Chapter 1401 Darkness Beneath the Lamp

"Uh..."

When Qing Zi arrived at the Spirit Stone Storage, he was so enraged by the sight that he nearly blacked out and fainted!

Because where the Spirit Stone Storage should have been, there was now a large pit. Not only were the spirit stones gone, but even the storage itself had been removed.

"This is simply despicable!"

The Early-stage Divine Realm strong individual from the Qing family was also stunned.

"Quick, don't let them move the other spirit stone storages too!"

After overcoming the shock, Qing Zi quickly regained composure and anxiously flew towards the other spirit stone storages.

However—

Every time, they arrived just a step too late. With the cooperation of the Bai Yan wolf, Ye Fan had moved all the spirit stone storages of varying sizes into his own virtual space, not even leaving them a closed-eyed Haozi.

"Damn bastard... Puff!"

Upon seeing the last spirit stone storage being stolen, Qing Zi could no longer endure such a blow. He roared angrily and spat a mouthful of blood, passing out.

"Ye Fan, our Qing family will never rest until we kill you!"

The strong individual from the Qing family in the Divine Realm shouted angrily at the sky, smashing a nearby boulder into powder with a slap.

However—

He dared not pursue, for now, Qing Zi was too enraged and injured. If they were to fall for Ye Fan's trick to lure them away and Ye Fan launched a counterattack, it would be troublesome.

For now, he could only prioritize Qing Zi's safety, letting Ye Fan and Bai Yan wolf escape.

In such circumstances, Ye Fan and Bai Yan wolf, carrying the looted spirit stones, successfully escaped.

...

After leaving the Divine Battle Relics, Ye Fan not only escaped the Qing family's pursuit once again but also raided their spirit stone mine hideout, plundering all the spirit stones, even moving the storage rooms where the spirit stones were kept...

This incident shook the entire Southern Domain!

The Qing family lost face yet again, with all cultivators learning that their spirit stone mine was completely raided by a little cultivator, even losing a Divine Realm strong individual and several clan disciples.

In no time, this event became a topic of conversation during meals among the people, and it was discussed in taverns and tea houses across various cities.

Ye Fan once again became renowned throughout the Southern Domain!

"This guy has guts, I like it!"

Gu Hao, the Ancient Saint, upon hearing this news, spat out his tea and burst into laughter.

The Ancient Sacred Land and the Qing family always had discord, with longstanding grudges, merely refraining from tearing faces due to the Emperor Clan Ling Family's influence.

Under these circumstances, Gu Hao was naturally delighted to learn that the Qing family had suffered a setback, even wanting to personally go and see for himself.

"This Ye Fan is quite interesting!"

The Tianxuan Saint, like a Banished Immortal, was shrouded in mysterious light.

The Tianxuan Holy Land and the Qing family's relationship was mediocre, not good or bad, just lukewarm, so the Tianxuan Saint focused more on Ye Fan.

Previously, when they were in the Thunder Venerable master's tomb, they already knew of each other, but only felt that Ye Fan had better luck than them. In terms of strength, they could easily kill Ye Fan with a slap.

However—

Such a small individual continually caused Qing Zi trouble, somewhat surprising him.

"This guy is getting more and more troublesome..."

This was the first thing Yaling said upon receiving the news. She couldn't believe Ye Fan once again embarrassed the Qing family.

It's known that every mine is the lifeblood of a clan, sect, or Holy Land, and has strong individuals guarding it. Yet, Ye Fan successfully plundered the Qing family's spirit stone storage and escaped, even angered Qing Zi to the point of vomiting blood. All this sounded like an unreal fantasy story.

But Yaling knew that anything unreasonable happening to Ye Fan was reasonable; he was a genius beyond common understanding.

Most discussions around this event came from ordinary loose cultivators and sect or clan cultivators who found Ye Fan's actions entirely incredible.

Meanwhile.

The entire Qing family was in uproar!

No one expected this to happen; they had been prosperous, relying on family strength, never though dared provoke them, yet this time even their spirit stone storage was looted.

This meant they wouldn't have cultivation resources distributed to clan members for a long time.

Because of this, everyone in the Qing family hated Ye Fan deeply, all volunteering to fight.

"Go invite Lou ManCang!"

The furious Qing Family Ancestor issued his first order.

An hour later, the Qing Family Ancestor met with the Ancestor of the Lou Family, Lou ManCang, and they quickly agreed, sending large numbers of strong individuals in the Southern Domain to search for Ye Fan's whereabouts, determined to capture him alive.

The Qing family dispatched over a hundred strong individuals, led by Qing Yu at the Lord Realm.

Qing Yu, Qing Zi's father, was one of the few strong individuals in the family.

To avenge his son, Qing Yu disregarded the notion of big bullying small, putting aside accepted rules.

The Lou Family was led personally by the Ancestor of the Lou Family, Lou ManCang, forming two massive armies to hunt Ye. Meanwhile, they doubled the reward, hoping other cultivators would join the hunt for Ye Fan.

In no time, the entire Southern Domain was in action, with strong individuals from the Six Continents hunting for Ye Fan's trace.

Of course, it's hard to say if they were motivated by the reward—since Ye Fan looted the Qing family's spirit stone storage, he must carry a substantial amount of spirit stones. If captured, they wouldn't need the reward at all.

At this time, someone targeted the Spirit Manor, thinking Ye Fan couldn't carry that many spirit stones, so he must deposit them in the Spirit Manor.

By keeping a close watch on the Spirit Manor, they might discover something.

However, finding Ye Fan was easier said than done. After leaving the spirit stone mine, he vanished without a trace, and no one knew where he was hiding.

While the Southern Domain powers searched for Ye Fan, he had hidden in the Qing family's cemetery.

Since leaving the spirit stone mine, Ye Fan knew the Qing family wouldn't let it go easily, and he could be found wherever he hid.

But there was one place they definitely wouldn't consider—their own clan cemetery.

The cemetery burying ancestors of the Qing family was absolutely a Forbidden Land, and Ye Fan believed no one would think he would hide there.

As the saying goes, "under the lamp, it is darkest"—that's how it is!

The most dangerous place is the safest, with the Qing and Lou families searching the whole Southern Domain for him, but couldn't guess he was in their own cemetery.

The Qing family had an elderly cultivator guarding the cemetery, but with poor eyesight, he was ineffective. However, the Qing family had a profound reputation, preventing anyone from causing trouble at their cemetery.

With the assistance of Bai Yan wolf, Ye Fan broke into one of the Qing family's ancestor's tombs and resided there temporarily.

Naturally, those burial items became spoils for him and Bai Yan wolf.

Ye Fan didn't treat Bai Yan wolf poorly, giving it three of the spirit stone storages while retaining the largest and smallest for himself.

Ye Fan's Emperor Weapon was no longer a secret to Bai Yan wolf, so he simply stopped hiding and brought Bai Yan into his virtual space.

"Awoo... This king is too excited, this is definitely a great harvest! So many spirit stones, enough for us to use for several years." Bai Yan wolf rushed into the virtual space, excited upon seeing the lined-up spirit stone storages.

However—

Before it even approached, it sensed a terrifying Curse Power isolated ahead, immediately halting its steps.

Fearful of Curse Power, Bai Yan wolf could resist it for a while, but was unwilling to provoke such eerie power.

Ye Fan removed the Curse Power-laden Demon Land and generously gave all three spirit stone storages to Bai Yan wolf for its cultivation.

Bai Yan wolf's unique physique allowed it to directly absorb Heaven and Earth Primordial Qi from spirit stones and convert it into its own Divine Power, while Ye Fan had to refine it.

In the following days, the Qing and Lou families deployed numerous strong individuals, seeking Ye Fan's trace worldwide while Ye Fan lived very comfortably, consuming Xuan Beast Meat, sipping little wine, living better than a banished immortal.

Not to mention, he also cultivated daily, refining a large number of spirit stones to consolidate and enhance his cultivation realm.

With ample spirit stones, Ye Fan had no bottleneck in cultivation. This raid on the Qing family's spirit stone mine yielded several spirit stones, some of very high quality.

After refining three storages of spirit stones, he finally reached a saturated state, and with more, he could charge into the Mid-stage Holy Embryo Realm.

"You pervert, how do you cultivate consuming so many spirit stones? How many spirit stones will it take to satisfy your consumption?"

Witnessing Ye Fan's cultivation scenes, even Bai Yan wolf, who once followed the Thunder Venerable master, was astonished!

Chapter 1402: Time to Run!

The Qing Family and the Lou Family have laid out a Heaven and Earth Net across the entire Qing Province, and even the entire Southern Domain, posting images of Ye Fan in various cities to find his whereabouts.

But in their wildest dreams, they wouldn't have thought that Ye Fan was hiding right under their noses, and was using the Spirit Stones stolen from their mining area to break through to the mid-stage Holy Embryo Realm.

If the Qing Family Ancestor knew all this, he would probably be so angry he'd spit blood.

Ye Fan not only hid in the Qing Family's Mausoleum, but also stole a tomb of the Qing Family's ancestors, digging up the Human Ancestor's grave, surely forming a deep hatred!

As the massive amount of Spirit Stones was refined, Ye Fan's acupoints lit up one by one, like stars twinkling in the sky.

In each lit acupoint, the originally ephemeral shadow fully solidified, becoming a Holy Embryo like the Dantian.

In inner vision, Ye Fan found that his body seemed like a universe, acupoints spread throughout like stars, with the Dantian as the brightest sun.

Stars fade and vanish, life force boundless.

When all three portions of Spirit Stones were refined, Ye Fan's whole body emitted dazzling light from one hundred and eighty acupoints, guided by Holy Power, connecting into a complete Circulation Map.

"Boom..."

A force of unfathomable momentum radiated from his body, sweeping through the entire Virtual Space like a hurricane.

Within Ye Fan's body, lightning flashed and thunder rolled, his vigorous vitality surged like the sea, crashing against the shore, yet did not escape his body, the Pure Yang True Qi and Holy Power becoming inseparable.

