Dragon Maiden nodded, then took the Storage Bag and hung it around its neck.

"We humans usually hang it around our waists..."

Qing Nu immediately corrected its habit.

"Junior brother, within a short time, your talent in talisman making has surpassed mine, you truly are remarkable,"

On the other side, Zhou Shengqing was filled with emotion as he watched Chen Mobai draw a handful of Rank-4 talismans at random, since his proudest achievement was being a Rank-4 Talisman Maker.

Although Chen Mobai had shown talent in talisman making before, Zhou Shengqing thought his own skill was still superior.

Who knew that in such a short time, Chen Mobai had already caught up.

He could only say a genius is indeed a genius.

Fortunately, this genius belongs to his Five Elements Sect.

"In my spare time, I slightly delved into it, planning to integrate the inheritance of Technique, Pill, Instrument, and Array with Qing Nu and establish the orthodox path of the Five Elements Sect for the Hundred Arts of Cultivation Immortal,"

Chen Mobai explained his rationale, to which Zhou Shengqing repeatedly nodded.

While talking, the two also walked out of the underground cage.

“Let’s put this Water Element Essence and Dew of Heaven and Earth on the shelves of the Spirit Treasure Pavilion, so that Brother Nu Jiang and the others can exchange for it,”

In the main hall of the palace, Chen Mobai pointed to the Spirit Dew and Spring Eye in the White Jade Pool.

By this time, he already understood that the source of this Spring Eye was the stalactite in the underground cage, where the Water Element Essence and Earth Vein Essence fused to become “Azure Fall Cold Water.”

The True Spirit power of the Yellow Dragon could accelerate the fusion process.

For cultivators in the Five Elements Sect practicing Water Attribute Cultivation Techniques, Water Element Essence is the best Heavenly and Earthly Treasures.

It’s the essence of a Rank-5 Water Vein.

Qing Nu could even use Water Element Essence as the main ingredient to refine Water Element Golden Core Pills.

“Very well, junior brother can decide,”

Zhou Shengqing nodded repeatedly, expressing no objections.

At this moment, Qing Nu also walked out holding the little Yellow Dragon Maiden, who shivered slightly at the sunlight outside.

Meanwhile, the statue at the entrance, sealed by Chen Mobai’s Primordial True Qi, suddenly began to stir.

After communicating with the little Yellow Dragon Maiden through Divine Sense, it was understood that this was a Stone Spirit hastily enlightened by the Yellow Dragon before its ascendance to guard its emergence.

Unfortunately, the degradation of the spirit vein here and the passage of time caused the Stone Spirit to fall from its original Rank-4 to Rank-3, unable to even fend off the Poisonous Dragon Ancestor.

After learning this, Chen Mobai also unlocked the Stone Spirit, assigning it the role of the palace's security.

This Stone Spirit was similar to a Puppet, yet it was so close to the void cultivation, with mysteries involving innate variations that even he did not comprehend.

However, the Stone Spirit had only simple spirituality, and with the cooperation of the little Yellow Dragon Maiden, Chen Mobai quickly set new commands in its core.

The core of this Stone Spirit was actually a Mother Earth Stone.

But over the years, even within the Yellow Dragon Cave Mansion, the spiritual energy had long been depleted to a tenth of its original amount.

After pondering, Chen Mobai opted not to set up a recharging array on it.

After all, if the Stone Spirit were to recover to Rank-4, only he could suppress it.

He decided to wait for Qing Nu to achieve Nascent Soul Formation before replenishing its spiritual energy fully.

The three and the dragon, after leaving this core area, soon saw the busy disciples of the Five Elements Sect outside.

This Yellow Dragon Cave Mansion, being a Fifth Rank Spirit Vein land, is an ideal holy land for opening Spirit Fields or for disciples to cultivate.

Moreover, since this will be Qing Nu's cave dwelling, and thus, where Chen Mobai will reside and cultivate, keeping it peaceful is preferable.

Thus, Chen Mobai planned to develop it into a Spirit Field, transplanting the most precious herbs from both the Five Elements Sect and the East Barbarians here.

At the same time, he also planned to purchase seeds of rare spiritual medicine from the Immortal Gate.

In the centuries to come, this place would become the most treasured foundation of the Five Elements Sect.

Transplanting herbs is prone to wilting and dying due to differences in soil and water, so Chen Mobai immediately called over his treasured disciple, Zhuo Ming, to assist Qing Nu in accomplishing this task.

"Greet the master!"

When Zhuo Ming arrived, she was not alone.

Beside her was a very peculiar child.

However, compared to a normal boy, he was only half a meter tall, and his entire skin emitted a green light like jade, with a short and plump round face, resembling a smooth green ball.

"Greet the master!"

After Zhuo Ming spoke, the round child saluted Chen Mobai with great formality.

"This is... Tai Sui?!"

Chen Mobai quickly understood the child's origin through the contract, looking surprised.

Chapter 1815: Infant-Feeding Elixir, Washing Sword Pool

Long ago, Tai Sui had already reached Third Rank Peak. Later, after Chen Mobai achieved Nascent Soul Formation, he appreciated its hard work and contributions and gave it the opportunity to advance.

Now that Tai Sui has transformed in form, it's clearly at Rank-4.

In terms of level, it's equivalent to a Nascent Soul Cultivator.

Although without a cultivation method, its combat power isn't as strong as Zhou Shengqing, it can easily suppress Rank-3 demonic beasts and Golden Core Cultivators.

