

## Worth 1151

### Chapter 1151 — a fierce battle!

However, just as Wang Baole took out the leaf and released the aura of his intrinsic scabbard, the little girl, who had appeared strangely beside Wang Baole, turned blurry in an instant. As if she had been scared off, she reappeared in the distance, her eerie gaze locked onto Wang Baole.

Wang Baole also raised his head to look at the little girl. His eyes narrowed, and a hint of savagery appeared in them.

“Testing me? Then you’ll be disappointed. I can still use this leaf many times,” Wang Baole suddenly said, as he spoke, the defense formed by the large number of clones around him began to tremble under the continuous self-detonation of the cultivators from the ten thousand sects. The explosions continued.

With such a level of self-detonation, even though Wang Baole’s physical body had broken through and reached the perfected star realm, he was still affected. If the little girl hadn’t threatened him, Wang Baole could have let loose, he had the power to suppress everyone in the area.

However, he had to be careful now. As he narrowed his eyes, Wang Baole maintained his defense and continued to absorb the second kiln. More and more strands of black hair gathered around him, and soon.., the last portion of the broken rules in the second kiln was sucked away by Wang Baole. It formed a vortex, and the black hair gathered in the area surged towards him.

The little girl’s eyes flashed with killing intent. Her body disappeared once again, as if she had fused with the black strands, making it impossible for Wang Baole to differentiate between them.

Seeing this, Wang Baole decided to take out the tree leaves completely and let them float above his head. He activated them with all his might, and the tree leaves exploded with a dazzling light that enveloped the surroundings. The pressure increased greatly, the little girl, who seemed to have fused with the black hair, had no choice but to retreat again. She appeared from afar, and a look of madness appeared in her eyes.

At the same time, as a large amount of black hair surged in, the intrinsic scabbard in Wang Baole’s body was also rapidly absorbing it. At that moment, half of the area had become translucent.

When it’s completely transparent, the sword intent within it will definitely be earth-shattering! Wang Baole sensed it for a moment and realized something. He didn’t continue to sit there and absorb the black hair. Instead, with a wave of his hand, he brought along all the avatars that surrounded him, he began to move, rapidly approaching the third kiln.

He might as well absorb the black hair along with the broken rules within the third kiln. Even if his avatars collapsed one after another during this process, with the feedback from the absorption of the intrinsic scabbard and the nourishment of his physical strength.., it caused many of the destroyed avatars to reassemble.

Even though they couldn’t reach a balance, they were able to buy a lot of time. At that point, Wang Baole had already calmed down. He knew that everything was developing in his favor.

The longer he waited, the more he would absorb, and the stronger his physical body would become. At the same time, he didn't believe that his senior brother, Chen Qingzi, wouldn't notice anything. Therefore, if he waited, he might not even need to think of a way to escape from his senior brother's predicament, he would be able to find a way to escape.

That's why it's the one who's in a hurry! Wang Baole's eyes flashed. He admitted that the little girl was strange and that she had mastered some indescribable abilities. However, that was all. Her greatest weakness was.., that she didn't have enough combat strength.

As long as she doesn't have the ability to kill me instantly, then this time, no matter what her goal is, she won't be able to succeed! Wang Baole snorted coldly in his heart as he absorbed the energy even faster.

As a loud boom rang out, he absorbed a large amount of the broken rules in the third kiln. In such a short period of time, he had absorbed half of them. Wang Baole's body was also nourished by the black strands of hair, and with the feedback from his intrinsic scabbard.., he was being nourished, and he was rising again!

A perfected star realm cultivator wasn't the limit of one's physical body. As he rose, Wang Baole's physical body grew stronger and stronger, and he continued to advance... towards the galaxy!

At that moment, the little girl who was staring at Wang Baole from afar felt that Wang Baole was becoming more and more difficult to deal with. She grew anxious. Multiple pupils appeared in her eyes, and she roared from within her body.

"Kill him! Find the projection of the deepest fear in his heart. Materialize and kill him!"

"This is the dark child of this generation. Kill him and cut off the dark sect's Hope!"

"No. The dark sect is destined to be a force to be reckoned with!"

"I've found him. He was afraid of this!"

"Kill, Kill, Kill!"

As the screams rang out, the other two heads of Prince Weiyang, who was in the little girl's body, let out painful screams as the little girl's emotions fluctuated.

Then, the pupils in the little girl's eyes overlapped rapidly. When they returned to normal, the little girl suddenly opened her mouth, revealing her serrated teeth that were filled with mucus. She let out a roar at Wang Baole.

The Roar seemed to have formed an invisible ripple that rumbled in all directions. Wang Baole's body trembled, and his soul shook slightly. However, he recovered in an instant. However, the clones that were charging at him.., the cultivators from the ten thousand sect clans, who were attacking continuously, trembled violently and retreated.

They no longer attacked the clones that were protecting Wang Baole. Instead, as they retreated, they charged towards Prince Weiyang, who was in the little girl's body. In the next moment... a strange scene appeared!

There were more than thirty remaining cultivators from the ten thousand sect clans, including the young man who had transformed into a giant dragon and displayed a thousand swords. They seemed to have completely lost their minds, as they charged towards Prince Weiyang, who had been possessed by the little girl, they seemed to merge into him the moment they made contact!

Their bodies, souls, and even their cultivation levels were merged into him. In the span of a few breaths, the thirty cultivators had merged with Prince Weiyang!

The integration of each cultivator would cause a wart to appear on Prince Weiyang's body, and his aura would increase as well. In the end... After all the cultivators had integrated into him, Prince Weiyang appeared before Wang Baole, he had turned into a monster!

The monster had dozens of arms and legs. Its body was elongated, and it looked like a giant human centipede!

There were also dozens of warts on its body. These warts evolved rapidly, eventually turning into lifeless heads that screamed in pain. They twisted their bodies and charged toward Wang Baole at an astonishing speed, they roared.

They were too fast!

In the next instant, hundreds of centipedes that were formed by the little girl crashed and exploded in front of Wang Baole, blocking his path. Some of them were even devoured by the centipede. The speed of the centipede didn't decrease as it tore at Wang Baole. Instead, it was even faster, in the blink of an eye... They appeared in front of Wang Baole, who was shaken to the core!

"Centipede?" Wang Baole raised his right hand. The leaf that the blazing flame ancestor had given him was instantly unfurled, forming a screen of light that blocked his path.

Amidst the rumbling, the screen of light showed signs of cracking, but it was still there. This was the first time that the centipede formed by the little girl had been blocked. Wang Baole was shaken to the core. He wanted to unfurl his intrinsic scabbard, but he gave up and retreated rapidly, he formed a seal with his hands and pointed at the leaf that had transformed into the screen of light!

"Seal!"

As he pointed, he uttered a single word. Immediately, the screen of light curved and enveloped the centipede that the little girl had transformed into. It was like a seal, but it was clearly unable to last for long. The centipede within it roared and attacked continuously.

"It's not the blood-colored centipede that I remember

It's something that I've sensed through some unknown method, something that I'm afraid of, that's why it's manifested..

As Wang Baole retreated, the sense of danger grew stronger again. He didn't have time to think too much. As he absorbed the black hair, he raised his right hand. Taking advantage of the time that the other party had been trapped, he directly drew the third, fourth, and fifth kiln.., all of them were drawn over, frantically absorbing the broken rules within.

I have to be fast. I have to make the intrinsic scabbard completely translucent as soon as possible

Wang Baole went all out. He circulated his cultivation and pulled the intrinsic scabbard in his body. At the same time, he felt that it wasn't enough. He raised his right hand and slapped it hard on his chest. With a loud boom, the intrinsic scabbard in his body was forced out from his body, rays of light spread out from Wang Baole's body. Finally, the intrinsic scabbard... materialized before him!

Almost at the instant the intrinsic scabbard appeared, the shattering rules in the surrounding oven went berserk. Without Wang Baole's physical body to block them, the intrinsic scabbard absorbed them even faster, causing the shattering rules.., they surged forward at an even faster speed than before!

At the same time, the surrounding strands of black hair, under the unprecedented suction force, converged with an earth-shattering roar!

30,000,80,000,100,000,200,000,300,000... until... it was so dense that it seemed endless!

### **Chapter 1152 — unending suction!**

At that moment, the shattering rules of the three ovens exploded violently and surged toward Wang Baole, who was in the center. To be precise, it surged toward the intrinsic sword sheath that had materialized in front of him!

At that moment, nearly sixty percent of the intrinsic sword sheath had become translucent. A terrifying ripple was constantly growing within it, causing the little girl, who had fused with all the cultivators from the myriad sect clan, to become a monster, the seal on the leaf was growing more and more violent.

Rumbling sounds could be heard as the shattered natural laws were absorbed, and more strands of black hair were drawn over. In a short time, there were more than 400,000 of them.

It was because of the many strands of black hair that the starry sky was dyed green. The little girl, who was sealed inside of the leaf, began to grow even more anxious. She began to scream and struggle, the cracks on the leaf seal appeared rapidly. It was obvious that it wouldn't be able to hold on for too long.

Wang Baole narrowed his eyes. He knew very well that if his natal scabbard hadn't become completely transparent before the leaf seal was broken, making it difficult for him to display his most confident attack, then this battle.., he could only think of other ways to delay it.

He could delay it until his senior brother broke through the strange situation outside and saved him.

Such a good opportunity. How troublesome! Wang baole sighed. However, he also knew that it was not the time to feel emotional. Instead, he quickly formed seals with his hands and continuously struck at the natal scabbard in front of him, one catalytic mark after another was formed.

As the Natal scabbard buzzed, the devouring power increased once again. It reached the maximum that Wang Baole could unleash at the moment, causing loud noises to reverberate in the surroundings. The number of broken rules in the surrounding ovens decreased visibly.

Soon, all the broken rules in the third ovens were absorbed by Wang Baole in the blink of an eye. Amidst the booming sounds, the third ovens released a violent suction force, causing a large amount of black hair to fly towards the scabbard!

As it absorbed, the feedback power took form. It was a ball of purple mist that spread out from the intrinsic scabbard and entered Wang Baole's seven orifices and all the pores on his body, causing Wang Baole's body to tremble, the strength of his physical body surged once again at the perfected level of the Star!

