

World Plot 1781

Chapter 1781: 24.42 Sixth Violet Star - Something's Mixed

While the two wardens, Lou Wuye and Yun Ming stayed in the barren lands to keep the barrier activated, the two systems, Zhi Yue and Zhi Yang had reached the boundary of the human lands. It is very easy to see the line that separates the human land and the land of the beasts. Human territory is the second most fertile land in the world, while the Barren Land have more than half of their lands covered in yellow rocks and sand. Fertile and water sources in the barren land are limited.

With the three of them in their human forms, they finally entered the human city. Minkong was looking around observing the human city which he had last seen hundreds of years ago. He looked like he could barely recognize anything in this city as it was completely different from the one he remembers. The appearance of these three men attracted the eyes of the people around them. They just ignore them though.

Zhi Yue asked the Beast King, "What are you looking for?"

"Hm. I just felt that this city had changed a lot. The last time I came here, this place was just made up of stones. The civilization of the human race is through progressive," Minkong said.

Zhi Yang asked, "Do you have friends in this city?"

"Even if I do, they have longed to return to the lands," Minkong answered. "Where are we going next? If possible I want to enter the ancient forest before night falls."

"Entering the Ancient Forest might... Well, you will definitely be surprised," Zhi Yue seems to be recalling the towering wooden walls that enclosed the whole forest and only through space teleportation that their entrance to the forest will be considered undetected.

The wooden walls act as radar. The moment one passes through it, anyone from the beastmen tribe will get informed and they would come over to eliminate the intruders. That's why every time their group enters the ancient forest they would just teleport or use space portals made by Zhi Yue.

Minkong looked confused by the reactions of his new friends. Seeing his confusion the two systems suggested that they looked at the entrance of the ancient forest. The towering walls had left Minkong dumbfounded.

Shocked, Minkong couldn't help but double check if what he is seeing right now is an illusion or not.

"This is... The Nature Spell: Forest Prison. Only beastmen shamans can do such a thing and these shamans only make a move when my wife gives orders."

Minkong's thoughts: 'This means that something had happened in the forest and as the leader of the Beastman Race, his mate chose to seal the forest. Preventing anyone from entering and leaving without his permission.'

Zhi Yang explained the situation, "The situation is dire as you think. The humans had stolen beastmen eggs from the Ancient Forest even though they can just take away the beast eggs."

"At first, the beastmen didn't know until the day that even the leader of the beastman race's eggs were stolen. It was finally that day that the beastmen found a hidden human facility in the ancient forest where they were experimenting on eggs. Not just beast eggs but also beastmen eggs as well."

When Minkong heard that his and his mate's egg was stolen, anger flared in his heart. It was only in this lifetime that he and his mate finally got an egg. Someone not only had stolen it, the human also wanted to experiment on their eggs.

Zhi Yue and Zhi Yang noticed the shift in atmosphere when they saw Minkong about to flare in anger and immediately appease him as they couldn't do anything that would get the attention of others to them.

"You must calm down. Your eggs are alright. They had safely hatched as well," Zhi Yue said.

Zhi Yang added, "If the heavenly laws noticed you now, you won't be able to see your mate and cubs. Hold back your anger, Minkong!"

It was only when dark clouds started to gather above Minkong that his anger slowly calmed down. However, his expression is still as ugly as it was supposed to be. Only when he had held back the aura that emits chaos energy had faded.

However, that sudden flare of chaos energy had caught the attention of two men. One of them was the Ancient God of Chaos, Hunluan, himself. The other one was the God of Destruction, Hei Anjing.

Hunluan, who was enjoying his time with his other half, suddenly stood up and looked at the direction of the Ancient Forest. He instantly spread his divine consciousness and found the source of chaos energy that caught his attention.

{A'Yue, A'Yang, bring that man beside you to me!}

The voice of the ancient god of chaos, Hunluan, resounds in the minds of the two systems and Minkong. This commanding voice and presence was undeniably overbearing. This is the first time Hunluan used such a tone when talking to gods connected with his son. However, this also shows that something must be urgent and the cause of it might be his Beast God called Minkong.

Zhi Yue and Zhi Yang instinctively kneel down and respond, "Yes, Ancient Lord Hunluan."

The voice of the God of Destruction had also been heard by the three after Hunluan retracted his divine consciousness.

{After you are done meeting with Pops and the old man, come see us as well.}

"Yes, Lord Hei!" The two systems responded.

Once the two overwhelming presences had retreated, Minkong who felt being stared down by two large snakes was now covered in sweat, heartbeat out of control and his breathing was erratic. He almost fell down on his knees if not for his hand grabbing the wooden walls beside him.

Pants~

"Who... Who are they? How can their presences alone be a lot more powerful than the existence of the Heavenly Laws of this world," Minkong started questioning life due to his experience.

Zhi Yue grins and says, "It wouldn't be fun if we told you. Meet them yourself and see with your own eyes who they are~"

"Alright. It is indeed rude to ask the identities of such powerful beings. Whom should we meet first?" Minkong said as he straightened his back after his legs stopped trembling.

Zhi Yang answered, "The oldest one first."

With this, the two systems had brought Minkong to the Long Clan's Territory and this time, they had used a space portal for instant transfer and to avoid people from seeing them.

—

Long Clan's Territory. Detached Manor...

A space portal suddenly opened inside the Manor and the first one to come out was Zhi Yue who looked out first only to get caught on the back of his collar like a playful cat that its master had captured. Zhi Yue was startled at first and seeing that it was just Ancient Lord An Shizhe that he flashed a shy smile.

"H-Hello, Ancient Lord An, hehehe. Can you please put me down?" asked Zhi Yue while flashing a big smile.

The World Eater, An Shizhe said, "Lately, you are showing no signs of fear towards this old man. Maybe it's because your core is from our Jing'er."

After him, Zhi Yang also come out of the portal with Minkong and saluted before the two ancient lord on one knee.

"This servant, Zhi Yang, greets the Ancient Lords!"

Zhi Yue was freed and kneel beside Zhi Yang. Minkong on the other hand was speechless when he met the two Ancient Lords especially Hunluan. The purity of chaos energy around these two is too high, perfect. Moreover, it seems endless unlike his which was only accumulated over time.

Minkong didn't know who these two ancient gods were. However, the chaos energy around them alone was enough to identify who they are. The one who created him, his master, said that there is an existence that is above a Chaos Child. He is their creator and the Chaos itself. Upon seeing Hunluan and the feeling of happiness emitted by chaos energy in his body which is boiling before these ancient gods made his realize that his master's words are real.

Minkong fell on his knee with a thud and kowtow before Hunluan and An Shizhe.

"This servant greets the creator! This servant is useless and only appeared before the creator at this moment."

Thud. Thud. Thud!

The sounds of One's flesh and bones hitting the hard ground echoes in the area. The World Eater didn't care much and just shrugs his shoulders. As for Hunluan, he controlled the chaos energy inside the body of Minkong while at the same time, An Shizhe approached him. The kowtowing being before them suddenly halted, Minkong felt for the first time what it felt for your own power to suddenly restrict him.

Minkong's thoughts: 'I can't move?'

"Don't over think too much. Don't fight me back or your soul will be destroyed. I just need to check what was mixed in our body. Something that isn't supposed to be yours is mixed in," said the World Eater as he grabbed Minkong's head.

What follows after was an indescribable pain that hits directly through his soul.

The Ancient God of Chaos, Hunluan, said to his other half, "A'Zhe, you cannot kill him."

"Alright~ I will be careful not to~" said An Shizhe while looking through the memories of Minkong.

Chapter 1782: 24.43 Sixth Violet Star - Memory

The ancient gods immediately made a move when they saw the Beast God and Chaos Guardian in front of them. The reason for urgency is because it is impossible for a chaos guardian to possess silver irises born from chaos. This is something only Hunluan and his direct descendants can have. In existence, only the God of Destruction was born with such an eye color from his side. The only possible one to inherit the eyes of chaos are the children of the God of Destruction.

But this Beast God is not even a pure god but a creation of a real Chaos Guardian. What they wanted to check is how this being was made. If there is someone that has done something they aren't supposed to, whoever that one is must pay for what they have done. If those chaos eyes aren't natural, there is only one way for one to gain one. That is transplanting organs.

As for the source of that organ, there is only one possible way to get in. Hunluan's original vessel perished when he self imploded together with the crazy world eater in the past. So there is no way that pair of eyes can come from his dead body. However, there is someone else who had died in the past and even left behind a body. Worse of all, this vessel had disappeared somewhere and all they know is that some other ancient god had stolen it before they arrived to save their son.

That's right. That vessel is none other than the first life's vessel of the God of Destruction. The vessel which didn't even grow to adulthood due to him being killed at such a young age. The vessel of an ancient god is resilient unless it was burned by hell flames or destroyed through self-destruction. They didn't even see a trace of their son's body even if it was killed, it can only mean that after Hei Anjing was killed his body was taken away, as they couldn't destroy his soul.

The World Eater reads through these memories of this being called Minkong. He had traces to the very beginning of his childhood life and didn't even use his perspective to check that part of the past. He floated in that timeline as if a nonentity no one could see. He checked the timeline and saw the birth of this world. The first thing to be born on this world happens to the small garden of chaos flower and a chaos guardian with the shape of a huge silver world bear. It was large enough to encircle its arms itself around the star but still shrink into a size it can live beside the chaos flower garden.

