

Chapter 991, the land of hibernation!

It looked like it was walking, but it was so fast that even though the ancient bronze sword covered a vast area, it was no longer the same as before in the eyes of Wang Baole, who had reached the planet realm.

Therefore, in just a few breaths'time, he had already arrived at the boundary between the ancient sword and the Sun. As he looked at the place, the image of the huge battleship that the never-ending clan had parked there all those years ago surfaced in his mind.

After sweeping his gaze across the empty space, Wang Baole's expression remained the same. With a single step, he stepped into the ancient sword. The moment he stepped in, he was immediately greeted by the wind of flames. The ground was in ruins, there was also a sense of confusion. There were large numbers of restrictive array formations and rolling lava.

All of this could be said to be a crisis for Wang Baole back then. However, for him now, he could see everything clearly with a single glance. There was also a reason why he didn't choose to step in directly from the other end of the ancient sword, there was a reason for that.

If he entered directly from there, it would be considered a forceful attack by an external force. He would have to bear the power of the restrictions from the sword's tip. The gains wouldn't outweigh the losses. Once his opponent was prepared, he could still launch a counterattack there, if he entered directly from the sword's hilt, everything would be fine, as this was a normal path.

Therefore, after sweeping his gaze across the area, Wang Baole didn't pause for even a moment. He grabbed the head in his hand and crossed the various areas, ignoring all the Sea of fire restrictions. He didn't even look at the area, occasionally revealing his aura, the fire creatures and some spirit bodies that knelt down in fear and trepidation whizzed past him.

In the past, these existences had caused him trouble. However, now, the moment they sensed his aura, they could only tremble. They did not dare resist at all and allowed Wang Baole to enter the interior of the sword body.

Very quickly, he arrived at the Blood Lake where he had obtained the elder token. He saw the huge corpse and the swaying hairs on its body once again.

He scanned the area with his eyes in mid-air, and all the hair on its body trembled and bent down. The Sea of blood churned, and the gigantic dragonfly-shaped creature slowly revealed half of its head, its eyes were filled with shock as it looked at Wang Baole with an unprecedented level of alertness. From its trembling body, one could tell how terrified it was.

It's only somewhere between the Spirit Immortal Realm and the Spirit Immortal realm. Wang Baole shook his head and shifted his gaze away from the creature in the blood sea. He didn't stop moving and continued to move forward. As he continued to move forward, he saw many familiar scenes, he flew past many places that he had never been before. He even saw the eye of ten thousand arts once again.

Memories of the past surfaced in Wang Baole's mind, causing him to pause in the air above the eye of ten thousand arts. He lowered his head to look at the eye-like landscape on the ground, and a strange glow slowly appeared in his eyes.

This was the only place he had been unable to see through with his current cultivation. However, he knew that it wasn't the time to investigate further, so he only glanced at it before leaving, after that, he passed through a few areas that he couldn't see through until a long border of ice and snow appeared in front of him. The moment he took a step forward, what appeared in front of him was the familiar land of ice and snow that he had seen before.

In the distance in front of him were three huge palaces that were thousands of feet tall!

Within these three palaces, there was a serendipity and a place where some of the older cultivators of the vast expanse dao palace were sleeping and recuperating.

Back then, Wang Baole had come to this place the most. However, now, his eyes shone brightly. As the dao stars in his body circulated, the world before his eyes changed.

Behind the three palaces, the empty space was enveloped by a fog. This fog might affect the vision and senses of many people, but it didn't include Wang Baole, who had fused with the dao stars. His eyes flashed, he could vaguely see that there were three altars within the fog!

The three altars formed a trapezoid. On the lowest altar, there were seven figures sitting cross-legged in meditation. These seven weren't corpses. They were full of life. Even though they weren't full of life, judging from their auras, they were all at the planet-grade!

Judging from the positions where they were meditating and the shape of their surroundings, it was obvious that there weren't seven people here before. There were nine people sitting in a circle. Now, there were two fewer people!

The ones who were missing were naturally de Yunzi and his senior brother. Wang Baole was certain of this. He had been to all three palaces before the fog. Even the spirit pool in the last palace had cultivators healing their injuries, however, with Wang Baole's current cultivation, those people might not be planets, or they might have been. However, their cultivation had clearly fallen due to their serious injuries.

Other than that, there was also a figure sitting cross-legged on the second altar. There was only one figure. Even though the fog covered it, Wang Baole could still vaguely see that the person sitting cross-legged was the youth who had attacked his clone earlier, he was the youth who had fled the moment his original body arrived!

The youth didn't close his eyes. Instead, he opened his eyes and didn't say a word. He stared intently at Wang Baole, who was outside the fog. As their gazes met through the fog, the youth suddenly spoke.

"You have already killed my disciple who made a mistake, and I have already avoided the battle. Why did you pursue me to this point? Do you really think that the vast expanse dao palace is so weak that a planet can wreak havoc here?" The youth's voice was filled with forbearance, there was also a chilling killing intent that seemed to be about to erupt. As it spread out, the fog instantly churned violently. Even the temperature in the outside world had dropped significantly.

Wang Baole's expression remained the same. Although he had heard the youth's words, his gaze swept past him and turned to look behind him... at the third altar!

This altar was what made him fearful. That was because there... he saw a figure sitting cross-legged and meditating. The figure's entire body was blurry, and he couldn't see clearly. At the same time, the aura of life and death lingered around him, it was as if his entire body was in the midst of yin and yang. Wang Baole only took a glance, and his eyes couldn't help but sting. If the Dao stars in his body hadn't been spinning and dissipating rapidly at that moment, he would have been traumatized with just one glance.

The galaxy... Wang Baole muttered to himself. He wasn't surprised that there was a mighty figure from the galaxy in the vast Dao Palace. That was indeed the case. The youth was indeed the only star, that didn't mean that the Dao Palace didn't have an almighty from the Starfield.

Clearly, the reason why the youth had fled back to this place and sat cross-legged in meditation, waiting for Wang Baole to arrive, and then said those words was because he wanted to rely on the existence of the almighty from the Starfield to intimidate Wang Baole.

If it had been any other planet, they might have been intimidated. However, even though Wang Baole averted his gaze with a piercing pain in his eyes, the chill in his heart erupted instantly. He no longer cared about Little Missy. He raised his right hand abruptly, and in front of the youth's star., he ignored the screaming head in his hand. He used all his strength to grab it.

With a boom, the screaming stopped abruptly. The senior brother of De Yunzi, whose body had been cut off by Wang Baole, whose head was the only thing left, collapsed instantly. His body and soul were destroyed!

"You!" The young star's expression changed when he saw the other party killing his disciple in front of him. However, just as he spoke, Wang Baole leaped into the air and charged toward the fog!

He was so fast that he broke through the fog in an instant. The nine ancient stars behind him rumbled, and the dao stars materialized. The devouring seed in his body revolved crazily, and the Emperor armor covered his body. The intrinsic scabbard in his body vibrated, and a wisp of Sword Qi appeared, Wang Baole guided the sword out of the scabbard and charged towards the index finger on his right hand. His entire body was like a sharp sword that had been unsheathed. It was indestructible. As it tore through the fog, he appeared in front of the stellar youth!

"You... continue to sleep for a thousand years!" Wang Baole's voice was cold. As soon as he spoke, his right hand descended.

The young man was a star, after all, and he was in his own home ground. His expression was ugly as he roared. He didn't care about his injuries. He raised his hands and waved them. Instantly, the light of the star within his body dispersed, his entire body seemed to have turned into a sun at that moment, pressing down on Wang Baole.

Chapter 992, don't be afraid!

"You overestimate yourself!" Killing intent flashed in the youth's eyes. As he growled, he unleashed all the power he could muster in his body!

The two collided with a loud boom. In that instant, the nine ancient stars behind Wang Baole Shook, and the Dao stars shook. An illusory sea of fire could be seen, drowning in front of him. It was the power of

the stars, even though the youth had been severely injured and had less than ten percent of his cultivation, he was still a star!

Under the suppression of his supernatural power, the fire formed from the stars appeared in Wang Baole's mind and the stars behind him. It also appeared beside his physical body, as if it wanted to burn him in both form and spirit, it was all burned into the flames of the fire of the stars.

Almost instantly, the nine ancient stars behind Wang Baole began to tremble. They grouped together and formed the illusory image of a dao star. Even though the light remained the same, it didn't seem to have changed much under the fire of the stars, however, Wang Baole was a planet after all. His physical body was the first to show signs of being unable to withstand it.

However... since Wang Baole had dared to come, he was naturally confident. Even though his physical body seemed to be on the verge of being destroyed by the flames, his eyes remained calm. There were no ripples. He continued to press forward with his right index finger!

In an instant, the sword Qi at the tip of his finger was about to erupt completely. However, his physical body seemed to be holding on to its limits. Under the high temperature, large amounts of black impurities appeared in the pores all over his body. It was as if all the impurities in his body were about to be destroyed.., they were forced out by the high temperature. They were about to exceed the limit of what they could withstand, and they were about to be destroyed..

However, at that moment, a sea of fire suddenly appeared from within his body. More accurately speaking, the Sea of fire did not appear from within his body. Instead, it appeared out of thin air, it covered Wang Baole's entire body, but it didn't harm him in the slightest. Instead, it gave him a gentle and nurturing feeling.

It even formed a defense. As it spread outwards, it came into contact with the flames of the young man's star. With a loud boom, the young man's star fire trembled and didn't have the slightest ability to resist, it was instantly devoured by the flames that appeared outside Wang Baole's body. After they fused together, the flames on Wang Baole's body seemed to have received some nourishment. They expanded outwards once again. From Afar, at that moment, Wang Baole was.., he was like a fire god!

This was where his trump card was. It was also the reason why he dared to kill his way to the ancient bronze sword alone!

This fire came from the blazing flame ancestor!

Previously, in the Divine Eye Galaxy, although the blazing flame ancestor had left, the flames that remained remained. After the divine eye civilization was reorganized by Wang Baole, the fire fused into his surroundings and seemed to have disappeared, however, Wang Baole could clearly sense the existence of the flames. It was like a blessing to the soul. He understood the function of the flames, which was to form a protective barrier the moment he was in a life-and-death crisis!