The perfected level of the star. Even though the name had the word "Perfected" in it, in reality, there were steps and a hundred steps in this realm. As it was difficult to advance in this realm, as long as one took a step, one could be said to be at the perfected level, regardless of whether one took a step or a hundred steps, one could give up at any time and advance to the celestial domain realm.

However... generally speaking, one would advance to a dozen or so steps. That way, after a breakthrough in cultivation, one's battle prowess would increase. Theoretically speaking, the more steps one took, the higher one's battle prowess would be after a breakthrough.

However, due to the difficulty of the process, very few people had reached the pinnacle since ancient times. However, Wang Baole's physical body, nourished by the Heavenly Dao, was a once-in-a-lifetime opportunity. Within a short period of time., he had stepped from the first step to the tenth step, and he was still continuing!

His physical body exuded a suppressive force that seemed to be able to suppress the surrounding starry skies. A powerful vibration that made one's heart race also spread throughout his body.

Booming sounds rang out continuously, and a large amount of black hair surged into his body. On one hand, it gave Wang baole the opportunity to nourish his physical body. At the same time, it also helped his intrinsic sword scabbard absorb the shattering rules of the other stoves.

Therefore, after more than ten breaths, the shattering rules of the fourth ovens were also sucked dry. The suction force formed instantly spread in all directions, causing more of the Weiyang Heavenly Dao black hair to surge in rapidly.

Faster and faster!

More and more!

This became a cycle, causing Wang Baole's physical body to become stronger and stronger. Eventually, the seal formed by the tree leaves shattered even more, and the monster girl inside was extremely anxious.

It could clearly sense that as time passed and Wang Baole's physical body grew stronger, the gradually transparent scabbard in front of it gave it a sense of danger, and the danger was constantly increasing.

In a short period of time, it had reached a level that made its heart skip a beat. However, Wang Baole still seemed to feel that it was not enough. Therefore, even though the little girl's heart was trembling, he was still absorbing it frantically, his eyes turned bloodshot as he exerted all his strength!

"It's still not enough!" Wang Baole roared, in the next instant, the shattering rules in the fifth kiln were emptied. The suction force erupted, causing millions of strands of black hair to gather in the surroundings. As they continued to gather, they continued to pour into the intrinsic scabbard!

Wang Baole's intrinsic scabbard had gone from sixty percent transparent to more than seventy percent. It was even expanding rapidly to eighty percent. His physical body was also in the state of the perfected star state. Under the continuous feedback.., he had reached the thirty-plus steps!

There weren't many people who could reach this level in terms of cultivation. It was even rarer to see someone who had reached the physical body level. After all, the cultivation of the physical body was slower and more arduous than cultivation!

However, Wang Baole had no choice but to work hard. His eyes were bloodshot, and he still felt that his intrinsic scabbard was slightly weaker. However... the monster girl inside the leaf seal was now the boss with her eyes wide open, there were even fewer signs of struggle... compared to before.

It seemed to be able to sense that the seal formed by the leaf seal could, to a certain extent... provide its own protection.

However, just as the little girl felt danger for the first time in her heart, four of the five stoves were now empty. They turned into a suction force, causing the green threads in the surroundings to continuously surge in at a rate of tens of thousands per breath, as a result, the suction force of the intrinsic sword sheath naturally increased. It only absorbed the remaining one of the stoves, and instantly, the broken rules within the stoves were sucked dry.

In the next instant, the six stoves turned into black holes. The suction force that spread out caused the green color in the surroundings to visibly decrease rapidly.

A hundred thousand, two hundred thousand, three hundred thousand... All the way to six hundred thousand!

At the same time, Wang Baole's intrinsic scabbard had expanded from more than 70% transparent to 80% , followed by 90% ..

His physical strength had also increased from the previous thirty plus steps to more than seventy steps. This level of physical strength was already extremely terrifying. It was likely that some ordinary early-stage celestial domain-grade powerhouses.., couldn't put it out.

Even in a certain way, that his body comparable to the magic weapon, it is no exaggeration!

It is also at this time, the little girl does not want to struggle, but in the obvious shortness of breath, pinch out one mark after another, actually began to defend!

At the same time, the black hair of the Unending Heavenly Dao was sucked away by Wang baole like a bottomless pit. After absorbing nearly a million dao, the Unending Heavenly Dao in the entire gray starry sky was reduced by more than half.

To the Weiyang clan, it was earth-shattering. The battleships of the Weiyang clan, which were floating outside the gray starry sky and maintaining a state of concealment, were soon unable to continue concealing themselves. Waves of ripples reverberated, they had no choice but to appear before the eyes of the cultivators from the myriad sect clans in the outside world.

That wasn't all... there were even a few battleships that, as everyone looked over, self-detonated and shattered into pieces. This scene immediately stunned everyone who saw it.

In the next moment, not only did the unending battleships explode, but more and more battleships also began to explode at higher frequency.

In the space of a few breaths, the face of the Xuan Hua divine emperor flickered, and rumbling sounds could be heard as more than 30,000 of the 100,000 unending battleships were destroyed! !

At this moment, everyone outside was completely shocked, and a huge commotion broke out.

“What’s going on! ?”

“What’s happening! ?”

“Could it be that moon splitting emperor is dead?”

“Chen Qingzi is coming out! !” Xuan Hua’s expression was also unsightly. He had not noticed Moon splitting emperor’s death, but he could tell that Chen Qingzi must have used some tricks in there. Perhaps he really was about to charge out.

After a moment of hesitation, Xuan Hua was about to speak..

But at that moment... thirty percent of the remaining unending battleships, about seventy to eighty thousand in number, all trembled at the same time, and cracks began to appear!

A massive suction force, far greater than before, suddenly erupted from within the gray starry sky, affecting the outside world. It was actually forcefully absorbing the Heavenly Dao Aura within the unending battleships! !

It was as if the guest was the host.

Still writing!

### **Chapter 1153, Extreme Dao physical body!**

In reality, the host was not the host!

On Wang Baole’s side, after the intrinsic scabbard absorbed enough broken rules and Wisps of the Weiyang Heavenly Dao Aura, the entire area instantly turned translucent!

If one did not look closely, one would not be able to see clearly. At the same time, after the intrinsic scabbard was completely translucent, it sucked violently in all directions once again.

Immediately, all the black hair in the surroundings, numbering in the millions, seemed to have gone crazy. In the next instant, they all surged into the intrinsic scabbard. This scene was also the cause of the disturbance in the outside world.

The suction force was too strong. As it sucked too much at once, it caused the Weiyang warship in the outside world to lose its balance. It was like a tug-of-war. When the other party suddenly increased its strength, the other party was unable to resist and would naturally be sucked in!

That was why the scene of it shattering and collapsing was happening. At the same time, as the intrinsic scabbard absorbed millions of strands of black hair at once, it was also very conscientious and gave Wang Baole a wave of astonishing nourishment.

The nourishing power was too strong. In an instant, Wang Baole's steps from seventy steps to ninety steps at the Perfected Stellar Realm continued!

Ninety-three, ninety-four, ninety-five..

The speed was so fast that Wang Baole didn't even have time to react. His body rumbled continuously, and he was nourished to a hundred steps!

The moment he reached a hundred steps, ancient runes that seemed to have existed since ancient times appeared on Wang Baole's body. Their appearance seemed to bring with it a sense of heavenly music, as they reverberated in all directions, the runes spread out and surrounded Wang Baole, giving him a perfect contrast.

From Afar, Wang Baole looked as if he had become an immortal!

An ancient-looking aura and a terrifying pressure spread out from his body, causing the air around him to distort and the starry sky to tremble. It was as if even the entire area couldn't withstand it.

That was because he was at the hundred steps!

Theoretically speaking, the great circle of the stellar realm was the limit. It was incredibly difficult to reach that level of cultivation, and it was incredibly difficult to reach the fleshly body level. The hardest part... was the divine soul. Without the assistance of some rare and rare treasures, it would be impossible! Furthermore, it was almost impossible to reach the great circle of the stellar realm with the help of extinct heavenly materials and earthly treasures!

In fact, in the Wei Yang Dao Domain, in addition to the myriad sect clans, there were some ancient sects with long legacies. There weren't many of them, and any one of them would be taken seriously by the Wei Yang clan. For example, the Xie clan was one of them.

In an ancient sect like this, the criteria by which the top elites in their ranks were measured were their cultivation, soul, and physical body. All of them had to be at least ninety steps away when they were at the perfected star realm.

Wang Baole's physical body had reached its peak. If word got out... it would shock everyone!

In reality, the little girl who had been trapped by the tree leaves was already shocked. She stared blankly at Wang Baole, at the runic symbols around him, and at the terrifying pressure emanating from him. The little girl's body.., she couldn't help but tremble.

"I've gone too far..."the little girl muttered. A large number of other pupils appeared in her pupils once again, and many voices spread out from within her body.

"Extreme Dao physical body!"

"That's impossible. Since ancient times, the Extreme Dao physical body has only been a legend. It's impossible for a living being to achieve it!"

“That’s right, it’s impossible. If you want to obtain the Extreme Dao physical body, even heavenly treasures can’t strengthen it. Even though the Heavenly Dao Aura is strong, it’s impossible for you to complete the last step of the transition!”

“In theory, only if your physical body is already heaven-defying would it be possible. However, that’s not a breakthrough, but a return!”

As the voices reverberated in all directions, Wang Baole raised his head. He could sense that his physical body had reached an unbelievable level. However, the most important thing for him now was not to observe his physical body, instead, it was to cut open the little girl and the strange space!

Therefore, in the next instant, as the little girl’s pupils contracted rapidly, a cold glint flashed across Wang Baole’s eyes. As he stared at the little girl, he raised his left hand and grabbed the intrinsic scabbard!

At the same time, he placed his right hand on the scabbard. It was as if there was an invisible sword hilt that no one could see. After Wang Baole grabbed it, his divine thought fluctuated and summoned the leaf back!

The leaf, which had reached its limit, began to burn and spread out, but it didn’t disappear. It was formed from the curse left behind by the blazing flame ancestor. It turned into a large amount of fog and headed straight for Wang Baole. When it returned to his side., it turned back into a leaf and disappeared into his storage bag.