A Chaos Guardian will never betray its duties, the large bear stayed in that world protecting that small piece of land that he was born with. This silent guardian was quietly protecting that piece of land with flowers for years. Until an ancient god Hunluan and An Shizhe whose faces they would never forget appeared in the memory.

The World Eater was stunned at first and as soon as he recognized the person, his eyes were tinted with anger and murderous intent as he mumbles the name of the ancient god that appeared before the snake.

"This old bastard looks familiar. Hmm~ Ah!!! QUYE?!"

This is the Ancient God as old as the Ancient God of Origin and the Ancient God of the End. He is the Ancient God which was first created by the first pair of ancient gods to become their servant and eventually was known as the Ancient God of Wisdom and Servility.

The name of this Ancient God is Quye. Quye is the main supporter of the Ancient God of Origin and the Ancient God of End. That's why when he, the Ancient God of Chaos, this man's obsession in serving the descendants of his creators was extended to Hunluan. He is also the head of those rebels who kidnapped their son just because half of the blood that flows in him was from An Shizhe, the World Eater, they hate the most.

He kidnapped and tortured the God of Destruction in his first life and finally reap his life in the end. They thought they had killed him. Who would have thought that the old bastard had a clone in the lower realms and escaped from them. He even stole their child's body without respect to the dead.

The World Eater saw Ancient God Quye carrying his son's corpse without any respect. He treated it like no other object and fell in this world while injured so badly. That's why when he saw a chaos guardian appearing as such a small star, Quye actually wanted to kill it to vent some anger.

However, he had underestimated his opponent. First, like all other those born in chaos, this world bear possessed an immortal physique. Ancient God Quye might be the God of Wisdom and Servility, but his knowledge about Chaos itself was almost nonexistent as Hunluan is the sole Ancient God that lives in group. He didn't know about the chaos guardians and that they are hard to kill.

Ancient God Quye was almost dead while the snake was badly hurt. In the end, the Snake won but fainted in the end. While he is asleep, the corpse of Hei Anjing unexpectedly moves, there seems to be a wisp of obsession left behind in the body that temporarily brings it back to life. It had completely destroyed the clone of Ancient God Quye and stared at the sleeping bear.

It waited until the world bear opened its eyes and was surprised to see the corpse of the old bastard before moving like it was alive. Unfortunately, there isn't enough soul in the body to keep living. But the chaos energy in its body was enough for the chaos guardian to know that this is a chaos child or something like a remnant

"This servant greets the chaos child," the world bear said.

The body of Hei Anjing with only a bit of obsession spoke, "Hello, can you eat me?"

This question dumbfounded, the world bear shaped chaos guardian but the talking corpse in front of him didn't wait for his response and said,

"My only obsession is to die. This body had been broken countless times and it's something that mustn't continue to exist. Even if you don't kill me, I will still fade. But if you eat me, I can at least give you one time reproduction to give birth to your descendant so you wouldn't be alone in this barren star. I can also give you three chances of creation. You can create anything with these three chances I will give you so you can change this star you are staying in."

"This servant cannot defile the vessel of the chaos child!" said the World Bear Chaos Guardian.

"So stubborn. I will just sleep then, bury me under this garden of chaos flowers. You can do that at least, right?" Then three lights had entered the body of the world bear as for the corpse of the chaos child, he had buried it under the garden. As for the corpse of the evil ancient god, he had smashed it and used it as fertilizer in this land.

The world bear used the three chances of creation. His first creation was the laws of this world. Thus, the heavenly laws were born. After the rule was born, it had created life on the planet. As for its last creation, the World Bear asked the heavenly laws to materialize and create a baby with him. This world had no other life than him and the heavenly laws that is until he created life on his small star.

The child born from them was Minkong. The reason he was born with chaos eyes is because he accidentally ended up eating a chaos flower that grew from that land that buried the first corpse of the God of Destruction. Just when Minkong was about to die, the remaining obsession on the corpse had entered his body and saved him. His eyes mutated to become the chaos eyes which left his parents speechless.)

When An Shizhe saw the source of Chaos Eyes and it was something voluntary given to him, he no longer treated the child as an enemy. He was about to leave when he saw that the corpse of Quye mutilated into pieces suddenly started moving. In the end, he saw a black egg created from his remains.

The world eater returned to reality as he had seen everything he wanted to see. But the existence of the black egg worries him a lot. When he came back to reality, he woke up Minkong who looked a bit groggy as his head felt as heavy as lead.

"You can look after him. He is not an enemy," said An Shizhe as he walked back to his beloved. "Oh right. Little moon, go protect this memory for everyone to see."

A memory orb was thrown to Zhi Yue which he had projected using his capabilities as a system. Everyone watch the same scene as what the World Eater had done before. Even though the two system were surprised to learn that Minkong is the child of a Chaos Guardian and this world's Heavenly Laws, they are more surprised to see the ancient god and corpse of the child he is carrying.

A phoenix-shaped eyes, thin lips and small yet tall nose as well as that familiar looking face.

Zhi Yue realized that this corpse child look like some and mumbles its name, "Lord Hei?"

Chapter 1783: 24.44 Sixth Violet Star - Truth behind his eye color.

This was the first time they saw such expression on someone like their Lord Hei. Moreover, a corpse of their Lord Hei. After all, in their mind, the God of Destruction had always been the strongest of them all. Even during his intentional death, he would still revive in the end. But this realistic death before them made them speechless, it made them extremely uncomfortable as well.

Seeing the surprised expressions of the systems, the two ancient gods understood what left them speechless. After all this is a secret that no one is supposed to know. It can be said that it was the weakness of all ancient gods and something that can only be exploited when a new ancient god was born. They continued to watch until the whole recording was done and the screen that appeared in thin air had faded like it never existed.

The Ancient God of Chaos, Hunluan, had spoken. "There is no need to be so surprised. Even ancient gods aren't born invincible."

"This is impossible! That's Lord Hei! Even if he is dying the concept of death had nothing to do with his existence. He is that powerful. How can there be a chance that he can be killed?!!"

Between the two systems, the one who Couldn't accept this fact was Zhi Yue. When Hei Anjing became his host, learned his identity, his capability and strength. In the eyes of this Moon God, The God of Destruction is the most powerful god in existence. He is much more powerful than all other ancient gods. No one is supposed to be capable of killing him. Without any fear of death or pain, he cannot be killed no matter what.

How come he is now seeing his state of death and it was such a young age!? Are you telling them now that the God of Destruction they knew and the one who was helplessly treated like a useless corpse is someone like Hei Anjing? Even if you kill him he wouldn't believe it.

The World Eater said, "Newborn Ancient Gods can only awaken immortality at adulthood once they are killed as soon as they are born, their vessel cannot be revived and their souls will fall asleep until their next life begins."

"In his first life, Jing'er was killed before he could even turn into an adult. It's because of all those bastards. I should have devoured them all in the first place!"

"If you did, you will forever be a madman who can only kill and devour everything. Much faster than what had happened to you," the Ancient God of Chaos, Hunluan said.

Hearing his other half's words, An Shizhe, the world eater, can only shut up. The husbands can only listen to their wives especially if they are the one in the wrong.

Meanwhile, Minkong, who was finally freed from the World Eater's clutches, immediately lowered himself before the presence of Chaos itself. He is someone like their god, the creator and their source. The being which is also the source of their power and the reason for their existence. He doesn't dare to raise his head in front of Hunluan and An Shizhe.

Hunluan says, "Moreover, it was my fault for turning blind eye to them. I never thought they would dare do such things. Even the Origin and the End had done such a thing. It made me disgusted thinking I was born from them!"

Ever since the existence of Vearth, no one had dared to defy the Ancient God of Origin and the Ancient God of End. Even the Sovereign Gods don't openly make enemies of them. Maybe it's because they're source was from them. However, for other gods with ancient origins like the God of Destruction and the Sovereign of Void and Darkness, they couldn't feel the prestige or power that forced them to revere these two ancient gods.

That's why when the Ancient God of End tried to kill Hei Anjing, the Sovereign God of Void and Darkness had decided to kill him. However, he just resurrected and his powers were not even half of the original and the state of his beloved was urgent. In the end, the Ancient God of Origin appeared and took the Ancient God of End away before Ye Xiajie completely lost control.

Hunluan's hate for his parents came from the bottom of his heart. If it's before he isn't willing to harm them because he is their son, after losing both his son and husband through their schemes, the last emotions he felt from them died when he chose death that time.

The World Eater knew that his other half was torn between him and his parents before. In the eyes of those ancient gods, he is nothing but an evil existence. He became someone who had tainted their strongest god, Hunluan, who had chosen him as his other half. He knew that the hatred the Ancient God of Origin and End towards him is something that cannot be changed. But since they are not hurting Hunluan, he thought that they wouldn't hate their child so much as they do to him.

However, he thought wrongly. They didn't harm their son, at the same time, they also just watched him suffer, be tortured and ignore his pleas for help. They had indirectly caused the death of Hei Anjing at that time. Thus, the hatred in the couple's heart is something that can last for eternity.