It could be said that this was a blessing from his master, the blazing flame ancestor!

With this blessing, not to mention that the youth was only a severely injured star, even if he was at his peak, he would not be able to do anything to Wang Baole. However, even though the blazing flame ancestor had given him a blessing, he knew that he could not help the situation, he also didn't want his

disciple to rely too much on him. Therefore, the fire was only a defense and didn't have any destructive power against the outside world.

However, it was enough for Wang Baole. As the fire spread, the youth's star's expression changed drastically, and disbelief appeared on his face. He retreated abruptly, wanting to leave the altar, Wang Baole's right index finger descended abruptly, and the sword Qi within it exploded in an instant!

This was the sword qi contained within the intrinsic scabbard in his body. Its power was astonishing, and it could be said to be one of the strongest abilities that Wang Baole possessed in terms of pure attacks!

At that moment, the sword qi whistled, and it was about to land on the youth. Once it landed, although it would not cause any life or death injuries to him, it would affect the original injuries in his body and cause his many years of healing to go down the drain, it was still possible.

This was something that the youth could not and did not wish to bear. Therefore, as his expression changed and his face turned ferocious, the youth bit the tip of his tongue and spat out a large mouthful of blood. He let out a shrill cry.

"Patriarch!"

As soon as he said that, a sigh reverberated from the third altar behind him. As soon as the sigh was released, a gust of wind appeared out of thin air. In the next instant, like a storm, it exploded in front of the youth, even though the sword qi was strong, it was still instantly shattered by the wind. The wind didn't stop as it charged towards Wang Baole.

In the next instant, without giving Wang Baole any chance to react, it collided with the flames outside his body. With a loud boom, Wang Baole's body shook violently. Even though he was blocked by the flames, he wasn't injured, however, his body was still pushed back by the impact of the storm. He was immediately swept out of the fog. At the same time, from the third altar, where the figure was sitting cross-legged, an ancient and majestic voice rang out!

"Outsider, I don't want to see you again in the future. Leave!"

Outside the fog, Wang Baole's body staggered back continuously. He only managed to stop after he had retreated a thousand feet. His breathing quickened as he raised his head and looked at the second altar within the fog, at that moment, the stellar youth, who had clearly heaved a sigh of relief, looked at him with killing intent and hatred. Then, he looked at the figure on the third altar, who had a piercing look in his eyes, and suddenly laughed.

The laughter grew louder. A cold glint flashed in Wang Baole's eyes. His entire being was filled with viciousness and unruliness. His voice was like thunder that reverberated in all directions.

"Can the Galactic Realm Almighties be unreasonable? Who Are We Outsiders?"

As the words left his mouth, he activated the rules of the ancient star behind Wang Baole. Immediately, the flames that came from the blazing flame ancestor outside his body were drawn in. Even though he couldn't use it to harm the enemy.., it was more obvious, however, that it could be used as a deterrent.

As the flames spread, the aura that belonged to the blazing flame ancestor was released more or less. This caused the mighty figure from the vast Expanse Dao Palace, who was on the third altar, to slowly

raise his head, a gaze shot out like lightning from the blurry face that couldn't be seen clearly. It landed on Wang Baole. After a moment of silence, the figure spoke slowly.

"The aura of the flames... you can ask the flames if they can do anything to the ancient Universe Sword of the Vast Expanse Dao palace even if they descend personally!"

"So, leave!"

"Ancient universe sword? I don't know if my master can do anything to it, but I... Can't do anything to it?" Wang Baole raised an eyebrow when he heard that, he circulated the intrinsic scabbard in his body with all his might. As it shook, the ground beneath his feet began to rumble, and the entire ancient green-bronze sword began to tremble!

This scene caused the eyes of the galactic almighties to contract. They remained silent for a long time before they spoke calmly.

"What do you want?"

"I don't want this person to die, but at the very least, I want him to be severely injured. I want him to sleep for another thousand years as a punishment for disrupting the Solar System Federation!" Wang Baole spoke coldly, pointing at the star youth whose expression had changed.

"Your qualifications aren't enough. I'll say it one last time. Leave!" The reply he got was a cold, ancient voice that seemed to have weighed his options.

"Qualifications?" As Wang Baole operated the scabbard, he raised his right hand and took out the mysterious mask.

"Little Missy, are you qualified enough?"

As the mask was taken out, little Missy's figure materialized from the mask and stood beside Wang Baole. She sighed softly, and as the expression on the Almighty's face changed, Little Missy bowed.

"Greetings, master Xing Yi."

The almighty from the Starfield on the third altar fell silent once again.

"If that's not enough..." the arrogance on Wang Baole's face grew even stronger. He had to make the Vast Expanse Dao palace fear him this time. Otherwise, other disasters would befall him sooner or later in the Solar System, determination flashed in his eyes. He raised his right hand and pointed towards the galaxy beyond the ancient sword, where Mars was located!

"Dark artifact... Return!"

As soon as Wang Baole spoke, Mars, which was some distance away, suddenly began to tremble. A terrifying force erupted from the center of the planet as the ground trembled, it charged towards the galaxy!

There were even cheers that seemed to respond to Wang Baole's call. They erupted and spread throughout the galaxy!

Chapter 993 fighting for the team!

Mars trembled and the Earth rumbled. Cracks appeared on the surface of Mars and spread rapidly in all directions. At the center of the cracks was... the new city of Mars!

If one looked from the sky, they could see that the ground with the new city of Mars as its core had formed a ring shape amidst the cracks. It spread rapidly in all directions and covered more than half of Mars in an instant.

However, the crack did not cause the ground to collapse. Although the people living on Mars could feel the earth shaking, not a single building was destroyed, and no one was hurt.

Instead, wisps of black aura instantly emerged from the crack that had spread across more than half of Mars and shot into the starry sky. If one looked closely, one could even see that there were a large number of tiny particles in the fog, there were also a large number of tiny particles.

As the hearts of the people from Mars trembled, they saw with their own eyes that the fog and particles were continuously gathering in the skies. They eventually turned into a storm, emitting a strong aura of death. It shot into the starry skies and turned into a long river, it shot straight for the tip of the ancient bronze sword.

It was so fast that it seemed like it could move. In the next instant... it gathered beside the tip of the ancient bronze sword. The moment it arrived, Cheers rang out in Wang Baole's mind, the fog gathered together rapidly. The particles within it seemed to combine together. As they continued to merge, they formed a lone boat... it didn't look big, and it could only fit one person!

On the lone boat, as the other particles merged, they formed a black robe that covered the head and an illusory lantern oar that emitted a dim light!

As it appeared, a divine armament aura that surpassed the federation's Crimson Flying Dagger exploded on the lone boat's black robe and the lantern oar!

It was the dark sect's dark artifact!

It was inferior to the ancient green-bronze sword, and there was a gap between them. The gap was so great that Wang Baole couldn't bridge it. However... if it had been a higher-being from the galaxy that he had approved of using the dark artifact, then under the control of the dark artifact., the ancient bronze sword wouldn't be able to move too much. However, breaking through the array formation and stepping into the sword would pose a direct threat to the galaxy higher-being from the Vast Expanse Dao Palace. He could do it!

This... was Wang Baole's deterrent!

First, he had revealed the protection the blazing flame ancestor had given him. Then, he had used his intrinsic scabbard to move the ancient sword. He had told the other party that it wasn't impossible for him to control and interfere. At the same time, he had allowed Little Missy to appear, this was to prove that his original relationship with the vast Expanse Dao palace shouldn't have been a clash of arms!

After that, he summoned the dark artifact to carry out the final threat. Although he didn't say it explicitly, the meaning behind it was clear. It was... that he, Wang Baole, had the ability to severely injure and even kill the injured galactic almighties who had yet to recover!

All of this shocked the galactic almighties on the third altar. It could be said that waves after waves of attacks continued. His pupils constricted slowly, and he grew more and more silent. No matter how hard he thought about it., he also felt that if they were to become enemies, the consequences would be severe.

This forced him to pay more attention to Wang Baole. On the other hand, the stellar youth's expression had completely changed. His breathing was rapid, and his eyes were filled with panic. He wasn't a fool., he had already sensed that something was amiss. His heart trembled, and he was about to speak.

However, before he could finish speaking, the almighty from the celestial domain on the third altar revealed a look of determination in his eyes. Although he could not afford to offend the blazing flame ancestor, he had the ancient bronze sword to protect him. However, this planet cultivator before him was actually able to shake the ancient sword, this caused everything to change. In addition to the appearance of the strange dark artifact, as well as... The SAINTESS whose physical body had been damaged, but whose background could be described as terrifying.

All of this was no longer something he needed to weigh. Therefore, in the next instant, the almighty from the celestial domain let out a sigh. He lifted his right hand and waved it. Instantly, an enormous pressure descended, amidst the rumbling, it descended directly on the stellar youth.

It caused the youth to cough up blood and let out a shrill scream.

"Progenitor..."

"Shut up!" The reply he received was the faint words of the almighty from the Celestial Domain. The instant he finished speaking, the young star coughed up blood once again. His already injured body was once again injured, all his recovery over the years had gone down the drain. It was even worse than before.

His entire body trembled. He didn't even have the time to look at Wang Baole with hatred. In the midst of his extreme weakness, he fainted. His soul was in the same state. He could recover slowly on the altar, however, to recover to ten percent of his cultivation, unless he had some other good fortune, it would take him at least several hundred years. To reach his peak... it would take less than a thousand years.

After that, the almighty from the Star Domain, who was sitting cross-legged on the third altar, looked at Wang Baole. Wang Baole took a deep breath, and the anger and arrogance on his face disappeared, he cupped his fists and bowed deeply to the almighty from the Star Domain.

"I, Wang Baole, pay my respects to senior. Thank you for upholding justice!"

The almighty from the star domain snorted coldly. Deep down, he was displeased with Wang Baole. He couldn't help but shift his gaze away. He looked at the Saintess from his sect, and his gaze softened. He was about to speak., however, Wang Baole spoke loudly once again.