The phantom images in one hundred and eighty acupoints completely solidified, becoming small Holy Embryos, each with its own posture.

He broke through!

After consuming all three portions of Spirit Stones, Ye Fan successfully broke through to the mid-stage Holy Embryo Realm, with a significant increase in power.

"What kind of physique is this, so abnormal, merely breaking through a mid-stage Holy Embryo Realm, yet the Spirit Stones consumed are more than needed for an ordinary person to break through to the late-stage Divine Power Realm?"

The Bai Yan wolf murmured for a long time, finally concluding: "This kind of physique, deserves a thunder strike!"

Ye Fan didn't pay attention to Bai Yan wolf's muttering, but focused on consolidating his realm.

After breaking through the mid-stage Holy Embryo Realm, Ye Fan's overall strength had a qualitative leap, but he still couldn't understand why he had so many more Holy Embryos than others?

In his view, apart from the Dantian, the solid figures in the other one hundred and seventy-nine acupoints were all forms of Holy Embryos, just with different postures.

Finally, after researching with Elder Xuan for a long time, they unanimously believed it was the Nine Heavens Mystical Skill that created this scenario.

The Nine Heavens Mystical Skill charted a unique course, unlike any other Cultivation Technique, allowing every acupoint in the body to serve as a Dantian.

Thus, when condensing the Holy Embryo, apart from the Dantian, other acupoints could also condense a Holy Embryo.

Ye Fan chose Dantian to condense his Holy Embryo, while the images in other acupoints should be shadows of the Holy Embryo, also referred to as backups.

Hearing the word “backup” from Elder Xuan, Ye Fan felt strange, because in Ye Fan’s memory, “backup” wasn’t a good word.

Chapter 1403: Time to Run!

The Nine Heavens Profound Skill takes a unique path, unlike any other cultivation technique, any acupoint in the body can serve as a dantian.

Thus, when condensing the holy embryo, besides the dantian, it can also be condensed in various other acupoints.

Ye Fan chose the dantian to condense his holy embryo, and the other acupoints should be shadows of the holy embryo, or you could say backup embryos.

Every time Ye Fan heard the word “backup embryo” from Elder Xuan, he felt it sounded strange, because in Ye Fan’s memory, backup wasn’t a good term.

Whatever the case, having so many small holy embryos can only bring benefits, not harm, even though he couldn’t currently understand the power of these backup embryos.

However, having many holy embryos means that the consumption of spirit stones during cultivation also increases exponentially, which undoubtedly is a huge burden for someone like Ye Fan, who has no background.

This time, the main reason for his rapid breakthrough to the Mid-stage Holy Embryo Realm was robbing the Qing Family’s Spirit Stone Storage, and if it wasn’t for the large number of spirit stones stored in the Qing Family’s Spirit Stone Storage, it would have been almost impossible for him to break through.

These days, the Bai Yan wolf, with Ye Fan’s help, covered in soot, shrank its body and sneaked out at night to do mischief.

Ye Fan didn’t interfere, only sternly warned it that if discovered, it must not betray him.

During this time, the mystical beasts raised by the Qing Family were quite unlucky, encountering a Bai Yan wolf with a king’s bloodline, having almost no chance to resist.

Ye Fan specifically gave it a space spiritual artifact with over a hundred square meters of space, more than enough to hold a few mystical beasts.

The Bai Yan wolf is also shrewd and cautious, it doesn't provoke overly powerful mystical beasts and avoids the tough ones, preferring the soft targets.

As a result, the official responsible for raising mystical beasts in the Qing Family found himself in a tough spot, as mystical beasts went missing every day, yet he could not catch the culprit.

Helplessly, he had no choice but to report the situation to the ancestor, and upon hearing this, the Qing Family Ancestor flew into a rage and severely reprimanded the remaining strong people in the Qing Family to thoroughly investigate the matter.

"What audacious thief dares to steal mystical beasts from our Qing Family! Do not let me catch you, or I'll flay you alive!" The Qing Family Ancestor fumed with anger.

Lately, the Qing Family's status in Qing Province and throughout the Southern Domain had severely declined, as everyone dared to take them lightly.

Yet—

What frustrated the Qing Family was that Ye Fan had vanished without a trace, and their mystical beasts continued to go missing, with the Qing Family strong people on night watch discovering nothing.

Qing Zi was so infuriated that he injured his meridians, dropping from the extreme peak of the Holy Embryo Realm to the Peak of Holy Embryo Realm, unable to act for a while, leaving him to recuperate at home.

“I can’t believe we can’t catch a thief who only dares to steal mystical beasts!” The Qing Family Ancestor decided to sit in person and see who this culprit really was.

The Qing Family’s kitchen theft, and the mystical beasts being stolen, had become a laughingstock in the cultivation world, known by almost everyone, that their kitchen was completely cleaned out.

The Qing Family Ancestor resolved to raise his blade and establish might, or else, how could the Qing Family’s honor be preserved?

Meanwhile, Qing Yu returned with his men, having found no clues after searching for so many days, and upon this happening at home, he had to come back for support.

That night, Qing Yu stood guard at the mystical beasts’ breeding ground and caught the Bai Yan wolf in the act. Although the Bai Yan wolf had shrunk to the size of a kitten, Qing Yu had decided that even if a mosquito flew in, it must be killed!

How powerful are cultivators in the Lord Realm?

With the release of domain power, no one can resist; within this domain, he is the master, and the Bai Yan wolf was immediately reverted to its original form.

“Is it you?”

Qing Yu naturally knew this extremely detestable Bai Yan wolf, and upon seeing that the one stealing their mystical beasts was the Bai Yan wolf, he immediately associated it with Ye Fan, his eyes immediately glaring.

“Where is that brat surnamed Ye? Tell me, and I’ll spare your life; otherwise, I’ll skin you alive, extract your bones, and grind you to ashes!” Qing Yu threatened murderously.

“You old man, do you really think you’re so kind-hearted? Even if I told you that kid’s whereabouts, you probably wouldn’t spare me, so I’ve decided... to tell you!”

The Bai Yan wolf knew it was absolutely no match for Qing Yu at the Lord Realm and must seize an opportunity to escape.

As long as it could escape his domain, the Bai Yan wolf was confident it could vanish without a trace!

Qing Yu was about to act, but upon hearing the Bai Yan wolf say this, he restrained his urge to kill and solemnly said, “Talk!”

“Even if I tell you, it won’t help you; you won’t believe me anyway. Let me take you there!” The Bai Yan wolf was scheming an escape plan, only by moving could it hope to escape.

“You’d better not play tricks, or you’ll die an ugly death!”

Qing Yu waved his hand, and a group of Qing Family experts surrounded and closely monitored the Bai Yan wolf, letting it lead them to Ye Fan.

Perhaps out of caution, Qing Yu did not withdraw the domain power, and the Bai Yan wolf could only obediently lead the way.

From the back mountain of the mystical beast breeding area, the Bai Yan wolf took them for a large detour, arriving at the Qing Family’s mausoleum at dawn.

“You wretch, are you deliberately tricking us? I feel like you’re taking us in circles,” questioned a young Qing Family strongman coldly.

“Believe it or not, I’m following the way I came, otherwise I wouldn’t know the way either.”

While nervously strategizing, the Bai Yan wolf casually said, “Anyway, now I’m in your hands, what’s the benefit of playing tricks? Your target is that kid surnamed Ye, not me. So what if I ate some of your mystical beasts? When I have time, I’ll return ten times the mystical beasts to you.”

“What this wretch says makes a bit of sense!”

Qing Yu didn't know that the Bai Yan wolf had already mastered the world's fastest Chasing Star Step; hearing it say so, he immediately felt no issue.

In his eyes, with himself, an expert of the Lord Realm here, along with so many family strongmen, the Bai Yan wolf couldn't pull any tricks.

As long as he could kill Ye Fan, letting a mystical beast go wouldn't harm the Qing Family's reputation!

Thinking this, Qing Yu disengaged the domain power, for maintaining it for long drained him significantly, and he needed to save energy to deal with Ye Fan!

“Old man, you got tricked!”

As soon as the domain power disappeared, the Bai Yan wolf, as if injected with adrenaline, shot out several hundred meters, laughing maniacally, “I'm out of here!”

“Damn it!”

Qing Yu, seething with rage, didn't expect to be tricked by a Bai Yan wolf, and released the domain power again.

But how could the Bai Yan wolf be trapped by his domain again?

It activated the Chasing Star Step, maximizing its speed, and in an instant, leaped into the Qing Family's mausoleum as if traveling through space.

This was its cleverness!

Within the Qing Family mausoleum, neither Qing Yu nor any Qing Family member dared to act recklessly, fearing disturbing their ancestors' spirits.

"Chase it, we must capture this wicked wolf alive!"

Qing Yu was the first to chase into the mausoleum, and the other Qing Family strongmen immediately followed.

"Awooo..."

The Bai Yan wolf howled, "Kid, the wind's tight, let's bolt!"

Near the end, the Bai Yan wolf shrank its body and squeezed out through a dog hole.

Hmm?

Upon hearing the Bai Yan wolf's voice, Ye Fan knew trouble had come, positively thinking this guy was caught stealing and ended up revealing him too.

Boom!

Having no time to think, Ye Fan burst out from the tomb, smashing the fence with a punch, and quickly fled using the Chasing Star Step.

Chapter 1404: Killing Array Slays the Enemy

"Chase them!"

Qing Yu's eyes were red, as if he were going mad.

To him, since Ye Fan was hiding in one of their ancestor's tombs, it meant that the tomb had been robbed.

Other young strong people from the Qing Family were also fuming, never before had the Qing Family suffered such a loss, even their ancestral tomb had been dug up!

Everyone in the Qing Family was going all out, chasing relentlessly, while Ye Fan and the Bai Yan wolf were desperately fleeing from one city to another.

At this time, Qing Yu also used a secret technique to contact the Ancestor of the Lou Family, asking him to lead his men to intercept ahead, determined to kill Ye Fan at any cost.

