### **Chapter 721 - Overturning the Japan Cultivation World! Two**

Chen Feilian had almost despaired, but when he sensed the powerful aura coming from afar, hope rose again.

In his view, as long as he withstood Ye Fan's wave of attacks, the strong people of the Japan Cultivation World would arrive and rescue him.

This swept away his listlessness, his momentum soared, and he even threw harsh words again.

"Really?"

Ye Fan, fearless, snorted coldly and immediately activated the Flying Shuttle, flying toward Chen Feilian, "I'll slaughter you first!"

Whoosh!

As soon as the words fell, Ye Fan, moving at high speed, stirred his consciousness, and the Xuanye Flying Blade whistled out, turning into a streak of white light, shooting toward Chen Feilian.

"Damn it!"

Chen Feilian cursed inwardly, swayed his feet, his Gang Qi surged, and he sidestepped to dodge Ye Fan's sharp attack.

Missing with one strike, Ye Fan did not linger, frantically urging the flying knife to assassinate, determined to send Chen Feilian to discuss life with the King of Hell before the strong people from the Japan Cultivation World could arrive.

Whoosh! Whoosh! Whoosh!

Swish! Swish! Swish!

For a moment, flying knives whistled, white light flashed, and figures flitted. Under Ye Fan's control, two Xuanye Flying Blades constantly chased and relentlessly stabbed at Chen Feilian, who dodged left and right like a dog that had lost its home, constantly on the brink of death.

A moment later, just as Chen Feilian was about to be overwhelmed, two strong people from the Japan Cultivation World arrived first, both dressed in kimonos embroidered with the Japan Cultivator Self-Defense Force badge, hanging Eastern Blades at their waists.

Hmm?

Sensing the aura of the two, the fire of hope that was about to be extinguished in Chen Feilian's heart flared up again, unlocking his potential, and his speed increased markedly.

Even though Ye Fan sensed the presence of the two, he did not stop his hand, continuing to pursue and kill Chen Feilian.

"What's going on? This kid is only a Level 8 Ninja, why can he suppress Chen Feilian?"

The two strong people from the Japan Cultivation World did not directly intervene but stood outside the battlefield to watch. One of them, a crew-cut middle-aged man, was shocked beyond measure.

He was Mawari One, the official leader of the Japan Cultivist Self-Defense Force, who had long stepped into the Early-Stage of Ninja God realm, but due to limited talent, he had not broken through the realm for years and could only achieve in martial arts.

Having seen Chen Feilian before, he knew well the power of Chen Feilian—if Chen Feilian utilized Chen Daozang's globally renowned two deadly moves, "Shadowless Yin Demon Slash" and "Xuanyin Gate", he could only face defeat.

Under such circumstances, seeing Chen Feilian completely suppressed and pursued by Ye Fan, how could he not be shocked?

"Damn, this China bastard has a Flying Artifact, and its quality is not bad. After activating it, his speed is even faster than an Early-Stage Ninja God!"

Another middle-aged man spoke, his long hair and cold, angry expression evident as his eyes brimmed with murderous intent.

He was Dai Yu Ren's father, Dai Yuanchen's uncle, holding the position of an elder in the Cabinet of the Japan Cultivator Self-Defense Force, his status not less than Mawari One.

Contrarily, because he was half-stepping into the Mid-stage Ninja God (Gang Qi Great Success) realm and was a core member of Dai Yuan Family, his position, whether in the Japan Cultivator Self-Defense Force or the entire Japan Cultivation World, was more prominent than Mawari One, next only to the elusive ruler of the Japan Cultivator Self-Defense Force, Mawari One's father.

"Daiyuan Jia, Mawari One seniors, this scum just killed Dai Yuanchen, please take action and kill him!"

After dodging Ye Fan's Flying Knife Assassination again, Chen Feilian saw Daiyuan Jia and Mawari One standing there watching and not intervening, almost fainting from anger, and immediately roared.

With the roar, Chen Feilian moved in thought and quickly closed in on the two.

Whoosh!

Seeing this, Ye Fan, fearless, continued to urge the Xuanye Flying Blade to assassinate.

Swish!

The next moment.

Just as Chen Feilian approached Daiyuan Jia, Daiyuan Jia suddenly drew his blade.

"Die!!"

With the blade unsheathed, Daiyuan Jia bellowed angrily and gripped the sword with both hands, slicing at the whistling Xuanye Flying Blade.

With one slash, the surging Gang Qi flowed from Daiyuan Jia's palms into the Mid-level Magical Artifact Eastern Blade, slicing out a half-moon-shaped sword light!

One Strike Style,

Half Moon Slash!

Dai Yuanchen and Dai Yu Ren both had died at Ye Fan's hands, which infuriated Daiyuan Jia, his killing intent intense. Seeing Ye Fan approaching, he deployed the most potent martial arts of the Dai Yuan Family and the Japan Cultivation World, seeking to slay Ye Fan in one strike!

Clang!!

A crisp sound, the half-moon-shaped sword light split the whistling Xuanye Flying Blade, directly sending it flying out.

Immediately, the half-moon-shaped sword light, still intact, carrying terrifying energy fluctuations, cut toward Ye Fan.

Danger!

Ye Fan's heart trembled, he quickly urged the Flying Shuttle to change direction, avoiding the sword light.

Crack—

The half-moon-shaped sword light, passing through the afterimage left by Ye Fan, shattered a large tree in front of him.

"Thanks to Senior Daiyuan Jia for lending a hand to rescue!"

Seeing Daiyuan Jia breaking Ye Fan's Flying Knife Assassination not only, but also repelling Ye Fan, Chen Feilian secretly sighed in relief, letting go of his worries, and thanked with a bow.

Daiyuan Jia frowned tightly, remaining silent.

Clearly, he had not expected Ye Fan to dodge his strongest slash!

"This China monkey, relying on the Flying Artifact, not only is extremely fast, but also in the air, if he does not attack proactively, we have almost no hope of killing him!"

Mawari One also furrowed his brows, and he and Daiyuan Jia, filled with killing intent, had rushed here, thinking they could easily slay Ye Fan to avenge the Dai Yuanchen brothers, but had not anticipated such difficulty.

Difficult, huh?

Whoosh!

As soon as Mawari One's words fell, the sharp sound of breaking air rang out again!

The Xuanye Flying Blade, sent flying out, under Ye Fan's control, suddenly dove from high above, shooting again toward Daiyuan Jia, Mawari One, and Chen Feilian.

"Hmph!"

Dai Yuan Jia let out a cold snort, lifted his right hand, and slashed out once more.

In the previous engagement, he had gained a clear understanding of the power of Ye Fan's Flying Knife Assassination, and thus he didn't use his killing move "Half Moon Slash". Instead, he gripped the sword with one hand, merely intending to break Ye Fan's attack.

Clang!

A crisp sound rang out, and the Xuanye Flying Blade was once again shaken off, flying even further than before!

Huh?!

This outcome slightly startled Dai Yuan Jia; the power of his current strike was far from that of the first, suggesting that the Xuanye Flying Blade should have been repulsed a shorter distance.

"Be careful!"

Just as Dai Yuan Jia was astonished, Chen Feilian suddenly shouted a warning.

Swoosh!

Suddenly...

Ye Fan, stepping on the Flying Shuttle, shot towards Dai Yuan Jia and the other two like a phantom!

"Seeking death?"

As the sound of tearing through air arose, Dai Yuan Jia snapped out of his daze, gripped his sword with both hands, and was about to slash out once again!

However—

Ye Fan was faster!

Ye Fan, flying at high speed, his eyes glittering with golden light, gathered all his condensed and compressed Mind Power on the Xuanye Flying Blade tucked within his sleeve.

Just like the day he had killed Emperor Bai during the Qing bang competition!

This was Ye Fan's strongest attack!

The Flying Blade was launched again!

This time, due to the extreme speed and proximity, Dai Yuan Jia and his companions almost heard no sound.

All they saw was a streak of white light!

"Pfft—"

The white light flashed, and blood splattered!

On the open ground, Mawari One, who stood at the forefront, had almost no time to react before his head was pierced by the Xuanye Flying Blade!

Chen Feilian, familiar with Ye Fan's fighting style, was very alert and began to dodge as soon as he spoke, and was now dozens of meters away.

"You gamble with your life!"

Meanwhile, Dai Yuan Jia, startled by this sudden scene, paused with his Eastern Blade in midair. Then with a roar, he slashed directly at Ye Fan above him!

With one strike, a crescent-shaped sword light burst forth, slicing through the air like a beam of light, evaporating the air in its path and leaving a vacuum with terrifying power.

Swoosh!

In a life-or-death moment, Ye Fan pushed the Flying Shuttle to its limit, rocketing vertically into the sky like a jet, fast as lightning.

In a flash, the crescent-shaped sword light passed just beneath Ye Fan's feet, the fierce energy fluctuations directly cracking Ye Fan's Protective Aura, causing his Qi and blood to churn and almost causing him to fall off the Flying Shuttle.

"Ss~"

Seeing Ye Fan escape once again, Dai Yuan Jia trembled with rage, his mouth twitching as he drew in a cold breath.

And... Chen Feilian felt a shiver in his heart!

If before he had merely been wary of Ye Fan's Flying Knife Assassination, now, at this moment, he began to dread Ye Fan himself!

He had never imagined that Ye Fan would take the initiative to attack, risking being cut down!

"Boy, that ant below is much stronger than you; this is too dangerous, give it up!"

Elder Xuan too had not expected Ye Fan to dare to take such a risk, feeling a lingering fear, he quickly spoke up to remind him.

Upon receiving Elder Xuan's Mind Transmission, Ye Fan's eyebrows furrowed, and he remained silent.

Just now, during his initial attack, he had deliberately used only the power of Great Perfection to mystify his opponent, causing Dai Yuan Jia to grow suspicious, then he seized the opportunity to close the distance and execute his lethal strike.

Originally, he had intended to take the opportunity to strike down Chen Feilian, but Chen was too vigilant and timely perceived his intent, leaving him no choice but to shift his target and shoot Mawari One!

However—

Even with his meticulous planning, Dai Yuan Jia, with half a foot in the Mid-stage Ninja God realm and immense combat power, had nearly cut him down.

This left him with a chill and also made him realize that it was nearly impossible to kill Chen Feilian today, unless Elder Xuan took action.

Considering Elder Xuan only had one chance to act, Ye Fan decided to give up.

In his view, using Elder Xuan's chance to act on Chen Feilian would be like using a cannon to swat a mosquito, a waste of major resources for a minor end.

Swoosh!

Coming to this realization, Ye Fan made a swift decision and immediately activated the Flying Shuttle to leave.

"Elder Dai Yuan Jia, this lad is sly and cunning, with astonishing potential. If he escapes today, he will definitely become a disaster for Japan's Cultivation World!"

Seeing Ye Fan attempting to escape, Chen Feilian panicked. Having felt a deep threat from Ye Fan, he naturally did not want Ye Fan to leave Japan alive. Instead, he planned to use the might of Japan's Cultivation World to eliminate Ye Fan.

Swoosh!

Without responding, Dai Yuan Jia moved swiftly, chasing after Ye Fan. Simultaneously, he lifted his wrist, using the special communicator on his wrist to contact the Dai Yuan Family's intelligence officer. In a low voice, he commanded: "The sneaky monkeys, Xiao Ren and Xiao Chen, have a Flying Artifact on them. I can't attack him; immediately inform my brother and father to take action!"

Also, Mawari One has been killed; it's necessary to notify his father to rally all of Japan's Mid-stage Ninja Gods and above to take action, we absolutely must not let this China monkey escape Japan!"

"China monkey, today, even if you grow wings, you cannot escape Japan—I will flay you alive and feed you to the dogs!!"

After ending the call, Dai Yuan Jia ferociously chased after Ye Fan, roaring furiously.

Chapter 722 - Overturning the Japan Cultivation World! Three

Fuji Mountain mid-slope, Dai Yuan Family Mansion Villa No. 1.

A middle-aged man with long hair was sitting cross-legged in the study, frowning and maintaining a cold expression. His eyes radiated a chilling murderous intent that, much like the festive atmosphere of the New Year, could not be concealed. Centered on his body, it spread towards the surroundings, making the atmosphere of the study and even the entire villa very oppressive.

In any country and place, Villa No. 1 represents supremacy.

The fact that the middle-aged man could live in Villa No. 1 indirectly indicated his status within the Dai Yuan Family.

He was none other than the current Clan Leader of the Dai Yuan Family, Daiyuan Taihe!

Because of the Dai Yuan Family's transcendent status in the Japan Cultivation World, as the clan leader, it had been many years since he last displayed such intense murderous aura—for in Japan, no force dared to openly oppose the Dai Yuan Family!

