

Y Master 791

Chapter 791 Break the Formation to Save People

"Be careful!"

Su Liuli and Lv Zhan were startled to see Ye Fan rushing head-on towards several mutant beasts and quickly called out a warning.

Although they were not weak in strength, even considered geniuses of the younger generation, they both followed the path of martial arts and were simply unable to discern in a short time that the mutant beasts within the formation were all illusory, much less see through the formation itself.

Ye Fan was different.

He practiced dual cultivation of magic and martial arts, and his soul power was much stronger than that of magicians at the same realm, enabling him to clearly sense the spiritual attacks within the formation—the operation of the formation involved a spiritual attack that infiltrated the intruders' consciousness, creating illusions of mutant beasts to slay the intruders.

Besides, he also keenly noticed that the formation continuously drew on Heaven and Earth Primordial Qi through an Array Eye to sustain its operation. Only by cutting off the output of Heaven and Earth Primordial Qi could the formation be terminated, causing all the mutant beast illusions to disappear.

Heart as firm as rock!

Faced with the dozens of mutant beasts that were hurtling towards him, Ye Fan did not retreat, nor did he strike. Instead, he quickly gathered his consciousness and fortified his Martial Arts Will.

In an instant, Ye Fan's Martial Arts Will was like a gateway, shielding his consciousness, and the spiritual attacks within the formation were all blocked outside, unable to shake his consciousness.

With the spiritual attacks ineffective, the mutant beast illusions instantly vanished without a trace, and Ye Fan easily rushed to the location of the Array Eye.

"Uh..."

Seeing Ye Fan completely ignore the attacks of the mutant beasts and easily reach the center of the formation, whether it was Ye Hei and Wu Zi, or Su Liuli and Lv Zhan, everyone was shocked.

"Be careful!"

Wu Zi was the first to snap out of his daze and called out to warn Ye Hei, who was ahead.

Swish!

Ye Hei, as if awakened from a dream, suddenly saw a mutant beast soaring towards him. His face changed, his wrist flicked, and he thrust forward with his short knife, creating a flash of sword light.

Pfft—

The sword light pierced through the head of the mutant beast, blood splattered, and the body of the beast exploded.

Seeing this scene, Ye Hei understood it was an illusion—if his Martial Arts Will were as strong as Ye Fan's, not only would he not have witnessed this scene, but also all mutant beast illusions within the formation would disappear.

At the same time, Wu Zi once again used a spiritual attack to strike a mutant beast that tried to pounce towards him, causing it to be disturbed and frantically spin in circles while shrieking on the spot.

Su Liuli and Lv Zhan also faced attacks from mutant beasts.

Whoosh!

Su Liuli transformed her hand into a palm and struck out, unleashing a wave of Gang Qi that morphed into a gigantic palm. It descended from the sky and instantly crushed four or five mutant beasts that were pouncing towards her and Lv Zhan into dust.

Boom!

Just then, a loud bang resounded.

Ye Fan stood above the Array Eye and stomped down hard. Gang Qi in his body surged to his feet and burst forth in an instant, full of might, causing the ground to crack upon impact.

Several fissures spread from the Array Eye as the epicenter, extending outward in all directions. The rich Heaven and Earth Primordial Qi gushed out from the Array Eye like a fountain.

"Roar~"

As the Heaven and Earth Primordial Qi thickened, the power of the formation suddenly intensified. The mutant beasts within the formation went into a complete frenzy, roaring and launching a second round of onslaught.

"The formation can't be broken for the time being, Brother Lv, Liu Li, go and help them hold on for a while!"

Faced with the sudden turn of events, Ye Fan was first taken aback, then looked towards the fissures and saw no trace of the Essence Stones, only the continuously spouting Heaven and Earth Primordial Qi. Knowing that breaking the formation would not be easy, he immediately called out a reminder.

"Okay!"

Lv Zhan was the first to respond, holding a big halberd and quickly charging towards Ye Hei and Wu Zi.

Swoosh!

Su Liuli grabbed the Yanhuang Furnace in front of her, injected Gang Qi into it, activated the formation inside the furnace, and forcefully flung it towards Ye Hei and Wu Zi.

At this moment, she imitated the method that Ye Fan had used earlier to save Lv Zhan, using the Yanhuang Furnace to help Ye Hei and Wu Zi fend off the mutant beast attacks, buying time for her and Lv Zhan to arrive.

The Yanhuang Furnace's internal formation was activated, its body shone brilliantly, appearing like a streak of flowing light as it flew towards Ye Hei and Wu Zi. Any mutant beast struck in its path shattered instantly, its power astonishing.

Clang!

With a crisp sound, the Yanhuang Furnace stood in front of Ye Hei and Wu Zi, while Su Liuli followed closely behind Lv Zhan, rushing towards them.

Swish!

Lv Zhan was incredibly fast. In his mad sprint, he swung the big halberd in his hand, cutting out a crescent-shaped Qi Ray, instantly smashing three mutant beasts in front of him.

Su Liuli was not outdone. With a flick of her finger, the gathered Gang Qi shot forth as a beam of light.

Bodhi Finger!

Before the Qing bang's grand competition in the Hua Xia Cultivation World, Su Liuli had once shocked all four seats by piercing the Trial Tablet with Bodhi Finger.

Now, using that move once more, she pierced two mutant beasts that were closest to Ye Hei and Wu Zi.

"Phew~"

Seeing this, Ye Hei and Wu Zi both sighed with relief, the despair on their faces replaced by unparalleled excitement!

It felt as if they had returned from Hell to Heaven and been reborn!

As Su Liuli and Lv Zhan were about to reach Ye Hei and Wu Zi and saw that their crisis was resolved, Ye Fan set his mind at ease, withdrew his gaze, and with a thought, a black and red token flew out instantly.

The token was something Ye Fan had obtained from a young man named Rock from the Giant Axe Organization.

Back then, two powerful souls resided within the black and red token, all of which were exterminated by Elder Xuan, transformed into the essence of Heaven and Earth Primordial Qi, used to repair the Nine Heavens Mystic Crown.

Since then, Ye Fan became the master of the black and red token and discovered its use—it could store Heaven and Earth Primordial Qi!

"Collect!"

The black and red token hovered above Ye Fan's head, and he rapidly waved his hands, forming one sealing gesture after another.

The sealing was complete, and the 'Spirit Gathering Array' was formed. The Heaven and Earth Primordial Qi spurting from the Array Eye, as if drawn by something, gushed towards the Spirit Gathering Array's eye—a black and red Token!

"These mutant beasts existed in the Ancient Cultivation World and have now disappeared. From this, it seems that this Formation has been operating from the Ancient Cultivation World until now. How much Essence of Heaven and Earth Primordial Qi would this require?"

Feeling the Heaven and Earth Primordial Qi crazily flowing into the black and red Token, Ye Fan was secretly shocked and very puzzled, "Could there be an Essence Stone mine beneath this mountain? Did the one who set up the Formation use the Essence Stone mine to continuously provide Heaven and Earth Primordial Qi to maintain the Formation's operation?"

"It should be so!"

With doubts surfacing, Ye Fan quickly confirmed his own judgment—if there was no Essence Stone mine providing Heaven and Earth Primordial Qi beneath the mountain, it would have been impossible for the Formation to have operated from the Ancient Cultivation World until now!

After making his judgment, excitement surged within Ye Fan!

Essence Stones!

This was the most precious thing in the Cultivation World besides Magic Artifacts and Cultivation Techniques.

Because the quality of Primordial Qi contained within Essence Stones was far superior to the naturally existing Primordial Qi between Heaven and Earth. When absorbed by cultivators, it could accelerate the speed of cultivation.

More importantly, starting from the cultivator's attempt to reach the Early-Stage Gang Qi Realm, it was necessary to use Essence Stones to make the breakthrough; otherwise, simply relying on the Heaven and Earth Primordial Qi would not be sufficient to succeed.

Ye Fan's magic and Martial Arts Cultivation had both reached the Half-step Gang Qi realm, and he already had the strength to attempt breaking into the Gang Qi Introduction Realm. However, due to the lack of sufficient Essence Stones, coupled with the desire to accumulate enough foundation, he had not made the attempt.

Now, if his judgment was correct and there was an Essence Stone mine beneath this mysterious mountain, then he could absorb a massive amount of high-quality Heaven and Earth Primordial Qi through the black and red Token, which he could use for future cultivation and breaking through realms!

Hm?

While Ye Fan was feeling excited, Su Liuli and the others suddenly realized that the surrounding mutant beasts not only stopped launching attacks but also began to become vague and unclear.

The Formation's power weakened!

This discovery initially startled them, but then they all breathed a sigh of relief.

Apart from this, they also clearly felt that the rich Heaven and Earth Primordial Qi was crazily flowing towards the mysterious black and red Token above Ye Fan's head, with only a small amount of Primordial Qi lingering within the Formation, continuing to maintain its operation.

"This Formation is too strong; the Spirit Gathering Array cannot completely absorb the Heaven and Earth Primordial Qi gushing out of the Array Eye."

Ye Fan explained, "Only by fully absorbing the Primordial Qi at the Array Eye will the Formation cease to operate."

As his words faded, Ye Fan turned his gaze towards the front right, where he saw Xiao Selang lying on the ground, pale, motionless, with only a faint breath.

Whoosh!

Ye Fan's figure flashed, swift as a breeze, and in an instant, he reached in front of Xiao Selang.

"Is Xiao Selang all right?"

Ye Hei and Wu Zi, seeing this scene, asked in unison.

By now, they all knew that those mutant beasts were illusions, belonging to an Illusion Technique attack aimed at destroying consciousness.

Although Xiao Selang still had breath and was breathing, if his consciousness had been destroyed, he would have become a living dead.

Without responding, Ye Fan halted his steps, activated his Telekinesis, entered Xiao Selang's body, surged towards Xiao Selang's consciousness, and clearly discovered that Xiao Selang's consciousness had suffered a heavy blow, nearly leading to its destruction.

"His Martial Arts Will is very strong. In the most critical moment, it shielded his consciousness from being destroyed by the Formation-induced spiritual attack, and he survived."

After pondering briefly, Ye Fan made his judgment and responded to Ye Hei and Wu Zi.

"Phew~"

Upon hearing this, both Ye Hei and Wu Zi released a sigh of relief.

Earlier, both of them had experienced varying degrees of despair. Only Xiao Selang, full of fighting spirit in adversity and with a strong desire to survive, had inspired their morale, allowing them to hold on until Ye Fan, Su Liuli, and Lv Zhan arrived.

"Wake up!"

After giving an explanation, Ye Fan did not linger, activated his Telekinesis, and awakened Xiao Selang.

The next moment.

Under the watchful eyes of Ye Fan and the others, Xiao Selang's eyelashes trembled slightly, then he slowly opened his eyes, his gaze dull and his expression dazed—it was unclear whether this was due to him not yet recovering from the recent brush with death or if it was because he saw Ye Fan so close at hand.

"Ye Fan?"

A few seconds later, Xiao Selang's consciousness awakened, but he couldn't believe that Ye Fan would appear in front of him, thinking he was hallucinating.