"How did it pass the Heavenly Tribulation?"

Chen Mobai motioned for Tai Sui to come over and checked its form after the transformation, to see if he could tailor a cultivation method for it.

"Reporting to master, it merely took one bout of heavenly thunder and passed with ease."

The answer came from Zhuo Ming, as Tai Sui, having just transformed, was still learning to speak and couldn't say much yet.

When Tai Sui was advancing, Zhuo Ming happened to be carrying out land reform in Feng County, developing fertile fields in the poor local environment.

Over the years, Zhuo Ming had completed agricultural reforms in much of the Eastern Wilderness.

Apart from disciples from various departments of the Five Elements Sect assisting, much of it was accomplished through Tai Sui's innate powers.

On that occasion, Zhuo Ming and Tai Sui worked together to transform a Rank-1 Spirit Vein into thousands of acres of fertile land. After completion, Tai Sui suddenly fell into a slumber, and then it completely fused and digested the Mother Earth Stone that had fully charged within its core.

After absorbing all the pure Earth energy from this Supreme Grade Spirit Stone, Tai Sui successfully metamorphosed. Its originally pitch-black flesh instantly shed its darkness, radiating a vibrant green light.

Soon after, clouds gathered in the sky, and after a symbolic strike of Tribulation Thunder, a heavy rain fell, nourishing the newly developed thousand acres of fertile land.

"It seems that following you all these years has brought it a lot of merit."

After listening, Chen Mobai seemed to have guessed the reason.

Zhuo Ming's merits over the years in river construction, sand control, tree planting, and agricultural reforms all involved Tai Sui's contributions.

This time, Tai Sui's Tribulation of Form Transformation should be due to various misdeeds it had in the Ruins, but compared to the meritorious deeds it accumulated following Zhuo Ming, those sins were trivial.

So it only encountered a single bout of heavenly thunder, just to mark the occasion.

At this point, Chen Mobai also had Qing Nu come over to check on Tai Sui, considering that it became one of the main ingredients for the Infant-Feeding Elixir after advancing to Rank-4.

When Qing Nu arrived, the young Yellow Dragon Girl followed closely behind her.

Imitating the human ritual, Tai Sui Child saluted Qing Nu, then frowned, looking at the young Yellow Dragon Girl beside her.

As an Earth Attribute Spiritual Medicine, Tai Sui instinctively felt a sense of reverence towards the Yellow Dragon, an Earth Dragon.

The Tai Sui Child didn't understand this point; it only knew it was Rank-4 while the young Yellow Dragon Girl was only Rank-3, so it didn't understand this sudden surge of emotion.

By this time, Qing Nu had finished her examination, nodding to indicate everything was fine.

"Once again, I'll have to trouble you..."

Chen Mobai addressed Tai Sui Child, who knowingly extended its arm, revealing part of its true form.

Qing Nu took out a Fifth Rank material scalpel and precisely cut a piece of Tai Sui flesh, green as jade.

After carefully storing it, Zhuo Ming came over, planning to utilize the Earth Vein Spiritual Qi in the Yellow Dragon Cave Mansion to nourish Tai Sui Child.

But Zhuo Ming found that his usually infallible All Things Spiritual Communication unexpectedly had no effect here.

"Hmm, Master, something strange is happening here..."

After discovering this, Zhuo Ming immediately informed Chen Mobai, who after listening, turned to the young Yellow Dragon Girl.

As an Earth Dragon and native here, it was clear that it held ultimate control over the Earth Vein Spiritual Qi of the Yellow Dragon Cave Mansion, something that even the All Things Spiritual Communication couldn't contest.

However, the young Yellow Dragon Girl seemed puzzled; she relied on inherent bloodline talent to control the Earth Vein Spiritual Qi of the Yellow Dragon Cave Mansion, unaware of how to disable it.

"You channel the Earth Spiritual Qi here into its body..."

Chen Mobai used a contract to guide the young Yellow Dragon Girl, who nodded. The purest Earth Spiritual Qi transformed into nearly tangible golden spiritual light, landing on Tai Sui's surface.

Qing Nu then took some Spirit Dew from the White Jade Pool and dripped it onto Tai Sui's wound. Before long, it was healed, yet it continued to greedily absorb the Earth Spiritual Qi and Spirit Dew.

Chen Mobai did not interfere, knowing that one day, it might rely on it to guard the sect.

"With the treasures from Wong He Gate and a piece of Snake Scale Wood from the Yellow Dragon Cave Mansion, along with this Tai Sui flesh, the ingredients for the Infant-Feeding Elixir are complete."

Qing Nu, looking at the Rank-4 Tai Sui flesh in her glass vial, happily announced the good news.

Previously, before Chen Mobai went to slay the dragon, he entrusted the matter regarding Wong He Gate to her.

Qing Nu and a team of experts she had cultivated over the years found that Wong He Gate's hidden medicine fields contained twenty-seven kinds of Fourth Rank Medicinal Herbs, each with thousands of years of potency, and over a hundred kinds of Third Rank Medicinal Herbs, all personally planted by their pioneer cultivators.

Their survival until now was purely due to Wong He Gate's fortune, not facing extinction in the lengthy passage of time.

The reason they sought out the Five Elements Sect this time was that Wong He Gate's Great Elder had limited lifespan, hoping to trade for resources to achieve Core Formation in one last attempt.

According to local customs, the reason Wong He Gate was willing to reveal these six-thousand-year-old reserves was mainly due to Chen Mobai's virtuous and sincere reputation.