The World Eater said, "It won't be too late for revenge. Wait for me to come see you. We can fight against them when the time comes."

"Alright... Though I doubt that will be possible for now," Hunluan whispered the last sentence making others hear it. Even in An Shizhe's ears it sounds like gibberish and asks about it.

The world eater, An Shizhe said, "Eh? Did you say something, Luan'er?"

"Nothing. Go send that child out. He seems to have something to do," Hunluan said.

The World Eater looked at the two systems and one beast god. He grabbed them by their back collar like kittens and gently threw them out of the manor. They were even given candies (artifacts) before sending them out.

"Go back. That's enough greeting for tonight. Also..."

An Shizhe looked at the Beast God kneeling like a good child on the ground and said, "Go back home. Once you get home, the destiny you know will be broken. Just live your life happily. After you absorb the Chaos Orb given to you, you will be promoted into a Chaos Child and be surnamed Mo. Go now, don't bother our sweet time."

Bang!

The door to the detached manor closed without looking at them. The two systems were a bit used to this as Lord Hei would also throw them out of the house whenever he wanted to flirt with his husband. It knew nothing, but they didn't expect for Lord Hunluan to allow the beast god called Minkong now surnamed Mo to be given a chance and get promoted. His standing once he had successfully evolved will be on the same level as the Mo Clan in Vearth. A descendant born from chaos.

Zhi Yue pouted and said, "Why is this situation of getting kicked out of the house too similar?"

Then saw the high-grade spell scroll in his hand and noticed that it was an offensive one that calls upon a dragon of gluttony to defend oneself. Though the effect only lasted for three minutes it is more than enough to kill all enemies when used correctly.

"Wow! Nice scroll~ Hehe," said Zhi Yue while grinning.

Zhi Yang was also happy with the one he got. It's a disposable life saving item. As long as he had this he and Zhi Yue had a way to protect themselves. It's quite powerful as it's made from tamed chaos energy made by Ancient God Hunluan himself. As for Beast King, Mo Minkong. He couldn't believe that just by meeting the source of his existence, his destiny to die without a corpse had ended in such a way. With

this, he will now be able to find his wife and tell him the happy news about his destined death being broken by fate.

What he didn't know was that the one breaking his fate was not the creator, the chaos. But his cub who even possessed his color but the animal shape is that of his mate. Mo Minkong was about to absorb the orb in his hand as he was hit on the back of his by Zhi Yue.

"Ah! Stop! Don't be stupid! You can only use that orb inside the Chaos Garden or Chaos will spread and all three of us will not be spared," said Zhi Yue.

Zhi Yang had already taken away the chaos orb in his hand and cut off their connection.

He said, "Aren't you going to find your mate first?"

Recalling about his mate in the Ancient Forest, Mo Minkong had become even more energetic. Thankfully, compared to the chaos orb, he is more interested in seeing his mate and checked if their eggs had hatched.

Mo Minkong said, "That's right! That's right! Let's head to the Ancient Forest next!"

Chapter 1784: 24.45 Sixth Violet Star - Papa?

After receiving a pardon from the ancient lords, the two systems and the beast god finally left the territory of the Long Clan and prepared to head to the Ancient Forest where the family of this beast god called Mo Minkong is currently living. They left the Long Clan's territory before the owners of the place saw them. They actually didn't want to get involved much with the war between races. The garden of chaos flowers was enough to make them busy.

However, there is a problem when they teleport to the ancient forest. This is because the silly moon, Zhi Yue, had forgotten to inform their lord about their sudden visit and even brought a guest, Mo Minkong with them. Thus, a space portal was opened, with Zhi Yue pushing Mo Minkong in and pulling Zhi Yang in when they were directly teleported.

Unexpectedly, the God of Destruction, the Sovereign God of Void and Darkness as well as their father in this world, the Ninetailed Beastman, Hezi were having dinner when people started falling from above.

Mo Minkong who isn't used to teleportation felt dizzy in the split second he walked through the space portal and failed to support his fall. It seems that the space door appeared above the dinner table.

AHH~

Thud!

Hei Anjing and Ye Xiajie made a move before they could understand what was happening. Within the huge cave, Hei Anjing morphed into his real form, jumped towards Hezi and protected him with his body, swiping the falling object on them with his tail. Ye Xiajie made a barrier to protect the food and the house. Thus, Zhi Yue and Zhi Yang only fell on the ground with a bit of pain and Mo Minkong falling on the bed.

"Stupid Moon, can't you teleport properly!?" Complained the God of Destruction. Though right now, he is a gorgeous looking black fox with at least three tails behind him.

Hezi was surprised as this is the first time he had seen his son's real form. When they hatched, the first form he had appeared into was an ordinary, black fox which was carried by his other son as they crawled and walked around. Though he knew that the beast that hatched from the egg would come out as an adult beast, he was so used to the shrunken version of his son that his current form was a surprise to him.

Hezi was delighted to see the three tails on Hei Anjing. Having three tails especially when you had just hatched is a show of his talent. He was even born with two tails. Gradually as he got stronger, and the number of his tails reached the nine which is recorded in the history of mythical creatures. However, since he has half human blood in his veins it will be a bit hard for him to become a god.

Hezi happily hugged his Son's fluffy self and said, "My baby, you are truly talented. You have the talent to surpass me! Three tails upon birth! That's amazing!"

Hei Anjing didn't move and let Hezi hug him while keeping himself quiet. In his mind he is saying, 'Would you faint if I told you I was born with nine tails right from the beginning?'

Urgh~

Mo Minkong finally stood up from the fall as he blackout for a moment when he was slapped by the God of Destruction's tail. However, upon seeing his mate hugging a young fox which is born with his fur color and his eyes color, he immediately recognizes the beast fox as his cub. Hei Anjing didn't like the feeling of being crowded but the cave is a bit small and chose to shrink instead.

Hezi happily carried in his arms and gave him kisses. Seeing this the jealousy incarnate named Ye Xiajie immediately jumps off his chair and goes to his father and wife. He took away his Jing'er from their father's evil clutches and stopped the old man from raining kisses to his other half.

The Sovereign God of Void and Darkness said, "Stop! No more kisses! Mine. He is mine!"

Hezi was stunned at first. But as a half beast he knew that intermarriage was no problem for them. He had longed to notice the clinginess of his two sons from one another and didn't mind it much. But it seems that this closeness is not that simple.

Mo Minkong stood beside his mate and asked, "Are you fated mates?"

"I don't know. However, seeing Xiao Jie's reaction they might be?" Hezi answered.

He was stunned for a moment and turned his head to look at the intruder who was face slapped by his youngest son's tail. He immediately recognized the intruder and showed a shocked expression at first and finally tears started falling as he still looked dazed towards the man in front of him.

Hezi hesitantly reacts to touch the man's face but still stops at the last moment afraid that the figure before him would just fade upon a single contact.

He asked, "Are you... real? I am not... dreaming again?"

Mo Minkong held his wife's hand and allowed him to touch it, even rubbing his face on it, "I am real, He'er. I miss you so much." He suddenly pulled him into a hug and his mate started crying within his embrace.

In the end Hezi clung to him that he could only carry a beastman koala hanging on his body as he comforted his mate. When he was done cuddling with his wife, he noticed two pairs of eyes falling on him. It was their two cubs. As for the two systems, they unmaterialized their human form and floated in their system avatar forms. Hovering around their two masters.

Mo Minkong felt a bit awkward seeing two cubs looking at them with their round, big eyes.

Hei Anjing spoke, "Old man, who are you? Why are you hugging, Daddy?"

"Appearing all of a sudden, you must be a ghost! I will not give you Jing'er!! Let go Dad!" Ye Xiajie shouts as a pair of white round ears appear on the top of his head. These are clearly baby bear cub's ears.

Hei Anjing lightly bit his brother's ears and then looked at the old man holding their daddy.

He said, "Gege, this old man looks like you. Cute, round ears and tail~"

Hezi who took his time to calm down his emotions upon seeing his lover heard his youngest son's words and chuckles as he went down from his husband's body and carried his two sons.

"Jing'er is right~ their round ears are indeed cute~"

said Hezi. He gave Ye Xiajie to his mate.

One big bear and one small bear looked at each other with expressionless faces and averted it at the same time. Hezi, who didn't notice that his other son had transformed into a human baby with black fox tails and ears, laughed together.

Hahaha~

It took a while for Hezi to notice that the fox in his embrace is replaced by a cute and beautiful baby with soft black hair and a pair of gorgeous argent eyes. The two looked at each other, one silver and one gold fox shaped eyes looking at one another. They both look inherently beautiful with seductive features making the other two fall in daze as if falling in a state of attraction.

It was only when Hei Anjing tugs his dad's hair and points at Mo Minkong that Hezi wakes up. "Daddy, who is this big bear? Why give gege to him? He might take brother away!"

"Haha~ he won't. This is your other father, Minkong. Don't you see how your brother and him look alike~ especially the ears~" Hezi said with a teasing voice.

In the ears of Minkong, this world bears, the voice of his beloved is no different than a seductive one. His ears twitch while his cheeks turn a bit red. He couldn't help but pull his mate and other cub for a hug.

"Nice to meet you two. I am your other father, Minkong."

Hei Anjing asked, "Papa, can you turn into a bear-bear?"

