

Y. Goddess 166

Chapter 166 Girls Priority

The two types of tools that I had taken out from my storage magic were a beauty lotion kit that Mio, Mom, and my twin step-sister often used.

I used it a little according to my needs and based on the recommendations given by Mio. For some reason that was hard to understand, Mio seemed to be too good at giving advice and the right composition to take care of my body's beauty in detail.

This beauty care item came from one of the recommendations given by my Goddess. A recommendation that made me think twice before using it because it sounded very suspicious to use when it came into contact with my skin.

"I hope you can read the instructions for use," I said while showing a note on the instructions for use of this beauty lotion.

Since these were items from another world and were sold at the Yurification Shop, I made a little request to my Goddess to give me the instructions for use.

So far, I have only often used lip balm and skin moisturizer before going to hot places that get hot sunlight. It makes my dark skin more moist and shiny as if it is well cared for.

"T-Thank you, Lily-sama. But do I deserve something like this?" Noel replied, receiving a note of instructions for using the beauty lotion that was intended as a gift for herself and the other Black Maid members.

"Yes, just think of this as your overtime pay for not having time to do body care. In addition, this is a beauty lotion that I often use together with the other Marquess Rommel family. For Father, it requires a little violence and strong coercion from Mother to use the lotion that makes the wrinkles on his face disappear and look youthful," while saying that, I was slightly reminded of an incident in the past where Father had to accept coercion from Mother to apply facial care lotion so that the wrinkles on his forehead disappeared.

"I am very sure that this additional salary will add to the beauty of your bodies being well-maintained," I continued while smiling at Noel.

Noel received the note of use for the beauty lotion that looked like various things.

Her eyes were busy reading the instructions before her mouth smiled widely.

"This is a decent additional salary for us as Black Maids who work non-stop in carrying out the orders of the Head of the Marquess Rommel Family," Noel looked very happy after she received her additional salary in the form of beauty equipment filled with various kinds of lotions.

Meanwhile, Hana and Sia who had been curious about the beauty lotion that I gave to Noel as an additional salary started to touch my back as if they wanted to say something.

"Hmm? What's wrong?" I replied after feeling the touch of their hands on my back.

"My cute little sister, I think I'm a little interested in that beauty lotion. Do you have a beauty lotion that is suitable for use by a holy dragon girl like me?" Sia asked with her gaze fixed on one of the beauty lotions that contained a bright yellow liquid.

"Lily, can I buy the beauty lotion that you often use? It seems like I have to use beauty lotion to take care of myself who is in a growth period like this. You know that women at least need a lot of time to take care of themselves before doing their activities?" said Hana who was also interested in one of the glass bottle lotions containing a bright blue liquid.

The two girls who were curious about the beauty lotion made me receive an attack of blinking eyes that wanted to get what was in front of their eyes.

Zeeee ...

Jiiiee ...

The gazes of Hana and Sia who kept staring at my face made me feel guilty after showing off beauty products like this as an additional salary for Noel alone.

Swiirrll ...

I returned to focusing my magic energy to open my self-storage magic spell. Various kinds of beauty lotions that had been used came out of my self-storage magic spell. Some of these beauty lotions were stored in a sparkling glass bottle container that Mio often used to care for my body after finishing bathing with her.

"For starters, we should use a beauty lotion that can moisturize the skin to keep it soft in the winter. I think this is a good thing to do after you see Noel getting extra pay for her never-ending little job," I said while opening the lid of the glass bottle containing the winter skin moisturizer.

With the cold winter morning air, I could feel that this was not the right time to do self-care outdoors. However, I had to do this to give a small demonstration of the instructions for using this beauty lotion.

Pwwiippp...

Pooosshh...

With the lotion slowly coming out of the glass bottle, I felt the cold sensation of the beauty lotion that was tasked with moisturizing the skin in the winter.

I think this is more suitable for doing indoor activities but for the sake of demonstration activities, I had to do it as an example of use.

"This is one of the lotions that can only be used for indoor activities. If you use it outdoors like that, then you will feel a cold sensation like this."

Paamm...

Paamm...

With my little words followed by a surprise attack that attached the cold beauty lotion to the skin of Hana's and Sia's arms, I could see their facial expressions suddenly change and their cute little moans.

"Nyaaahh!!" Hana moaned her body shaking slightly.

"Kyaaa!!" Sia moaned while moving her dragon tail scales up and down until they slapped the snow-filled ground.