"I respect your personality, senior. I admire your integrity. At the same time, I have received the favor of the Dao Palace. I am willing to help you and the Dao Palace cultivators heal their injuries and make my own contributions. Therefore... I plan to hold a grand ceremony in a month's time. I will ask my master, the blazing flame ancestor, for a galaxy with stars to come over and integrate into the Solar System

“With this, we can accelerate the recovery of senior’s cultivation. At the same time, we can also raise the level of civilization in the Solar System!”

As soon as Wang Baole said that, the eyes of the almighty from the Dao Palace Starfield, who was initially displeased with him, widened. He instantly turned to look at Wang Baole.

“You want to fuse with a civilization with stars?”

Wang Baole’s expression remained the same as usual as he nodded.

“This is only the first. I still have plans in the future. I will attract more stars and merge them into the Solar System, allowing senior and the others to recover their cultivation faster!”

A smile appeared on Wang Baole’s face, but his heart was calm. He knew that the vast Expanse Dao palace should not be an enemy. The hatred between the vast Expanse Dao palace and the Weiyang clan allowed them to become natural allies.

However, even if they were allies, they had to respect each other. Otherwise, they wouldn’t be allies, but enslaved.

That was why he had to put on a show. After all, if he could form an alliance with the Vast Expanse Dao palace, it would be beneficial to the federation. At the same time, he knew how to communicate with others. If he wanted to achieve some of his goals., he had to give them something that would tempt them. There might be many things that could tempt the higher-ups in the galaxy. However, after thinking about it, Wang Baole realized that the only thing he could give them was the integration of the God’s eye civilization, which would indirectly double the amount of healing.

Furthermore, if he had proposed this so-called gift in the beginning, the effect would have been unsatisfactory. This was because their statuses weren’t equal. At the same time, if he had used this as a threat to punish the star, it would have had the same negative effect.

That was why, as soon as he had appeared, he had killed senior brother de Yunzi in a domineering manner. Then, he had forced the other party to reveal his trump card. That had forced the star domain’s mighty figure to punish the star youth.

By then, he had, to a certain extent, gained the right to be considered an equal. That was why, when the other party was displeased, he had proposed a gift, and he had done so with such a grand gift. He had done so with such a grand gift, he had done it with ease.

Naturally, the almighty from the Galaxy, who was sitting on the altar, instantly understood everything. This made him look at Wang Baole with a deeper look in his eyes. At the same time, he also understood the main point of the other party’s integration with the stars, it was to raise the level of the civilization in this place. However, he had to admit that as the level of the civilization in the Solar System increased, he and the others would also benefit greatly from the recovery of their cultivation.

At the same time, Wang Baole’s last sentence made him extremely tempted. If Wang Baole could continuously raise the level of the federation’s civilization and make the stars stronger, then it would be of great benefit to him.

After a moment of silence, the Galactic Realm Almighty looked at Wang Baole with a calm gaze and nodded.

“Thank you, my young friend. Qing Lingzi didn’t know his limits and almost made a huge mistake, destroying the alliance between the Dao Palace and the federation. He is indeed guilty of this. The Dao Palace and the federation shouldn’t be enemies. We have a common enemy...” The almighty from the celestial domain swept his gaze over the dark artifact outside. He suddenly realized that the planet in front of him had taken out a divine weapon that clearly carried the aura of the dark sect. Its purpose was to remind him that it was related to the dark sect, everyone’s enemy... was the same!

“What a meticulous, courageous, and resourceful cultivator...” the almighty from the celestial domain sighed softly as he thought back to his own Dao Palace’s junior.

“From now on, the Dao Palace will not participate in any internal affairs of the Federation. They will only share in cultivation. Furthermore, when foreign enemies invade, they will fight against them as one, advancing and retreating together!”

“Thank you, Senior!” Wang Baole took a deep breath, cupped his fists again, and bowed deeply

Chapter 994, Federation reorganization!

As Wang Baole cupped his fists, the little missy beside him heaved a sigh of relief. She was actually in a difficult position, but she believed that with Wang Baole’s methods, he should be able to handle such matters well. After all, from what she knew..., wang Baole was very good at dealing with people.

At the same time, she didn’t believe that Wang Baole didn’t understand that both parties were natural allies. This was because they shared a common enemy, and her existence was also one of the reasons.

Therefore, ever since she had appeared, she had been observing without interfering. Now that everyone was happy, a smile appeared on Little Missy’s face.

Seeing Little Missy’s smile, Wang Baole smiled as well. He didn’t immediately invite her back to the mask. Instead, after communicating with her, he temporarily left her here to reminisce about old times. He took his leave and left the ancient green-bronze sword.

In the starry skies, he raised his right hand and waved. Immediately, the dark artifact at the tip of the sword whizzed over. Although the three dark artifacts were still incomplete, their bodies had already recovered to a critical point. There was no point in remaining on Mars, wang Baole grabbed with his large hand, and the dark artifact immediately fused into his body.

It turned into three black dots between his brows and then disappeared without a trace. However, with just a thought, they would instantly appear on his body, turning into a dark child that could graze the starry skies.

After doing all this, Wang Baole looked at the solar system from afar. He knew that he wouldn’t be able to stay here for long. Cultivation was like sailing against the current. If he didn’t advance, he would retreat.

Once he set foot on this path, he would have to keep moving forward. Only by doing so could he protect the people and things he wanted to protect and realize his dream.

The Federation president is my lifelong dream... it may be within my grasp now, but the federation is too small... I want to make the federation bigger and bring the level of civilization to the maximum. When that happens, I will be able to live up to my name as the President, at the same time, there was a reluctance to part before his departure.

For the sake of his dream and cultivation, after completing the fusion of the divine eye civilization, he had to go out. Therefore, his clone walked out of his original body once again and headed straight for Mars. He planned to spend more time with his family in the coming days.

As for his original body, he left the Solar System and relied on his connection with the divine eye civilization's star. He was teleported away and returned to continue setting up the array formation and making preparations.

Time passed slowly after Wang Baole returned to Mars. A week passed quickly. During that week, the news of Wang Baole killing the five generation Sky clan and destroying the planet in the Dao Palace had spread throughout the entire federation, on one hand, too many people had witnessed it with their own eyes. On the other hand, Li Xingwen's return to Earth and the publicity he had received after taking over the government affairs of the Federation had caused Wang Baole's reputation to rise like a huge wave in the entire federation. It had reached its peak.

Everyone was excited. After Li Xingwen's return, the federation began to reorganize itself. As the news of his appointment spread and the large number of cultivators on Mars returned, the federation was like a half-withered flower, after being doused with the water of life, it slowly began to bloom again.

First, there was the presidential candidate. After seeking Wang Baole's opinion, they re-elected the members of the Parliament. Finally, Zhao Yameng's mother, the governor of the Martian colony, Wu Mengling, was elected as the new president!

Zhao Yameng's father was still in charge of the Spirit Sciences Academy and had entered the parliament.

Li Xingwen, like his previous status, was helping the Martian colony governor with matters regarding the federation.

The entire federation was shaken by the news, but no one raised any objections. Zhao Yameng's mother had been able to take up the position of president, regardless of whether it was due to her hard work or her own experience.

Wang Baole personally attended to her promotion. He removed the divine armament crimson star from her hair and gave it to her, allowing the federation's tradition to continue. He also informed Zhao Yameng of the recent developments. The vacant position of Martian colony governor.., the successor was... the current Vice President of the Senate, Lin You!

Not only was he the vice president of the Senate, he was also appointed as the vice president. Lin You, who held three positions, was undoubtedly being groomed as a future star in the federation.

Lin You didn't fail to live up to his expectations. Not only was he resourceful and experienced, he had also made a breakthrough in his cultivation over the years. He had stepped into the spirit realm, and his improvement was extremely fast. He wasn't far from breaking through to the late-stage spirit realm.

At the same time, the Venus project had been reactivated after the five generation Sky clan's chaotic governance had been suspended. With Wang Baole's help, they had retrieved the stellar source from the vast Expanse Dao Palace, allowing Venus to be built, this was going to be a major event for the federation.

It would be built into the second Mars, and it would become the core of the array formation of the Solar System. The person who would take over the position of the Venus governor would be... the former deputy governor of Mars, the giant tree on the Moon!

During the five generation Sky clan's chaotic period, the giant tree had obtained the true trust and recognition of Li Xingwen and the others through its own choice. That was why it had been given such an important position!

At the same time, there were also Jupiter and the other planets. After Zhao Yameng's mother, Wu mengling, became the president, they were all appointed one after another. This made the Solar System's array formation even more majestic and left many openings. Once a large amount of spiritual energy was released.., it could expand the array formation's scope.

All of this was in preparation for something that could be said to be an extremely important event for the Federation!

That was... the fusion of the divine eye civilization!

Wang Baole had already informed Li Xingwen and the others about this. Although it was still a secret, it had already spread among the higher-ups. Everyone who knew about this was extremely excited, because they already knew.., once the sun fused with the divine eye star, the level of civilization in the Federation would increase. At the same time, all life born in the Solar System would receive a feedback from the Sun's will the moment it fused with the star!

This feedback was a rare supplement in the world. It could increase the aptitude of ordinary people and the cultivation of cultivators. Some people who were stuck at a cultivation realm could even use this opportunity to attempt a breakthrough!

How could such a thing not be exciting? Besides the appointments of the various planets, there were also a series of internal adjustments within the federation. For example, Jin duoming had officially taken over the position of the family head of the Jin family, becoming the Supreme Leader of the TRILUNARIS Corporation, after he took over, he immediately issued a plan to cooperate fully with the Spirit Sciences Academy and create more powerful Spirit Sciences Dharmic artifacts together!

Liu Daobin also rose in status. With his relationship with Wang Baole, his own hard work, and the contributions he had made to the federation over the years, he was promoted to the Deputy Governor of Mars and was fully in charge of the work of the Martian Special Administrative Region!

The other four dao colleges began rebuilding after the federation had straightened things out. The person in charge of the reconstruction of the ethereal dao college was Zhou Xiaoya. She had been appointed as the sect lord of the Ethereal Dao College!