And yet... just moments ago, Dai Yuanchen had been killed!

Dai Yuanchen was not only the number one genius of the Dai Yuan Family and the Japan Cultivation World but also his son!

The vengeance for killing one's own son is inexorable!

If it were not for his brother, Daiyuan Jia, who had volunteered to kill Ye Fan, he would have gone himself.

"Bring me that Huaxia monkey's head to see, I want to offer sacrifices to Xiao Chen and Xiao Ren."

This was his demand, even an order, to his brother Daiyuan Jia!

Click! Click!

Soon, before Daiyuan Taihe's murderous aura had subsided, the sound of wooden sandals striking the wooden floor arose, and someone approached the study.

"Bang, bang..."

The visitor stopped at the door of the study, footfall halts abruptly, replaced by knocking.

"Come in!"

Daiyuan Taihe spoke in a deep voice, his face expressionless as he looked toward the study door.

Whoosh—

The sliding door of the study was pushed open, and as the visitor entered, he immediately bowed: "Clan Leader."

"Has the China monkey who killed Xiao Chen and Xiao Ren died?" Daiyuan Taihe asked outright.

"Not yet..."

"Then what are you doing here?" Daiyuan Taihe interrupted coldly.

"Clan Leader, I came because I received a call from Daiyuan Jia. I need to report an extremely important matter to you."

As the information officer of the Dai Yuan Family, Dai Yuan Ben Tian shared the same generation as Daiyuan Taihe but was not from the same father and wasn't even a direct member. Moreover, due to the great disparity in their statuses, he was very respectful, "Just now, Daiyuan Jia and the leader of the Japan Cultivator Self-Defense Force, Matoichi, went to kill that China monkey, however..."

"What happened?"

Daiyuan Taihe's eyebrows raised, sensing a bad omen in his heart.

"It turned out that Matoichi was killed by that China monkey and Daiyuan Jia alone could not defeat that China monkey!" Dai Yuan Ben Tian reported truthfully.

"What happened? Wasn't the intelligence saying that the China monkey was only at the strength of a Level 8 Ninja? Even if he is a once-in-a-millennium genius of the Hua Xia Cultivation World who can challenge beyond his level, Daiyuan Jia has nearly stepped into the Mid-stage Ninja God Realm—he shouldn't be Daiyuan Jia's match!"

A hint of surprise crossed Daiyuan Taihe's chilling face. After a moment's consideration, he deduced there must be some hidden truth.

"That China monkey was never Daiyuan Jia's match, but he possesses a Mid-grade Flying Magical Artifact that significantly increases his speed, not to mention allowing him to fly, Daiyuan Jia couldn't reach him in the air to strike him down."

Dai Yuan Ben Tian answered swiftly, "Currently, Daiyuan Jia is chasing that China monkey and asked me to report to you, requesting you and the Old Clan Leader to intervene in the pursuit. We absolutely cannot let that China monkey escape from Japan!"

"So that's how it is! I wondered how Xiao Chen possibly died at that China monkey's hands. He used the Mid-grade Flying Magical Artifact to win with speed," Daiyuan Taihe murmured, feeling slightly better, though his killing intent did not lessen, "Since Daiyuan Jia cannot take his head, then I will personally make the trip!"

"Should I still report to the Old Clan Leader?" asked Dai Yuan Ben Tian.

"For chasing down that China monkey, I alone am enough. Father is currently in seclusion to consolidate his High-level Ninja God Realm and must not be disturbed..." Daiyuan Taihe stated coldly.

"I'll go with you."

This time, before Daiyuan Taihe's words fell, an old yet deep voice responded.

As the words ended, the sliding door of the study slowly opened, and a figure entered the study like a specter.

The visitor wore an extremely old-fashioned grey robe, but his skin was as tender as a newborn's, his hair black and shiny.

At first glance, the visitor appeared very young.

However—

Once you saw his eyes and felt the weathered aura about him, you immediately reassessed.

Because, he was none other than the real power behind the Dai Yuan Family, the number one strong person in the Japan Cultivation World—Daiyuan Tianyou!

"Father."

"Old Clan Leader!"

Daiyuan Taihe and Dai Yuan Ben Tian simultaneously stood up to bow.

"Taihe, you disappoint me," said Daiyuan Tianyou coldly, casting a glance at Daiyuan Taihe.

"Father, you?"

Faced with Daiyuan Tianyou's reprimand, Daiyuan Taihe's expression changed, full of confusion.

"Even if you kill that Chinese boy, can Xiao Chen be revived?" Daiyuan Tianyou asked coldly.

"\_\_"

Daiyuan Taihe pursed his lips, remained silent, but secretly pondered the intent behind Daiyuan Tianyou's words.

"To develop things to this point, killing that Chinese boy outright is the most foolish approach!" Daiyuan Tianyou declared coldly.

"Old Clan Leader, are you worried about the boy's master or even the Yanhuang Organization seeking retaliation?" Daiyuan Ben Tian hesitated for a moment before asking presumptuously.

"That Chinese boy has been recklessly killing in Japan, already violating the rules. Even if we strike him down, the Yanhuang Organization has nothing to say. But his master is notorious for his overbearing protection, and it's very likely that he will retaliate against us."

Daiyuan Tianyou spoke word by word, "But... that's not the point! Even if his master has broken through the 'Top Level Ninja God' realm, intending to forcibly protect his disciple, we are not afraid. By that time, the American Alliance will not let the situation develop but will strongly intercept—though the Evil Emperor of Huaxia is strong, it doesn't mean he can confront the entire American Alliance alone."

"Father, do you mean to use this situation to our advantage?" Daiyuan Taihe finally understood Daiyuan Tianyou's intent.

"That Chinese boy, at the Huaxia Youth Tournament, used a mysterious Mind Attack Secret Technique to successfully challenge higher levels. Once we catch him, we will force out that Mind Attack Secret Technique and the Evil Emperor of Huaxia's Cultivation Technique 'Xuansha Fist' from him. Then use him as a bargaining chip to negotiate with the Evil Emperor of Huaxia— if you want that Chinese boy to live, exchange it with the insights and experiences of breaking through the 'Top Level Ninja God'!"

Daiyuan Tianyou revealed the solution, "This way, not only will there be no risk of retaliation from the Evil Emperor of Huaxia, but we can also maximize our benefits."

"Old Clan Leader, you are absolutely right. But there is one problem now," Daiyuan Ben Tian suddenly thought of something and hastily voiced a reminder.

"What is it?" Daiyuan Tianyou asked in a deep voice.

"Daiyuan Jia couldn't kill that Chinese boy, and not only had he asked me to report to the clan leader and you, but he also informed Machida Tenshu's father, calling on all Mid-stage Ninja Gods and above to pursue and kill that Chinese boy..." Daiyuan Ben Tian spoke rapidly.

However—

Before he could finish his sentence, Daiyuan Tianyou coldly interrupted, "This idiot!"

Shua!

As he spoke, Daiyuan Tianyou's figure flashed and instantly vanished from the study.

Seeing this, Daiyuan Taihe didn't utter another word and hurriedly followed suit.

Meanwhile.

From a shrine in Chiyoda District, Jiuduan Slope, Tokyo, a deep roar was heard: "What did you say? My son was killed by a Chinese monkey?!"

"Yes, old Leader."

At the entrance of a secret room in the shrine, a middle-aged man dressed in the Japan Cultivator Self-Defense Force attire knelt on the ground, his body trembling as he reported, "That Chinese monkey first killed Dai Yuanchen and Dai Yu Ren. The leader and cabinet elder Dai Yuan Jia went to kill him, but because he possessed a Mid-grade Flying Magical Artifact and a mysterious Mind Attack Secret Technique, he ended up killing the leader..."

"Where is that Chinese monkey?" Machida Zuo Tian angrily inquired.

He was the former leader of the Japan Cultivator Self-Defense Force.

After his son Machida Matoichi advanced to the Early-Stage of Ninja God realm, he passed on the leader's position to Matoichi and then came here, partly for secluded cultivation and partly to act as the Japan Guardian God, guarding the symbol of Japan's Shinto, the 'Jingguo Shrine'!

"Dai Yuan Jia is currently chasing him, but where exactly, we do not yet know..."

"What are you waiting for? Go and ask now!" Machida Zuo Tian shouted angrily, his killing intent boiling, as if he wished to tear Ye Fan into pieces to relieve the hatred in his heart!

"Yes!"

The middle-aged man didn't dare to delay, immediately took the command, and then raised his wrist, using a special communicator on his wrist to contact Dai Yuan Jia, to ascertain Ye Fan's location, learning that Ye Fan was operating the Flying Shuttle, speeding towards the Jingguo Shrine.

"Hmph!"

Machida Zuo Tian clearly heard the conversation between the middle-aged man and Dai Yuan Jia, and thereafter he released his Mind, instantly sensing the rapidly approaching aura of Ye Fan and Dai Yuan Jia, his killing intent exploding.

Shua!

As the words fell, Machida Zuo Tian's figure flashed, shooting out of the secret room and into the courtyard, then, energizing the Gang Qi within his body, he soared up, like an angry great hawk, rapidly pouncing towards Ye Fan.

Gang Qi Great Success Supreme Strongman?!

Within the sky, Ye Fan, who was fully operating the Flying Shuttle, evading Dai Yuan Jia's pursuit, suddenly sensed the aura of Machida Tianyou, his heart shook instantaneously.

"Chinese monkey, I'll lay your corpse in front of the shrine and let it dry into a mummy!"

Ahead, Machida Zuo Tian rapidly approached, roaring furiously, his voice shaking the heavens, chilling to the bone.

"Chinese monkey, let's see where you can run to now?!"

On the ground, Dai Yuan Jia sensed Machida Zuo Tian's aura, and upon hearing Machida Zuo Tian's words, he chuckled coldly.

"You are playing with fire!"

Facing a critical situation with threats ahead and behind, Ye Fan was not intimidated but instead roared in anger, deciding to go completely mad once and for all!

Today, Japan will tremble!

He intended to make every Japanese remember forever!!

Chapter 723 - Overturning the Japan Cultivation World! Four

Ye Fan hastened the flying shuttle. Although its speed increased substantially, it was roughly comparable to that of Daiyuan Jia, who had nearly reached the mid-stage Ninja God level. Therefore, Ye Fan was unable to shake off Daiyuan Jia.

At this moment, with the emergence of Mafeng Zuo Tian, Ye Fan realized that escaping by flying shuttle was nearly impossible—Mafeng Zuo Tian not only could pursue him through the air using Qi Control Flight, but he was also faster than Ye Fan!

In such a situation, Ye Fan was angered and decided to use his final trump card.

"Playing with fire?"

With a furious roar, Mafeng Zuo Tian, ablaze with killing intent like an arrow released from a bow, charged rapidly towards Ye Fan, "You're risking your life!"

On the ground, Daiyuan Jia, seeing Mafeng Zuo Tian take action, felt greatly relieved and chose to watch.

Clearly, in his view, with Mafeng Zuo Tian's strength, killing Ye Fan would be as easy as flipping his hand.

Whoosh!

Confronted by the charging Mafeng Zuo Tian, Ye Fan did not meet him head-on, hesitated for a moment, then changed direction, darting obliquely away.

"Can you actually escape?"

Mafeng Zuo Tian shouted explosively, pushing his speed to the limit and changing direction to pursue Ye Fan, intent on not giving up until Ye Fan was dead.

"Elder Xuan, I'll need you to deal with him later. Any problem with that?"

Ye Fan ignored Mafeng Zuo Tian's threats and communicated with Elder Xuan using his mind.

"Just an ant, easily crushed," Elder Xuan quickly replied, "However, I only have one chance to strike. Are you sure you want to waste it on this ant?"

"Driven by circumstances, if I do not kill him, I cannot escape," Ye Fan replied helplessly.

"That may not be the case."

Elder Xuan replied, "When I said I could only strike once, I meant personally assisting you in killing your enemy. Apart from that, I can help you three times."

"Assist in killing?" Ye Fan was intrigued.

"I can activate the Nine Heavens Mysterious Crown to disorient his soul, causing the ant to become momentarily confused," Elder Xuan explained, then sighed, "However, given the gap in strength between you and him, even if I disrupt his soul and leave him confused, you still won't be able to break through his protective aura and kill him."

"If you can disrupt him, I can take the chance to escape, then land on the ground and use the Ghost Ring to hide my Qi, leaving them floundering," Ye Fan was thrilled and made up his mind immediately.

Initially, he had planned on having Elder Xuan take out Mafeng Zuo Tian, but doing so would cause Elder Xuan to fall into a deep sleep until he had absorbed enough Heaven and Earth Primordial Qi to awaken.