"I can. But Papa's real form is too big. Shrinking to the small one should be enough for you to see."

In the end, Mo Minkong transformed into his beast form and shrunk to the original size of an ordinary bear. His fur is pure black and his eyes are silver like Hei Anjing. The two systems are talking with only their two lords hearing their words.

[Lord Hei, there is a reason why this bear possessed similar eyes like yours.]

[It involves your body in the first life and an Ancient God called Quye. Ancient Lord Hunluan and Ancient Lord An Shizhe called this ancient one, the God of Wisdom and Servility.]

[I still have the memory orb which showed the past that involves this Chaos World Bear.]'

The two systems, Zhi Yue and Zhi Yang, explained. On the other hand, seeing a huge cuddly bear, Hezi and Hei Anjing's eyes both glows in excitement and jump on the big bear giving him and the Sovereign God of Void and Darkness, a big bear hug.

Finally, the family separated all throughout these years have finally reunited.

Chapter 1785: 24.46 Sixth Violet Star - The Abyss

The reunion of Hezi and Mo Minkong's family had been fulfilled. The two systems, Zhi Yue and Zhi Yang, knowing that they won't be of any help here, choose to return to the barren lands. Moreover, there is Lord Hei who can use space techniques much more proficient than Zhi Yue. He can return the Chaos Guardian to the garden.

After dinner, Hei Anjing and Ye Xiajie pretended to fall asleep like good children. They were carried to the bed by their two fathers. After covering their two children who had fallen asleep, Hezi and Mo Minkong, who were full of smiles, looked at each other lovingly and went to the master's bedroom where they could have a proper conversation.

As soon as they left, the two children who were supposed to be asleep opened their eyes. Leaving a pair of puppets to take their place, the God of Destruction and the Sovereign God of Void and Darkness took their forms as God. Both look original how they are supposed to be as gods.

With Hei Anjing wearing a pure white ancient robes with black snowflakes pattern, his long light brown hair flutters on his back half it tied up with braid. His silver irises were as pristine as before, looking attractive with his phoenix shaped eyes slightly narrowed as he smiled mischievously. Beside him is his husband, Ye Xiajie, wearing a pure black ancient robe with dark violet mist pattern. He looked expressionless most of the time and his aura emits danger which made everyone afraid of him. If not for his manly yet handsome features, no one would even dare to sneak a peek at his exquisite face. It's just that his eyes softened whenever he looked at the God of Destruction.

Hei Anjing strength a bit and said, "It's been a while since I used this form. That smaller form is easier to use, especially when you just carry me around."

All of the sudden, Hei Anjing was carried effortlessly in the arms of his beloved who said, "Even in this form I can carry you around as you wish, Jing'er."

Haha~

"Alright. Carry me then~ Let's check this garden of chaos while the two old men are busy with each other," the God of Destruction said as he teleported himself and Ye Xiajie with them. The location is the core region of the Barren Lands.

The two directly teleported to where everyone is in the barren land.

Barren Land, near the core region of the land of the beast. A mansion was erected in the middle of the rocky region. As if protected by a blessing, ten meters around the house had become a fertilized area. The green grasses that don't even sprout in between the rock in the barren land had covered the earth around the mansion. There is even a small pond with swimming fishes on it.

It can be said that the area where this strange mansion is has become a treasure land in the eyes of those who live in the barren land. After all, all the fertile land in this land had long become the territory of the beast kings who had gained not only intelligence, strength and even the ability to command. Which is why they seize the areas where life can be sustained in such dry land. The problem is it was too near the core region where the tyrant beast god lives and no other beast king was willing to take over such an extremely dangerous place for them.

The two wardens and two systems had just finished eating dinner when the God of Destruction and the Sovereign God of Void and Darkness arrived. They immediately greeted the two upon seeing them.

"Greetings to Lord Hei and Lord Ye!"

"Be at ease. Just done eating? That's good. We aren't going to stay for so long. I want to check the garden. My love, stay here for a bit," said the God of Destruction. One step forward was only what he needed to take to teleport directly inside the barrier their subordinates had created.

After the God of Destruction disappeared most of them looked at Sovereign God Ye who took a seat after making himself a coffee. He seems to already know what his wife planned to do.

The Chief Warden asked, "Milord, why have you decided to visit this place?"

"Is it because of that Chaos Guardian? I heard from Yue that he is your beastman father's mate in this world," Warden Yu Ming politely asked.

The Sovereign God took a seat and sipped his coffee. "There is that reason. However, it was not for it. Jing'er said he felt something coming from this place. We came to check."

Everyone's expression turned pale when they recalled that memory orb they had watched. Because of Zhi Yue's mistake with the space portal opening, the memory orb wasn't mentioned to Hei Anjing and Ye Xiajie.

The God of Void noticed their reaction and his eyes narrowed dangerously making all four of them flinch.

"Is there something I should know about?" Ye Xiajie asked.

They unconsciously looked at Zhi Yue who had the memory orb making the pair of dangerous eyes of the God of Void fall on him. The timid little moon god almost cried on the spot as he pulled out the memory orb from his system inventory. In the end, it was Zhi Yang who gave the memory orb to the Sovereign God of Void and Darkness.

Ye Xiajie only needed to watch to understand why the reactions of their subordinates collectively turned cold and despairing. When he watched the record in the orb, his expression was deadly when he learned about its contents. His eyes even turned bloodshot red in hatred and rage that the orb in his hand was crushed by him.

"Is this old bastard truly dead?"

He asked.

No one dares to answer. In the first place, they didn't know. Moreover, they focus on Lord Hei that they had forgotten about the rest.

Only the Chief Warden, who knew that his lord would not stop asking until he heard an answer, said, "It is unknown, Milord. The memory orb only showed its death but ancient gods can't easily die. The two ancient lords didn't mention him. Maybe they are also unsure about it."

All of the sudden, the Domain of the Void opened in this world. Although Ye Xiajie only summoned the weakest among his void creatures who can take the form for humans, and animals, their existence alone was felt by most gods, especially the Heavenly laws.

Just as the Heavenly Laws tried to interfere, it felt an overbearing power that overwhelms him. He felt the abyss staring at him. The moment he moves, the real abyss will open up in this world and he will be devoured by it. It chose to turn a blind eye to it. It can only pray that this enraged Evil God not to completely destroy his world.

As the darkness suddenly covered the world, the Sovereign God of Void and Darkness issued a command.

{Find the Ancient God of Wisdom and Servility. Dead or alive? Soul or corpse? Bring him to me!}

Within this small star, all creatures who come out of the void had merged with the shadows. Their complete and incomplete shape lowered their head as response to their master's command. Once the void was closed the darkness retreated and the world once again returned to normal.

At the core region, in the garden of chaos flowers...

The God of Destruction was looking at the moon eclipse that just ended. He sighed and knew why his other half had suddenly made a move. He glanced at his former vessel during his first life which hadn't disintegrated all this time.

"I didn't dare to tell my love about this. But in the end, he still knew about it. I have to coax him again when I return. However, the other traces of ancient gods I've felt in this star have disappeared. Is it biding its time? It would be boring if it got caught fast~ I wonder how it entertains me in this world?" Hei Anjing whispered as he summoned his power of gluttony.

"Devour it. It will be your vessel starting from now on~"

The gluttony that usually looked like his husband nods its head and devours the first vessel of its master. Taking on this form, the gluttony under the control of the God of Destruction took the form of his younger version self and merged with him like it appeared from him.

"Hm? It's about to bloom. Unfortunately, you can't bloom right now? I can only absorb the accumulated chaos energy felt behind by my first vessel or this star will be done for."

Just as Hei Anjing prepares to return to the mansion and notices that the chaos energy in this garden was about to erupt. He had no other choice but to meditate and absorb this chaos energy in his body, preventing the chaos flowers from blooming at this time.

Chapter 1786: 24.47 Sixth Violet Star - Don't bite me!

Barren Land's Core Region.

In the middle of the Chaos Flower Garden, the God of Destruction was meditating. He is absorbing the essence of chaos within the flowers, the land and the land itself. However, he chose not to take everything as it would make those who are waiting for the wars to happen wouldn't come out if the destined destruction of the world didn't come.

As expected the Heavenly Laws of this world descended to meet the God of Destruction who had just finished his meditation. Hei Anjing in his god form is now surrounded with flow buds which are tightly closed with dimming silver shade.

The one who appeared before him is a pair of lovers, one looking so very similar to the Beast God, Mo Minkong with his long white hair but not with silver eyes instead its pure black irises. While The one who had appeared before him was covered in light elements, long gold hair and a pair of violet irises signifying his status as the Laws of Heaven in this world.

However, these two still lowered their heads in the presence of the God of Destruction who is not only an ancient god but also possesses a power stronger than Sovereign Gods.

Hei Anjing said, "Oh, I didn't expect for you two to appear before this lord. Is there something you wish to say?"

The man with white hair and black eyes kneels before Hei Anjing, "This Guardian greets his highness!"

"This lord knows why you have appeared before me. Don't worry. The existence of your child, my father (Hunluan) approves of it. He doesn't need to worry about disappearing once this garden is gone. His existence is now fully whole and no longer directly connected to this place." The God of Destruction said.