Chapter 1816: Infant-Feeding Elixir, Washing Sword Pool (Part 2)

Wang Hemeng believes that the Five Elements Sect will not destroy the good reputation it has established over the years in the Eastern Wilderness for the sake of these Fourth Rank medicinal herbs.

Upon hearing this, Chen Mobai felt an inexplicable sense of joy.

For years, he led by example, subtly changing the Five Elements Sect from top to bottom, ensuring that sect disciples adhered to basic moral and ethical standards in both actions and character, and finally, it bore fruit.

This also strengthened Chen Mobai's determination to transform the Eastern Wilderness into a small Immortal Gate.

"Twenty-seven types of Fourth Rank medicinal herbs, much more than the Divine Wood Sect's foundation in the past."

Zhou Shengqing, standing by, couldn't help but marvel as the former Divine Wood Sect, one of the Seven Great Factions of the Eastern Wilderness, only had seventeen types of Fourth Rank medicinal herbs, even with the second largest medicine field in the Eastern Wilderness.

If he had known back then that Wang Hemeng had such a collection, he would have undoubtedly led an army of Wood Vein Cultivators to their doorstep without a second thought.

"Does Wang Hemeng want to exchange all of them?"

Chen Mobai asked Qing Nu. The value of so many medicinal herbs far exceeded that of Golden Elixir Spiritual Medicine.

"Wang Hemeng is just a Foundation Establishment sect. Since they've been exposed, they surely want to exchange everything with the Five Elements Sect in one go for enough resources to elevate their sect..."

Qing Nu spoke, stating the conditions of Wang Hemeng's Great Elder, Wan Dengyong, who was willing to hand over all Fourth Rank items to the Five Elements Sect.

Besides the cave dwellings in Northern Abyss City's core area, they also wanted a few stores and the privilege to read those precious Daoist Scriptures in the library. They weren't coveting the Five Elements Sect's cultivation techniques, mainly wanting to check the Core Formation Insights.

What's left are Spirit Stones, elixirs from Danxia Pavilion that enhance cultivation levels, and most importantly, the Golden Elixir Spiritual Medicine, among other things.

Although it is mainly Wang Hemeng's Great Elder Wan Dengyong who wants to form the Core, sacrificing the entire sect's medicinal foundation up until now surely requires appeasing the other disciples somewhat, so they also hope to exchange for some Foundation Establishment Trithings.

Fortunately, Wang Hemeng only has Wan Dengyong as a Foundation Establishment practitioner; otherwise, this matter would certainly not proceed so smoothly.

Qing Nu could make decisions regarding elixirs, but not for cultivation techniques or Core Formation Insights, stating she needed to return to consult first.

"Agreed, this is also a good opportunity to completely establish the good reputation of our Five Elements Sect."

Chen Mobai nodded. Even Zhou Shengqing beside him knew the principle of spending a fortune to buy a good reputation.

As long as Wang Hemeng can gain sufficient benefits from the Five Elements Sect, then in the future, from various places in the Eastern Wilderness, and even beyond the Eastern Wilderness, like East Wu and the East Barbarians, sects that have valuable but declining collections might come to Northern Abyss City, seeking resources from the Five Elements Sect to rise again.

"I hope this Wan Dengyong from Wang Hemeng is someone promising."

This was the first time Zhou Shengqing hoped that someone outside his own faction would successfully form the Core.

Not only because the Five Elements Sect is currently strong, and adding another Golden Core cultivator in the Eastern Wilderness would not affect the overall situation, but also because he thought if Wan Dengyong could successfully form the Core with the resources of the Five Elements Sect, it would be a brilliant living advertisement.

"Let E Yun carry my orders to connect with Wan Dengyong. We should first prepare to refine the Infant-Feeding Elixir."

At this moment, Chen Mobai spoke of the current major task.

He knew that the Poisonous Dragon Patriarch might be an asset of the Eastern Land Beast Taming Sect, and if the Five Elements Sect gained an additional Nascent Soul cultivator, even if it were true, the Beast Taming Sect would surely not dare to approach.

Moreover, Mo Douguang has refined True Qi to perfection over the years, and if Chen Mobai hadn't asked him to wait for the Infant-Feeding Elixir, he would have attempted Nascent Soul Formation by now.

"Then I'll prepare at Wanhua Immortal City."

Upon hearing this, Qing Nu nodded. Both the main and auxiliary ingredients for the Infant-Feeding Elixir required preprocessing, and she found it reassuring to oversee it herself.

All the old equipment, medicine pools, and similar apparatus that Chen Mobai had acquired from the Immortal Gates had already been relocated to Wanhua Immortal City, making it undoubtedly the holy land of alchemy in the Eastern Wilderness.

"It will be up to Ming'er here."

Chen Mobai entrusted the task of transplanting valuable herbs under the Five Elements Sect to the Yellow Dragon Cave Mansion to Zhuo Ming, who nodded immediately. She had already trained a large number of skilled hands from the Eastern Wilderness agricultural reforms, eliminating the need for personal involvement.

"Please take care of this as well."

Qing Nu pointed to the little Yellow Dragon Girl, who stood silently after having Earth Spiritual Qi infused by the Tai Sui Child.

If she and Chen Mobai went to refine the Infant-Feeding Elixir, they indeed would have no time to care for it.

"It's just right for you, Ming'er, who practice Earth Attribute cultivation techniques..."

When Chen Mobai heard this, he naturally handed the Yellow Dragon Girl over to Zhuo Ming, his precious disciple, who also had experience in beast taming.

