

World Plot 1761

Chapter 1761: 24.22 Sixth Violet Star - Black Egg

The two wardens, Yun Ming and Lou Wuye, accepted a mission under the request of the protagonist of the world, Long Juedi. After the mission was accepted Long Juedi only heard them say to wait for him here the next day so they could give him what he had requested. The young masters who were left behind still bicker at one another, until Long Juedi had enough of Pei Jin and took his leave.

As Long Juedi took his leave, the ones waiting for him all stared at his leaving back. One of them was Pei Jin, his expressive expressions from before had faded. He now looked expressionless as if devoid of any emotion looking through the world as something empty. It was as if everything that had happened just now was fake. This sudden change in expression was seen by the two wardens and two systems who pretended to leave.

Pei Jin sneered and walked away, blending with the crowd and disappearing.

Seeing this reaction, the four who were watching were stunned. Seeing someone change a whole 180 from their first impression, they thought only Lord Hei with his acting could do that.

System Yue commented, [Is it because he is the villain that his personality is like that? Are villains all two-faced?]

[Don't say that. Not all cunning people are villains. Master is sly but is he a villain?] asked System Yang.

Zhi Yue responded, [How could you compare Lord Hei to this man? Lord Hei is completely evil and not simply a villain, okay?]

[Yue'er, let's not say these words in front of the Master. I'm afraid you might get formatted.] Zhi Yang said worried about his partner's loose mouth.

Warden Yun Ming speaks base in his observation, "There is something wrong with the villain. Wuye, what do you think?"

"He seems to have arrived in this place and acted as if completing a task. He was surprised to see us appear and looked at us as if we were variables to his plan. His actions suggest that he knew that the protagonist will be here and he intentionally went here with calculated actions and thoughts. He would most likely investigate our origins," said the Chief Warden, Lou Wuye.

He added, "It would be better to create a fake background for us. Assuming that the protagonist might be connected to the two Ancient Lords, we mustn't get held back by an outsider's interference."

[Don't worry. I will handle it,] System Zhi Yang said as he connected to this world's world system and made a fake background for the two wardens.

On the other hand, Zhi Yue is confused by the words of Yun Ming and the Chief Warden. That child looked normal in and out. Just what is wrong with the villain?

System Zhi Yue asked, [So what is wrong with the villain?]

"His actions are calculated and seem to be following a script. I've been observing him since he talks with the protagonist. He didn't hide his intention well. When the protagonist retorted him his eyes sparkled with emotions as if saying 'As he expected'. Most likely the villain is either a transmigrator or a reincarnator," Warden Yun Ming speculated.

Zhi Yue frowned, [The existence of Chaos Flowers is already worrying. Now there is someone who knows the world plot's future. So how can we know if he is a reincarnator or transmigrator?]

"Simple. If he appears here again tomorrow and seeks to come with us to the Long Clan meaning he knew about the existence of the beastman the protagonist had taken home accidentally. That is one of the things which brought the protagonist to his peak in the future event," said Yun Ming.

The Chief Warden, Lou Wuye said, "He will either try to steal it or expose it."

"We can see it tomorrow. For now, let's grab a beast egg for the child and report to the lords that the Ancient Lords were once again dragged into the world plot of this star," said Warden Yun Ming.

System Yue said, [Should we at least be grateful that their memories aren't affected by this star unlike the last one?]

[Maybe the reason why their memories remain intact was because of that garden we saw in that barren land. Chaos Flowers, that is something only the Master and his first parents can control. If the Heavenly Laws sealed the memories of the Ancient Lords, they would not be able to control the garden of chaos flowers. Moreover, do you think the Master will make a move to control it if his parents can?] Zhi Yang said.

Zhi Yue, who had been in Hei Anjing's system for the longest, knew this lord's personality well. If he could sit, he wouldn't stand. If he lay down he would never seat. He also doesn't care if the world is destroyed, even if this world is destroyed the Trial of Marriage can be retried in another star.

[Lord Hei was never one to compromise. If he didn't wish to do it, he would never dare to do so. Plus, the person capable of changing his mind is always on his side. There is nothing this world can do about them.] Zhi Yue said.

Then their group once again returned to the ancient forest and found another time to report things to the God of Destruction and the Sovereign God of Void and Darkness.

—

Somewhere within the human city...

At the mansion owned by the Pei Clan, the youngest master, Pei Jin had returned home. However, unlike before when he was ignored and treated as a spoiled child, not only his family but also the servants, upon welcoming him they are unexpectedly respectful towards him.

"Welcome back, Young Lord Jin!" The butler greets while the servants behind him all bow down before Pei Jin.

Pei Jin treated them coldly but still used them as he could. After passing his coat to the butler, he looked around and felt that the mansion was a bit desolated.

He then asked, "Where are the others?"

"The master is out. The others are at their own rooms," A servant answered/

Young Master Pei Jin said, "Inform me once father is back." He heads to his own room without saying any goodbye to the others.

Inside Young Lord, Pei Jin's room...

Pei Jin after taking a bath, he heads to his training room where a huge black egg is located. This is his spirit beast egg and is currently waiting for it to hatch all this time. It started pulsing when the beast egg his owner was coming. As soon as Pei Jin entered the room, he looked at the big black eggs with excitement on his face. Unlike the emotionless face when he just left after meeting Long Juedi, right now he couldn't even wait as he wanted to hug his beast egg.

As he hugs his beast egg, "Have you been waiting for my beast egg? Don't worry. I have prepared a lot of blood for you~"

He had made a few gestures with his hands and the whole area swirls and the space had been distorted. Once the space and the scenery was completely distorted, the ordinary training room from before was replaced by a huge basin where the beast egg was located. The surrounding walls were covered with a few stone prisons and stone walls. Within these stone prisons are his prisoners and medicine people for his sake of use alone.

With a wave of his hand, a few stone prisons were forcibly opened and an invisible energy grabbed some living people inside and dragged them to the huge basin where they were forced to bleed and a small pool of fresh blood had gathered within this basin.

AHHHH

The painful screams of the one being dried up of their blood echoes in the whole room. However, once the formation within the room was activated, it became no different from another dimension. No one can be seen from this side to outside and no one can hear the loud sounds here from the outside of this room. In reality, maybe Pei Jin's parents and clan don't even know what he is doing and how he possessed such an egg.

Once the egg was placed in a huge basin of blood, it started crazily moving as the blood was sucked by it. The black egg glows with crimson shade as the black egg shows traces of blood colored lines on its egg shell. Pei Jin was anticipating the hatching of these beast eggs. Unfortunately, even after all the blood was sucked, it still didn't hatch. As if used to this kind of ending, Pei Jin calmly observed his beast egg.

Sigh~

He mumbles, "So, it is still not enough. Don't worry my beast egg. I will gather more blood for you as long as you hatch soon for me."

Pei Jin looked at the egg lovingly as he hugged it with his arms wrapped around the beast egg. But the egg was too big to completely embrace the hug. Ignoring the pile of dried corpses in the area, Pei Jin cradles the egg as if it is the most important thing in his life.

"Wait for me. I will definitely successfully hatch you in this life," Pei Jin said.

Chapter 1762: 24.23 Sixth Violet Star - Distortion

The unknown black eggs origin wasn't seen by the wardens and the systems as they didn't follow the world's villain back to his home. However, just by how it was fed with human blood, this egg isn't an ordinary beast egg. It is something more sinister than a beast and something that shouldn't have existed in this world. But the obsession shown by Pei Jin was something he isn't in control with. Even his words suggested that in another timeline, this black egg wasn't able to hatch at all.

Pei Jin watches as his big black egg absorbs all the blood in the basin. He then commanded people to clean up the dried corpses to be cleared.

"Servants, clean up the bodies! Do you want to be sacrificed next!"

The servants waiting at the side tremble at the words of their young lord. They immediately move to clean up the area as they truly believe that this cruel young lord of theirs wouldn't just threaten them and would truly do as he says. After all, a lot of servants before them had been sacrificed to that evil egg and had their blood drained from their bodies like these slaves that just died. The servant left in a hurry afraid that he would be killed next. Their young lord looks at them like dead people.

Pei Jin caressed the black egg lovingly before preparing to leave.

"I will be back. Once I grabbed that beastman cub from Long Juedi and fed it to you, you should be able to hatch successfully."

—

Ancient Forest. Beastman Village.

After the sun had set, Hei Anjing and Ye Xiajie were picked up by some adult beastman and sent to their leader. Though they were allowed to play at the outskirts of the village, they were required to return before the sun sets. That's why some beastmen would always come looking for them before the sun completely sets. Huzi, the nine tailed fox beastman, sent them back to the cave and served their dinner.

After eating dinner, Huzi said to his children, "Dad has to attend a village meeting. You don't need to wait for dad to come back. Go to sleep early, my babies~"

He only rubs their heads gently before tucking them in their beds. Only when Huzi saw his cubs yawning that he decided to tuck the children for the night.