Two of the Lou Family's most outstanding descendants had died at Ye Fan's hands, making their hatred for Ye Fan reach unprecedented levels. Upon receiving the news, they immediately led the clan's strong people to intercept Ye Fan.

The Chasing Star Step is the fastest in the world. Although Ye Fan hasn't comprehended it fully, he initially shook off Qing Yu and others, and with Elder Xuan's warnings, he continually hid his presence in the virtual space of the Nine Heavens Mysterious Crown, making Qing Yu and the others unable to catch up with him and the Bai Yan wolf.

"Old Bai, can you use a Killing Array?"

As Qing Yu and the others continued to pursue relentlessly, Ye Fan, in desperation, secretly communicated with the Bai Yan wolf, asking it to prepare to inscribe a Killing Array to take out some of the Qing Family people.

"Do you have spirit stones? Activating a Killing Array requires a lot of spirit stones, and I remember your spirit stones were long exhausted?" Bai Yan wolf rolled its eyes at Ye Fan.

“Don’t you still have spirit stones in the two Spirit Stone Storages? Use them first, and I’ll compensate you when I get more spirit stones in the future.” Ye Fan said.

“No way, who knows if you’ll keep your word?” Bai Yan wolf disagreed.

“Old Bai, we’re at this point, can I still deceive you? If we don’t set up a Killing Array, we’ll be caught sooner or later, and then we’ll both be done for. What use will spirit stones be then?” Ye Fan reproached.

“Alright, you better keep your word and return the spirit stones to me later, or I’ll bite you to death!” The Bai Yan wolf knew Ye Fan made sense and eventually agreed but reminded Ye Fan that he must repay the spirit stones later.

Seven days later, Ye Fan and the Bai Yan wolf arrived at a desolate place. The land was barren for thousands of miles, with almost no vegetation, making it an excellent battlefield.

By this time, Ye Fan had already lost the Qing Family people from sight. Although they could still trace his aura and find him, Ye Fan was deliberately luring them over, so he wasn’t nervous at all.

After breaking through to the Mid-stage Saint Embryo Realm, Ye Fan’s Holy Power was as vast as an ocean, utterly devoid of exhaustion!

The Bai Yan wolf had refined two fist-sized nine-colored spiritual stones, which helped it recover a bit and begin to inscribe the Killing Array.

“This King’s Killing Array is the Five Thunder Strikes Array, pay attention and learn well.” The Bai Yan wolf continually inscribed on the ground with its big paw, the complex array patterns flashing momentarily.

Transmission Array Runes require special materials, only Xuanyu will do, but a Killing Array does not require this; as long as there are enough spirit stones and materials for the Array Eye, it can be done.

The Bai Yan wolf knew Ye Fan had Thunderfire Stone, otherwise, it wouldn’t have inscribed such a Killing Array—without Thunderfire Stone to fill the Array Eye, the Five Thunder Strikes Array couldn’t be activated.

After working all afternoon, the Bai Yan wolf finally finished inscribing the Killing Array, exhausted with its tongue hanging out, lying on the ground panting heavily.

“Alright, stop pretending, here, take this and quickly perfect the Killing Array!” Ye Fan placed the Dragon Scale Grass in front of the Bai Yan wolf.

The Bai Yan wolf took a big bite, devouring half of the Dragon Scale Grass, and quickly finished it off, its energy surging as it recovered significantly.

Next, the Bai Yan wolf placed the Thunderfire Stone provided by Ye Fan into the main Array Eyes, and then buried many spirit stones in the ground.

“These are all treasures!”

As the Bai Yan wolf buried the spirit stones, it trembled with heartache, being extremely avaricious, this kind of waste was shameful in its view.

“Don’t feel bad, no matter how many people we kill this time, all their spatial spiritual artifacts will be yours. That should make up for your losses, right?” Ye Fan, fearing the Bai Yan wolf would cut corners, gave it a heads-up.

Every cultivator has his spatial spiritual artifacts or space bags containing various special materials, with spirit stones being the most abundant.

“It’s a deal! This King will go all out!”

The Bai Yan wolf, eager to obtain more spatial spiritual artifacts, diligently buried the spirit stones adequately.

As night fell, everything was ready, Ye Fan and the Bai Yan wolf stood waiting in the void, firm in the belief that the Qing Family would certainly pursue through the night.

“Sigh...tonight is destined to be a bloody night!” The Bai Yan wolf appeared like a sage outside the world, with a sorrowful, empathetic demeanor.

“It’s best to wipe them all out!” Ye Fan stood proudly in the void, his clothes billowing fiercely in the night wind, standing against the eternal azure sky, with countless galaxies as his background.

“Here they come! Uh, it’s not just one group, there are two groups, another group is approaching from the front too!”

At this moment, Elder Xuan warned Ye Fan in his sea of consciousness in advance.

These days, led by Qing Yu, the Qing Family’s strong people continuously pursued him, causing a sensation throughout the Southern Domain. Everyone knew about it, and many greedy cultivators wanted a share, but they were blasted by Ye Fan with a punch, and much of his materials were obtained this way.

Landing on the hilltop, Ye Fan leaned against a massive rock, suppressing his presence to near extinction, vigilantly monitoring the Killing Array.

The Killing Array could only passively allow others to enter and not actively attack, so Ye Fan had to wait until enough people entered the Killing Array before activating it.

Chapter 1405: Killing Array Slays the Enemy (Part 2)

The Bai Yan Wolf also concealed his aura, his large, bell-like eyes fixed on the Killing Array, hoping that the Qing Family’s experts would enter the formation.

A moment later, from west to east, Qing Yu led a large number of Qing Family experts in pursuit, seemingly about to enter the Killing Array.

Meanwhile, from east to west, the Ancestor of the Lou Family, Lou ManCang, also led a large contingent of strong people from the Lou Family!

“Kid, this is a bit of a problem; my Killing Array can trap one Early Lord Realm cultivator without issue, but two would be difficult. If they break the formation, we’ll have to flee for our lives.” Seeing two Early Lord Realm strong people leading their teams, the Bai Yan Wolf was a bit dumbfounded.

“Then we must take a chance; we don’t need to destroy them, just trap them and focus on killing the others.” Ye Fan gritted his teeth. After chasing him for so long, it was time for them to pay a price.

As he spoke, the strong people of the Qing Family had already entered the Killing Array, with most of the Lou Family also inside.

There’s no time to lose, the Bai Yan Wolf decisively activated the Killing Array!

“Boom...”

A deafening noise, the sky and earth changed color, and the Killing Array completely sealed off this space.

“What happened? What’s going on?”

“Not good, we’re trapped in the formation!”

Several Qing and Lou Family cultivators in the Holy Embryo Realm were stunned by what they saw, each exclaiming in panic.

The surroundings were shrouded in mist, with even directions indistinguishable. Realizing they were trapped, they panicked, looking to the Lou Family Ancestor and Qing Yu for answers.

“Don’t panic, first determine what kind of formation this is, and we can break it ourselves! Such a minor formation cannot defeat us!” Qing Yu’s loud command was intended to stabilize their morale.

“Oh, really? Then try the taste of Five Thunder Strikes!” The Bai Yan Wolf sneered sinisterly, immediately entering the formation, his claws moving.

Boom!

Boom!

Boom!

Within the Killing Array, bolts of Divine Thunder fell from the sky, turning several weak disciples of the Lou Family into ash!

At the same time, several unsuspecting Qing Family cultivators were also struck dead, the survivors hastily summoning their spiritual artifacts to fend off the Divine Thunder descending from above.

“Ancestor, save me...”

A Lou Family cultivator at the peak of the Holy Embryo Realm screamed miserably, his body charred, having been struck by lightning five times in a flash, unable to endure despite his strength.

As his voice faded, this strong person of the Lou Family was completely reduced to charcoal, his divine soul shattered, meeting his end.

“Wahaha, you old dogs, weren’t you having fun chasing this king? Let this king grant you another grand gift!”

The Bai Yan Wolf personally controlled the Killing Array, directing lightning as if it were a weapon in his hands, causing the Qing and Lou Family cultivators to curse incessantly.

“Damn it, I will kill you!”

A Qing Family strong person roared fiercely, struggling to fend off the Divine Thunder.

“Heh, you won’t have the chance, let this king send you on your way first!”

The Bai Yan Wolf unleashed eighteen consecutive strikes of Divine Thunder, reducing the Qing Family strong person to nothing but ashes.

Though the Bai Yan Wolf wasn’t very strong, within the Killing Array, he was the absolute master, and no one could rival him.

Ye Fan did not enter the Killing Array, choosing instead to slaughter the Lou Family survivors outside.

“Ye, I’m going to fight you to the death!”

A Lou Family peak Holy Embryo Realm strong person, eyes red, summoned a Gui Tou Blade, fiercely striking at Ye Fan with sword light ten thousand zhang long.

“I’ll send you on your way!”

Ye Fan coldly smiled, shattering the sword light with a punch, then stepping forward, shattering the person upon collision.

The Lou Family survivors outside were all Holy Embryo Realm cultivators, but after Ye Fan reached mid-stage Holy Embryo Realm, they couldn’t withstand even a single move from him, each being blown apart by a single punch from Ye Fan.

In ten short moments, eight Lou Family strong people were completely wiped out, leaving behind a terrain littered with bloody remains.

After settling with these, Ye Fan casually glanced in a particular direction before entering the Killing Array.

In the darkness, countless eyes seemed to be watching, and Ye Fan knew well that other cultivators were observing from afar.

After this incident, those coveting him would likely restrain themselves a bit!

With the mantra taught by the Bai Yan Wolf, Ye Fan navigated the Killing Array effortlessly, unaffected by any Divine Thunder, attacking and killing the Qing and Lou Family cultivators within.

“Little bastard, once the formation is broken, I’ll crush you with one hand!” Lou ManCang, surrounded by the most Divine Thunder, was especially taken care of by the Bai Yan Wolf.