"Your consciousness has taken a heavy hit and needs immediate meditation for recovery," Ye Fan said, answering the unasked question and reminding him.

"You... you saved me?" Xiao Selang asked again.

"If it weren't for Ye Fan's timely arrival, we would have all been killed by this Formation."

This time, without waiting for Ye Fan to speak, Wu Zi explained, "Ye Fan and the other two arrived in time to help us fend off the mutant beasts. Among them, Ye Fan precisely found the location of the Array Eye and is now absorbing the Primordial Qi from it. As soon as the Primordial Qi from the Array Eye is completely absorbed, this Formation will stop operating. Of course, the Formation's power has already greatly reduced, and we can leave through the exit."

"We can't just leave like this!"

Upon hearing this, Ye Hei spoke with a mix of frustration and anger, "The Tianzhu Alliance and those bastards from the European Union treated us as cannon fodder, using us to kill mutant beasts and test the Killing Array, clearing the path for themselves.

Ye Fan, aside from the three of us, all the others are dead. This matter can't just be left at that—they've gone too far!"

By the end, Ye Hei looked at Ye Fan with pleading eyes.

Not just him, Wu Zi and Xiao Selang also looked at Ye Fan with eager anticipation, hoping Ye Fan would take action and seek justice for them and the Hua Xia Cultivation World!

"When the Formation ceases, it will be time to settle accounts with them!"

Ye Fan looked at the bodies of two young geniuses from Hua Xia and slowly spoke, directly pronouncing the death sentence for the younger talents of the two alliances.

Chapter 792 Seeking Justice!

Night fell, and a crescent moon hung diagonally in the sky. Moonlight spilled down, as if draping the primitive forest's strange mountain in a silver cloak, sparkling with silver light.

"Roar~"

The sound of mutant beast roars occasionally echoed through the primitive forest, piercing the sky and breaking the silence of the night.

Unlike the primitive forest, the strange mountain was exceptionally quiet, and no beast roar could be heard.

Midway up the mountain, outside the Formation of mutant beast illusions, aside from the geniuses of the Tianzhu Alliance and the European Union, led by Fantian and Lei Ke, the geniuses of the American Alliance, African Union, and Russian Alliance were also arriving one after another.

"Sir Fantian and Sir Lei Ke are leading us to break the Formation ahead; you must not approach!"

Before the geniuses of the American Alliance, African Union, and Russian Alliance could approach the Formation, a genius from the Tianzhu Alliance guarding them stopped eight young geniuses from the African Union, speaking domineeringly.

"Is Sir Farro ahead?" asked a genius from the African Union.

"Farro has already entered the Formation with the few strongest among your African Union's young generation; their fates remain uncertain," replied the young genius from the Tianzhu Alliance.

"Sir Fantian and Sir Lei Ke are great, unlike those young supremes from the African Union and Russian Alliance who only care for themselves."

"Not only did they not leave us behind, but they also used Huaxia's young talents as cannon fodder to test the Killing Array and open the path so we wouldn't be harmed. How can other alliance young supremes compare?"

Two young talents from the Tianzhu Alliance and the European Union spoke again, their expressions filled with pride.

The geniuses from the American Alliance, African Union, and Russian Alliance listened to them with envy.

Because, including Hughes, the three strongest young talents of the American Alliance had all been killed by Ye Fan, whereas the young supremes of the Russian and African Alliances scorned them as burdens and didn't bring them along mountain-climbing.

Only—

After the envy, the talents from the American Alliance, Russian Alliance, and African Union reacted in shock upon hearing Fantian and Lei Ke using Huaxia's young talents as cannon fodder for the Formation.

"You... aren't you afraid of revenge from Huaxia's young supremes?" an African Union genius asked in surprise.

As his words fell, other talents from the African Union and Russian Alliance also wore expressions of surprise.

The young talents of the American Alliance showed varying degrees of fear on their faces.

A name is like a shadow.

Ye Fan left them an indelible shadow, causing their faces to change color at the mention of his name!

"Hehe... revenge? Whether Huaxia's young supremes are alive now is still an unknown, where does the revenge come from?" mocked the first Tianzhu Alliance young genius who had spoken.

"Uh..."

This time, the talents from the American Alliance, African Union, and Russian Alliance stayed silent, as they all knew about the older generation cultivators from the American Cultivator Alliance, European Cultivator Alliance, and Tianzhu Alliance sent to kill Ye Fan.

"Stay here honestly. When Sir Fantian and Sir Lei Ke break the Formation, if they're in a good mood, you might get to follow and catch some of the good fortune," said a genius from the European Union.

"Before, Hughes judged that Huaxia's young supremes wouldn't dare come to Australia Continent, almost causing us to be buried alongside him. Now, though I don't know what you base your assertion of Huaxia's young supremes having died on, if he isn't dead and comes here, he'd definitely become your nightmare!"

A young talent from the American Alliance couldn't help but remind, recalling Ye Fan's powerful killing of Hughes and his companions, causing chills to run up his body.

The fear on the faces of the remaining young talents from the American Alliance deepened.

"That's because Hughes was too careless. If he had agreed to ally and travel together earlier, he wouldn't have died here."

Just then, Fantian's voice abruptly sounded from ahead, "In consideration of the Three Great Alliances joining forces to kill Evil Emperor's disciple, the young talents of the American Alliance may follow behind. Russian and African Union members must leave immediately; this mountain is not for you to climb!"

"Fantian, why bother with those losers?"

Lei Ke couldn't help but comment, "I've just contacted my clan. The old masters from the Three Great Alliances haven't found Evil Emperor's disciple yet. Those five young talents from the Huaxia Alliance have been inside for a long time. To swiftly break the Formation and prevent Evil Emperor's disciple from finding us here, I suggest we enter the Formation first, assess the situation, and plan accordingly."

"Lei Ke, with our strength, even if we're not his match, surviving isn't a problem."

Fantian shook his head, "Moreover, he's already exposed by killing Hughes. Whether he dares show up again is another question. As for your suggestion of us entering the Formation first, I recommend waiting a bit longer."

"Why?" Lei Ke was puzzled.

"I've done some tricks on those five young Huaxia talents and can sense their aura; those three who entered the Early-Stage War God Realm aren't dead yet."

Fantian explained, "We can wait until they're dead to enter and investigate further. Alternatively, if they luckily break the Formation, we can avoid having to step in."

"But Doug and the others have been trying for a long time. I'm afraid we'll fall behind and miss the opportunity," Lei Ke expressed concern, having heard of the mountain's potential mysteries and opportunities.

"Lei Ke, I've reviewed some Ancient Books and notes from the Ancient Cultivation World left by the Tianzhu Alliance. I assure you, gaining a significant opportunity isn't proportional to strength but relies on luck."

Fantian shook his head, "Though Doug and the others went in first, they are few in number. If we all succeed in climbing, our luck won't be worse—this is why I've taken pains to capture several Huaxia young talents as cannon fodder for trailblazing, so everyone may ascend together!"

"Alright." Lei Ke eventually conceded.

"Lei Ke, since using them as cannon fodder means letting them serve purposefully, or else why go through the trouble of capturing them alive? Wouldn't it be simpler to kill them directly?"

Fantian sneered coldly, displaying not a trace of a Buddhist sect disciple, more like a devil monk, with a murderous aura. He viewed Xiao Selang, Ye Hei, and Wu Zi as mere fish on the chopping board, waiting to be butchered.

Xiao Selang, Ye Hei, and Wu Zi remained unaware of all this.

Within the formation, Xiao Selang was meditating to heal his consciousness as Ye Fan had instructed, while Ye Hei and Wu Zi were also in meditation cultivation.

"The amount of Heaven and Earth Primordial Qi being output by the array eye is starting to decrease. The formation is going to break soon." Suddenly, Ye Fan spoke, feeling a bit of regret in his heart.

If he could absorb a bit more Heaven and Earth Primordial Qi to store in the black and red token, his future cultivation speed would be much faster, and breaking through would become easier.

Hmm?!

As Ye Fan's words fell, Xiao Selang, Wu Zi, and Ye Hei all awoke from their meditation state simultaneously, releasing their minds and clearly sensing the decrease in the concentration and quantity of Heaven and Earth Primordial Qi emanating from the array eye, while the broken mutant beast phantoms within the formation gradually disappeared without a trace.

"The bastards from the European Union and the Tianzhu Alliance better not have left, my Big Halberd is already itching to go!"

Lv Zhan, who had been anxiously pacing, was excited upon hearing Ye Fan say that the formation was about to break, eager enough to wish he could charge out immediately.

"To climb the mountain, one must pass through this formation. Unless they don't want to ascend, they would have no reason to leave."

Xiao Selang affirmed with a certain expression: "Fantian's ambition is not small, intending to use us as cannon fodder to pave the way, wanting to lead the Tianzhu Alliance and the European Union's geniuses to compete for opportunities on the mountain, they will definitely not leave!"

"Indeed, they won't leave!"

Ye Hei and Wu Zi quickly agreed, firmly believing this point.

"The formation is about to be broken; be prepared and show no mercy." Ye Fan spoke again, his face showing no hint of mercy.

Previously, due to Yan's grand plan, he had spared the American Alliance and the other alliances a route of survival.

Now, with the young geniuses from the Tianzhu Alliance and the European Union having done such things, he was not planning to be merciful anymore!

Whoosh!

As his words fell, the array eye completely stopped its output of Heaven and Earth Primordial Qi, and Ye Fan, with a thought, withdrew the black and red token.

"White... the white mist is starting to dissipate, has the formation been broken?!"

At this moment, outside the formation, a young talent from the Tianzhu Alliance was indescribably excited, as he was only at the Half-step War God realm, without Fantian's leadership, he would have no hope of ascending the mountain.

"Praise Fantian, praise Lei Ke!"

Meanwhile, other young geniuses from the Tianzhu Alliance and the European Union were also ecstatic.

"Fantian, it seems your decision was right."

Lei Ke rarely showed a smile and looked admiringly at Fantian.

However—

The next moment.

His smile suddenly froze!

Because he suddenly sensed the presence of Six Paths!

Whoosh!

Not only Lei Ke, but Fantian, who was initially basking in Lei Ke's compliments, also had his expression change dramatically from sensing the presence of Six Paths ahead!

"Wh... what's going on?"

"They went in with five people, how can there be six presences?"

"Could there be other young Supremes from other alliances breaking the formation with them?"

At the same time, other young talents from the Tianzhu Alliance and the European Union also sensed the six presences, exclaiming in surprise.

There was no answer.

The next moment.

The white mist dissipated, figures flashed.

Ye Fan and the six others appeared in the view of Fantian and the others!

"Uh..."

The sudden scene stunned all the young geniuses from the Tianzhu Alliance and the European Union, including Fantian and Lei Ke.

Under the night sky, they stared wide-eyed, unmoving as they watched Ye Fan standing at the forefront, each with the same question in their hearts: Why is the young Supreme from Huaxia within the formation?

Why??

"Attack, leave no one alive!"