The little girl let out a roar. Her expression was twisted. After sensing a strong sense of danger, she didn’t leave. Instead, she turned into a ferocious afterimage and charged at Wang Baole at an indescribable speed, killing him!

Her speed was astonishing, and her battle prowess was monstrous. At that moment, dozens of figures appeared on her body, and they were even increasing in number. After nearly a hundred, it seemed to have gathered all the power of the figures, they turned into a huge mouth that seemed to be able to devour everything, and it swallowed Wang Baole in one gulp!

Wang Baole’s gaze was cold. He imagined a sword in his mind. Right now, he was holding onto the hilt of the sword, and he was pulling it out bit by bit. His actions were the same!

One Inch!

He was only pulling out one inch!

The sky cracked and the earth cracked. A loud boom reverberated in all directions. An immense pressure, accompanied by an extreme ray of light, erupted instantly, causing the little girl who had just charged forward to let out a shrill scream, her body was like snow that had met boiling water, melting in an instant.

However, the little girl was also extremely ferocious. Even though her body was melting, she forced herself to gather together. She endured the intense pain and was unwilling to give up. She charged forward. Her mouth was wide open, covering Wang Baole’s surroundings. She looked like she was about to fall!

Wang Baole's expression remained the same as he pulled out..

Two inches!

A loud boom shook the heavens and earth. It was as if there was a force that could suppress and tear apart everything. It exploded from the scabbard. The light was even brighter, causing the sky and Earth to change color. The starry sky distorted, and the little girl with her gaping mouth.., her body could no longer hold on. With a loud boom, she exploded!

As she exploded, the figures of the cultivators from the myriad sect clan that she had fused with earlier reappeared. They scattered in all directions, unconscious, revealing Prince Weiyang, who was in the little girl's body.

As the prince's body trembled, his two heads collapsed. Even the parts of his body that belonged to him fell apart, as if he had used this chance to escape the lock of the Sword Qi, the little girl's figure materialized. Her face was pale, and she screamed as she retreated rapidly.

"You're not Wang Baole, you're not a cultivator, you're not the life of this era. No... You're nothing. You're not the existence of the stone stele world!"

"Who the hell are you!"

Wang Baole narrowed his eyes. He was about to pull out the third inch of the invisible sword, but his eyes narrowed the next moment. A smile appeared on his lips, but he didn't continue pulling it out.

That was because... as the little girl retreated, the void behind her was suddenly torn apart by a sword qi. A hole was torn open, and a large hand reached out and grabbed the little girl's head, it was yanked outward!

"The Dark Sect's Heavenly Dao has awakened. I didn't expect this ancient will to awaken as well!"

"Junior brother, this is senior brother's mistake!"

As Chen Qingzi's voice reverberated in the air, the strange starry sky that had been torn apart by the little girl with a strange force suddenly collapsed with a loud bang. It was as if an invisible barrier had been torn apart, the gray starry sky outside was revealed!

And... Chen Qingzi, who was standing above the central oven and hadn't been reunited with Wang Baole for a long time!

"Baole greets senior brother!" Wang Baole stared at Chen Qingzi, his eyes filled with emotion. He cupped his fists and bowed deeply!

At that moment, only three of the surrounding ovens were still filled with a suppressive force. The others were no longer of any use and were completely abandoned. The cultivators from the myriad sect clan were floating around, unconscious.

The only ones who were awake were Wang Baole and Chen Qingzi!

“You’ve grown up...” Chen Qingzi’s eyes were filled with regret. He had just said that when his expression suddenly changed. He raised his head to look at the outside world, and a strange light shone in his eyes as he laughed loudly.

“Baole, senior brother has caught a big fish. Are you willing to eat with me?”

“How can I not obey senior brother’s orders!” Wang Baole laughed when he heard that.

### **Chapter 1154, the Unending Heavenly Dao!**

Wang Baole looked at his senior brother, Chen Qingzi. He had a hunch that the big fish that his senior brother had mentioned wasn’t the divine emperor, but..

“The Unending Heavenly Dao?” Wang Baole asked softly.

As he spoke, half of the unending battleships outside the gray space continued to collapse. The entire outside world was thrown into chaos!

The cultivators from the myriad sect clans were visibly moved. They looked as if they were facing a great enemy, and even began to back up. Clearly, they didn’t want to get involved, and were trying to send voice transmissions to their disciples who had entered the gray starry sky.

However... it was as if a clay ox had entered the sea. There was no response at all. However, there was nothing strange about it. After all, the spell formation only contained isolation. However, the changes that had occurred in the Wei Yang clan caused the cultivators from the myriad sect clans to feel a bit uneasy.

At the same time, the leader of the Weiyang clan, Divine Emperor Xuan Hua, also had an ugly expression on his face. He stared at the gray starry sky below. He could sense a large amount of the aura of the Weiyang Heavenly Dao disappearing, and he also saw the collapse of the Weiyang battleship, this had happened too quickly and disrupted his plan.

His original plan was to use the aura of the Weiyang Heavenly Dao to neutralize the power of the formation and at the same time create a suppressive effect on the revived Heavenly Dao of the dark sect.

In this way, with the current state of the Unending Heavenly Dao, he would definitely be able to create an effect on the suppressive effect. Moreover, even if he could not produce an immediate result, he would be able to weaken the power of the array formation. At the same time, he would be able to help the Unending Heavenly Dao’s aura fuse into the array formation, he would also be able to help the moon splitting divine emperor, who was currently fighting Chen Qingzi and was in danger.

This was the first plan of the unending clan.

At the same time, there was another plan, and that was... fishing!

Trapping this place, trapping the revived Heavenly Dao of the dark sect, and even trapping Chen Qingzi, in order to attract the remaining dark sect members who were hiding in the Weiyang Dao domain and could not be found.

The Weiyang clan believed that the greater the change in this place, the greater the attraction to the remaining dark sect members!

In addition, they had a third goal, which was to increase the hatred for the dark sect once again. The reason why they did not stop the cultivators of the myriad sect clan from entering and informed them of the risk was to let them die in there, and the more they died., the hatred would grow. If the dark sect wanted to rise again from the ashes, it naturally wouldn't be able to accomplish it.

However... of the three goals, all of them had changed except for the last one. All of these changes had occurred because the aura of the Weiyang Heavenly Dao in the spell formation had disappeared in large numbers.

"Dammit, what the hell is going on in there? !"Xuan Hua frowned. She was just about to say something when... an enraged roar suddenly rang out from the depths of the starry sky.

As the voice rang out, it was as if the minds of all the cultivators from the myriad sects and clans in the area were shaken, regardless of their level of cultivation.

Even Divine Emperor Xuan Hua was affected. He could also sense waves of terrifying aura gathering on the remaining Weiyang battleships. His expression changed, and he immediately let out a low, solemn shout.

"Go Back!"

As mystic flower spoke, her voice reverberated once again. She seemed unwilling, but she eventually left slowly. The terrifying aura that had gathered on the Weiyang clan warships also gradually dissipated.

At the same time, Chen Qingzi, who had raised his head with Wang Baole in the gray space, frowned slightly and suddenly spoke.

"Baole, can you continue sucking?"

"Of course!"Wang Baole smiled. Without any hesitation, he charged toward the seventh kiln. At the same time, he raised his right hand and pointed at the eighth kiln, instantly drawing the two ovens over, the intrinsic scabbard in front of him flashed. Instantly, the broken rules within the two ovens exploded and surged toward Wang Baole's intrinsic scabbard like a torrent.

In terms of speed, the strength of Wang Baole's physical body enhanced his speed. The entire process only took about ten breaths of time. Just as the terrifying aura in the outside world was about to completely dissipate., the seventh and eighth broken rules in the oven were immediately emptied.

They turned into two huge black holes that emitted a monstrous suction force, causing the thin strands of black hair around them to once again rumble under the suction force, as if they were about to be squeezed dry, the remaining Unending Heavenly Dao black hair in the gray starry sky was once again drawn over.

In the blink of an eye, the number once again exceeded a hundred thousand. Soon, two hundred thousand, then three hundred thousand, then four hundred thousand, then five hundred thousand... until it reached a million again!

This was basically completely drained!

The moment these strands of black hair appeared, they charged towards Wang Baole's intrinsic scabbard and were absorbed crazily.

Even someone as powerful as Chen Qingzi took a few more glances at Wang Baole's intrinsic sword sheath. A look of admiration appeared in his eyes. He retracted his gaze and narrowed his eyes as he looked up.

It was as if his gaze could pierce through the starry skies and see the outside world.

Just as Wang Baole's intrinsic sword sheath was absorbing the aura of the Unending Heavenly Dao, the terrifying aura that had left under Xuan Hua's command began to fluctuate and roar, it roared once more from the depths of the starry skies.

The terrifying aura descended upon the unending battleships outside the gray starry skies once again. This scene caused Xuan Hua's expression to change again. She was about to speak... but at that moment, within the gray starry skies, Wang Baole waved his hand, he released the little black fish, the donkey, and Little Five.

The moment the three appeared, they saw the sea of black hair around them. They immediately grew excited and split into three directions, as if they had turned into three black holes, absorbing and devouring them all at the same time!

As a result, the black hair in the area began to disappear at an even faster rate!

Originally, there had been a million black hair in the area, but now, it was reduced to 800,000,700,000,500,000... . By the time it reached 300,000, roaring sounds could be heard from beyond the gray starry sky, and no matter how much Xuan Hua berated them..., it didn't seem to be of any use. The terrifying aura exploded out from the Weiyang clan battleships.

It grew stronger and stronger, and the pressure grew more and more shocking. All of the surrounding cultivators were forced to fall back once again. To their astonishment, they saw... that the Weiyang clan's battleships seemed to have reached their limit, they could no longer withstand the pressure, and were instantly torn to pieces.

As they collapsed, the terrifying aura that had descended from the sky also gathered together to a certain extent. It instantly gathered together and formed an illusory image on top of the many destroyed Weiyang clan battleships!

It was a gigantic golden beetle!

Its entire body was golden, and it was supposed to be divine. However, its ferocious appearance and cold eyes made it look exceptionally savage. The bloody stench that emanated from its entire body made it seem as if it had just finished eating its blood, it gave people a feeling that they could not get close to it.