And he was well aware that Mafeng Zuo Tian was not the only mid-stage or higher Ninja God in the Japan Cultivation World; killing Mafeng Zuo Tian did not mean his life was out of danger.

Now that Elder Xuan could disrupt Mafeng Zuo Tian's soul, gaining him time to escape, nothing could be better!

"Strike now?" Elder Xuan asked.

"Not yet, I'm about to do something big, then escape!" Ye Fan responded calmly, not losing sight of his plan despite having a way out.

"Do something big? What are you going to do?" Elder Xuan was puzzled.

"Ninety years ago today, the Japanese launched the invasion war against China, ravaging the Huaxia land, slaughtering the Huaxia compatriots, raping Huaxia women. Where their beastly hooves trod, houses lay in ruins!"

Ye Fan reiterated to Elder Xuan through mind transmission, his anger surging, "Until today, the Japanese have not repented for their atrocious crimes committed back then. Instead, they have buried the war criminals here, venerating them like gods!"

"Today, I will shatter the Jingguo Shrine with one foot, capture that bunch of ghosts, and make these little demons forever remember the grievous crimes of that day!"

Towards the end, Ye Fan's emotions became quite agitated. His form paused again as he continued to change direction and directly hastened the flying shuttle towards the location of Jingguo Shrine!

"What is he doing at the shrine?"

On the ground, Daiyuan Jia saw Ye Fan change his escape route again, this time flying towards Jingguo Shrine, and couldn't help but be stunned.

Not just him, even Mafeng Zuo Tian, who was pursuing Ye Fan through the air, was considerably puzzled.

The next moment.

Under the gazes of Mafeng Zuo Tian and Daiyuan Jia, Ye Fan directly flew towards the stele engraved with the words Jingguo Shrine!

This discovery simultaneously gave them a bad premonition—Ye Fan was about to destroy Jingguo Shrine!

"You Chinese monkey, what are you trying to do?"

Mafeng Zuo Tian, feeling uneasy, roared his question.

"Little Japan, ninety years ago today, you launched the '9.18' incident, officially starting the invasion of China. Today, I will destroy this tomb, capture the ghosts you revere, and make you forever remember '9.18,' remember the heinous crimes you committed then!"

Ye Fan gathered his Qi in his Dantian and responded loudly.

"You dare?!"

Mafeng Zuo Tian was furiously unstoppable, exerting his utmost in Qi Manipulation Flight to stop Ye Fan.

Dare I?

Bang—

The response to Mafeng Zuo Tian was a dull thud!

The next moment.

Before Mafeng Zuo Tian could catch up, Ye Fan fiercely jumped off the flying shuttle, stomping directly on Jingguo Shrine!

Gang Qi erupted, the stele exploded, and debris flew everywhere!

With just one stomp, Ye Fan shattered the stele symbolizing Japan's Shinto—Jingguo Shrine!

"Uh..."

Seeing this scene, whether it was Mafeng Zuo Tian chasing Ye Fan, Daiyuan Jia observing from afar, or even the members of the Japan Cultivator Self-Defense Force inside Jingguo Shrine, everyone was dumbstruck.

They widened their eyes and opened their mouths, motionlessly watching Ye Fan, who stood proudly in mid-air on the flying shuttle.

"Has this guy gone mad?"

After a brief moment of stunned silence, the members of the Japan Cultivator Self-Defense Force inside Jingguo Shrine all had this thought cross their minds.

Chapter 724 - Overturning the Japan Cultivation World! Four

"Elder Xuan, quickly absorb these ghosts to recover your Primordial Qi!"

Ye Fan paid no heed to the horrified expressions of Mafeng Zuo Tian and the others, nor did he consider the impact of his actions today. After destroying the Jingguo Shrine in one kick, he immediately communicated with Elder Xuan via Mind Transmission, instructing the elder to collect the ghosts buried beneath the shrine.

"Alright!"

In the Consciousness Space, Elder Xuan promptly responded and then waved his hand to emit a Golden Light, activating the Nine Heavens Mystic Crown.

In an instant.

Golden Light flickered, and a golden vortex reappeared, producing a terrifying suction force from within the vortex.

Whoosh, whoosh, whoosh, whoosh...

Under the influence of the suction, countless ghosts surged up from underground, converging and rushing toward the golden vortex with rolling evil yin.

"You're courting death!!"

Feeling the rolling evil yin ahead and realizing that Ye Fan was absorbing the ghosts, Mafeng Zuo Tian, driven insane with rage, completely lost control, bounced up, and slashed at Ye Fan from afar.

With one strike, the sword light flashed, carrying a terrifying energy fluctuation, aiming straight for Ye Fan.

Swish!

Ye Fan activated the Flying Shuttle, his figure flashed, and he zipped out hundreds of meters instantly.

Boom!

The sword light unleashed by Mafeng Zuo Tian pierced through the afterimage left by Ye Fan and then, from above, ferociously cleaved down, creating a crack several meters long where the Jingguo Shrine once stood.

The dreadful Energy Wave spread out from the crack as its center, like a hurricane ravaging everything in its path, reducing nearby houses, flowers, and trees to dust in an instant.

Pfft—

At the same time, the members of the Japan Cultivator Self-Defense Force who were near the Jingguo Shrine were swept by the energy wave and became nothing more than a pile of flesh and blood without exception.

"Ah...!"

Witnessing his own slash not only failing to kill Ye Fan but also completely destroying Jingguo Shrine, and even slaying several members of the Japan Cultivator Self-Defense Force, Mafeng Zuo Tian trembled with fury, his eyes reddening and bellowing non-stop, like an enraged demon.

Just then...

The golden vortex above Ye Fan disappeared, and all the ghosts buried under Jingguo Shrine were collected by Elder Xuan into the Nine Heavens Mystic Crown, transforming into pure Heaven and Earth Essence.

"You China monkey, I'm going to make you wish you were dead!!"

After howling, Mafeng Zuo Tian locked onto Ye Fan's aura, his figure flashed as he flew rapidly to close the distance, eager to unleash a killing blow.

"Elder Xuan, you can make your move now!"

In the face of danger, Ye Fan calmly used Mind Transmission to inform Elder Xuan.

No reply came.

In the Thought Space, Elder Xuan stood with his hands behind his back, his eyes shimmering with Golden Light, shooting out crimson Gold rays.

The light instantaneously burst from Ye Fan's Thought Space and, transforming into an invisible force, silently aimed at the rapidly approaching Mafeng Zuo Tian.

The next moment.

Mafeng Zuo Tian's body violently shook, his eyes glazed over, and he became disoriented, plunging straight from the sky.

"What... what's going on? What happened to Mafeng Zuo Tian?!"

This bizarre scene completely terrified Daiyuan Jia nearby.

He stared wide-eyed as though witnessing the most inconceivable thing in the world, staring at Mafeng Zuo Tian motionlessly as if he were a stone sculpture!

"Uh..."

Meanwhile, Chen Feilian, who was watching the battle from a distance, was also stunned by this sudden development, to the point that he forgot to move forward, frozen in place.

Seizing this opportunity, Ye Fan drove the Flying Shuttle to its full power. His figure flashed like a streak of white light and disappeared instantaneously.

Clap—

A few seconds later, as Mafeng Zuo Tian was about to hit the ground, he came to his senses from the daze, emitting a burst of Gang Qi from his feet, propelling himself back up into the air.

"Huff... huff..."

In the sky, Mafeng Zuo Tian did not immediately seek out Ye Fan's aura but caught his breath with a lingering fear, even his breathing becoming heavy.

Just now, he had suddenly been subjected to a terrifying spiritual attack, his Consciousness quivered, and illusions flickered in his mind, rendering him befuddled.

If it weren't for his strong power and firm Martial Arts Will, he might well have been lost forever in those illusions, never to awaken.

"Senior Mato, what happened to you just now?"

Immediately after, before Mafeng Zuo Tian could recover from the shock, Daiyuan Jia quickly came over, looking up at the sky, and asked with a puzzled expression.

"I just suffered a spiritual attack!"

Mafeng Zuo Tian did not hide anything and spoke in a low tone.

"A spiritual attack?" Daiyuan Jia's face changed as he said, "Could it be that a shinobi of the Ninja God Realm is hiding nearby?"

"That's not right. If there really was a Magician hidden in the vicinity, we should have been able to detect his presence—even if he is skilled at concealing himself, in the moment he makes a move, his presence would leak. But when you were just attacked, I didn't sense the presence of any strong people nearby."

Shortly after, without waiting for Mafeng Zuo Tian to respond, Daiyuan Jia answered his own question, negating Mafeng Zuo Tian's speculation.

"Could it be that that China monkey holds a Magic Attack artifact in his hands?" Mafeng Zuo Tian made another deduction.

"It must be so. His master, the Evil Emperor of Huaxia, practices Dual Cultivation of Magic and Martial Arts, and his Magic Cultivation is astounding. It's very likely that he has crafted a powerful Attack Magical Artifact for him."

This time, Daiyuan Jia first agreed with Mafeng Zuo Tian's guess, then suddenly thought of something, and exclaimed, "No good, we let that kid escape!"

"He won't get away!"

Mafeng Zuo Tian snorted coldly.

"Senior Mato, I can't sense that China monkey's presence. Can you?" Daiyuan Jia's tone was somewhat grave.

Ye Fan first killed Daiyuanchen, the two Daiyuren brothers, and then killed Matoichi, the overt leader of the Japan Cultivator Self-Defense Force. Just now, he even destroyed the Jingguo Shrine, symbolic of Japan's Shinto, and captured the ghosts of those Japanese meritorious figures from World War II...

It can be said without exaggeration that Ye Fan's actions can no longer be considered a provocation to Japan but a trampling on the pride of the Yamato Clan!

Hearing Daiyuan Jia's words, Mafeng Zuo Tian raised an eyebrow, no longer spoke, and fully released his Mind to sense Ye Fan's existence.

Hmm?!

Upon sensing, Mafeng Zuo Tian's brows suddenly knitted together, forming a Sichuan character shape, he muttered to himself, "I can't sense him either. What's going on? With his speed, even if he fled with all his might, he couldn't possibly have escaped my sensing range in such a short time!"

"He has a High-level Magical Artifact, the Ghost Ring, on him, which can hide his presence."

Just as Mafeng Zuo Tian was at a loss, Chen Feilian suddenly appeared in front of them, solving the mystery for both, "Just as I used a 'Concealing Talisman', it can also hide one's presence."

"What do we do now?"

Daiyuan Jia's face became extremely ugly; if Ye Fan were to leave Japan alive, it would be a disgrace to the entire nation.

Even, in Ye Fan's own words, it would be a humiliation that Japanese people would remember forever!

Without answering, Mafeng Zuo Tian's face was also very ugly, and Chen Feilian intended to say something but suddenly sensed two powerful presences appearing in front.

Whoosh!

All three immediately looked intently and saw Daiyuan Tianyou, the strongest person in the Japan Cultivation World, flying over with Daiyuan Taihe by controlling Qi.

"What's going on?"

As Daiyuan Tianyou and Daiyuan Taihe stopped in their tracks, looking at the Jingguo Shrine, which had become ruins beneath them, their faces changed. Daiyuan Taihe blurted out, "Did that damned China monkey do this?"

"Yes."

Daiyuan Jia nodded his head.

And Mafeng Zuo Tian's face turned green.

As the second strongest person in the Japan Cultivation World and the covert powerholder of the Japan Cultivator Self-Defense Force, he played the role of the Japan Guardian God.

Now, right under his eyes, Ye Fan had destroyed the Jingguo Shrine and captured the ghosts of the meritorious figures from World War II, which was akin to a slap in his face!

"Where is that China kid?" Daiyuan Tianyou spoke up, going straight to the point.

"Father, that China monkey has escaped," said Daiyuan Jia, his face also turning rather ugly. If he had not let down his guard earlier and had cooperated with Mafeng Zuo Tian against Ye Fan, they would not have allowed Ye Fan to destroy the Jingguo Shrine and leave so easily.

"Escaped?!"

Upon hearing this, Daiyuan Tianyou felt both anger and joy.

He was angry because both Mafeng Zuo Tian and Daiyuan Jia had failed to capture Ye Fan.

He was pleased because the thing he was most worried about didn't happen—Mafeng Zuo Tian did not kill Ye Fan, so his plan could still be carried out!

"You and Senior Mato actually didn't keep him here?" Daiyuan Taihe couldn't help but speak up, his tone very puzzled.

"This is what happened..."

Faced with Daiyuan Taihe's question, Daiyuan Jia had no choice but to steel himself and explain everything.

"Trash!"