My little prank seemed to make Hana and Sia feel a sudden cold sensation from my palms that was filled with beauty lotion liquid.

Caress...

Caress...

With a little feeling of guilt that was satisfied after teasing them, I immediately rubbed the beauty lotion liquid so that it could be absorbed into the skin of their arms.

The rubs I gave made Hana and Sia experience a cold sensation that massaged their arms until they closed their eyes enjoying every rub I gave.

Both of my hands were busy rubbing their arms felt a cold sensation that made a reason why this beauty lotion was not suitable for outdoor activities.

"Yes, as I said before. This winter beauty lotion is not suitable for outdoor activities," I said while rubbing the beauty lotion until it was absorbed into the skin of their arms.

"It feels a little cold and moist on the skin, right?" I observed Hana and Sia who had felt the beauty lotion liquid that had been absorbed into the skin of their arms.

The sensation of their skin that had received a gentle caress from the beauty lotion and the touch of my soft hands, made their skin feel tighter and healthier.

"Yes, this is the kind of healthy skin that young girls like us should have."

Ah, it seems I am too good at misleading someone into entering my lifestyle standards that have started to depend on otherworldly goods sold at the Yurification Shop.

Without feeling guilty about the poison that I am spreading, I give the girls around me hope to take care of themselves using beauty lotion that must be purchased directly from me.

"For now, keep in mind that this is a beauty lotion that I am developing to meet the needs of my skin so that it is well maintained. It would be a bit embarrassing if the only ones using this beauty lotion were me, Mio, Mom, Dad, and my twin step-sister."

"I hope that if there is a problem with your skin, you will report it to me immediately, Noel."

"I will try my best to re-mix the beauty lotion that can be adjusted to your skin sensitivity."

I gave some veiled warnings to Noel, Hana, and Sia that this was a beauty lotion made from my concoction.

I often concoct several potions and Alchemist potions in my spare time. My habits that Noel had known, made her let out a small voice that was praising me with her sparkling eyes looking at me.

I could assume that this was a safe action to hide the Yurification Shop.

Noel started to take several glass bottles containing beauty lotion. Her eyes were busy matching the color of the liquid with the instructions for use that I had given her.

From the look in her eyes that quickly read the label on the glass bottle and the small movement of her lips as she read, I could hear Noel who was studying this set of beauty lotions as her additional salary.

"This is truly an interesting invention from Lily-sama."

"Just by applying this to the skin, it can make it feel moist and comfortable with all-day durability."

"Then with a shampoo that can treat tangled hair and hair loss, this allows me to get healthy hair after disguised as someone else several times."

"Hmm... this is suitable as an additional salary for the Black Maid who always works hard non-stop all day long."

"Aahh... this is a salary increase that fits all the problems that the Black Maid is experiencing. I must immediately give them the additional salary that Lily-sama has given me."

"I can't wait for the day when Lily-sama will take the pinnacle of power of the Marquess Rommel family as a Matriarch."

In her little happiness, she has received an additional salary from me. It seems like I heard some small words and her little murmurs that made my body shiver a little when I heard them. It was a feeling of gratitude for the additional salary given by me along with a small hope from Noel who wanted me to immediately take the pinnacle of power of the Marquess Rommel family by becoming a Matriarch.

I think it's too fast and still too early for me.

Can't I just relax for a moment and enjoy my teenage girlhood filled with people who care and know me well like this?

While I was enjoying the responses given by Noel, Hana, and Sia about the beauty lotion that I often use with the Marquess Rommel family. I was surprised by Hana who pulled my arm again to whisper something.

"Lily, did Princess Anastasia buy this beauty lotion equipment from you too?" whispered Hana while tugging on my arm.

Unlike Hana who gave a whisper filled with curiosity. I saw Sia who looked amazed by the moisturizing effect given by my beauty lotion that touched the skin of her arm.

The cold sensation of the winter air seemed to have made Sia enjoy every touch of the air that hit her arm which was moist after being smeared with beauty lotion.

"No, I only told this to Noel, Sia, and you."

"Princess Anastasia has no idea at all that I made this kind of beauty lotion in my free time when I was bored."

When I answered Hana's question, it seemed like I had made a small mistake until I saw Hana's smile which seemed filled with victory.

"It seems like I found the ultimate weapon to tease Princess Anastasia," Hana muttered softly with her mysterious smile.

It seemed like I had created a complicated conflict between Princess Anastasia and Hana. I had no idea why they often fought and tease like this.

However, it was none of my business because they had become responsible teenage girls.