As for its appearance, it looked very similar to the Weiyang race's battleships. It was as if they were of the same origin. In fact, this was indeed the case. All of the Weiyang race's battleships came from the gigantic golden beetle before them, that was because... it was the Heavenly Dao of the Weiyang race!

It had been born after devouring the Heavenly Dao of the dark sect from back then. Now, it was the Heavenly Dao that had suppressed the entire Weiyang Dao domain and controlled endless natural laws and laws!

At that moment, what appeared here was not its original body. Instead, it was a split-up body that had gathered together. However, it was extremely powerful. It did not even bother to pay attention to Xuan Hua's berating. The enormous golden beetle let out a roar, its body charged straight into the gray starry sky, instantly disappearing into it.

Xuan Hua's expression instantly turned ugly. With a sway of its body, it stepped into it as well.

At the same time, Chen Qingzi, who was in the center of the area, had an intense glint in his eyes.

"I've caught it. Baole, follow me!" Chen Qingzi laughed loudly. With a flick of his sleeve, he rolled up Wang Baole and retreated rapidly, heading straight for the central oven.

Little Five and the donkey followed quickly. As for the little black fish, it shuddered, its eyes filled with intense fear. At the same time, it was eager to give it a try. Just as it was about to turn its head to look, Chen Qingzi grabbed it in mid-air, he took it away.

In the blink of an eye, Wang Baole and Chen Qingzi entered the central oven. The place where they had been was instantly filled with rolling clouds and rumbling sounds!

The Unending Heavenly Dao had descended!

### **Chapter 1155, reversal of the Moon splitting!**

The moment Wang Baole entered the oven with Chen Qingzi, his vision blurred, and he saw everything clearly in the oven in the next moment.

In a certain sense, it was like a world.

The Sky was gray, and the ground was gray. There were no mountains, no rivers, and no plants around. There was only... an extremely dense black fog!

Within the fog, the sound of chains could be heard, and heavy breathing could be heard. It was like a storm that reverberated in all directions. At the same time, there was a strong suppressive force that continued to spread out from within the Black Fog, causing Wang Baole to feel..., his heart and mind trembled.

He seemed to have also sensed the return of Wang Baole and Chen Qingzi. The breathing in the fog paused, followed by a shrill scream.

"Kill me!"

"Kill me!"

"Kill me!"

The voice reverberated in the air, shaking Wang Baole's mind. His cultivation was on the verge of collapse, and his body was trembling. He almost lost his balance. In that instant, Wang Baole was astounded, he had guessed the identity of the person who had screamed from within the fog.

"Moon-splitting divine emperor!" Wang Baole's eyes shone with a strange light. He knew that there were only five divine emperors left in the never-ending clan. Other than patriarch never-ending, one of the remaining four was moon-splitting, the other was the mystic flower from outside.

These were the elites of the mountain in the Wei Yang Dao Domain. Any one of them would be able to intimidate the myriad sect clans. They were undoubtedly important figures.

But now... Such an important figure was screaming and begging for death. It could be seen from this... how shockingly powerful his senior brother was!

In the past, Wang Baole had heard that his senior brother had killed a divine emperor, but he didn't have much of an idea. However, now that his cultivation had reached his level, he was able to understand the divine emperor's realm and how terrifying it was. Therefore, when he recalled the rumors he had heard..., the shock in his heart grew stronger.

Senior brother, what cultivation level does he have? is he really only in the galaxy? Wang Baole looked at his senior brother, Chen Qingzi, who was beside him.

The instant he looked over, the fog in the gray starry sky outside the oven churned violently, and a terrifying aura erupted.

As it erupted, it formed a vortex that moved at high speed, heading straight for the center of the Gray Starry Sky.

As the vortex closed in, all of the remaining green threads in the gray starry sky seemed to be incredibly excited as they rapidly closed in and fused into the vortex.

However, as they fused into the vortex, furious roars could be heard coming from within. It was as if the Unending Heavenly Dao within the vortex was becoming more and more aware of the aura he had lost.

As the roars echoed out, a large amount of natural law and power of laws spread out from within the vortex, filling the entire gray starry sky. It was as if a huge net had been formed, and when it collided with the aura of death in the area, a large amount of aura of death seemed to evaporate, it dissipated rapidly.

As it did, the gray starry sky became less blurry, and gradually became clearer. At the same time, the cultivators on the periphery were shocked beyond belief, and wanted to flee, however, it was very difficult for them to escape from the tyranny of the Unending Heavenly Dao. When they came into contact with the power of laws and natural laws, they would immediately be sucked dry.

The Heavenly Dao was merciless!

This was especially true in the face of his rage. All life was his food, and even the remaining cultivators of the myriad sect clans couldn't escape his wrath.

Even Xuan Hua, who had been following closely behind him, kept berating him, but it was to no avail. After being heavily injured and sensing that his natural enemy was in front of him, the Unending Heavenly Dao went completely mad and erupted with ferocity.

This was also the reason why Xuan Hua had stopped him from descending. After all, this was a third objective. Once Heavenly Dao arrived, there would be too much slaughter. Although the Wei Yang clan could accept it, it would be detrimental to their plan.

However, it was too late now. The gray starry sky was rapidly thinning, and everything within was gradually becoming clearer. The cultivators of the myriad sect clans outside immediately saw Wei Yang Heavenly Dao's indiscriminate slaughter!

A fierce gleam appeared in the eyes of everyone present, but... There was nothing they could do. They could only remain silent.

In the silence of the outside world, the Unending Heavenly Dao let out a roar and transformed into a vortex that shot toward the central baking furnace. As soon as it arrived, its natural law and natural law began to spread out in all directions, as it surrounded the baking furnace, it also spread out to surround the chosen from the various sects who had been unconscious. They were second only to the first echelon.

Thankfully, Xuan Hua had been fast enough to save them. Otherwise, the casualties would have been even greater.

"Dammit!" Xuan Hua's face was grim. Although the spell formation in the Gray Starry Sky had been broken quite a bit, it was still too far from what the Wei Yang clan had planned.

"How did this happen? How did the aura of the Wei Yang Heavenly Dao disappear! ? ! ?" Xuan Hua's heart was filled with hatred. The main reason for the deviation in her plan was because of the massive disappearance of the Wei Yang Heavenly Dao's aura.

If not for this, the Weiyang Heavenly Dao wouldn't have sent an avatar down in a fit of rage!

At the same time, in the central oven, Chen Qingzi threw his head back and laughed loudly as the Weiyang Heavenly Dao charged towards him. His eyes shone with an intense light. He raised his right hand and waved it. Immediately, Wang Baole, who was beside him..., he saw the thick black fog shrink instantly and charge towards... the little black fish!

It was as if it had been forcefully poured into the little black fish's body, causing its body to rapidly expand. As it was poured into the little black fish, the area that was originally filled with black fog also became clear, a figure that was bound by many chains was revealed.

In the next instant, after all the Black Fog was sucked away by the little black fish, an aura that far surpassed the aura from before spread out from the little black fish's body. At the same time, it became even larger..., on its body... Threads of laws and principles began to appear!

They looked the same as the laws and principles of the Weiyang Heavenly Dao, but their essence was completely different!

The appearance of these threads immediately suppressed Wang Baole's own laws and principles. The only things that were not suppressed were the time laws and the power of the dao stars contained in his waning moon.

Other than that, his nine quasi-daos and the tens of thousands of special stars dimmed. However, at the same time, the dark fire within Wang Baole's body seemed to be nourished. It erupted instantly and spread throughout Wang Baole's entire body, it also spread to the quasi-daos and the tens of thousands of special stars, causing them... to regain their original form as if the laws and laws had been replaced!

Not only that, Wang Baole could clearly sense that all the divine abilities and spells he had learned in the never-ending dao domain were about to melt as they were being replaced, it was as if the never-ending Heavenly Dao and the Dark Sect's Heavenly Dao didn't fuse together, resulting in only one type of Heavenly Dao laws and laws in a person's body!

The intense repulsion and conflict shook Wang Baole's mind. He was about to make a choice when... suddenly, the intrinsic scabbard in his body shook violently, as if it was suppressing something, it instantly suppressed the will of the Unending Heavenly Dao and the Dark Sect's Heavenly Dao, forcing them to coexist within Wang Baole's body.

It was a long story, but it all happened in an instant. Chen Qingzi tilted his head and glanced at Wang Baole. There was a strange look in his eyes, but he didn't say anything. Instead, he raised his right hand and formed a seal, pointing at the bound Moon splitter.

"Reverse the Dao!"

As soon as he said that, moon splitter's screams grew even more painful. Black appeared on his body, and it spread rapidly throughout his entire body. As it spread, waves of the dark sect's aura erupted from his body.

"Dark Sect's Heavenly Dao, the ladder has been set up. Why aren't you returning to your position?" Chen Qingzi shouted again. Immediately, the little black fish, which had grown much larger, let out a joyful cry. It dashed towards Moon splitter and closed in on him in an instant, it drilled directly into the center of his brows.

Almost at the instant it drilled in, Lie Yue's miserable cry became even more shrill. As his body trembled intensely, the black color spread even faster. At this moment, a roaring sound came from the sky, and the enormous figure of the golden beetle appeared.

It did not really enter. Instead, it spat out a large amount of black hair outside the oven, causing it to drill into the oven and pour into... lie Yue's divine emperor's body!

The Unending Heavenly Dao could allow the divine emperor to fall, but it couldn't allow the divine emperor to be reversed. If it was reversed, it would be a fundamental injury to it.

Chen Qingzi didn't panic when he saw this. Instead, he laughed loudly.

"Baole, your destiny has arrived!"

**Chapter 1156 — Chen Qingzi's plan!**

Chen Qingzi laughed out loud. He swung his sleeve, and a powerful force immediately swept Wang Baole toward the moon-splitting emperor. In an instant, Wang Baole was behind the moon-splitting emperor!

The pressure from the moon-splitting emperor was terrifying, but to a certain extent, it was the safest place to be. This was especially so when the situation was reversed. The broken rules that belonged to the moon-splitting emperor continued to emanate from his body.

These rules were a great supplement to Wang Baole's natal scabbard!

During the transformation, a large amount of death qi also spread out. Wang Baole held back from inhaling it. Instead, he stared at the divine emperor as he was transformed.

