Chapter 31 - Black Wolf Calamity

"Mmmphh~ Lily-sama.." Mio hugged my body tightly and let herself drown in the pleasure of my fox girl charm.

After I felt satisfied licking Mio's scent, Mio made a small protest and forced me to sit on her lap. The softness of my fox tail and ears seemed to tempt Mio's hands to stroke them...

Mio's right hand was now busy stroking my fox ears while Mio's left hand was immersed in the sea of my fox's thick tail.

What about me?

Emm, I just enjoyed every caress that Mio gave and smelled her body scent it felt calming.

"Are you satisfied, Mio?" I asked.

"How could I be satisfied with this softness!" Mio replied quickly.

"Heee~ So.. which is better? The fox girl or my normal body?" hearing my question, Mio stopped her hand movements for a moment and closed her eyes.

"Hmm.. that's a very difficult question, Lily-sama" Mio frowned and thought about a suitable answer to my question.

"Honestly, Lily-sama's fox girl looks cute, sweet, and adorable. However, Lily-sama's usual appearance looks very charming, firm, and graceful. Choosing one of the two sides is very difficult because Lily-sama is perfect from the start."

"Uh! How do I do this... this question is very difficult to answer. Uh... Uhm! Kuuuh~" Mio seemed to be thinking hard to answer my little question.

I could only let Mio sink into her thoughts and enjoy the free time left after the black wolf massacre.

From a distance, I could see Ciel and Sia working hard to perform purification magic with a fairly wide range. The green grass I was sitting on now was the result of their hard work of purification magic. The barren land that felt rough and sharp rocks had turned into a plain covered with soft grass that felt comfortable to sit on.

This made me a little sleepy.

Our little massacre lasted from morning to noon and at times like this, I usually took a nap in my room.

Um, taking a nap is my daily activity. It was because Mio always forced me to take a nap for my growth and to maintain the quality of my sleep. Besides, my body naturally feels tired and sleepy during the day. Without being forced, I would take a nap because I was sleepy.

"Mioo.." I called Mio and stood up from her lap.

"Eeerrngg!!" I did a little stretch and straightened my fox tail then lay my head on Mio's thigh.

"Mio, can I take a nap on your thigh?" I said while holding back the drowsiness that began to attack my eyelids.

"Fufu~ it's time for a nap apparently," replied Mio while stroking my fox ears.

"Eng!" I nodded and tried to fall asleep on the softness of Mio's thigh.

"This... very.. comfortable.." I was slowly tempted by this comfort and slowly entered the gate of the dream world until my fine fur suddenly stood up feeling the danger approaching.

"Eng!!" I immediately got up from my sleeping position and took out my sword.

"Mio!!"

When I called Mio, my body felt a heavy aura and my breath became increasingly short.

"Kuh! What is this?" I felt something troublesome coming.

"Lily-sama! L-Look at that!" Mio's words sounded soft and her finger pointed at the black shadow covering the forest trees.

The black shadow was spread around the forest trees and two bright red eyes were seen watching my body from a distance. The aura around the black shadow felt heavy and hindered the purification magic that was currently active.

Could it be.. this is the main source of the problem that needs to be eliminated?

"Lily-sama.." Mio looked restless after feeling the intimidating aura emitted by the black shadow figure.

The black shadow figure got closer and showed its body in the form of a black wolf with large body size.

What is that?

The wolf figure looks adorable!

Kuh! It is too cute to be a source of disaster!

The black wolf figure moved closer to us.

Seeing my body's response that indicated that danger was approaching, I immediately held Mio's hand and whispered something in her ear.

"Nee.. Mio.."

"Can I keep that wolf as a pet?" I whispered while pointing at the black shadow in front of us.

"HAAAH?!" Hearing my small whisper, Mio was very surprised and showed a complicated expression that I had never seen before.

"Lily-sama.. That's a big wolf! We don't have enough space and food to keep it. Moreover... it's a wolf monster!" said Mio.

"Eeh~ but it's very cute isn't it?"

"Lily-sama.. H-How should I put it.. Um... Lily-sama's taste is unique apparently."

"Ehehe.." I laughed after hearing Mio's indirect compliment until a small, rather disturbing object entered my line of sight.