"Good night, Cubs~" Huzi said.

Ye Xiajie responded, "Good night." As for Hei Anjing, who is pretending to be a beast, only rubs its face on Huzi's hands.

The lights in the cave were turned off before Huzi had taken his leave to attend a late village meeting. This is a meeting in name. In reality, the adult beastmen gather at night to have a drinking party. This usually only happens twice a month and today happened to be the day for it. After the footsteps of Huzi became distant, the God of Destruction who was pretending to be a small fox transformed into another toddler similar to the Sovereign God of Void and Darkness.

Ye Xiajie also opened his eyes and saw this scene as well. Though he had seen his wife turned into a child, this is the first time he is seeing him in a baby form. He immediately fell in love with such a cute wife.

The Sovereign God of Void and Darkness hugs his wife and rubs his cheeks with the other with an adorable smile on his face.

"Baby~ you are so cute. A bit similar to Xiao Jing when he was born. However, much cuter than he is," said Ye Xiajie.

Hei Anjing whose cheeks were being lightly bitten by his husband, "Noh bating!" his age was so young that just talking is making him twist his tongue. This is very similar to twins when they are young.

Ye Xiajie just felt his wife was cuter even when his tongue was twisted as he tried to speak words. He can only jump onto his lover and hug him. However, because they are both young, chubby and round. This hug ended up with them rolling down the bed. Thankfully there are people who caught them on it. It was the wardens who resumed their original forms.

Zhi Yue commented, [Safe~ Phew! How can they suddenly roll off the bed? Is it because they are round?]

[Don't say round. They are just small and chubby looking a bit puff,] Zhi Yang said.

Zhi Yue looked at his alter ego with confusion on his face. [Is that any different from what I've just said?]

Warden Yun Ming said, "That's dangerous!" In the end, the Chief Warden helped carry the two toddlers back on the bed.

The two gods looked at their subordinates calmly as they didn't mind much how they looked and how others looked at them.

The God of Destruction asked, "You've come back in just half a day? Have you found them?"

"Master, we cannot find any traces of the two Ancient Lords. However, the world plot says that the protagonist of the world had bought a Beastman Egg mistaking it for a Beast egg. This egg is something from the laboratory, meaning the Ancient Lords might be with the protagonist," Warden Yun Ming said.

Lou Wuye added, "We also found a variable in this world. The villain seems to have been reincarnated."

"We thought that he might either be reincarnated or a transmigrator. But he cannot be a transmigrator, as the scent of his soul is similar to this world. He is definitely a reincarnator," said Warden Yun Ming. "This world had too many things that had not been recorded in the World Plot."

The God of Destruction said, "The distortion in this world had begun. Once those flowers have fully bloomed then... this world will be beyond saving."

"Would using the time element stop the distortion?" asked the Sovereign God of Void and Darkness.

Hei Anjing answers, "No. Unless it is a domain, it would be affected by it no matter what."

"I have a minor domain of time elements," said Ye Xiajie.

The God of Destruction shook his head and said, "You cannot get too close to it. The power of gluttony was born from Chaos itself. You might lose control if we are not too careful. The safest bet is to make the two of them (Hunluan and An Shizhe) solve the problems about chaos flowers."

The power of chaos is simply too dangerous for ordinary gods. Even for the Sovereign of Void and Darkness, there is no guarantee that it would badly affect him. After all, this is a power which gives life to the universe and stars as well as death to all existence. The Chaos flowers in this world compared to the ones before are completely different. Before Hunluan had returned to life, all chaos bloomed in its dormant state.

In short, the distortions wouldn't be born from it. Now that Hunluan had come back to life, these dormant flowers started becoming active. This is all because they are affected by the rebirth of the Ancient God of Chaos in the current era. As long as the Ancient God of Chaos is present in the world with chaos flowers, its effects will be multiplied and be deadly to all other existence.

Hei Anjing said, "You guys are going to the protagonist's house tomorrow. Make sure to find those two and immediately report the situation to them. Once the distortion has begun, this world will be beyond repair. I can only destroy it to prevent it from spreading chaos. Chaos cannot be spread. Once it does, it would attract those beings beyond this cosmos. It loves the power of distortion the most."

As the God that had been protecting this world from those aliens beyond the cosmos, he knows what attracted them in their cosmos. That is the power of chaos and gluttony. He who was born from chaos itself had attracted all the enemies on the Cosmos Battlefield and it was also for the same reason why he had killed all those aliens and prisoned them at the depths of his domain. They had gone insane just being exposed to the power of chaos.

Ye Xiajie asked, "Will I still be affected by those flowers even after borrowing your powers?"

"This... I haven't tried. I do not advise you to try it though. Let Hunluan handle that power. I am worried about the things that might be called to this place because of distortions once it began," the God of Destruction said and noticed that Huzi was about to return home.

He abruptly informed the others about it and said, "Huzi is coming. You should take your leave. Do not forget. You must find them as soon as possible and report the current situation to them, especially to Hunluan."

"Is there no way for the distortion to be halted?" The Chief Warden asked.

Ye Xiajie said, "Since the blooming of Chaos Flower would cause distortion, isn't it better to uproot it before it blooms?"

"Not possible. Since it was about to bloom destroying it now would cause all energy in it to explode and spread. That would lead to instant death of this world and all gods not born from chaos will be affected and go insane. You cannot try doing so," said Hei Anjing.

Chapter 1763: 24.24 Sixth Violet Star - Mercenary Tower

Huzi, the beastman leader of the village, made two known presence in his cave on his way home and hurriedly returned to his home to check on his cubs. His hair had turned white as snow as two fox ears appeared on his head. His golden vertical eyes looked around vigilantly as he instantly headed for the bed to check on his children. Seeing the two cubs sleeping peacefully hugging each under one blanket made Huzi sighed in relief.

Sitting at the side of the bed, he carefully took care of his cubs with their blankets which kicked with them moving around in their sleep. His eyes were gentle and full of emotions of adoration. Once his eyes moved away from the cubs, his eyes flashed with coldness.

Huzi mumbles, "This is the second time already? Who can come into my cave without alerting the formations I placed around. How are they able to come inside?"

The coldness in his eyes once again melted as it landed on his cubs, and realized something. Those presence only appears when he is not around and it is always around his cubs. It would disappear when he came out or return to the cave as if that presence was avoiding him. Huzi thought of something but no longer voiced things about those intruders. He had a way to catch them off guard. In the end, Huzi joins the cubs on the bed and sleeps with his arms around them.

Once Huzi fell asleep, the two cubs opened their eyes. They both look at their dad in this world and choose to lean towards him. They had witnessed the reaction of this beastman ever since they returned to the village as eggs. They saw him crying behind his people's back cradling him. As if the most important treasures in his life had returned to him.

They also noticed that this beastman was too overprotective of them ever since they had hatched and they can truly feel his love for them. Which is why the two of them are willing to accept him as someone to be protected under their wings. At the very least in this world, Huzi's protection will be their responsibility.

The thoughts of the God of Destruction: 'I guess I have to warn A'Ming and Wuye to meet us in their cub forms and pretend to be a species that control space to make an excuse of how they are able to sneak in the cave.'

—

In the human land, at the marshal's territory.

Long Juedi returned home and told his family about the pair who accepted his commotion. He looked like an excited kid telling stories to his parents about his experience in school. The old marshal, his father, uncle and cousin, Long Teng had gathered in the living room waiting for dinner. Ever since the last time Long Kian had made a mistake and offended the two beasts at the detached manor, his father ordered him to stay at home.

Long Teng was healed by Hunluan and is no longer foolish. However, because of that event where he suffered, he avoided the detached manor no matter what. He can still recall how humans liked the expression that black lion cub had when he looked at him that day. Disdainful eyes, chilly gaze as if looking at a dead man.

Long Juedi asked, "Do you think they can do it? It's been awhile since someone accepted a mission located in the ancient forest. After the wooden wall appeared, no humans who entered there were able to survive." He was asking his elders whether those two men he met could provide him a beast meant for him.

An amateur beast tamer like him can only sign a contract twice. One for the main beast and the other for the support beast. He can sign more beasts only when his strength is promoted. The levels of beast taming from weakest to strongest are the following: Amateur (2 beasts), Elite (3 beasts), Expert (5 beasts), Master (7 beasts) and Heavenly (9 beasts).

The main beast contracted beast is connected to their master by life and death. If the master dies so is his beast. However, the master will not die even if the beast is killed though their soul will be injured making it almost impossible to sign another contract for the main beast. The difference between a main beast and support beasts is that, the main beast's strength, power, and abilities can be shared with their beastmaster. Likewise, a beast who signed a control can get promoted in strength through battles.