However, due to the presence of the Tai Sui Child, he conveyed the identity of the Yellow Dragon Girl to Zhuo Ming through a voice transmission.

"So it's actually..."

Zhuo Ming was shocked to learn she was taking care of a True Spirit, but understanding its preciousness in the Tianhe Realm, she nodded with a solemn expression.

Chen Mobai and Qing Nu returned to Northern Abyss City together. Qing Nu first went to Wanhua Immortal City via a teleportation array, while Chen Mobai would provide the Stat Fire during the formal refining process later.

After receiving Chen Mobai's permission, E Yun quickly reached a formal written agreement with Wan Dengyong of Wang Hemeng.

All twenty-seven types of Fourth Rank medicinal herbs from Wang Hemeng were to be sold to the Five Elements Sect, and for the remaining Third Rank medicinal herbs, the Five Elements Sect also had the right of first purchase. Besides the conditions previously discussed with Qing Nu, the Five Elements Sect also promised that as long as Northern Abyss City remained, Wang Hemeng's legacy would perpetually endure above the Eastern Wilderness.

Chapter 1817: Infant-Feeding Elixir, Washing Sword Pool (Part 3)

After the discussion, Chen Mobai even personally met with Wan Dengyong to show his sincerity.

Wan Dengyong was a cultivator with white hair and a youthful face. However, despite maintaining himself well, faint wrinkles could be seen at the corners of his eyes, indicating that his age was indeed quite advanced.

Meeting the number one person in the Eastern Wilderness, Wan Dengyong followed E Yun and showed great respect upon entering.

Chen Mobai was very congenial.

Not only did he inquire about Wan Dengyong's years of cultivation, but he also carefully measured his spiritual root and spiritual power attributes.

There was good news and bad news.

The good news was that Wan Dengyong had a Wind Spiritual Root, which was considered outstanding in the Eastern Wilderness. Moreover, according to Immortal Gate's research, the Wind Spiritual Root is a mutation of the Wood and Water Spiritual Roots. The Water Element Golden Core Pill and the Wood Origin Golden Core Pill in Chen Mobai's possession could both be useful to him.

The bad news was that Wan Dengyong was already one hundred and eighty years old, long past the peak physical years of his life. In his youth, due to the environment of the local immortal cultivation world, he also went through several life-and-death battles and lost some of his essence.

Moreover, with his cultivation at the late stage of Foundation Establishment, it was evident that he had consumed plenty of elixirs, accumulating a lot of dan poison in his body.

After listening, Chen Mobai directly offered a greeting gift.

“This is a Profound Heaven Crow Golden Pill; after taking it, it can extend your lifespan by twenty years.”

Wan Dengyong had naturally heard of the name of this elixir, which was virtually the most renowned longevity elixir in the Three Regions of the Eastern Continent Frontier.

“Thank you, Immortal Venerate Chen, for the elixir!”

When Wan Dengyong had offered up his sect’s heritage of thousands of years, he was already all in, so he did not refuse. After expressing his gratitude, he directly accepted the elixir.

“Given your current situation, the first attempt at Core Formation is ninety percent likely to fail.”

Without needing to use the Formless Puppet for deduction, Chen Mobai could reach this conclusion based solely on his experience.

“I beg for your guidance, Immortal Venerate!”

Wan Dengyong naturally understood that offering his sect’s heritage to the Five Elements Sect would make them a prestigious sign. Hence, he shamelessly performed a grand gesture, directly asking Chen Mobai for guidance.

“I will give you the chance, but whether you succeed or not still depends on yourself.”

Chen Mobai naturally would not guarantee that Wan Dengyong would definitely succeed in Core Formation, as establishing a sign could not mean endless resource investment.

He asked about Wan Dengyong's cultivation method, planning to use the Formless Puppet for deduction.

Wan Dengyong hesitated but, realizing this was his only chance for Core Formation, gritted his teeth and revealed his sect's inherited cultivation technique, "Jade Crane Technique."

This Jade Crane Technique was indeed wind-attributed; however, the cultivation method was relatively shallow and could only lead to the Golden Core Realm at most.

The founding ancestor of Wang Crane Sect was only a Foundation Establishment practitioner.

After opening up wasteland, having discovered a Rank-4 Spiritual Land guarded by a natural formation, and received the bestowed Gold Core Spiritual Material from the Holy Land, they did not return to the East Land and instead settled in the Eastern Wilderness.

However, the founding ancestor of Wang Crane Sect did not succeed in Core Formation, but at the end of his lifespan, he planted various spiritual medicine seeds, which became the foundation that Wan Dengyong now exchanged with the Five Elements Sect.

"Oh, this is actually a Beast Tamer technique."

After listening to Wan Dengyong's introduction, Chen Mobai discovered that the Jade Crane Technique required forming a contract with a white jade spirit crane to advance to the highest realm, surprisingly.

Wan Dengyong immediately explained that their Wang Crane Sect had raised this type of spirit crane for generations, descendants of the Rank-3 Wang Crane of the sect's founder.

Wan Dengyong himself had one, already cultivated to the peak of Rank-2, and once he achieved Foundation Establishment Completion, he could rely on the spirit crane to help break through the bottleneck.

This could increase the Core Formation success rate by ten to twenty percent.

This was the most profound aspect of the Jade Crane Technique.

And because of this, Wan Dengyong was willing to take the risk.