To him, this was the greatest serendipity. If he could comprehend it, his soul and cultivation would increase!

At that moment, Wang Baole had more than half understood his senior brother Chen Qingzi's plan!

He was fishing for the Weiyang Heavenly Dao, and his goal was to use the Weiyang Heavenly Dao to nourish the dark sect's Heavenly Dao. He wanted to raise the dark sect's heavenly dao high up in the sky as if it had been upgraded, allowing it to stand tall in the Weiyang Dao Domain.

That would mean that the two great heavenly dao would coexist in the Weiyang Dao Domain!

Once it was done, it would mean that the dark sect's techniques would no longer be suppressed like before. The Dark Sect's hidden descendants would be able to reappear and be protected by the Heavenly Dao!

Naturally, they wouldn't be a match for the Wei Yang clan. However, as long as the Heavenly Dao wasn't destroyed, the dark sect's existence wouldn't truly disappear. It would be extremely difficult to destroy the dark sect's Heavenly Dao, which had been upgraded and integrated into the Wei Yang Dao Domain, it wasn't something that could be done easily.

Wang Baole was extremely shaken by this plan. He hadn't expected his senior brother to be so crazy. It was obvious that he wanted the revived dark sect's Heavenly Dao to be upgraded and become one of the Heavenly Dao in the Dao Domain, other than absorbing the power of the Unending Heavenly Dao, he also needed a method to lift the dark sect's Heavenly Dao into nothingness.

This was equally difficult. That was why... The Moon splitting divine emperor had reversed the situation!

He had raised the Dark Sect's Heavenly Dao at the price of sacrificing a divine emperor!

If news of this spread, it would definitely be sensational and cause a stir in the entire unending dao domain. That was especially so after Wang Baole analyzed the situation. His senior brother had first wanted to reverse the moon splitting and severely injure the unending heavenly dao so that it would have a chance to reveal itself, then, he would sacrifice the moon-splitting spell to complete the upgrade of the Heavenly Dao.

What a grand plan! Wang Baole's breathing quickened. He didn't believe that his senior brother had come up with all of this on the spot. He even tried to recall what had happened. Wang Baole felt that... Perhaps this was his senior brother, Chen Qingzi.., he had started this plan a long time ago!

First, he would weaken the Weiyang clan step by step. Then, he would give them a chance to lure the moon-splitting spell into attacking them. Then, he would suppress it in the opposite direction, but he wouldn't kill them. Instead, he would slowly draw attention from all directions, until the rescue of the Weiyang clan and the arrival of the Heavenly Dao arrived.

That means... there might be other... dark sect cultivators hiding in the outside world! Wang Baole narrowed his eyes. As he made his judgment, he felt that there was a high chance that his guess was correct.

After all, this matter was too big for the dark sect. Even if his senior brother was confident, this was the never-ending DAO domain, after all. There had to be other preparations.

As Wang Baole thought about this, he heard the shrill cry of the moon splitting being reversed. His mind was shaken, and his thoughts were interrupted. His eyes shone brightly. In the sky, the golden beetle formed by the Weiyang Heavenly Dao.., it let out an extremely angry roar and released a large amount of Heavenly Dao power to prevent the moon splitting from being reversed.

At the same time, behind the golden beetle, the sky distorted, revealing a tall figure. That figure... was the mystic flower deity emperor. He stood there, his gaze landing on Chen Qingzi.

"Chen Qingzi!"

"The Weiyang clan has treated you well," Xuan Hua said slowly. "Why do you have to do this? !" Her voice was like Heavenly Thunder, rumbling out in all directions. It was as if she could say anything she wanted, and the power of countless natural laws and natural laws were formed, they transformed into threads that wrapped around Chen Qingzi's body.

It was as if the Weiyang Heavenly Dao had been blessed. As it roared, it increased its aura, causing the seemingly irreversibly transformed moon splitter to tremble. The power of the transformation slowly came to a halt, as if it was about to be reversed!

"I once did something wrong and wanted to repent." Chen Qingzi sighed. After laughing self-deprecatingly, he took a huge gulp from the wine flask in his right hand. After which, he formed an incantation gesture and pointed out. Instantly, the wooden sword beside him emitted a resplendent light, it formed a sword light that seemed to be able to tear apart the starry skies and intimidate the entire universe. It shot towards Xuan Hua with a thunderous roar.

At the same time, Chen Qingzi's laughter gradually grew louder. He took one step at a time and stepped into the void.

"When the heavens and earth separate, the cycle of fate stops..."

"If you wish to know the cause of your past life, the one who will receive it in this life is..."

"If you wish to know the fruits of your next life, the one who will do it in this life is..." Chen Qingzi's ancient dark ballad rang out from Chen Qingzi's mouth. His laughter made Wang Baole unable to tell whether he was crying or laughing.

He only saw Chen Qingzi walking out of the dark ballad, step by step, towards the oven where the mystic flower was located.

The next moment, the dark ballad was still reverberating. Chen Qingzi had already walked out of the oven. Outside the oven, he swung his sword down. The entire gray starry sky rumbled, as if it had been sliced apart in an instant.

The mystic flower retreated. Her expression was grim. She shouted in a low voice.

“Chen Qingzi, the destruction of the dark sect is inevitable. Weiyang has returned, and you know that it can not be reversed!” Chen Qingzi picked up the wine flagon and took another big gulp of wine. He shook his head, and a look of madness appeared in his eyes.

“So Noisy!” Chen Qingzi laughed heartily, and once again swung his sword at the retreating Xuan Hua!

The starry sky rumbled, and the entire area trembled. The cultivators of the myriad sects and clans all fell back. They saw a sword light, and in front of that sword light, they saw Xuan Hua, who had revealed Weiyang’s true body, and... behind that sword light..., Chen Qingzi was walking towards them step by step!

His long robes fluttered in the wind. He was dressed in green robes and held a wine gourd!

At that moment, Chen Qingzi, even if he wasn’t a woman, could be described as a peerless beauty!

Amidst the rumbles, a great battle erupted!

As the battle raged in the outside world, in the oven, Wang Baole’s good fortune was suddenly activated. As his mystic essence was blocked and the support from Wei Yang’s Heavenly Dao disappeared, the transformation on Lie Yue’s body began once again.

It was slow, but it continued. During the transformation process, the Dao rhythm that spread out from Moon Splitter’s body was rapidly absorbed by Wang Baole. The shattered rules also rushed towards Wang Baole’s natal scabbard.

During this process, the power from the Heavenly Dao Weiyang was also used to support Moon Splitter. However, due to Wang Baole’s position and the absorption, a portion of it was drawn over.

In that instant, Wang Baole’s figure rumbled. His soul, his cultivation, and the power of his physical body were all erupting at the same time. They were all rising!

This kind of opportunity could be said to be beyond ordinary serendipity. That was because there was basically no serendipity that could be compared to the Dao charm that could reverse a divine emperor.

There was also no serendipity. It was more important than the power of rules that was released when the two Heavenly Dao were fighting against each other.

Every invisible clash between them was a clash of different laws and laws. Wang Baole was the only one who was close. His absorption and comprehension of the laws had reached an unbelievable level.

Therefore, in a short period of time, his soul had reached the peak of the late-stage star realm. His cultivation had also soared from the mid-stage star realm to the peak of the mid-stage.

As his cultivation and soul had increased, the immortal energy in his body had grown stronger and more powerful. Behind him, Dao Stars had appeared. Nine quasi-dao stars had appeared, and tens of thousands of special stars had appeared.

Behind the star map, Wang Baole's shadows from his previous life had also appeared. They were all being absorbed. Finally... an illusory black wooden board had appeared!

This time, I will definitely have one soul, cultivation, and physical body step into the star domain. I will strive to have all three step into the star domain... if not, I will have to have at least two step into the star domain! Wang Baole's eyes were filled with determination, he absorbed crazily in this once-in-a-lifetime opportunity.

—

I was very touched last night. I felt mixed emotions and warmth at the same time. I thank the fellow Daoists from the Nine Peaks, the Ark, the Gargamel, and the other fellow Daoists who have comforted and supported me. Thank you!

All these years, I have been touched by you every single time I wrote a book. It also made me feel that everything was wonderful on the path of writing a book. I will adjust my state as soon as possible. Thank you!

### **Chapter 1157: There was something wrong!**

The improvement of his soul, the leap in his cultivation, and the continued strengthening of his physical body made Wang Baole realize that he had to seize this opportunity. He also knew very well that... it wouldn't be long!

The transformation of the Moon splitter divine emperor was now sixty percent complete. Even though the process was slow, the sky above them was showing signs of cracking. It was the Unending Heavenly Dao outside. It had gone mad and was charging madly.

If not for the fact that the oven had been strengthened countless times by his senior brother, Chen Qingzi, the Unending Heavenly Dao would have blasted it into the oven long ago.

Even if the Unending Heavenly Dao had entered, it wouldn't have treated me as its first target... Wang Baole thought to himself as he controlled the intrinsic scabbard in his body. He adjusted it slightly, allowing the two Heavenly Dao laws in his body to.., he could suppress one side at any time, allowing the other side to take the lead. He would feel more at ease.

However, as he absorbed and improved, he was also thinking about another matter. That Was... how should he leave this place.

According to Wang Baole's judgment, just as he had guessed that there were other people from the dark sect, he didn't believe that only one divine emperor had come from the endless clan. Therefore, the upcoming battle would be even more intense.

He, on the other hand, might have a unique opportunity, but he was at the center. Therefore, he had to consider when and how he should leave. However, just as Wang Baole was distracted and analyzing the

matter, suddenly, from his storage bag., a strand of divine thought emerged from the leaf that had used up a portion of its power and entered his mind.

“My dear disciple, this is a rare opportunity. Go ahead and absorb it. I will think of a way to bring you out of this vortex later!”

“That senior brother of yours doesn’t want to be a son. In order to revive the dark sect, he doesn’t have the strength to bring you out. However, with me around, I’m the person closest to you.” There was a hint of pride in the Moon Splitting Patriarch’s voice, it reverberated in Wang Baole’s mind.

Hearing his master’s voice, a smile appeared on Wang Baole’s face. He didn’t care about his master’s displeasure towards his senior brother, Chen Qingzi. He nodded and calmed down. He took a deep breath, he focused all his energy on absorbing the Dao rhythm law that emanated from the transformation of the split moon.