Seeing Ye Fan kill his clansmen enraged Lou ManCang, and he roared in anger!

“Old fool, what good is being a Lord Realm strong man? If I were in the same realm as you, I could also slap you to death!”

Ye Fan didn't approach the Ancestors of the Lou Family and Qing Family, these super strong people, but instead focused solely on killing their kin.

The Qing and Lou Families had many strong cultivators, whom even Divine Thunder couldn't harm, though they couldn't attack Ye Fan either.

Simply put, a slight relaxation exposed them to tremendous damage from the Divine Thunder, forcing them to respond as best they could!

"Your turn!"

Ye Fan approached a Qing Family cultivator struggling to fend off the Divine Thunder.

Chapter 1406: Killing Array Slays the Enemy

"Want to kill me? It's not that easy!"

The Qing Family cultivator was extremely fierce, showing no fear at all. Instead, he gave up resisting the Divine Thunder and directly burned his Holy Embryo to launch the strongest attack at Ye Fan.

"Useless!"

Ye Fan slapped down, and a huge palm formed by Holy Power pressed down, directly shattering him.

Boom!

Then, five beams of Divine Thunder descended, directly striking that Qing Family cultivator's Divine Soul into ashes.

Whoosh!

Ye Fan came before another Lou Family strong person and didn't waste words, slapping him to pieces.

In the Killing Array, Ye Fan moved freely, not a single Divine Thunder struck him, and he was like the Shura Death God harvesting lives; each punch and slap took away a life.

Bai Yan wolf was joyfully controlling the Divine Thunder, even cultivators in the Divine Power Realm could not withstand eighteen consecutive strikes of Divine Thunder.

The strong people of the Qing Family and Lou Family fell one by one in pools of blood, most of them charred beyond recognition.

At this moment...

Ye Fan suddenly got hit by a beam of Divine Thunder, unprepared, his hair stood upright.

Fortunately, he also contained Thunder Power within himself, so it did not cause much harm.

“Bai Yan wolf, what are you doing?” Ye Fan angrily asked.

“Uh... strayed a bit!” Bai Yan wolf laughed sheepishly, then continued controlling the Divine Thunder to strike others.

“__”

Ye Fan knew Bai Yan wolf too well; under its control, the Divine Thunder wouldn't stray, he would never believe it.

However, now wasn't the time to argue about it, Ye Fan activated the Chasing Star Step and began to methodically kill the Qing Family and Lou Family experts within the Killing Array.

“This can't continue, we need to think of a way to break this formation!”

Qing Yu expanded a Domain, allowing his clansmen to hide within, quickly approaching Lou ManCang to discuss the Array Breaking Technique.

Lou ManCang also unfolded his Domain, protecting his few remaining clansmen from being struck by the Divine Thunder calamity!

Within a quarter of an hour, Ye Fan and Bai Yan wolf killed over a hundred Qing Family and Lou Family clan members, naturally seizing numerous spiritual artifacts and space spiritual artifacts.

“Kid, time is running short. I’m afraid we can’t keep them trapped any longer, should we retreat?” Bai Yan wolf understood the Killing Array too well and knew that once the two gathered at one place, it would be impossible to trap them, thus suggesting a swift escape.

“Mm.”

Ye Fan nodded, he had obtained vital intelligence by forcefully searching the sea of consciousness of a Lou Family strong person during the kill, learning the location of the Lou Family’s Spirit Stone Storage.

The Lou Family, as a middle-tier family, didn’t have its own spirit stone mine; their spirit stones were acquired through purchase or plundering other sects or families.

Since Lou Manyue married into the Qing Family, they have donated quite a few spirit stones, stored in several secret locations.

This strong person happened to know the location of the Spirit Stone Storage, and Ye Fan’s mind immediately became active.

The previous raid of the Qing Family's spirit stone storage gained him a large number of spirit stones, naturally, he wanted to continue the plunder this time.

"Old Bai..."

Ye Fan shared his plan with Bai Yan wolf, which made Bai Yan wolf's eyes glitter with excitement. Instantly, he fully activated the Killing Array to unleash powerful Divine Thunder, trapping Qing Yu and Lou ManCang, then dashed towards one of the Lou Family's secret Spirit Stone Storages with Ye Fan.

Boom!

Just as Ye Fan and Bai Yan wolf left, the Killing Array was suddenly broken, Lou ManCang and Qing Yu emerged radiating killing intent, sensed briefly, and quickly sped off in pursuit of Ye Fan, leaving behind a scene of mangled limbs and charred corpses.

This spectacle utterly shocked the cultivators watching secretly, the Qing Family and Lou Family, two major clans working together to combat a Holy Embryo Realm little cultivator, yet suffered such a huge setback, losing hundreds of elites...

This... is destined to be recorded in Southern Domain history!!

Chapter 1407: Renowned Throughout the Five Domains!

Ye Fan and the Bai Yan Wolf passed through the Killing Array, slaying over a hundred elite members of the Lou and Qing families, once again shaking the entire Southern Domain!

People were not only shocked by Ye Fan's methods but even more by Ye Fan's rapid growth!

It's important to know that when he entered the Mist Sea, Ye Fan was just a small ant at the peak of the True Essence Realm. Yet, in such a short time, he continuously broke through and leaped to become a mid-stage Holy Embryo Realm cultivator...

This cultivation speed was astonishingly fast!

Someone once went specifically to check the battlefield's traces after Lou ManCang and Qing Yu left. The ground was covered with crisscrossing deep pits, debris mixed with mutilated limbs, and the whole space was filled with a pungent burnt smell, presenting a tragic scene of post-battle!

From those charred corpses that were no longer recognizable, some people roughly deduced the course of the battle—it was clearly a one-sided massacre!

So many cultivators were killed, yet Ye Fan was unharmed and successfully escaped, which made those cultivators with ulterior motives alarmed and fearful!

Ye Fan suddenly became mysterious in the minds of all cultivators. If it weren't already known that he was an ordinary disciple of the Xuanwu Sect, some might suspect that Ye Fan might be a secret descendant of some Di Clan.

However, upon deeper reflection, it seemed unlikely as well. The strongest battle blades of the Di Clan would never emerge without the ability to fully protect themselves.

This battle showed Ye Fan's iron-blooded side, with the Qing and Lou families suffering heavy losses, countless strong people of the middle and younger generation dead or injured, causing severe primordial qi damage!

For a while, news about Ye Fan spread everywhere across the Six Continents, with new updates arriving daily.

Many cultivators followed the alliance of the Qing and Lou families with a mindset of watching a spectacle, wanting to see the final result, and whether Ye Fan could evade the pursuit of these two great families!

Naturally, Xuanwu City was also filled with various rumors, true or false. Ever since Tianyuan Sect was wiped out, Tianyuan City was renamed Xuanwu City to show respect for the Xuanwu Sect!

This was also the wish of the Jueluo Empire's emperor, Lei Xiaotian.

"I hope you can survive this calamity..."

Yaling silently prayed in her heart, hoping Ye Fan could escape this disaster and rapidly grow through the honing process!

For Ye Fan's safety, Yaling went the extra mile to send a message across thousands of miles, pleading with her ancestor, the former Pavilion Master of the Treasure Pavilion, to step in secretly and assist Ye Fan if necessary.

...

While the entire Southern Domain was paying attention to Ye Fan's movements, he accurately identified eight locations where the Lou family stored Spirit Stones, relying on his unrivaled Chasing Star Steps, and with Bai Yan Wolf, cleaned them out completely.

To save time and avoid exposing their whereabouts, Ye Fan simply put the Bai Yan Wolf into the virtual space, letting it wait inside to break through the forbidden barriers, while he unfolded the virtual space at each location to take the Spirit Stone storage along with its foundation without pausing.

This time, while the Lou family had mobilized all their best hands to chase him, those guarding the Spirit Stone Vaults were merely ordinary experts, whom Ye Fan didn't bother engaging with, but directly began the massacre when passing through.

Lou Canghai had sensed something, but each time was a step too late. By the time he arrived with his men, only a large pit and the corpses of Lou family members remained where the Spirit Stone Vault used to be!

Chasing Star Steps merited its reputation as the fastest step technique in the world; with each step, Divine Light flickered at one's feet, bringing mountains and rivers to the size of mere inches.

The technique nears the Dao; this embodies the essence of the world's swiftest moves. When truly cultivated to its peak, stepping out can reverse time and space, chasing stars and catching up with the sun and moon.

By relying on this extremely fast step technique, Ye Fan barely managed to prevent being caught by the two lord-realm powerhouses, Lou Canghai and Qing Yu.

Nonetheless, Ye Fan dared not flee into densely populated cities, considering the great influence of the Qing family, as interception by strong people would put him in a very passive position.

Thus, in recent days, besides raiding the Lou family's eight Spirit Stone Vaults, Ye Fan had been racing across deserted mountains and wilds!

"Damn it, these people are like ghosts haunting! They've been chasing for so long and still haven't given up!" The Bai Yan Wolf muttered, truly troubled by the relentless perseverance of the Qing and Lou family members!

Ye Fan was also deeply worried. He didn't care much about others, but Qing Yu and Lou Canghai, these two lord-realm powerhouses, caused him significant trouble!

The martial arts path is endless, each realm a new world. Ye Fan's ability to battle with powerhouses at the early-stage Divine Realm with mid-stage Holy Embryo Realm cultivation was already against all odds. Dealing with lord-realm powerhouses was almost impossible.

Ye Fan didn't need to fight to know what would happen if they caught up to him!

Undoubtedly, Qing Yu and Lou Canghai wouldn't let him off easily; peeling his skin and extracting tendons might be the least of his worries.

"What should I do?"

Ye Fan felt a headache, having escaped all the way without resting despite breaking through to mid-stage Holy Embryo Realm; he was feeling a bit exhausted.

"If they push me to the edge, I will storm their ancestral land, and we can all perish together!" Ye Fan's eyes were resolute and gloomy.