“To be frank with you, Immortal Venerate Chen, our Wang Crane Sect’s founding ancestor was once a disciple of the Beast Commanding Sect. However, due to breaking sect rules, he was sent here to pioneer alongside the Holy Land. The second patriarch once traveled via Golden Crow Immortal City to the East Land, but the Beast Commanding Sect did not acknowledge our lineage...”

Wan Dengyong spoke with a sigh, and Chen Mobai’s eyes slightly narrowed.

Beast Commanding Sect!

This was quite the coincidence.

Could it be due to the Auspicious Blessing from the Vermilion Phoenix Facing the Sun Diagram?

Chen Mobai pondered for a moment but decided to set it aside. If Wan Dengyong could succeed in Core Formation, he might use this point to let him explore in the Eastern Land’s Beast Commanding Sect.

“With the Jade Crane Technique, there is a bit of hope. Here’s the plan. For your first attempt at Core Formation, do not use the resources from this technique; try it with your usual approach. I will teach you some methods to utilize the efficacy of the Core Formation Spiritual Medicine to purify and elevate your essence for the second attempt.”

“On your second Core Formation attempt, give it your all.”

“You’ve offered so many Fourth Rank Medicinal Herbs, and I’m only giving you two chances for Core Formation. I do feel a bit sorry. In the Northern Abyss City Library, there’s a Heavenly Wind Great Law of the Xuan Xiao Dao Palace that matches your spirit root attributes. Use my token to obtain the Perfection chapter for Core Formation.”

“Should you make great contributions to the Five Elements Sect in the future, I won’t hesitate to grant you the Nascent Soul chapter of the Heavenly Wind Great Law.”

The Jade Crane Technique could only cultivate to Core Formation. If Wan Dengyong succeeded in Core Formation, he would need to either switch to another cultivation technique or find the subsequent steps at the Eastern Land Beast Commanding Sect.

Chapter 1818: Infant-Feeding Elixir, Washing Sword Pool (Part 4)

The Heavenly Wind Great Law of the Xuan Xiao Taoist Palace is renowned, even in the East Land, it is a top-tier wind attribute cultivation technique.

"Thank you, Immortal Venerate Chen, for granting the law."

Thus, upon hearing this, Wan Dengyong did not hesitate at all and immediately performed a grand salute again.

Although he could only receive the part until the Perfect Core Formation Realm, Wan Dengyong already felt that the Five Elements Sect was very generous, because in his Wanghe Sect, disciples were taught cultivation techniques layer by layer according to the small realms.

Chen Mobai used the Formless Puppet to input the Jade Crane Technique, deducing it once for Wan Dengyong, and pointed out the deviations in cultivating this technique.

After listening to the lesson, Wan Dengyong was drenched in sweat. He thought he had cultivated the Jade Crane Technique to perfection, comparable even to the founder of the sect, yet he didn’t expect there to be so many flaws.

Moreover, what excited him even more was that Chen Mobai informed him of the ways to resolve these issues.

No wonder he is the renowned Great Sage and Good Teacher of the Eastern Wilderness.

At this moment, Wan Dengyong deeply regretted why he wasn't born a hundred years later. If he could become a disciple under this first person of the Eastern Wilderness, with his Wind Spiritual Root aptitude, a guaranteed Core Formation, and even a Nascent Soul, would not be impossible.

"When you are forming your core, seek out E Yun, and the Five Elements Sect will send someone to protect you, ensuring no one will interfere."

Chen Mobai, aiming to establish a reputation, considered all possible factors affecting the success rate. After hearing this, Wan Dengyong naturally expressed his gratitude many times, while E Yun, who had been quietly listening, also nodded gently.

After handling this matter, E Yun personally led the people from the Spirit Plant Department to harvest all the Fourth Rank medicinal herbs from the Wanghe Sect, sending some to the Wanhua Immortal City and having Zhuo Ming transplant others to the Yellow Dragon Cave Mansion.

Six months later.

Chen Mobai withdrew the Stat Fire from around the Primordial Yang Cauldron, gently took out the purified Heavenly Bead, and replenished the True Qi consumed in refining the Infant-Feeding Elixir.

"As expected, four pills were produced, but since it was my first time refining, each pill contains a slight amount of Dan Poison."

During the Condense Pill process with Qing Nu, a general inspection of the interior of the Primordial Yang Cauldron had been conducted. She performed the Elixir-Nurturing Technique to close the cauldron lid, reporting the results of the Infant-Feeding Elixir to Chen Mobai.

"What is the concentration of the Dan Poison?"

"It's about 0.3% to 0.6%."

Upon hearing this, Chen Mobai showed no concern.

This quality, in the Tianhe Realm, can already be considered perfect.

The elixirs produced by the Dao Morale Sect do not reach this level of quality.

Having achieved such results on the first refinement, especially given that many of the medicinal materials were refined using second-hand equipment from the Immortal Gate, attested to Qing Nu's superior alchemy skills.

Of course, Chen Mobai's Stat Fire was also indispensable.

The Infant-Feeding Elixir still needed about half a year of nurturing before it could be completed, so Chen Mobai got up to check the newly constructed medicine pool in the Wanhua Immortal City.

"Sect Leader, the Washing Sword Pool has been completed, though I am not sure if it meets your requirements."

Snow Ting was the one leading Chen Mobai. The Wanhua Immortal City was built on the original site of the Snow-blowing Palace, and she was exceptionally familiar with it. Although Qing Nu was officially in charge, Snow Ting managed the day-to-day operations most of the time.

