Chapter 193 Morning Bath With Mio

In the bathroom that Mio had prepared, I found a large pool filled with warm water with hot steam mixed with the fragrant aroma of flowers.

The mixture used in the pool water would make my skin smell fragrant along with the aroma of these flowers.

"You prepared a luxurious bath like this?"

"Is there something special that will happen later?"

As if seeing my future self who would be busy again like the Golden King Bear Hunting Operation and the Marquess Rommel Mansion Cleanup Operation, I felt that this luxurious hot water pool bath was intended for me to laze around for a while before getting busy doing heavy activities again.

My two questions that managed to peek into the future only got Mio's smile who laughed awkwardly.

"I think Lily-sama knows the situation better than I do," Mio let out an awkward smile along with a wooden basket containing my bathing equipment.

I stood up straight and prepared myself to be stripped naked by Mio before cleaning myself and soaking in the warm water that Mio had prepared.

Mio with her gentle hand movements immediately untied the ribbon that was tightly attached to my clothes and slowly lowered the clothes I was wearing. Along with the movement of her hands that looked at my half-naked body, I could feel that Mio's hands were shaking and nervous.

I think Mio is still not used to seeing my body which has grown rapidly.

I can't blame Mio because the size of my breasts is slightly larger compared to the size of her breasts which have no chance of growing anymore.

Whether this is a feeling of arrogance or standing at the highest peak of the ideal body shape, I feel satisfied with the optimal growth of my body like this.

Not too big and not too small so that it is suitable for use in making fast attack movements.

If size of my breasts were any bigger than this size, it would make my fast attack movements a little messy, and looking for suitable clothes to accommodate a breast shock that runs here and there when making fast attack movements.

When my underwear came off and my body was completely naked, I let out a thin sigh after feeling the warm water vapor hitting my body.

The cold morning air will soon be replaced by hot water that will warm my body.

"Lily-sama, do you want to use the usual liquid soap or another liquid soap?" Mio asked while moving her hands to unbutton her maid uniform and reveal her body which was only wrapped in underwear.

Mio's hands swiftly tidied up the clothes I had worn along with her maid uniform before going deeper into the luxurious bathroom of the Marquess Rommel family.

Mio's hand movements looked fast and agile, in just a matter of seconds she had finished tidying up my clothes and her work uniform until she approached me who was already in the Marquess Rommel bathroom.

"I think it's better if you use the liquid soap we usually use, Mio."

"I understand, Lily-sama."

Mio with elegant hand movements took several glass bottles that came from my purchase of the Yurification Shop. A glass bottle containing an alchemist potion containing liquid soap. The liquid soap sold at the Yurification Shop has a high quality that makes my skin look bright lately.

My skin color was a little darker because I often did activities exploring the forest during family vacations, now it has changed to be a little brighter after using liquid soap that has the effect of restoring skin health.

I immediately sat on one of the wooden chairs in the bathroom and waited for the first splash from Mio.

Pyyuurrr ...

The steam and warm water wet my body. The sensation of taking a warm bath in the morning made me accidentally let out a sigh of pleasure from the warmth given by the warm water.

"Ahhh ... this feels comfortable for my body."

"It would be more enjoyable if I got a gentle massage given by Mio."

With my little words that expected something from Mio, I gave her a little code and replied with just a smile.

"Lily-sama, I will do it when Lily-sama soaks in the warm water pool."

The answer that made me happy was returned with a smile that I gave to Mio. My glance at her body that was not wearing anything gave me a small opportunity to tease her body that was naked like this.

"Mio, is it just me or have your breasts grown bigger than before?" I asked while glancing at Mio who suddenly stopped her hand movement that was wetting my back with warm water from the ladle she was holding in her hand.

Mio who heard my question was filled with a blush that began to fill her face.

"Lily-sama, you know who made my breasts grow every night?" Mio grumbled a little who started to stare at my eyes with her shy face.

"Is it my fault that I squeezed them every night, when we sleep together?" I replied by giving Mio a naughty little tease.

"Lily-sama knows that and still questions it?" with a pouting tone and covering her two breasts that did seem to grow bigger, Mio gave a look that seemed like she wanted to give a touch to my body.

"I'd be happy if it ended up getting bigger, it would be a comfortable pillow to sleep on at night," I don't know what kind of naughty tease have entered my body, I feel happy when I tease Mio with perverted jokes like this.