While all of this was going on, Wang Baole had a lot of free time on his hands. He spent every day with his parents, and his life had returned to the calmness and gentleness that he hadn't experienced in a long time.

While enjoying the warmth of his family, Wang Baole continued to nurse his parents' bodies. He slowly healed his mother's injuries, and at the same time, kept the fire of life in his parents' bodies in a healthy state, they even looked much younger.

Based on the spirit Qi that Wang Baole left on their bodies, their lifespan could basically reach the limits of their souls. In order to prevent what had happened in the past from happening again, Wang Baole had spent the past few days, he had made some accessories with his planet cultivation.

With these accessories, even if a planet cultivator made a move, it would be very difficult to endanger his parents' lives in a short period of time. He would also be the first to notice.

Time passed once again, and half a month before the day of the integration of the god eye civilization, Wang Baole received an invitation to a wedding.

Lin Tianhao and Du Min's wedding!

When he saw the invitation, Wang Baole had a strange expression on his face as he prayed for Lin Tianhao.

Although he and Du Min were old classmates, they had never gotten along. From Wang Baole's point of view, with Du Min's hot-tempered personality and her flat figure, it would be extremely difficult for her to get married in this lifetime.

"Tianhao, Oh Tianhao, you have to pray for yourself..." Wang Baole coughed. Even though he said that, he was still very happy deep down. After all, Lin Tianhao was a good friend that he wouldn't get to know unless he fought with him, and Du Min was a classmate of the old class elder, therefore, he was very happy that the two of them could have a result.

Of course, this was also the reason why he didn't have any romantic feelings for du Min. If not, he would have been furious by now.

Therefore, after receiving the invitation, Wang Baole sent a voice transmission to Lin Tianhao, sending him a message to attend. Ever since he had returned, other than going to Zhao Yameng's mother's promotion ceremony, he had been at home all the time, refusing visitors, therefore, after learning that Wang Baole would be coming, Lin Tianhao was very happy. At the same time, the news spread, causing everyone who wanted to visit Wang Baole to pay attention to this matter.

Just like that, a few days later, Lin Tianhao and Du Min's wedding on Mars was packed with friends and elites. It was so lively that it could be said to be the wedding of the century!

Sigh –

Happy holidays, everyone. I plan to take a break during this holiday to spend time with my family and keep up with everyone's holidays

Chapter 995 came to pay their respects one after another

Lin You's status, Lin Tianhao's status as the city lord of ethereal city, his relationship with Wang Baole, and his arrival made the wedding on Mars very grand.

Wang Baole had prepared a gift meticulously. The wedding reached its peak, and the banquet began. Wang Baole held a wine glass in the wedding hall and looked at the new couple in front of him. His heart was filled with emotion.

"Daobin, why do you think Tianhao is so stubborn? Why did he get married so early..." Wang Baole drank his wine and looked at Liu Daobin, who had followed him as soon as he arrived, he said jokingly, and the smile on his lips was tinged with sympathy.

"Boss is right. When we go out to play in the future, we'll lose another good brother." Liu Daobin laughed when he heard that. He coughed and said softly.

"Boss, when you weren't around all these years, the Martian special administrative region received wave after wave of immigrants. They've put in a lot of effort for the construction of the new Martian zone. I plan to select a few people who are both good-looking and good-natured. I plan to form a female celebrity group and perform in the entire federation to promote the beauty of the Martian Special Administrative Region!"

"This matter is very important to the Martian special administrative region. Boss, you're my old leader. I sincerely hope that you can give me some guidance..." Liu Daobin's expression was solemn and filled with sincerity. He only said those words., no matter how Wang Baole listened to him, he felt that something was amiss. That was especially so when Liu Daobin took out a jade slip and told him the information of the candidates. He asked Wang Baole to give him some guidance. Wang Baole's expression turned odd.

"Daobin, ah, Daobin, you..." Wang Baole didn't know whether to laugh or cry. Just as he was about to knock on the door, a gentle voice came from behind them.

"What female team? Liu Daobin, let me take a look."

Wang Baole turned his head and looked at the familiar figure walking over. His eyes were filled with reminiscence as he spoke softly.

"Xiaoya."

The person who had come was Zhou Xiaoya. She had changed a little from how she looked back then. She no longer looked like a timid person. Instead, she was gentle and gentle. At the same time, she also carried a hint of firmness. It was obvious that she was gentle on the outside but firm on the inside.

Her appearance made Liu Daobin Blink. He kept the jade slip in his hand without batting an eyelid and cupped his fists at Zhou Xiaoya with a smile.

"Greetings, sect Lord Zhou!" With that, he bowed to Wang Baole.

"Old leader, I shall not disturb you and sect Lord Zhou from catching up on old times. I will report to you later." As he spoke, Liu Daobin bowed to the two of them again before retreating.

Zhou Xiaoya glanced at Liu Daobin, who had left. Her beautiful eyes eventually landed on Wang Baole's face. She retracted her gaze and stood beside him without saying a word. Instead, she looked at Lin

Tianhao and Du Min, who were in the middle of their wedding ceremony, her eyes were filled with blessings and a hint of envy.

"This Liu Daobin is too much of a troublemaker. I will teach him a lesson later." Seeing that Zhou Xiaoya had arrived without saying a word, Wang Baole coughed and tried to find something to say.

In truth, he felt guilty and grateful towards Zhou Xiaoya. His parents had often mentioned Zhou Xiaoya during this period of time, which made Wang Baole realize that Zhou Xiaoya's company during his absence.., it was very heartwarming for his parents.

However, he was no longer the same person he was back then. He knew very well that he couldn't stay in the federation for too long. Therefore, any emotional ties between him and his old friends would eventually make him wait alone.

Wang Baole didn't want to and couldn't do such a thing. That was why when he returned, he didn't look for Zhou Xiaoya. She knew that he had returned, but she didn't go to see him either.

There seemed to be some distance between the two of them that they both knew about. That was why they had met for the first time since their return.

"I need to teach her a lesson," Zhou Xiaoya said calmly, not looking at Wang Baole.

Wang Baole blinked and coughed. He then secretly glanced at Zhou Xiaoya. After a moment of silence, he sighed softly in his heart. He knew what she was thinking, but he couldn't say the words to make her wait any longer. After a moment of silence, it turned into two words.

"Thank you."

Upon hearing those two words, Zhou Xiaoya turned her head slightly and stared at Wang Baole with her beautiful eyes. After a long while, she smiled slightly. Her eyes curved into a crescent moon due to the appearance of the smile. She was very beautiful, but it also made her appear gentle and gentle, it became more and more obvious. She raised her hand and helped Wang Baole tidy up his clothes. Then, she breathed softly into his ear like a orchid.

"Did you owe me in your past life? Is that why you wanted to seduce my heart when I first entered the DAO College in this life? You were able to hear about me from the mouths of the people around me time and time again. You made me unable to forget you and make my heart unable to contain anyone else. Since that's the case... Your Little White Rabbit will wait for you." Zhou Xiaoya blew into Wang Baole's ear. She didn't turn her head and walked away from him. She walked further and further away. Only the fragrance of the orchid still lingered in Wang Baole's nose, he couldn't help but turn his head to look at Zhou Xiaoya's back as she disappeared into the crowd.

As he watched, the wedding had unknowingly come to an end. Lin Tianhao finally pulled his body out and found Wang Baole together with Du Min. As he looked at the couple before him, Wang Baole suppressed the image of Zhou Xiaoya that filled his mind, Lin Tianhao smiled and gave his blessings. He also told Wang Baole that the only person who had not returned from the dark swallow plan and had not received any news was Kong Dao.

"Kong Dao's remaining lamp of life has not been extinguished, but its color has changed..." Lin Tianhao had wanted to say a few more words, but he was the main character today, so he was quickly dragged away, leaving Wang Baole in deep thought.

His thoughts didn't last long. After the wedding ceremony ended, groups of people started chatting and laughing at each other at the banquet. There was an endless stream of people who came to visit Wang Baole amidst the bustle.

It was a good thing that he had a high status now, and his status was extremely high. Therefore, those who came to visit him didn't dare disturb him too much. They would leave after they paid their respects. That was until an old friend of his appeared before Wang Baole, he bowed deeply to Wang Baole, his eyes filled with emotion and regret.

"Greetings... My Lord." The visitor was the current governor of the Golden Star City. He was a cultivator that had been formed by the Moon Hanging Tree, who had been involved with Wang Baole in the past. The giant tree didn't know how to address Wang Baole respectfully. It hesitated for a moment before saying, "My Lord." "My Lord."

His cultivation had improved over the years. He had advanced from the perfected nascent Soul Realm to the spirit realm. However, whether it was in the vast Expanse Dao palace or here now, the emotion and regret in his heart were extremely strong, at the same time, he didn't dare slight Wang Baole. He was extremely respectful and respectful.

"There's no need for that, fellow Daoist Gui," Wang Baole said with a smile. He helped the giant tree, which had bowed down to greet him, up. He looked at the fluctuations in the other party's cultivation, and the smile on Wang Baole's face was sincere.

"Over the years, fellow Daoist GUI has done the federation a Favor!"

To the giant tree, this sentence was much heavier than what others had said ten thousand times. It made him shudder. It was true that he had never thought of betraying the federation, even when Li Xingwen's faction was in danger, now that the situation had turned for the better and Wang Baole had agreed with him, it was enough for him.

The giant tree took a deep breath and bowed again. After a moment of hesitation, he said softly, "Sir, you are too kind. This is also my home."

"With your cultivation, if you have the time, you can explore the ruins on earth... perhaps you will be able to see some secrets about the Solar System."

"HMM?" Wang Baole's eyes flashed as he looked at the giant tree.

"Sir, my true form is the Laurel tree on the moon. It has existed for a very long time. In my blurry thoughts, there is a memory..."

"I don't know if this memory is real... it seems like a very, very long time ago, there was a powerful cultivation force in the Solar System. I... was one of the cultivators in that force who planted it on the Moon."

“Although this cultivation force has long left, I have a feeling that they... still exist in this starry sky. Furthermore, the disappearances that have occurred since the spirit inception era in the federation should be extremely related to this cultivation force!”