Wang Baole continued to absorb the law. The battle in the outside world had reached an intense stage. Even though the mystic flower deity Emperor was powerful, he was still lacking when compared to Chen Qingzi!

This was related to Chen Qingzi’s expertise in killing. It was also related to the existence of the Dark Sect’s Heavenly Dao. The dark art had been enhanced, and the area of impact from the battle between the two in the starry skies grew larger and larger.

The surrounding starry skies continued to shatter, and the moon-splitting reversal reached seventy percent. The moment it reached seventy percent, Wang Baole’s soul rumbled, and he broke through from the late-stage of the Star Realm to the perfected star realm!

At the same time, the barrier of the oven could no longer withstand the unending Heavenly Dao’s madness. It was knocked open, and the sound of shattering reverberated. The gigantic golden beetle turned into a sea of light, it was about to charge through the gap.

However, it was at that moment that a cold snort rang out from the void. Ripples spread out in the air, and seven figures appeared out of thin air in the starry sky outside the kiln!

They were all dressed in black robes, and their auras of death towered up into the sky. At the same time, underworld flames erupted from their bodies, and as they burned, they attacked simultaneously in an attempt to stop the Unending Heavenly Dao.

As he roared, his back suddenly split open, and laughter rang out. A middle-aged man walked out from the split back. He was dressed in an imperial robe and wore an imperial crown, his cultivation base fluctuations surged up into the sky. They surpassed the power of the stars, the power of the galaxy, and... a shocking aura that seemed to be even stronger than Xuan Hua’s!

“Divine emperor Di Shan!”

Almost at the same time that the person appeared, the seven black-robed men in the area immediately let out hoarse voices. However, they did not retreat. Instead, they continued to attack with all their might to suppress him.

As they tried to stop him, the shattered kiln wall began to rapidly close up. Just as the gap was about to disappear, Wei Yang Heavenly Dao, who had been stopped, let out a roar, and his body flickered, a smaller clone appeared once again. It didn't care about anything else. The moment the hole was about to disappear, it dove into the hole!

The seven black-robed men were about to stop them, but they were stopped by the divine emperor Di Shan. The battle raged in the outside world, and inside the oven, Wang Baole was shocked.

Even though he had already made a judgment, he was still shocked when he saw with his own eyes the appearance of a second divine emperor. At the same time, he sensed the strong dark sect aura and the sense of antiquity from the seven black-robed men.

They've all appeared? Wang Baole's breathing quickened. However, he didn't have time to think about it. The moment the smaller golden beetle formed by the Heavenly Dao Weiyang charged into the gap and descended into the world inside the oven., wang Baole didn't hesitate to activate the intrinsic scabbard in his body. He quickly suppressed all the laws and laws of the Dark Sect's Heavenly Dao, making the part of his body that belonged to the Heavenly Dao Weiyang become everything.

As a result, the aura on his body changed instantly. At the moment of the change, the golden beetle that had been charging towards him from the unending heavenly dao seemed to hesitate. However, in the next instant, it exploded with speed, it ignored Wang Baole and charged towards the moon-splitting divine emperor.

It was as if the moon-splitting divine emperor was as bright as the sun in its eyes. In the blink of an eye, the golden beetle approached the moon-splitting divine emperor.

It instantly fused into the moon-splitting divine emperor's body and collided with the Dark Sect's Heavenly Dao!

Amidst the rumbling, Wang Baole's breathing quickened. He didn't know if what he had done earlier had worked, but the result was still acceptable. After a moment of hesitation, he quickly released the suppression from his natal scabbard and began to absorb it again.

That was because... within the moon-splitting divine emperor's body, as the two Heavenly Dao clashed, the moon-splitting divine emperor's roar grew even more shrill. It exuded more dao charm and shattered rules. At the same time, Wang Baole was from the Dark clan, after all. As his eyes flashed., he began to quickly control his natal scabbard to absorb the aura from the Weiyang Heavenly Dao.

Wang Baole's improvement grew even faster. His physical strength had reached the hundred steps of the perfected star realm. He had a strong feeling that his physical body was accumulating power.

It was... the power to break through the stars and step into the celestial domain realm!

In his star map, all the stars were shining and evolving. It was the same in his previous life. However, in the next moment, Wang Baole could clearly sense that the dao aura emanating from the moon-splitting divine emperor was decreasing!

That was because, as the Unending Heavenly Dao fused with the moon-splitting divine emperor, and as the two Heavenly Dao within the moon-splitting divine emperor's soul clashed, if they were evenly matched, it would be difficult to determine who would emerge victorious. That would result in an

intense battle. Naturally, Wang Baole would absorb the most, but now... The Dark Sect's Heavenly Dao had just awakened and was no match for it!

It could be seen with the naked eye that it was being suppressed. Due to the death Qi on the moon splitting divine emperor's body, it was retreating rapidly. It had grown from seventy to eighty percent before, and now, it had grown back to fifty percent. It was even continuing.., it had grown to forty percent, thirty percent, twenty percent..

Eventually, it had grown to ten percent. The Dark Sect's Heavenly Dao seemed to be barely able to defend itself, unable to resist and reverse the situation. The moon splitting divine emperor's eyelids were trembling as well, as if it was about to awaken!

Wang Baole's expression changed drastically when he saw this. However, he also felt that this was strange. Based on his previous judgment, his senior brother had planned this for a long time. There shouldn't have been such a change.

However, what he saw was indeed the case.

Fortunately, in the next moment, the Dark Sect's Heavenly Dao erupted once again. It was as if it was going all out to fight back. At that moment, a faint voice suddenly rang out from outside the oven, from the starry skies above all the combatants.

"Chen Qingzi, you've lost." As the voice echoed out, a three-headed, six-armed giant appeared in the starry sky. As soon as it appeared, a towering pressure spread out.

"Divine emperor of light!"

Outside the furnace, Chen Qingzi was still smiling, but his expression was a bit unsightly. "The three of you actually came. interesting. From the looks of it, that primordial ancestor of yours from never ending is also here, right?".

"There's no need for the patriarch to come personally. The three of us are more than enough to suppress you and the remnants of the dark sect," the glowing man said calmly. Then, he lifted his right hand and... pushed it down toward the kiln!

The starry sky trembled, and rumbling sounds filled the air. The seven black-robed men from the dark sect outside the kiln trembled violently, and blood sprayed out of their mouths as they exploded. At the same time, the newly restored barrier on the kiln could no longer withstand the pressure, and collapsed!

"Heavenly Dao, why aren't you devouring the Dark Dao in Lie Yue's body and waking lie yue up?"

As the barrier shattered, the golden beetle formed by the Unending Heavenly Dao let out a loud cheer. Without any hesitation, it charged towards lie yue, whose eyelids were trembling violently!

Wang Baole watched the scene unfold before his eyes, and his heart pounded. He didn't know why, but he had a vague feeling... that something wasn't right!

**Chapter 1158: Who Is The Heavenly Dao!**

This matter shouldn't be so simple!

Senior brother Chen Qingzi shouldn't have been so careless!

This matter couldn't have failed just like that!

It would have been fine if it had been a sudden and temporary plan, but it was clearly not the case. This was something Chen Qingzi had planned for a long time. If that was the case, how could senior brother not have thought of the Weiyang clan stopping him?

How could he not know that the person who had appeared was definitely not just a divine emperor?

Therefore, even now, Wang Baole still felt that there was something wrong with this matter!

Just as Wang Baole's mind was shaken, Chen Qingzi, who was outside the oven, was clearly anxious. His body flashed, and he was about to rush towards the oven, but he was stopped by the mystic essence. At the same time, the light figure of the Weiyang clan in the starry sky.., he sneered and raised his right hand, suppressing Chen Qingzi.

A loud boom rang out. Even Chen Qingzi, who was as powerful as him, was unable to escape in an instant. Under the suppression, he spat out the first mouthful of blood he had ever spat out in battle.

As he spat out the blood, the golden beetle formed by the Wei Yang Heavenly Dao in the oven approached the moon splitter divine emperor with malevolence, greed, and excitement. Nothing unexpected happened as Wang Baole had predicted, in the blink of an eye... it burrowed into the moon-splitting divine emperor's body!

"No!" Chen Qingzi let out a roar in the distant starry sky. His hair was disheveled, and he was about to charge forward again. However, the Wei Yang clan's divine emperor light and Divine Emperor Xuan Hua attacked at the same time. They suppressed him once again, causing Chen Qingzi to spit out another mouthful of blood.

In the oven, the moment the Wei Yang Heavenly Dao fused into the moon-splitting divine emperor's body, the ever vigilant divine emperor Di Shan, who was in the area where the oven's walls were damaged, seemed to heave a sigh of relief. He hadn't participated in Chen Qingzi's battle. His role.., was to prevent any other unforeseen events from happening.

Seeing that everything was going smoothly, the divine emperor Di Shan laughed coldly. He stepped into the oven and walked towards the moon splitter. He had already seen the final ten percent of the death Qi on the moon splitter divine emperor's body dissipate rapidly as the unending heavenly dao fused into it, it was dissipating rapidly.

There was no way to stop it. The power of the Dark Sect's Heavenly Dao was being suppressed endlessly. Just as it was about to disappear completely, Wang Baole suddenly realized something. He looked at the battered Chen Qingzi outside the oven and suppressed his emotions, he didn't look at the moon-splitting divine emperor.

A bold answer appeared in his heart. If the answer was real, it would explain everything that had happened.

As Wang Baole's bold guess appeared in his heart, the death aura around the moon-splitting divine emperor was suppressed until there was only a little bit left. His eyelids stopped trembling, and he slowly... opened them!

The moment his eyes opened, divine emperor Di Shan, who was walking over step by step, suddenly narrowed his eyes. His expression changed. He was about to retreat, but it was too late.

A sigh came from the moon splitting divine emperor's mouth.

"What a pity. Why didn't Weiyang's primordial Lord Come? What a pity, Di Shan. Why didn't you come in your true form?" As he spoke, a streak of sword light shot up into the sky. It was so long that it seemed to span across the galaxy, and it shook the heavens and earth, a sword light that shook the entire starry sky erupted from moon-splitting divine emperor's body and retreated forward. Di Shan, whose expression had already changed drastically, suddenly slashed out!