Chen Mobai arrived at the medicine pool of the Washing Sword Pool, took a sip of the pool water, examined the Water Pulse Spirit Qi contained within, and checked the various restrictions along the pool's edges, nodding in satisfaction.

"You've worked hard."

Snow Ting repeatedly declined after hearing this.

This Washing Sword Pool was specifically built by Chen Mobai for the Purple Lightning Qingshuang Sword.

These two Flying Swords, during the slaying of the Poisonous Dragon Ancestor, suffered corrosion from the Multicolored Python Poison. Although Chen Mobai later used Stat Fire to cleanse the residual toxins, the damage to the sword body and spirit could not be restored in that way.

Chen Mobai specifically returned to the Immortal Gate to consult Hao Cao on possible solutions.

He reasoned that while practicing sword techniques, he unintentionally comprehended a powerful Sword Intent, causing some damage to his Flying Swords with Clear Heart of Sword, as they could not withstand the pressure.

Therefore, the method provided by Hao Cao was somewhat inaccurate.

But for Chen Mobai, it sufficed; knowing there was a solution, he promptly visited the Mountain and Sea Academy, downloading thousands of years' worth of content on repairing Flying Swords from their library into the Heavenly Calculation Bead, and then had Guidance Book sift through it.

Soon, the Sword Washing Method, which involved condensing a thousand types of spiritual medicines into liquid and blending them within the medicine pool, was selected.

This method, originally from the Mountain and Sea Academy, was intended for nurturing swords, practicing swords, and bestowing Flying Swords with spirit. Some swords that were a step away from developing spirit could successfully transform when placed in the pool.

However, due to the high annual consumption of spiritual medicines required to maintain the Washing Sword Pool, it was deemed wasteful and uneconomical. Hence, a thousand years ago, the Mountain and Sea Academy's thirteen Washing Sword Pools were sealed, leaving only one operational.

Even that one has been reduced to basic functionality, keeping the annual medicine consumption at the lowest amount. But despite this, without funding from the Immortal Gate, the Mountain and Sea Academy struggled to maintain it. This is why Hao Cao originally requested Chen Mobai to leave a Supreme Grade Spirit Stone for the Sea-settling Sword.

When a Flying Sword enters the Washing Sword Pool, over time, its impurities will be washed away, becoming more pure and refined.

Theoretically, as long as compatible spiritual medicines are added annually, over time, any Flying Sword can undergo unlimited growth during the nurturing process.

Of course, theoretically speaking, it is limited by the material of the Flying Sword itself, the strength of its spirit, the Spirit Vein Level where the Washing Sword Pool is located, and so forth.

However, without doubt, this Washing Sword Pool is the best restoration method for the Purple Lightning Qingshuang.

Although with Chen Mobai's current status and influence, borrowing the Mountain and Sea Academy's Washing Sword Pool would likely not cause Hao Cao any concern, after careful thought, building one in the Eastern Wilderness seemed more feasible.

After all, if he used the Mountain and Sea Academy's Washing Sword Pool, he would certainly have to pay for the consumed spiritual medicine liquids.

Even though Chen Mobai is now one of the three titans of the Immortal Gate, thinking about purchasing these in the Immortal Gate felt troublesome.

Thus, with the right Spirit Vein conditions in the Wanhua Immortal City, and being the alchemy center of the Eastern Wilderness, establishing one here was highly appropriate.

At this time, Qing Nu, having completed sealing the furnace, also arrived.

The Washing Sword Pool required the input of a thousand spiritual medicines, needing a professional like her to help.

Following her instructions, Chen Mobai used Stat Fire to refine each spiritual medicine into liquid, working tirelessly for three days and nights before the potion was infused into the pool.

The void opened, and the Purple Electric Sword, having long since awakened, flew out first, landing comfortably in the pool at Chen Mobai's signal, swimming around happily.

The Qing Shuang Sword, however, remained dormant, seemingly too heavily damaged by the Multicolored Python Poison to recover as a Fourth Rank Sword.

Chen Mobai let the Purple Electric Sword take care of the slumbering Qing Shuang.

[Master, I'm a bit hurt too...]

Although the Purple Electric Sword spoke with a hint of reluctance, indicating that as a Rank-5 in nature, and having undergone Heavenly Tribulation and Stat Fire refining, the damage caused by the Multicolored Python Poison was not very severe.

Its hesitance was clearly just an affectation.

[Alright, then rest up well.]

After speaking, Chen Mobai discussed with Qing Nu and asked Snow Ting to oversee the Qing Shuang when they are not present.

"I will teach you a Sword Practice Incantation, so when I'm not around, you can watch over Qing Shuang."

Chen Mobai said to Xue Ting, who immediately expressed her gratitude.

Chapter 1819: Seizing the Primordial Yang Sword Intent

After nurturing the Purple and Green Double Swords in the Washing Sword Pool, Chen Mobai left Wanhua Immortal City with Qing Nu.

The Infant-Feeding Elixir was nurtured in the Primordial Yang Cauldron and could be carried by Qing Nu.

They originally planned to return directly to the Yellow Dragon Cave Mansion, but there were some matters in Northern Abyss City, so they made a detour.

"Greetings, Sect Leader!"

In the main hall of Northern Abyss City, Mu Yuan and Yan Yuanhao came in to pay respects to Chen Mobai.

Their cultivation had reached the Foundation Establishment Completion realm, and they wanted to apply for Golden Elixir Spiritual Medicine.