“They seem to be using such a method to... select disciples from the current Solar System!”

“For example... Lin You!” The tree spoke in a deep and soft voice.

Chapter 996, Li Wan ‘Er!

“Oh?” Wang Baole’s expression was the same as ever. He listened to the words of the giant tree beside him, the smile still on his face. He swept his gaze across the crowd and nodded politely at the few cultivators who were bowing to him. He also saw the scene of the wedding, Lin You, who was surrounded by a crowd in the distance, was looking at him.

Wang Baole smiled slightly and nodded at Lin You. Lin You’s appearance didn’t seem to have changed much compared to before. After all, after reaching a certain level of cultivation, the traces of time on his body would become lighter. Other than his aura.., it wasn’t easy to judge his appearance.

He had been paying attention to Wang Baole the entire time. When he noticed Wang Baole’s gaze, Lin You’s expression was solemn. He bowed deeply at Wang Baole across the crowd. As he stood up, a hint of hesitation flashed across his eyes. However, that hesitation quickly turned into decisiveness.., he walked towards Wang Baole.

Seeing that Lin You, whom he had just mentioned, was walking towards him, the giant tree didn’t seem to have any abnormalities on his face. His expression remained respectful. However, his words had changed to reporting on his work on Mars over the years. His voice wasn’t loud, Lin You, who was walking towards them, could hear a little of it. As Lin You approached and laughed, the giant tree turned around and cupped his fists at Lin You with a smile.

“Fellow Daoist Gui, I’m not disturbing you, am I? Can you give me a moment of Baole’s time?” Lin You joked, his eyes filled with kindness.

“President Lin, you must be joking. I’ve already finished my report. I wouldn’t dare disturb you any further.” The giant tree’s expression remained the same. He smiled and cupped his fists again before taking his leave respectfully.

As he watched the giant tree leave, Lin You swept his gaze across the area casually. When he turned his head to look at Wang Baole, his expression was filled with emotion and regret. Even though he didn’t speak to Wang Baole immediately, his expression.., the words he was about to say were very clear.

He didn’t need to speak, but his expression was enough to let others understand. Wang Baole had only seen Duan Muque and Li Xingwen among the higher-ups of the federation regarding his past abilities.

Many years have passed in a flash... Lin You sighed softly. His expression turned solemn once again. He took a step back and bowed deeply to Wang Baole.

“Moon Star Sect’s in-name disciple, Lin You, greets Senior!”

Wang Baole raised his eyebrows slightly. He looked at Lin You, who was in front of him, and asked, “Senior, what do you mean?”

“Moon Star Sect? When did such a sect appear in our federation? Fellow Daoist Lin, what do you mean by that?”

“Baole, stop teasing me.” Lin you smiled bitterly and cupped his fists once again.

“Baole, I don’t know if fellow Daoist Gui said anything to you, but in order to avoid causing unnecessary misunderstandings, I still have to explain myself.”

“Back then, I went missing in a ruin on earth. I returned many years later. As for what happened during my disappearance, although most of it was reported to the federation for the record, there are still some secrets that I haven’t revealed...” Lin You was silent for a moment, he spoke softly.

“The place where I went missing was called the Moon Star sect. This sect should be related to the ancient Earth. Therefore, I wasn’t the first, nor was I the last person to be sent there. After a series of inspections, I became an in-name disciple and was taught cultivation techniques... Finally, I was sent back with a mission.”

“What Mission?” Wang Baole narrowed his eyes and asked slowly.

“To record the evolution of Earth since the spirit inception era, and to participate in it. In the midst of the danger that would affect the life and death of the entire federation, to send someone whom I believe to be a seed into the ruins.” Lin You’s eyes were full of honesty, he didn’t hide anything.

“I don’t know what the Moon Star sect is up to, but I do know one thing. The federation is my hometown. That’s why I didn’t send anyone there after I returned. Instead, I took the initiative to report it. As a result, the number of missing people in the ruins has decreased over the years

“However... Baole, if there really is an irreversible life-and-death crisis in the federation, I might still carry out that mission in the end and try my best to leave a spark for the federation

“The reason why I’m telling you now is because I, Lin You, have no regrets!” With that, Lin you bowed deeply towards Wang Baole once again. He raised his head and didn’t avoid Wang Baole’s gaze, allowing him to see his honesty.

He stared at Lin You for a long time before Wang Baole nodded slowly. There was a thoughtful look in his eyes, and he suddenly asked, “Tell me about the Moon Star sect.”

“Tell me about the Moon Star Sect.”

“I don’t know where the Moon Star sect is, nor do I know how powerful it is. However, I do know... that there should be at least hundreds of cultivators like you, Baole.”

“As for the stars... just by looking up from the Moon Star sect, I can see that there are dozens of stars in the sky! “At the same time, the Moon Star sect must have a deep connection to the ancient Earth. In fact, it’s possible that they were created by the ancients who migrated from Earth. In addition... I’ve seen quite a few laurel trees in the Moon Star sect, just like fellow Daoist gui...” Lin You’s heart palpitated as he spoke, as if he had just recalled something.

“Oh, right. In the Moon Star sect, everyone who has reached a certain level of status wears a mask... masks come in all shapes and sizes, and most of them are different.”

"A mask?" Wang Baole was taken aback and fell into deep thought. Lin you heaved a sigh of relief after he had finished speaking. He hadn't lied. He didn't want to cause any misunderstandings between Wang Baole and himself, and he didn't want them to become enemies.

After all, this was his hometown, and everything about him was in the federation. Now that his son was getting married, his feelings for this place were even deeper. That was why when he had seen the giant tree talking to Wang Baole earlier, even though he didn't know the details, he had a feeling that something was amiss, that was why he had made up his mind after some hesitation. He revealed all the secrets that had been hidden deep in his heart. He believed that with Wang Baole's intelligence and experience, he would be able to tell if what he had said was true or false.

After he finished speaking, Lin you felt much more relaxed. He saw that Wang Baole was deep in thought, so he didn't continue disturbing him. Instead, he cupped his fists and left.

There were many people who could sense that Wang Baole was deep in thought. After all, those who could attend the wedding were mostly the upper echelons of the federation. They could tell when to stop. Therefore, no one came to disturb Wang Baole's thoughts for the rest of the time.

Just like that, after the time it takes for half an incense stick to burn, Wang Baole muttered to himself.

I seem to have overlooked something... Wang Baole narrowed his eyes. When he heard the word "Mask" and thought about it, the image of the masked woman in the fallen star lands appeared in his mind!

The image of the woman could not be erased. As his mind became more and more focused, he finally fixed his eyes on the beautiful woman's mask. As he recalled, the gaze of the woman in the mask became clearer in his mind.

Finally, Wang Baole raised his right hand and took out the jade slip that could contact the blazing flame ancestor. After a moment of silence, he sent a voice transmission respectfully.

"Is master around? Do you have the complete list of people who have been promoted to planet-level from the fallen star lands to the Weiyang Dao Domain?"

Wang Baole knew that not everyone could see the list. Only those who were qualified enough to receive it in the Weiyang Dao domain would receive it. In the fallen star lands, he could only see himself. He couldn't see everything, he hadn't paid much attention to the matter at first, but now, with the masked woman's figure and suspicions in his mind, Wang Baole decided to look through the entire list.

Soon, the blazing flame patriarch, who had received Wang Baole's voice transmission, sent the list over. He also replied to Wang Baole.

"My good disciple, I've already arranged for someone to pick you up. When you're done with your matters, I'll wait for you in the Raging Flame Galaxy!"

"As per master's orders!" Wang Baole replied respectfully. He immediately opened the complete list that the raging flame ancestor had sent him. After scanning it, his breathing quickened, and his pupils constricted. He stared at the name on the list!

Li Wan 'Er, Moon Star sect!

Li Wan 'er... is this a coincidence? Wang Baole's mind was filled with disbelief as Li Wan 'er's figure and the masked woman overlapped, he sent a voice transmission to Lin Tianhao, who was toasting with Du Min. Then, he left the wedding venue in a hurry. He stepped out of the hall and disappeared instantly.

When he appeared, he was no longer on Mars. Instead, he was speeding through the starry skies. He landed on Earth in an instant and appeared... outside the Chairman's residence!

Outside the residence, Wang Baole took a deep breath and stood there, cupping his fists and bowing.

"This junior, Wang Baole, seeks an audience with uncle Li!"

Although the senator's cultivation had fallen to that of a mortal, his contributions to the federation, especially his status as Li Wan 'Er's father, made it necessary for Wang Baole to treat him as a junior!

Chapter 997 sealed remains!

The visit didn't last long. In the end, Wang Baole left the senator's residence under the senator's personal escort. It was late at night outside. He looked at the bright moon in the sky and felt the gentle breeze blowing in his face, wang Baole walked on the streets with a complicated expression on his face.

He wasn't the only person on the streets. He could occasionally see a few passersby walking past him. However, none of the passersby seemed to be able to see Wang Baole in their eyes. This made his presence very abrupt and at the same time.., it was similar to how he felt, and there was a hint of sadness in his heart.

He thought of Zhao Yameng and Zhou Xiaoya.

He had learned from the head senator that Li Wan 'Er had gone missing. Due to some unforeseen circumstances, she had not participated in the Dark Swallow Project. This incident made Li Wan 'er feel guilty and unwilling, therefore... She, who had access to some of the Federation's secrets, went to some of the ruins on Earth.

In the end, she disappeared without a trace.

After knowing all this, Wang Baole recalled everything that had happened at the fallen star. His guess had been confirmed. The image of the masked woman in his mind had completely overlapped with the familiar body of Li Wan 'Er.

Why didn't she tell me? was there something she was hiding, or was she unwilling to tell me? Wang Baole shook his head, he suppressed the thoughts in his heart. He felt that no matter what, they would meet again in the starry skies in the future. In order to reassure the council member, Wang Baole had thought about it and told him about Li Wan 'er.

At the same time, from the council member, Wang Baole learned that Kong Dao wasn't the only one who hadn't returned to the Dark Swallow Plan. Li Wuchen hadn't returned either.