This slash was extremely resplendent, as if it had replaced all the light in the starry sky. It also contained an indescribable dao rhythm and laws. It was as if... This sword had gathered the power of the entire universe!

Or more accurately, it had gathered... The Dark Sect's Heavenly Dao power!

The sword light swept across, causing the starry sky to shake. Di Shan's body trembled violently. He stared at the Moon splitter divine emperor and spoke slowly.

"Aren't you..." before he could finish his words, his body exploded with a loud bang. He disintegrated into pieces and exploded.

Divine Emperor Di Shan had fallen!

However, it wasn't his actual body that had fallen. It was his dao body. Even so, the impact on divine emperor Di Shan was equally great. As the dao body disintegrated, a large amount of nomological and nomological power spread out in all directions, it was as if mountains and seas were toppling in all directions. Wang Baole was so excited that his breathing quickened, and his eyes shone brightly.

In his eyes, the deathly aura that had been suppressed to the point where there was only a tiny bit of it left exploded in an instant. With a loud boom, it countered the Weiyang Heavenly Dao in his body, and the Weiyang Heavenly Dao seemed to scream as well, it wanted to escape from Lie Yue's body, but it was clearly impossible!

If it was in the outside world, the Unending Heavenly Dao might still have its advantages. However, in Lie Yue's body, it didn't have any chance. It was being absorbed... by Lie Yue with the naked eye!

That's right. It was being absorbed. More accurately, it was being... devoured!

I understand now! A complicated look appeared in Wang Baole's eyes. As waves of emotions surged in his heart, the divine emperor of light and the Divine Emperor of mystic flower outside the oven were also shocked by the scene. The two of them retreated rapidly, their eyes filled with bewilderment, however, in the next instant, as they realized what was happening, their expressions turned ugly. However, they couldn't hide their shock. They looked at Chen Qingzi, who had been suppressed by them, and then looked at Moon Splitter, who was walking out of the oven step by step.

“You are not moon splitter!”

“Of course, I Am Not Moon splitter. I Am Chen Qingzi,” moon splitter, who was walking towards the starry sky, said softly in the oven. As he spoke, his appearance changed, in the next instant, he transformed back into Chen Qingzi’s appearance.

Chen Qingzi, who had been suppressed by the Divine Emperors of light and Xuan Hua, also had a change in his appearance. He turned withered. It was... Moon splitter!

However, his eyes were lifeless, and his body was filled with an aura of death!

“At the same time, I am still... The Heavenly Dao!”The instant Chen Qingzi spoke softly, his aura erupted once again. With a boom, his aura swept across the starry sky, suppressing everything in its path. It was even on his forehead, the mark of the black fish appeared!

At this moment, Xuan Hua and Guang Ming’s expressions once again changed.

“It’s all fake... After lie Yue was defeated by me a few years ago, I transformed him into the dark sect... everything was just a show to lure you all to come and rescue him, to lure the Heavenly Dao of Wei Yang to descend

“The Heavenly Dao that has been revived... is not what you think it is. It was only formed by a wisp of spiritless will that I split. The True Heavenly Dao that has been revived is the Heavenly Dao that has been awakened in my body. I am the Heavenly Dao of the dark sect, the sealed emissary of this generation of the Wei Yang clan and this world

“Luo Tian may have fallen, but the mission of the Dark clan is still there. The stone tablet realm will naturally have to be suppressed.”

“Originally, I wanted to attract the mysterious ancestor of the Wei Yang clan. I wanted to know whether he was an immortal or... the so-called clone of the Celestial Emperor. Unfortunately, he didn’t come,”Chen Qingzi said softly, the light and Xuan Hua’s expressions changed drastically once again.

Wang Baole’s heart was pounding, and his pupils constricted slightly. He retracted his gaze in silence. He no longer paid attention to the battle in the starry skies. Instead, he used all his strength to absorb the divine emperor Di Shan’s dao body after his death, the endless rhymes all around.

His cultivation, the rapid rise, his body, the crazy accumulation of explosive power, his soul, also in the infinite growth!

The first to break through was his cultivation. As his physical body and soul grew stronger, it became easier for him to break through. As the many special stars behind him became stars.., wang Baole’s cultivation rumbled. He went from the mid-stage of a star to the late-stage of a Star!

The next to break through was his soul. As he absorbed the Dao rhythm and continued to comprehend it, he advanced from the late-stage of a star to the perfected stage. Even though it was only two or three steps, he was still at the Perfected Stage!

The final breakthrough... was in his physical body. After he had accumulated enough power, the entire world seemed to rumble in his heart. An indescribable, powerful force erupted from his body!

His physical body... the galaxy!

Amidst the rumble, powerful ripples spread from his body. They swept outwards in an overwhelming manner. As they rolled endlessly, Wang Baole opened his eyes.

### **Chapter 1159, receiving!**

The moment Wang Baole opened his eyes, lightning seemed to flash across his eyes. The laws and laws belonging to the Unending Heavenly Dao arrived and wrapped around his body, they turned into ancient runic symbols and imprinted themselves into his body.

This was the recognition given by the Heavenly Dao to the celestial domain realm. It was one of the rules governing the operation of the Heavenly Dao. However, Wang Baole didn't only have the aura of the Unending Heavenly Dao in his body. He also had the will of the Dark Sect's Heavenly Dao. Therefore, in the next instant..., the laws and rules contained within the Dark Sect's Heavenly Dao descended once again, imprinting themselves on his body.

This double reinforcement caused Wang Baole's physical body to rumble. Waves of even more powerful power erupted continuously within his body, forming a blood qi that seemed to be able to overturn the heavens. It spread in all directions, cracks appeared in the surrounding void. It was as if his existence had already affected the operation of the starry skies.

This was the terrifying aspect of being a mighty figure in the galaxy!

Normally speaking, cultivators in the galaxy would arrive first with their cultivation, followed by their souls. It was very difficult for their physical bodies to reach perfection. Even though it had some effect on the operation of the starry skies, their cultivation would be able to suppress the effect.

However, Wang Baole was the complete opposite. His cultivation was only at the late-stage of the star realm. Even though his soul had reached perfection, he had only taken a few steps. He was far from reaching the galaxy. His physical body was the only one who had stepped into the galaxy ahead of time, this created some incongruities.

More importantly, Wang Baole was equipped with the rules and laws of the two Heavenly Dao. This would create a conflict. If it had been anyone else, it would have been difficult for them to withstand this conflict. They would have exploded and died.

However, Wang Baole's natal scabbard had the power of suppression and neutralization. It was activated instantly. With a loud boom, it suppressed the power of the two Heavenly Dao, forcing them to merge and coexist.

That was the only problem that had been solved. However... the effect on the starry skies and the surrounding void was constantly being torn apart. It couldn't be erased in a short period of time, unless Wang Baole's cultivation had increased as well, or perhaps there was a powerful figure to cover it up.

That powerful figure... appeared very quickly.

More accurately speaking, the moment Wang Baole's physical body stepped into the galaxy and the surrounding void was affected, he had already descended. It was... The Blazing Flame ancestor!

Using the leaf that he had given Wang Baole as a positioning device, the blazing flame ancestor didn't come in person, but his divine thoughts had already descended and enveloped Wang Baole's surroundings. It shielded Wang Baole, and at the same time.., it also neutralized the abnormality caused by his breakthrough.

There were many cultivators from the myriad sect clans here, but most of them were far away. Chen Qingzi's radiance was too bright, and the reversal shook the entire area. That was why no one paid attention to Wang Baole. Even the two divine emperors did the same.

After all... Chen Qingzi was the one who shone the brightest in the area. With the help of the blazing flame ancestor, Wang Baole's breakthrough seemed shocking, but no one paid any attention to it.

In the next instant, the air around Wang Baole distorted, and his figure disappeared without a trace... when he reappeared, he was no longer in the oven. Instead, he was beside the blazing flame ancestor. Xie Haiyang was also there, he looked at Wang Baole, then at Chen Qingzi, his eyes still filled with shock.

He had never suspected that Wang Baole would be able to speak to Chen Qingzi, but he had never expected that the relationship between the two of them would be even closer than before.

If he still didn't know Wang Baole's identity as a member of the dark sect, he wouldn't be Xie Haiyang.

As for Wang Baole, after he was teleported out, he was stunned at first. Then, he immediately understood and sat down cross-legged. At the same time, the other cultivators from the myriad sect clans also started using similar techniques, they secretly brought out most of their disciples who hadn't died after entering the array formation. They all retreated quickly. The changes in this place were too great. It wouldn't be beneficial for them to continue staying here, instead, they would be affected easily.

"Old Bull, why aren't you taking us away?" Seeing that his disciple was smart and calm after being led out by him, the blazing flame ancestor smiled and immediately slapped the divine bull with his sleeve. The divine bull immediately retreated, it charged into the distance.

Wang baole blinked. He really wanted to tell his master that he didn't need to slap the Divine Bull, and he didn't need to say anything either. Wasn't the Divine Bull your master..

"Perhaps master has forgotten about it?" Wang baole coughed dryly. As the Divine Bull sped away, he turned to look at his senior brother, Chen Qingzi, who was on the battlefield that had sped off into the distance.

"Stop looking. Your senior brother, who doesn't deserve to be a human, has gone too far this time. He has turned himself into the Heavenly Dao. From now on... There will be a series of battles between the never-ending clan and the dark sect

"Although you belong to the dark sect, you are still a disciple of the raging flame sect. This karma... it's inevitable that you will come into contact with it. However, the only thing master can do is to give you a way out." As the Raging Flame Patriarch spoke, Wang Baole fell silent, he was about to speak after a long while.

"There's no need to say anything else. I've lived for so long. It's good to see such a lively scene. Besides... I hope that your senior brother, Chen Qingzi, can lead the dark sect to victory. That way, I can vent my anger." The Raging Flame Patriarch shook his head and smiled, however, the next moment, he frowned.

“However, there’s a slight problem. Even though I feel that no one will notice you, if I think about it carefully, it’s impossible. You... are most likely exposed. However, Chen Qingzi has attracted everyone’s attention, so no one will pay attention to you

“After returning to the blazing flame galaxy, Baole, you will immediately enter seclusion. In the blazing flame galaxy, I would like to see if the never-ending clan will dare to cause trouble for You!”

