

## The Yun Family's Ninth Child is an Imp! Chapter 1386

The seven of them laughed out loud in disdain. San Jiaoyan laughed the most, and then he stood there dumbfounded!

No!

Impossible!

The two spiritual powers collided. Shouldn't both sides cancel each other out and the remaining spiritual power continue to attack?

Why was only his poisonous snake dissipating, but the little piglet was becoming more and more solid?

Could it be that the little piglet had eaten his poisonous snake?

How, How was this possible?

While San Jiaoyan was still in a daze, the Little Piglet had already finished devouring the poisonous snake and was pouncing towards him.

San Jiaoyan hurriedly dodged to the side. He never expected that the spiritual energy little piglet would turn around and bite his shoulder.

San Jiaoyan screamed in pain. He was also panicking. He actually used his hand to pull the spiritual power piglet. The spiritual power piglet bit off a part of his thumb.

San Jiaoyan screamed even more miserably this time. He was almost not moving anymore.

Fortunately, the spiritual power piglet's spiritual power was exhausted and dissipated. Otherwise, San Jiaoyan's right hand would have been crippled.

The other six people could not help but take two steps back. This little girl's spiritual power materialization was too strange! Moreover, wasn't she at the fifth level of the spirit sect? How could she know a high-level materialization technique? Could it be that she was a spiritual venerable?

San Jiaoyan swallowed a hemostatic pill and said to the others, "What are you all standing there for? This little girl is so strange. She must have a lot of treasures on her. Kill her, and those treasures will belong to us!"

The eyes of the other six people revealed a greedy light. Although they were somewhat afraid of Yun Chujiu's true spiritual power, but when they thought that there were seven of them, it didn't matter even if Yun Chujiu was a spiritual venerable, so they swarmed forward.

Yun chujiu curled her lips. "You all asked for this. It's a good time for me to exercise my muscles and Bones!"

Yun Chujiu didn't release her puppets because she felt that she could use these people to gain some actual combat experience, so she moved around and fought with the seven people.

The seven people released their spiritual beasts and pounced towards Yun Chujiu. Yun chujiu waved her hands and several spiritual pigs rushed towards the spiritual beasts.

The seven people were so scared that they almost cried out. How, How was this possible? Didn't they say that the high-level physical transformation technique could only use one spiritual beast at a time? How could she release so many little pigs?

Could it be that she was using the middle-level physical transformation technique? But, why were these little pigs so agile with the middle-level physical transformation technique? And they could even devour spirit energy?

The seven of them felt regret in their hearts at this moment!

If they had known that this little girl was so perverted, they wouldn't have robbed her no matter what. She was a pervert!

However, there was no medicine for regret in this world. They could only grit their teeth and endure. Although this spirit energy little pig was perverse, its spirit energy would disappear once it dissipated. They didn't believe that., this little girl could continuously release the little piglet of spiritual power. Even if she was tired, it would exhaust her to death.

An hour later.

Tears streamed down the seven people's faces. They had no choice but to face a tragic fact. If they continued fighting, the little girl would probably tire themselves to death. They would tire themselves to death!

One of the short and fat men said, "Brothers, let's retreat. We probably won't be able to take down this little girl today!"

The other six also had the intention to retreat, so they exchanged glances and wanted to run. Yun chujiu sneered, "Want to run? You're dreaming. You can run if you want to, but leave all your valuables with me!"
