

Y. Goddess 231

Chapter 231 - Casting Curse With Lovely Kiss

The curse magic chant given by Zoe has made this fast-flowing river boil.

Like water being heated in a pot, I can see Zoe's large overflow of magic energy taking most of my magic energy.

The kiss given by Zoe has made me feel the sensual passion given by Zoe.

Zoe's butterfly-wing aura makes her look like an evil spirit cursing this large river flow.

By giving a curse to the river flow like this, it seems like I can control people who have come into contact with the river water, such as drinking it or using it to bathe.

In other cases such as using the river flow to irrigate agriculture, it will certainly make the curse flowing in the river flow embedded in the plants that are growing using this river flow.

I can feel my magic energy slowly decreasing faster than before. The magic aura from Zoe's butterfly wings also began to shine brightly as if getting a strong magic surge along with the kiss given by her.

Chuupp...

Sluurrppp...

Without saying a word, Zoe and I kissed while creating a permanent magic circle that would be sunk at the bottom of this fast-flowing river.

Swriill...

Blluurrpp...

The giant magic circle began to sink into the branching river. In addition to casting a curse spell, I caught a glimpse of a magic circle that would make some land grow fertile when receiving water from this river, and the water tasted fresh to drink.

I don't know what Zoe is planning, but I can see some things that will happen in the future with such high-quality river water.

When plants grow abundantly with the river water, it will make farmers depend on the river water to water their crops.

By making the river water taste fresh to drink or bathe, it will make some people use the river as their daily needs without knowing that the river they are using has been mixed with the curse spell cast by Zoe.

Creating a need and dependence on the river that has been improved in quality.

Is that what you planned, Zoe?

Chuupp...

Sluurrpp...

Zoe's kisses and tongue movements continued to lock my lips within close range of her kissing lips.

I didn't want to enjoy the kiss that was starting to get too much attention from Mio, Evelyn, Momo, Aiko, Sirius, and several other noble girls who were starting to blush.

Zoe's actions made my breath hitch as if I was about to lose my breath.

Chuupp...

Sluurrpp...

Zoe's curse spell almost ended with my magic energy starting to stop being sucked by Zoe.

"Haaahh... Master Lily," Zoe looked like she was taking a deep breath after the kiss she gave ended.

The remnants of her butterfly wing aura also began to fade and provided a beautiful view with the background of the river that had been cursed directly by Zoe.

Zoe began to blush with what she had done and began to bury her face in my breasts. The hug from the front given by Zoe was used for another purpose after she felt embarrassed by her naughty and perverted actions.

"I-I didn't know that kissing my own Master almost made me fall into greed to suck out my own Master's magic energy," Zoe muttered in the cleavage of my breasts that were supporting her face.

Squuiisshh...

I, who received Zoe's hug from the front and enjoyed every kiss given by Zoe on my cleavage could only give a gentle caress to her hair.

Zoe looked like a child who had just done something naughty and was afraid of being punished for the naughty actions she had done.

Caress...

The gentle caress that I gave to Zoe's hair began to go down her back which was currently only wearing thin clothes like a nightgown or lingerie that I often wear when sleeping at night.

I felt that Zoe's clothes were much thinner until her light brown skin began to show through her thin, semi-transparent clothes.

"Do we need to kiss every morning to get you used to kissing, Zoe?" I said while stroking her sweaty back.

"..." I didn't get a direct answer from Zoe but felt her head move to the right and left as if rejecting it.

Casting such a large magic was not easy, especially with the complexity that had to be suppressed so that the magic circle would not be destroyed.

I understood the burden that Zoe was carrying when such a large magic circle would mess up her mind and Zoe deliberately diverted her mind through a kiss.

The absorption of my magic energy was also done so that some of her magic would not be completely absorbed by the giant magic circle that drained a lot of magic energy like that.

I could feel the soft embrace given by Zoe getting heavier and making her head start to lean on my large breasts completely.

Zoe seemed to enjoy my breasts too much which became a place for her head to rest after doing such an extraordinary job.

Unable to move her body that was starting to lose magic energy, I felt the remains of Zoe's reserve magic being quickly absorbed as if heading somewhere.

Sriinnng...

My eyes which were sensitive to magic energy began to see Zoe's magic core connection tied to the magic circle that was starting to be submerged in the fast-flowing river.

"Ah, I understand now," I replied, understanding the situation that was happening to Zoe.

"You took some of my magic to form that giant magic circle but the activation of the magic came from your magic core directly, huh?" I said softly to Zoe who was starting to feel tired after the magic energy in her magic core was almost gone.