Upon hearing Daiyuan Jia's explanation, Daiyuan Taihe scolded before Daiyuan Tianyou even had the chance.

"I'm sorry, Daiyuan-san, it was my oversight," Mafeng Zuo Tian looked at Daiyuan Tianyou with a face full of remorse, and said word by word, "The situation has developed to this point, we have no choice but to find that damned China monkey, even if it means turning over every stone—he must pay a heavy price!!"

Chapter 725 - Overturning the Japan Cultivation World! Five

He strangled the top genius from the Japan Cultivation World, Dai Yuanchen, killed the head of the Japan Cultivator Self-Defense Force, Mawari One, destroyed the Jingguo Shrine, symbolizing Japan's Shinto, and took away the 'Heroic Souls' of the World War II heroes...

That day, Ye Fan's actions shocked Japan and the world!

"He is declaring war on our Yamato Clan, he must pay a severe price!"

"If that Huaxia bastard doesn't die, our Yamato Clan will have no face to stand on. This will become the greatest shame of our entire clan!"

Almost all Japanese people issued such statements. In their eyes, only by killing Ye Fan could they quell the rage in their hearts.

To prevent Ye Fan from escaping, the Japan Cultivator Self-Defense Force, the police, and the military joined forces to launch an unprecedented capture operation.

That day, all of Japan's police, soldiers, and cultivators mobilized, not only blocking stations, airports, and docks but also dispatching military patrols along the coastline.

In addition, because Ye Fan possessed a Flying Artifact, the Japanese military also deployed several helicopters for aerial patrol.

It could be said without exaggeration that Japan's three major departments joined forces, setting up a Heaven and Earth Net, almost eliminating all hope for Ye Fan's escape!

Halfway up Mount Fuji, Dai Yuan Family estate.

Headed by Daiyuan Tianyou and Mafeng Zuo Tian, five of Japan's strong cultivators gathered to discuss the capture plan while waiting for updates on Ye Fan's whereabouts from various channels.

Chen Feilian was originally part of the discussion and even volunteered to mobilize Qinghong Organization's personnel to assist, but Mafeng Zuo Tian outright rejected him.

In Mafeng Zuo Tian's words: If the Japan Cultivation World finally captures Ye Fan with the help of Qinghong Organization's personnel, it would not cleanse the disgrace but only prove the incompetence of the Japan Cultivation World!

Mafeng Zuo Tian's choice won unanimous approval from the other strong people present, including Daiyuan Tianyou, from the Mid-stage Ninja God and above.

For this reason, Chen Feilian could only silently leave the estate's Villa No. 1 and then drive away from the estate.

"Arrogant Japanese people, did you really think I would mobilize my men to help you deal with that Ye bastard? Heh, you are too naive. I was just saying it—since I can use your hands to kill that bastard, why would I need to exert my own forces?"

As he slid into a high-end Mitsubishi business car, Chen Feilian opened a bottle of red wine and poured a glass. He didn't drink it; instead, he swirled the wine glass, muttering to himself, "Although I like to kill by borrowing another's knife, to ensure that the bastard dies in Japan, it's necessary for me to help you out a bit."

As soon as the words fell, Chen Feilian tilted his head back and downed the wine in one gulp, then set down the glass, raised his wrist, and used the special communicator on his wrist to dial a number.

"Order our Japan branch to mobilize everyone to find the whereabouts of that Ye bastard. Once there's any news, report to me immediately!"

The call connected, and Chen Feilian delivered the commands directly, his tone leaving no room for doubt.

"Yes, Young Master Chen!"

On the phone, the interim head of Qinghong Organization's Japan branch immediately took the order, his tone faintly excited.

Because he knew that as long as he handled this matter well, even if his strength was not enough to become the head of Qinghong Organization's Japan branch, his status and position within Qinghong Organization would greatly increase, and he might even be favored by Chen Feilian!

"Bastard, not only did you kill the Japan Cultivator Self-Defense Force members but also destroyed the Jingguo Shrine and took away the souls of those Japanese World War II heroes. Now, all of Japan has laid out a Heaven and Earth Net to capture you, and if the Yanhuang Organization dares to help you, the entire America and the American Alliance Cultivation World will spare no costs to wage war!"

After cutting off communication, Chen Feilian downed a second glass of red wine, his lips spreading into a chilling smile, "As for Old Dog Chu and the Yanhuang Organization, although he has broken through to the Gang Qi Great Perfection Realm, he was severely injured in the last battle with my father and is

significantly weakened. Currently, he's healing in secluded meditation; if he is forced out, he'll likely enter a demonic state. In that case, far from saving you, he himself won't make it!"

"Without Old Dog Chu and the Yanhuang Organization stepping in to save you, I really want to see how you'll escape from this alive!"

As the words fell, the high-end Mitsubishi business car drove out of the Dai Yuan top student estate, Chen Feilian's smile growing even brighter—as if he had already witnessed Ye Fan's death in Japan.

Chen Feilian was not the only one looking forward to Ye Fan's early visit to the Yama Palace — Jiang Ying was also among them.

As the most outstanding offspring of the Ancient Cultivation Family, the Jiang Family, she had been crowned a 'demon' from a young age and had lived under the protection, praise, and envy of her family and others around her.

Her illustrious identity and exceptional talent made her hold herself in high regard, looking down on her contemporaries.

Until Emperor Bai appeared!

His immense strength, terrifying talent, invincible confidence, and domineering style...

All of it was like poison, addicting Jiang Ying to the point that when Granny Jiang proposed marrying her to Emperor Bai, she agreed excitedly right away.

But now, Emperor Bai had been killed by Ye Fan in the Qing bang competition, and afterward, far from being able to avenge Emperor Bai, she had knelt before Ye Fan like a groveling dog, pleading for mercy!

That day had become her nightmare!

She swore, she would kill Ye Fan in this lifetime!

Because of that vow, after returning from Mount Tian, she had gone into secluded cultivation, wanting to surpass Ye Fan in strength before the global 'Hidden God List' competition.

However—

Haste makes waste.

During the past period, although she had been maintaining her secluded cultivation, because she was too eager to improve her strength, her unstable consciousness nearly led her into a demonic state and close to death.

Today was no different.

Jiang Ying, who forced herself into retreats and hastened to enhance her strength, once again showed signs of deviation into insanity. Had she not halted in time, the consequences would have been unimaginable.

"How could this be? Am I doomed to never surpass that bastard and successfully avenge myself?"

Jiang Ying, still shaken from her meditation cultivation, regained her consciousness and, as usual, felt dejected, but more so, filled with resentment.

That resentment was no less than Chen Feilian's towards Ye Fan!

That resentment had penetrated her soul to the extent that she even dreamt of tearing Ye Fan into thousands of pieces!

Crack—

As Jiang Ying wallowed in her misery and resentment, the door of the secret room slowly opened, and Granny Jiang entered.

"Great-grandmother."

Although Jiang Ying was in low spirits, she greeted Granny Jiang with a salute immediately upon seeing her.

"Sigh..."

Granny Jiang couldn't help but sigh deeply.

Back then, because she left Mount Tian early with Jiang Ying and did not partake in aiding Chen Daozang to massacre the Hua Xia Cultivation World, the Jiang Family was not purged by the Yanhuang Organization.

Since returning from Mount Tian, Granny Jiang saw everything in Jiang Ying's eyes and felt an urgency in her heart.

She knew that a heart demon had developed within Jiang Ying, and that only by eliminating it could her strength improve.

And the only way to eliminate the heart demon was to kill Ye Fan!

If Chu Xuanji hadn't broken through to the Gang Qi Great Perfection Realm, she might have risked everything for her beloved Jiang Ying and secretly made Ye Fan disappear from this world.

But... there are no ifs in this world!

Now, Chu Xuanji had already breached the Gang Qi Great Perfection Realm and, once recuperated, could single-handedly sweep through the entire Jiang Family!

In such circumstances, she absolutely dared not play with fire.

"Great-grandmother, rest assured, I will strive even harder in my cultivation, aiming to soon surpass that bastard, and kill him in a fair and just challenge, without causing any trouble for our clan!"

Upon hearing Granny Jiang's sigh, Jiang Ying clenched her fists and said resolutely.

"Little Ying, that Ye scoundrel is already on his deathbed and will soon die abroad, so there's no need for you to act," Granny Jiang said, her face full of smiles as if encountering a huge joy.

"Ah... Great-grandmother, what's going on? Could it be that bastard was captured by the Qinghong Organization?" Hearing this, Jiang Ying was suddenly shocked, then recalling the deep feud between Ye Fan and the Qinghong Organization, she immediately pressed for details.

"No, that young wretch recklessly ran to Japan causing havoc, and now all strong cultivators of the Japan Cultivation World have collectively come forth to hunt him down!"

Granny Jiang explained patiently, sensing Jiang Ying wanted to inquire more, she continued, "It's like this..."

"Giggle~"

After listening to Granny Jiang's account, the gloom in Jiang Ying's heart cleared, and she laughed joyously, "Heaven has a road he didn't take, Hell has no gate yet he barged in, that bastard really knows how to seek his own death!"

"It is said that Old Dog Chu is healing in retreat and most likely won't be able to save him. Moreover, since this incident is too big and grave, the Yanhuang Organization will definitely not intervene, hence, his death is inevitable."

Granny Jiang added, "I'm telling you this so that you won't be influenced by that young scoundrel anymore, and so that you won't be blinded by hatred anymore. Just relax and focus on your cultivation."

"Thank you, great-grandmother."

Jiang Ying first voiced her gratitude, then added with some regret, "It's just a pity I couldn't kill him with my own hands."

Granny Jiang remained silent.

Though she wished to slap Ye Fan to death herself, she had to admit that, given Jiang Ying's talent, catching up with Ye Fan on the cultivation path was almost delusional.

Now, with Ye Fan about to be killed by the experts of the Japan Cultivation World, this was the best outcome for both Jiang Ying and the Jiang Family!

Chapter 726 - Overturning the Japan Cultivation World! Six

After noon, the weather changed from clear to overcast. Dark clouds covered the sun, and strong winds began to blow as if a storm was about to arrive.

Ao Xiang Villa's sky was overshadowed by a huge black cloud, its shadow engulfing the villa and filling the once quiet place with an oppressive atmosphere.

"Causing more trouble than help, I told you not to go to Japan but you wouldn't listen. Now look what's happened, Ye Fan is being hunted by all the strong people of the Japan Cultivation World, his life and death unknown!"

Inside one of the villas at Ao Xiang Villa, Su Yuxin lashed out at Su Jindi who had just arrived home.

In the past year, since Su Jindi had met Ye Fan, he had improved a lot and rarely caused trouble. Su Yuxin had almost never had to lecture him.

This was the first time!

All of this was because Su Yuxin had learned of Ye Fan's current situation and was burning with anxiety.

"I didn't expect things to turn out this way..."

Even though Su Jindi knew that a large part of the chaos Ye Fan caused in the Japan Cultivation World was due to the death of Xu Biao's daughter, Xu Ying, he didn't make excuses. Instead, he wore a face full of self-blame and confidently added, "But I believe Brother Ye Fan will definitely be able to escape unscathed from the Little Japan's manhunt and come back alive!"

"You..."

Su Yuxin trembled with anger, but didn't know what to say.

Deep down, she too hoped for Ye Fan to come back alive, but according to the information she had, the current situation was such that all the strong people of the Japan Cultivation World had mobilized, setting up a Heaven and Earth Net, virtually cutting off any hope for Ye Fan's escape.

"Sis, think about it, when has Brother Ye Fan ever done something he wasn't sure about since we met him?"

Su Jindi spoke again, still blindly trusting in Ye Fan, "Since Brother Ye Fan dared to cause such a ruckus in the Japan Cultivation World and destroy the Jingguo Shrine, he must have planned his next moves and is confident in his escape!"

"Ah... I hope he's safe and sound."

Su Yuxin sighed softly, initially wanting to take out her phone and contact Chu Ji to ask for the latest news on Ye Fan, but then she thought that if Chu Ji had any news, she would inform her immediately, so she abandoned the idea.

At the same time, Chu Ji in Yanjing's Courtyard met with Ye Wenhao.

Anxiety often leads to chaos.

Although Ye Wenhao had been designated as the next Chief Elder, destined to stand at the pinnacle of the power pyramid, knowing everything Ye Fan had done in Japan and his current situation meant he couldn't remain as composed as Mount Taishan, his brows deeply furrowed with worry as he walked through the door, unable to hide his anxiety.

"Ji, how long will it take you at the least to find Master Chu?"

Upon entering the Courtyard, Ye Wenhao didn't exchange any pleasantries with Chu Ji. Instead, he got straight to the point, wanting Chu Ji to find Chu Xuanji to rescue Ye Fan in Japan.