He was prepared for the worst-case scenario of mutual destruction, ensuring even in death, to have the Qing and Lou families pay a steep price!

Unbeknownst to him, during these days, some of his deeds had spread throughout the entire Southern Domain, surprising some Saints of Holy Lands and Lords of Wu Shang Sects!

For someone with mid-stage Holy Embryo Realm cultivation to repeatedly cause trouble for a gigantic powerhouse like the Qing family, it was unheard of in the entire Cultivation World.

Qing Yu's face was as dark as water, and he said nothing. When he left, he had brought out over two hundred strong clansmen, but in just one battle, he lost more than half, which made his heart bleed.

Compared to Qing Yu, Lou Canghai was even more furious. The losses of the Qing Family were nowhere near as severe as those of the Lou Family. The younger generation was almost entirely wiped out, and even many of the middle-aged clansmen had perished.

More importantly, the Lou Family did not possess the vast clan power or resources of the Qing Family. This pursuit of Ye Fan had been immensely damaging to their vitality.

Even if they could successfully kill Ye Fan, it would take the Lou Family centuries of recovery to return to its previous peak state!

The only solace for Lou Canghai was that the Qing Family did not abandon the Lou Family after Lou Manyue's death, otherwise he would have considered giving up.

They had pursued for thirty thousand miles, but not only failed to capture Ye Fan, they also lost over a hundred clansmen in the process. Both Qing Yu and Lou Canghai were infuriated to the extreme.

What made it even worse for them was that behind them were some curious cultivators from other states watching the spectacle. Repeated failures left their faces burning with embarrassment!

There was no need to guess; they knew that these events would surely be spread by these people throughout the entire Southern Domain, and possibly even across the entire Tianxuan Continent.

The forces of the Five Great Domains are interwoven, with each domain having bases for the great forces from other domains. Any major event in one domain would be immediately known to the other four.

The Qing Family was considered a formidable second-rate power in the Southern Domain. Although they could not compare to the Di Clan, Holy Lands, or the Wu Shang Sect, they were by no means an ordinary family.

With such events happening to the Qing Family, those waiting to enjoy the spectacle naturally would know immediately. It could be said that, unknowingly, Ye Fan's name had not only spread throughout the Southern Domain but also to the other four Great Domains!

"Kid, do you want to get rid of these guys chasing us once and for all?"

After having some grilled meat, Bai Yan wolf rested for a bit, and suddenly had an idea, asking Ye Fan.

"Of course I do. Do you have a plan?"

Ye Fan's spirits lifted. Although Bai Yan wolf could be devious and unreliable at times, it was useful in critical moments and wouldn't mess up!

"Of course, who am I? I am the unrivaled, omnipotent White Wolf King, not someone who talks big." Bai Yan wolf displayed the demeanor of a master.

“Enough, stop being so glib, just tell me the plan!” Ye Fan interrupted Bai Yan wolf’s words.

“It’s simple, I want these people to fall into the same trap twice!” Bai Yan wolf smirked cunningly.

“You mean...”

Ye Fan’s heart stirred as if he grasped a crucial point, but he wasn’t sure how Bai Yan wolf intended to execute it.

“That’s right, I want to set up another supreme sky Killing Array using the Cursed Soil you brought out from the Forbidden of Forbidden to trap and kill them inside!” Bai Yan wolf revealed its plan to Ye Fan.

Hmm?

Ye Fan’s eyes brightened upon hearing this, feeling it was entirely feasible. The Cursed Soil from the Forbidden of the Divine Race contained terrifying Curse Power, which even Lord Realm cultivators couldn’t resist.

“What specifically should I do? What do you need from me?”

As for setting up a Killing Array, Ye Fan was clueless. Although he could arrange some small formations like Spirit Gathering Arrays, he was incapable when it came to powerful Killing Arrays.

“You don’t need to do anything right now, just watch. But I will need some of the materials you collected!” Bai Yan wolf took full responsibility, being an expert in engraving array patterns, with Ye Fan unable to assist.

“No problem, apart from Soul Gathering Grass and Divine Union Flower, you can use any other materials!” Ye Fan generously handed over all the materials he had “collected” to Bai Yan wolf.

“Those things aren’t needed at all; we’re here to harm, not to save.”

Perhaps noticing Ye Fan’s concern for materials that could repair the Divine Soul, or for other reasons, Bai Yan wolf restrained its greed and didn’t take possession of them, only selecting a few essential materials from what Ye Fan offered for setting up the Killing Array.

“That’s about it, the rest can be replaced with the Cursed Soil, with this Killing Array, there’s no problem eliminating those old geezers!”

Bai Yan wolf was confident.

Ye Fan was full of anticipation!

Chapter 1408: Holding the Pass Alone

Desolate City, as its name suggests, is an ancient city left from ancient times, surrounded by barrenness, with nothing but undulating mountains stretching for hundreds of thousands of miles, even vegetation is scarce.

This is extremely rare in the always fertile Southern Domain.

Such an environment naturally doesn't suit human habitation, thus several hundred miles away from Desolate City, there's no trace of human presence, making it perfect as a battlefield.

Ye Fan and Bai Yan wolf discussed for quite a while and decided to set up the Killing Array there — firstly, to avoid accidentally injuring others, and secondly, according to Bai Yan wolf, there's a Dragon Vein underground here, which the Killing Array can connect to Earth Vein Dragon Qi to annihilate everyone.

"Kid, this time I've spent quite a lot of effort for you..."

Bai Yan wolf said, sticking out its tongue, carving the supreme sky Killing Array truly exhausted it.

"I'll divide the Spirit Stone Storage of the Lou Family into three for you, and all the spoils are yours!" Ye Fan interrupted Bai Yan wolf before it could finish speaking, directly mentioning the benefits.

"Kid, you do have some conscience!"

Bai Yan wolf rested for a while, then refined a huge pile of spirit stones to become lively again.

Although the Killing Array was already in place, Ye Fan didn't intend to wait for them in the Killing Array but decided to take the initiative.

He asked Bai Yan wolf to carve a Transmission Array Rune for him, which only needs to be activated to instantly cross the void and teleport to the Killing Array a hundred miles away.

In the bleak autumn wind, Ye Fan stood on a hilltop, his eyes emitting two beams of Purple Light, staring at the Alliance Army of the Qing Family and Lou Family coming from afar, beneath his feet was the Transmission Array Rune carved by Bai Yan wolf.

Previously, Ye Fan had tested it and found the Transmission Array Rune quite decent — just a stomp, and he could activate it, instantly escaping a hundred miles!

With this amulet in hand, Ye Fan felt fearless; he wanted to use the strong people from Qing Family and Lou Family to test how strong his Combat Power really was.

In a moment, Lou Canghai and Qing Yu led more than a hundred people from the two families' Alliance Army, chasing them down from afar, spotting Ye Fan on the hilltop, but not seeing Bai Yan wolf.

However, this was not important to them; as long as Ye Fan was captured, they didn't care about Bai Yan wolf.

Swish!

Qing Yu directly led people around behind Ye Fan, forming a surround, with more than a hundred strong people from Mid-stage Saint Embryo Realm to Early-stage Divine Realm encircling Ye Fan, making it impossible for him to escape!

"Kid, why don't you flee?"

A cultivator in Early-stage Divine Realm from the Lou Family asked gloomily, full of killing intent.

He hated Ye Fan to the bone, as several of his brothers had died under Ye Fan's fists, making him see red upon meeting his enemy!

"Escape? Why should I escape? Don't be fooled by reaching Divine Realm; killing you is like cutting grass!"

Ye Fan remained calm; with the Transmission Array Rune and the Killing Array set by Bai Yan wolf, he wasn't worried at all.

"Ancestor, please order, let me kill him!"

The strong Early-stage Divine Realm cultivator from the Lou Family was furious, Ye Fan underestimated him so blatantly, which was intolerable, he immediately requested battle.

"Fine, Mingfeng, you go deal with him, but leave his life; he still has use!"

Lou Canghai coldly stared at Ye Fan, speaking slowly, feeling somewhat puzzled — Ye Fan seemed too fearless, not matching his usual behavior!

This made him wary.

After all, the previous Killing Array was a lesson learned!

Thus, he decided to let Lou Mingfeng fight, then see what trickery there might be.

Qing Yu had the same intention, hence didn't dispatch anyone.

"Boy, come forward and die!"

Lou Mingfeng shouted violently, a Purple Light glittering treasure sword appearing in his hands, stabbing towards Ye Fan's brow!

"Good timing!"

Ye Fan shouted loudly, hitting with a punch, Holy Power like a rushing river blocked the Sword Radiance, saying, "Let me see what kind of Divine Skills you've really comprehended!"

Ye Fan's War Intent was overwhelming; he wanted to take this opportunity to test his cultivation results, hence feared nothing in facing and clashing hard with opponents.

"Alright! Let me show you the mystery of the Divine Realm! Make you understand, one day without reaching the Divine Realm, you're only an ant!"

Lou Mingfeng slashed out seven swords, each stronger than the last, the intense Sword Radiance illuminating the sky, overshadowing the sun.

"Clang!"

A flash of light from Ye Fan's hands revealed the Thunder Emperor Spear, though a replica, its quality was far better than the Spiritual Artifact of the Divine Realm!

In a brief instant, Ye Fan also thrust out seven times, accurately targeting the sword tips, leaving Lou Mingfeng unable to exert any sword, much less achieving any effect!

"This is the so-called Divine Skill? It's far too inferior!"

Ye Fan smirked sarcastically, changing his spear momentum, executing a move Overpowering the World, manifesting myriad gun lights, emitting "buzzing" sounds, enveloping Lou Mingfeng within the gun light!

"What kind of spear technique is this?"

Lou Mingfeng was horrified, in his eyes, there was blazing gun light all around, unable to discern which was the True Destiny Prince!

"Illusion Clone!"

Unable to counter Ye Fan's spear, finding no flaws, Lou Mingfeng could only use Illusion Clone Technique, leaving an illusion clone to take the spear, escaping his main body from the gun light's coverage.