"It seems like I can't fool my own Master, hehe," Zoe replied while lifting her face from the cleavage of my breasts.

"It's obvious, Zoe. As your Master, I know what you're doing. Do you want to get a supply of magic from me through another kiss?" I said while giving another option that would make it easier for Zoe to activate the curse that had been embedded in the bottom of this fast-flowing river.

"Um, isn't that troublesome for you, Master Lily?" Zoe seemed reluctant with me after the kiss she gave me.

"I don't feel bothered by you, isn't it a Master's responsibility to help the spirit that has made a contract with me?" I replied while gently pulling Zoe's forehead up until it was level with my lips.

Our hug from the front made our breasts touch each other. But this time, I felt something unusual from Zoe. In addition to our breasts touching each other, I also felt something hardening between our breasts.

Something at the tip of our breasts had hardened and began to provide friction that made us kiss with sensual moans.

Chupp...

The lip kiss between me and Zoe happened again until my magic energy was absorbed again to activate the magic spell that Zoe had planted on the fast-flowing river.

Sluurrppp...

The kiss I gave also played with our tongues that touched each other. Zoe's warm tongue made our saliva touch each other until it flowed out of our mouths. Between the licking of the tongues that touched each other like that, I felt Zoe's warm back and spread the aura of butterfly wings like before.

Swiiiiirrrlll...

Kllaapp...

Kllaapp...

"Uuuhh ... Mmph!" I heard the sound of a moan uttered by Zoe along with the flow of her magic that began to seep into the bottom of the fast-flowing river.

The hug given by Zoe also got tighter until my body felt her warm and sexy body pressing my breasts which started to feel ticklish with the tips of my breasts rubbing against the tips of Zoe's breasts.

"Mppsss... Ahhn..." The moans given by Zoe became more audible with the sucking of her tongue and the sucking of her magical energy that seemed to want to squeeze my magical core dry until it ran out of magical energy.

Chuupp...

Sluurrpp...

Thanks to Zoe's actions and her obscene kisses, I could feel some envious gazes and embarrassed gazes after seeing my actions kissing passionately like this.

After the activation of the magic circle that was embedded in the bottom of the fast-flowing river was complete, I released Zoe's lips and looked at each other.

The kiss marks from our lips formed thin saliva between our lips and it made me blush and avert my gaze to the side.

"Ahem! Is it finished, Lily-sama?" said Mio suddenly in a tone that sounded jealous to Zoe.

"Lily-sama... You like to play with the feelings of women who love you by giving passionate kisses to other girls, huh?" Evelyn asked with a blank face after seeing me kissing Zoe.

"I-I didn't know that my Monarch relationship had gone beyond human relationships and was now in a romantic relationship with a spirit?" Momo muttered softly as she hovered beside Mio.

"I-I didn't think that such a romantic relationship option could be done by a spirit," Aiko grumbled as she seemed to be thinking about something with her face covered by the shadow of her military cap.

"T-This is something that the entire stealth slime herd must immediately discuss to have a proper and closer relationship with the Supreme Commander," this time I could hear Sirius mumbling clearly.

For some reason, I could feel that the women who were bound by the Ritual Linked with me or other special relationships were giving off their jealousy towards me.

"Um, is this the end of the magic curse you planted at the bottom of this rushing river, Zoe?" I asked to make this situation more normal rather than arguing with uncontrollable jealousy.

"Y-Yes, the curse magic has been cast and the activation of the magic is starting to be in effect at this time. It will take a few days to spread to the other rivers," Zoe replied with her face blushing and starting to let go of her hug.

Zoe then put on a thin veil that started to cover her face which looked blush pink. Thanks to her light brown skin, I could see her blushing looks cute.

"So cute, I want to kiss your lips again," I muttered softly while giving Zoe a whisper.

Blusshh...

Hearing my whisper that seemed lewd and teased her like that, Zoe then pulled her thin veil to cover her face even more from the embarrassment that was starting to spread to her face.

"Huuu... Master Lily..." Zoe grumbled softly seemed unable to hold it in anymore and started to return to her butterfly spirit form and slowly hiding behind my back hair.

Swiipp...

Swiipp...

With her body in the form of butterfly spirit flying to hide behind my back hair, I could hear Zoe's little whispers that were a little naughty and seductive.

"My Master, I will kiss your lips every morning. So get used to receiving my kisses in the morning," Zoe whispered while flying to avoid the jealous gazes of the girls around me.

Holding back the jealous gazes given by them, I began to take a deep breath to try to stay calm and continue my journey home after the business of giving this curse magic spell was done.