"Master has returned to Spirit Mountain to meditate. I am not quite sure where exactly he is, so it would take at least a day to find him," Chu Ji, also very worried about Ye Fan's safety, thought for a moment before giving her reply.

"One day."

Ye Wenhao's expression became grave, and he fell silent.

He was fully aware of the current situation and knew that every minute Ye Fan stayed in Japan, his danger increased. After a day, no one could predict what might happen.

"I think instead of going out of our way to find Master, you should approach Master Yan," Chu Ji suggested when she saw Ye Wenhao remain silent. "On one hand, Master is healing in seclusion and might be harmed if he is disturbed. On the other hand, if Master Yan is willing to help, he could reach Japan in the shortest time and ensure Xiao Fan's safety to the greatest extent."

"You should know that Xiao Fan has angered all the Japanese with his actions, and the situation has reached the point of no return. If Master Yan intervenes, it will certainly escalate to an Alliance matter, and there is a chance it may lead to a war between the American Alliance and Huaxia," Ye Wenhao frowned and said.

"Hey, look at you, ready to take over and starting to consider the bigger picture for Huaxia," Chu Ji said with a raised eyebrow and a hint of sarcasm.

"Ji, you..." Ye Wenhao's complexion changed with Chu Ji's sting and he sighed, "I've said before that I owe Ling Yun and Xiao Fan. If I could ensure their safety for life, I would pay any price! Those words I said earlier weren't because I don't want to find Master Yan, but because I think Master Yan won't help."

This time, it was Chu Ji's turn to fall silent.

She too was aware of the grim fact Ye Wenhao stated.

While Yan did take care of Ye Fan, he would never compromise Huaxia's interests to save him!

"Although there's little chance that Master Yan will act, what you said is indeed correct. I have to visit him. I'll go to him now and plead for his intervention," Ye Wenhao concluded after some thought.

"Good, let's divide our forces. I'll head back to Spirit Mountain to find Master now," Chu Ji nodded, and then sighed, "Regardless of whether Master has finished his healing, I must inform him. If something truly happens to Xiao Fan, I wouldn't be able to explain it to him, and he would neither forgive me nor live without regret."

"Mhm."

Ye Wenhao nodded.

The reason he had asked Chu Ji to find Chu Xuanji earlier was because he knew Chu Xuanji cared for Ye Fan just as much as he did—Chu Xuanji, like him, was willing to give everything for Ye Fan!

"We shouldn't delay. Let's set off right away and keep each other informed immediately if anything happens," Chu Ji, despite being a woman, was decisive and firm in her actions, never hesitating or dragging her feet. Having reached an agreement with Ye Wenhao, she prepared to set off for Spirit Mountain to seek out Chu Xuanji.

"In that case, I will contact them and ask the Yanjing Military District to send a fighter jet to take you there," Ye Wenhao added.

"Aren't you afraid this will affect your political career?"

Chu Ji deliberately provoked him but understood in her heart that if it could ensure Ye Fan's safety, Ye Wenhao would be willing to give up his position as the successor, let alone making such a move.

Facing Chu Ji's provocation again, Ye Wenhao did not waste any more words but took out his personal phone to start contacting the big shots at the Yanjing Military District.

Five minutes later, Ye Wenhao and Chu Ji left the Courtyard together, splitting up to find Yan and Chu Xuanji, respectively.

Since Yan hardly ever visited the Yanhuang Organization headquarters and his whereabouts were quite elusive, Ye Wenhao made a call to He Yunting, the head of the Outer Sect Elders responsible for the daily operations of the Yanhuang Organization, as soon as he got into the car.

"Hello, Elder He, this is Ye Wenhao." As soon as the call connected, Ye Wenhao was quick to introduce himself.

"You're looking for the leader concerning your son's matter, aren't you?" On the other end of the line, He Yunting's mind was clear as a mirror.

"Yes."

Ye Wenhao did not hide anything but pleaded, "I hope Elder He can help me pass on a message to Master Yan. I wish to see him."

"I can pass on the message. But whether the leader will see you or not is not up to me."

He Yunting readily agreed to Ye Wenhao's request but quickly added a reminder, "Also, Wenhao, you should be aware of the seriousness of this matter. Not to discourage you, but the chances that the leader will take action to save your son are almost non-existent."

"Thank you."

Upon hearing this, Ye Wenhao politely thanked him, yet his heart sank.

Half an hour later, Ye Wenhao got his wish and met Yan in the top-floor office of the Yanhuang Organization headquarters.

"Master Yan, whether by the organization's principles or considering the overall situation, I shouldn't have come to you," Ye Wenhao immediately bowed and said with guilt, "but I didn't want to stand by and watch Xiao Fan get into trouble, so..."

"If you've come to me, I naturally understand your intentions," Yan interrupted Ye Wenhao straightforwardly and said, "I'm sorry, Wenhao, neither I nor the Yanhuang Organization will go to Japan to save Xiao Fan."

"\_\_"

Ye Wenhao's mouth opened slightly, his Adam's apple moved, but he did not speak a word.

Although he had realized before coming that the chances of Yan taking action were almost non-existent, he was still very disappointed to hear Yan say it.

"As you said, from an overall perspective, I can only make such a decision," Yan stated frankly, without any concealment.

"I understand."

Ye Wenhao took a deep breath to steady his emotions, then chuckled self-deprecatingly, "In fact, I had anticipated this outcome before coming to see you, but I still couldn't control myself from seeking you out. I hope you don't take offense."

"Wenhao, you're being too formal," Yan said solemnly, "Setting aside the history between you and me, and not even mentioning my private relationship with Xuanji, or even disregarding the fact that Xiao Fan once made a savior contribution and developed a new medicine formula to prevent future disasters, just

considering the cultivation talent that Xiao Fan has displayed, I would not want to see him perish too soon."

"Thank you!" Ye Wenhao bowed in gratitude immediately, feeling the sincerity from Yan.

"Also, apart from considering the overall situation, there is another reason I won't save him," Yan suddenly added.

"What is it?"

"I believe in your son."

Yan exclaimed astonishingly, "I once told him, looking across the global Cultivation World, there are no more than ten people who have the potential to break through that Legendary Realm, and he is the most likely of them all!"

"Uh..."

Stunned by Yan's words, Ye Wenhao was so shocked that his mouth hung open; he had never dreamt that Yan would have such high expectations for Ye Fan!

"I also told him that on the road of cultivation, it's not sufficient to only focus on secluded cultivation; one must undergo life-or-death trials. Hence, I not only awarded him a Mid-grade Flying Magical

Artifact, but I also gave him a Human Skin Mask to take on another identity and train across the Five Great Alliances," Yan pronounced every word clearly. "Although I don't know why he chose Japan as his first trial location, I believe he will successfully get through this ordeal and escape from Japan alive!

I also believe that he will sweep through the genius contemporaries in the upcoming Hidden God List competition, truly achieving unrivaled status in his generation, then continue to forge ahead, challenging the Legendary Realm that no one in the modern Cultivation World has broken through, and finally accomplishing his goal—to eradicate the Qinghong Organization!"

"I think, not just me, Xuanji feels the same. Otherwise, he wouldn't have let Xiao Fan go to Japan alone but would have protected him in secret as before," Yan paused, his eyes shimmering with wise light, filled with deep anticipation. "To be honest, I'm very eager to see how your son will break out of this deadly predicament!"

Chapter 727 - Overturning the Japan Cultivation World! Seven

As the sun set in the west and its last light spilled over, the bustling Tokyo welcomed the rush hour, with streets bustling with vehicles and crowds of people hurrying by.

All advertisements at major squares, malls, and subway entrances were canceled and replaced uniformly with wanted posters for Ye Fan, featuring his real photo and one wearing a human skin mask.

The photo of Ye Fan wearing the human skin mask was captured by Japanese police from airport security footage—Ye Fan had entered the airport twice covertly to protect Su Jindi.

"Three major departments working together, and they still haven't caught that Huaxia bastard, not even a trace of him. This is really embarrassing!"

"That Huaxia bastard isn't just any criminal; he's a powerful cultivator, hard to capture..."

"Do we not have powerful cultivators in Japan? That's no excuse! If we mobilize all of Japan's police, military, and cultivators and still can't catch him, it would be a national disgrace!"

...

That afternoon, similar discussions were heard in almost every public place; Ye Fan had become a thorn in the side of the Japanese, a deep-seated irritant, fueling their deep-seated hatred!

They wished they could pulverize Ye Fan into dust right away to vent their frustration!

However—

Just as all eyes in Japan were fixed on Ye Fan, he was not panic-stricken and running around disorderly, but was hiding on the rooftop of a skyscraper in the center of Tokyo.

"Young man, according to the plan, you came to Japan to search for a Spirit Vein, and now you let minor things affect the plan. That's really not worth it." In Ye Fan's consciousness space, Elder Xuan stood with his hands behind his back, communicating with Ye Fan through thoughts.

Before, when Ye Fan was being hunted by Mafeng Zuo Tian and Daiyuan Jia, Elder Xuan had used a soul interference opportunity to help Ye Fan escape.

Now, with Japan deploying all its police, military, and cultivators to arrest Ye Fan, even Elder Xuan found the situation somewhat troubling.

With Ye Fan's strength, it was easy for him to evade the police, military, and cultivators below the Gang Qi Realm, even to kill them effortlessly, but if he revealed his whereabouts, he would be besieged by the supreme strongmen of the Japanese cultivation world.

"Elder Xuan, to me, what I've done is not trivial. Moreover, some things aren't about worth, but must be done!"

Ye Fan replied, "Moreover, although the situation is bad, it's not necessarily a dead end. On the contrary, with all the chaos I've caused, Japan is all stirred up. It gives me a perfect chance to check if the Spirit Vein exists."

"What? You dare to check the Spirit Vein now?"

Elder Xuan was shocked. He thought that Ye Fan should be more concerned about saving his own life rather than daring to search for the Spirit Vein under such tense circumstances.

"In Huaxia, there's a saying, 'darkness under the light,' meaning that people often overlook what's happening right under their noses—Now, even you think I wouldn't dare to go to Fuji Mountain to look for the Spirit Vein, what about those strongmen in the Japanese cultivation world?"

A confident sparkle flickered in Ye Fan's eyes as he said, "In other words, oftentimes, the most dangerous place is the safest. Right now, with all of Japan's police, military, and cultivators mobilized, Fuji Mountain will likely be the most overlooked place. After all, it's the stronghold of the Dai Yuan clan; no one would expect me to head there at this time!"

"You do have some point there."

Upon hearing this, Elder Xuan's demeanor changed, his spirit uplifted as he declared, "Seek wealth in danger. If you can find the Spirit Vein, not to mention escaping, I'll help you wipe out that bunch of ants!"

"Okay, since we're stirring things up, I'll blow it up big time, making little Japan tremble at the sound of Huaxia from now on!"

A wave of excitement surged through Ye Fan, after which he forced himself to calm down. He began to discretely plan his next actions to ensure flawless execution.

A few moments later, as the sun completely set below the horizon, darkness enveloped the land, and Ye Fan silently left the skyscraper's rooftop, merging with the night.

...

The night at Fuji Mountain was tranquil, the Dai Yuan Family Mansion halfway up the mountain brightly lit, as cultivator elites led by Daiyuan Tianyou gathered there.

"From morning till now, it's almost been twelve hours, and still no word of that China monkey; he hasn't escaped from Japan, has he?"

In the living room of Villa No. 1 in the mansion, Daiyuan Jia couldn't help but speak up.

Originally, he was only on the fringe of entering the Mid-stage Ninja God Realm and could not yet perform Qi Control Flight, thus he was not considered a supreme strongman of the Japanese cultivation world and wasn't generally eligible to be in the hall. But as a core member of the Dai Yuan clan and an elder holding significant roles within the Japan Cultivator Self-Defense Force, his status was distinguished, hence no one objected.

"Impossible."

As soon as Daiyuan Jia finished speaking, someone dismissed the speculation.

The speaker was an elder in a black robe, gaunt as if all flesh had left him, with wrinkled dry skin and deeply sunken eyes, emitting a chilling aura all over.

As the black-robed elder spoke, he kept his eyes closed, motionless, looking almost like a corpse at first glance.

With the sound of the black-robed elder's voice, everyone, including Daiyuan Tianyou, instinctively looked towards him.

Swish!

Sensing the gaze of the people, the black-robed elder suddenly opened his eyes, his dark eyes shimmering like black vortexes, intimidating and hard to face directly.

"What? Don't you believe what I say?"

The gaze of the black-robed elder swept across everyone present, finally resting on Daiyuan Tianyou, the strongest cultivator in the Japanese cultivation world.