{This heaven gives his gratitude to the l'rd beyond f'r saving our son.} The Heavenly Laws of this world said.

Hei Anjing said, "However, you have to accept his other half and free the latter from his restraints. In the future, when your son has to report to the upper realm he will most likely bring his mate with him."

"You are able to leave the barren land. Is it okay for you to be here?" Hezi asked while holding the hand of his mate.

The heavenly laws responded, {Aye, we und'rstand thy highness. I shalt giveth the trial f'r divinity once the current w'rld plot is did finish.}

"That's good." Hei Anjing noticed the worry in their eyes.

They had hidden their existence from their son and even given him such a painful fate of perishing once the chaos flower is gone. However, this is something beyond what they can do. Fate is not something they can fully control, especially existence with connection to chaos that has destinies beyond the control of such an ordinary world.

Normally, when a garden of chaos flowers has bloomed in a place, there isn't only one Chaos Guardian looking after it but a whole tribe. However, the chaos guardian born of this world is only one and it is composed of a whole barren star with no life until they meet the Ancient God of Wisdom, Quye.

Those who had harm born from chaos will bear the karma in which the cosmos will treat them as a menace. Ancient God Quye killed Hei Anjing of his first life, this is a sin the cosmos could never pardon. However, like always the cosmos cannot make a big move to punish anything within it. It can only weave fate and destinies to achieve what it wants.

That's why when a chaos guardian met the dying Quye, the latter's death is destined in this star. His soul was forever imprisoned in this world. Until those who can kill him would come. This world had resets more than a thousand times and the one most affected by it was Minkong whose soul cannot be freed from the existence of the Chaos Flower Garden.

A generation was born, lived and then died. Then another generation will be born, live and die once again. A cycle of life of death. However, Minkong, an existence born from this world and a chaos guardian cannot die, could never forget and could only continue living. He watches his beloved mate, be born, to meet again, to love each other and for him to watch him die countless times.

Chaos Guardian, Minkong, would have long been broken if the heavenly laws didn't give him a leeway, an ample of time to live his life with his beloved. But in exchange for this, the heavenly laws and his other half, the former chaos guardian who lost its powers had to suffer as they restrained the power of chaos that was beyond their control. After all, only a real chaos guardian can control the power of chaos in its territory. In short, they have weakened so much that they are about to fade. This is their sacrifice for their only son, Minkong.

The God of Destruction noticed the state of the couple before him and filtered the power of chaos in him in a state that these two can absorb and strengthen their existence.

"You have done very well. This is the reward for your hardship. This is chaos energy I have refined. Now it's what you call the Qi of the world. It should be enough to cure the weakness of your badly injured souls."

"Go back. You can meet him at the right time. Until then, leave this world in our car. I assure you that in my name, Hei Anjing, that this world shall not perish without my consent!"

{Thanketh thee, thy highness!}

"Oh. By the way, my current vessel is actually that one of your grandchildren. Don't worry their souls are safe within us. Once we finish what we come for, they will wake up naturally. For you, you should inform your son that he is free of duties of guarding this garden and I had also bestowed my blessing to his mate making him invulnerable towards the power of chaos. Well, you can consider him half guardian of his state."

"Return now. I also need to come back and see my love," Hei Anjing said as he stood up from where he was seated and disappeared on the spot.

The couple who was within just now had returned to the heavens and did as they were told to do. They look for their son and relieve him of his duties which imprisoned him in the garden of chaos.

—

On the other hand, back to the ancient forest...

Beastman Leader's Cave, in the master's bedroom.

After sitting on the bed, the couple started asking one another. Mo Minkong had a lot to say to his mate and also asked a lot of things about the current situation and how his family, them, are doing while he wasn't around. He didn't expect that his beastman wife would ask the question first.

"How are you feeling? Are you allowed to leave that place? You will not get punished again won't you?" Hezi asked nonstop with a worried expression on his face.

Mo Minkong held his hand and placed it on his face, squinting his eyes in joy. He also hugged his mate whom he had been missing in his heart all this time.

He answers, "I'm alright. I can't get sick or die easily. Do not worry. I was allowed to meet you this time and will not receive punishment for leaving the garden."

"That's good, sigh~" said Hezi, the ninetailed fox beastman in relief as he let himself be hugged by this man whom he had been missing all this time.

"How long can you stay this time?" Hezi asked.

Mo Minkong didn't answer right away as he knew that he couldn't stay for too long.

"Maybe three days..."

"Three days... That should be long enough for our children to remember your face. Next time, maybe when the children are a little bigger, we will visit you instead," Hezi whispered.

It's been a while since the two had seen one another. It's normal for them to become intimate on the night they finally meet each other. This is also another reason why the God of Destruction and the Sovereign God of Void and Darkness choose to leave a puppet to take their place. No one likes hearing your parents make love.

—

Next Morning...

Mo Minkong was the first one to wake up. He watches his mate with loving eyes as he plays with his hair. A gentle smile full of affection was given to Hezi by this Beast God. Maybe Hezi had overdone it last night because he woke up late today.

Minkong noticed a sound coming from outside and felt that maybe their cubs were awake. He decided to check on them. He stood up from the bed and only left after covering his mate with a blanket. Meanwhile outside, Hei Anjing and Ye Xiajie had just returned from the Barren Land. They had just taken away the puppets when Zhi Yue once again made a wrong coordination with the space portal. They fell in a pile as the portal opened.

Zhi Yue and Zhi Yang are in their humanoid form while their two lords are in their cub forms. Annoyed by Zhi Yue's carelessness, the God of Destruction was annoyed and put the former's head in anger.

"Ah. Ah... Don't bite me! I am not delicious." Zhi Yue shouted as he flailed his hands.

Chomp. Chomp.

As for Zhi Yang, he was cleaning up the broken stone table which four people landed on. It broke into pieces due to the limits of its wait. Mostly because Zhi Yue's hard head had bumped it after he was kicked by Hei Anjing for hesitating to create a space portal.

Ye Xiajie was pulling his annoyed wife while coaxing him, "Jing'er, let go. That is not delicious."

This was the scene Mo Minkong had witnessed when he came out of the master's bedroom. He saw his youngest son biting the head of Zhi Yue. He had long known about the carelessness of this silly moon god. They might have appeared out of nowhere and his cubs treated them as intruders.

"Ah! Xiao Jing! Let go! Don't eat the hair! Oh my god!" Mo Minkong panicked as he saw the scene.

Only when Hei Anjing noticed that someone had woken up that he let go of this stupid moon who immediately ran away after being freed. Maybe because Hei Anjing was in his beast form that he instinctively chased after Zhi Yue who ran away. Now two chasing one another, one adult cleaning the broken table and one small cub yawning looking like he was about to go back to sleep.

Mo Minkong couldn't help but pick his other cub and asked Zhi Yang while watching the other two run around the place.

He asked, "So what happened?"

Chapter 1787: 24.48 Sixth Violet Star - Freedom

Mo Minkong's arrival was something everyone didn't expect and so they can only conjure an excuse to fool the Beast God. Thankfully, the God of Destruction, the Sovereign God of Void and Darkness as well as their two systems: Zhi Yue and Zhi Yang can converse through their thoughts and make a plan for all of them.

Hei Anjing said in his mind, 'Play along with my lines!'

'Yes!' The other three collectively answered.

The first one to answer Mo Minkong's question was unexpectedly the youngest. Hei Anjing whose vessel is a black ninetailed fox beast who can turn into human and beastman form.

"Papa, these guys are intruders! Jing'er was awakened with him (Zhi Yue) pinching the cheeks of Jing'er. They are bad people!"

The God of Destruction said as he perfectly acted the spoiled cub who is not only fearless but also fierce. He started pulling the hair of Zhi Y pretending to grab it hard after finally catching him as their chase ended.

Zhi Yue acted with his Lord Hei and squeezed some tears at the corner of his tear pretending to be pitiful and naive.

"Hurts. Hurts~ Owie, to pull my hair! Ah, I don't want to get bald. Moreover, what's wrong with lightly pinching your soft, marshmallow-like cheeks. If I was given a chance I would have chomped on it instead~ Hehehe~"

"Bad Gege. Jing'er is going to make your head as smooth as a light bulb!" Hei Anjing said as he played tug of war with Zhi Yue using the other's hair as rope.

"Ah~ Stop, my little ancestor. I am wrong alright! Don't pull anymore!" Zhi Yue said while in tears and in pain.

Hei Anjing stops his pulling, hearing the big bad brother whimpering as if in pain. Playing the role of an innocent baby who is kind at heart, the God of Destruction loosen his hold on Zhi Yue's hair and asked worriedly,

"Is it really that painful? My Jing'er didn't pull as hard as I could."

Seeing the little cub going near Zhi Yue as if asking for reconciliation, they had to watch the silly moo who was pretending to cry to suddenly grab the little cub and light chomp on his chubby cheeks. A nice pair of tooth patterns was left on Hei Anjing wiggling chubby cheeks.

Chomped!

One big person who was biting looked at the small one who was shocked and looked at his cheeks which were bitten. This time the shock on the God of Destruction's face was real as he was bitten on the face for real. Zhi Yue who followed his instincts and desire to bit failed to control himself and lightly bit his Lord Hei's cheeks.