The response they received was Ye Fan's cold and harsh voice.

Chapter 793 Blood for Blood

Originally, including Lei Ke, all young geniuses of the Tianzhu Alliance and the European Union were extremely excited after detecting the formation breaking, and amidst their excitement, they greatly admired Fantian's wise decision.

At this moment, Ye Fan, accompanied by Su Liuli and Lv Zhan, appeared with Xiao Selang among others in the formation, completely stunning the young geniuses of the two alliances.

Without waiting for them to recover from the extreme shock, Ye Fan issued the command to attack.

Whoosh!

As soon as he spoke, Ye Fan's hands waved rapidly, striking one complex handprint after another. The Heaven and Earth Primordial Qi above shook violently and then completely went chaotic, surging toward the Yanhuang Furnace.

Enchanting Soul Array!

To prevent the young geniuses of the two alliances from escaping, Ye Fan used the same trick as before against the American Alliance geniuses, setting up the Enchanting Soul Array with the strongest defensive magic tool, the Yanhuang Furnace, as the Array Eye.

Gang Qi surged in, and the body of the Yanhuang Furnace flashed with ancient patterns, emitting rays of light sweeping in all directions.

The surroundings instantly changed, the flowers, grass, and trees on the mountain vanished, replaced by an endless desert, the atmosphere filled with desolation!

"What's going on?"

The sudden scene woke all the young geniuses, including Fantian and Lei Ke, from their shock, and some of them screamed in terror.

Whew!

Without an answer, Ye Hei launched the attack first. His body flickered like a ghost, instantly approaching a genius from the Tianzhu Alliance, and the short knife in his hand stabbed forward.

Pfft—

Blood splattered as the sharp short knife penetrated the head of the Tianzhu Alliance genius, killing him with one blow.

At this moment, Ye Hei used his most skilled assassination technique, silently killing a Tianzhu Alliance genius.

Whoosh!

Simultaneously, Xiao Selang leaped forward, gang qi surging violently within him. With a swift swing of his treasure sword, he slashed out a gang qi, transforming it into a blurry mountain that crashed into the crowd ahead.

Mountain Sword!

Xiao Selang's first move was the "Mountain Sword," famous for its strength, from the "Heavenly Mountain Nine Swords."

Having suffered enough humiliation from the young geniuses of the two alliances earlier, and nearly losing his life in the formation, he was filled with rage and would not hold back.

Boom!

With a massive explosion, the Gang Qi Mountain shattered, and several young geniuses in the half-step War God realm were caught in the blast, their protective auras shattered, bodies exploding into a mess of flesh and blood.

Crash—

The successive attacks by Ye Hei and Xiao Selang sent the young geniuses of the two alliances into a complete panic, scattering like frightened deer.

"It's over, we're trapped here, we can't escape!"

"It must be the formation set by the young supreme of Huaxia!"

"He used this method before to trap all the American Alliance young geniuses and killed Hughes and the others!"

Quickly, the geniuses of the two alliances shockingly found themselves surrounded, unable to escape. Many young geniuses turned pale with fear, exclaiming in horror.

Meanwhile, led by Fantian and Lei Ke, a few young geniuses who had broken through to the early-stage War God realm, were also startled by the unexpected change but did not panic. Instead, they learned the lesson from the American Alliance young geniuses and quickly regrouped.

"Everyone quickly stimulate your blood energy and move toward this side to gather strength to break the formation!"

In the crowd, Fantian shouted, reminding those panicked young geniuses while taking the lead in stimulating his blood energy.

With Fantian taking the lead, Lei Ke and the few young geniuses who had already broken through to the early-stage War God realm followed by stimulating their blood energy.

Other young geniuses, reminded as well, quickly stimulated their blood energy and rushed toward Fantian's location.

"Take a spear from your Lord Lv!"

At this moment, Lv Zhan, who had been waiting eagerly, stepped forward like a general charging a battlefield formation in ancient times, his lower body like a horse, upper body human, and unleashed his great halberd with full force!

Heaven Piercing!

Lv Zhan, who had been chased by the young geniuses of the American Alliance, survived against all odds and understood the feelings of Xiao Selang, Ye Hei, and Wu Zi, thus showed no mercy and directly used the Lv Family's inherited killing move, "Heaven Piercing."

Whoosh!

In the next moment, the gang qi within Lv Zhan surged wildly into the Lv Family's inheritance spear, shooting out a qi ray, transforming into a giant halberd, glowing with light, emanating terrifying energy waves, and stabbing fiercely toward Fantian and the others.

Whoosh!

Feeling the power of Lv Zhan's strike, the strongest young geniuses of the two alliances, including Fantian, all had their expressions change!

"I'll handle this!"

Immediately, Lei Ke shouted, taking a step forward to stand at the forefront, thrusting out his long spear, sending out a gang qi, transforming into a gang qi great spear, meeting the gang qi great halberd struck by Lv Zhan.

Boom—

In the next moment, a massive sound erupted as the gang qi great halberd and gang qi great spear clashed violently together, like two mountains colliding, the momentum astonishing.

The gang qi exploded, an energy storm swept in all directions.

Crackling!

Led by Fantian and Lei Ke, the few early-stage War God realm geniuses resisted the energy storm with their protective auras.

Meanwhile, a few young geniuses about to reach Fantian and others were caught in the energy storm, their protective auras dimming, spitting blood and being thrown away, suffering heavy injuries.

"I, Lord Lv, won't give up that easily!"

Seeing his strongest strike being neutralized, Lv Zhan felt irritation and sought to strike again.

However—

Before Lv Zhan could make another move, Su Liuli swept past him like a breeze, turning her hand into a palm, and struck fiercely.

With one palm strike, gang qi surged, transforming into a giant palm descending from the sky, striking toward Fantian and the others.

Bodhi Palm!

Su Liuli didn't hesitate, instantly unleashing the ultimate technique of Bodhi Wu Yin.

This Bodhi Palm is a move inspired by Huaxia mythology, combining the legend of The Buddha using Five Finger Mountain to crush Sun Wukong, displaying incredible power.

"Hmph!"

Seeing Bodhi Wu Yin use a Buddhist sect technique, Fantian, the Supreme of the younger generation from Tianzhu and known as the Buddhist sect's Saint, coldly snorted and activated the Gang Qi within him.

In an instant, golden Gang Qi surged from Fantian's body, transforming into a golden Buddha seated above his head, hands joined and eyes closed, as if chanting scriptures.

Woosh!

The next moment, both Fantian and the golden Buddha above him simultaneously struck out a punch, unleashing a wave of golden Gang Qi, forming a clear golden Punch Ray, blasting towards the Gang Qi palm in the air.

Vajra Fist!

Perhaps to defend his dignity as the Buddhist sect's Saint, Fantian spared no effort, unleashing his full power, and used Tianzhu Buddhist Sect's most domineering and fierce Vajra Fist.

Boom!!

A sound more terrifying than the clash between Bi Luzhan and Lei Ke rang out, the golden Punch Ray shot upwards, carrying a terrifying energy fluctuation, instantly shattering the Gang Qi palm into oblivion.

Yet the golden Punch Ray did not dissipate, like a rapidly rising golden sun, it flew towards the sky.

After the strike, the victor was clear!

As the Saint of Tianzhu Buddhism, Fantian fought head-on with Huaxia Buddhism leader Bodhi Wu Yin's disciple Su Liuli, and gained the upper hand.

This result made the few Early-Stage War God realm young geniuses beside Fantian secretly sigh in relief, also calming the panic-stricken young geniuses.

No longer running aimlessly like headless flies, they followed Fantian's directions, igniting their blood energy, swiftly approaching Fantian and his allies!

Plop—

Just then...

The sound of blood splattering rang out!

A Xuanye Flying Blade transformed into a white light, whistling through, directly piercing through the head of a young genius in the Early-Stage War God realm.

Flying Sword Skill, Chun Light!

Ye Fan also made his move, not rushing into close combat, but using the first technique of Flying Sword Skill 'Chun Light' for assassination.

In this strike, he only activated one Xuanye Flying Blade, achieving the ultimate in speed and power, so that the young genius in the Early-Stage War God realm couldn't react, slain on the spot.

"Hiss~"

The sudden scene made the young geniuses originally approaching Fantian and others gasp in shock, halting abruptly.

Whoosh!

Meanwhile, including Fantian, the expressions of several Early-Stage War God realm young geniuses changed simultaneously!

Plop—

White light flickered, the Flying Blade whistled, another young genius in the Early-Stage War God realm shot through the head, dead instantly!

Instant Kill!

Back in the Qing bang contest, Ye Fan used the Great Perfection Chun Light to turn the tide, easily executing Emperor Bai.

At that time, Emperor Bai made a breakthrough in battle, stepping into the Early-Stage War God realm, his strength not inferior to ordinary Early-Stage War God realm cultivators.

Now, aside from Fantian and Lei Ke, the strength of the other Early-Stage War God realm geniuses from the two major alliances was not much different from that of Emperor Bai back then; how could they resist Ye Fan's Flying Knife Assassination?

Clang!

As Ye Fan was about to activate Xuanye Flying Blade again and assassinate a third Early-Stage War God realm young genius, Lei Ke snapped out of his shock, flicked his wrist, and swept his spear, knocking Xuanye Flying Blade away!

"Hoo~"

Lei Ke's intervention allowed the remaining four young geniuses, aside from Fantian, to secretly sigh in relief, while pushing their Protective Aura to the extreme, instinctively scanning towards Ye Fan.

Huh?!

The next moment, they were surprised to find Ye Fan had disappeared.

Where is he?

In their hearts, they were greatly shaken, unable to locate Ye Fan's figure at all.

Where is he?

Fantian and Lei Ke were also startled, then horrified to discover that Ye Fan, taking advantage of Lei Ke's action of deflecting Xuanye Flying Blade, stepped on his Flying Shuttle, maximizing speed, rapidly closing in on them.

"Be careful, he's closing in!"

This discovery reminded Fantian of Ye Fan publicly blasting Chen Feilian and killing Hughes, he shouted loudly, "Quickly burn Gang Qi Essence, and strike with full force to kill him!"

With an angry shout, the Gang Qi ignites!

Fantian didn't act like Hughes, using the young geniuses beside him to block Ye Fan, but instead took the lead in burning Gang Qi Essence, playing the role model.

Fantian's emotional intelligence is undoubtedly higher than the deceased Hughes.

He knows that if he acts cunningly, letting the young geniuses beside him become cannon fodder to block Ye Fan, they will ultimately be killed by Ye Fan; only by uniting as one, collectively burning their Gang Qi Essence, can they resist Ye Fan.

"Blood for blood, you will all be exterminated!!"

With a furious shout, Ye Fan stepped on his Flying Shuttle, appeared out of thin air in front of Fantian and the six Early-Stage War God realm young geniuses, and struck out with a punch!

Chapter 794 Facing Six Alone, Invincible Stance!

After Qidian broke through the formation, without any hesitation, he directly ordered the attack.