The classification of beast strengths are the following: bronze, silver, gold, lord, king, and god. The old marshal's main beast was at least gold rank. The current marshal's beast is peak tier silver rank while his brothers is low tier silver rank beast. Long Teng is just an amateur beast tamer who recently signed a contract with his main beast and it's just bronze like all beginner beasts.

"Are you stupid? You are being fooled. Do you think someone will still enter that deadly forest to get a beast egg?" Long Teng said.

Long Kian glared at his son. He knew that Long Juedi had a good relationship with those powerful beasts at that detached manor. They couldn't openly offend this child right now.

"Teng'er, watch your words,"

Long Kian reprimands his son. Then he looked at Long Juedi talking to him like a kind elder worried about his situation.

"Forgive your brother's mouth. I don't know where he picked up talking like a thug. However, he is right. You cannot easily believe people who are involved in things like the ancient forest. Right now, that place is considered a deadly zone where no human was able to come out alive."

"Your uncle is right this time, Jue'er," said Long Tian.

Long Kian noticed his brother's unkind tone and retorted, "What do you mean by 'this time'? Are you trying to say I am always wrong!"

"I wasn't the one who said that. You've spoken it yourself," said Lon Tian.

The two started fighting again and the two young men were watching from the living room beside them. Long Huang was sighing.

The old marshal said to his grandsons, "Ignore those two fools. Jue'er, tomorrow bring your brother with you to meet that pair who promised to accomplish your mission request. Carry an identifier with you, if they truly brought a beast egg, use the identifier on it. This is to check whether the beast egg is alive or its a dead egg. Also to check if the egg is stolen or not. If they didn't appear on the promised time schedule, go back. It can only mean that they have failed to survive."

"Grandpa, obviously those two won't survive. Why do we still need to waste time to leave home?" complained Long Teng.

Long Huang said, "Since they are so sure to survive, maybe there is a chance they would survive. A chance cannot be wasted, even if they failed there is nothing wrong with you going to the Mercenary Tower. Maybe you would be lucky enough to find an egg for your brother's support beast."

As for Long Juedi's main beast, Hunluan and An Shizhe promised to help him find one within this year. So they aren't worried much about it. This is a promise from a powerful beast. A beast that can speak and communicate like a human. Moreover, it can be said that Long Juedi is the savior of those two

beasts. That is also the reason why these two beasts promised to help Long Juedi find a beast suitable to become his main beast.

The old marshal said, "Do you two understand?"

"Yes, Grandpa!" Long Teng and Long Juedi responded.

—

The next morning at the Mercenary Tower, Long Juedi had dragged his cousin, Long Teng with him to meet with Warden Yun Ming and the Chief Warden, Lou Wuye. By the time they arrived at the tower, people were surrounding the room where the two wardens were. After all, they had reported the completion of the mission to the tower making them a powerful pair who completed a mission considered as a dead end.

Members of the tower had just finished their conversation with Yun Ming and Lou Wuye by the time these brothers from the Long Clan arrived.

Yawns~

"What is happening here? Why are there too many people?" Long Teng asked while looking sleepy.

Long Juedi didn't know the reason, but he overheard people in front of a room talking so loudly about it. Both mercenaries and recruiters had gathered in place. They are all talking about the same thing. This young master from the Long Clan started eavesdropping in their conversation.

"Have you heard? They say this pair came out of that dead zone alive!"

"You mean the Ancient Forest?! They just returned from there!"

"Is that even possible?"

"That's right. Even the group of A grade mercenaries died in that hellhole. How can one be sure that they come out from there?"

"But the patrol guards saw them coming from that direction of the wooden wall. There is no need for them to lie with witnesses on their side."

"Is it not possible to be a scheme or something?"

"No. The beast egg they pulled out had just finished being identified."

"The staff of the tower were all speechless by the result."

"They say everything was real and the egg wasn't stolen. I heard the egg is a new type as well."

"That's amazing. The tower planned to buy it but upon hearing that this is a mission issued by the young master of the Long Clan, the mercenary tower held back."

Suddenly two among the crowd turned around and saw Long Juedi with Long Teng standing beside him. They shriek in surprise, getting others' attention as well.

"Long Juedi!?"

Chapter 1764: 24.25 Sixth Violet Star - Healing Ability

Long Juedi and Long Teng's arrival to the mercenary tower had caught everyone's surprise. After all, one of them is the one those people inside the room are waiting for.

"You are finally here!"

"Get inside! Your egg was legit and was tested by the tower. Moreover, it's a unique one for a support class beast."

"You are so lucky!"

"I can believe those two truly brought an egg over."

"People said they saw this pair coming out of the ancient forest alive."

"The patrol guards were also shocked and thought that undead appeared in the city!"

"Go in."

"They have been waiting for you all this time!"

As expected, the people outside pulled the two youngsters and pushed them into the room which finally caught the attention of those three inside. The two wardens, Yun Ming and Lou Wuye, who were pretending to be mercenaries and the president of the mercenary tower were waiting for Long Juedi to arrive. Thus, when they saw him coming all eyes had fallen on this young lad.

Yun Ming was smiling when he saw the child. His face was as gentle as always as he welcomed Long Juedi.

"Young master, you are finally here. My husband and I brought your requested beast egg from the ancient forest. The tower master had checked it. However, just in case, would you like to check it before accepting the egg?" Warden Yun Ming asked.

Long Juedi and his cousin, Long Teng stare at the white egg with golden hue pattern. This is the first time they had seen such a gorgeous looking beast egg. It even looked a bit holy as well. Everyone can guess that these beast egg had most likely had connect with a rare ability which is healing.

"This egg... Is this the beast egg you got from the ancient forest?" asked Long Juedi with his eyes full of excitement.

The tower master commented, "Young master Long Juedi is truly lucky. This egg is considered a rare one with healing ability. It can be found at the hidden area within the outskirts of the ancient forest near a deep cliff. No ordinary beast master can do such a thing."

"Impossible! Our Long family even sent an Elite rank Beast master to the ancient forest but he never returned. How come these two can suddenly bring out a beast egg from a place considered as a dead zone!?" Questioned Long Teng. He truly believes such a rare beast egg wasn't something taken from the ancient forest but somewhere illegal instead.

The Chief Warden looked at Long Teng with eyes full of indifference and said, "Are you saying that we are a fraud? If your Long family doesn't accept it, it can still be sold for a price."

"The mercenary tower can buy it for a big price," said the Tower Master.

However, the one who issued the mission said, "No! Mister, please don't listen to my cousin's words. I am the one who had issued the mission. The decision will be made by me. I want it!" Long Juedi said.

Seeing this the adults didn't say anything else. Before Long Juedi had arrived, the three of them had their own conversation in which, Yun Ming and Lou Wuye, pretended to be beastmaster with high rank and sold a few good beast eggs to the tower but saved the best for their client which is Long Juedi.

The tower master decides to leave and pats Long Juedi's shoulder on the way out. "Truly a lucky boy. To think your mission would attract a Master level beastmaster to complete it. You deserve that egg. It's the best beast egg for support."

Leaning a bit closer to the young man, the tower master whispered, "However, the payment won't simply be money. Watch out."

Only when these words had been spoken that he walks out and meet these group of melon seed eaters.

The tower master looked at the people that had gathered by the door and said, "How long do you intend to eavesdrop? Disperse!"

After the people had left, they saw the face of the tower master commanding everyone to move away from the room and causing disturbance, they watched the cold appearance of the beast tower master and a group of bystanders start. Once they heard his voice, they had split up to hide something.

After the tower master had taken his leave, Warden Yun Ming had escorted the two children to their seats. The moment they had taken their seats, the two noticed that they couldn't move all of the sudden and couldn't speak or scream. Long Juedi and Long Teng looked at each other with fear in their eyes. They couldn't believe that someone would truly make a move against them.

Seeing their frightened look, the warden chuckles. With a move of Yun Ming's hand, a small snake slipped out from their back and crawled back to Yun Ming.

Warden Yun Ming said, "Alright. We are just scaring you or a bit. This is just a small joke suggested by the tower master of this building."

"Don't be afraid. We aren't that much interested with you two brats," said the Chief Warden voice still sounds unfriendly as always.

Warden Yun Ming said, "The tower master wouldn't have lent this room if he didn't trust us. Alright, let's talk about the compensation. We do not need any money, just a few questions you need to answer honestly."

"Galaxy pattern one blackish-purple and one silver. Have you seen eggs like this?"

The two wardens were closely monitoring their reactions. But as children, how can they know something as a poker face? They instantly flinched when they heard about the galaxy patterned eggs and Long Teng even spoke up.

He said, "Those eggs had longed hat—"

Long Juedi urgently covered his cousin's mouth and said, "We don't know anything!"

The child, Long Juedi, looked at them vigilantly. Clearly, unlike Long Teng it seems that his relationship with those two are closer than they expected. Warden Yun Ming and the Chief warden looked at each other and nodded their heads.