After putting two Wood Origin Golden Core Pills on the shelf for them to exchange at the Spirit Treasure Pavilion, Chen Mobai summoned his eldest disciple.

Currently, he had only four Water Element Golden Core Pills and one Wood Origin Golden Core Pill left.

Because there were more talents with Wood Vein, the Wood Origin Golden Core Pills refined later by Qing Nu were consumed the fastest.

Fortunately, Wan Dengyong was only at the Foundation Establishment Late Stage and didn't need the Golden Elixir Spiritual Medicine for now.

Chen Mobai planned to reserve these Golden Elixir Spiritual Medicines for Liu Wenbo, so he was concerned about this eldest disciple and wanted to see how far his cultivation had progressed.

"Reporting to Master, disciple feels that in two to three years, I will be able to achieve perfection in both cultivation techniques."

Liu Wenbo answered respectfully. Wenbo, the fourth disciple under Chen Mobai, was the only one yet to form his Gold Core. However, he was obedient, earnest, did not rely on elixirs, and diligently honed his spiritual power to solidify his foundation.

Now, he was finally nearing the end of his journey.

"Three years from now, you will have no problem forming your Gold Core."

Chen Mobai took Liu Wenbo's pulse, checked his Water-Wood Spiritual Power, and confidently stated.

"Master's words fill disciple with confidence."

Upon hearing this, Liu Wenbo's initially tense mood immediately relaxed.

Over the years, whatever Chen Mobai said had never been wrong.

"From today, you no longer need to mind other affairs. Focus on closed-door training. Here are the Gold Core Spiritual Materials prepared for you by your master."

Chen Mobai smiled as he handed three items to Liu Wenbo, who respectfully accepted them with both hands.

"Disciple thanks Master!"

Looking at his eldest disciple, Chen Mobai couldn't help but reflect on their first meeting at Southstream Market and how quickly time passed.

Back then, Liu Wenbo was just a young lad, but now he had grown into a mature and steadfast middle-aged man with two patches of beard.

"These are the Water Element Golden Core Pill and the Wood Origin Golden Core Pill. Take them in sequence during your Gold Core formation. The last item is the Sunfire Liquid..."

Chen Mobai explained in detail the method of using the three Golden Elixir Spiritual Medicines he had prepared for Liu Wenbo.

Liu Wenbo was very excited. He had already heard Chen Mobai talk about the Five Elements Golden Core Pills before, and was not surprised. But the Sunfire Liquid, one of the two best Golden Elixir Spiritual Liquids in the East Continent, he had heard about since childhood.

After explaining these, Liu Wenbo asked questions about the problems encountered during cultivation over the years, which Chen Mobai answered one by one. Finally, he reiterated the various matters to pay attention to during Gold Core formation.

With his eldest disciple going into seclusion, the South Mountain Shop needed a new manager.

Since it was only for two or three years, Chen Mobai sent a message to Luo Yixuan, who was in the East Barbarians.

For years, Luo Yixuan had been at Dongyi Panghai Mountain, which contained Fanhai Sect's ruins. Although she had gained some advantages, she had yet to enter the core area.

However, due to these gains, she stayed, hoping for the opportunity to enter the core of the ruins.

Once Chen Mobai's letter reached East Barbarians, Luo Yixuan returned immediately.

"Master, rest assured, senior brother, leave it to me."

When Luo Yixuan was in Foundation Establishment, she had managed the South Mountain Shop. Although the staff had mostly changed, with Liu Wenbo guiding her through the basics, her identity and abilities made management easy.

Chen Mobai then explained the premium strategy for the South Mountain Shop on the East Land side to her. Because she had Elder Ming, a ghost cultivator, within her, she couldn't go to East Land. Instead, she needed to communicate more with Yue Zutao, who was responsible for that area.

After giving all instructions, Chen Mobai set off with Qing Nu for Wind and Rain Bastion.

With the Poisonous Dragon Patriarch dead and the high-ranking demonic beasts in Yun Meng Ze been wiped out, he planned to unseal the barrier guarding Yellow Dragon Cave Mansion at Wind and Rain Bastion.

This matter was still brought to his attention by Zhou Shengqing.

After all, now that the Yellow Dragon Cave Mansion's gate opened above the Cloud Dream waters in East Wu, although the Sun family dared not speak, it was far from the Eastern Wilderness, making resource transport inconvenient.

If the gate at Wind and Rain Bastion were also opened, they could use the Teleportation Array to access Yellow Dragon Cave Mansion from the Eastern Wilderness, making it more convenient.

Chen Mobai used Primordial True Qi and effortlessly opened the seal guarding Wind and Rain Bastion.

The moment the Void Gate appeared, Nu Jiang, who had guarded it for centuries, felt a sense of loss.

Nu Jiang thought this was his liberation, but when he no longer needed to stay in Yun Meng Ze, he felt a loss of direction and motivation.

"Junior brother, what plans do you have next?"

Zhou Shengqing noticed Nu Jiang's confusion and had a heartfelt conversation with him.

Nu Jiang: "I might go out and take a look. Previously, I only went to Nine Heavens Immortal City in East Land. Next, I'll visit the other Immortal Cities."

Zhou Shengqing: "Though East Land is vast, if you just want to visit casually, a few years should suffice. What about after traveling all over East Land?"

Chapter 1820: Seizing the Primordial Yang Sword Intent (2)

Nu Jiang: "I want to see the world beyond the East Continent, such as the Mysterious Four Seas, especially the Heaven and Sea, where there's the top-ranked Jellyfish Palace in the Tianhe Realm."