Before the others could react, Hei Anjing's eyes were pooling tears and was about to cry out loud. This scared the hell out of the silly moon system who immediately let go of the cheeks he just bitten. He looked around and saw his master's deadly expression on his face and the flabbergasted expression of Zhi Yang and Mo Minkong.

Zhi Yue said, "If I told you it was not on purpose will you believe me?"

Before he could hear an answer, someone grabbed his collar and fling him out of the cave mercilessly. The one who did such a thing is none other than the Sovereign God of Void and Darkness who did it. Ye Xiajie suddenly transformed into a small white cub with silver eyes. He chased after the person he had thrown away and beat up Zhi Yue.

Mo Minkong took his other cub and coaxed him to stop crying as he watched his bear beastman cub beating up an adult without mercy and undeniable strength. Even he didn't possess that kind of strength at such a young age and was dumbfounded by his eldest son who inherited his form as the Chaos World Bear.

By the time, Hezi woke up from his sleep and finally came out of the master's bedroom, he saw two young men seated on the table with his cubs. One of them was treating the other one who was covered in bruises and obviously got beaten up. Though he didn't recognize these two just the fact his mate didn't send them away meant he knows about them.

As for his two cubs, a rare scene can be seen. This time it was the youngest who is in his human form while the eldest who is usually in his beastman form is now in his complete bear form which is a white bear cub. This bear cub is still expressionless and had sleepy eyes as before, but he allowed his brother to treat him like a teddy bear toy being hugged with two arms even shrinking his size so his younger brother can easily carry him around.

The first one to notice him is none other than his mate, Mo Minkong.

"Wife, you are awake. I've made breakfast. Come eat together," the Beast God said to his mate.

Hezi didn't start asking right away and sat beside his mate. He looked at the two new faces on the same table as himself.

"Who are they?" He finally asked.

Hei Anjing shouted, "Bad gege who bit the cheeks of Jing'er! Good thing, Gege beat him up. Hmp!"

"My little ancestor, I was just teasing you a bit," said Zhi Yue who flinched when he saw the cute white teddy bear-like thing within the embrace of the God of Destruction.

Zhi Yue getting beaten up was real and not on the script.

"Don't move. I am almost done, Yue'er,"

said Zhi Yang.

Confused. Hezi glanced at his cubs and finally at his mate. He asked, "What is going on?"

"These guys are Zhi Yue and Zhi Yang. They are the ones who made it so I can come out of the garden. There are another two guarding the garden in my place. As for what is going on... Well, the teasing had gotten overboard and Zhi Yue got beaten by our eldest cub for making the youngest cry. Well, he indeed inherited my blood as the World Bear," said Mo Minkong.

Zhi Yue whispered, "It wasn't on purpose. Who let the little ancestor's cheeks look like marshmallows? I accidentally bit it."

Hiss~

Zhi Yang said, "Don't move. There is even a cut in your mouth. Don't force yourself to move your mouth. Also... do you want to get beaten up again? I will not help you this time."

Hezi suddenly recalled that these two young men were from the garden in the middle of the barren land. If they come here early in the morning would that mean that they are here for his master, Mo Minkong. Just thinking of this possibility made Hezi's face suddenly bloodless.

The God of Destruction asked upon seeing his father's pale face, "Daddy, are you alright? Your face has no color."

"He'er? What's wrong? Your emotions are in turmoil," asked Mo Minkong worriedly.

Mo Minkong was surprised by his mate's words. However, he didn't answer right away. Zhi Yue and Zhi Yang's expressions are unexpected.

Upon sensing the changes in the atmosphere inside the cave, Zhi Yue and Zhi Yang understood why the leader of the beastman race is acting like this.

Zhi Yang said, "Please don't worry. We didn't come here to bring him back."

"Actually, it's good news. The Lords which you haven't met had checked on the garden last night. The chaos energy in the garden had returned to a regular range and the one causing it to fluctuate had been taken away. I can say that unless there are problems we can't control, you can stay here for as long as you want," Zhi Yue said.

Zhi Yang added, "Your duties... It's been halted for now. Live as you wish. Unless the world is destroyed you don't need to go back there. The four of us are enough to protect it from now on."

"You are now free," said Zhi Yue.

"But it's my duty to..."

Mo Minkong's words were cut off when his mate and children all jumped into his arms. Their faces are full of happiness. This is especially true for Hezi who had been waiting for him all this time. Not only in this lifetime but also during his previous lives.

Hezi hugged his lover with tears of joy in his eyes, "Finally, you can live with us! This has always been my wish!"

"Papa, are you going to live with daddy, gege and Jing'er?" asked the God of Destruction playing his well as a cute cub.

Even the Sovereign God of Void and Darkness says a few words with languid eyes which are about to close completely.

"Stay. Protect Jing'er and dad... with me, Snores~" said Ye Xiajie before falling asleep embraced by his beloved. Feeling secure and relaxed.

"But I..."

Mo Minkong, who was used to his duties, wanted to say a few more words. He was cut off by the two systems who only drops by to pass the message.

"Stay here and protect your family. The being who had killed your mother is still alive somewhere in this world. You have his essence and the power of Chaos. He might target you," said Zhi Yang.

Zhi Yue said, "Keep in mind. Your identity cannot be exposed. The war between the three races are still ongoing."

He once again opened a portal preparing to leave with Zhi Yang. The two systems sneak a peek at their lords who are pretending to be cubs. Zhi Yue almost laughed out loud when he saw Lord Hei secretly giving him a bad finger.

Hahahaha~

Chapter 1788: 24.49 Sixth Violet Star - Finding the Hole.

The Beast God of the Barren Land's Core Region, Mo Minkong Couldn't believe what he had just heard. He was worrying how to explain to his mate, Hezi, that he couldn't stay long with them at home. How come a lot of things had changed as soon as he woke the next day. Not only had he been freed of his duties that lasted for , he is now allowed to stay with lover and family. The dream he had been desiring all those years.

With his wish suddenly granted, he didn't know how to react at this moment. Hezi, the ninetailed beastman, narrowed his eyes in happiness and saw how silly his mate had become when stunned. He thought of something fun and glanced at his cubs moving his eyebrows while looking at Mo Minkong's cheeks. Hei Anjing, this smart and mischievous cub, understood what his dad was trying to do. Of course, Ye Xiajie can understand it as well. But instead of joining the fun, his face turns into a pout.

Muah

As Hezi and Hei Anjing kissed the cheeks of Mo Minkong who was dazed, the feeling of being kissed woke Mo Minkong from his stunned state.

"Haha~ what are you guys doing?" Mo Minkong asked with a grin on his face. Clearly, happy to receive a kiss from his loved ones.

Chomp!

Hiss~

However, before he became happy for too long, it was followed by pain from his chin. It seems that his eldest cub did join the fun. Instead of a kiss it was a mean bite. Thankfully, his teeth aren't fully grown yet and it's still a bit soft.

Everyone looked at the cub biting his father's chin like a hungry fish. Especially now that he is in his full beast form that the scene looks like a bear cub biting a human's chin. Well, the cuter version to imagine and not the bloody one.

Hahaha~

Hezi and Hei Anjing were shocked by the scene and finally laughed as Mo Minkong finally pulled the angry cub off his chin. He saw the white bear cub glaring at him while swinging his chubby arms as if wanting to scratch him. Of course, it was a harmless attack as Ye Xiajie didn't use his nails to scratch this father of his.

"What is wrong with this cub?" Mo Minkong asked in confusion.

His mate responded, "He is jealous. You got a kiss from his future mate~"

Hezi knew why it was and took his eldest cub and let their youngest hug him with a kiss. Only then did the angry cub take back his fierceness.

At this point even the beast god was surprised. How can such a small cub be so possessive and it's even his brother. Thankfully, in this world, intermarriage is alright. Moreover, the souls in the bodies of these cubs weren't biologically related.

Mo Minkong pinches the cheeks of his eldest cub and says, "Still so young and already so possessive."

"The news we heard just now is the best in my life. Let's celebrate. Tomorrow, I will introduce you to everyone in the valley. Though most of them already knew about you, the young ones must be enlightened," said Hezi.

Mo Minkong no longer stops his mate in introducing him to his people. Before the only reason why his existence is only known to the upper echelons of the Beastmen Race was because he can't leave the barren lands easily. Even though he backs his wife with everything and prevents all beasts with intention to start war by entering the Ancient Forest, his security towards his own lover is not perfect.

He had lots of enemies. To call them enemies is not the right word, those beasts who come to the core of the barren land are all desperate for one thing and that is longevity and strength. It is unknown where the knowledge that the Chaos Flower in the core garden can grant strength and everything that is needed to dominate this world. Some other thought of it as an elixir or some kind of miracle thing that can resurrect a dead person.

However, none of this is true. Chaos flower once eaten can indeed bring forth the greatest limit of one's individuality. But in exchange of this, they would suffer greatly with their mentality and physical body. Sudden increase in strength wouldn't also enhance once body. It would only push it to its limit until it's broken. The same with their mental strength. Chaos Energy is a power purer than light and dark elements. It's the source of all elements and living beings. It is the beginning and also the end. It can also exist in all timelines, past, present or future. It would exist as long as one's balance is disrupted.