Yun Ming placed a small envelope on the table beside the egg and said, "Please give this to your grandfather, the old marshal. The egg is the payment to do so. By the way, our names are Yun Ming and Lou Wuye, if those two asked for it you can tell them that."

The two wardens stood up and prepared their leave. They didn't think much about the children and walked out of the door where the tower master himself was waiting. The Chief Warden glances at him and ignore. Only Yun Ming politely speaks to this tower master.

Yun Ming said, "We've returned the children to you unharmed."

"The father of one of those brats is a friend. I am just keeping an eye on them in my territory. One question: Did you actually enter the ancient forest?" The tower master asked.

The Chief Warden, Lou Wuye, responded. "Of course. Do you think we are lying?"

"You can go in now. We are taking our leave," said Warden Yun Ming as he pulled his lover away from him.

As the two of them disappeared from the crowd, a man appeared beside the tower master and ordered, "Tail them. Not too close and not too far."

"Yes, Master!"

After this command, the tower master entered the room to meet the children. As soon as he entered, he saw the two children having a brawl. Seeing them like this, the tower master recalled their father who would also brawl this way when they got into the fight. The tower master looked at the unmoved egg on the table. Beside it is a small envelope with no words.

The tower master checked the letter but found nothing unusual. He placed down the letter and grabbed the two brats still fighting. After a while, the two sat back on the table with a disheveled look because of their fight.

The tower master said, "Stop fighting. Tell me everything those two had done and asked."

However, Long Juedi didn't speak a word. Long Teng wanted too but stopped after being blackmailed by his own brother. Seeing them keep quiet, the tower master understood that whatever those two had asked the children was something he can't know even if he wanted to and it might be connected to the secrets of the Long Clan.

Sigh~

"Alright. It's time to go home," said the tower master, then his eyes wandered to it and said to Long Juedi, "This egg is special and many outside this room wanted it. They might want to steal them as soon as you leave the tower. To avoid that I can only send you back home personally."

Long Juedi wanted to decline this escort but when they were pushed out of the room, countless eyes had fallen on to them and most of the intention behind this eye is not good. They are all staring at the egg in Long Juedi's arm. Even Long Teng felt uncomfortable with their stares.

The tower master asked, "Are you still going to decline my escort?"

"Please send my cousin and I back home," Long Juedi said.

Chapter 1765: 24.26 Sixth Violet Star - Tower Master, Mu Liao

The attention of the newly found beast egg in Long Juedi's possession had indeed caught the eyes of the thieves within the crowd. Moreover, even if they aren't thieves this egg can simply attract the greed of the other due to its unique ability to heal. Even for the Tower Master of the Mercenary Tower, such an item is too precious. The only reason he isn't showing greed like the others was because he met the source of this egg. If he had estimated that pair's strength, it can be said that they are at least a Master rank beastmaster or even more powerful than that. After all, the ability to enter and leave the ancient forest shows one's might without question.

Seeing the eyes that had fallen onto them, Long Teng and Long Juedi shiver in fear. These aren't good eyes to land on them. It can make one nervous and anxious. However, when they accepted the tower master's suggestion to sent them house, the eyes that landed on the two of them before had faded a bit making Long Teng and Long Juedi, sighed in relief.

Escorted by the Mercenary Tower's Master himself, the two young men who were being closely targeted can now sighed in relief. The tower master named Mu Liao, an expert ranked beastmaster, agreed to the young man's request.

Tower Master Mu Liao agreed to the request of Long Juedi. He was interested to see how the marshal's family would react to the existence of that mysterious pair whom he just met. He was so sure that something was wrong with those two. It is just that he himself is unable to make a move on someone from the marshal's family..

He gave those who were still looking at them with a warning gaze and finally brought back the cubs of the marshal palace. He didn't know who had informed the marshal about his presence, but as expected Marshak Long Tian and his brother, Long Kian were waiting for him at the gates of the Long family.

Long Kian gestured to the children to immediately return to his side, "Jue'er, Teng'er, come here."

The children only glance at the man who brought them here and run back to the side of their fathers. Seeing that he didn't stop them made them a bit relieved. This Tower Master, Mu Liao, is now staring at Long Tian with a friendly smile yet there is no smile on the face of the marshal.

"Marshal Long Tian, I had successfully brought back the children of your clan. How about inviting me in for tea," Tower Master Mu Liao asked.

The marshal stared at him for a long time before Long Tian opened his mouth and said, "My father wanted to see. Come inside for some tea."

"It will be an honor," said the Tower Master of the Mercenary Tower, Mu Liao.

Although the tower master expected that he would be invited in for sending the two children of the Long Family back home, he would have never expected that it was the old marshal who would especially invite him for a tea. Now the tower master was as nervous as his excitement increased upon hearing such a rare opportunity. In the end, he followed them inside the house and was escorted to the hall where the old marshal, Long Huang, was waiting for them.

Long Huang welcomed the guest over and said, "Child of the Mu family, welcome to our house. Would you like to join this old man for tea?"

The tower master, Mu Liao finally sees the old marshal. In the outside world, they said that the Long family's old marshal was dying after he caused a lot of death from his last battle at the ancient forest. His opponent was Huzi, the nine-tailed fox beastman leader who had almost lost his mind for thinking how many people of their race had killed cubs and eggs of the Beastman race. At that time, the old marshal was unable to deny anything as it was indeed true that the one who did such a thing is none other than people from the human race. It was because of this event that the human race became enemies with the beastman tribe.

However, seeing the old marshal at this moment made Mu Liao startled. Long Huang was completely healthy. Not just health but someone who looks completely uninjured. No paleness of skin, a rosy skin that showed and even his main beast by his side was completely uninjured.

The thoughts of the tower master upon seeing a completely healthy old marshal: 'How is this possible?! The information said that he was half dead and his beast had lost some limbs from the last battle in the ancient forest. How come he looks completely healthy? Not even a trace of injury was found on him?!'

The tower master, Mu Liao, greeted the senior before him completely politely unlike his thug-like reaction when meeting the current marshal.

"Mu Liao of Mu Clan greets the old marshal!"

The tower master pulled something out from his storage. A can of expensive tea called Golden Dragon Whiskers and offered it as a gift to the elderly.

"Old Marshal, I don't have much from my side. I hope you accept this Golden Dragon Whisker tea from this young one," said Mu Liao.

The old marshal gestured to the butler to take it and said, "This old man loves tea. I shall enjoy this can of tea to enjoy with you. Come over and take your seat. This old man has a few questions to ask."

Mu Liao had sat on the free sofa opposite of the old marshal. The two youngest were told to wait at the corner of the room looking at the gorgeous egg in Lon Juedi's arms. As for the current marshal and his brother, Long Kian, they both stood behind the old marshal letting the two of them have a conversation. The eyes of the current marshal had always been judgemental upon seeing him. Normally, he would taunt Long Tian seeing him act this way. But right now that is impossible in the presence of the old marshal.

After his offered tea was served by the butler to everyone in the hall, the first one to enjoy the tea was the old marshal. He only enjoyed the scent of the tea and took a sip.

Old Marshal, Long Huang, said, "Good tea."

"I am happy that seniors enjoy it. Can this junior now ask why the old marshal invited this old me?" Tower Master Mu Liao asked.

Long Huang didn't hold back by beating the bush and said, "This old man wanted to talk about the two men who had accepted the mission from my youngest grandson. Who are they? Their information. Did they truly come out from the ancient forest alive etc. Everything that involves them. This old man wants to know everything."

The friendly aura from the old marshal before was now replaced with something that restrains people. Stern demeanor, cold gaze and an undeniable presence plus the pressure he gives out just being before them was enough for the old man to show his power.

"Everything about the pair who accepted the mission from the youngest of the Long family, this junior is willing to tell everything. However, there is something I wanted to know. If the Old Marshal gives me the answer to this question, I will share all the information I have gathered about those two unique pairs that your children had met," said Mu Liao of the Mercenary Tower.

The old marshal didn't answer right away and enjoyed his tea. As for the current marshal and his brother, they gave him a fierce pair of eyes but didn't dare open their mouths in fear that they would be dragged into this mess. Moreover, the decision still fell on the calm old marshal after all. They all look at Long Huang waiting for him to open his mouth. Silence descends in the whole room. Except for the two children playing card with the servants of the house at the corner, everyone attention was on the old marshal waiting for him to give the tower master of the mercenary tower an answer he had been waiting for.

The old marshal, Long Huang said, "Alright. This old man will at least listen to your question. Ask away."

The tower master, Mu Liao, didn't hesitate and asked the one thing that confuses him the most and wanted to know the most as well.

He asked, "I would like to meet the one who had healed the old marshal!"

Long Huang, this old marshal was completely calm. Long Tian was expressionless as ever and even Long Kian had held back his reaction. However, Tower Master Mu Liao noticed the reaction of Long Juedi at the corner of the hall with his brother, Long Teng.