In the Tianhe Realm, the holy land in the dreams of cultivators practicing water attribute cultivation techniques is the Jellyfish Palace.

Zhou Shengqing: "The Heaven and Sea doesn't border our East Continent. If you want to go there, I'm afraid it won't be easy."

Beyond the East Continent are the Mysterious Sea and Desolate Sea among the Four Seas.

The Heaven and Sea and Earth Sea are the furthest from the East Continent in the Tianhe Realm.

However, if one could utilize the large-scale transmission array of the Taixu Piaomiao Palace, one could reach there in an instant.

But clearly, the Five Elements Sect can't have that kind of influence.

"Let's first explore beyond Yun Meng Ze. I always thought I'd spend my entire life here."

Nu Jiang said with a smile, and after a brief moment of confusion, he felt like he was renewed.

He just wanted to leave this vast marshland that had bound him for hundreds of years.

"Good, good, good, it's good that you can think it through, Junior Brother."

Zhou Shengqing was very pleased to hear Nu Jiang's words and noticed the more enlightened look in his eyes.

Being chosen by Hun Yuan Ancestor as a disciple, Nu Jiang's talent was also exceptional. If it weren't for being trapped in Yun Meng Ze, his achievements might not be any lower than Mo Douguang's.

Now that the cage is gone, this great river may one day become a vast sea.

Meanwhile, Chen Mobai was also conversing with Mo Douguang.

The news that the Infant-Feeding Elixir was successfully refined caused a rare smile to appear on Mo Douguang's face.

"That's about it..."

Chen Mobai shared his various insights and experiences from consuming the Infant-Feeding Elixir and conveyed all his collected Infant Formation Experience as well.

Mo Douguang: "Thank you, Junior Brother!"

Chen Mobai: "Then, I wish you early success in achieving the Nascent Soul Formation!"

Mo Douguang was not a person of many words, so their conversation quickly ended.

At this time, Nu Jiang and Zhou Shengqing also came over, and the four of them had a drink together to see off Nu Jiang.

"No need for the three of you to see me off." After drinking, Nu Jiang laughed heartily and directly disappeared into the teleportation array.

Zhou Shengqing: "Junior Brother, the Poisonous Dragon Ancestor is dead, so the strategic significance of Fengyu Fort is gone."

Another reason Nu Jiang was leaving was that Fengyu Fort was to disappear.

It's not that this rank-4 Water Vein was useless, but it was originally stationed by elite cultivators of the Water Vein from the Five Elements Sect, consuming large amounts of Spirit Stone and Spirit Rice annually. Now that the Poisonous Dragon Ancestor is dead, continuing on like this would be a waste.

So Zhou Shengqing's suggestion was to disperse most of the Water Vein cultivators to various spiritual islands in Yun Meng Ze, and from now on, the sect would no longer provide support on a wartime standard.

Of course, if these disciples were willing, the Five Elements Sect would also arrange cave dwellings for them to cultivate and live in the Immortal Cities of Eastern Wilderness.

Northern Abyss City might not be an option, but in the other Immortal Cities, housing prices were not so outrageous, and dispersing several thousand disciples wouldn't be difficult to accommodate.

"Let's do as Senior Brother suggested."

Chen Mobai didn't object to this, and considering the difficulty the Water Vein disciples faced all these years fighting demonic beasts, he even distributed additional rewards based on their achievements.

Of course, some Water Vein disciples didn't want to leave Fengyu Fort.

After all, it was a rank-4 Water Vein, the most suitable spiritual land for their cultivation.

Chen Mobai let them be, but in that case, they wouldn't receive housing allocation in the Eastern Wilderness Immortal Cities, nor extra rewards.

Because there were so many disciples to deal with, Chen Mobai directly summoned E Yun and let him, as the Acting Sect Leader, handle it all.

In Chen Mobai's plan, the land around Fengyu Fort would be transformed into a model Fang Market open to East Wu and would be the core for absorbing all the resources of Yun Meng Ze.

Now that Yun Meng Ze no longer had top-ranked demonic beasts, soon Eastern Wilderness and East Wu cultivators would organize to search for resources in this great treasure land.

And when these cultivators seek to monetize the resources they've found, they'd certainly look for a reputable major force.

Undoubtedly, it could only be the Five Elements Sect.

Therefore, Chen Mobai planned to build a massive Fang Market to handle this volume of goods.

As such, he intended to transform Fengyu Fort into an Immortal City.

“Junior Brother, if that's the case, the space might be a bit too small.”

Zhou Shengqing said after hearing Chen Mobai's plans.

Fengyu Fort consists of one large and two small islands, triangulated in formation.

While they suffice as a Fang Market, for an Immortal City, at least a capacity for ten thousand cultivators is needed, which is too small.

“Then fill in some land to build the Immortal City.”

Chen Mobai directly expressed his idea.

Zhou Shengqing was first startled, then realized.

Filling enough land for an Immortal City, needing vast expanses, would have been impossible for the former Five Elements Sect.

But things are different now.

With years of peaceful development, especially after securing Xuan Xiao Taoist Palace, the number of disciples in the Five Elements Sect has reached forty thousand.

Had Chen Mobai not increased recruitment requirements, with all major scholarly mansions pre-filtered, the disciple count could have been even higher.

Among these, there are nearly ten thousand Earth Vein disciples.

Getting half of them to help elevate the land could complete the construction necessary for the Immortal City within ten years.