However, just like Kong Dao, the flame of life hadn't been extinguished. Based on a simple estimation, there shouldn't have been too many life-and-death accidents. Wang Baole was a little emotional, but he understood that ever since he had embarked on this path of cultivation.., he could only wish each of them well.

As for the ruins... Wang Baole narrowed his eyes. This was a hidden danger after all. The relationship between the Moon Star sect and earth was uncertain. However, regardless, the other party had immense power. Compared to the current federation., they were extremely weak. As a result, there was a strong imbalance between the two parties.

This imbalance meant that the federation had no right to take the initiative.

If that's the case... It's better to seal those ruins! Wang baole's eyes shone brightly. He slowly closed his eyes and spread out his divine sense, covering the entire earth and searching for all the ruins.

As his divine sense spread out, everything on Earth instantly became clear in his mind. He saw the lights of tens of thousands of homes. They were the joys and sorrows of countless living beings in the cities.

The appearance of all living beings in an instant represented a different life. Wang Baole was deeply affected by it, causing ripples to form in his heart. Then, he saw the endless wilderness. It had once been the gathering place of ferocious beasts, now, he couldn't see many ferocious beasts anymore.

Even some of them had slowly changed their habits and become harmless after being suppressed for so many years. That was the only way they could survive.

Other than that, Wang Baole also saw the vast ocean and the mysterious bottom of the ocean. As the ocean stretched as far as the eye could see, the gigantic sea beasts at the bottom of the ocean trembled as Wang Baole scanned them with his divine sense.

"There are no more secrets," Wang Baole muttered. He saw the spirit Qi that was slowly growing throughout the entire earth.

The Spirit Qi was weak, but it continued to spread. Since the spirit inception era, the Spirit Qi on Earth no longer came from the fragments of the ancient green-bronze sword. Instead, it was slowly condensing itself under the constant changes in the environment.

It could be imagined that even without external help, the environment on Earth would become richer in spirit qi after tens of thousands of years.

Looking at all this, nine regions finally appeared in Wang Baole's mind!

They were nine ruins!

The nine ruins were scattered across the earth. The distance between them seemed to be irregular, but Wang baole could vaguely sense the traces of the array formation restriction.

There were three locations in particular... Wang Baole didn't see any records in the Federation's Secret Manual. This meant that the federation hadn't noticed the three ruins before!

They were located deep beneath the sea.

At the same time, with Wang Baole's current cultivation, he couldn't see any special fluctuations in the nine ruins. Everything seemed to be no different from the ruins.

However, there had been too many cases of intruders going missing since the spirit inception era despite the fact that there was nothing unusual about the ruins.

Is the Moon Star sect... an enemy or a friend? Wang Baole narrowed his eyes and took a step forward, disappearing from the streets. When he reappeared, he was already outside the first ruins!

The ruins were buried deep underground. There was a mountain range on top of it, where ferocious beasts used to gather. When Wang Baole appeared, all he could see was desolation. The mountain peaks were green in color, however, it was difficult to hide the thick aura of death that permeated the area.

It was clear that a long time ago, there had been a battle between ferocious beasts and cultivators. The entrance to the ruins was a mountain stream. Even though more than half of it had collapsed, one could still pass through it. Furthermore, it was located around the entrance, there was also the power of the array formation. With just a glance, Wang Baole could immediately tell that the array formation came from Ethereal Dao College. There was a unique, faintly discernible fog that was unique to ethereal dao college.

Was it sealed by the grand supreme elder back then... Wang Baole's body swayed. He ignored the array formation and stepped into the mountain stream. He sped all the way until he reached the interior of the ruins. The place was already empty. There was only the ground at the end, there were obvious traces of the ancient array formation that had been destroyed.

The array formation seemed to have existed for a long time. There were even signs of weathering on the ground. With Wang Baole's cultivation, he could tell at a glance that the array formation was used for teleportation. The area affected was large enough to cover the entire ruins, it looked like it had been destroyed, but it was still powerful. The only difference was that the area affected had been reduced.

Wang Baole stared at the array formation and memorized its structure. A glint flashed in his eyes. The nine ancient stars behind him materialized into Dao Stars. At the same time, he raised his right hand and pressed down lightly on the array formation.

With that, the ground began to tremble. The array formation trembled as well, and cracks appeared on its surface. The number of cracks increased. Finally, with a loud boom, the entire array formation seemed to have been torn apart by an invisible hand, it split into four parts.

Large amounts of spirit qi, visible to the naked eye, rose from the cracks and spread in all directions with a loud boom. Eventually, they covered the entire area and merged with the heavens and earth.

Only then did the power of the array formation be completely dispelled!

After checking the area again and making sure that he hadn't missed anything, Wang Baole turned around and left. He went to the second, third, and sixth ruins!

The five ruins behind him were distributed in different regions of the Earth. Some were in rivers, some were deep underground, and some were in a primitive rainforest. They all looked different, and they all existed in rivers, it was a stone bull that didn't look big, but it actually contained supernatural powers and spells. It was as majestic as a small world.

Deep Underground, there was an underground city. In the primitive rainforest, there was an altar that worshipped unknown gods.

These ruins were all recorded in the Federation's records without exception, so there were signs of being sealed. However, to Wang Baole, these seals were not perfect. As he walked past, he tore apart the array formations in the five ruins, all of them.

However, what made him feel regretful was that although the five ruins looked mysterious, he did not see any clues inside. It was as if everything had collapsed the moment the ruins were opened.

Finally, Wang Baole turned his gaze to the depths of the sea. The three ruins that had not been recorded by the federation, or even detected by humans, were located!

They were... a humongous rotting whale that was tens of thousands of feet tall. Half of its body was buried in the mud at the bottom of the sea. The exposed parts of its body were filled with an aura of death that affected the surrounding sea, turning the place pitch-black.

The other was a temple that was covered in seaweed. It seemed to have been damaged by the mighty force of the changes in the world!

In front of the temple, there was a statue of a cultivator. Its face was blurry, but the stone sword on its back still exuded a sharp aura. It caused all the sea creatures that had approached it over the years to pile up into rings of rotting bones.

Finally, there was a mountain!

There was a stone door at the bottom of the mountain. There were runes engraved on the door. These runes contained a strange power that could make all cultivators who saw it instantly think of the meaning of the runes.

The meaning of the runes was..

Sea suppression!

Chapter 998 — good and evil are hard to determine!

The rotting whale, the divine temple, and the sea suppression? Wang Baole narrowed his eyes as he recalled the various legends he had heard of on Earth. Although there were similar legends, he was still certain that there were no records in any of the legends, there were no records of such legends.

Not only were there no records in the federation, but there were also no records of legends that had existed for a long time.

"Interesting..."Wang Baole muttered as his body swayed and disappeared. When he reappeared, he was at the bottom of the sea where the rotting whale was. As soon as he reappeared, all he could see was darkness, the thick death Qi made the seawater in the area seem to be filled with a strange corrosive power.

Not only were all sea creatures unable to get close, even Wang Baole felt a little uncomfortable. Even though he was a clone, he was still at the planet level. Furthermore, due to the existence of his dao planet.., this made his origin dharmic body weaker than his actual body in terms of combat power, but the difference wasn't too great.

He could still fight even against a planet below the late-stage of the immortal planet. However, here, he could clearly sense that if he didn't do something, his origin would be damaged if he stayed here for too long.

From this, it could be seen that while this place was strange, it also contained a shocking amount of power. If it was anyone else, even if it was a planet, the slightest hesitation would cause them to die here.

The rotting whale... Wang Baole's eyes lit up. The nine ancient planets behind him transformed into dao stars, causing the light of the stars to spread out around his body instantly. It was like a torch in the dark night, appearing at the bottom of the pitch-black sea in an instant, it was particularly eye-catching. The light of the stars on his body spread out and illuminated the surroundings, allowing Wang Baole to see the details of the humongous rotting whale's skeleton even more clearly!

All the exposed bones were engraved with symbols. There were also a large number of tiny insects that seemed to be sleeping within the decaying flesh. Each and every one of these tiny insects seemed to be formed from the aura of death, the number of them... was enough to shock anyone.

This scene was enough to shock most of the planets. Even the planet's prodigies, who possessed the laws of the soul fusion planet, would have a drastic change in expression. Their first reaction would be to retreat and leave first, they would have to think about it after making their plans.

However, to Wang Baole, it only made him look a little odd. He narrowed his eyes, but the Black Star among the nine ancient stars shone brightly, instantly replacing the light of the other ancient stars, with the augmentation of the Dao Stars' laws, it shone brightly behind Wang Baole.

The hidden law of this black ancient star was death!

As a dark child, Wang Baole's supernatural powers didn't fear any spirits of the dead. With this double augmentation, Wang Baole's existence was basically able to ignore all signs of death. With just a quick glance., his body flashed and he approached the rotting whale. Without any hesitation, he followed the crevices in the rotting whale's ribs and charged into it.

There was something else within the rotting whale. It was like a biological warship. As Wang Baole searched, he even saw cabins. However, as time passed, most of them had decayed. In these cabins., wang Baole saw corpses!

There were so many corpses that there were probably more than a thousand of them. They had all decayed, and many of them were incomplete as time passed. However, it was clear that they... were not human cultivators.

Wang baole frowned. According to Lin You, the Moon Star sect had left Earth, so they should have been in human form. However, that was not the case here. Wang Baole examined them carefully and stopped in a cabin, he lowered his head to look at a corpse on the ground. He stared at it for a moment, then fell into deep thought.

There are no signs of struggle. It seems like all the beings in the whale died instantly... or did they lose their ability to resist? Wang Baole was deep in thought. Suddenly, a cold glint flashed in his eyes, the

ripples of cultivation in his body erupted instantly. The instant they spread outwards, countless blood threads emerged from the ground beneath his feet and enveloped him.

However, they came into contact with the ripples of cultivation that spread outwards from Wang Baole. Amidst the invisible collision, there were continuous explosions.

Following that, even more blood threads appeared from within the rotten whale's body. They charged towards Wang Baole in a frenzy, as if they wanted to devour him. Furthermore, the blood threads were strange. Wang Baole could sense that within these blood threads..., it seemed to contain a divine ability that could confine life. As long as one was touched by it, they would lose all mobility.