The old marshal responded, "Meeting the healer is not possible, However, I would ask for their opinion about his request. If he agrees I can only ask you to bring the patient over to this place. If the latter doesn't agree then I can only apologize. There is nothing I can do about it."

"It's alright. As long as the Old marshal speaks a word of my father's situation to the healer. That is enough," said the tower master, Mu Liao.

In the end, he shared everything about the two wardens pretending to be mercenaries of his tower to everyone in the Long Clan.

Chapter 1766: 24.27 Sixth Violet Star - Letter

Marshal's Palace

A guest from the Mercenary Tower, the Tower Master himself, Mu Liao, had come to visit the Long Clan. He had used the two young masters of the Long Clan, Long Juedi and Long Teng, as an excuse to see the elders of the Long Clan, especially the Old Marshal. It can be said that before the Mercenary Tower was created, Mu Liao's father was a beast master under the Old Marshal. Because of the last battle against the beastmen and losing badly, he was forced to abdicate as this failure caused a half of his soldiers losing or dying under the fist of the beastmen race.

A lot of the beast masters at that time had suffered a lot even after surviving the ordeal of life and death. They ended up like the old marshal, crippled or losing a few parts of their body. That's why My Liao was surprised to see the old marshal no longer crippled. It can be said that among the beast masters that had survived that day, the one within worse state was the old marshal whose both legs were personally crippled by the leader of the beastmen race, Huzi.

Huzi is a rare mythical beast man of the fox race. He is a nine-tailed fox who is well-known for his strength in controlling ice and seduction. It can be said that he is also the most beautiful beastman in existence due to his ancient bloodline of a Nine-tailed fox who was said to possess divinity and considered gods among the foxes.

That's why at that time, when the beastmen race declared war against the human race, the old marshal immediately ordered a retreat. However, despite that order half of them were still purged. The old marshal knew that the beastman called Huzi had given them mercy. After all, it wasn't hard for him to exterminate them all. They were left alive as a warning to the human race.

That's why when Tower Master Mu Liao saw the old marshal state he instantly realized that the Long Clan had found a way to cure one's wounds and injuries. If it's in the past, the Mu Jia wouldn't have to use the descendants of the Long Jia to meet the elders. But because of the people who had forced the old marshal to abdicate was his father, the Mu Clan and Long Clan lost their original relationship as vassal and master. Becoming a stranger is closer to becoming an enemy instead of a good neighbor.

That's why to gain the old marshal's favor, Mu Liao had told them everything about the two mercenaries that had accepted Long Juedi's mission and accomplished it just within one night. The more the people of the Long Clan hear information about the two men, the more their expression turns serious yet mixed with disbelief.

Long Kian said, "Getting a beast egg from the ancient forest just overnight? Impossible! It's more believable that the egg was bought somewhere else for a high price just to make contact with our clan!"

"I thought so too... However, it is not possible. I've already checked with the auction houses and all hidden facilities. No one owns that egg. Moreover, such a beast egg with rare ability, it would have been used as a main attraction anywhere. But that couple gave it away without care. When I said I wanted to check the egg, they gave it away without hesitation even treating it as a common toy for children. They never cared about that egg," said Tower Master Mu Liao.

The current marshal, Long Tian, said, "It was intentional. The one they wanted to meet was Long Jia and not my son. Giving him a powerful support beast egg was to gain our favor. What do you think, father? It's not a surprise that a beast egg will be used as a favor after all it was well-known that we had cancelled Jue'er's hatching ceremony before."

"However, why offer a support beast egg rather than a main beast egg?" Mumbled the old marshal.
"Intentionally gave support type beast eggs or..."

If it was before it wouldn't be surprising that one wouldn't gift a beast egg for a main beast as usually only the elders of the family can prepare those kinds of beast and this is to match their family line of beast. Like an inheritance. However, it is different nowadays. In this era where beast eggs are extremely sparse, even a normal ranked egg can be used as a main beast as there is no other choice.

Moreover, those two high ranked beasts living in their place promised to give Long Juedi the most suitable beast egg as his main. It just won't happen this year as the beastman cub among the two is still unable to come out with its weak state. A year is needed for his bone to gain strength.

However, what the Long Clan didn't know was that this was just an excuse so these mortals wouldn't think that the two of them are heavenly-defying. They didn't want to be treated as a god as like the God of Destruction and the Sovereign God of Void and Darkness, they aren't on anyone's side.

No one was able to answer the old marshal's question and instead asked, "Is there something else?"

"Yes. There should be a letter. Though I do not think it was addressed to the old marshal," said Tower Master, Mu Liao.

The old marshal and the people of the house said, "A letter?"

"Where is it?" The current marshal, Long Tian asked.

Tower Master Mu Liao replied, "The letter should be with your son."

Everyone's eyes looked for the figure of Long Juedi and saw the two young masters checking on the gorgeous egg in Long Juedi's embrace.

Long Teng said, "What kind of beast possessed healing powers and size this small." They were told that this egg is already at its hatching state and the size of the beast might not be as large as a human head.

Confused, Long Juedi said, "Maybe a mouse? Mice are small."

"Ordinary mice are indeed small. But I don't think a beast type mouse would be smaller than your head," said Long Teng.

All of a sudden they noticed their elders all looking at them. Because they are seated on the carpet and the adults are all standing, they looked like they were being looked down upon by giants and making the two children flinch.

Long Teng cursed in surprise, "What the he—!!" His mouth was covered by his younger brother and he also held back his words when he saw their elders glaring at him.

The old marshal, Long Huang asked, "Jue'er, was there a letter given to you by the ones who gave you that beast egg?"

"Letter? Was there something like that?"

asked Long Teng.

At that time he was so focused on the gorgeous looking egg and didn't notice the letter the two wardens had given to Long Juedi.

"Dad? (Grandpa?)"

The two were calling different dads but the same grandfather.

Long Juedi recalled something like that. He gave his egg to his brother to hold and pat his clothes. He remembers putting it somewhere in his clothes before leaving the mercenary tower. He felt some kind of paper in his pocket. Unexpectedly, when the letter was pulled out from his pocket it wasn't crumpled by the little space his small pocket had. But he didn't think about such a weird phenomenon and gave the letter to his grandfather.

He said, "Here it is, Grandpa. But that uncle didn't say to whom I should give it to. Grandpa can have it instead."

After the young ones had passed the letters to the adults, they no longer looked at them and waited for the egg to hatch. As for the old marshal who received the letter, he felt something strange about it. This letter gave him the feeling that they wouldn't be able to read it at all.

As expected, the moment he opened the letter an unknown language was written on it. To avoid mortals from being able to read the letter, the two wardens and two systems decided to write it using ancient language only gods can read and understand.

Long Kian was the one who commented first upon seeing the weird letter. He mumbles, "What kind of language is this?"

"Father, can you read it?" asked Long Tian.

The old marshal shook his head and frowned. "This is the first time I saw this kind of language."

"For some reason, I feel like I saw a script similar to this. Where did I see it again?" murmured the Tower Master, Mu Liao.

Long Tian said, "Are you sure you saw it somewhere? Not imagining things again."

"Nonsense! Unlike you, I love reading books. I just don't remember where I saw it. I need to check the places where I read the books before," said Mu Liao. "Old Marshal, can I borrow that letter?"

The old marshal thought of something to hide the letter. "There is no need. I think I know the right one to ask about it. If even they couldn't read this thing then I will give it to you."

The tower master wanted to ask who it was, but he knew that the relationship between the two families is no longer the same as before, He can only leave the Long Clan's Palace after receiving the promise to summon them once the healer agrees to cure his father.

Chapter 1767: 24.28 Sixth Violet Star - Receiver of the Letter.

After sending the tower master of the Mercenary Tower away, the current marshal, Long Tian and his brother, Long Kian, looked at their father, Long Huang the old marshal. They knew who their old man was going to ask about the letter. It is most likely those strange beasts staying at the detached manor. Those two seem to be quite knowledgeable about some strange things. Maybe they knew something about the language in this letter.

"Are you going to visit there?" asked Long Tian.

Long Kian said, "I also want to go too."

Seeing that the brothers are about to brawl again, the old marshal can only say, "We will all go after dinner!"

"Jue'er and Teng'er included?" The current marshal asked.

The old marshal said, "Yes. I want the egg to be checked."

The Long family had a family dinner with all of them including their wives present on the table. It was only after dinner that they asked the women of their family to prepare for bed while they visited the detached manor. At least everyone in the clan knew about the existence of those two special beasts in their clan. The fact that these beasts were brought by Long Juedi as eggs was also known by them. However, they made sure that no one outside the family would know about them.

At the detached mansion...

Hunluan and An Shizhe were cultivating in their human forms. Though they wouldn't accelerate the growth of their bodies, the world seems to allow them using their god forms. If not for that permission, the two wardens wouldn't be able to pretend as mercenaries. Time is needed for their bodies in this world to mature. Though those who are born as a beast have no problem with reaching their mature form as soon as they come out as eggs. What needs to grow is the strength of their bodies and be promoted in a higher evolution.