Although his strength was only Mid-stage Ninja God, within the entire Japanese cultivation world, he was the only magician at the Ninja God Realm, holding a prestigious position. Apart from the now High-level Ninja God Daiyuan Tianyou and the covert head of the Japan Cultivator Self-Defense Force, Mafeng Zuo Tian, no one was significant in his eyes.

This time, if not for being personally invited by Mafeng Zuo Tian, he wouldn't have shown his face.

After arriving at the Dai Yuan Family Mansion, he straightforwardly told everyone that his task was to sense Ye Fan's Qi and pinpoint his whereabouts, not to capture him. His reward would be Ye Fan's mysterious set of Mind Attack Secret Techniques.

"Master Gongben, it's not that we don't believe your words, but this matter is too critical to allow any mistakes, so there are some concerns."

This time, the speaker was Daiyuan Taihe, the current clan leader of the Dai Yuan Family. His words represented not only himself but also Daiyuan Jia, Daiyuan Tianyou, and the entire Dai Yuan clan.

"Mister Dai Yuan is right, Master Gongben. This matter relates to the reputation of the whole of Japan and must not be taken lightly," Mafeng Zuo Tian and two other mid-stage Ninja Gods added their agreement.

"Hmph!"

The black-robed elder named Miyamoto Shuzo snorted coldly, "Since I've already stated that I will locate that Chinese monkey's presence and track his whereabouts, I will certainly do so — before coming here, I had already left my newly crafted secret magic artifacts at eight spots along the coastline, capable of sensing a strong person's aura. As long as that Chinese monkey activates a Flying Artifact to leave, his aura will surely be exposed and detected by my secret magic artifacts.

Of course, if that Chinese monkey were to leave Japan through official channels, then it can only mean that the Japanese military and police are inept fools."

"Master Gongben need not worry about this. With the current technological means, if that Chinese monkey leaves through official channels, he will certainly be discovered," reassured another.

Upon hearing this, Daiyuan Taihe felt secretly pleased and quickly made assurances.

Daiyuan Tianyou and others also secretly breathed a sigh of relief and simultaneously felt fortunate that Miyamoto Shuzo had taken action; otherwise, retaining Ye Fan would not have been an easy task.

Ye Fan, however, knew nothing about all this.

At this moment, utilizing the Ghost Ring to conceal his aura, he had reached a forest located just three kilometers away from Fuji Mountain.

"Fortunately, through Body Refinement, I've greatly enhanced my physical strength. Relying purely on my body's speed, I can match the speed of a cultivator in the Early Innate Realm. Otherwise, sneaking into Fuji Mountain unnoticed would really not be an easy task."

Hidden in the forest, Ye Fan released his Mind to clearly sense the presence of many cultivators at the base of Fuji Mountain.

This was consistent with the intelligence he had gathered before coming to Japan.

Aside from the Dai Yuan Family, Fuji Mountain also housed some of Japan's Cultivation Families and Sects, though these families and sects were scattered around the mountain, unlike the Dai Yuan clan that had built their mansion halfway up the mountain.

Huh?

Quickly, Ye Fan sensed seven powerful auras halfway up the mountain, among them the familiar presences of Daiyuan Jia and Mafeng Zuo Tian.

Among the others, four were mid-stage Ninja Gods, and one was a high-level Ninja God!

This discovery shocked Ye Fan!

"Why are all of Japan's cultivation world's strong people gathered at the Dai Yuan Family Mansion?"

After the shock, Ye Fan was deeply puzzled. Originally, according to his speculation, the strong people of Japan's cultivation world would be positioned along different points of the coastline to await their prey, joining forces to chase and ambush him upon discovering his trace.

No answers emerged.

Despite wracking his brains, Ye Fan could not figure out the reason, but his reason told him that there was definitely something amiss here.

Because, he did not believe that the strong people of Japan's cultivation world would easily let him leave!

"Kid, you've come too late."

Just as Ye Fan was deep in thought, Elder Xuan suddenly spoke up in the Consciousness Space.

"Came too late?" Ye Fan was stunned, not understanding, "Elder Xuan, what do you mean?"

"Just as I sensed years ago, there truly is a Spirit Vein beneath Fuji Mountain."

Elder Xuan sighed and revealed the mystery, "This Spirit Vein isn't large, and it has already been mined."

"Mined?!"

Hearing Elder Xuan's words again, Ye Fan's complexion changed, feeling very frustrated.

For Ye Fan at this stage, if he had enough Spirit Stones (Essence Stones), his Martial Arts Cultivation could easily break through to the Half-step Gang Qi Realm, and even without considering accumulating a strong foundation, he could urge both his Martial Arts and Magic Cultivation to reach the Gang Qi Introduction Realm!

Now, Elder Xuan's words about the Spirit Vein under Fuji Mountain already being mined meant that his efforts were in vain.

"Kid, don't be disappointed just yet."

Just as Ye Fan was deep in disappointment, Elder Xuan spoke again, "Although the Spirit Vein has been mined, I sensed that there are quite a few Spirit Stones stored in that mansion halfway up the mountain."

"Oh?!"

Upon hearing this, Ye Fan's eyes immediately lit up.

"However, I need to remind you, there are several 'ants' in that mansion whose strength far surpasses yours. If they discover you, your situation will be very dangerous!"

Noticing Ye Fan's eagerness, Elder Xuan warned, his tone serious and solemn, "That is to say, if you want the Spirit Stones, it will be like snatching food from the tiger's mouth — whether to act or not is your decision!"

Chapter 728 - Overturning the Japan Cultivation World! Eight

"Elder Xuan, it seems we don't have a choice, do we?"

Ye Fan gave a bitter smile.

Initially, when he heard Elder Xuan mention that the spirit vein beneath Fuji Mountain had already been mined, he felt completely disheartened. The subsequent news that there were spirit stones within the

Dai Yuan Family Mansion rekindled a glimmer of hope. However, Elder Xuan's last statement was like a bucket of cold water, instantly extinguishing the flame of hope within his heart.

Even with great courage, he knew that attempting to snatch spirit stones right under the noses of the Japan Cultivation World's supreme strongmen was tantamount to seeking death!

After all, any one of those strongmen, let alone all of them together, was far beyond his ability to contend with.

"As long as you can enter the place where the spirit stones are stored without those ants discovering you, you'll be safe."

Elder Xuan spoke again, "By that time, even if those ants discover you, I can absorb the spiritual energy from the spirit stones within an extremely short amount of time and recover my strength—although the quality and quantity of the spirit stones there are poor, they are enough for me to regain a sliver of my strength and wield the Nine Heavens Mysterious Crown to kill those ants."

"Really?"

Hope shone in Ye Fan's eyes.

According to Elder Xuan, as long as he could sneak into the Dai Yuan Family Mansion's spirit stone storage without anyone being the wiser, even if he couldn't silently take the spirit stones away, his life wouldn't be in danger. They would just need to use the spirit stones for Elder Xuan to eliminate those supreme strongmen from the Japan Cultivation World!

Whether it was acquiring the spirit stones or eliminating those strongmen, Ye Fan was more than willing.

Taking away the spirit stones would elevate his realm, and he could retain some stones for potential crises. If escape became impossible, Elder Xuan could then absorb the spirit stones and take action.

If he couldn't take away the spirit stones, he could still leave Japan unscathed—as long as Elder Xuan killed those supreme strongmen, no one in the entire Japan Cultivation World could stop him!

"Not just that, according to my perception, if I just absorb enough to wield the Nine Heavens Mysterious Crown, there should still be some spirit stones left for you. Those will be sufficient for your Martial Arts Cultivation to break through to the 'Half-step Qi Condensation Realm', which is what you on Earth call the Half-step Gang Qi Realm," Elder Xuan indirectly provided an answer.

"If that's the case, then there's nothing to hesitate about. Of course, I must take the risk and try." This time, Ye Fan made his decision without any hesitation.

"Kid, you said it yourself it's a risk. Let me be upfront—if you're discovered by those ants before entering the place where the spirit stones are stored, I won't be able to save you—with my current state, I can only kill one of those ants for you, or perform soul interference twice," Elder Xuan cautioned.

"If it's as you said before, there's obviously no choice. But as you just mentioned, as long as I can stealthily sneak into where the spirit stones are stored, I can be safe, then I certainly want to try."

Ye Fan's expression was exceptionally determined, and his eyes flickered with a wise light, "Moreover, given the current situation, with the Japan Cultivation World laying a tight net of surveillance, escaping is going to be incredibly difficult. I might as well give it my all!"

"Your courage comforts me, but a single slip can cause everlasting regret. Be extra careful on your own."

Seeing Ye Fan's resolute attitude, Elder Xuan felt very reassured. The path of cultivation was filled with unknowns and perils, many opportunities coexisted with risks, and one could not achieve much if they were always timid and cautious.

"Mhm."

Ye Fan responded, then stopped communicating with Elder Xuan through his mind and began to once again release his mental perception, sensing everything around him.

Immediately after, Ye Fan took a deep breath and focused, adjusting his spiritual energy to the optimal state.

Having done all this, Ye Fan's figure flashed at the foot, disappearing into the woods like a specter, heading toward the lurking place at Fuji Mountain.

Since he couldn't reveal his aura and could only use his physical strength, and to avoid the cultivators that occasionally appeared, the short distance of three kilometers took Ye Fan an entire hour to traverse.

An hour later, without alerting a single cultivator at the foot of the mountain, he finally entered Fuji Mountain.

Compared to the foot of the mountain, there were far fewer cultivators on the mountain, since the Dai Yuan Family was the only power there. However, Ye Fan didn't dare to be careless and advanced stealthily, ensuring that he wouldn't alarm anyone.

Finally, after two hours, Ye Fan arrived outside the Dai Yuan Family Mansion.

Like many other estates, the Dai Yuan Family Mansion was surrounded by walls, but unlike ordinary estates, there were no surveillance devices on their walls.

All this was because the Dai Yuan Family was one of Japan's oldest Cultivation Families, and all its members were cultivators.

As a result, so-called surveillance devices were useless—the mental perception of the Dai Yuan Family members was much more effective than any surveillance equipment!

Although Ye Fan possessed the Ghost Ring that could conceal his aura, and there were no surveillance devices around the mansion's walls, just to be safe, he didn't recklessly infiltrate the mansion. Instead, he hid in a bush, carefully sensed for a moment to make sure that there was no one around for several hundred meters, then darted out of the bush, leaped over the wall, and entered the mansion.

"A thousand meters southwest, the place where the spirit stones are stored is under that cliff."

Ye Fan landed silently, flashed into the thicket, and Elder Xuan promptly used mind transmission to inform him of the exact location of the spirit stone storage.

Hmm?

Hearing Elder Xuan's transmission, Ye Fan immediately released his mental perception and clearly sensed that the Heaven and Earth Primordial Qi to the southwest was much denser, especially around the cliff, which was nearly ten times that of other areas.

After confirming the location of the Spirit Stones, Ye Fan didn't act rashly and carefully sensed everything around him while his gaze swept the surroundings like a blade.

About half a minute later, Ye Fan made sure there was no one around before he cautiously flashed out of the bushes, crouching and tiptoeing, running wildly along the edge of the thicket as lightly as a dragonfly skimming the water, almost noiselessly.

There were people ahead!

Having run around five hundred meters, Ye Fan's heart skipped a beat, and he immediately halted, crouching behind the bushes, peering through the gaps at the front.

Just as he had sensed, two cultivators appeared up ahead, walking toward the place where Ye Fan was hidden.

Despite the darkness and limited visibility, Ye Fan could clearly see that the figures emerging were a young man and a young woman.

"That China monkey is really too arrogant, not only did he kill Brother Chen, he also dared to destroy the Jingguo Shrine in front of Uncle Daiyuan Jia and Master Mafeng Zuo Tian, seizing the Heroic Souls of those World War II veterans... Even if he dies a hundred times, it wouldn't be enough to quench our hatred!"

The girl, dressed in a white kimono, had a face filled with venom that belied her youthful age, and her eyes brimmed with murderous intent.

"Qingzi is right. Considering the crimes of that China monkey, his soul should be extracted and burnt with Yin Fire, to let him suffer in a way that he can neither live nor die, tortured eternally!"

The boy in black kimono, standing beside the girl, nodded in agreement, his killing intent even thicker, as though he wished to tear Ye Fan to pieces right there and then.

Hearing the two's resentful and murderous words, Ye Fan didn't make any careless moves or even spare a glance at them, but instead kept his breath concealed, hiding in the bushes, perfectly still.

"Boy, if you were in the Xuan Realm, you would definitely be favored by assassin organizations—you were simply born to be an assassin!"