"Petty tricks!" Wang Baole snorted coldly. He raised his right hand abruptly, ignoring the blood strands that were surging wildly. He grabbed forcefully, and immediately, the rules of blood revolved, forming a blood ring that spread out in all directions, the blood strands that were drifting towards him trembled violently. They seemed to distort and showed signs of retreating. However, as Wang Baole snorted coldly, they seemed to be forcefully interfered with. They gathered towards Wang Baole once again. However, this time..., they gathered on his palm.

In an instant, all the blood threads rushed towards him. Finally, they formed a ball of blood in Wang Baole's hand. As the ball of blood squirmed, it transformed into a human-shaped little person. As it struggled, it let out an invisible roar towards Wang Baole, it was as if it wanted to attack his soul.

"Artifact Spirit?" With Wang Baole's attainments in Dharmic artifacts, he could tell the origins of the little person at a glance. At that moment, he grabbed the blood-colored little person with his right hand and pressed his left hand against the inner wall of the rotting whale. A cold voice rang out.

"You have guts. I control the spirits of the dead and the corpses of the dead!"

"Rise!"

As Wang Baole spoke, the laws of the ancient black planet spread, and the body of the hundred-thousand-foot-tall rotting whale shook violently. Under the laws of the ancient black planet, a strange force instantly spread throughout the whale's body, it caused the black hole in its eyes, which had already rotted, to instantly reveal a dark fire. Its body trembled as if it had come to life, and it came to life!

Although more than half of its body was buried under the mud, as it was endowed with life, and as its body shook violently, with a loud rumble, the rotten whale's tail and fins shook, and its body struggled out of the mud, it revealed the countless blood threads that were connected to its abdomen!

And at the other end of the blood threads... at the bottom of the mud, which revealed a deep pit... There was a huge array formation!

The blood threads on the array formation were connected to the rotten whale and the tiny blood-red humanoid in Wang Baole's hands. This scene caused the tiny humanoid, which was struggling non-stop in Wang Baole's hands and letting out a soundless roar, to be stunned for a moment. Then, its body began to tremble, it looked at Wang Baole with uncontrollable fear in its eyes.

Ignoring the tiny humanoid's fear, Wang Baole's body flashed and appeared outside the rotten whale. He lowered his head to look at the array formation in the mud at the bottom of the sea. He could feel

that this array formation was similar to the array formation in the ruins that he had seen previously. They were all teleportation, at the same time, he could tell that it was different.

The array formations in the other ruins were all dilapidated. Even if there were some hidden fluctuations, they were mostly hidden. It was obvious that they had been around for too long and couldn't be activated at all times without replenishment. They were like batteries, in a state of weak electricity.

However, the array formation was different. It was completely activated and in a state of strong electricity. Wang Baole immediately guessed the answer. The whale was indeed a biological dharmic cruiser, and it wasn't from the Moon Star sect. It was from this sect., or perhaps it was for some other reason that it was forcefully sucked onto the array formation, which was used to recharge the array formation.

It was also because of this that the teleportation array formation remained in a state that could be activated at any time. It even produced an artifact spirit, or more appropriately, an array spirit.

As Wang Baole guessed all of this in his mind, the array formation began to glow. It was as if the teleportation was about to activate on its own under the stimulation.

Wang Baole's eyes flashed. As the array formation continued to glow, he stomped hard across the air with his right foot. There was a loud boom, and the array formation shook violently. Cracking sounds rang out, and the array formation shattered into pieces. The glow from the array formation slowly dimmed, the glow from the array formation also dimmed.

The blood-colored tiny being in Wang Baole's hand let out a blood-curdling scream. It was extremely dispirited. After being sealed by Wang Baole, it was immediately put away. Then, without wasting any time, it put away the rotting whale. It turned around and left the sea, when it reappeared... it was at the bottom of another sea. In front of it was the sea grass, and in front of it was a stone statue with a stone sword on its back... The Divine Temple!

The moment Wang Baole appeared, the stone statue's body trembled slightly. Sword Qi rose from the stone sword on its back, and it wagged its finger at Wang Baole!

Chapter 999 — the intimidation of the Galaxy Bow!

Wang Baole stood there, not moving an inch. A serious look slowly appeared in his eyes as he stared at the stone sculpture.

The face of the stone sculpture was blurry, and Wang Baole couldn't see its exact appearance. However, from its appearance, he could tell that it was a human cultivator. It was filled with the aura of time, and its clothes were extremely ancient. The sword on its back, though made of stone., however, it exuded a sharp sword intent, and Wang Baole even felt a strong sense of danger.

It was as if if he were to take a few more steps forward, the sword Qi within the stone sword would explode towards him.

This could be clearly seen from the countless piles of sea beast carcasses that had been dead for an unknown period of time.

This scene made Wang Baole hesitate in silence. If it wasn't necessary, he didn't want to disturb the arrangement of the temple. After all, the stone statue and the stone sword seemed to possess the power to kill him.

This was just the remnants of the sword's power, which had clearly dissipated by more than half after countless years. One could imagine that if it had been countless years ago, when the stone statue and the stone sword had been at their peak, they would have been able to destroy the world with a single strike of the sword!

If the original body had been here, he could have used the power of time to force his way in. However, there was still a difference between the clone and the original body. However, when Wang Baole shifted his gaze away from the stone statue.., as he looked at the temple that was filled with seaweed, his eyes slowly lit up.

There was no door to the temple. Standing there, one could clearly see that there were no deities worshiped in the temple. Instead, there was a teleportation array formation. The array formation was active, but it was different from the rotting whale array formation. There were thin threads on the array formation, they extended to the surface of the sea and covered more than half of earth.

They were not connected to all living things. Instead, they were connected to the gathering points of Spirit Qi on Earth. Spirit Qi was continuously extracted from them and integrated into the array formation.

If Wang Baole did not have a plan to allow the solar system to integrate with the God's eye civilization, he could have ignored the arrangements here and chosen to leave. However, that was no longer possible.

Through his analysis and judgment, after the Solar System had integrated with the God's eye civilization, the array formation would absorb an indescribable amount of spirit Qi in an instant as the spirit qi increased exponentially, when that happened... Wang Baole didn't dare to bet on what would happen.

That was also the reason why he had been sealed in the ruins on Earth. After a moment of silence, Wang Baole rubbed the space between his brows and cupped his fists and bowed to the stone statue.

"Senior, this junior really doesn't know if this place is good or evil to the federation. In order to prevent any mishaps, I wanted to seal the array formation and cut off all ties with the outside world. I was forced to do so. Please forgive me, Senior." Wang Baole lifted his feet and walked forward. One step, two steps..

However, the moment he took his third step, the stone sword on the back of the stone sculpture suddenly buzzed. The Sword Qi suddenly erupted and turned into a long rainbow that charged toward Wang Baole!

Wang Baole narrowed his eyes and retreated abruptly. He took seven steps back and left the restricted area of the Divine Temple. However, the sword Qi could not suppress its murderous intent. No matter how far Wang Baole retreated, it continued to approach him with a murderous aura, it was as if it would kill him even if it was at the ends of the Earth. Just as it was about to reach Wang baole, a cold glint flashed in Wang Baole's eyes.

“Looks like it’s Evil!” As he said that, Wang Baole raised his right hand. Immediately, a gigantic bow appeared in his hand. The moment the bow appeared, the seabed rumbled. Even the solar system trembled and the sun dimmed, even the masked little Missy and the Galactic Patriarch, who were reminiscing about the past on the ancient bronze sword, looked in the direction of Earth.

“This is...”

“The Galaxy Bow!” The Little Missy’s eyes were solemn. As she spoke softly, deep in the ocean on Earth, opposite the stone statue in the Divine Temple, Wang Baole pulled the bowstring with his right hand. He let out a low growl, and his cultivation erupted completely, the nine ancient stars behind him shone, and the dao stars that formed emitted a blinding light. All the power of cultivation gathered, and the bowstring... was finally pulled open by Wang Baole!

Even though it wasn’t a full moon, it was about seventy percent pulled open. The gemstones that looked like stars that were embedded in the bow were also shining rapidly. One of them... lit up!

Even though it wasn’t fully lit up, it still gave off a faint glow, causing the area around Wang Baole to glow with the fire of the stars. The source of the fire was this bow!

Just as Little Missy had said, this bow... was indeed the replica galaxy bow that Wang Baole had found in the storage ring that contained the mysterious bottle and the paper figurine!

Even though it was a replica, its power was still earth-shattering. Even the current Wang Baole could only reach the full moon once in his strongest state after fusing with his original body!

His current clone could only reach seventy percent. Even so... the suppressive force that emanated from it still caused the rapidly approaching sword Qi to suddenly stop in front of Wang Baole, as if hesitating.

I’ll only destroy the power that emanates from the array formation, preventing it from activating itself. I Won’t do anything else

Wang Baole stared at the rainbow formed by the Sword Qi. He didn’t release the bowstring, but the ferocity in his eyes had already spread out his will decisively. After seven to eight breaths, the rainbow instantly fell backwards and returned to the stone sword, the suppressive force that emanated from it also disappeared.

Even though the sword Qi had disappeared, Wang Baole didn’t let his guard down. He maintained the state of drawing the bow and walked towards the stone statue. As he approached, the stone statue didn’t move. Wang Baole stepped into the divine temple, the stone statue didn’t change at all.

Seeing this, Wang Baole didn’t waste any more time. He raised his right foot and stomped hard on the array formation. As he circulated his cultivation, a loud boom reverberated. The array formation of the divine temple shattered immediately. The threads that had been released also broke, after checking it again and again, Wang Baole finally left the area around the temple. He retreated a few thousand feet before putting away the galaxy bow.

He didn’t want to use the bow easily. Once it was shot out, he would be extremely weak. Unless it was absolutely necessary, he had no other choice. He didn’t want to release it.

He could resolve this peacefully. Although he hadn't destroyed the temple to prevent future trouble, he had met his requirements. Before he left, Wang Baole turned around and gave the temple a deep look. Then, he turned around and disappeared.