"Tch! It's a male wolf. Mio, change of plans! Let's kill this disgusting wolf!" I said in a cold tone.

For some reason, my body felt disgusted when I saw this bitter reality.

Why does a cute wolf like this have to be a male?

Aren't there any big black wolves that are female?

Ugh! The disgusting object hanging in front of my eyes made me want to slash it with my sword blade. A common object owned by males and visible because of its large size.

That's so disgusting!

Kuh! I have to clean my eyes after this.

"Hue? Hee?" Mio looked confused by my change of mind.

I immediately activated Sakura Dash and Sakura Vanish to shorten the distance between us. When our gazes met, the black wolf's red eyes were fixed on my body. Time slowed down again but the black wolf's movements felt fast. Sharp claws and dirty hand movements aimed at my body as if wanting to split my body into two parts.

Tang!!

Pang!!

I parried his claw attack and was thrown back by a strong gust of wind after receiving the black wolf's attack.

Baaam!!

The sound of a large explosion rang in my ears.

"W-Wuah.. I almost got hit by that heavy attack," I muttered softly.

The attack from the black wolf's claws created a large crack that destroyed the ground. If only I hadn't parried the attack, maybe I would have withstood the heavy attack with my body.

"Lily-sama!" Mio shouted and appeared next to me. Seeing her panicked expression, I immediately stroked Mio's face to calm Mio's worries.

"Lily-sama!! Is Lily-sama injured? I'll check it now!" Mio felt my entire body to make sure of my condition.

"I-I'm okay, Mio. A weak attack like that couldn't possibly hurt me," I replied.

"Besides, that wolf is very weak," I said to dispel Mio's worries.

Hearing my answer, Mio turned her gaze to the black wolf and then used Sakura Dash and Sakura Vanish to approach the black wolf.

From a distance, I could see the black wolf's reaction that moved quickly after Mio showed herself. Such a fast response and accurate attack made me realize something.

It seemed that the black wolf was able to smell our body odor and guess the direction of our attack based on our body odor.

The black wolf's attack looked slow and easy to avoid. However, the strength of its arms and its large body size were enough to destroy the ground it stepped on.

This was a bit troublesome but..

Mio was no match for the black wolf.

The black wolf's defeat was on the brink.

"Mio, come back-" when I wanted to order Mio to come back. A strange sight was in front of me. Mio with her small sword blocked the black wolf's claw attack and a crack in the ground that formed a small crater was visible between her legs.

"Um... M-Mio?"

Hearing my small call, Mio immediately used Sakura Dash and Sakura Vanish to stand beside me.

"Yes, Lily-sama.." Mio said after returning to my side.

Baaam!!

The heavy sound shattered the ground and spread thin dust that covered our vision.

"Its body is indeed big but after trying to hold back its power.. Uh! It's just a wolf that is still a child with a large body size. As Lily-sama said, the wolf is very weak," said Mio.

"Um! Somehow I feel a little sorry for that black wolf," I replied.

"Nee.. Lily-sama... Umm.. May I defeat that wolf? Etto.. our points are indeed far apart but I also want to get my share.

May I mutilate that black wolf?" Mio looked at me with a pleading gaze.

Our little match seemed to be won by me. Giving her a small portion of our match is not a big deal right?

"Sure.." I put my sword into the scabbard and rushed towards the shady trees for shelter.

My drowsiness attacked again.

"Hnnngg!!" I stretched a little and shouted towards Mio.

"Mioo! I'm going to take a nap in this tree!" I shouted.

Mio replied to my shout with her body gesture.

I yawned a little and leaned against the tree trunk while looking for the most comfortable spot to fall asleep.

From a distance, I could see Mio toying with the black wolf with small attacks. Mio's small attacks targeted the vital points of the black wolf's legs and made it difficult for him to stand up straight. The black blood that came out from between his legs looked like a spring that flowed out to form a lake filled with black blood clots.

When I wanted to close my eyes and fall asleep, I caught a glimpse of Mio laughing and smiling faintly as she witnessed the black wolf's final suffering.

So, Mio has such a unique side too?

Ugh, my eyelids were getting heavier and I fell into a deep sleep until the afternoon.