Impressed by Ye Fan's performance, Elder Xuan couldn't help but praise him through mind transmission.

"When I collect the Spirit Stones, if they don't discover me, then all the better. But if they do, Elder Xuan, after you've dealt with those strongmen, I wouldn't mind wiping the Dai Yuan Family off the map of the Cultivation World!" Ye Fan responded with a mind transmission, brimming with killing intent.

"Er..."

In Consciousness Space, Elder Xuan was taken aback at first, then realizing Ye Fan's usual way of doing things, he came to terms with it.

All along, Ye Fan never showed mercy to his enemies, and when it was time to take decisive action, he never hesitated!

After the young man and woman left, Ye Fan flashed once more out of the bushes.

Perhaps because the distance to the cliff was no longer far, Ye Fan didn't rush to move forward but deliberately slowed down, just in case.

"Elder Xuan, why do I feel that something isn't quite right?"

Soon enough, when Ye Fan was less than two hundred meters from the cliff, he halted and carefully sensed his surroundings, communicating with Elder Xuan through mental perception again.

"What's the matter?" Elder Xuan asked.

"Essence Stones, also known as Spirit Stones in your terms, are the most precious wealth of cultivators. According to normal logic, any force would protect Essence Stones with utmost care."

Ye Fan voiced his concern, "But as you've seen, along the way, I only encountered two people and no one else. I even sensed through my perception that there were no people around the cliff. This is too strange."

"Didn't you notice that there's a Killing Array set up around the cliff?" Elder Xuan questioned in response.

Huh?

Hearing this, Ye Fan quickly used his perception to meticulously sense and was shocked to discover that around the cliff, there was not only an 'Enchanting Soul Array' meant to deceive the senses but also a terrifying 'Yin Yang Kill Array'.

As a Half-step Gang Qi Realm Cultivator, Ye Fan had a profound understanding of formations and almost instantly detected that the 'Yin Yang Kill Array' had divided all the Heaven and Earth Primordial Qi

around the cliff into yin and yang. If anyone trespassed, the Evil Yin Qi would enter the intruder's body at the first instance.

Given the intense concentration of Evil Yin Qi around the cliff, even a Gang Qi Introduction Realm cultivator who intrudes would face a situation of nine deaths and one life.

"So, the Dai Yuan Family has replaced personal guards with a Killing Array. Once someone breaks into the array, even if they're lucky to survive, the strongmen of Dai Yuan Family can arrive in time to slay the intruders," Ye Fan quickly grasped the Dai Yuan Family's intention behind such an arrangement.

"You're right."

Elder Xuan affirmed Ye Fan's judgment and then warned, "Boy, at this point, the only way to get the Spirit Stones is to break the formation. And once you do, it will surely alarm those insects—looks like I am destined to go on a killing spree for you today!"

"What kind of uproar would it cause to slaughter all the strong figures of the Japan Cultivation World in one night?"

Ye Fan remained silent, asking himself this question in his heart.

Chapter 729 - Overturning the Japan Cultivation World! Nine

Ye Fan was unable to predict the commotion this matter would stir up within the global cultivation world, but he was certain that it would certainly leave a significant mark in the annals of cultivation history.

"Huff~"

Ye Fan took a deep breath to calm his emotions, then without further delay, his body shot forward, reaching his maximum speed, moving like a breeze towards the cliffs ahead.

"I must break the Enchanting Soul Array first in order to disrupt the Yin Yang Kill Array. The fact that the Enchanting Soul Array and the Yin Yang Kill Array complement and reinforce each other means that as soon as I attempt to break the Enchanting Soul Array, I'll trigger the Yin Yang Kill Array and be attacked—a truly cunning tactic."

Upon nearing the cliff, Ye Fan stopped once more to study the formation carefully, and couldn't help inwardly admiring the sinister ingenuity of the person who set up the Array. "If it were a Magician below the Gang Qi Realm, they would really be unable to break this formation, but with the Nine Heavens Mysterious Crown within me, breaking the formation is not a problem!"

As his voice fell, Ye Fan's gaze swept like a knife toward the southeast side of the cliff. In a flash, he entered the heart of the formation!

Whoosh—

In an instant.

The Heaven and Earth Primordial Qi that had gathered within the formation became agitated, feeling like cold water had been poured into an oil pan, causing a complete uproar.

Huff!

As Ye Fan entered the formation, he reached the Array Eye's location. With a wave of his right hand, he grasped a small flag and pulled it out as easily as plucking a radish.

With the flag removed, the Enchanting Soul Array was instantly broken, revealing the true scene beneath—a stone house built against the cliff, enveloped by Heaven and Earth Primordial Qi, which the Yin Yang Kill Array had divided into yin and yang energies.

At this moment, with the Enchanting Soul Array broken, the Yin Yang Kill Array was activated. The Heaven and Earth Primordial Qi around the stone house roiled, and waves of Evil Yin Qi surged forth, engulfing Ye Fan.

Just then...

Elder Xuan immediately controlled the Nine Heavens Mysterious Crown to fly out of the Consciousness Space, transforming into a golden whirlpool hovering above Ye Fan's head, rapidly absorbing the approaching waves of Evil Yin Qi.

Swoosh!

With time of the essence, Ye Fan did not linger. With a flash of his feet, he leaped to the front of the stone house. In a flowing motion, he swung his right hand and clenched his fist, hammering it toward the stone house's door.

Bang—

A loud noise echoed as the door of the stone house burst open, and Ye Fan stepped inside. The stone house contained no furniture, save for one thing.

Essence Stones!

Looking around, the entire stone house was filled with Essence Stones, sorted into two types: one batch was cut and stored in jade boxes, while the other batch, still unprocessed, contained large chunks embedded within the ore.

"Kid, don't zone out. Those ants have sensed us. Start gathering quickly!" Elder Xuan, having easily absorbed all the Evil Yin Qi with the Nine Heavens Mysterious Crown, hurriedly prompted Ye Fan.

As Elder Xuan's words fell, he wasted no more time, once again manipulating the Nine Heavens Mysterious Crown, which transformed into a huge golden whirlpool, beginning to frenziedly absorb the Heaven and Earth Primordial Qi from the unprocessed Essence Stones.

Ye Fan, snapping out of his surprise, took out the sacks he had prepared in advance, opened them wide, and then deployed his mental perception on the jade boxes full of Essence Stones.

Whoosh whoosh whoosh whoosh whoosh whoosh...

Instantly, the sound of cutting through the air echoed non-stop, as boxes of Essence Stones soared like fish leaping over the dragon gate, quickly falling into the sacks.

At the same time, just as Elder Xuan mentioned, Daiyuan Tianyou and Japan's Supreme Strongmen from the Japan Cultivation World almost simultaneously sensed the fluctuation of Heaven and Earth Primordial Qi at the southwest cliff of the mansion.

"How dare someone rob the Dai Yuan Family? Are they seeking death?"

Daiyuan Taihe, the current Clan Leader of the Dai Yuan Family, was first to speak, his tone brimming with fury.

Not just him, even anger surged in Daiyuan Tianyou's expression!

As the oldest and strongest clan in Japan's Cultivation World and the flagbearer of Japan's Cultivation Community, the Dai Yuan Family had never encountered such audacity.

Huh?!

Daiyuan Jia, much like Daiyuan Taihe and Daiyuan Tianyou, was initially enraged, but quickly sensing a familiar aura, he gaped in shock and momentarily forgot to speak.

And Mafeng Zuo Tian, Miyamoto Shuzo, and the other Mid-stage Ninja Gods were simply astounded!

If they hadn't experienced it themselves, they would never believe someone dared to rob the Dai Yuan Family clan.

"Hey... It's that China monkey's aura!"

Just as Daiyuan Taihe was about to rush to the cliff, Mafeng Zuo Tian suddenly snapped out of his amazement and exclaimed

"Wha... What?!"

Daiyuan Taihe was about to act when he heard Mafeng Zuo Tian's words, stopping dead in his tracks with a look of disbelief, as if questioning if he had heard wrong.

Not just him, Daiyuan Tianyou, Miyamoto Shuzo, and the other Mid-stage Ninja Gods also wore expressions as if they had just seen a ghost!

"It's... it's indeed him!"

Daiyuan Jia spoke up as well. He had been as angry as Daiyuan Taihe and Daiyuan Tianyou, but after sensing it was Ye Fan, he stood in shock for quite a while before regaining his senses just now.

"How... How is this possible?!"

Daiyuan Tianyou, Daiyuan Taihe, Miyamoto Shuzo, and the other Mid-stage Ninja Gods spoke almost simultaneously, their voices filled with disbelief.

They couldn't believe that Ye Fan, who was supposed to be captured by a joint effort of the military, police, and Japan Cultivator Self-Defense Force, would appear here!

In their view, Ye Fan should have been hiding in a concealed place to avoid exposing his whereabouts, rather than stealthily robbing the Dai Yuan Family Mansion!

"Could it be that China monkey has gone mad?"

"I think he must have gone insane, otherwise he wouldn't do such an absurd thing!"

"This is simply a death wish, as the Huaxia saying goes, 'walking into the trap of your own accord!'"

After a brief shock, Miyamoto Shuzo and the other Mid-stage Ninja Gods couldn't help but express their astonishment, all believing the situation to be utterly absurd.

Absurd, is it?

Daiyuan Tianyou, Daiyuan Jia, and Daiyuan Taihe all wore livid expressions, their eyes burning with rage!

In their eyes, Ye Fan's actions were no longer a challenge to the Dai Yuan clan, but an outright contempt—You all set up a Heaven and Earth Net to chase after me? Not only am I not fleeing, but I'm brazenly coming to your clan to snatch Essence Stones!

Mafeng Zuo Tian's anger knew no bounds.

Previously, he had made a move, but not only did he fail to kill Ye Fan, but he also let Ye Fan destroy the Jingguo Shrine, a symbol of Japan's Shinto, right under his nose, and even took away the Heroic Souls of Japan's war contributors from World War II, which was the greatest humiliation of his life!

And now, Ye Fan was swaggering into the Dai Yuan clan to plunder, igniting in him, the head of the Japan Cultivator Self-Defense Force, an urge to tear Ye Fan into pieces!

Whoosh!

Whoosh!

Whoosh!

Whoosh!

Seething with anger, Daiyuan Tianyou and his three companions didn't say a word, flashed out of the hall, leaped up, and flew towards the cliff to the southwest of the mansion using Qi Control Flight.

Among them, since Daiyuan Jia had only half-stepped into the Mid-stage Ninja God Realm, he wasn't able to perform Qi Control Flight and had to be pulled by Daiyuan Taihe.

Miyamoto Shuzo and the other three Mid-stage Ninja Gods also followed without hesitation.

Although they all thought that Ye Fan wouldn't be able to escape this time, they were eager to see Ye Fan's true face for the first time.

They really wanted to know if Ye Fan had the audacity and madness to do such a ludicrous thing!

"Someone is trying to rob the clan's Essence Stones, enraging the Old Clan Leader and seven Supreme Strongmen!"

At the same time, members of the Dai Yuan clan made such a judgment.

Their strength was far less than Daiyuan Tianyou and the others, but they could sense the fluctuations of the Heaven and Earth Primordial Qi coming from the direction of the cliff, knowing that someone had broken into the Yin Yang Kill Array.

At the same time, they could clearly sense the rapid approach of Daiyuan Tianyou and the other six towards the cliff to the southwest of the mansion.

Even more so, they perceived the raging intent to kill from Daiyuan Tianyou and his three companions!

Such a terrifying killing intent made them feel as if the temperature in the entire mansion had plummeted, with goosebumps rising all over their bodies.

Then, driven by curiosity, they were drawn towards the cliff as if by an invisible force.

They wanted to see who had the audacity to raid their clan!

Of all this, Ye Fan was oblivious.

Because he was safeguarded by Elder Xuan, he felt no fear and didn't even use mental perception, instead concentrating his mind, single-mindedly stuffing one box of Essence Stones after another into the sacks he had prepared earlier.

In a short time, he had filled ten sacks, amounting to tens of thousands of Essence Stones!

Tens of thousands of Essence Stones...

This was a fortune that could drive any power insane!

"Kid, the quality of the Spirit Stones here is worse than I expected, I still need a bit more to launch a wide-scale attack with the Nine Heavens Mysterious Crown."

As Ye Fan assuredly collected the Essence Stones, Elder Xuan was simultaneously sensing everything within the mansion and absorbing the Essence of Heaven and Earth Primordial Qi contained within the Essence Stones when he noticed that Daiyuan Tianyou and the other six were flying at high speed. He immediately reminded, "Those ants are almost here; let me absorb the remaining Spirit Stones."

"Alright!"