When he reappeared, he was already outside the last vestige at the bottom of the sea. The vestige was the small mountain with the stone door. Wang Baole narrowed his eyes slowly as he looked at the symbols on the stone door that had the meaning of sea suppression.

However, it was different from what he had expected. Perhaps it could be said that the confrontation with the stone sword outside the temple had caused some changes to the sea suppression mountain. Therefore, when Wang Baole appeared before the small mountain., the stone door on the mountain opened on its own!

As it opened, a figure walked out from within the mountain gate!

Wang Baole's pupils constricted. He saw clearly that the person who had walked out wasn't a real person. He looked like an elder dressed in a green robe, but in reality, he was a wooden puppet.

The puppet held two items in its hands. One was an ancient jade slip, and the other was an array disk. As Wang Baole was on guard, the puppet placed the two items in front of Wang Baole. Then, it turned around and returned to the mountain gate, with a wave of its hand, the small mountain at the mountain gate instantly became transparent, allowing Wang Baole to see everything inside clearly.

The small mountain was a cave abode. Other than the stone tables and chairs, it was mostly empty. There was only an altar, but it was empty. From the decorations on the altar, it was clear that there had been some items previously, it had been worshipped.

Wang Baole narrowed his eyes. After a moment of silence, he lowered his head to look at the array disk that the puppet had sent over. The answer was self-evident. The array disk had been worshipped by the altar, and the reason why the puppet had been honest was to tell him that., there was no more teleportation array formation in the cave abode.

There was something strange about this. After the puppet had made the mountain gate transparent, it cupped its fists at Wang Baole and walked into the mountain gate. The mountain slowly materialized.

Wang Baole stared at all of this. He was silent for a long time. He raised his right hand and grabbed. Immediately, the jade slip and the array disk landed in his hand. He first swept the array disk, and instantly, hundreds of light spots appeared in his mind. These light spots covered the entire earth, every spot was a teleportation array formation.

However, most of the light spots were dim now, as if they had lost their use. The array disk seemed to be the core that controlled the array formations.

He gave this to me? Wang baole frowned and looked at the jade slip again. The moment he scanned it with his divine perception, a historical record appeared in his mind!

Chapter 1000 fusion of divine eyes!

This history was not complicated. It was just that a few years ago, there was spiritual energy on Earth. In this cultivation environment, there would naturally be cultivators.

However, as time passed, due to some unspeakable accidents, the spiritual energy on earth dried up. Therefore, at that time, the cultivators on earth gathered together. With a force called the Moon Star sect as the leader, they relied on the resources of that time.., to carry out a great migration.

The place they went to was no longer the left path holy region. Instead, they went to the side path holy region. After countless years of evolution, they had completely taken root in the side path holy region, and had grown to become a towering tree.

However... The Moon Star sect of the side path holy region paid attention to the direct bloodline. Therefore, regardless of whether they had left behind a teleportation array before the migration, or whether they had returned to Earth after the migration, they had left behind some backup plans.

Their main goal wasn't to plot against the federation, but to absorb the bloodline and integrate it into the Moon Star sect. At the very least... from the jade slip, that was what it looked like.

Wang Baole didn't know if there were any other secrets. However, after reading the jade slip, his eyes narrowed.

Maybe I'm a villain, but I still feel that the matter of the Moon Star sect leaving behind a teleportation array formation on earth and absorbing the bloodline... is definitely not as simple as it looks

Wang Baole's eyes sparkled. He couldn't explain the reason. All of this was just his guess. As for what would happen in the end, Wang Baole believed that he would find out one day.

Regardless, from the looks of it, the Moon Star sect didn't have any ill intentions towards the federation.

We'll talk about the future in the future. Wang Baole shook his head. He stared deeply at the small mountain at the bottom of the sea that had been shut down by the cave abode. He turned around and left the sea. When he reappeared, he was already outside the Sun in the Solar System.

He sat down cross-legged and looked into the distance. At the same time, he began making final preparations for the God's eye civilization's teleportation and fusion. Time passed slowly, and the day of the God's eye civilization's fusion drew nearer and nearer.

Under the leadership of Zhao Yameng's mother, the new president of the Federation, all the planets were ready. They had prepared themselves for the arrival of a new era. The citizens also learned of the news during this period of time, although there was some panic, it was still stable on the whole.

Panic was inevitable. After all, the arrival of an extraterrestrial civilization, even if it was a fusion, would still have an impact on the federation. This unknown would naturally be used by people with ulterior motives to incite them.

However, the current federation was different from before. These people with ulterior motives didn't dare to act rashly. Therefore, even though there were some minor disturbances, they were quickly suppressed by the upper echelons of the federation.

A few days later... Wang Baole's clone, who was sitting cross-legged on the Solar System's star, and his original body, who was meditating in the divine eye civilization's star, opened their eyes at the same time. The teleportation... had officially begun!

A loud boom rang out within the divine eye civilization's area and from the star. It swept across the entire divine eye civilization like a storm, causing the eight planets in the divine eye civilization to tremble, it also made all the people of the god eye civilization on the eight planets feel uneasy.

However, this anxiety did not last long. As all areas of the god eye civilization were instantly covered by the light from the star, and as the entire civilization turned into a sea of light, everyone's mind went blank.

Only the sky-palm Elder, who was the only planet among the local cultivators of the god eye civilization, could barely see the changes in the starry sky. In his eyes, he saw the so-called sea of light, which was a teleportation ripple.

With the divine eye civilization's star as the core, the Sea of light formed from the glow of teleportation spread out. It covered everything and merged with everything within the divine eye civilization.

Civilization teleportation... the sky-palm Elder's heart trembled violently. He had lived for so long, but this was the first time he had witnessed the vastness of civilization teleportation with his own eyes. He couldn't help but look at the woman who was sitting cross-legged not far away from him, she was sitting cross-legged and meditating. She had no expression on her face.

The Heaven Palm Elder had been fearful of Zhao Yameng during this period of time. This fear had something to do with the fact that he was under Wang Baole's control and couldn't fight back for the rest of his life, however, it also had something to do with the series of methods Zhao Yameng had used in the God's eye civilization.

In a short period of time, Zhao Yameng had completely integrated the god's eye civilization. Not only had she pushed Wang Baole to ascend the throne and become the emperor of the God's eye civilization, she had also used ruthless methods to suppress all those who disagreed with her. During the bloody massacres..., she had terrified the cultivators of the God's eye civilization.

If that was all there was to it, the sky-palm Elder wouldn't be afraid. Zhao Yameng had even set up a set of laws for the God's eye civilization. Theoretically, the law couldn't escape the law of the jungle, but overall..., for ordinary cultivators, they could still protect their rights and lives. If they handled it well, it wasn't impossible to suppress the strong with the weak!

This was like a storm to the god eye civilization. After all, before this, the god eye civilization had collapsed and lived by plundering. The imperial family didn't have any means to interfere, causing the entire god eye civilization to be in chaos, it also made countless people suffer unspeakably.

Therefore, when this law was issued, it immediately gained the favor of a large number of low-level cultivators, making them willingly tie this legal rope to their bodies. Those experts had no choice but to agree, and apart from that..., Zhao Yameng also announced the reward system, so that all efforts would be rewarded and appease the hearts of the people.

All of this was just a part of Zhao Yameng's methods. However, just this alone made the sky-holding patriarch realize that if this continued, then it wouldn't take many generations for the God's eye civilization to be suppressed, everything could operate on its own.

And all of this would be dependent on the federation's system. The Federation would become the law enforcer, and the Public Trust.

The sky-holding patriarch wasn't sure if this was a good thing or a bad thing, so he could only sigh and watch as the teleportation light sea covered the entire civilization's starry sky. Then... The teleportation began, and in the blink of an eye, everything around them began to blur!

It was as if the divine eye civilization had been wiped out by an invisible hand in the space where it had originally been. In that instant, it disappeared without a trace. The Stars, planets, all living things, and all living things all disappeared at that moment.

The area that was left behind was an empty space that formed a vortex black hole. It drew the space that was even further away from it over and made up for it. Only then did it slowly calm down. However, the ripples that were stirred up in this area didn't dissipate for a long time.

In the next instant, within the Solar System, as the divine eye civilization teleported and as Wang Baole's clone opened his eyes, he raised both his hands abruptly and waved them to the sides. Instantly, the entire solar system rumbled, the starry sky trembled, and the hearts of all living beings surged, the divine eye civilization... had appeared within the Solar System!

The divine eye civilization that had just appeared wasn't corporeal. It was in a semi-transparent state. Eight planets were scattered in the starry sky of the Solar System, surrounding the sun together with the eight planets. This scene shocked everyone who saw it.

At the same time, when the illusory shadow of the God Eye Civilization teleported over, its star was at the position of the Federation's sun.

The two sides overlapped in an instant. At the moment of overlap, a monstrous sound came from within the sun, as if it had swallowed a huge tonic pill. The Sea of fire within the federation's sun churned intensely, the light reached its peak in an instant, and its size also rose rapidly at this moment!

Booming sounds continued to reverberate. As the size of the sun expanded and the radiance within expanded, the starry sky where the Solar System civilization was located seemed to be stretched and expanded outwards!

The area was larger, and the star field was wider!

Finally, after it had expanded by more than twice its original size, the stars that had appeared in the new Solar System had finally completed their fusion. Their size had also increased by more than twice its original size, and the ancient bronze sword had originally been able to pierce through the sun, but now, as the two stars fused, it was forcefully pushed out, allowing the sun to finally return to its original state!

As for the ancient bronze sword, it was like a battleship, being pulled by the stars. It began to revolve around it, just like the stars. At the same time... at the periphery, there were a total of 16 planets that were spread out around the stars, the eight planets from the God's eye civilization, which had been illusory before, began to rapidly materialize!

The transformation lasted for three days. Under the control of Wang Baole's true form and his clone, the cultivators from the God's eye civilization only felt a little weak amidst their anxiety, as if something was about to happen, it was a strange feeling that had changed ever since.

However, for all the life forms born in the federation civilization, what welcomed them was the explosion of light from the stars. It was a blessing for all life... a gift from the level of life!