The World Eater noticed the presence coming over to their direction and said, "Annoying. These mortals are here again."

"We are living under their roof. It is only right to help them sometimes. At least until your vessel is able to go out," said Hunluan, the Ancient God of Chaos.

The Long family visited the pair that lived in the detached mansion. They were waiting at the door until a cold voice lingered in their ears allowing them to come inside.

"Go in. The door is not locked."

The family of Long was used to this and entered the house as they were given permission to do so. Aside from the three adults, there is only Long Juedi with them. As for Long Teng he didn't come with them as he was still afraid of what happened the last time he had sneaked in the mansion and tried to force a contract with those monsters.

Long Kian was annoyed by his son but his decision, even so, he didn't force the child. After all, the pain of backlash from a broken contract is indeed traumatic. If not for the fact that he was cured by these special beings, Long Teng would have remained an idiot for the rest of his life. That was his fault though.

As they entered the mansion, they saw the huge nest they made for the two beasts that lived in this house. Even though one of them is a beastman cub no different from the size of a human cub, the matured beast, Hunluan is different. His original size was just as large as an adult human at first. But he started his growth period and evolution without them knowing how and his size increased at least half of a room's size and he is still growing. They didn't know how he was able to shrink its size at all.

Long Huang in lead, he greeted the two beasts politely. After all, regardless of race, only power and strength speak loud in this world.

"We greet Lord Hunluan and Lord An!"

The two had given them their realm names as there is no need to hide it at all.

Hunluan spoke human language in response to their greetings and didn't beat the bush. Asking them straightforwardly what they come for.

"What would you like us to do? Tell us first and we shall decide after hearing your request," said the Ancient God of Chaos.

Long Huang didn't waste time and pulled out the letter that was given to Long Juedi after giving him his beast egg. The moment Hunluan and An Shizhe saw the letter their interest were immediately pique and before their eyes, the huge silver furred winged tiger morphed into a human, shocking everyone from the Long Clan left dumbfounded by the scene.

Their eyes were round as an egg as they looked at the gorgeous looking cold faced man informed of their eyes. If not for the pair of inhuman eyes looking at them they would have thought that he is a human. Carrying a baby boy in his arms he approached the stunned old marshal.

They can actually feel the aura of gods coming from the letter and it was the aura of those two subordinates that served their son and his husband. The letter is most likely from them. Long Huang failed to react when the boy, An Shizhe, took the letter from his hand and opened it immediately.

As expected the letter was written in ancient language which only the gods can read. The first part of the message was about informing them that they are in the ancient forest with their lords and was unsure if this letter will be read by them. The second part was about the appearance of the chaos flower in the barren lands. They were asking what should be done as Lord Hei told them to seek their advice instead. Upon reading this part, Hunluan and An Shizhe smile helplessly. Their son hasn't changed at all.

He is lazy and wouldn't move if there is someone else who can do the job for him. He is like a salted fish that isn't willing to move unless lifted by someone. Moreover his other half was indulging him, no wonder they left the two wardens for them to order around.

The last part of the letter made them frown. It was about the destined villain seeming either a transmigrator or a reincarnator targeting the protagonist, Long Juedi. They felt something is amiss about the young man and he had a strong scent of blood around him at such a young age.

Hunluan and An Shizhe looked at the innocent boy hugging an egg in his arms. The letters in their arms were burnt to ashes and finally looked at the Long Family waiting for the explanation.

The World Eater, An Shizhe, spoke, "That letter was address to us from our people there is no need to worry about. That support type beast egg was a gift from them. From time to time, you will see them finding us for something. The contents of the letter had nothing to do with you. If you have any other requests then you can say so now."

"That... is it possible for humans to go into the ancient forest now?" Long Kian asked. His tone and posture are respectful despite talking to a baby boy.

The World Eater answered, "No. Do you want to die?"

"But the pair who gave the beast egg to my son and the letter got the beast egg from the ancient forest," said Long Tian.

The World Eater, An Shizhe, sneered. "Who told you that they are humans?"

This question had stunned the adults from the Long Clan and once they realized what An Shizhe's word meant, their faces turned pale. Whether it was in shock or because of fright no one knows. But they now looked at Hunluan's human form with understanding in their eyes. It seems that beasts are capable of morphing as a human at a certain level and this greatly horrified them. Because this means a high level beast can pretend to be human and enter the human city secretly. If they wanted to destroy things from the inside it would be easy for them to eliminate the human race.

As if reading the thoughts of the human in front of them, Hunluan said, "Don't worry. Not all beasts can transform into humans. As for those two whom Juedi had met, they are from our side. They will not harm you. If you are in danger and see them outside you can ask for their help. Like us, they are also victims of the laboratory."

Once the Laboratory was mentioned, the old marshal feels guilty. After all, it was during his reign that those foolish had done such a thing and it was something he didn't know until things had blown over.

Hunluan ignored the guilt on the human's face and said, "Don't worry. We don't hate humans because of what happened. We are at least not your enemies."

Long Jia didn't feel better because of his words. They might not hate them as they weren't the ones who had caused them their pain. But the fact that the humans had done such a thing cannot be forgotten as well.

Hunluan asked, "If there are other requests you can ask for it now. As long as it wasn't beyond our means we will lend a hand."

Chapter 1768: 24.29 Sixth Violet Star - Warning and Unexpected Guests

The Ancient God of Chaos, Hunluan and the World Eater, An Shizhe asked the Long Clan what they wished for them to lend a hand for. The letter that was passed through them was extremely important to them. This is the first letter that allows them to know that their son had found them. Though as gods

they are able to do as they wish, they tried not to do so. After all, they are undergoing some kind of trial in which they need to follow some kind of rules.

It's already worrying that when they are supposed to get their memories sealed in this world, they wake up without a change. Now there is news about the existence of chaos flowers in this world which meant that chaos had already been here even before they arrived. Chaos is an existence that is beyond the world's control. Only Hunluan who was born from it had the capability to control chaos. Even the God of Destruction, well known for his strength, can't say he can fully control such an unpredictable thing.

Now that they were informed of the location where the chaos flowers are found, Hunluan and An Shizhe can go there anytime. Of course, it can wait until An Shizhe can walk using his vessel in this world. They might be able to use their God form but fighting using it can cause destruction of this world. Divinity is too powerful to be used in a lower realm world unless it is a high grade world, it can easily destroy weak stars.

The world they are in is a Mid-tier World. They can use a bit of divinity but it's impossible to use it every time. At least they wouldn't do so unless they are willing to fail their trial and all the rewards they got from the last world to be void. Once it failed, the possibility of the world eater falling in the same state of insanity like in his previous life is higher.

They also didn't want to owe this mortal family too much. The fact that they were placed in this family which is connected to the world protagonist says things otherwise. It seems the world is openly seeking their help to survive. This is also the reason why they are helping this clan that the protagonist is from.

The old marshal, Long Huang, didn't expect another favor from these two unique and powerful beasts. The fact that his crippled legs which their world couldn't heal returned to normal was thanks to these two. It can be said that thanks to that ability that he now reveres them. Now given another chance to ask for help, Long Huang decided not to waste it.

Long Huang said, "Lord, I would like to talk about it with my family first."

"Alright. Just come over if you need something," said Hunluan.

The Ancient God of Chaos, Hunluan, was no longer interested in these human adults after these words and looked at Long Juedi. To be precise he is looking at an egg in the child's embrace. He can feel a bit of divinity in it. Not the same divinity as theirs which was rejected by the world but one that was born in this world.

Hunluan returned to his beast form and a large silver furred winged tiger had appeared in place of his human form. He sat back where his and An Shizhe's nest was and rested. Of course, if Hunluan can notice the strangeness of that egg in Long Juedi's hand, he also would.

The World Eater said, "Brat, let me see that egg in your possession."

Long Juedi was not frightened by these two beasts in his mind, these two are his friends whom he brought home from the auction the first time. Moreover, he is too young to understand that these two beasts are different from the ones his elders have. He ran towards them and gave his beloved egg for An Shizhe to hold. Seeing a human toddler with round black lion ears holding the egg simply looks adorable. Hunluan couldn't help but smile at the scene.

Meanwhile, An Shizhe checked the eggs and noticed that it was directly connected to the heavenly laws of this world and sneered. It seems that the heavens of this world are spoiling their beloved son of heavens.

The world eater said, "Brat, rejoice! Once this beast pet of yours is promoted to its peak strength, you should be able to recreate organs and generate limbs."

The adults of the Long Family were speechless with what they heard,

"Well once it hatches it should at least be at silver grade thanks to its pure bloodline. That much can heal wounds at will and deep wounds once in a while," An Shizhe said as he returned the egg to the boy.