Among them, Ye Hei, Xiao Selang, and Wu Zi took action successively to kill those young geniuses who had not yet broken through to the Early-Stage War God Realm, while Lv Zhan and Su Liuli targeted the eight young geniuses including Fantian in the Early-Stage War God Realm, but they couldn't even scratch them.

At the critical moment, Qidian struck, first using the Flying Sword Skill to instantly kill two young geniuses in the Early-Stage War God Realm, then taking advantage of the moment when Fantian and others were stunned, he activated the Flying Shuttle, sped to Fantian and the others at extreme speed, and directly threw a punch!

All of this seemed complex but happened extremely fast, so much so that those young geniuses who hadn't yet reached the Early-Stage War God Realm couldn't even see Qidian's move clearly.

At this moment, Qidian's momentum surged to its peak, his War Intent exploding, and his Killing Intent was awe-inspiring. His strike was the strongest killing move 'Qi Rushes to the Sky', with his whole body enveloped by evil aura, like a Demon God descending.

Danger!

As Qidian's punch was thrown, Fantian, Lei Ke, and the remaining six young geniuses in the Early-Stage War God Realm all felt the crisis.

"Attack together!"

As the crisis approached, Fantian shouted loudly and was the first to punch.

Having witnessed Qidian's terrifying close combat before, although Fantian had no time to use his strongest killing move, he did not dare to neglect either, and struck again with the 'Vajra Fist' of Tianzhu Buddhism, which has been prestigious in the global Cultivation World!

Whoo!

Fantian struck out a golden gang qi, which just formed a golden punch ray before being hit by a rushing black punch ray.

Boom——

With a loud explosion, the golden punch ray shattered instantly, gang qi shot in all directions, and an energy storm swept across.

The black punch ray only dimmed slightly but remained condensed, continuing its charge toward Fantian and others.

At this moment, Lei Ke was the second to move, he gripped his spear with both hands and stabbed fiercely, stabbing out a gang qi, evolving a big gang qi spear, aiming at the black punch ray.

Bang——

With a crisp sound, the gang qi spear struck the black punch ray, shattering inch by inch, then completely exploded, turning into nothingness.

Immediately, the attacks of the other four young geniuses in the Early-Stage War God Realm arrived as well—they threw punch rays, sword lights, and sword radiances almost simultaneously, crashing into the black punch ray.

Consecutively attacked, the black punch ray exploded with a boom, but shattered the punch rays, sword lights, and sword radiances from the other four young geniuses in the Early-Stage War God Realm, forming an even more terrifying energy storm!

Whoosh!

Whoosh!

Whoosh!

...

Perhaps the energy storm this time was too terrifying, or perhaps they didn't dare to let Qidian get close, including Fantian and Lei Ke, the remaining six young geniuses in the Early-Stage War God Realm quickly retreated.

"Uh..."

Seeing this scene, Ye Hei and Wu Zi were stunned in shock.

The two of them did not participate in the first global Cultivation World conference, nor did they witness firsthand Qidian's crushing of Chen Feilian, they just heard about it, so they only knew that Qidian was very strong in close combat, but they didn't have a clear idea of exactly how strong.

At this moment, seeing Qidian fight one against six, not only did he not fall behind but instead shocked away Fantian and the six, the shock in their hearts was imaginable?

Not only Ye Hei and Wu Zi, but Xiao Selang, although he witnessed Qidian crushing Chen Feilian that day with his own eyes, was also stunned in place at this moment.

"Ye Zi is really too strong!"

Lv Zhan, who had witnessed Qidian crushing Chen Feilian and killing Hughes and the other three unparalleled geniuses, couldn't help but exclaim.

"He already has an invincible momentum, and those six were caught off guard, not only having no time to successfully burn the Gang Qi Essence in their bodies but also not even exerting their true combat power."

Su Liuli also spoke up, giving a fair evaluation.

Although Qidian is strong, he has not reached the point of being able to repel Fantian and six others with one punch.

If Fantian and the six had not been caught off guard just now but instead fully prepared and responded with all efforts, Qidian would undoubtedly fall behind.

However——

Even so, Qidian's performance also frightened Fantian, Lei Ke, and the six other young geniuses in the Early-Stage War God Realm.

As they quickly retreated, they all looked at Qidian with disbelief, seemingly unable to believe that Qidian could repel them with his own strength!

If even they were like this, let alone those young geniuses in the two alliances who had not yet stepped into the Early-Stage War God Realm?

"How can the Huaxia Young Supreme, who isn't even at the Early-Stage War God, be so strong??"

The young geniuses retreated as one, simultaneously questioning themselves in their hearts.

Why?

Whoosh!

Their response was a sound of breaking through the air!

Qidian, after punching back Fantian and the six, without pause, seized the opportunity, completely ignoring the sweeping energy storm, stepped on the Flying Shuttle, his body flashed, and rushed at high speed towards the nearest young genius in the Early-Stage War God Realm.

Crackle!

The Energy Wave swept over Qidian's body, all blocked by his Protective Aura, like the sound of firecrackers exploding.

Swoosh!

After the crisp sound, Qidian followed like a shadow, appearing ghost-like behind that Early-Stage War God Realm young genius, swung his right hand, claw-like, as if reaching into a bag to take something, grabbed at the opponent's neck rapidly.

Swoosh!

The young genius in front of Qidian was a cultivator who used swords. Sensing the crisis, his body paused, he suddenly turned around, flicked his wrist, and the treasure sword in his hand cut out with momentum.

—Thomas Spiral Slash!

It must be said, this young genius's combat experience was very rich. In a critical moment, he made the best choice, turned defense into attack, and used the unique skill of a strong person from the European Union's Ancient Cultivation World, catching Qidian off guard.

However——

In the face of absolute power, everything is in vain!

The next moment.

In the face of the sword-wielding genius's shocked expression, Ye Fan changed the direction of his attack and seized the treasure sword in one smooth motion.

Clang!

With a crisp sound, Ye Fan directly grabbed the incoming treasure sword in his hand, and without pause, his free left hand turned into a palm and struck towards the sword genius's head.

Bang——

With a dull thud, the sword genius's head was struck by Ye Fan's palm, bursting like a crushed watermelon, instantly killing him!

"Hiss~"

This scene once again shocked Fantian and the remaining five young geniuses of the Early-Stage War God Realm including Lei Ke.

The weaker young geniuses were completely terrified.

They were like seeing a ghost in broad daylight, their eyes wide open, staring at Ye Fan in shock, motionless, like vivid statues.

"Quick, burn the essence of Gang Qi together, or we will all die here!"

After a brief moment of shock, Fantian felt a strong threat of death, and shouted loudly again.

As the shout fell, Fantian once again crazily burned the essence of Gang Qi inside him—even though before, he had only burned a trace of Gang Qi essence but was interrupted by Ye Fan!

At this moment, Fantian completely burned the essence of Gang Qi, his entire momentum, like a volcanic eruption, suddenly soared, enveloped by golden Gang Qi all over, with the golden Buddha above his head becoming more vivid and lifelike, as if it truly existed.

At the same time, Lei Ke and the remaining three young geniuses of the Early-Stage War God Realm also realized that it was a matter of life and death, so they dared not be negligent and burned Gang Qi essence like Fantian.

"Do you think you're the only ones who can burn the essence of Gang Qi?"

Lv Zhan saw this, sneered, and intended to burn the essence of Gang Qi to fight alongside Ye Fan.

"Brother Lv, you handle the others, leave these five to me."

Seeing Fantian and Lei Ke's five people burning the essence of Gang Qi, Ye Fan did not burn it but instead was fearless and even stopped Lv Zhan from joining the fight.

"Ye Zi, you..."

Lv Zhan's expression changed upon hearing this, thinking that Ye Fan was worried about his safety, and tried to say something.

However—

Before he could finish, Su Liuli interrupted: "Ye Fan knew the Australia Continent was full of dangers, yet came openly, because he wants to use all his enemies as his sharpening stone, so let him handle those five alone."

"Uh..."

Upon hearing Su Liuli's explanation, Lv Zhan, Xiao Selang, Ye Hei, and Wu Zi were stunned.

Even they were like this, let alone the young geniuses of the two major alliances?

Fantian, Lei Ke, and the five Early-Stage War God Realm young geniuses were shocked and angry.

They were amazed by Ye Fan's courage and confidence, but also angered by Ye Fan treating them as sharpening stones!

And those young geniuses of the two major alliances who had yet to break through to the Early-Stage War God Realm finally recovered from the previous shock, and upon hearing Su Liuli's words, were dumbfounded again.

They stared at Ye Fan in disbelief, as if asking: Even if the Huaxia Young Supreme appears invincible among his generation, this time all three alliances have sent out the older generation's strong people to kill him—where does he get the confidence to treat all enemies as sharpening stones?

No answer.

Within the great Formation, after regaining composure from the shock, Lv Zhan, Xiao Selang, Ye Hei, and Wu Zi did not actively request to join Ye Fan in battle, but instead directed their gazes towards the other young geniuses of the two major alliances.

Feeling the gazes of the four, the other young geniuses of the two major alliances were startled awake, no longer concerned about where Ye Fan's confidence came from, but began to worry about their own safety.

Meanwhile, even though Fantian, Lei Ke, and the five had burned Gang Qi essence, they didn't rashly launch an attack, instead gazing gravely at Ye Fan.

More precisely, they were looking at the Flying Shuttle under Ye Fan's feet.

Obviously, they all knew that Ye Fan's greatest threat was close combat.

And Ye Fan's reliance for close combat was the Flying Shuttle—not only was it lightning fast, leaving them in the dust, but it could also fly in the air, easily avoiding their attacks.

"This bastard wants to kill us all, let's attack together and take him down first!"

Fantian spoke once more, trying to incite all the geniuses of the two major alliances to jointly attack Ye Fan.

Because he was well aware, by relying solely on their five people, trying to kill Ye Fan who possessed the Flying Shuttle was nothing short of wishful thinking!

Their only path to survival was to hold Ye Fan down, then break through the Formation, and quickly escape!

The ideal is full, the reality is very bony!

Whoosh!

Whoosh!

Whoosh!

Whoosh!

Before those young geniuses of the two alliances who had not broken through to the Early-Stage War God Realm could take action against Ye Fan, Lv Zhan, Xiao Selang, Ye Hei, and Wu Zi had already made a move, attacking first.

"Liuli, guard the Yanhuang Furnace, and hold onto the Flying Shuttle. If anyone encounters danger, provide timely help."

Seeing this scene, Ye Fan worried that Lv Zhan and his group might be ambushed by Fantian and the others, decided to hand the Flying Shuttle to Su Liuli for her to provide timely support, just in case.

As his words fell, Ye Fan's consciousness moved, exerting Mind Power on the Flying Shuttle.

Whiz!

The Flying Shuttle suddenly darted, flying directly to Su Liuli's feet.

"Bastard, you're too arrogant, die!!"

Seeing this scene, Fantian was first startled, then both happy and angry, immediately shouting and pounced on Ye Fan first.

Chapter 795 Fierce Battle

Because Ye Fan owned a Flying Shuttle, not only was its speed extremely fast, but it could also fly in the air, making Fantian very apprehensive. Hence, even though he burned the Gang Qi Essence, he didn't dare to make a rash move.