“Master...” Wang Baole stood up and bowed deeply to the blazing flame ancestor. Guilt rose in his heart. He had no right to interfere with his senior brother’s decision. He had indeed obtained sufficient fortune this time, but he had been exposed because of it, it was not what he had wanted.

However, there was nothing he could do about it. Since he had been exposed, Wang Baole had made preparations. He was also waiting... for Chen Qingzi!

Wang Baole was certain that his senior brother would definitely come and finish what he had exposed. However, his trust, which had always been firm, could not help but waver now.

That was because... his senior brother, who had fused with the Heavenly Dao, or perhaps had transformed into the Heavenly Dao, gave Wang Baole a strange feeling for some reason.

The strange feeling made Wang baole more or less feel complicated.

However, the complicated feeling didn’t last for long. As the Divine Ox charged forward, half a month after leaving the battlefield and on its way back to the raging flame galaxy, the blazing flame ancestor, who had been meditating with his eyes closed, suddenly opened his eyes, a bright light shone in his eyes. The divine ox beneath him suddenly stopped in its tracks. A loud boom rang out from all over its body, and a sea of fire spread out in all directions.

“Chen Qingzi?”

At the same time, Wang Baole sensed something as well. He lifted his head to look at the distant starry sky. He could sense the natural laws and nomological powers that belonged to the dark sect’s Heavenly Dao within his body. They were now vibrating vigorously. Gradually.., a familiar figure appeared out of thin air in the void before his eyes. Step by step, it walked to the edge of the Divine Ox’s Sea of fire.

He had long hair, a green robe, a wine gourd, and a wooden sword.

It was... Chen Qingzi, who had the mark of a black fish on his forehead!

“Thank you, fellow Daoist lie Yan, for taking care of the dark child of our sect.” Chen Qingzi smiled as he cupped his fists and bowed to the blazing flame ancestor.

Lie Yan’s expression was unsightly. He didn’t say a word and merely snorted.

Chen Qingzi didn’t mind. He continued smiling as he looked at Wang Baole. His eyes were filled with gentleness as he spoke softly.

“Baole, are you willing to follow me to the dark sect? Let’s continue on the path we didn’t finish the last time.”

The book review section had the title of the Nine Peaks and the monthly ticket starting point. Everyone would pay attention to it when they had the time. I hadn't participated in it for a long time, so I didn't really understand it.

### **Chapter 1160, the Dark Nether Galaxy!**

Wang Baole was silent. The scenes from the battlefield surfaced in his mind. From the beginning to the end, his senior brother Chen Qingzi could have told him the truth.

Even though he hadn't told him the truth, Wang Baole didn't hold any grudges. After all, this was related to the dark sect. It wasn't wrong for his senior brother to be on the safe side.

He had indeed obtained the good fortune himself. Even though there was a risk of being exposed, all of this was inevitable. Unless he didn't go over, it would be difficult for him to continue hiding.

From start to finish, his senior brother had indeed been extremely protective of him. Even before he left, he had arranged for him to stay behind his true body.

No matter how he looked at it, there was no problem. However, Wang Baole did not know why, but he had a strange feeling that the senior brother in front of him was slightly different from the past him in his memories.

Wang Baole didn't know the exact reason why he had such a thought. He could only attribute it to... perhaps the integration and revival of the Heavenly Dao had made the senior brother more dignified and less emotional.

Perhaps it's also a comparison. Wang Baole thought of the blazing flame ancestor. Everything about him, his master, was very real. He could see and feel it clearly. On the other hand, his senior brother... was a little ethereal.

Regardless, Wang Baole didn't have any distrust towards his senior brother, Chen Qingzi. He still trusted him, because he thought of everything that had happened when he was in the federation. After a long while, Wang Baole made up his mind, he turned around and looked at the blazing flame ancestor.

The Blazing Flame ancestor wanted to say something, but he hesitated.

"Master," Wang Baole said softly. He didn't clasp his fists. Instead, he knelt down and kowtowed.

He didn't say much, but the blazing flame ancestor understood. He sighed softly after a moment of silence.

"Remember what I told you. The Blazing Flame Galaxy is your path of retreat."

Wang baole nodded. He couldn't stay in the blazing flame galaxy anymore. If that happened, the dark sect and the Weiyang clan would implicate his master. That wasn't what he wanted.

Furthermore, he had the dark sect's mark on him. As a dark child, he had a deep connection with the dark sect. He knew that he couldn't stay out of it.

Furthermore... Wang Baole wanted to become stronger!

If he stayed in the raging flame galaxy, he would lose the opportunity to become stronger. There wasn't much time left, and the blood-colored centipede would appear again at any moment. Wang Baole had no choice but to take a gamble.

All sorts of reasons made Wang Baole's conviction settle. He stood up, looked at the cautious Xie Haiyang, and suddenly turned to speak to his senior brother, Chen Qingzi.

"Senior brother, the Moon splitting divine emperor's array formation oven was refined by the Xie family. Let's forget about this matter, shall we?"

Chen Qingzi smiled when he heard that. He glanced at Xie Haiyang, who was clearly agitated and nervous after hearing Wang Baole's words, and nodded.

"The Xie family has nothing to do with this matter."

As soon as he said that, Xie Haiyang seemed to have lost all his strength. He forced himself to bow deeply to Wang Baole and Chen Qingzi. He was filled with emotion. In reality, when he had been following Wang Baole.., he hadn't expected Chen Qingzi to set up such a grand scheme in the end, turning himself into the Heavenly Dao.

Even the Xie family had to be careful in the face of such a powerful figure. They might even voluntarily give up on his father's side. After all, the current situation.., no one was willing to participate in the war between the dark sect's rise and the Weiyang clan.

"Junior brother, let's go," Chen Qingzi said with a smile after settling the matter.

Wang Baole turned around and bowed to the grandmaster, the blazing flame ancestor, once again. He stepped out of the Divine Ox and stepped on the Sea of fire around him. He walked towards his senior brother, Chen Qingzi, step by step. He watched as his disciple slowly left, the Blazing Flame ancestor felt a little downcast. He didn't know why, but at that moment, he thought of his other disciples who had fallen.

He had a grudge with the Weiyang clan, but he didn't have the ability to take revenge. He only had a curse on him, and the threat was greater than reality. He wanted to risk everything and explode. Even if he died, he wanted a divine emperor to die with him.

However... he still had many ties to him. He had once been tied to his only surviving second disciple. Now... He had Wang Baole.

That was why he wanted to protect Wang Baole. If this disciple insisted on entering the dark sect, he might as well help. He would risk his life in exchange for a divine emperor.

However, he could tell that Wang Baole wasn't willing to do that.

In the silence, the blazing flame ancestor stared at Wang Baole, who was beside Chen Qingzi. He suddenly sent a voice transmission to Chen Qingzi.

"He really treats you as an elder brother. Therefore... Chen Qingzi, no matter what plans you have, no matter what your intentions are, if you sacrifice my disciple as the price, I won't be able to do anything to you. However, I'll risk my face and Fuse my curse with the Unending Heavenly Dao, strengthening the power of the Unending Heavenly Dao!"

Wang Baole couldn't hear what Chen Qingzi said, but he saw his senior brother, Chen Qingzi, stop in his tracks.

"I do indeed see little junior brother as my only family member. Chen Qingzi, you've done a good job," Chen Qingzi said softly to the blazing flame ancestor. He smiled at Wang Baole and waved his sleeve, causing a cloud of black fog to disperse, it formed a gigantic black fish and let out a soundless roar toward the starry sky. With a leap, it brought Wang Baole into the void, disappearing without a trace.

After a long while, the blazing flame ancestor finally retracted his gaze. His expression was downcast, and he was unhappy. He seemed to have aged a lot.

Xie Haiyang, who was beside him, saw the blazing flame ancestor in such a state. After some thought, he spoke softly.

"Grandmaster, although Martial Uncle Baole has left, I'm still here..."

"You?" The Blazing Flame ancestor glanced sideways and snorted.

"Shut up!" As he spoke, he waved his right hand, and the Divine Bull beneath him roared and charged forward. They were still heading towards the blazing flame galaxy. Xie Haiyang, who was on the Divine Bull's back, felt wronged.

As the blazing flame ancestor's figure gradually disappeared into the starry sky, Wang Baole and Chen Qingzi also disappeared into the void. The cultivators from the myriad sect clan also dispersed and returned to their respective territories, the war at the divine emperor level finally came to an end. At the same time, the details of the war spread.

The Dark Sect's Heavenly Dao had awakened in Chen Qingzi. Chen Qingzi... was the dark sect's Heavenly Dao.

This news spread like a storm across the entire Weiyang Dao Domain at an extremely fast speed. It caused almost all the clans and sects to feel uneasy. Those who didn't know about the dark sect also began searching rapidly, as for the clans and sects who knew of the dark sect, endless worry rose up in their hearts.

It was as if a mountain was about to rain. Most of the clans and sects had activated their isolation spell formations and were unwilling to participate. The truth was... the outcome of this battle left everyone shaken.

Moon splitter had fallen, and Di Shan's dao body had been beheaded. Light and Xuan Hua were unable to do anything to Chen Qingzi. Of the five divine emperors of the Weiyang clan, it seemed that other than the most mysterious primordial ancestor, there was no one else who could pose a threat to Chen Qingzi.

The most mysterious patriarch hadn't revealed his true form for many years. The only person who had been in charge all year round was his corpse. His Dao name was Jijia, and he represented the patriarch to the outside world.

The entire Weiyang Dao Domain fell into silence as a result. It was like the eve of a storm..

At the same time, in the void, Chen Qingzi's Heavenly Dao fish, which was half-real and half-illusory, led Wang Baole forward. They weren't heading towards the three great saint domains in the starry sky. Instead... they were in the void, they continued to sink, Sink, sink..

If the starry skies were to be compared to a piece of paper, with the starry skies and the three great saint domains above it, then under the paper... was the nine serenities abyss.

At that moment, the Heavenly Dao Fish that Chen Qingzi had transformed into brought Wang baole deeper into the nine serenities abyss..

Gradually, they approached... the resting place of the remaining members of the dark sect for many years!

Hades galaxy!