The world eater added, "This is the best support type beast for you. For now, that should be enough. Before this year ends, we will bring you to the barren land to find the most suitable main beast for you. Wait for a little while longer. Wait until I can walk instead of crawling."

"This egg should be hatching soon. You should take good care of it. It needs a place that has a holy feeling. You should create a holy altar or a temple for it," Hunluan said. "This beast can only be contracted by the brat. Whoever tries to steal it will suffer a backlash worse than before. This beast egg is fated to be his and no one else."

The human adults listen to the advice of the two beasts. They shiver when they hear the threat from the two beasts. Because the attempt of stealing eggs had happened once, these two unique beasts had given them a warning once again. This made the old marshal and the current marshal couldn't help but look at Long Kian who was sweating in buckets due to guilt. Of course he had no intention of doing it for the second time. His son almost lived his life as an idiot because of that one time and he himself didn't want to become one himself.

Hunluan said, "You guys can go back. There might be some guests for us but do not mind them. They won't be staying for so long. Also... avoid going to the barren lands for now. Something beyond your control is happening there. Unless you want to regret it, do not head to the center of the barren lands."

"Is it a bad thing for humans?" The marshal, Long Tian asked.

Hunluan answered, "It's bad for every race. For every living things in this world."

The Long family come out of the manor with serious expressions on their faces. They never would have expected that something dangerous for all the races to exist in the Barren Lands. They suddenly had thoughts that maybe, the reason the beast race is attacking the human lands was all because they wanted to leave the barren lands.

Long Kian asked the old marshal. "Father, do you think the beast race is fighting for our land because they wanted to leave the barren lands?"

"That might be one of the reasons. However, the beast race hated the human race because of the contract we use to control them. Though most beastmasters only sign with the beast through eggs, there is another way of signing a contract. That's a master-slave contract. It is completely different from the equal contract we shared with our beasts. It's a contract that doesn't require an egg to sign with. Is the worst type of force contract and beast were treated as tools instead of partners," said Long Huang.

Long Tian asked, "Should I ask our people to check the core region of the barren land, father?"

"No. There is no need to risk our people. Give them a warning to retreat from the inner region. Based on the reactions of the Beast Lords, whatever is in that place was something out of our control. It can also mean that there isn't a way to block it or get one to return to normal once affected. No matter what, we can't take the risk," said the old marshal, Long Huang.

Long Kian asked, "What about the Tower Master's request?"

"Try to buy some more time. Since their situation isn't urgent, let them wait. For a traitor, there is no need to indulge them," Long Huang said as he recalled the painful past when he was at his lowest and was kicked down by the people he trusted only to be betrayed in the end.

They were on their way back to the main mansion when they saw two people suddenly appear not far from the manor. It startled them enough when they didn't notice them until they got so close and saw them with their own eyes.

Long Tian was immediately in a fighting state and stood before the ground. While Long Kian protected his father and nephew, leaving the front to his brother.

The current marshal asked, "Who are you? How did you enter the territory!?"

"Be at ease, human. We didn't come here for you," the Chief Warden said.

Among their group, Long Juedi recognized the two who appeared before them.

He said, "It's the uncles who gave me the beast egg!"

Chapter 1769: 24.30 Sixth Violet Star - Excuse us

The sudden appearance of the two wardens made the Long Clan be on guard. They thought they were intruders targeting their family. Assassins like before who wanted to kill the marshal and his family. Even

though they are used to this kind of thing, the fact that they didn't notice the presence of the two until they were close enough terrified them. Thankfully, the youngest in the group recognized these people.

The moment they heard that this pair is the one who gave away the support type beast egg to their youngest, Long Juedi, made them realize that these two must have come to meet the two lord beasts at the manor as they were informed by Lord Hunluan and Lord An. Long Huang, the old marshal, stepped in and still asked politely for the intention of the pair even though they had already guessed who they came for.

Long Huang asked, "If these friends are kind enough to tell us why they came, please do inform us."

"The letter had been sent. We felt that the imprint we left on it had been activated meaning that the people who are supposed to read it had gotten the letter. We only came for the Ancient Lords and meant nothing more," The Chief Warden, Lou Wuye, said.

Warden Yun Ming ignored the adults and smiled at Long Juedi waving a hand at him. The innocent child also waved his hand as he saw the gentle looking uncle again.

"Uncle, did you come here to take the egg away?" Long Juedi asked as he looked like he would cry next if Warden Yun Ming answered yes.

Warden Yun Ming immediately said, "No. That's the gift we carefully choose for you. Your future is full of blood and battles. That support type egg can give you the biggest support. Of course, the main beast the ancient lords would chose for you is your greatest strength."

"Ming'er, it's time to go," said the Chief Warden as he walk forwards without saying anymore words to the Long family.

Long Kian was a bit annoyed by the Chief Warden's action and muttered, "What a rude person."

Warden Yun Ming is used to his lover ignoring everything else except for the mission they have. He smiled at Long Kian as if soothing the awkward atmosphere in the group.

"Please don't mind him. His personality is like this. He is like this to everyone except the lord. Old Marshal, we will introduce ourselves the next time we meet. Do excuse us for now," Warden Yun Ming said as he chased after his lover.

However, when the Long family turned around, the pair had long disappeared. It seem they had entered the manor without them noticing and was surprised by it,

Long Kian exclaims, "What the hell?! They suddenly disappeared."

"Alright. Let's not get involved. Go back to the palace," said the old marshal, Long Huang.

The face of the old marshal was serious as recalled what his eldest son had asked just now about the ancient forest and what kind of beings can come out of that place alive. As if he had a realization, he wishes to leave this place and go back to their house to think of things more deeply. But it seems his sons didn't noticed much about this interaction making the old man a bit disappointed.

Long Kian said, "No wonder they survived the ancient forest and took out a beast egg from such a death zone. Looking at that rude man, he looks quite powerful."

"Just because the other person is smiling and looks kind doesn't mean he is weak. Just the fact that another person is letting him stay by his side shows his strength," The marshal, Long Tian said.

"However, how can a human come out of the ancient forest when even a gold ranked beast master died in there?"

"Who told you those two are humans?" The old marshal said.

His words had rendered his sons speechless with shock imprinted on their faces. Unless they are fools and couldn't understand the hidden meaning of their father, then what a waste of them being a part of this family. They were stunned because they understood the hidden meaning of their father's word leaving them unable to react due to incredulity.

Long Kian asked, "Oh my god! Is this for real!?" He glanced at the closed door of the detached manor and shivered thinkin what kind of beings had just appeared before them.

With a deep frown on his face, Marshal Long Tian speaks, "Is father trying to say that those two aren't humans? Is that even possible?"

"Have you forgotten what happened inside the manor just now?" The old marshal asked and took his grandson to walk back to the main house in a hurry.

It took awhile before the old marshal's words sank into his two sons. Once they realized what their father's words meant.

Long Kian asked, "Brother, are those two men not human?"

"Don't talk. Shut up. Let's go back," said Long Tian as he dragged away his brother to follow their father.

—

Meanwhile, inside the detached manor...

The two wardens and the two systems who materialized knelt before the two ancient lords. They are all in their god forms which are humanoid shapes. In the presence of the Ancient Lord of Chaos, these four current era's gods can still remain calm. However, in the presence of the world eater who emits the aura of gluttony, it made things a bit hard for the four to endure. In his overbearing presence, these four gods can barely breathe. At first, Hunluan didn't notice things until he saw Yun Ming's trembling legs and he understood what was happening.

Before whenever they meet these children, their son is with them bearing the aura of his other half for them. Now that the God of Destruction isn't around, there is no one protecting them from the sinister aura of his beloved.

The Ancient God of Chaos, Hunluan said to his other half. "A'Zhe, your aura is leaking. The children can't hold on."

"I forgot. The mortals can't feel my aura so I was leaking it unconditionally. It increases the growth of my vessel in this world so I let it be," said An Shizhe, the world eater, as sealed off his aura. "Shouldn't you guys be used to it now?"

The young gods in front of them lowered their heads as they knew that they couldn't get used to it.

Hunluan said, "They aren't used to it. Before our son protects them from your aura, now that our son isn't around they are unprotected before your aura."

"Aren't you guys a bit spoiled? You should gain some resistance to my aura and Luan'er's chaos energy. At least you won't be as you are now," said An Shizhe.

The Chief Warden spoke without meeting the eyes of the ancient lords. "We will try our best."

"Alright. Stop teasing them," said Hunluan.

Tsk!

The world eater, An Shizhe said, "These guys are quite fun to tease~"

System Yue, who found out that the two lords are indeed born from this pair thanks to their personality and appearance, couldn't help but have the following thoughts: 'Lord Hei's mischievous side was inherited from Ancient Lord An, while his cold demeanor was taken from Ancient Lord Hunluan. Amazing, I never thought I would just realize this.'

The world eater noticed Zhi Yue's gaze on him and instead of fear there is more of interest in those innocent looking eyes.