Ye Fan agreed readily. For him, being able to harvest tens of thousands of Essence Stones was satisfactory enough. Following that, as long as Elder Xuan showed his might and killed Daiyuan Tianyou and the others, Ye Fan would be able to leave easily with the Essence Stones.

Receiving Ye Fan's response, Elder Xuan did not delay further and immediately pushed the golden vortex to its limit, generating a terrifying suction force.

The next moment.

Inside the vast stone chamber, except for the ten sacks of Essence Stones that Ye Fan had packed, the Heaven and Earth Primordial Qi essence contained in all other Essence Stones couldn't withstand the terrifying suction, and it began leaking and flooding into the golden vortex.

"Elder Xuan, after you've absorbed the Heaven and Earth Primordial Qi from the Essence Stones, go back to the Consciousness Space first and wait for an opportunity. Strike suddenly to ensure a one-hit kill," Ye Fan took the opportunity to release mental perception and felt the breath of Daiyuan Tianyou and the other six Japanese Cultivation World powerhouses rapidly approaching. After some thought, he communicated with Elder Xuan using his mind.

"Just exterminating a few ants, is it worth such measures?"

Although Elder Xuan said that, he followed Ye Fan's instructions and manipulated the Nine Heavens Mysterious Crown to return to the Consciousness Space.

"You Chinaman monkey, you're simply seeking death!"

Just then, Daiyuan Jia's angry shout sounded from afar and exploded in the sky above.

As his voice fell, figures appeared!

With Daiyuan Tianyou leading, the seven strong people of Japan's Cultivation World stood proudly in the air, their intimidating killing intent fixedly staring down at the stone house.

"Seeking death?"

Ye Fan strode out of the stone house, full of confidence, "Believe it or not, I can slaughter you all as easily as chopping vegetables?!"

Chapter 730 - Overturning the Japan Cultivation World! Ten

"Believe it or not, I could slaughter you all as easily as chopping melons and vegetables?!"

Facing seven Supreme Strongmen of the Japan Cultivation World, Ye Fan remained fearless, his low shout ringing out like a tiger's roar, echoing across the sky, long dispersing.

"Uh..."

Ye Fan's wildly unrestrained words echoed in the ears of Daiyuan Tianyou and the others, causing immense shock in their hearts.

That's right...

Though they all had the strength of Mid-stage Ninja Gods or higher, with minds solid as rock and representing the pinnacle of combat power in the Japan Cultivation World, at this moment, they were stunned anew.

In the sky, their pupils suddenly constricted, staring at Ye Fan as if he were a monster, without uttering a single word.

At the same time, members of the Dai Yuan family who were hastily heading toward the villa cliffs, upon hearing Ye Fan's words, were so startled that they nearly tripped and fell!

"Who exactly is this formidable figure, who not only robbed the family's Essence Stone Storage, but also dared to be so arrogant in front of the Old Clan Leader and six other strong people?!"

At this moment, except for Daiyuan Tianyou, Daiyuan Taihe, and Daiyuan Jia, all members of the Dai Yuan family were filled with this doubt.

"What... what did you say?!"

Daiyuan Jia responded with yet another fierce shout.

Although he had witnessed Ye Fan's arrogance before—Ye Fan had dared to kill Mawari One in front of him, and dared to destroy the Jingguo Shrine under his and Mafeng Zuo Tian's watch!

But...

He had never dreamed that facing the seven of them, Ye Fan would dare to be so arrogant!

This made him uncontrollably angry!

"All of you come at me."

Ye Fan yelled fiercely, stepping onto his Flying Shuttle, and took to the sky.

Just now, he had stopped Elder Xuan from making a move partly as a precaution to ensure no one escaped, and partly because he feared the Energy Wave released by Elder Xuan's actions might destroy the stone house and the Essence Stones as well.

If that happened, it would all have been for nothing.

At this moment, propelling the Flying Shuttle into the air, he had no concerns left and displayed even more dominance, like a War God descending, his entire being filled with an unbeatable War Intent, giving off an invincible aura.

"Uh..."

The seven people from Daiyuan Tianyou were once again stunned.

If before they thought Ye Fan was crazy for his mad talk, now as they once again heard Ye Fan's arrogant words and felt the invincible War Intent emanating from him, they no longer thought of him as crazy but subconsciously believed that Ye Fan had some reliance, which emboldened him so.

However, even wracking their brains, they couldn't understand what Ye Fan relied on to challenge them—with their strength, any one of them could easily crush Ye Fan with one slap!

It was different for other members of the Dai Yuan family.

They did not know that the person who had robbed the family's Essence Stone Storage was Ye Fan, whom all of Japan sought throughout the Heaven and Earth Net.

Because they were too far away, they also couldn't sense the invincible War Intent that Ye Fan had unwittingly cultivated.

At this moment, they stood as if petrified, frozen in place, their eyes wide with disbelief as they looked up at Ye Fan arrogantly standing in the air, their minds overwhelmed by one thought: Was he... seeking death?

"If I didn't need to exchange you for something, I would slap you to death right now!"

Daiyuan Taihe spoke angrily, as the current Clan Leader of the Dai Yuan family, he felt Ye Fan's actions were an affront to the millennium-old heritage and pride of the Dai Yuan family, and he couldn't bear it any longer, preparing to act.

"Dai Yuan sir, this kid has a Magic Artifact on him that can destabilize one's Consciousness. Be careful."

Seeing Daiyuan Taihe about to act, Mafeng Zuo Tian couldn't help but remember a strange incident that occurred during their pursuit of Ye Fan, feeling a chill, and couldn't help but speak out to warn him.

"I don't believe he can pull any tricks!"

Daiyuan Taihe, undaunted, gazed at Ye Fan with eyes sharp as knives, stepping forward and soaring towards Ye Fan, his right hand producing a Gang Qi, evolving into a large net, targeting Ye Fan, "You monkey from China, come here!"

"A rice grain pearl, also emits light!"

In the Consciousness Space, Elder Xuan scoffed, immediately activating the Nine Heavens Mysterious Crown.

The next moment.

Before the Gang Qi net could envelope Ye Fan, a beam of Golden Light suddenly emerged from the top of Ye Fan's head, then transformed into a golden greatsword, slashing head-on at the Gang Qi net.

Fast!

This slash was as fast as lightning.

Because of its speed, including the strongest Daiyuan Tianyou, no one could clearly see the golden greatsword, only a golden light.

The light flashed, and the Gang Qi net was obliterated!

It was as if it had never existed!

"What's going on?"

Daiyuan Taihe's heart shook tremendously, subconsciously stopping in his tracks.

And behind Daiyuan Taihe, the others, including Daiyuan Tianyou, were all faces of shock!

"Pfft—"

No answer.

Blood spurted, Daiyuan Taihe's body was struck by the golden greatsword, exploding apart, turning into a mass of flesh and blood, scattering high in the sky, dying instantly!

"Uh..."

The sudden scene completely shocked everyone, including Daiyuan Tianyou, their eyes wide open, staring motionlessly ahead.

If it were not for the blood and flesh of Daiyuan Taihe still falling, they would have thought the scene before their eyes was a hallucination!

"How... how is this possible?!"

On the road from the villa to the cliff, the members of the Dai Yuan family were utterly dumbfounded.

As if they had witnessed the most incredible thing in the world, their faces filled with disbelief.

They could not believe that Daiyuan Taihe, the current Clan Leader of the Dai Yuan family with the strength of a Mid-stage Ninja God Overlord Level, could be instantly killed by Ye Fan!

"Elder Xuan, what's wrong with you?"

At the same time, Ye Fan was also startled.

Since Elder Xuan had only one opportunity to make a move, according to the plan discussed in advance, Elder Xuan should either not act at all or, once he did, he had to kill Daiyuan Tianyou and the other six strong people together, leaving no troubles behind!

Now, Elder Xuan had only killed Daiyuan Taihe, which made Ye Fan subconsciously think that something had gone wrong on Elder Xuan's side.

"This ant is too arrogant, it has really annoyed me, so I killed him to vent my anger."

Elder Xuan said lightly, making it sound as if the person he just killed was not a living human being but rather, a chicken he had slaughtered.

"..."

Ye Fan was at a loss for words, not expecting Elder Xuan to have such a capricious side.

Whoosh, whoosh, whoosh...

At that moment, Miyamoto Shuzo and the other two Mid-stage Ninja Gods, without saying a word, flashed their figures and quickly fled.

Although they did not know exactly how Ye Fan had managed to kill Daiyuan Taihe, they knew that if it had been them, they would have definitely faced certain death!

They did not want to end up like Daiyuan Taihe!

"This... this can't be possible!"

At the same time, Daiyuan Jia, holding Daiyuan Tianyou's arm, woke up as if from a dream, shaking his head frantically, muttering to himself.

He clearly remembered, after Ye Fan had killed Mawari One, he was chased and could only rely on the Flying Shuttle to escape, not daring to engage in close combat with him.

But at this moment, Ye Fan had killed Daiyuan Taihe in an undetectable manner, a stark contrast that he couldn't accept!

"What... what in the world happened? Could there be a master hiding around him? Is it the Evil Emperor of Huaxia?"

Mafeng Zuo Tian was also terrified.

Indeed, they had encountered a bizarre scene while chasing Ye Fan, but it was merely a loss of Consciousness, not dangerous, yet now Daiyuan Taihe had just been killed in front of him...

This made him start to doubt his previous judgment—Ye Fan was not relying on a Magic Artifact!

Because, in his view, even if Ye Fan possessed the most powerful Magic Artifact in the world, he absolutely couldn't have done what just happened!

"There are no masters hidden around him."

Daiyuan Tianyou spoke up, having witnessed Daiyuan Taihe being killed, his heart also filled with turbulent waves, but he maintained his dignity as a representative of the Dai Yuan Family and the strongest in the Japan Cultivation World, choosing not to quickly distance himself but instead stared intensely at Ye Fan, as if to see right through him.

"Elder Xuan, what are you waiting for? Keep attacking!"

Although Ye Fan was confident and had honed an invincible War Intent, the gap between him and Daiyuan Tianyou was still far too great. He felt uneasy under Daiyuan Tianyou's intense gaze and hastily communicated with Elder Xuan through his Mind.

"I accidentally miscalculated." Elder Xuan was somewhat regretful.

"What... what?"

Ye Fan trembled all over, blurting out, "Elder Xuan, you're not telling me that you can't kill them now, are you?"

"Father, although I don't know how that kid killed Taihe, I think he's just trying to intimidate us!"

This time, before Elder Xuan could respond, Daiyuan Jia saw the change in Ye Fan's expression and shouted excitedly as if he had discovered a new continent, "If not, he wouldn't have hesitated to make a move. And he wouldn't have been chased around by me and Mafeng Zuo Tian earlier!"

"That must be it."

Mafeng Zuo Tian agreed with Daiyuan Jia's speculation, his eyes turning cold, ready to make a move.

"Since that's the case, Mafeng, take him down."

Daiyuan Tianyou coldly gave the order, then stared frighteningly at Ye Fan, "China monkey, although I wanted to use you as a bargaining chip to exchange for some things, your actions have completely infuriated me—you will soon wish you were dead!"

"It's like a tiger being bullied by a dog when fallen into a plain; if it were not for my serious injury, I could blow these ants away in one breath!"

Inside the Consciousness Space, Elder Xuan cursed irritably, then sighed regretfully, "Alas, the fault is mine for getting carried away... I accidentally took it too far..."

"Elder... Elder Xuan, you're not going to let me die here, are you?"

"That won't happen, it's just a minor mishap, I'll deal with them for you first!"

Elder Xuan responded, then once again activated the Nine Heavens Mystic Crown.

The next moment.

Before Mafeng Zuo Tian could make a move, a surge of Golden Light suddenly shot out from the top of Ye Fan's head, rising toward the sky.

In an instant.

The entire mansion's sky was enveloped in golden color, so bright that it was hard to keep one's eyes open.

"How... what's happening?!"

Everyone was terrified, their hearts filled with a sense of foreboding once again.

No response.

In the sky, the Golden Light suddenly divided into six, turning into six Sword Radiances.

Whoosh whoosh whoosh whoosh whoosh...

The Sword Radiance obscured the sun, whistling through the air.

The six Sword Radiances, moving at unimaginable speeds, aimed at Daiyuan Tianyou and the remaining six strong people of the Japan Cultivation World!

"Pfft... pfft... pfft..."

The bodies of Daiyuan Tianyou and the six others exploded almost simultaneously, turning into a cloud of blood mist, thus falling.

In an instant.

The vast estate fell deathly silent.

Ye Fan stood on the Flying Shuttle, hovering in the air, as if a Divine being had descended!