Puff!

Ye Fan's spear smashed Lou Mingfeng's illusion clone, dispersing into Heaven and Earth Primordial Qi in the air, yet Lou Mingfeng remained unharmed!

"Divine Realm, truly extraordinary!"

Ye Fan slightly furrowed his brow, pondering the key insight.

In essence, Illusion Clone is merely a primary version of an embodiment outside the body, not even counting as true Divine Skills because the Illusion Clone can't harm anyone, it only serves to distract the opponent's sight, but a miscalculation could lead to disaster!

And this Illusion Clone had no effect on him; he was careless earlier only because it was his first encounter.

"Humph! Divine Realm isn't something a mere ant like you can fathom? Watch how I'll kill you!"

Lou Mingfeng's face looked unpleasant; as a formidable Divine Realm cultivator, being forced by a Mid-stage Saint Embryo ant to have a clone die for him to escape, was a shameful situation!

After speaking, Lou Mingfeng's figure moved, swiftly producing two clones identical to himself, holding three different Spiritual Artifacts, attacking Ye Fan from three directions!

"Uncle Mingfeng is indeed strong!"

"Uncle Mingfeng, remember to keep him alive!"

Seeing Lou Mingfeng transform into two clones to attack Ye Fan, the Lou Family and Qing Family broke into an uproar. These days, they had been feeling quite stifled; Ye Fan's speed was too fast, and their skills were of little use as they couldn't catch up.

Finally, they were able to vent their frustrations. Lou Mingfeng's divine skills shocked many, even Lou Canghai nodded slightly, believing it impossible for Ye Fan to discern which of the three Lou Mingfengs was real.

As long as Ye Fan made a wrong judgment once, it would be enough for Lou Mingfeng to inflict serious injury, then calmly capture Ye Fan and reclaim their Spirit Stones, and subsequently search Ye Fan's Divine Soul to obtain the legacy of Thunder Venerable.

"Boy surnamed Ye, I advise you to give up your meaningless resistance, with the Ancestor of the Lou Family and our Qing Yu Clan Leader here, you have no chance at all!" said a young cultivator of the Qing Family, venomously.

Last time in the Killing Array, Ye Fan maneuvered skillfully, slaughtering them like cutting grass, entering an uninhabited realm, leaving Qing Yu and Lou Canghai helpless. Just now, they observed for a long time, found nothing amiss, and their confidence grew.

However—

Before the Qing Family cultivator had finished speaking, the battle had already been decided!

Ye Fan closed his eyes, using his powerful Divine Sense to replace his eyes, completely unaffected by the Illusion Clones, and pierced Lou Mingfeng through, binding him on the spear tip with Holy Power.

"Pu—"

Blood erupted fiercely, Lou Mingfeng's momentum drained away completely.

"Ah..."

Lou Mingfeng let out an earth-shattering scream, completely confused as to how Ye Fan saw through his Illusion Clones.

"Why the ghostly yell?"

Ye Fan lightly shook the Thunder Emperor Spear, directly shattering Lou Mingfeng into pieces, his Divine Soul just detached from the body, was then obliterated by Ye Fan with Thunder Power.

In one exchange, a cultivator of the Early-stage Divine Realm was killed by Ye Fan!

"You deserve death!"

Lou Canghai was furious, his eyes shot out two strange rays towards Ye Fan.

At this moment, he was sure there was no Killing Array around, didn't think Ye Fan could pull off any tricks, plus Ye Fan killed his clan member right in front of him, hence he didn't hesitate and personally took action.

Swish!

Ye Fan didn't dare to withstand it head-on, using the Chasing Star Step, he narrowly dodged Lou Canghai's gaze.

Whizzing sound!

Not far behind Ye Fan, a Qing Family disciple took the hit for him, was directly pierced by the gaze, even his Divine Soul was annihilated!

"Predecessor Canghai, this boy's speed is too fast, let me, the Qing Family, take action!"

Seeing his clan member suffer collateral damage, Qing Yu slightly furrowed his brow, stopping Lou Canghai from continuing to attack.

The reason was simple, right now Ye Fan couldn't escape anyway, but his speed was astonishingly fast, Lou Canghai's strength was too great, if he took action, misfires would be inevitable, gains do not outweigh the losses!

"Alright!"

Lou Canghai realized this too, suppressed the overwhelming killing intent, refrained from action.

"Who shall step forward to capture this scoundrel?" Qing Yu, relying on his identity, didn't want to personally take action, considering it too demeaning, preferring his clan members to capture Ye Fan.

"I will!"

As soon as the words fell, someone from the Qing Family stepped forward, around forty years old, looked ordinary, but carried the confidence of a strong person!

"Qing Yu, you better get involved yourself! Otherwise, no matter how many of them come, I'll kill that many, don't say I didn't warn you!" Ye Fan, wielding the gun in one hand, looking majestic, despite being surrounded, showed no sign of nervousness or panic.

"Impudent! You think you can say the name of our Qing Family Patriarch? I, Qing Mang, am enough to kill you!" Qing Mang advanced boldly, with each step exuding formidable momentum, by the time he reached Ye Fan, his momentum peaked.

"Kill!"

Qing Mang didn't hold back, swung his fist to kill, the green Punch Ray formed a giant python, displaying its toxic fangs aiming to bite Ye Fan's neck.

"Holy Embryo Realm?"

Ye Fan was momentarily surprised, he had just killed a strong person of the Divine Realm, now a Holy Embryo Realm person stood before him, isn't this asking for trouble?

But Ye Fan didn't dare take any chances, since he dared to come forward, there must be something supporting him, he had to handle it carefully, unless Qing Yu and Lou Canghai were provoked, would they fall into his trap?

"Leveling Sun and Moon!"

Ye Fan thrust out his spear, activating the Heavenly Slaying Seven Divine Spear, the purple gun light intertwined with the power of thunder, instantly shattered Qing Mang's Punch Ray!

Pu!

Unexpectedly, the head of the shattered green Poisonous Python transformed into a cloud of green fog, enveloping Ye Fan!

Hmm?

After inhaling just a little, Ye Fan felt dizzy and was greatly shocked; these green mists were poisonous, didn't expect Qing Mang's Holy Embryo to be so sinister!

Subsequently, before Ye Fan could act, the Pure Yang Qi sensed the invading poison, immediately surrounded it, and instantly refined it!

Ye Fan regained clarity, held his breath, but pretended to be poisoned, operating Mystical Skills, turning his face purple, his eyes somewhat lifeless, his body swaying as if about to collapse!

"Haha..."

Seeing Ye Fan in such a state, Qing Mang laughed wildly: "Even if you are as cunning as a ghost, you are still poisoned by my Green Python Poison, let's see how you still fight me?"

As the words fell, Qing Mang, without any guard, directly approached Ye Fan, preparing to capture him and hand him over to Qing Yu.

"Awoo! Somebody is going to be unlucky!"

In a hidden place far away, the Bai Yan wolf chuckled—a smile, Ye Fan's body contained Pure Yang Qi, immune to all poisons, Qing Mang was seeking his own death!

Chapter 1409: Catching a Turtle in a Jar

Hmm?

As Qing Mang approached Ye Fan, he suddenly felt something was wrong!

Because in Ye Fan's eyes, there was no sign of despair or fear, but instead a strange smile, which is definitely not the expression a poisoned person should have.

At that moment, he suddenly realized that a person poisoned by Green Python Poison should be turning green, but Ye Fan's face was purple, which clearly wasn't how a person poisoned by Green Python Poison should look!

Tricked!

Qing Mang quickly retreated, but it was too late. Since he was already so close, how could Ye Fan let him escape?

Smack!

Ye Fan slapped his palm out, distorting even the void. The purple-gold palm shone brilliantly like a purple-gold sun, striking Qing Mang brutally!

Boom!

Qing Mang's body was like a fine porcelain hit by a heavy hammer, instantly cracking and exploding in the air, as if it were raining flesh and blood!

"Ah..."

Qing Mang let out a tragic scream, his Divine Soul turning into a green light, fleeing in Qing Yu's direction—as long as the Divine Soul remains, he can still seize a body and be reborn!

"Trying to escape? Do you think you can?"

Ye Fan snorted coldly, his brow suddenly split open, a silver small sword broke through the space, instantly catching up with the green light, shredding it in the air!

A generation of genius from the Qing Family has fallen, with even the Divine Soul annihilated!

"Uh..."

The scene was silent, the experts from the Qing Family and Lou Family were shocked by Ye Fan's fierce methods.

No one expected that in such a short moment, the Qing Family and Lou Family would each lose a strong person, and both were higher in realm than Ye Fan!

This incident happened right under the noses of the two Lord Realm experts, astounded them, leaving them staring at each other, unwilling to step forward recklessly.

Ye Fan's true combat power exceeded everyone's expectations. With a mid-stage cultivation of Holy Embryo Realm, he took down an early-stage strong person in the Divine Power Realm, which was too incredible!

"Who else dares to challenge me!"

Ye Fan's spirit soared as he glanced coldly at the disciples of the Qing Family and Lou Family.

"This..."

The experts of the Qing Family and Lou Family looked at one another, but no one dared to step forward. Ye Fan's overwhelming strength had slaughtered the cultists in the early-stage of Divine Power Realm, stepping forward would be courting death!

"Why don't you handle this yourself, don't let these worthless ones come up and die again!" Ye Fan glanced at Qing Yu and Lou Canghai, speaking boldly.

"Bold!"

"Rude!"

Disciples of the Qing Family and Lou Family rebuked, Ye Fan, a mere mid-stage Holy Embryo Realm ant, dared to openly challenge their clan leader and ancestor, that was indirectly insulting the two families.

What they couldn't stand was Ye Fan publicly calling them worthless, how could they swallow that?

"Everyone attack at once, even if he has three heads and six arms, he can't stop us!"

The disciples of the Qing Family and Lou Family were infuriated. Knowing that one-on-one they couldn't defeat Ye Fan, they decided to overwhelm him with numbers!