This distortion will call upon it. Once Chaos summoned, what follows is either destruction or a new start. What comes after is an apocalypse that can destroy the whole world. Mo Minkong had done well to prevent that from happening and he had protected this peace for hundreds of years more than a thousand years. It was for this reason that the God of Destruction and the Ancient God of Chaos had granted him freedom without taking back his identity and strength. Anyway, high-tier gods had gathered in this world. There is no need for a single Chaos Guardian to continue protecting the world on its own.

Now that he is free, Mo Minkong wants to use his power to protect the ones he loves this time. There is no need for him to choose between the world and his family. As there are people who had taken his duty which he had held on to these years.

Mo Minkong said, "Alright. I will do as you wish, He'er. Also I was given a surname. Starting today, let's call our family the Mo Clan."

"Mo Jia? Hm~ sounds good," said Mo Hezi.

After breakfast, Mo Minkong was tasked to look after the cubs while his mate called on for a meeting with the elders of the race. When one of the elders saw Mo Minkong coming out of the cave in which their leader lives while carrying two cubs. They are shocked. This is the beast who can turn into human despite being someone of the beast race. The only reason he can turn human is because he has a god-like existence. This elder is also one of the people of the beastmen race who knew about the identity of their leader's mate.

The elder instantly kneels before the presence of the Beast God. Hezi was used to this already and just gave his mate and cubs a kiss before leaving with the elder.

"Darling, I'll be back for dinner. Look after the cubs. They like to play in the forest. You can bring them there or just go anywhere you like. Just make sure to come back before dinner," Hezi said.

Mo Minkong said, "Okay. Don't worry. With me here, our cubs are safe."

"Hahaha~ I know that. I will be back soon," said Hezi.

It was only after Hezi and the elder who appeared to report in the morning left that the black fox in Mo Minkong's arm turned into another toddler.

Hei Anjing looked up at his father and said, "Papa, I want to see the human city."

"...Your Dad will kill me..." Mo Minkong said to his cub.

Ye Xiajie also pushed through and said, "I want to go where Jing'er wishes to go. Old man."

"Brat, just because your future wife kisses his papa on the cheek you can't be rude towards your own father," said Mo Minkong while teasing his possessive eldest son.

Ye Xiajie snorted and said, "Old man is enough for you."

"Alright. I will take you for a walk. However, you must restrain your ears and tail from coming out. Keep looking like humans. If you promise to do that Papa will bring you to a human city," said Mo Minkong.

"Okay, we promise!" The two cubs said.

After his two cubs promised, Mo Minkong had no other choice but to help his cubs change clothes. Wearing fluffy clothes made from animal fur is something only beastmen wear. Humans wear clothes made from silk, cotton and other materials. After checking that the ears and tails of his cubs are well hidden and the clothes the three of them are wearing fits the human city well, he had sent a message to his mate to inform him of their plans to visit the human city.

The leader of the beastman race, Hezi, didn't react much as he knew how powerful his mate is. Unless it's a death seeking individual, Mo Minkong wouldn't cause any problems in the human lands. After

making final preparations, Mo Minkong carried his two cubs with him out of the house. A single jump from him was enough for them to travel from the center of the forest towards the wooden wall.

One big and two small looked at the towering wall of wood in front of their eyes. It was so high that it was hard for one to climb through it. The only way to pass this wall is to find a hole. The hole humans use to enter the ancient forest.

Mo Minkong said, "I remember your dad saying there is a hole somewhere." As he looks around trying to find the hole which they can use to come out of the ancient forest.

Chapter 1789: 24.50 Sixth Violet Star - Pei Jin's Insidious Plan

At the wooden towering wall in the boundary of the Ancient Forest and the human lands.

Mo Minkong and his two cubs were looking for the hole as they walked beside the wooden wall itself. It's just that this hole was hard to find and the two cubs are getting annoyed seeing the same scenery on the wooden wall for a whole hour.

The God of Destruction, Hei Anjing, who hates boredom commented, "Papa, this is boring~ let's just make a new hole in it!"

A black small fireball appeared on the Sovereign God of Void and Darkness, Ye Xiajie's hand. Seeing this evil looking fire, Mo Minkong and Hei Anjing were stunned at first. They are surprised for different reasons.

"Why is your flame black?!" Mo Minkong asked.

The elder one was stunned to see that his eldest son's fire is black. Even his was just a normal looking orange red fire. Moreover, he can feel all his hair rising when seeing this black flame warning him of great danger that was coming from it.

Hei Anjing asked, "Gege, do you want to burn down the whole forest?"

The God of Destruction was surprised for another reason and not because the flame is black in color.

In his mind, he couldn't help but ask, "Isn't this overkill? That's Hell Flames, does my love want to burn down this world?"

Ye Xiajie looked at the black fireball in his hand as he understood the hidden meaning in his wife's words. He closed his small palm hiding the black flames when he opened his hand again. What lay on his plan was no longer a black flame but an ordinary orange red fire.

He said, "This normal fire would be enough?"

"Enough. Enough. Gege, throw it towards the wall!" Hei Anjing said.

"Ah, Wait!"

Mo Minkong panicked as he didn't expect that his cubs could already use their bloodline's power. What Ye Xiajie had used just now is his mate, Hezi's fox fire.

However, it's too late. The small fireball from Ye Xiajie's hand is only small in size. But its effect is no different from a bomb. Moreover, Ye Xiajie intentionally added a bit of ability to devour which made the impact of the explosion powerful. The three of them were unaffected by the explosion as Hei Anjing erected a barrier made of ice.

Seeing the fox fire the eldest cub had just used as well as the ice elemental barrier the youngest had inherited from himself, Mo Minkong was dumbfounded. What would he do if he had cubs that aren't even a year old yet but not only can they talk, walk and morph into complete human form but also control the bloodline powers of their parents?

Mo Minkong couldn't help but ask, "How did Xiao Jie and Jing'er do that just now? The fire and the ice thing."

The two cubs looked at each other and at their father. With confusion as if they couldn't understand why their parents are asking such an obvious thing.

Ye Xiajie answered, "I think, control and use. That's all."

"It's your own power born with you. Why wouldn't you be able to use it?" Hei Anjing questioned.

The response of his cubs left the beast god speechless. What can you expect from two geniuses who can do everything so easily after birth? Nothing. Just accept things as normal.

Hei Anjing urged their father to come out from the hole they made.

"Papa, hurry! The whole thing is closing!"

Mo Minkong had just stepped out of the hole and noticed some beastmen watching from a distance. The hole on the wooden wall was closing on its own.

"We will be back soon~"

The hole closed up completely.

"We will be back soon~"

Hei Anjing and Ye Xiajie also noticed the uncles and aunties from the village and waved their hands. No one stopped them as they heard from their leader that his powerful mate had returned and his baby was sitting with the children. They had overheard the conversation between the two cubs and the adult one knowing that they wanted to visit the human city and immediately reported it to their leader.

—

What's their leader's response to their report?

Their leader, the Ninetailed Fox Beastman, Hezi said, "You saw my cubs being carried by someone with a scary aura wanting to go to human land?"

"Haha~ don't worry. That's their other father, my mate. I was planning to introduce him properly tonight. He is a Beast God from the Barren Land but with any beast herd from the Land the beast."

"He had returned recently and will be living with us. Don't worry, he is docile. The elders can vouch for him."

The elders said, "This Beast king is quiet, and kind. But he is extremely powerful enough that no other beast king will offend him. With the leader's mate with us, war with the beast race might not happen. Moreover, this ancient forest was given to the leader by this lord. He is not an enemy at least."

"Don't worry about them. They will be back before dinner. You can see him by then," said Hezi.

—

The hole closed up completely. The father and sons had entered the human land. Thankfully, they had left the area before the sound of the explosion had attracted people.

The God of Destruction said, "Papa, let's leave. People are coming."

"No trace left behind. We can leave now," said Ye Xiajie.

Mo Minkong chuckled and said, "Alright. Let's go to the market place and buy something you might like."

By the time the three of them left the area, the knights on patrol had arrived in the area where they had just come out. There were traces of burned wood and the scent of something that was just burned. But they didn't see anyone who had caused it.

The knights who were investigating the place, looked around with a gloomy expression. This accident can cause more problems with the beastmen race or make them even more hostile. They thought someone had tried attacking the wooden walls to vent anger for not being allowed to hunt beast eggs in

the Ancient Forest. A lot of cases of this type have been happening lately. Not everyone can afford to hire someone to get a beast egg for them.

—

Meanwhile at the Pei Clan's mansion.

The youngest heir of the Pei Family had finally gotten everyone from this clan under his control. He might not be a real adult yet, but the soul inside is one. With the help of the evil looking beast egg in his possession, Young Master Pei had taken what he wanted. Those who are against him had their flesh and blood given to his beast egg.

The villain in this life had been reborn earlier with his memories. This isn't the doing of the heavenly laws. Even though there is a world plot to follow, not all characters will see through it. There are some who are affected by an outside force causing the whole plot to be broken. Pei Jin's rebirth is the result of that.

Now that he has completely taken over his clan and got all of them under his binding, he will not stop targeting the Long Clan who is also the family of the protagonist.

The information about the Killer Pavilion plans to enter the barren lands didn't escape the ears of Young Master Pei. The one who reported to him was the third rank assassin of the Killer Pavilion. Though right now he was taken off the list after he left the pavilion with young master Pei that day.

