

ZONGWU: SIGN IN AN ARMY OF 100,000 AT THE BEGINNING

Chapter 6

When Su Chen looked at this huge Gusu City, he was a little puzzled. How did Murong Fu attack this Gusu City? Su Chen saw that the walls of this Gusu City were very high. How could Murong Fu's rabble Maybe break in?

"See Mrs. Jun, see Princess."

Zhao Kuan saluted immediately when he saw an extremely beautiful woman and a little girl coming out.

"Get up."

When Yan saw that the general had recognized the wrong person, she didn't explain anything. She just looked at her mother's blushing face and said with a smile,

""Xie Princess."

Zhao Kuan looked at the little princess and immediately led the way towards Su Chen. The surrounding soldiers immediately alerted the surroundings. A battle had just broken out here. If an assassin appeared to assassinate the wife and the princess, that would be They failed in their duties.

Su Chen looked at the ancient Gusu City along the way and nodded with satisfaction. This Gusu City was quite big. It looked like there must be at least 100,000 civilians here.

At this moment , Su Chen saw hundreds of people kneeling in front, surrounded by soldiers of the Xuanwu Legion guarding them.

"I've met your Majesty"

"Are these all members of the Murong family?"

"Yes, Your Majesty, these are the guards of the Murong family."

"Kill them all. From now on, as long as they are not important figures in the Murong family, all others caught will be executed."

""Yes, Your Majesty."

The commander immediately ordered the crossbowmen, "Crossbowmen, prepare, release."

In just a moment, all the Murong family guards here were executed.

Su Chen looked at it and prepared to execute him. The Murong family left first when they were guarding him. He didn't want to see people killing people anymore. Now he was still nauseated. It seemed like he had exercised a lot.

"Wang Hu, tell me how this Gusu City was taken away by the Murong family. The spies should have found out."

Wang Hu was a little unkind to the former city lord's army and said to Su Chen,

"Your Majesty, the troops from Gusu City have been called to the border to participate in the war against Xixia. There are not many troops left in Gusu City."

"After the death of the original city lord, the Murong family launched a rebellion in Gusu City. Your Majesty, you also know the combat effectiveness of the Song Dynasty's army. The remaining 10,000 troops here were defeated and fled without even fighting the Murong family's guards.."

Su Chen finally understood why the Murong family could occupy this Gusu city.

"It turns out that the rebellion was launched in the city. It seems that the Murong family wants to deal with him, otherwise they will keep an eye on their own Gusu City."

Su Chen thought for a while and said to Wang Hu,

"Wang Hu, when he issued a wanted order in my name, he said that the Murong family was plotting to rebel, and asked the city lords throughout the Song Dynasty to arrest everyone in the Murong family."

"In addition, a martial arts reward order was issued. Anyone who captures the main figures of the Murong family can get ten thousand taels of gold. If they capture Murong Fu, they can get fifty thousand taels of gold. As for the others, it's up to you."

"This is Your Majesty, Your Majesty, this is the City Lord's Mansion."

"Let's go in and take a look at our future home, and change the City Lord's Mansion to Wu Xiangjun's Mansion."

"Yes, Your Majesty."

Jing Sala and Yan looked at the deserted Gusu City and slowly walked in the direction of Su Chen. However, when Su Chen ordered the execution of the rebels, Yan pulled Jing Sala tightly. He looked at Su Chen with his hands with some fear. Now Su Chen felt that Yan Yan was a little strange.

Jingli looked at the look and said comfortingly,

"Yan, these are all people who deserve to die. What Su Chen did was very right. You shouldn't be afraid."

Jing Salamander never thought that a weak scholar like Su Chen could have such a tough and cold side. It seems that he will have to get to know this Lord Wu Xiang better in the future. Yan reluctantly said with some anxiety,

"I'm not afraid, I just feel that Su Chen seems a bit strange now. He is not the Su Chen I just met."

Yan watched Su Chen and his guard commander leave after talking to each other. She now looked at Su Chen who was leaving with some confusion. At this time, Su Chen looked like two different people from the Su Chen she had just met. Yan Now he is also a little afraid of Su Chen.

Jingyu pulled Yan and walked in the direction of Su Chen,"You will understand after this, let's go"

"Well."

Su Chen entered the City Lord's Mansion and found that the City Lord's Mansion was larger than he imagined, and it was also very gorgeous. It seemed that the previous City Lord was also a corrupt official, otherwise it would have been impossible to build the City Lord's Mansion as luxurious as it was.

Su Chen When Chen looked at such a big mansion, he thought of Ziyun and the other little girls.

"Wang Hu, you can bring all our servants in the imperial city, as well as Ziyun and the others, please make arrangements to pick them up."

"Yes, Your Majesty"

"Wang Meng, the commander of the Xuanwu Legion, has met your Majesty."At this time, Wang Meng from the Xuanwu Legion came to Su Chen and saluted.

Su Chen looked at the mighty Wang Meng and nodded and said,

"Wang Meng, now you are responsible for the defense of Gusu City. You must protect Gusu City for me."

Wang Meng looked at Su Chen and reported,

"Yes, Your Majesty, Your Majesty, some of the main figures of the Murong family had already run away before we came, but all the others in Gusu City were executed. In addition, we found out that the Murong family was in Gusu City. of all finances. Su

Chen said nonchalantly, "Oh, just run away. You can't catch Murong Fu if he runs away. Tell me, how much money was seized this time?"

At this time, Wang Meng said excitedly,

"Your Majesty, this time we have seized more than 200,000 taels of gold and 600,000 taels of silver. These were all plundered from Gusu City by the Murong family in the past six months."

Su Chen took a breath when he heard Wang Meng's report.

"Hiss, there is so much money. It seems that the Murong family is preparing to rebel. These Xianbei dogs really deserve to die."

"Wang Hu, as soon as it was spread that the Murong family was from the Xianbei tribe, he said that the Murong family was preparing to rebel against the country. He also spread the news that Murong Fu had robbed the money in Gusu City, and said that Murong Fu ran away with the money."

Su Chen heard how much money Murong Fu had plundered, but this time he got an advantage. He didn't know whether Murong Fu was heartbroken or not, but Su Chen still planned to cause some trouble for Murong Fu. Anyway, there is no one now. Knowing that the money that Murong Fu collected was in his hands

"Don't worry, Your Majesty, I know how to do it. The Murong family will definitely be hunted down by those martial arts people this time."

Su Chen smiled and waved his hand to let Wang Hu handle this matter. There is also the Yanzhiwu of the Murong family. Su Chen also wants to destroy it.

In the future, there may be no Nan Murong. This Murong Fu couldn't catch him now, so he had to ruin his reputation first.

Su Chen thought of Murong Fu's Yan Zhiwu and ordered,

"Wang Meng, Yan Zhiwu outside Gusu City also sent troops to destroy them. Those are martial arts people. It is best not to engage them in close combat and shoot them directly with our crossbows."

"Yes, I immediately sent a thousand captains to lead troops to destroy Yan Zhiwu."

Su Chen suddenly thought of A'Zhu and A Bi and hurriedly called Wang Meng.

"Wait, there are two maids inside named A'Zhu and A Bi. I want to live with both of them."

"Why live? Are those two maids pretty? Is this worthy of my mother?"