At this moment, seeing Ye Fan hand the Flying Shuttle over to Su Liuli, Fantian finally launched an attack!

In his eyes, without the Flying Shuttle, Ye Fan was like a venomous snake with its fangs removed, his close combat attack power would drastically decrease, significantly reducing the threat to him.

In addition, Ye Fan also handed the Yanhuang Furnace to Su Liuli, greatly reducing his defense, making Fantian feel this was the best time to strike.

Hmm?

The next moment.

Before Fantian, who was wildly charging forward, could take action, Ye Fan suddenly swayed at his feet, his figure flickering, changing directions, not heading towards Fantian but skimming in a slant toward a young genius in the Early-Stage War God Realm.

Fast!

This time, even though Ye Fan did not activate the Flying Shuttle, he combined his physical strength with Gang Qi, his speed still astonishing, not inferior to that of Fantian burning the Gang Qi Essence.

"Watch out!"

Realizing that Ye Fan's speed was terrifying even without using the Flying Shuttle, Fantian was first shocked and then immediately stopped his form, charging towards Ye Fan while loudly warning.

Too late!

Just as Fantian's warning escaped his lips, Ye Fan appeared like a ghost in front of the closest young genius in the Early-Stage War God Realm, with his large hand sweeping out.

Danger!

The young genius in the Early-Stage War God Realm was shocked, instinctively pushing his Protective Aura to the extreme while punching towards Ye Fan!

At the same time, Fantian, like a persistent evil spirit, pounced from behind Ye Fan, also punching towards Ye Fan!

This punch, although Fantian did not have time to use his strongest killing move, he struck with full force after burning the Gang Qi Essence, its power terrifying. If it hit Ye Fan, it might not kill him, but it would inflict severe injuries.

Whoosh!

At the critical moment, Ye Fan suddenly spread his right hand wide, changing a fist into a palm, striking towards the Iron Fist coming at him.

Smack!

A crisp sound rang out as the fist of the young genius in the Early-Stage War God Realm struck fiercely against Ye Fan's palm, the Gang Qi contained within exploding instantly.

Gang Qi erupted on Ye Fan's right hand, transforming into a light that combined with his physical strength, completely blocking the opponent's attack, his palm unmoving.

Whoosh!

This result made the face of the young genius in the Early-Stage War God Realm change abruptly, intending to withdraw his fist and retreat violently.

At this moment...

Ye Fan turned his palm into a claw, his five fingers suddenly spreading open like steel claws, firmly gripping the opponent's wrist, yanking forcefully, flinging him backwards.

"No...!"

The young genius in the Early-Stage War God Realm, brushing past Ye Fan, swiftly flew backward towards Fantian, who was attacking from Ye Fan's rear.

To be precise, he flew towards Fantian's fist!

"Damn it!"

The sudden scene made Fantian's heart alarmed, wanting to withdraw his move but it was too late.

Bang—

A dull thud resonated as Fantian's fist smashed into the body of the young genius in the Early-Stage War God Realm, Gang Qi erupted, shattering the Protective Aura.

Poof—

The young genius in the Early-Stage War God Realm, unable to withstand the force impact, his body burst open, blood spraying into the air like a blooming blood flower.

Whoosh! Whoosh! Whoosh!

Simultaneously, after Lei Ke and two other young geniuses in the Early-Stage War God Realm dodged aside, they immediately launched an attack on Ye Fan, each unleashing a gun light, a sword light, and a sword radiance, howling towards Ye Fan.

This strike, unlike the first attack against Ye Fan, each of the three were well-prepared, using their strongest killing moves, the power extraordinary, determined to kill Ye Fan!

Swoosh!

As the crisis loomed, Ye Fan not only did not panic and dodge, instead, he flashed his figure, turning and pouncing towards Fantian behind him!

Boom!

A loud boom resounded as the gun light, sword light, and sword radiance unleashed by Lei Ke and the other two pierced through the afterimage left by Ye Fan almost simultaneously, then collided violently with each other, exploding with a terrifying momentum.

Gulp!

At the same time, Fantian was completely caught off guard as Ye Fan actually launched a counterattack, turning back to deal with him, immediately shocking him.

Amidst the shock, Fantian, apprehensive of Ye Fan's close combat strength, didn't dare to confront head-on. Instead, he quickly withdrew and retreated, intending to first avoid Ye Fan's edge, then join with Lei Ke and others, using Gang Qi attacks to kill Ye Fan.

As Fantian, like a startled bird, swiftly retreated, Ye Fan suddenly halted his movement, then exerted his full Mind Power on the Xuanye Flying Blade!

Poof—

White light appeared, blood splattered!

The Xuanye Flying Blade transformed into a white light, silently and swiftly pierced through the head of the young sword-wielding genius, killing with one strike!

Feign to the east, attack to the west!

This strike, Ye Fan utilized these four words to the extreme, seemingly avoiding the attack, seizing the opportunity to attack Fantian up close, but in reality, he was paralyzing Lei Ke and the others, then suddenly launching a killing move, using the Flying Blade to execute a one-hit kill!

Within just a few breaths, two more young geniuses in the Early-Stage War God Realm were killed by Ye Fan.

And this was without Ye Fan using the Flying Shuttle and Yanhuang Furnace!

This outcome filled the last young genius in the Early-Stage War God Realm with deep fear, and also left Fantian and Lei Ke feeling a deep sense of unease!

Meanwhile, Lv Zhan, Xiao Selang, Ye Hei, and Wu Zi were not idle either; they each made a move, like wolves entering a flock of sheep, mercilessly and madly slaughtering those young geniuses who have not yet broken through to the Early-Stage War God Realm!

Chapter 796 Intense Battle_2

All of this was because the young talents of the two great alliances were truly too provoking. Previously, they treated Xiao Selang and others as prisoners, cannon fodder, to kill the mutant beasts and break through the Killing Array—it was more hateful than killing them!

"Die for me!"

Seeing the situation turn unfavorable, Fantian roared loudly, but he did not attack Ye Fan again. Instead, his body shot out like an arrow from a bowstring, rushing towards Su Liuli.

Admittedly, Fantian was not lacking in emotional intelligence.

By now, he knew that, even by burning the Gang Qi Essence, there was no hope of killing Ye Fan. On the contrary, if he fought Ye Fan head-on, it would be difficult for him to survive against him.

Thus, his only way out was to break this formation and escape!

This Enchanting Soul Array was activated with the Yanhuang Furnace as the Array Eye. As long as he attacked the Yanhuang Furnace, he could break the formation!

"Hoo!"

With a furious roar, Fantian's Gang Qi surged wildly within him, his entire body enveloped in golden Gang Qi. His momentum skyrocketed as if the Dou Zhan Sheng Buddha had descended.

The Gang Qi surged as Fantian didn't hesitate, turning his hands into palms and striking out instantly. Gang Qi sprayed out in streams, weaving into a colossal golden Buddha.

The golden Buddha sat cross-legged in the air, holy and solemn, with dozens of pairs of hands all over, dazzling and inscrutable.

Thousand-Handed Guanyin!

At this moment, Fantian had staked everything to break the formation and survive, unleashing the top skill of Tianzhu Buddhism, 'Thousand-Handed Guanyin.'

Facing Fantian's attack, Su Liuli did not dodge but remained calm, standing in front of the Yanhuang Furnace with a solemn expression. She swiftly waved her hands, releasing streams of Gang Qi, which transformed into a large tree blocking in front.

Bodhi Tree!

At this critical moment, Su Liuli used 'Bodhi Tree,' uniquely created by Bodhi Wu Yin, to counter Fantian's attack.

Bodhi Tree is the strongest martial arts technique in "Bodhi Skill"; it embodies the essence of Bodhi Wu Yin's martial arts and Buddhist insights, reputed as the strongest martial arts technique of the time, comparable to the Ancient Heavenly Technique.

A clash of killing moves, a needle against a wheat awn!

On that day, Su Liuli once dazzled at the Qing bang competition with this move, defeating a Shaolin genius in public, defending Bodhi Wu Yin's status and dignity as the leader of Huaxia Buddhism. What about today?

At this moment, the duel between Fantian and Su Liuli symbolized the confrontation between Tianzhu Buddhism and Huaxia Buddhism!

Hoo! Hoo! Hoo!

For a moment, the Gangfeng howled.

Dozens of hands swung simultaneously from the golden Buddha, palm strikes descending from the sky, covering the sky and earth as they shot towards Su Liuli with terrifying force.

Su Liuli, undaunted, waved her hands, and the Bodhi Tree sent out branches like octopus tentacles to clash with the golden palms.

Bang! Bang! Bang!

Continuous muffled sounds rang out as each golden palm, carrying fearsome energy waves, struck the Gang Qi-transformed branches.

The branches shattered inch by inch, scattering and transforming into Gang Qi, permeating the air, while the golden palms dimmed slightly but did not disappear, continuing forward.

At this moment...

Su Liuli's hands quickly waved again, and the Gang Qi from the shattered branches reconverged, forming leaves enveloping the dozens of golden palms.

Boom!!

In the next instant, a huge roar emanated as the sky exploded, all leaves and golden palms vanished without a trace, leaving only the pervasive Gang Qi.

"Unity!"

Fantian sneered coldly, waving his hands suddenly, and the scattered Gang Qi also reconvened, forming into a massive, almost tangible golden palm, once again advancing towards Su Liuli.

Thousand Hands Returning to One!

This was the essence of the 'Thousand-Handed Guanyin' killing move, similar in principle to the swordsmanship technique All Swords Return to the Root, turning parts into a whole with unparalleled might.

"Liuli, be cautious, use the Yanhuang Furnace to defend!"

The sudden change made Ye Fan's heart jump, prompting him to remind hastily.

Su Liuli could feel the power of Fantian's strike but didn't retreat or follow Ye Fan's suggestion to use the Yanhuang Furnace for defense. Instead, she quickly waved her hands once more.

Streams of Gang Qi once again surged from Su Liuli's hands, entering the Bodhi Tree transformed from Gang Qi.

In an instant, the Bodhi Tree began to throb with vitality, its trunk growing larger, sprouting several branches and leaves, evolving towards a towering tree.

Boom!!

However—

Before the Bodhi Tree could completely transform into a towering tree, the massive golden palm descended fiercely, striking the Bodhi Tree. Yet, it didn't immediately destroy the Bodhi Tree but was instead suspended in the air by it.

"Blocked?!"

Seeing this, Fantian's eyes widened in disbelief!

He knew that at this moment, he had already burned the Gang Qi Essence and used his strongest killing move...

In his view, even someone as regarded as invincible among the younger generation like Doug would find it difficult to withstand his strike.

Yet, Su Liuli blocked it with the 'Bodhi Tree,' which couldn't help but shock him?!

Boom!!

At the next moment, an even more intense boom erupted as the Bodhi Tree collapsed and exploded, vanishing completely.

The massive golden palm blurred slightly but did not dissipate, continuing to press downward, enveloping Su Liuli and the Yanhuang Furnace within it.