"Master, the Killer Pavilion is planning to send people to the barren land and gather beast eggs for their people. They use the money given to them to buy things needed for the journey," The assassin playing the role of the personal butler of young master Pei said.

Young master Pei Jin recalled his memories about this part of the plot. In his previous life, the Killer Pavilion had indeed found a way to gather money for this big project. During that time, the Long Clan and the other clans didn't even know about this. However, it was thanks to this project that the power of the Killer Pavilion was enough to be on par with his Pei Clan.

Wanting another organization was something Pei Jin would never have wanted. Moreover, it was done with the money he had given them. He never likes people using his money not for his sake.

"Shadow, call the Ashura Team. Lead them to the Barren Land and kill the top ten ranked assassins in the Killer Pavilion. This should be enough to weaken them," Young Master Pei said.

The third ranked assassin said, "Master, I can kill all other assassins but killing first might be hard for me. Second, I have a way to kill him."

"Is that First truly more powerful than you are?" Young Master Pei asked.

Shadow said, "It's not that. He had an artifact on him that makes it hard for me to sneak an attack. It detects all kinds of presence."

"All kinds of presence as long as it's alive?" Young master Pei asked.

The third ranked assassin answered, "Yes. As long as it's alive and breathing, that artifact can detect it. He usually won't wear it all day. Only during a dangerous mission would he do so. This mission to the barren land is a big one. First, I will definitely bring that artifact with him."

"That's good. I have an item that can cause the beast to berserk. When the Killer Pavilion got surrounded, you will take that opportunity to kill first for me. If you can injure Pavilion Leader Xie then that's better, Shadow," said Young master Pei.

The assassin called Shadow responded, "I shall do my best, Master!"

Chapter 1790: 24.51 Sixth Violet Star - Let them in

Human City. Marketplace.

Mo Minkong is now holding his two cubs hands while each of their hands were holding some snacks they had bought on the way. Hei Anjing was holding a huge cotton candy while Ye Xiajie was holding a stick of fried potato chips. Along the way they truly look like father and sons going for a simple market visit.

"Papa, I want to eat ice cream!" The God of Destruction said.

Mo Minkong said, "Jing'er, you can't eat too much. If you can't eat Daddy's dinner later it would be papa who will be killed by your daddy."

"Old man, I want coffee. Black one," said the Sovereign God of Void and Darkness.

Mo Minkong said, "You can't drink black coffee. You're still young! How about dark chocolate instead?"

"That will do. Jing'er let's share half," Ye Xiajie said with a doting smile on his face.

Hei Anjing kissed his brother's cheeks and said, "Gege is the best! Papa is stingy! Don't want to buy me some ice cream!"

"Okay. I will buy you some. Let's look for a place to sit," said Mo Minkong.

The group of three looked for some cafe where they can rest and eat at the same time. The cafe was simply made with nature as a motif. A huge tree was renovated to gain floors and a house was created on it. Even the stairs were made of wood. From the counter to table to seats, everything is from nature. The owner of this place is a demihuman. It was an elf. One of the demihuman races that signed an allied contract with the human race. Unfortunately, the beastman race isn't among these demihumans.

Demihumans are accepted by the human race. Not only did they look good, they were also strong. Among the demihumans, the Elven race is the closest to nature.

Hei Anjing noticed this cafe from a distance and recalled that the destined heroine was someone from the elven race. It is about a half elf girl who fell in love at first sight with Long Juedi. Elves are sensitive to smell and aura because their senses are enhanced.

"Papa, I am tired. I want to go there. Something smells nice coming that way~" said Hei Anjing as he pulled his father in that direction.

Seeing his wife excited, Ye Xiajie also chose to pull their father to the direction his Jing'er wanted to go. When they arrived at the cafe, it was rare that such a beautiful place had a sign hanging close to its door. Mo Minkong can feel that his youngest cub was about to cry.

He panicked, "J-Jing'er... How about we find another place?"

Seeing tears pooling in the eyes of the youngest, Mo Minkong tried to ask his eldest to help him coax Hei Anjing. It was just that he had forgotten how much his eldest son spoils the youngest. The eldest suddenly broke free from his hand and started knocking at the door.

Knock. Knock.

"I can feel people inside. Can you open the store? My brother wanted to stay inside!" Ye Xiajie said.

—

A few hours before Mo Minkong, Hei Anjing and Y Xiajie arrived at the cafe. Inside the cafe is someone who looks familiar, Xie Yun, the master of the Killer Pavilion. He is seated at one of the tables having some tea. On the other side of the table was a man with long golden hair but his eyes were unexpectedly gray signifying that his eyes were blind. But an elf never uses their eyes to see, but uses senses to see through other's aura and presences.

This elf man, unlike his elegant face, spoke with harsh and rude words, "Demonic Beast, are you still not dead? You are too persistent."

"Hahaha~ you poisoned your tongue elf, you haven't changed at all. Only your face is elegant," retorted Xie Yun.

Snorts~

"Who cares~ the elf race is almost extinct. Should I even care about my image? Once the world tree is dead, I will be gone as well. If not for Heri, I will not last until now. I heard you are going to the Ancient Forest, is that the way you came to me?" The grumpy elf said.

Xie Yun said with a serious expression, "Vega, if you want Heri to wake up you need his brother's help. If you are worried about the world tree I can send people to protect it. I can also send your daughter to somewhere safe."

"It is not the world tree I care about. My daughter is also living here fine. Heri... He is afraid to see his brother. After all, he ended up leaving him in the ancient forest to come with me. It might be the guilt in his heart that keeps him from waking up. He blames himself. Especially, when he foresaw the death of his nephews and how devastated his brother is after that event," the elf name Vega said.

His expression looked so guilty and in pain. If he didn't bring his wife, Heri, out or how the humans offend the beastmen race, they wouldn't be affected like this. His wife was a rare beastman that lived outside the ancient forest. Humans didn't hate the beastmen in the past. They are just another neutral race that isn't involved with the war of humans and beasts.

But things had changed after that one big mistake the humans had done against the cubs and eggs of the Beastmen. This is a race whose number is not as large as the human and beast races. They can be considered a mix of both. If the beast race is well known for their physical strength and the human race for their intelligence then the beastmen race possessed both.

For this reason their numbers are not as many as the other races and even the number of their eggs and cubs are limited. It can be said that they can only have two chances of giving birth. Once they have given birth twice, there will no longer be any more chances to do so. That's why this race is overprotective towards their cubs and eggs.

"What those humans in the ancient forest did was something like stabbing at the reverse scale of all beastmen. They killed lots of their children and eggs. For this reason alone, the Beastmen race going to war against humans is only right. This is because the humans had done something they shouldn't have."

"But the beastmen were also in the wrong. They shouldn't have killed the innocent even in anger. Those who died at that time caused the humans to bear some hatred towards the beastman race. Heri was affected by it and I can barely open this store because of the humans who hate the beastmen, attacking us." Vega said.

Xie Yun said, "I plan to visit the beastmen village in the ancient forest. Do you want to go with me now?"

"...I..." Vega still hesitated when suddenly they heard a knock coming from the door of the cafe.

Knock. Knock.

"I can feel people inside. Can you open the store? My brother wanted to stay inside!"

The owner of the voice said this seems to be very young. But Vega and Xie Yun didn't lower their guards. This is especially true for the Elf, Vega. He can feel a powerful presence beyond the door accompanying two presences similar to his wife. He knew that the cubs might be from the beastman race. However, the taller one doesn't seem to be human or beastman. But a beast powerful enough to have a human form.

The Killer Pavilion's Master, Xie Yun, noticed the changes in his friend's expression. From disbelief to vigilance, it can even be said that he might be quite afraid as well.

"What's wrong? Is there a problem with those people outside?" He asked.

Vega, the elf exclaims, "Why the hell there is a beast king in the human city?!"

"Beast King? Are you sure?!" Xie Yun asked as he also tried to check on the aura beyond the door.

As expected, the two were cubs with the aura of a beastman. As for the big one, it was an overbearing aura that made him who was only peering to puke blood. Mo Minkong didn't intentionally attack the Killer Pavilion's Master, Xie Yun. It is just that their level of strength is too big that the weaker one suffers from backlash when he tries to see through something beyond his level.

Cough.

"Fuck! It's real! But how come I don't recognize this one? Also, he is more powerful than all the Beast King I've met before. Yes, only a bit weaker than the one living with the Long Clan," said Xie Yun while the last sentence was whispered by him.

The Elf named Vega decided to get his emergency flare. Once this flare is lifted all forces the human race have within the vicinity will all gather.

"I should call for some reinforcement."

Just as he was about to grab his flare and find a window to light it up, a weak voice coming from the stairs was heard.

"Husband, no! Cough. Cough. They are not... Not enemies. Let them in," said the weak man with pale complexion and slightly purple lips.

Normally, one wouldn't believe such words. But Vega's wife, Heri, is a shaman that can see the future. This is something Vega and Xie Yun know. Even though Heri had only said a few words, the two without question accepted his words as truth.

Xie Yun asked, "If they are not enemies, who are they?"

"Family... My side," said the weak beastman, Heri. "Let them in."