"Would you look at that? This little moon seems to be a bit bolder compared to the rest. Kid, is there something wrong?" The World Eater, An Shizhe asked with a smirk on his face.

Zhi Yue exclaims, "Wow~ Even the way the ancient lord smiles is quite similar to Lord Hei. The only difference is that Lord Hei's smile inclines to being alluring yet playful. While the old lord's smile is more like an arrogant taunt."

Hunluan, who was about to drink his tea, almost choked when he heard the brave little moon. He didn't know why this timid little moon god who was quivering before was now fearlessly looking at his husband and even throwing words that made the latter speechless. He also saw as the other system named Zhi Yang reached out his hands to cover the courageous little moon's mouth preventing the latter from saying more things.

Zhi Yang whispered, "Yue'er, don't speak anymore."

As for the two wardens beside them, they were silently sweating buckets for that stupid moon god who couldn't hold back his mouth. Fortunately, the World Eater wasn't offended and instead was happy with those words.

"Seriously! This is the first time someone said that my son looks like me. Hehe~" The World Eater An Shizhe said looking delighted.

Even Hunluan was quite happy, after all, the God of Destruction is their only son. Born from both of their powers and was given a life by the chaos. Even so they still failed to protect the child and even in the end left him behind to bring them back to life. What made them relieved is that, at least the child was someone whom he had given his heart to and is now happy with this person even having children.

The Ancient God of Chaos lost the softness in his eyes for thinking about his son and said, "Let's focus on what you have discovered. Tell us every single detail you saw in that barren land."

Chapter 1770: 24.31 Sixth Violet Star - Report

The two wardens and the two systems told all the details they had seen at the core area of the barren lands. The cluster of chaos flowers which are about to bloom and the black creature who possessed at least godhood protecting the land. Even though chaos energy is a natural energy which is good for the development of the star, and wouldn't affect things that grew from it, it is a different story when flowers were born from it. Chaos flower growing in one place meant that this world had enough negative energy which attracted the chaos energy to not merge with the world and instead materialized. Chaos flowers are chaos energy into shape from it.

This chaos flower is a plant that grew from chaos and is filled with pure chaotic energy that the living shouldn't absorb or eat. After all, chaos energy is the most negative energy in existence yet positive at the same time. When both good and bad effects appeared on one thing, it was never a good thing. It's like gaining something you truly wanted only to be killed or taken away by it. Most living beings who absorb this energy, regardless of it being voluntary or accidentally, they all gone insane and gain power which is considered the peak strength of one's individual.

There are also beings who adapted to this energy and were reborn as Chaos Creatures. However, beings born from chaos had a strict hierarchy. Those who had gained the pure chaos energy and made it their own were considered chaos children. These are beings who took the form of a human and possessed

attributes above ordinary gods and power stronger than an average divinities. The great example of this is the Mo Clan. There are gods that appeared out of nowhere possessing bloodline abilities that ordinary gods don't possess and strength that made them different from other gods.

The chaos beings who were born weaker than chaos children are called chaos guardians. They exist to protect the land or area in which chaos energy accumulates. This is to prevent the spreading of this energy which usually instantly destroys a world once taken away by someone who isn't supposed to have it. Chaos Guardians can be considered subordinates of the Chaos Children. They exist to serve them as their masters.

Above the Chaos Children are the Ancient God of Chaos, Hunluan and his family members: the World Eater, An Shizhe and the God of Destruction, Hei Anjing. Between these three, Hunluan and Hei Anjing are not affected by the negative effects of the chaos energy while An Shizhe is supposed to be not affected by it as well, but due to his power of gluttony which strengthens by chaos energy, he still suffer backlashes when over using this power. But as long as he completed the Trial of Marriage and gained the marriage imprint this disadvantage will be gone as well.

The conversation within the detached manor continues.

Warden Yun Ming said, "The flowers were budding and having completely sprouted yet."

[However, compared to the other flower garden I saw with Lord Hei before, this one is especially powerful. It had an alluring scent that attracts all living things,] said System Zhi Yue.

System Zhi Yang said, [We would have been affected by it if we didn't leave. But for mortal things, they will not be able to ignore it at all.]

"There is also a creature covered in darkness yet possessed divinity. It looks like a bear yet its strength is that of a High God. We left before it woke up and before the scent of the chaos flower affected us," said the Chief Warden.

The Ancient God of Chaos, Hunluan said, "The one who has been seen might be a high ranked Chaos Guardian. These guardians possessed immortal physique. They cannot be killed unless you burn them to ashes or devour them fully."

"Quite lucky you didn't engage in a fight with it," said the World Eater, An Shizhe.

The Chief Warden frowns and mumbles, "No wonder it gave me an uncomfortable feeling."

"Keep a hundred distance from the garden and keep an eye on it. Find a way to keep surveillance 24/7. I will give you something to keep the chaos energy isolated. It would only last for a day but once you use this, you need to contact us immediately. Once the chaos flower blooms even you guys will be affected," said Hunluan.

The World Eater, An Shizhe said, "You guys signed a life contract with your masters, right? Don't worry. If you are affected by it. Killing you and resurrecting you will do the trick. I can end you swiftly."

The smirk on Ancient Lord An Shizhe made the two wardens and systems sweat buckets. How can he be smiling when he was talking about killing them? Alright, he is definitely Lord Hei's father. They are both ruthless and merciless. Killing while smiling.

After receiving a scroll from the Ancient God, Hunluan, four of them decided to leave. They decided to report to their lord one last time before once again heading back to the barren lands. They still need to report what the Ancient Lords had planned regarding the chaos flower whose existence is no different from a ticking bomb.

On their way out, World Eater, An Shizhe said, "Tell Jing'er that we are alright. Once things have stabilized here we will go visit them in the ancient forest."

"Tell him not to worry. Things are under control here," Hunluan added.

Warden Yun Ming respectfully responded, "I shall pass the words to my master. Please take care."

"Oh, right. If you found a beast that is best suited to the protagonist of this world, keep watch. We don't care what level. We wanted the best though. It is better to give the best so we won't owe him anything in the future." The World Eater, An Shizhe said.

Yun Ming, Lou Wuye, Zhi Yue and Zhi Yang keep this reminder in mind. They are going to the best place to find the beast egg, the barren land, where the beast race lives. Keeping an eye to some beasts wouldn't be a problem.

After the four of them left, Hunluan and An Shizhe, who were their humanoid god form returned to their original vessels' form in this world.

A winged silver furred tiger shrinks its size to look like a cub to match An Shizhe's human cub form and them asked,

"Are you going to practice standing and walking today, A'Zhe?"

"Must do. As long as I can walk properly in this form, we can finally venture out of this manor,"

said the world eater, currently a beastman cub, in humanoid form.

He reached out to lean on Hunluan as he tried to stand up on his chubby pair of legs. His legs were wobbling as he put force on it as he tried to stand using only his strength. A toddler's leg strength is unpredictable. It might be able to help one stand but also slip down bonelessly. This is because a cub's bones are still soft and fragile.

As expected before, An Shizhe can't straighten his legs properly, his legs suddenly buckle almost falling face first on the carpet under his feet. Thankfully, Hunluan bit his back collar preventing the embarrassing scene of the world eater falling onto his face. That scene can be considered a black history of this ancient god.

"Careful," said Hunluan.

The world eater looked embarrassed as his chubby cheeks turned red as ripe tomatoes even so he looked determined and said,

"Let's try it again!"

While the two old lovers were spending their time together in their detached manor, the ones in the main palace had gathered in the living room. The three adults were having tea while the two children had already gone to bed. Of course, it was reported that the two guests had taken their leave and were seen by the guards watching the manor.

Though the guards were hidden, they still saw Warden Yun Ming looking in their direction and waving his hand as he wore that gentle smile on his face. They disappeared afterwards and they reported the situation to their superiors waiting for the news.

The marshal, Long Tian, who just ended a call with his terminal, said to his father.

He said, "The two left the premises of our territory and seem to be heading towards the direction of the ancient forest."

"They are going back to the ancient forest? Do they live there or something? But that place is the beastman's territory," said Long Kian.

Long Tian said, "Only humans are forbidden to enter the forest. If they are a beast then the beastmen race wouldn't make a move on them."

"Do not think too much. You have seen them yourself and saw the reactions of your partners. The fact that they don't even start a fight and cower before them means they are stronger than us by a lot. Those two won't become our enemies unless the two lords at the manor become our enemies. They called them lords, didn't they?" The old marshal, Long Huang.

He added, "Instead of worrying about something unknown, focus on Jue'er. His egg is the faith that might save our lives in the future. That's a high-grade support type that has the best ability for healing. It seems to be able to regenerate limbs as long as it upgrades to the highest level."

"I will ask people to make an altar within the territory," said the marshal, Long Tian.

Long Kian thought for a while and said, "Should I find some tools with holy effects to decorate the altar?"