Whoosh!

Seizing the opportunity while the Bodhi Tree held back the golden palm, Su Liuli quickly grabbed the Yanhuang Furnace, stepped on the Flying Shuttle, and her figure flashed instantly over a hundred meters away, successfully escaping the range of the golden palm's attack.

Boom!!

Once again, a loud noise emanated as the golden palm struck with terrifying momentum, landing where Su Liuli had stood, the ground exploded, revealing a massive palm print, surrounded by cracks, resembling ground just rocked by an earthquake.

Although Su Liuli's strength was slightly inferior to Fantian's and despite Fantian burning the Gang Qi Essence, even using the Bodhi Tree comparable to the Ancient Heavenly Technique couldn't completely nullify Fantian's strongest killing move; it rendered Fantian's attack ineffective, making his plan to break the formation fall through!

However—

At this moment...

Lei Ke and the last young Early-Stage War God Realm genius wielding a blade seized the opportunity, attacking Su Liuli simultaneously.

In an instant, gun light and sword light reappeared, whistling towards Su Liuli at lightning speed!

Chapter 797 Leave No One Behind!

Though Su Liuli, using the advantage of her cultivation technique and employing the Bodhi Tree's supreme skill, temporarily held off Fantian's Thousand-Handed Guanyin, securing herself a chance to dodge, the consumption was enormous and her Gang Qi had become somewhat chaotic.

At this moment, Lei Ke and the young genius using a knife launched an attack, taking advantage of Su Liuli's weakness to try to take her life—truly vicious to the extreme!

Swish!

As the crisis descended, Su Liuli had no chance to dodge. In desperation, she could only place the Yanhuang Furnace in front of her, injecting a stream of Gang Qi to activate the defensive array within the furnace. Black light flickered on the body of the furnace, rippling like waves.

Boom—

The gun light and sword light collided almost simultaneously with the Yanhuang Furnace, shattering under the impact of the black ripples, and an energy storm swept in all directions.

The black ripples on the Yanhuang Furnace dimmed and it was sent flying backward by the counterforce.

Splat—

Su Liuli swung her hands out in a palm shape to catch the Yanhuang Furnace that was flying backward. The terrifying force caused her to retreat several steps, her face turning pale.

Lei Ke and the knife-using genius's combined attack not only broke Ye Fan's Enchanting Soul Array set up using the Yanhuang Furnace as an Array Eye, but also demolished the defensive array inside the furnace, nearly injuring Su Liuli.

Swish! Swish! Swish!

As the Enchanting Soul Array broke, Fantian, Lei Ke, and the knife-wielding genius fled without a word.

"Trying to escape?"

Ye Fan roared and with a flicker of his body, reached an extreme speed, leaving afterimages behind. Within two breaths, he caught up to Lei Ke and the young genius wielding the knife, delivering a punch directly!

As the punch was launched, Gang Qi surged madly from within Ye Fan's body to his palm. Combined with his physical strength and enveloped in evil yin aura, it whipped up a tidal wave of Qi, sweeping towards Lei Ke and the knife-wielding young genius.

The young genius wielding the knife, slower than Lei Ke and at the back, couldn't even dodge before getting hit by the Qi wave. His protective aura shattered, and his body exploded, spraying flesh and blood everywhere.

Danger!

Meanwhile, sensing the danger, Lei Ke's mind stirred and he suddenly turned, thrusting out his spear.

Back-thrust spear!

The spear thrust out, an overwhelming Gang Qi shot from the spear's tip, piercing a hole through the Qi wave, nearly penetrating the entire wave, greatly weakening Ye Fan's strike.

Crackle!

Then, the Qi wave swept over Lei Ke, causing his entire body to tremble violently, and the protective aura dimmed.

Whoosh!

At this point, Ye Fan used his speed advantage to close the distance, appearing directly behind Lei Ke, and threw another punch!

Whoosh—

The punch was thrown, causing the air to scatter. The evil yin aura in the air seemed attracted, surging into Ye Fan's right fist, merging with the Gang Qi Ye Fan released, coating the fist's surface, lights flickering.

Lei Ke's face changed dramatically, his heart trembled wildly, unable to dodge, he had no choice but to thrust out his spear again, Gang Qi surged at the spear's tip, dense and undispersed.

Clang!!

With a crisp sound, Ye Fan's right fist, like a hammer, slammed into Lei Ke's battle spear. The terrifying force skewed the spear tip, and the punch, undiminished, struck Lei Ke's chest.

Pfft—

Lei Ke's protective aura completely dimmed, developing numerous cracks. He spewed fresh blood, was knocked flying, and his internal Gang Qi went chaotic, severely injuring his internal organs, meridians, and bones.

Swish!

Without waiting for Lei Ke to stabilize himself and adjust the chaotic Gang Qi within him, a Xuanye Flying Knife tore out from his sleeve, transforming into a white light, whizzing towards Lei Ke.

Pfft—

White light appeared, blood splattered!

The sharp Xuanye Flying Knife pierced into the center of Lei Ke's brow, his head exploded instantaneously, and he was killed on the spot!

Ye Fan, combining magic and martial arts, practically obliterated Lei Ke, the leading figure among the young geniuses of the European Union!

This outcome utterly shocked the young geniuses of the Tianzhu Alliance and the European Union, who hadn't yet broken through to the Early-Stage War God Realm, making them completely lose their will to fight to the death.

Fantian was also frightened!

While rushing to flee, he happened to glance over and see this scene, which scared him into a shiver, causing a brief chaos in his internal Gang Qi and a reduction in speed!

Moreover, because the Enchanting Soul Array was broken, the young geniuses of the American Cultivator Alliance, African Union, and Russian Alliance also witnessed everything.

Not only did they see corpses and flesh scattered everywhere, but they also saw Ye Fan, using both magic and martial arts, strongly kill Lei Ke in one scene!

This scene deeply shocked them!

"Fantian, can you escape?"

Instantly, before the geniuses of the Three Great Alliances could collect their thoughts, just as Fantian was about to accelerate his escape, Ye Fan let out a loud roar.

With the roar, the mind moved!

Zoom!

The Flying Shuttle suddenly flew up, landing at Ye Fan's feet.

Ye Fan's figure flickered, stepping onto the Flying Shuttle, and pursued Fantian at high speed.

The sound of Ye Fan's angry roar reached his ears. Sensing Ye Fan's aura approaching rapidly, Fantian's face changed, he hurriedly maximized his speed to continue escaping.

However—

Even without using the Flying Shuttle, Ye Fan's speed was not much different from Fantian, who was burning Gang Qi Essence. Upon activating the Flying Shuttle, in terms of speed, how could Fantian possibly compare?

Within three breaths, Ye Fan closed the distance to Fantian, entering attack range.

"Scum, don't push me!"

Fantian was in a panic, like a yellow dog cornered against a wall, and roared.

Whoosh!

As his roar subsided, Fantian caught a glimpse of Ye Hei nearby on the right, killing those fleeing young talents, and, spurred by impulse, he punched towards Ye Hei's back!

"Liu Li, strike!"

Ye Fan raised an eyebrow and quickly reminded Su Liuli.

Swish!

Even though Su Liuli was focusing on Ye Fan, she also sensed Fantian's action and understood his intentions. Without hesitation, she hurled the Yanhuang Furnace in her hand, which transformed into a black light, flying towards Ye Hei.

Meanwhile, as Ye Fan rapidly approached, he suddenly waved his right hand, releasing a burst of Gang Qi into the Yanhuang Furnace, triggering the formation within it, causing the furnace to glimmer again.

Bang—

At the next moment, just as Fantian's golden punch ray was about to strike Ye Hei, the Yanhuang Furnace landed five meters behind Ye Hei, struck by the golden punch ray. The furnace shook violently but was not knocked away like before.

This was not because Fantian's attack power was inferior to the combined efforts of Lei Ke and the young talent with the knife but because Lei Ke and the young talent had attacked with full force earlier. In contrast, Fantian acted hastily, intending to force Ye Fan to save Ye Hei, buying time for his escape!

"Damn it!"

Seeing that Ye Fan did not stop his pursuit but instead teamed up with Su Liuli to activate the Yanhuang Furnace's defensive formation, helping Ye Hei withstand his attack, Fantian was anxious and wished he could exert all his strength.

"The young Supreme from Huaxia is truly dominant!"

"Yes, before, those young talents from Huaxia were oppressed like slaves, almost dying in the formation. Once the young Supreme from Huaxia arrived, they swept the field, even forcing Fantian to flee like a stray dog!"

"The young Supreme from Huaxia has a flying shuttle, Fantian can't escape, he's likely to be killed!"

Just as Ye Fan closed the gap with Fantian again, Lv Zhan, Xiao Selang, and others finished their battle, standing by the side, watching the spectacle alongside the young talents from the American, African, and Russian Alliances.

Among them, the talents from the African and Russian Alliances, having no grudges with Ye Fan and the young talents from Huaxia, boldly discussed.

"I warned Fantian and the others that the young Supreme from Huaxia is not to be messed with, but Fantian didn't believe me, and now it's too late for regrets!"

Additionally, the young talent from the American Cultivator Alliance, who couldn't help but warn Fantian and others earlier, also spoke up.

In his eyes, this scene was a replay of Hughes being killed before—Fantian was about to lose his life!

"Scum, there are older experts from the Three Great Alliances nearby. If you want to live, leave quickly!"

Indeed, Fantian regretted his decisions deeply.

He felt he had been too careless before, but regrets were futile now, and he could only suppress his inner fear, feigning composure to try to scare Ye Fan away.

"Even if Buddha comes today, he won't save you!"

Ye Fan responded coldly, filled with killing intent, but did not attack. Instead, he continued to close the distance with Fantian, preparing to kill him up close.

"Die for me!!"

Fantian knew Ye Fan's plan well, and seeing that he couldn't scare Ye Fan away, he steeled his heart, abruptly stopped his movement, turned around, and rapidly moved his hands.

Thousand-Handed Guanyin!

As the crisis loomed, Fantian dared not hold back and unleashed his strongest killing move to fight desperately.

In an instant, golden Gang Qi surged out, once again manifesting a golden Buddha in the air, countless golden palms sweeping towards Ye Fan.

Whoosh! Whoosh! Whoosh!

Ye Fan did not slow down, and with a thought, three Xuanye Flying Blades transformed into three white lights, aligning in a straight line towards the front.

Clang! Clang! Clang!

Three crisp sounds echoed consecutively as the three Xuanye Flying Blades successively hit three golden palms, sending them flying into the sky, but also causing those three golden palms to explode and vanish.

At the same time, Ye Fan maximized his speed, taking advantage of the gap created by the explosion of the golden palms, slipping through the golden palms' blanket attack with ease and successfully approaching Fantian!

"You have no chance!"

Ye Fan got close, shouted in a low voice, as Gang Qi surged wildly within him, and his right fist struck out fiercely.

Qi Rushes to the Sky!

This punch held all of Ye Fan's built-up strength and was his strongest killing move upon release!