"Lily-sama, you don't plan to treat my breasts as pillow when sleeping together, right?" Mio's face became even more sullen and both hands that were covering her breasts seemed to move away from me.

"Maybe..." With that little tease that sounded perverted, I gave a small laugh before stopping after seeing Mio who moved her breasts away from my reach.

"Lily-sama, you look perverted and naughty now. You'll have a hard time doing perverted things to other girls who have fallen in love with Lily-sama, you know!" with a grumbling expression on her face, Mio gave her opinion that seemed to not want to see me doing perverted acts carelessly to other girls.

"For now, I just want to do this perverted thing to my Exclusive Maid," along with my answer, I began to pay attention to Mio's entire body which was slowly being devoured by blushing.

Her hand which was still holding the ladle of warm water poured all its contents onto my back and gave a cute little hit.

"L-Lily-sama... baka!!" Mio grumbled in a small voice that I didn't want to hear.

Mio accelerated the pouring on my body which currently needed a touch of liquid soap to scrub the dirt that stuck to my skin. Her attitude which was still blushing didn't stop her from cleaning my naked body. With both hands covered in liquid soap, Mio began to rub my body with a gentle touch and rubbed some of the dirt that had begun to accumulate in the folds of my body.

Srrookkk...

Srrrookk...

With gentle movements that did not irritate rough friction that left a red color, Mio tried to give her best service to provide a high-quality bath service.

"Does it hurt, Lily-sama?" asked Mio with her hand movements that were now trying to clean the front of my naked body.

Mio's hand movements that were cleaning my back now shifted to the front of my naked body.

"This feels good and comfortable," I replied while enjoying the soft touch given by Mio.

The soft touch that was cleaning my body was filled with some small mischief from Mio who deliberately started teasing my two breasts that were within reach of her touch.

Mio's body that slowly attached to my back gave me an embarrassing sensation to feel. Her large breasts had attached to my back and gave a tempting, supple sensation. It made me want to feel her breasts rising and falling on my back like giving a soft scratch to my back.

The sensation of the soft touch of Mio's hands cleaning my body with liquid soap almost made me drown in a sense of pleasure that made my mouth almost moan.

Luckily I could hold it in longer until the soft touch of Mio's hands had finished cleaning the front of my naked body.

"Lily-sama, I will rinse your body with warm water to remove the soap foams."

"Unn!!" with this small answer, my clean naked body will get the final touch before soaking in the warm water pool.

"Do I need to clean your hair with dandruff shampoo too?" asked Mio while pouring warm water on my body and rinsing off the soap foams that stuck to my body.

"Unnn!!" without being able to say the answer sentence properly, I felt that this morning's bath would take quite a long time with all the treatments given by Mio.

I wanted to tease her further but with a situation like this, it felt impossible to tease Mio further.

Mio used all her abilities to clean my hair by shampooing it. Some of the soap foam from the shampoo that filled my long hair almost entered my eyelids which felt sore with my closed eyes.

With her agility, Mio was able to avoid an unwanted incident when my eyes were dazzled with shampoo foam that almost entered my eyelids.

This morning shower that got Mio's direct touch was adding to my bad feeling about the busy day that would happen in a few minutes.

With this complicated morning shower treatment, I really felt a peace that would come along with the storm that had been peeking from a distance.

After what Mio needed to do was finished, I finally soaked in warm water with my body feeling tired from sitting and feeling the bath service given by Mio.

By soaking my naked body in a warm pool filled with the fragrant aroma of flowers, I could feel that the tiredness in my body was also disappearing.

"Ahhh... this feels good after working hard all day," I said jokingly and let out a small sigh as my whole body was submerged in the pleasure of the warm water pool.

"Lily-sama, it's still morning and you haven't done your activities as a noblewoman of the Marquess Rommel family," said Mio who also soaked in the warm water pool to give me a massage.

"I know that, Mio. I was just joking a little before doing today's busy activities."

It seemed that Mio looked very serious today and that made my body stiff after knowing that today would be busy.

I don't know what kind of busyness I will experience, but at least let myself enjoy this relaxing free time.

Twittcchh...

Twwuuttcchh...

Along with the small massage given by Mio, I felt every strong thrust from her fingers that were massaging my shoulders. The fatigue that would occur with heavy activities should be able to be reduced with a gentle massage like this.

"So, what will my father do for today? Lock himself in my room to study that important document again?"

"I guess so."

With that answer, it seemed like I would be busy all day too.