Ye Fan chuckled coldly, saying, "Qing Province's first family really impressive, so many people attacking just me, aren't you afraid of being laughed at when word gets out?"

Ye Fan's words were quite damaging, as hidden among the clouds were many cultivators closely observing everything happening here.

Seeing Ye Fan surrounded on all sides, these individuals knew Ye Fan was done for, defeat and death were only a matter of time. In the presence of the two Lord Realm experts, he had no hope of survival!

However, Ye Fan did manage to surprise them, instantly killing two strong people, one of whom already understood the Divine Skill of Illusion Clone at the early-stage Divine Realm.

Such a record is extremely rare throughout Tianxuan Continent!

They all had to admit, Ye Fan was indeed a rare genius, but unfortunately destined to die young, unable to truly grow!

Even so, some far-sighted cultivators began to worry; Tianxuan Continent has not seen so many geniuses in a long time.

This generation is much stronger than when they were young, perhaps Tianxuan Continent is about to enter an unprecedented prosperous era.

Yet—this kind of era is not a good phenomenon!

Genius, demon, having two or three in an era is already quite remarkable, once there are seven or eight, even ten or more, it's foreseeable, the future Emperor Road battles will absolutely be a scene of blood and strife.

"Our Qing Family's affairs aren't for others to comment on, today, no matter how eloquent you are, it won't change your fate, everyone attack!"

A middle-aged strongman from the Qing Family changed his expression several times, finally with a flash of fierceness in his eyes, waved his hand, wielding two strange weapons, Soul-locking Hook!

Swish!

The dual hooks crossed, slashing toward Ye Fan's neck!

As he moved, disciples of the Qing Family and Lou Family also stepped forward.

Whoosh!

Whoosh!

Whoosh!

...

In an instant, various spiritual artifacts sparkled like dazzling fireworks, illuminating the sky, dazzling the eyes!

Ye Fan wouldn't naively think he could withstand the siege of so many strong people alone, immediately stomped his foot, activated Transmission Array Runes, disappearing from the spot, leaving behind only the still-glowing array patterns.

"Transmission Array Runes?"

The strong people from the Qing Family and Lou Family stared at each other!

"Hmph, even with Transmission Array Runes, do you think you can escape?"

Lou Canghai snorted coldly, eyes shooting lightning, slapping toward the void!

"Boom..."

The void was instantly distorted, but Ye Fan wasn't seen falling out, he had crossed the void and left.

"Chase, this kind of array pattern, at most can only transmit a hundred miles away, can catch up immediately!"

Lou Canghai had researched array patterns, at a glance knew this was merely a short-range Transmission Array Rune, definitely not over a thousand miles.

With their speed, they could catch up instantly, so he did not take this Transmission Array Rune seriously!

Swish swish swish swish swish swish...

Immediately, led by Lou Canghai, the alliance army from the Qing Family and Lou Family rapidly flew, chasing in the direction Ye Fan fled!

"So he had a backup plan, no wonder he's so overbearing!"

The onlookers in the distant sky were utterly shocked by the scene before them; Ye Fan had unexpectedly held back such a trump card.

"Let's go and see!"

The cultivators watching the battle immediately set out, chasing in the direction where the Qing Family and Lou Family had left, wanting to see the final outcome.

Shua!

Ye Fan emerged from the void, right at the edge of the killing array, and with one step, he entered into it.

At this moment, the killing array was not yet activated, so Ye Fan had no problem traversing within it!

Bai Yan wolf had used some secret technique to completely conceal the power of the cursed soil, and as long as no one triggered the prohibition, the curse power would not be exposed.

"Ye, come this way!"

Bai Yan wolf raised its paw in a patch of wild grass to signal Ye Fan to a safe spot so it could activate the killing array.

"Little brat, where do you think you're going?"

Qing Yu and Lou Canghai never expected Ye Fan would set up another supreme sky Killing Array waiting for them to walk right into it. As soon as they saw Ye Fan's figure, they yelled in anger and rushed after him!

Swoosh swoosh swoosh swoosh swoosh swoosh...

Lou Canghai was the first to enter the killing array, followed closely by Qing Yu, and then the alliance army of the Qing Family and Lou Family all barged into the range of the killing array.

"Hehe, let this king send you to see the Great Emperor!"

Bai Yan wolf chuckled sinisterly and slammed its big paw down on a node of the array patterns on the ground.

Boom!!

The killing array was activated, the world changed colors, and the winds and clouds surged!

Mysterious and unfathomable lines rose up from the earth, hovering in the air and sealing off all directions!

The invisible killing intent made the entire sky and universe tremble!

"Hiss..."

The onlookers in the distant sky gasped, feeling the terror of the killing array even from afar.

Could it be that Ye Fan intended to annihilate everyone from the Qing Family and Lou Family?

If that were truly the case, it would be a catastrophe for the Qing Family and Lou Family.

Even the ancestor of the Lou Family and the clan leader of the Qing Family were trapped within the killing array. If Ye Fan truly went all out to slaughter them all, the Lou Family was doomed to be wiped out, and the Qing Family would definitely suffer a great loss of primordial qi.

Various speculations surged in people's hearts at that moment.

The supreme sky Killing Array was an extremely terrifying killing array, one that Bai Yan wolf had invested a lot of effort into engraving, moving the earth dragon veins and the power of heaven and earth, seemingly able to annihilate all living beings in the world!

Ye Fan didn't know if he could ultimately eliminate the two lords, Qing Yu and Lou Canghai, but he did know that this battle was destined to be a bloodbath, causing a great upheaval in Qing Province and even the entire Southern Domain.

"I just want to say, serves them right!"

A cultivator who had concealed his true appearance said gleefully, "The Qing Family and Lou Family bully people, mobilizing so many to hunt down one little cultivator. Getting killed is their own fault for being reckless."

Due to the Qing Family and Lou Family's arrogant disposition, not many cultivators were willing to speak up for them.

The supreme sky Killing Array was fully activated, and invisible murderous thoughts roiled within, as if the world was about to collapse, the terrifying aura invading the consciousness of everyone caught in the killing array!

"What's happening?"

"Where are we now?"

"How could this be?"

The people from the Qing Family and Lou Family were frightened beyond words; the space abruptly changed, as if they had fallen into an infernal abyss, their bodies chilled, every inch of flesh trembling, with life force rapidly slipping away!

Whether they were cultivators of the Holy Embryo Realm or strong people in the Divine Power Realm, everyone was filled with a fear of despair, a sense that the end had come!

"You brat with the surname Ye, do you think a single killing array can truly trap us?"

A mid-stage Divine Power Realm cultivator shouted fiercely, unleashing divine light in an attempt to break out, trying desperately to escape the confines of the killing array.

Whoosh!

A cold wind blew past, carrying glowing bone powder, sticking to him!

"Ah..."

The man screamed, his life force rapidly waning, and in an instant, he transformed from a thirty-year-old middle-aged man to an elderly person with white hair, hunched body, and a face full of wrinkles.

Bang!

Soon after, this mid-stage Divine Power strong person's life force was depleted, his whole body exploded, and even his divine soul completely vanished!

"Hiss..."

This scene made those trapped in the killing array from the Qing Family and Lou Family gasp in shock, frantically looking at their own clan leaders and ancestors!

The Holy Embryo Realm cultivators looked ashen, previously eager to try, but seeing even a mid-stage Divine Power cultivator couldn't withstand the array's might, they felt a chill run down their spines.

This person was unanimously chosen to test the killing array, yet unsurprisingly, in a brief moment, the array devoured his life force, killing him.

Such a way to die was too terrifying; they would rather be killed directly than have their life force consumed and then explode to death!

"You wanted to kill me. Now it's time I send you on your way; from today, the Lou Family shall no longer exist!"

Ye Fan stood within the array, Pure Yang Qi flowing endlessly, his cold gaze sweeping over the Lou and Qing Family members within.

These people represented the backbone of the two families, especially the Lou Family, who had sent out their elite forces!

"Ye Fan, you're too ruthless!" An elite peak Holy Embryo Realm cultivator of the Lou Family shouted at Ye Fan.

"They've brought this on themselves!"

Ye Fan coldly controlled the killing array, and a beam of killing light pierced through the man's forehead, shattering his entire head, the divine soul ground away by the array.

"You came so boldly to kill me, yet now accuse me of being too ruthless? Imagine if I fell into your hands. Would you spare me?"

Ye Fan's words left everyone from the Qing and Lou Families silent. The situation had long been one of relentless vengeance, and his actions were justifiable!

"Hmph! Don't think that relying on the killing array will save your life; today, even with wings, you can't escape, you're doomed to die!!"

Lou Canghai bellowed in anger, completely unaware of the array's lethal power before him.

Chapter 1410: One-Sided Massacre!

Whoosh!

With a furious roar, Lou Canghai unleashed the power of the Domain, swiftly maneuvering within the Killing Array, and launched a devastating punch at Ye Fan!

As the Ancestor of the Lou Family, Lou Canghai had reached the Early Lord Realm decades ago, his strength as vast as the deep sea and unfathomable!

The blazing Punch Ray illuminated the sky, emanating terrifying energy waves, seemingly about to shatter the heavens!

"Old geezer, if you can easily break this array, I'll become your mount!"

The Bai Yan wolf let out a cold laugh, controlling the Killing Array as a long spear formed from Cursed Soil thrust towards Lou Canghai's Taiyang point.

"Is this the power of the Killing Array? It's nothing!"

Although the spear moved swiftly, it lacked great power. Lou Canghai didn't take it seriously at all and grabbed it directly!

Swoosh!

In the next moment.

Lou Canghai, as if grabbing a scorching hot iron, quickly released his hand, his expression changing drastically, hurriedly mobilizing Mystical Skill to expel the Curse Power from his body!

"Hehehe, old geezer, how does the taste of the spear formed from Cursed Soil feel?"

The Bai Yan wolf laughed wildly, even it could only control the Cursed Soil through the Killing Array. How could Lou Canghai dare to grab it with his hand? Wasn't he courting death?