Fantian, having just used "Thousand-Handed Guanyin," had yet to retract his moves and could do nothing but watch as Ye Fan's fist came towards him, unable to change moves or even dodge!

Bang—

A muffled sound echoed as Ye Fan's fist solidly struck Fantian, combining physical strength with Gang Qi and Evil Yin Qi for immense power, instantly shattering Fantian's protective aura.

Fantian's whole body shuddered violently, flying backward as his internal organs, meridians, bones, and muscles shattered, bleeding from seven orifices, suffering unimaginable injuries!

"Die!!"

Immediately, before Fantian hit the ground, Ye Hei, who was almost killed by Fantian's sneak attack earlier, full of resentment and seeing Fantian heavily wounded and powerless, ghost-like caught up with Fantian, and slashed out with a short knife.

Puff—

The blade light flashed, and Fantian's head was directly cut off, falling to the ground, with hot blood spewing like a fountain, dyeing the sky red.

None remains!

Ye Fan's words became reality.

All the young talents from the Tianzhu and European Unions, including Fantian, were killed!

Chapter 798 Dominating the Younger Generation

The night was as dark as ink, a night breeze dispersed the blood mist in the sky, bloodstains and corpses could be seen everywhere on the ground, looking extremely tragic.

"Damn it, got any more nerve to brag?"

Ye Hei sliced off Fantian's head with a single strike, seemingly still unsatisfied, he kicked Fantian's headless body, sending flesh flying.

"Hiss~"

Witnessing this scene, the young talents from the American Alliance, African Union, and Russian Alliance all shivered in fear, their mouths twitched, they gasped in cold air, afraid that Ye Hei would vent his anger on them.

Swish!

Ye Hei heard the sound, immediately looking at the young talents from the Three Great Alliances with an unfriendly gaze.

Due to the previous actions of young talents from the Tianzhu Alliance and European Union, he not only hated the young talents of these two alliances, but also held strong vigilance and hostility towards the young talents of the other Three Great Alliances.

"Grudges have heads, debts have owners, this matter has nothing to do with them, no need to make things difficult for them." Ye Fan remarked, reminding him.

If people do not offend me, I will not offend them; if people do offend me, I will repay tenfold!

This has always been Ye Fan's principle of conduct.

He is not a merciful person, but neither is he a demon who kills innocents, only seeking revenge with grievance!

"Hmm."

Hearing Ye Fan's words, Ye Hei nodded, withdrew his gaze, and walked towards Ye Fan, holding a bloodstained short knife.

"What did the young Supreme of Huaxia say?"

Meanwhile, not far away, a cultivator from the American Alliance asked nervously.

"He said this matter has nothing to do with us, he won't trouble us." A young talent who understood Huaxia language said, letting out a long breath of relief.

Earlier, when he saw Ye Hei's icy gaze sweeping over, it felt like the end of the world was coming, his calves were shaking.

"Phew~"

As his words fell, the surrounding young talents from the American Alliance, African Union, and Russian Alliance all secretly let out a sigh of relief.

"Fantian, known as the young Supreme of the Tianzhu Alliance, was nearly killed in seconds by the young Supreme of Huaxia, if I hadn't seen it with my own eyes, I wouldn't believe it!"

"Yes, the young Supreme of Huaxia is indeed powerful; among the younger generation, probably only Doug can match him!"

"Mind you, he has not yet broken through to the Early-Stage War God Realm... If he does, who in the younger generation could be his opponent?"

Upon learning that Ye Fan would not kill the innocent recklessly, the young talents from the African Union and Russian Alliance couldn't help but discuss again, marveling at Ye Fan's strength.

Hearing the discussions of young talents from the African Union and Russian Alliance, the young talents from the American Alliance felt uncomfortable, wanting to retort—Ye Fan's invincibility has an inseparable relationship with possessing three high-level magic artifacts and one mid-grade flying magical artifact.

Of course, they only refuted this in their hearts.

After all, they also understood that the artifact itself is part of one's combat power, moreover, even without artifacts, Ye Fan might not necessarily be unable to defeat Hughes, Fantian, and Lei Ke.

More importantly, they are under the eaves and have to bow; under the current circumstances, even if given ten guts, they wouldn't dare speak disrespectfully to Ye Fan!

Ye Fan heard the discussions of young talents from the African Union and Russian Alliance, but did not care, instead quickly heading towards Su Liuli.

"Liuli, are you alright?"

Ye Fan stopped in front of Su Liuli, asking with concern.

Swish!

A few from Lv Zhan heard this and also turned their gazes towards Su Liuli.

Previously, they all saw that Su Liuli first engaged fiercely with Fantian, and then was sneak attacked by Lei Ke and the young talent using a knife. Although she successfully resisted with the Yanhuang Furnace, she looked very disheveled, her face pale, seemingly lightly injured.

"It's nothing, my Qi and blood were unstable earlier, and my Gang Qi was a bit disordered, but now it's stable." Su Liuli shook her head, signaling Ye Fan not to worry.

Ye Fan, hearing this, was relieved, wanting to say something, but Lv Zhan gave a thumbs up in praise: "Younger sister-in-law, you could actually withstand Fantian's strongest killing move after burning Gang Qi Essence, that's really impressive!"

"Yes, under those circumstances, if it were the four of us, we would certainly die."

Xiao Selang nodded in agreement and then couldn't help recalling when Su Liuli was almost defeated by a genius from Shaolin Temple at the Qing bang tournament, marveling at the terrifying legacy—Su Liuli's improvement in strength was really rapid!

"Compared to Lady Su, Ye Fan is the more astonishing one."

Ye Hei couldn't help but speak, "Without breaking through the Gang Qi Introduction Realm, he could cut down young Supremes like mowing grass, if he does break through the Gang Qi Introduction Realm, dominating the younger generation will be a sure thing!"

"If Brother Ye employs both magic and martial arts, he might not even need to break through the Gang Qi Introduction Realm to reign over the younger generation."

Wu Zi couldn't help but speak up, Ye Fan's achievements in magic alone made him admire, along with formidable close combat power, he felt even if the so-called strongest of the younger generation, Doug, fought against Ye Fan, he would be utterly defeated.

"Leaf is beyond words, this guy is simply a monster, it's unknown how he cultivates."

Lv Zhan jokingly cursed, then sought Ye Fan's opinion, "Leaf, these guys more or less have some stuff on them, the old rules, treat them as spoils of war?"

"You four divide the magic artifacts, give Liu Li and me some beast cores, we need to recover the Gang Qi consumed in our bodies." Ye Fan said.

Chapter 799 - Dominating the Younger Generation_2

"Alright!"

Lv Zhan heard this, and then, with Xiao Selang, Ye Hei, and Wu Zi, began clearing the battlefield and collecting spoils of war.

Seeing this scene, the young geniuses of the American Alliance, African Union, and Russian Alliance were all filled with envy but could only watch helplessly without daring to have any ideas.

Moments later, Lv Zhan and the others had looted the magic artifacts, beast cores, and elixir pills from the young geniuses of the Tianzhu Alliance and the European Union, gaining quite a substantial haul. They collected over ten magic artifacts, numerous beast cores and elixir pills, and even found a plant essence on Fantian.

"Ye Zi, since you don't want the magic artifacts, these beast cores and plant essence are all for you and your sister-in-law," Lv Zhan said after tallying the spoils, placing all the beast cores and plant essence into a bag and handing it to Ye Fan.

Ye Fan nodded, reached out to take it, and was just about to find a quiet place to meditate and restore his depleted Gang Qi with Su Liuli when he suddenly saw a young genius from the African Union walking over.

"Respected young Supreme of Huaxia, hello."

Before getting close, the young genius from the African Union bowed and greeted, his attitude very respectful.

"Hello, do you need something?"

Ye Fan didn't act arrogantly; he appeared very easygoing, a stark contrast to when he had been slaying in battle.

"May I ask, can my companions and I continue forward?" the young genius from the African Union asked full of longing.

The formation ahead had been successfully broken by Ye Fan, and if he allowed them to proceed, they could move forward directly.

"You may."

Ye Fan nodded, and then, considering Yan's grand plan, he added, "But, there are a lot of strange dangers on this mountain, with more than one killing array. It's very perilous; if careless, you could lose your life. You must decide whether to continue forward."

"Thank you for the warning. If we encounter another killing array that cannot be broken, my companions and I will choose to leave."

Not expecting Ye Fan to offer a reminder, the young genius from the African Union was first stunned and then gratefully replied.

"Respected young Supreme of Huaxia, we are cultivators from the Russian Alliance. May we enter?"

Seeing Ye Fan permit the young genius from the African Union to proceed, a young genius from the Russian Alliance quickly asked.

"Yes."

Ye Fan nodded again and then turned to the young geniuses of the American Alliance, "I've settled all our accounts. If you wish to proceed, I won't stop you."

With those words, Ye Fan flew ahead with Su Liuli, searching for a quiet spot to meditate and cultivate.

Lv Zhan, Xiao Selang, Ye Hei, and Wu Zi did not rush to continue but meditated and cultivated on the spot.

Firstly, although their Gang Qi wasn't as severely depleted as Ye Fan's, they still consumed a lot and needed recovery to face upcoming dangers.

More importantly, they waited for Ye Fan to recover and lead them up the mountain — with their strength, they couldn't even break the Exotic Beast Formation and would only face death if they ascended alone!

While Ye Fan and others meditated for recovery, the young geniuses of the African Union, Russian Alliance, and American Alliance easily passed through the previously daunting formation area and continued forward.

Halfway up the mountain, including Doug, the Heavenly Pride talents Ye Fan encountered earlier were still arranging formations, divided into different camps, carefully sensing the formations ahead as they prepared to break through.

"Hey, how come so many people arrived all of a sudden?"

After some time, as the young geniuses of the Three Great Alliances were about to reach halfway up the mountain, Doug and other Heavenly Pride talents sensed their presence and looked over curiously.

Soon, Doug and others clearly saw that the young geniuses of the Three Great Alliances were divided into three camps, rushing over quickly.

"How did they pass the Exotic Beast Formation at the bottom of the mountain?"

Instantly, Doug and other early-arriving Heavenly Pride talents were stunned.

Indeed...

It was astonishing!

Each of them had already broken into the Early-Stage War God Realm.

However—

Even so, earlier, when facing the Exotic Beast Formation, they felt extremely perilous; if not for partnering with companions, undoubtedly there would have been grave danger!

And now, not a single young genius from the Three Great Alliances had broken into the Early-Stage War God Realm, yet they all arrived...

How could this not shock them?

"Milov, how did you all break through the Exotic Beast Formation?"

After a brief shock, a Heavenly Pride talent from the Russian Alliance spoke first, asking the question on everyone's mind.

"The young Supreme of Huaxia broke the formation..."

A young genius named Milov explained truthfully.

"What?!"

Before Milov could finish, the African Union's young Supreme, Farro, interrupted, his face changing with surprise, "You said the young Supreme of Huaxia broke that Exotic Beast Formation??"

"Yes, Lord Farro."

Hearing Farro inquire, a genius from the African Union responded.

"This...how is this possible??"

Farro looked incredulous.

