

ZONGWU: SIGN IN AN ARMY OF 100,000 AT THE BEGINNING

Chapter 1

Song Dynasty

On an official road, a luxurious carriage headed towards Gusu City escorted by a thousand soldiers.

There was a frail young man in his twenties sitting in the carriage, but now this young man looked a bit sad.

"I'm so unlucky, what kind of world is this? I can travel through time just by sleeping, and I've also traveled to the Song Dynasty, which was plagued by internal and external troubles."

"But fortunately, the person he replaced was a city lord who had just taken office, and he had the same name as himself. He was considered a high official, but it seemed that there was no city lord in the Song Dynasty, right? Moreover, as the city lord, I have very great power. I alone have the final say in Gusu City."

"Alas, it's okay to travel through the Song Dynasty, but why do he still have the Five Ultimates, the Beggar Gang, the Shaolin Temple, the Tianshan Sect, and other Jianghu forces?"

"And besides the Song Dynasty, why are there the Yuan, Ming, Sui, Han, and Qin? Su Chen was a little helpless now. This was a combination of some dynasties in history."

Su Chen understood that the Song Dynasty was previously besieged by the Liao Kingdom, Jin Kingdom, Xixia and other countries. Although the Song Dynasty solved the crisis by ceding territory and paying compensation, these countries can still attack the Song Dynasty in the future, and the city lord of his own can still attack the Song Dynasty. I don't know how many days it can take

"Your Majesty, we will arrive in Gusu City in the afternoon. It is already noon now. Do you want to take a rest before setting off?"

At this time, a big man's voice came in from outside the carriage.

Su Chen knew that this was his guard commander Wang Hu. Basically what he knew was what Wang Hu told him. This Wang Hu was also a master of the third level of innateness. Su Chen also relied on him to come here from the imperial city of Kaifeng.

Su Chen's predecessor's father was a Lord Wu Xiang, and he was transferred to Gusu City after inheriting this title. Don't say that the Song Dynasty was nothing. Your title, this is the world of mixed martial arts, everything that is unreasonable is very reasonable here.

"Wang Hu, find a place to rest and let the soldiers rest too."

"Yes, Your Majesty."

Su Chen looked outside and felt a little upset. Su Chen didn't know how long he could live in this world. He was now a martial arts waste with blocked meridians. Su Chen had no hope of practicing martial arts at all.

"Ding, the system is restarting, hello host, I am the gift package system."

Suddenly a woman's voice came from Su Chen's mind.

Su Chen stood up immediately when he heard the system's voice.

"Damn it, I have a system too? Time travel is indeed reliable, every time traveler will have a system"

"Ding, host, don't be delusional. There are no time travelers in the world. You were just accidentally brought to this Tianxuan Continent by this system. If this system had not been damaged in the turbulence of time and space, this system would not have fought with you. Bound together."

Su Chen said angrily after hearing what the system said,

"I guess, I don't want to come here yet, now you can send me back to my original world."

The system said to Su Chen mockingly,

"Idiot, are there any systems in the novels you read that send the original owner back to his original world?"

"Um, it seems not"

"Host, this system needs to go to sleep immediately because it was damaged in the space turbulence. In the future, there will be subsystems of the system to serve you. Now you can ask me a question."

"Holy shit, I have so many questions to ask, why can I only ask one question now?"

"Just one question, the system is going to sleep, do you want to ask?"

Su Chen said helplessly,

"Ask, please tell me what the system is used for."

"This system is a gift package system. The host can get a gift package every month, and the gift package can contain items and characters from all over the world. Okay, the system has been introduced. This system is going to sleep. Finally, I will tell you that the system space host can use it. This is considered the host's novice gift package, hidden."

Su Chen asked hurriedly after hearing this,

"Damn it, system, why did you just say these things? Please tell me more specifically, system, please answer quickly."

"Ding, the gift package system starts to serve the host."

When Su Chen heard this old-fashioned voice, he knew that the system had fallen asleep, and this was just a subsystem.

Su Chen thought for a moment that he had not received a gift package, and then asked,

"Does the system now have a gift package for me?"

"Ding, has the host received the first gift package?"

"receive"

"Ding, the gift package has been distributed in the system space. The host can receive the next gift package one month later."

"Open the gift package."

Su Chen looked at a gift package box in the system space and said to the system,

"Ding, the gift bag has been opened. Congratulations to the host for getting one hundred thousand elite troops and one hundred thousand taels of gold."

Su Chen felt a little helpless when he saw the reward he received.

"Damn it, this is a mixed martial arts world. What's the use of the army? Give me some panacea, martial arts secrets, anything."

Su Chen waited for a while but didn't see any response from the system. Su Chen could only hold his nose and admit it. Su Chen thought that with these armies, he had some ability to protect himself. When he arrived in Gusu City, he could be considered to have an army. The city can be defended.

Su Chen took out two cards from the system space and looked at them to understand how to use them. These armies can be summoned separately, and they all have identities when they come to this world. They were obtained from the system. The characters are all 100% loyal to themselves, which saves Su Chen a lot of trouble.

Su Chen looked at the borrowed soldiers outside and said to the system, "System, deploy 10,000 cavalry five miles away, and let these troops come to me soon"

"Ding, 10,000 elite cavalry have been deployed and will be at the host's side within half an hour."

After hearing this, Su Chen opened the curtains on the carriage and said to Wang Hu,

"Wang Hu, tell these soldiers to go back, we don't need them now."

Wang Hu said anxiously after hearing Su Chen's words,

"Your Majesty, if all these soldiers go back, we will only have more than a hundred guards left, and your safety will not be guaranteed."

Wang Hu now feels that Wu Xiangjun has changed a bit. He has been depressed ever since Wu Xiangjun asked him about things in the martial arts world. Now it seems that Wu Xiangjun has cheered up.

Su Chen looked at this loyal king. Tiger smiled and said,

"Wang Hu, we have troops. After all, these troops are borrowed. Eventually, these troops will have to leave. Let them leave now."

Wang Hu asked a little surprised now,

"Do we have an army? Your Majesty, where are our troops?"

Su Chen saw a tea shop not far away and said to Wang Hu,

"You don't need to know this. Let these troops leave now. We will wait for the arrival of the latter troops at the tea shop in front."