"It's the Curse Power! Damn it!"

Lou Canghai was terrified, no longer relaxed and calm as before, truly feeling the threat of death. The Killing Array was engulfed in swirling sands, with Bone Powder containing terrifying Curse Power flying everywhere.

"Break through, we must break through, no matter what!"

Seeing that even Lou Canghai couldn't resist the terrifying Curse Power, everyone from the Qing Family and Lou Family was shocked.

Fear hung over their hearts, no one could remain calm. If even a lord like Lou Canghai suffered in silence, how would they cope?

Perhaps, only by uniting and working together could they open a path to survival, otherwise, they would all die here!

"Ye Fan, you're ruthless, you've killed so many of our clan members, even set up such a supreme Formation, wanting to wipe us all out!"

The people of the Qing Family and Lou Family looked at Ye Fan standing within the Killing Array, both shocked and angry, while deeply fearful.

"We're equally ruthless. You gathered so many people to hunt me down. If we're talking ruthlessness, I can't compare to you by a long shot!"

Ye Fan wore a gentle smile, but to the people of the Qing Family and Lou Family, it looked like the devil's grin.

"Why waste words with them? Just step aside and let this king activate the grand array to annihilate them!" The Bai Yan wolf's eyes gleamed with excitement, having been pursued for so long, it could finally let out a sigh of relief.

"Charge! We must break through!"

The people of the Qing Family and Lou Family knew there was nothing more to say to Ye Fan. Both sides were already irreconcilable, no chance Ye Fan would spare them.

Boom boom boom boom...

Terrorizing auras spread within the Killing Array. Between life and death, the Qing Family and Lou Family's people burned their Holy Power and Divine Power, their Combat Power skyrocketing as they attacked in unison, attempting to open a path to survival!

Sizzle!

The Array Patterns flickered, and beams of Killing Light surged up like astonishing Divine Swords, sweeping towards the people of the Qing Family and Lou Family.

"Ah..."

A strong cultivator at the Mid-stage Divine Power Realm from the Qing Family was riddled by the Killing Light, even his head pierced with seven or eight transparent holes, his Divine Soul annihilated!

"Ah..."

Another strong person from the Lou Family was directly cut into minced meat by the Killing Light, dying a miserable death!

"Ye Fan, perhaps we can sit down and talk!"

Qing Yu opened a Domain Space, struggling to protect a few family strong people nearby, and spoke.

"Talk? It's too late!"

Ye Fan remained unmoved.

Whoosh!

Whoosh!

Whoosh!

With those words, Ye Fan took action, unleashing the Xuandi Fist, the purple Punch Ray sweeping through the sky like mountain ridges, reaping lives!

In the Killing Array, he wielded peerless might, moving as if in an unclaimed realm. The Bai Yan wolf had long informed him on the key to navigating the Killing Array, so as long as the Bai Yan wolf didn't intentionally target him, there was no problem.

"Stop, do you think killing us will make you safe? You're mistaken. If we die, your death is inevitable!" Qing Yu spoke calmly, his words carrying a hint of threat.

"Is that so? My life and death don't need your concern, anyway, you won't live to see it!"

Ye Fan's face remained unchanged, as the Heaven Slaying Seven Spears and Xuandi Fist alternated, each strike claiming a life!

"Damn it!"

Watching his clansmen fall one by one to Ye Fan's fists, Qing Yu's anger soared to the Nine Heavens, but the situation was beyond his control. He couldn't even protect his own people.

"Aaahhh..."

Lou Canghai's furious Roars were incessant, for the elite members he brought from the Lou Family had already been mostly decimated. If this continued, the Lou Family might indeed be erased from the Cultivation World!

The Cursed Soil and Bone Powder spread across several directions within the Killing Array, each exerting a tremendous effect. While the Killing Light could annihilate strong people at the Divine Power Realm, it couldn't seriously harm Lou Canghai and Qing Yu, strong people at the Early Lord Realm.

The true threat to both was the Cursed Soil!

This terrifying Curse Power was a blend of the blood of the Divine Race and Human-shaped creatures, devouring people's Life Force, rendering even them unable to escape.

"Ancestor, save me..."

Bang!

A strong person from the Lou Family had his Life Force devoured by the Curse Power, letting out a faint cry of despair as his body shattered, dying a tragic death, his Divine Soul corroded away.

"I don't want to die..."

A mid-stage Divine Power Realm expert from the Qing Family couldn't withstand the invasion of the Curse Power and self-destructed his Holy Embryo, hoping to drag someone with him.

Unfortunately, he was destined to be disappointed!

In the Killing Array, Ye Fan moved with the Chasing Star Step, as if traversing through space, attacking and retreating swiftly, giving them no chance to fight back!

"It's chaos, complete chaos!"

"A shocking tragedy! Hundreds of elites from the Qing Family and Lou Family are gone just like that!"

"This Ye Fan truly is decisive in killing. Not long ago, he exterminated many from the Qing Family and Lou Family using a Killing Array, and now he's repeating the same trick!"

"Qing Yu and Lou Canghai are real idiots. Knowing the opponent can set up a Killing Array, yet they didn't prepare. Isn't this seeking death on their own?"

Dragon energy permeated the Killing Array, Killing Light erupted everywhere, Curse Power surged, and every moment, people from the Qing Family or Lou Family were dying, ground to dust by the Killing Array, shocking those watching from afar.

This was a massacre, a one-sided massacre!

Within the Killing Array, except for Lou Canghai and Qing Yu, no one could match Ye Fan.

Moreover, nearby, there was the Bai Yan wolf, controlling the Killing Array with great excitement, using it to slaughter many powerful cultivators.

This would be a great upheaval!

For the entire Qing Province, and even the Southern Domain, it was a whirlwind. Two powerful clans joined forces to hunt down a Holy Embryo Realm cultivator, only to have one family ultimately wiped out by him.

Single-handedly annihilating a cultivating clan — this was unprecedented in the entire Qing Province, the Southern Domain, and even the history of cultivation!

An hour later, blood flowed like rivers within the Killing Array, severed limbs everywhere, and blood stained the entire Killing Array red.

Besides Qing Yu and Lou Canghai, the alliance of over two hundred from the Qing Family and Lou Family didn't have a single survivor, all were killed, their Divine Souls shredded as well.

"Ye, my Qing Family is irreconcilable with you!"

By now, Qing Yu had completely torn off his hypocritical mask, snarling at Ye Fan with a vicious face.

The Cursed Soil was too formidable. Even with his vast, ocean-like Life Force, he was finding it hard to hold on.

Lou Canghai was also struggling, his grayed hair becoming completely white, wrinkles covering his face, and his once straight posture was now hunched.

Qing Yu was no different from Lou Canghai; his Life Force continuously being devoured, turning him from a middle-aged man into an elder with cloudy eyes, devoid of the previous fierce gaze.

"You're right. We've long been in a situation of life and death."

Ye Fan's heart was as hard as stone, without a ripple.

Enemies are meant to be killed; leniency to the enemy is cruelty to oneself!

Since the enmity was irreconcilable, he would weaken the opponent's living strength as much as possible.

After the Bai Yan wolf trapped the two with Cursed Soil, it kept activating the Killing Array, using waves of intense Killing Light to assault them, wearing down their Divine Power and Life Force with a war of attrition!

Ye Fan calmly collected Spiritual Treasures one by one, gathering hundreds of Spiritual Treasures and Space Spiritual Artifacts, and naturally, some other materials and Spiritual Medicine, Elixir Pills, Cultivation Techniques, and Secret Techniques too.

However, Ye Fan was not interested. Currently, for offense, he had the Thunderclap Treasure Skill, Xuandi Fist, and Heaven Slaying Seven Spears, and for movement, he had the world-fast Chasing Star Step.

If he could fight, he would; if not, he'd run. With world-fast speed, unless the realm difference was too great, few could catch him.

Of course, provided he wasn't intercepted, or no matter how fast the Step Technique, it would be worthless. Also, he had to be wary of others sealing space.

Some powerful cultivators could seal a space, prohibiting entry or exit, and even with world-fast speed, it would be useless.

As time went on, the Life Force of Qing Yu and Lou Canghai grew weaker, but they still didn't die.

If they could desperately fight, they would have long done so, but surrounded by Cursed Soil and sealed by the Killing Array, they couldn't break out, let alone find Ye Fan for a fight!

By now, their Divine Power was severely depleted, and their Life Force was nearing exhaustion!

Just as Ye Fan killed the last disciple of the Lou Family, chaos erupted in the Lou Family and Qing Family!

The disciple guarding the Soul Hall was shocked to almost collapse, as one soul lamp after another extinguished.

"Wh... What happened? Why did they all die?" The disciple guarding the Soul Hall couldn't believe his eyes.

Each soul lamp represented the life of a family expert; who could have killed them all in such a short time?

The Qing Family's disciple rushed to summon the Ancestor, unable to explain to him, completely clueless on what to say.

"How could this be? Which force acted against my Qing Family?"

When the Qing Family Ancestor saw all the clan members chasing Ye Fan dead, he nearly fainted.

Though these weren't all of the Qing Family's strength, they represented a considerable core power, now gone!

What comforted him slightly was Qing Yu's soul lamp was still lit.

However—

The next moment, Qing Yu's soul lamp flickered twice, then shone brightly, illuminating the entire Soul Hall.

This brightness was like dazzling fireworks, splendid yet followed by utter silence — Qing Yu's soul lamp, after shining, was snuffed out!

"No... Yu Er..."

The Qing Family Ancestor cried out, grabbing the soul lamp, but couldn't feel any Divine Soul fluctuation!

"Who? Who killed Yu Er?!"

The Qing Family Ancestor burned with rage, reaching the Nine Heavens, activating a Secret Technique, with mysterious sensing, roughly figuring out where Qing Yu died and rushed there urgently!

He wanted to personally cut the one who killed Qing Yu into a thousand pieces, grind their bones to dust!