He was the only magician among the young Supremes of the several alliances.

He knew the terrors of that Exotic Beast Formation more than anyone present.

Earlier, despite sensing the Array Eye with strong mental perception, he couldn't break the formation, having to force through with companions.

"The young Supreme of Huaxia not only broke the Exotic Beast Formation but also led other young geniuses of Huaxia to kill the young geniuses of the Tianzhu Alliance and the European Union!"

While Farro was deeply shocked by Ye Fan's actions, a young genius from the American Alliance couldn't help but say, "Fantian, the young Supreme of the Tianzhu Alliance, was nearly instantly killed by him! All other young talents perished, not a single soul survived!"

Fantian was instantly killed?!

No young genius from the two alliances survived??

For a moment, silence enveloped the surroundings, shock prevalent on the faces of the gathered Heavenly Pride talents.

Including Olivia!

Though she had previously predicted that Ye Fan might go on a rampage, when it truly happened, she was somewhat taken aback by Ye Fan's strength and iron-handedness!

"First he defeated Chen Feilian, then killed Hughes and two others, and now instantly killed Fantian, bloodwashing both the Tianzhu Alliance and European Union's young geniuses — is the young Supreme of Huaxia aiming to dominate the younger generation?"

After a brief shock, a Heavenly Pride from the Russian Alliance whispered, vocalizing the hearts of all present.

Chapter 800 - Elder Masters in Action

Ye Fan broke the 'Exotic Beast Formation', almost instantly killing Fantian, leading other young geniuses of the Hua Xia Cultivation World to bloodily sweep the young talents of the Tianzhu Alliance and the European Union. This truly shocked the Heavenly Prides present, who had already broken through to the Early-Stage War God Realm, and even one proposed that Ye Fan should dominate the younger generation.

In an instant, the mountainside fell silent once more.

The young supremes Rovski of the Russian Alliance and Farro of the African Union both frowned, showing a solemn expression.

As fellow young supremes, they were all proud and carried a heart of 'invincibility among peers'.

Originally, Doug dominating them had already made them feel immense pressure; now Ye Fan's strong rise brought them equal pressure.

"Hey, Hua Xia's young supreme is strong, but he's largely dependent on external objects. When it comes to true strength, he's not that impressive,"

Rovski and Farro remained silent, yet other Heavenly Prides were unconvinced by Ye Fan, claiming his combat prowess largely relied on Magic Artifacts.

"Even without relying on external objects, he absolutely counts as a young supreme."

Olivia mockingly glanced at the Heavenly Pride who spoke, saying, "Characters like you aren't even qualified to be his opponent."

"You..."

Stunned by Olivia's words, the Heavenly Pride felt as if slapped in public, his face turning red with embarrassment.

"Want to fight, or do a life-and-death duel?" Olivia sneered.

No response.

Facing Olivia's dominance, the Heavenly Pride could only swallow all humiliation and frustration, clamping his mouth tighter than a virgin's legs.

Because he knew, although Olivia didn't have the fame of a young supreme, her strength was definitely not inferior to other young supremes, merely overshadowed by Doug—when people discuss the Dark Council's Saint Heir and Holy Maiden, they always mention Doug first, ignoring Olivia.

"Olivia, Hua Xia's young supreme is strong, but not as exaggerated as you say. If fighting without using Magic Artifacts, we might not be inferior," Young Supreme Rovski of Russian Alliance frowned at Olivia and said.

"He already possesses an invincible force; even without Magic Artifacts, I don't think anyone could defeat him."

Olivia curled her lips, saying, "Besides, don't forget, he hasn't even broken through to the Early-Stage War God Realm yet, yet he's already this strong. Imagine how powerful he'd be if he did?"

"__"

Rovski was speechless.

Being invincible among peers not only means being undefeated among young talents in the same era but also being invincible in the same realm.

Ye Fan is now just a Half-step War God, yet he can easily kill the dominator of the Early-Stage War God Realm, a feat far beyond what he can achieve.

While Rovski was at a loss for words, Doug also frowned—he, at the Half-step War God realm, was definitely not a match for Ye Fan!

After frowning, Doug strangely glanced at Olivia, seeming surprised by her act of speaking for Ye Fan.

"Rare to meet someone with hopes of competing with you; I don't wish just any Tom, Dick, or Harry can be compared to him, otherwise it not only degrades him but also you, isn't it?" Noticing the unusual look in Doug's eyes, a hint of panic flashed in Olivia's brows before she blinked her big eyes and said.

Doug said nothing, withdrew his gaze, then looked at the Formation ahead, expressionless, and walked over.

"What is Doug doing?"

The crowd exclaimed in surprise upon seeing this scene.

Swoosh!

The next moment, under everyone's gaze, Doug stepped out and directly entered the Formation, disappearing from sight.

"Doug, how can you not wait for me?"

Olivia shouted angrily, then quickly followed in Doug's footsteps, also entering the Formation.

"Let's go!"

Seeing Doug and Olivia enter the Formation one after another, African Union's young supreme Farro hesitated briefly, then made his decision.

As his words fell, Farro did not pause, immediately taking five companions into the Formation, disregarding those young talents of the African Union.

"Let's go in too."

Indian young supreme Zuma turned to look at his companions, seeing no objections, grabbed his large bow, and directly entered the Formation.

"Don't expect me to protect or take care of you all, I dislike dragging burdens."

Rovski frowned at the Russian Alliance's young talents, coldly said, "Additionally, I need to remind you, although you have luckily reached here without breaking through the Exotic Beast Formation, I must remind you that given your strength, entering the Exotic Beast Formation would surely mean death. And although we don't know what this Formation ahead is, it's certainly more terrifying than the Exotic Beast Formation—you enter only to die!"

With that, Rovski no longer paid attention to the Russian Alliance's young talents and directly took five Heavenly Prides with him into the Formation.

What to do?

With the disappearance of Rovski and the five others, not only the young talents of the Russian Alliance but also those of the African Union and the American Alliance simultaneously had the same thought occur to them.

"After finally reaching here, if I don't go in and check it out, I'll regret it for life!"

The next moment, a young genius from the American Alliance shouted, not knowing if he was telling others or motivating himself.

Once said, he gritted his teeth and was the first to enter the Formation.

"This mountain is highly enigmatic and very dangerous, but it equally holds opportunities. The mountaintop might have unexpected treasures, like Ancient Heavenly Techniques, inheritances from the Ancient Cultivation World, etc. . . giving up now would be a real shame. I suggest we group up and go in together—we so many joining forces, might not be inferior to them!" proposed a young genius.

"Indeed, risks and rewards coexist, there's no reason to give up, I'm willing to group up and enter!"

"I am also willing!"

At once, several young geniuses began to express willingness, reaching a third of the total number, while the remaining two-thirds remained silent.

"Opportunities exist, but at least we need sufficient strength to obtain them, I don't want to send myself to death!"

Soon, some young prodigies backed down and chose to leave.

"If you're dead, you have nothing. Only by staying alive can there be hope. I don't want to throw my life away."

As the young prodigy departed, others responded in agreement.

Immediately, the young prodigies of the Three Great Alliances split into two groups; some chose to form teams and enter the Formation, while others chose to leave, the numbers were evenly divided.

"Let's go. I want to see what lies inside this Formation!"

Before all the backing down young prodigies left, the first to propose forming teams to enter the Formation shouted loudly, taking the lead towards the Formation ahead.

Clearly, he feared that with the passage of time, those who initially decided to enter as a team might change their minds.

Moments later, under the lead of that young prodigy, all those who decided to team up and enter the Formation went in together, while many of the remaining chose to leave, and a small number decided to stay outside the Formation and wait for the outcome.

Meanwhile, the sole entrance at the foot of the mountain.

A figure stood with hands behind his back at the entrance, enveloped by a stream of air that obscured his features, his robe fluttering noisily without wind.

"Hoo!"

Suddenly, the person standing at the entrance swung his right hand, emitting a wave of Gang Qi that transformed into a vivid giant dragon, rushing towards the entrance ahead.

Gang Qi forming a dragon!

Yanhuang Fist!

The person who made the move was none other than the Yan, who occupied the first position on the Divine List for years.

In the next moment, the giant dragon directly entered the entrance without making any noise, as if it never appeared.

This result made Yan furrow his brows again, then after some thought, he quickly dashed towards the entrance, planning to storm through.

Boom—

In the next moment.

An invisible force halted Yan's steps, sending him flying.

"This Formation is ridiculously strong; it really seems impossible to enter. I'll have to wait for Xiao Fan to come out and ask him what's inside."

After failing multiple attempts to attack the Formation and storm through it, Yan reluctantly decided to leave.

Before leaving, he released his Mind, sensing behind him, he surprisingly detected a dozen or more presences, with the strongest being a Mid-stage War God.

In response, Yan did not hesitate or linger; he left directly.

"Damn it, I thought we could definitely take out that little Huaxia brat this time, but Yan unexpectedly showed up here, and he's guarding the entrance."

Three kilometers from the entrance, a middle-aged man with a beard grumbled reluctantly.

"It's fine if we can't kill that kid; with Yan blocking the entrance, we can't even climb the mountain."

"Yeah, I was thinking of climbing the mountain to see if I could find an encounter or treasure!"

"Why don't we just go over there? Yan doesn't know our purpose, maybe he won't make things difficult for us?"

"Hey, do you think Yan is stupid? If he didn't know the Three Great Alliances sent us old guys to deal with that kid, why would he be here?"

For a moment, sixteen older generation cultivators from the American Alliance, European Union, and Tianzhu Alliance spoke up, either complaining or offering suggestions, but their opinions weren't unified.

Whoosh!

Suddenly, a sinister-looking elder in a black robe opened his eyes and said coldly, "Yan has left."

"Left?!"

Upon hearing the elder's words in astonishment, those veteran experts from the Three Great Alliances stood up in shock, several asking in unison, "Master Damon, are you sure?"

"Sure."

Damon said solemnly, "Earlier, he kept trying to enter the mountain, but failed both in forcibly breaking the Formation and storming in."

"Do you mean, he didn't intend to stop us? Or, he didn't intend to protect that kid?" someone asked, half-skeptically.

"It should be like this."

Damon's eyes glinted brilliantly, "After all, the Evil Emperor of Huaxia once said, if rivals of the same generation or elders with equivalent power kill his disciple, he won't pursue the matter."

"But you are a Mid-stage War God..."

"You all go into the mountain now and eliminate that kid in the shortest possible time," Damon interrupted coldly, "I'll guard the entrance to prevent his escape."

"Okay!"

Upon hearing Damon's words again, the fifteen cultivators from the Three Great Alliances responded excitedly as if pumped with adrenaline, then rushed to the entrance.

Moments later, they successfully entered the mountain, leaving only Mid-stage War God Damon outside the mountain gate, his whole body exuding killing intent, like a Killing God.

"Kid, I hope you can have an encounter and successfully evade their pursuit."

Damon did not attempt to break or storm the Formation like Yan; instead, he smiled grimly, "Heh heh, that way, both your encounters and all your treasures will be mine!!"
